1. Overview

Refer A Friend is an extension developed by CedCommerce for Magento® 2.x.x. It allows the registered frontend users to invite their friends to the Magento Store and earn the discount coupons. Thus, it helps the admins to increase their sales.

This extension allows admin to manage the referral amount, sign-up amount, denomination amount, and the denomination rules.

Key features are as follows:

- Allows front-end users to refer their friends and avail the discounts, once the referred friend registers to the Magento store
- · Users get the reward points and their friend gets the signup bonus
- · Admin can view the list of the referred users
- User can convert the earned points to discount
- · Helps in generating sales thereby revenue on the site

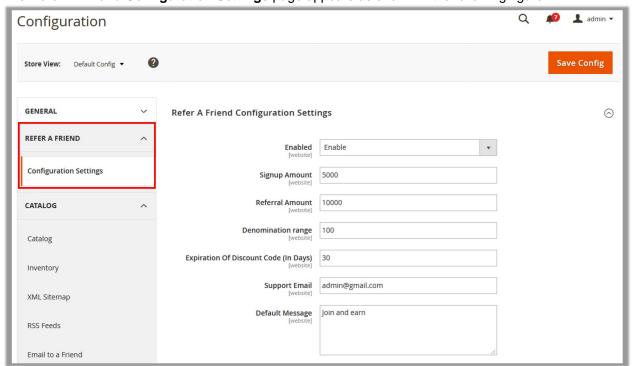

2. Configuration Settings

Once the admin installs the **Refer A Friend** extension successfully on the Merchant's store, the admin has to set up the configuration settings required to enable the features of the extension.

To configure the settings

- 1. Go to the Admin Panel.
- 2. On the left navigation bar, click the **STORES** menu, and the click Configuration. The **Configuration** page appears.
- 3. In the left navigation panel, click the REFER A FRIEND menu, and then click Configuration Settings.

 The Refer A Friend Configuration Settings page appears as shown in the following figure:

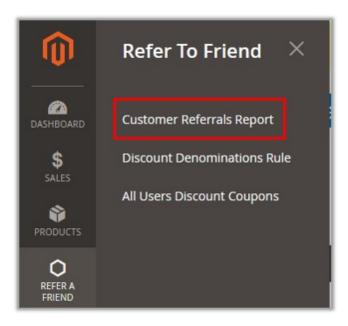

- 4. In the right panel, under Refer A Friend Configuration Settings, do the following steps:
 - a. In the **Enabled** list, select **Yes** to enable the extension features on the admin panel and also on the front-end view.
 - b. In the **Signup Amount** box, enter an amount that the admin wants to allot it to a new user on signing up.
 - c. In the **Referral Amount** box, enter an amount that the admin wants to allot it to the user who refers a friend, and the referred friend registers to the store.
 - d. In the **Denomination range** box, set the denomination range for genrating the discount coupons. For example, if the denomination range is 100, then the user can generate the discount coupons in the multiples of 100.
 - e. In the **Expiration Of Discount Code (In Days)** box, enter the number of days to specify the validity of the generated coupon .
 - f. In the Support Email box, enter the email id that admin wants to use for sending invitation emails.
 - g. In the **Default Message** box, enter a default message that the admin wants to use for sending invitation emails.
- 5. Click the Save Config button.

3. Customer Referrals Report

Admin can view the report that mentions all the users' referral count, their pending amounts, and the corresponding email ids.

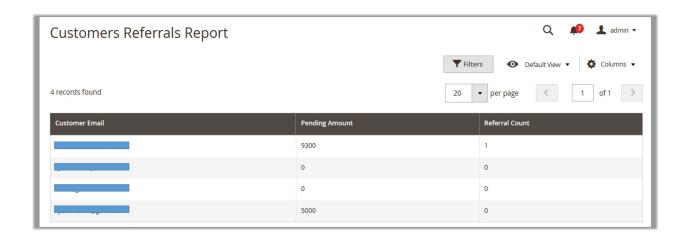

To view the customers referrals report

- 1. Go to the **Admin** panel.
- 2. On the left navigation bar, click the REFER A FRIEND menu.

