# 1. Overview

Jet-Magento Integration is an extension, developed by CedCommerce, establishes a synchronization of inventory, price, other details for product creation and its management between the Magento store and Jet.com.

This extension interacts with Jet Marketplace to integrate the synchronized product listing between the Magento and the Jet.com retailers. After installing the extension, merchant can create the Jet Categories and the dependent attributes on the Magento store.

The process enables merchant to configure the desired product category into Magento for automatic submission of the selected product to the same Category on Jet.com.

### Jet Magento Integration extension provides following features:

- Profile based product upload
- Easy Jet Category and Attribute mapping
- Manage Jet Product and Upload Product (directly from grid and bulk upload all products)
- Product Synchronization
- Manual synchronization process
- Review Product Upload Errors
- Automated Order Import and Acknowledgement
- Shipment and Cancellation of Orders
- · Automated Shipment with Shipworks and Shipstation
- Multiple Shipment of an Order
- Fetch and Submit Return
- Create Refund
- Upload Configurable Product
- Upload simple Product
- Archive Selected Product
- Archive Products in Bulk
- Unarchive Selected Product
- Unarchive Products in Bulk
- Shipping Exception
- Return Exception
- CRON Facility
- Knowledge Base
- Map Magento Global variant attributes

*Caution:* Extension is heavily dependent on Crons for running various automated processes. So, make sure that Cron Job is properly configured and working on the server.

# 2. Jet Integration Extension Installation

### To install the extension

1. Log in the ftp, and then go to Magento root folder (generally present under the public\_html folder).

- Overwrite the *app, skin, js* and *var* folders in the same sequence as illustrated in the following steps:
   a. Drag and Drop the *app/code, app/design, js, skin* and *var* directories.
  - b. Finally, upload the *app/etc* directory. After the folders are loaded successfully, the extension is installed or upgraded.

# 3. Jet Configuration Settings

Once the extension is successfully installed on the Merchant's store, the Jet menu appears on the top navigation bar dispalyed in the Magento Admin Panel. The merchant has to fill-in the API credentials in the **Jet Configuration** page of the admin panel.

The user has to log in the https://partner.jet.com/(https://partner.jet.com/) to obtain the following API credentials:

- Jet API key
- API Secret
- Fulfillment Node Id

After obtaining the API credentials, the merchant has to copy all of them one by one from the Jet Partner account and paste it one by one to the Configuration page of the admin panel of the merchant.

To follow the process of copying and pasting of the API credentials,

• Open the Jet Partner account and the Magento Admin Panel in two different tabs or windows of the browser. Thus, copy the keys from the Jet Partner account and paste them one by one to the Magento Admin Panel.

OR

• Use the **Get Jet Credentials** button available on the Jet Configuration page of the admin panel of the merchant.

### To Copy the Configuration Settings from the Jet Partner account

Close

1. Go to thehttps://partner.jet.com/ (https://partner.jet.com/) login.

The page appears as shown in the following figure:

Cashboard				jet Developer Portal
Fulfillment	Overview File Uploads			
Products	Products	Manage	Orders	Order Generator   Manage
insights BETA	All Products	14	Created Completed	0 2
API			<b>Returns</b> Open return	Return Generator   Manage

2. In the right-upper corner of the page, click the **Get API Keys** button. The **Sandbox API Keys** dialog box appears as shown in the following figure:

Sandbox API k	<i>(eys</i>	\$
API user		
Secret		
Merchant Id		

- 3. Copy all the API keys for further use.
- 4. Click the **Close** button.
- 5. On the left navigation bar, click the Fulfillment menu.

The Fulfillment Node ID is generated and the page appears as shown in the following figure:

A Dashboard	📮 Fulfillment	& Returns Settings	5

- 4. Under Jet Settings, do the following steps:
  - a. In the **Enabled** list, select **Yes**.

*Note* : Selecting the **No** option hides all other fields of **Jet Settings.** Thus, the user cannot set-up the API settings in the Magento store.

