1. Overview

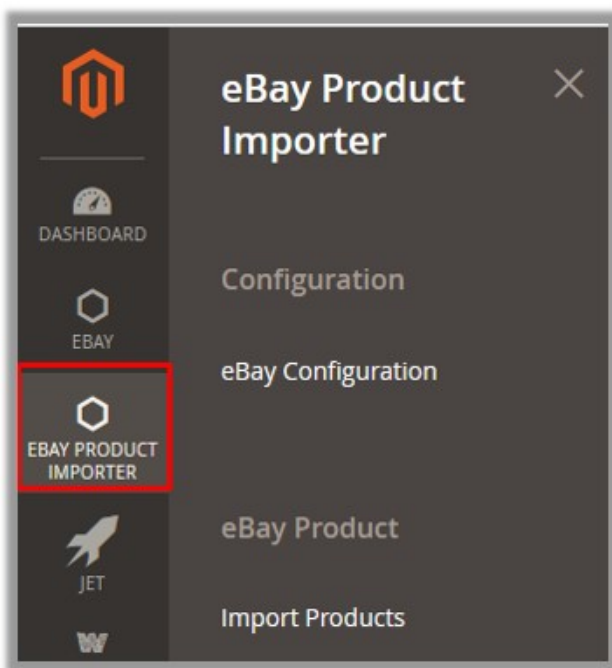

Ebay to Magento 2 Product Importer is the extension developed by CedCommerce for Magento® 2, which allows the admin to import the eBay products from the eBay store to the Magento 2 store based on the eBay Seller Id and the eBay Site Id. **Ebay to Magento 2 Product Importer** is a one step process, which means it imports the products on a single click. This extension supports only the Simple and the Configurable Products.

Key Features are as follows:

- Hassle-free dynamic attribute creation.
- User Friendly and easy to understand.
- Imports Simple and Configurable Products from the eBay store to the Magento 2 store through eBay API.
- It is a one step process product import.
- Uploads all the products variation and stock information on fly.

2. eBay Configuration Settings

Once the extension is installed successfully, the EBAY PRODUCT IMPORTER menu appears on the left navigation bar of the Magento Admin panel.

The admin has to configure the settings to utilize the features of the extensions.

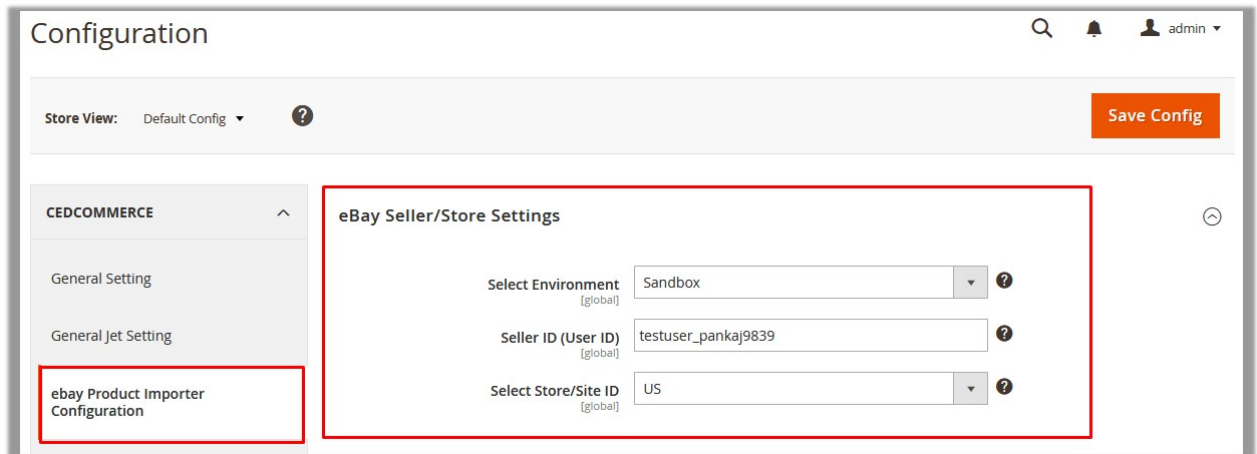

For importing the products from the eBay store to the Magento 2 store, the following information are required:

- **eBay Seller Id:** User Id of the Seller account.
- **eBay Site Id**(<https://developer.ebay.com/devzone/merchandising/docs/Concepts/SiteIDToGlobalID.html>) : Store location.

To set up the configuration settings

1. Go to the **Admin** panel.
2. On the left navigation bar, click the **EBAY PRODUCT IMPORTER** menu, and then click **eBay Configuration**.

The **Configuration** page appears as shown in the following figure:

3. Under eBay Seller/Store Settings, enter the required values in the following fields:
 - a. **Select Environment:** Select one of the following environment:
 - \. **Sandbox** environment is used for the testing purpose.
 - \. **Production** environment is used for Live.
 - b. **Seller ID:** User Id of the Seller account.
 - c. **Select Store/Site ID:** Store location.
4. Click the **Save Config** button.

3. Import and Create eBay Products

To import and create eBay Products

1. Go to the **Admin** panel.
2. On the left navigation bar, click the **EBAY PRODUCT IMPORTER** menu, and then click **Import Products**.
The **eBay Products** page appears as shown in the following figure:

The screenshot shows the 'eBay Products' admin interface. At the top right, there is a search icon, a notification bell, and a user profile 'admin'. Below this, there is a search bar and a button labeled 'eBay Product Import' with an upward arrow. A dropdown menu is open from this button, showing two options: 'eBay Product Import' and 'Create Product on Store'. Below the dropdown, there is a 'Filters' button and a '20 per page' selector. The main content area shows a table with 9 records found. The table has columns: Actions, ID, Thumbnail, Name, Type, SKU, Price, Quantity, Action, Visibility, and Status. The table contains 4 rows of product data.

Actions	ID	Thumbnail	Name	Type	SKU	Price	Quantity	Action	Visibility	Status
<input type="checkbox"/>	2081		Acrylic Airtight Pasta Canister Set, One 130-ounce 8" X 8&qu	Simple Product	110189314982	\$2.20	10.0000	Edit	Catalog, Search	Enabled
<input type="checkbox"/>	2080		Acrylic Airtight Pasta Canister Set, One 130-ounce 8" X 8&qu	Simple Product	110189190362	\$2.20	10.0000	Edit	Catalog, Search	Enabled
<input type="checkbox"/>	2079		Acrylic Airtight Pasta Canister Set, One 130-ounce 8" X 8&qu	Simple Product	110189172254	\$2.20	10.0000	Edit	Catalog, Search	Enabled
<input type="checkbox"/>	2077		Acrylic Airtight Pasta Canister Set, One 130-ounce 8" X 8&qu	Simple Product	110189164927	\$2.20	10.0000	Edit	Catalog, Search	Enabled

3. In the right-upper corner, click the arrow button next to the eBay Product Import button.
The following menu options appear:

- **eBay Product Import**
- **Create Product on Store**

4. To import all the products available on the eBay store, click **eBay Product Import**.
5. To create the imported eBay products on the Magento store, click **Create Product on Store**.