- b. In the **Sandbox mode** list, select Yes to configure the Integration in the Test Enviroment. *Note* : Select the **No** option to configure the Integration in production enviroment.
- c. Click the **Get Jet Credentials** button to to obtain the API credentials from the existing Jet partner account.

OR

Click the Create Jet Account button to create the account to obtain the API credentials.

- d. In the API Test User box, paste the corresponding API User value copied from the Sandbox API Keys dialog box of the Jet Partner Account.
- e. In the API Test Secret box, paste the corresponding Secret value copied from the Sandbox API Keys dialog box of the Jet Partner Account.
- f. In the Fulfillment Node Id box, paste the corresponding Fulfillment Node ID value copied from the Fulfillment & Returns Settings page of the Jet Partner Account.
- g. In the **Debug mode** list, select **Yes** to start Jet Integration in the debug mode. It captures the log for the debug process.
- h. In the Select Store list, select the single store.
- i. In the Choose Default Payment Method for Jet Orders list, select the required option.
- j. In the Order Prefix for Jet Orders box, enter the prefix value.
- k. In the Store Admin Email Id box, emter the email-id.

I. In the **Enable Automated Shipment** list, select the required option.

#### 5. Click the **Return location** tab.

The Return location tab is expanded as shown in the following figure:

Return Location		0	
First Address		[GLOBAL]	
Second Address		[GLOBAL]	
City		[GLOBAL]	
State		[GLOBAL]	
Zip Code		[GLOBAL]	
	▲ give 5 digit zip code		

6. Under Return location, enter the values in the following fields:

- First Address
- Second Address
- City
- State
- Zip Code

### 7. Click the **Jet Repricing Settings** tab.

The Jet Repricing Settings tab is expanded as shown in the following figure:

Jet Repricing Settings			۵
Repricing Enabled	No	[GLOBAL]	
Global Repricing Enable	No	[GLOBAL]	
	If your all products are having same price or you want to set a global minimum and maximum price for all products then you can enable it otherwise disable it. You will also get product wise repricing in product edit section		

#### 8. Under Jet Repricing Settings, do the following steps:

- a. In the **Repricing Enabled** list, select the required option.
- b. In the **Global Repricing Enable** list, select the required option.

*Note*: If all the products are having the same price or the admin wants to set a global minimum and maximum price for all the products, then the admin can enable it otherwise disable it. Admin can also enable or disable the product wise repricing in the product edit section.

### 9. Click the Product Edit Settings tab.

The **Product Edit Settings** tab is expanded as shown in the following figure:

Product Edit Settings		٥
Auto Sync With Jet	Yes ▼ A If product is disabled or deleted it auto archive the product on jet.com.	[GLOBAL]
Show Upload Button	No	[GLOBAL]
Archive Child Products	No ▼ ▲ Choose whether child product need to be archieved on jet.com once it's parent config product is disabled or deleted	[GLOBAL]

- 10. Under **Product Edit Settings**, do the following steps:
  - a. In the Auto Sync With Jet list, select Yes or No.
     Note: If the Yes option is selected, then if the product is deleted or disabled from the product edit page magento it will automatically archived on the jet.com.
  - b. In the Show Upload Button list, select Yes or No.
  - *c. Note*: If the **Yes** option is selected, then on product edit page **Validate and Upload Product** button will appear on top.
  - d. In the Archive Child Products list, select Yes or No. Note: If the Yes option is selected, then the child product is archived on jet.com once its parent config product is disabled or deleted.
- 11. Click the Minimum Jet Attribute Mapping to List Mapping on Jet.com tab.

The tab is expanded as shown in the following figure:

No return ree aujustment	Attribute type - Numeric	[OLODAL]

- 14. Under Jet Additional Attribute Mapping, select the corresponding attributes for mapping:
  - **Amazon Item Type Keyword**: Select the Text-Type attribute. It allows customers to find the specific products.
  - Number Units For Price Per Unit: Select the Numeric-Type attribute. The attribute value should specify unit of measure to indicate what is being measured by the unitcount.
  - Type of unit for price per unit: Select the Text-Type attribute. The atribute value of the type\_of\_unit\_for\_price\_per\_unit attribute is defined as a label for the atribute value of the number\_units\_for\_price\_per\_unit attribute.
     price per unit = selling price divided by the number of units and appending the text *per unit value*. For example: If the product is six-pack of soda, then number\_units\_for\_price\_per\_unit= 6, type\_of\_unit\_for\_price\_per\_unit= can, thus, price per unit = price per can.
  - **Package Length Inches**: Select the Numeric-Type attribute. The allowed attribute value is >= 0.01.
  - **Package Width Inches**: Select the Numeric-Type attribute. The allowed attribute value is >= 0.01.
  - **Package height inches**: Select the Numeric-Type attribute. The allowed attribute value is >= 0.01.
  - Display Length Inches: Select the Numeric-Type attribute. The allowed attribute value is >= 0.01.
  - **Display width Inches**: Select the Numeric-Type attribute. The allowed attribute value is >= 0.01.
  - **Display Height Inches**: Select the Numeric-Type attribute. The allowed attribute value is >= 0.01.
  - Legal Disclaimer Description: Select the Text-Type attribute. Any legal content that the admin wants to display with the product.
  - **Safety Warning**: Select the Text-Type attribute. Limitation on the attribute value is 2000 characters.
  - **Country Of Origin**: Select the Text-Type or the Select-Type attribute. Specifies the country where the product is manufactured. Limitation on the attribute value is 50 characters.
  - **Manufacturer's Suggested Retail Price**: Select the Numeric-Type attribute. Retail price or list price suggested by the manufacturer. The allowed attribute value is >= 0.01.
  - Fulfillment Time: Select the Numeric-Type attribute.
  - No return fee adjustment: Select the Numeric-Type attribute.
- 15. Click the Save Config button.

# 4. Manage Profile

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento attributes with the Jet attributes. These attributes are applicable to all the products that are assigned to the profile.

### Admin can do the following tasks:

- Add new profile(http://docs.cedcommerce.com/jet-magento-integration-guide/?section=manage-profile)
- Edit the existing profile(http://docs.cedcommerce.com/jet-magento-integration-guide/?section=edit-the-existing-profile)
- Delete the profile(http://docs.cedcommerce.com/jet-magento-integration-guide/?section=delete-the-profile)
- Submit Actions(http://docs.cedcommerce.com/jet-magento-integration-guide/?section=submit-actions)
- Upload Products(http://docs.cedcommerce.com/jet-magento-integration-guide/?section=upload-products)

# 4.1. Add New Profile

### To add new profile

- 1. Go to the Magento Admin panel.
- 2. On the top navigation bar, click the **Jet** menu. The menu appears as shown in the following figure:

Jet System	
Manage Profile	
Manage Product	4
Jet Orders	4
Configuration	
Extras	4

### 3. Click Manage Profile.

The Jet Profile Listing page appears as shown in the following figure:

Jet Pro	file Listing							Add New Profile
Page 🔣 1	🕑 of 1 pag	ges   View 20 🗸 perpage	Total 3 records found				Re	eset Filter Search
Select All	Unselect All	Select Visible   Unselect Visible	0 items selected				Actions	✓ Submit
	ID †	Profile Name	Status		Total Item	Active Item	Inactive Item	Action
Any				~				
	1	Profile 1	Active		0	0	0	~
	2	Profile 2	Active		5	0	0	~
	3	Shirt	Active		1	0	0	~

On this page all the available profiles are listed.

### 4. Click the Add New Profile button.

The page appears as shwon in the following figure:

Profile Information	Add Jet Profile	Back Reset Ø Save Ø Save and Continue Edit Ø Save and Upload Product
Profile Info		
Jet Category Mapping	Profile Information	
Profile Products	Profile Code *	
		For internal use. Must be unique with no spaces. Profile code must start with small letters.
	Profile Name *	
		Give some name to profile to identify them
	Status *	Inactive
		Make active to enable the profile

5. In the right panel, under Profile Information, do the following steps:

- a. In the **Profile Code** box, enter a profile code.
   *Note:* It is only for the internal use. Use the unique profile code with no spaces. Start with small letters.
- b. In the **Profile Name** box, enter the name of the profile. *Note:* Use the unique name to identify the profile.
- c. In the **Status** list, select **Active** to enable the profile. *Note:* The Inactive option disables the profile.
- 6. In the left navigation panel, click the **Jet Category Mapping** menu.

The page appears as shown in the following figure:

Add Jet Pr	ofile	Back	Reset	Save	Save and Continue Edit	Save and Upload Product
Jet Category M	apping					
Select Preferre Please Choos	d Jet Catego e Category .	ry to be Mapp	ed			
Jet / Magento /	Attribute Ma	oping (Requir aento attribute	ed/ Variant :	mapping)

14. Select the check box associated with the required product that the admin wants to assign to the new profile.

A dialog box appears as shown in the following figure:

Warning!	
This action will remove Are you sure?	this product from already assigned profile
,, ,	
	OK Cancel

15. Click the **OK** button.

The check box is selected and the product is assigned to the profile.

16. Click the **Save** button.

The created profile is saved and listed on the Jet Profile Listing page.

Or Click the **Save and Continue Edit** button to save the created profile and continue editing, if required. Or

Click the **Save and Upload Product** button to save the profile and make ready to upload the product on Jet.com.

The assigned products are listed on the **Product Manager** page as shown in the following figure:

# 4.2. Edit the Existing Profile

### To edit the existing profile

- 1. Go to the Magento Admin panel.
- 2. On the top navigation bar, click the **Jet** menu. The menu appears as shown in the following figure:

Jet System	
Manage Profile	
Manage Product	4
Jet Orders	4
Configuration	
Extras	4

### 3. Click Manage Profile.

The Jet Profile Listing page appears as shown in the following figure:

Jet Prof	ile Listing					O A	dd New Prof	ile
Page 🔣 1	🕞 of 1 pag	ges   View 20 🗸 per page   Total 3 records found				Reset Fi	lter Sear	ch

	ID †	Profile Name	Status		Total Item	Active Item	Inactive Item	Action
Any				~				
	1	Profile 1	Active		0	0	0	~
	2	Profile 2	Active		5	0	0	~
	3	Shirt	Active		1	0	0	~

On this page all the available profiles are listed.

- 4. Select the check boxes associated with the required profiles.
- 5. Click the Arrow button next to the **Actions** field.
  - The Actions list appear as shown in the following figure:

Actions	~	Submit
Inac	Delete	Action
	Change status	

6. In the **Actions** list, click **Delete**, and then click the **Submit** button. A confirmation dialog box appears as shown in the following figure:

OK	Cancel

7. Click the **OK** button.

The selected profiles are deleted.

#### To change the satatus of the selected profiles

- 1. Go to the Magento Admin panel.
- 2. On the top navigation bar, click the **Jet** menu. The menu appears as shown in the following figure:

Jet System	
Manage Profile	
Manage Product	A
Jet Orders	4
Configuration	
Extras	4

### 3. Click Manage Profile.

The Jet Profile Listing page appears as shown in the following figure:

Jet Prof	file Listing						1	Add New Profile
Page 🔣 1	🕞 of 1 pag	es   View 20 🗸 perpage   Total	3 records found				Re	set Filter Search

	2	Profile 2	Active		5	0	0	~
	3	Shirt	Active		1	0	0	~

On this page all the available profiles are listed.

- 4. Select the check boxes associated with the required profiles.
- 5. Click the Arrow button next to the **Actions** field.

The Actions list appear as shown in the following figure:

Actions		~	Submit
Inac	Delete		Action
	Change status	;	

6. In the **Status** list, click **Change status**.

The Status field appears next to the Actions list.

Actions	Change status	Status	Inactive	Submi
Actions	Change status *	Otatus	macuve *	Subill

7. In the **Status** list, select the required option, and then click the **Submit** button. The status is changed and a success message appears.

# 4.5. Upload Products

The admin can upload the products that are assigned to the selected profile and are listed on the **Product Manager** page to the Jet.com.

Other than the Validate & Upload Products to Jet action, the admin can also perform the following actions on the selected products available on the Product Manager page:

- Validate Products: To validate the product before uploading it to the Jet.com. It displays the corresponding validation error, if any. If there is no error, it confirms that the product is ready to upload.
- Archive Products on Jet: Disables products from Jet.com.
- Unarchive Products on Jet: Enables products on Jet.com.
- Sync Inventory and Price: To update the price and inventory of the product on Jet.com. For example, if the admin has changed the product price and inventory on the Magento store and also wants to change the price and inventory on Jet.com then this action is applicable. The price and inventory are updated when the user submits this action for the selected product. This action completes all the job related to the product inventory and also it manages the quantity related issues.
- Sync Product Status: To get the request from Jet.com to update the status of the product on the Magento store. It helps the admin to view the status of the product. For example, unpublished, transmit, data fix, system error, or so on.

*Note:* These actions are also submitted similarly as submitting the **Validate & Upload Products to Jet** action for uploading the products.

### To upload products

- 1. Go to the Magento Admin panel.
- 2. On the top navigation bar, click the **Jet** menu. The menu appears as shown in the following figure:

Jet System	
Manage Profile	
Manage Product	4
Jet Orders	4
Configuration	
Extras	4

#### 3. Click Manage Profile.

The Jet Profile Listing page appears as shown in the following figure:

Jet Prof	ile Listing						Add New Profile
Page 🔳 1	📄 of 1 pag	ges   View 20 🗸 per page   Total 3 records found				Res	et Filter Search
Select All	Unselect All	Select Visible   Unselect Visible   0 items selected				Actions	✓ Submit

# 5.1. Product Feeds

After uploading the product on Jet.com or after updating the product inventory or the product price, the admin can check the status of the feed on the **Rejected Jet Files Manager** page.

### Admin can perform the following tasks on this page:

- Sync Feeds
- Clear All logs
- View Errors and Resubmit
- Delete the selected logs

#### To perform all the tasks on the Rejected Jet Files Manager page

- 1. Go to Magento Admin Panel.
- 2. On the **Jet** menu, point to **Manage Product**, and then click **Product Feeds**. The **Product Feeds** page appears as shown in the following figure:

Syno	Feeds					C	lear All Logs 🕒 Sync Feeds

*Note:* Only after uploading the products on Jet.com, admin can synchronize the feeds(logs).

- 3. To synchronize feeds, click the **Fetch Rejected Files** button.
- All the feeds or logs details are displayed in the table that appears on the **Rejected Jet Files Manager** page.
- 4. To clear all logs, click the **Clear All Logs** button.
- 5. To view errors and resubmit the log, move to the Action column, and then click the **View Errors & Resubmit** link of the associated log.

### To delete the selected logs

- 1. Go to Magento Admin Panel.
- 2. On the **Jet** menu, point to **Manage Product**, and then click **Product Feeds**. The **Products Feeds** page appears.
- 3. Select the checkboxes of the logs that the admin wants to delete.
- 4. In the **Actions** list, click the arrow button, and then click **Delete**.
- 5. Click the **Submit** button.
  - A confirmation dialog box appears.
- 6. Click the **OK** button. All the selected logs are deleted.

# 5.2. Live Products

# Admin can manage the live products by performing the following tasks on the Jet Live Products Management page:

- Get all products price or single product price.
- Get all products quantity or single product quantity.
- Analyze all products or single product to get the best offer price available in the Marketplace. With the help of this the admin can compare the price of products with best offer price available in the Marketplace and can change the rpice accordingly to win the BuyBox, if required.
- Archive all products or single product.
- Unarchive all products or single product.
- Enable vacation mode feature enables admin to disable or inactivate the products display on Jet.com during the admin is enjoying the vacation.
- Disable vacation mode feature enables the admin to enable or activate the products display on Jet.com.

### To get all products price or single product price

- 1. Go to Magento Admin Panel.
- 2. On the Jet menu, point to Manage Product, and then click Live Products.

# 6.1. View Jet Orders

The user can fetch and view all the order details fetched from Jet.com. Admin can also delete the existing orders and export the order details in the CSV format.

### To view Jet Orders

- 1. Go to the Magento Admin panel.
- 2. On the top navigation bar, click the **Jet** menu.
- 3. On the **Jet** menu, point to **Jet Orders**, and then click **View Jet Orders**. The **Jet Order Details** page appears as shown in the following figure:

Jet (	Orders Details							Fetc	h Latest J	et Orders
Page 🔄	1 of 1 pages	View 20 💌 per pa	ge   Total 1 records found			Export to: CSV	Export	Re	set Filter	Search
Select Vi	sible   Unselect Visible	0 items selected						Actions	-	Submit
	Magento Order # ↓	Jet Referece Order #	Jet Merchant Order Id #	Bill to Name	Ship to Name	Delivery By	Status		G.T. (Pur	chased)
Any 💌						From: 📰		•	From:	
						То: 🗾			To :	
	JET-10000002	586336315967	0b2f4dbc55404fe19fe6c5e2c95d5017	Homer Simpson	Homer Simpson	May 19, 2017 3:43:38 AM	Completed		t	1112.4000

4. Click the Fetch Latest Jet Orders button.

If the order is imported successfully, then a new record is found in the Jet Order Details table. *Notes:* 

- Orders are automatically imported through CRON in every 10 minutes.
- Whenever the latest orders are imported from Jet, a Notification appears in the notification area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported in the Magento admin panel.
- As per Jet's Policy, orders should be acknowledged within 60 minutes.
- If no order is imported, then check the Failed order log on the **Failed Jet Orders Import Log** page.
- Order are auto rejected on Jet in the following conditions:

- When Jet Product SKU does not exist in Magento.
- When Product is Out of Stock in Magento.
- When product is disabled in Magento.
- 5. In the Magento Order# column, click the link associated with the required order.
  - The page appears as shown in the following figure:
- 6. In the left navigation menu, click Ship By Jet.
  - The page appears as shown in the following figure:
    - Orders imported from Jet uses **Payment Method** depending on the **System Configuration Settings** of Jet extension.
- 7. Under Shipment Info, enter the corresponding values in the following fields:
  - a. In the Shipping carrier used list, select the required option.
  - b. In the Method Code list, select the required option.
  - c. In the **Tracking Number** box, enter a value.
  - d. In the **Ship Date** box, enter a date.
- 8. Under **Shipment Items**, enter the corresponding values in the following fields:
  - a. In the Quantity to Ship box, enter a value.
     The number of quantity that the user can ship. The value cannot be greater than the Qty Available for Ship value.
  - b. In the Quantity Cancelled box, enter a value.
     The number of quantity that the user wants to reject. The value cannot be greater than the Qty Available for Ship value.
  - c. Click the **Submit Shipment** button. The success message appears, if the order is shipped successfully.

### Notes:

- 1. Order Shipment is sent to Jet.
- 2. Order Invoice and Shipment is created automatically in Magento.
- 3. Order Status changes to Complete on Jet.
- 4. The status of order changes to Completed on Magento.

### To Delete Orders

- 1. Go to the **Magento Admin** panel.
- 2. On the top navigation bar, click the **Jet** menu.
- 3. On the **Jet** menu, point to **Jet Orders**, and then click **View Jet Orders**. The **Jet Order Details** page appears as shown in the following figure:

Jet (	Orders Details							Fet	ch Latest	Jet Orders

#### 4. Click the Create New Refund button.

The page appears as shown in the following figure:

<b>Refund Information</b>	Create New Refund		Back Subr	mit Refund
Refund Information	Refund Information Enter Merchant Order Id *	0b2f4dbc55404fe19fe6c5e2c95d5017 ▲ Please fill Merchant Order Id to be refund. Fetch Order Info		

5. Under Refund Information, in the Enter Merchant Order Id box, enter a value.

#### 6. Click the Fetch Order Info button.

If the entered purchase order Id is correct, then the respective order details are displayed product-wise in the new sections as follows:

- Refund id: Refund id that the merchant receives from walmart.com.
- Refund Merchant Id: Identification number of the merchant.
- Order item id: Identification number generated at the time of placing order.
- Qty Requested: Total number of items or product ordered in the current order.
- Qty Already Refunded: Items or product that have been already refunded to the front-end user.
- Qty Available for Refund: Number of items or product that can be refunded.
- Qty Returned: Number of items or product returned by the customer.
   Note: Returned quantity should be less than or equal to the shipped quantity.
- **Qty Refunded**: Number of items or product that the merchant wants to refund Integration Guide

*Note*: Refunded quantity should be less than or equal to the Returned quantity.

- Refund tax: Tax applied on the items or products returned.
- Refund Amount: Amount that Walmart has to return to the front-end user.
- **Refund Shipping Cost**: Shipping cost applicable to the returned product.
- Refund Shipping tax: Shipping tax applicable to the returned product.
- Refund Feedback: Feedback of merchant on the returned product.
- Refund Reason: Reason why the front-end user has returned the product.
- 7. Click the Submit Refund button.

### To view the Refund details

- 1. Go to the Magento Admin panel.
- 2. On the top navigation bar, click the **Jet** menu.
- 3. On the Jet menu, point to Jet Orders , and then click Refund.

The Refund Management page appears as shown in the following figure:

# 7.1. Jet Category List

### To view the Jet Category list and the corresponding attribute details

- 1. Go to the Magento Admin panel.
- 2. On the top navigation bar, click the **Jet** menu.
- 3. On the **Jet** menu, click the **Extras** menu, and then click **Jet Category List**. The **Jet Category Listing** page appears as shown in the following figure:

Jet	Category Listing						
Page	1 I of 179 pag	es   View 20 v per p	age   Total 3575 records fo	und			Reset Filter Search
ID †	Jet Category Id	Magento Category Id	Jet Category Name	Jet Parent Category Id	Jet Attributes	Status	Action
1	1000000		Books & Other Media	0	Format,Language,Size,Award Winners	Not Created	View Attribute Details
2	1000001		Books - Arts & Entertainment	1000000	Format,Language,Award Winners	Not Created	View Attribute Details

This page lists all the Jet category details and the corresponding mapped Magento Category Id. Also provides the link to view the corresponding Jet attributes.

- 4. Scroll down to find the required category.
- 5. In the **Action** column of the required category row, click the **View Attribute Details** link. Jet Attribute Listing page of the specific category appears as shown in the following figure appears.

#### Jet-Magento Integration Guide

Jet Attribute	of 1 pages   View 20	her Media ( jet	category id : 4 records found	100000	D )		<ul> <li>Back</li> </ul>
Attribute id on Jet	Attribute id on Magento	Attribute Name	Description	Status	Freetext	Attribute Units	Attribute Value
19		Format	Book Format	Not Created	No		Activity Book, Audio CD, Board Book, Coffee Table, Digital Audio Book, eBo
30		Language	Language	Not Created	No		Afrikaans, Albanian, Ancient Greek, Arabic, Armenian, Basque, Bengali, Bulg Chinese, Catalan, Chinese, Cornish, Croatian, Czech, Danish, Dutch, English English, Norwegian, Old English, Persian, Polish, Portuguese, Romanian, Ru