3. Click Customers Referrals Report.

The **Customers Referrals Report** page appears as shown in the following figure:

The admin can view all the user details consisting of the following information:

- Customer Email: Email id of the front-user who refers a friend to get registered to the Magento Store
- Pending Amount: The balance amount that belongs to the user after generating the coupons from the total amount alloted.
- Referral Count: The number of friends the user had reffered.

4. Denomination Rules

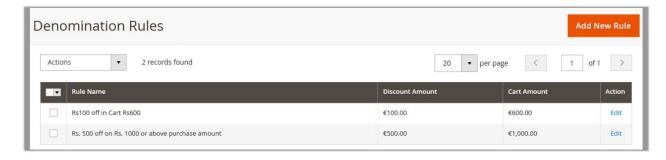

On the **Denomination Rules** page, admin can create the rules for the discount coupons that are applicable when the front-end users generate discount coupons.

The admin can perform the following tasks:

- View the existing rules(#View)
- Add a new rule(#Add)
- Edit the existing rule(#Edit)

To view the existing rules

- 1. Go to the Admin Panel.
- 2. On the left navigation bar, click the **REFER A FRIEND** menu, and then click **Denomination Rules**. The **Denomination Rules** page appears as shown in the following figure:

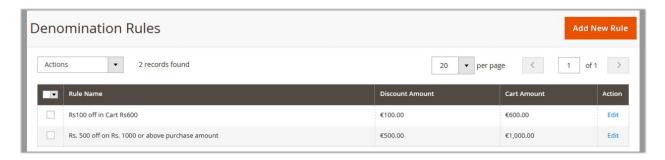

The admin can view the following information on this page:

- Rule Name: Name of the rule defined.
- **Discount Amount**: The amount assigned as a discount amount when the user purchase the products on the specific amount that the admin defines while creating the rule.
- Cart Amount: The total purchase amount.

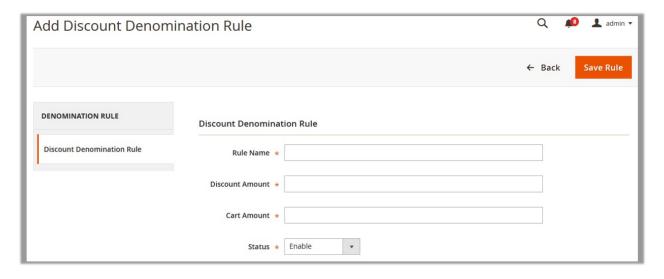

To add a new rule

- 1. Go to the Admin Panel.
- 2. On the left navigation bar, click the **REFER A FRIEND** menu, and then click **Denomination Rules**. The **Denomination Rules** page appears as shown in the following figure:

3. Click the Add New Rule button.

The Add Discount Denomination Rule page appears as shown in the following figure:

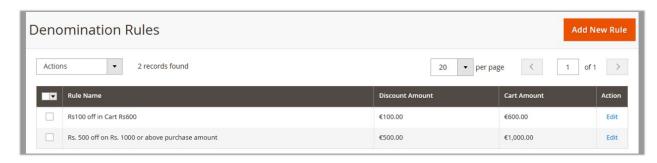

- 4. In the Rule Name box, enter a name of the rule.
- 5. In the **Discount Amount** box, enter a discount amount.
- 6. In the Cart Amount box, enter the purchase amount on which the rule applies.
- 7. In the Satus list, select Enable to enable the rule.
- 8. Click the Save Rule button.

To edit the existing rule

- 1. Go to the Admin Panel.
- 2. On the left navigation bar, click the REFER A FRIEND menu, and then click Denomination Rules.

The **Denomination Rules** page appears as shown in the following figure:

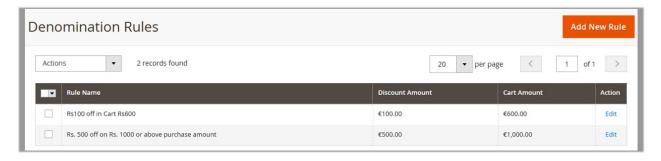

- 3. Scroll down to find the required rule for editing.
- 4. In the **Action** column, click the **Edit** link. The editing page appears.
- 5. Make the changes as per the requirement, and then click the **Save Rule** button.

4.1. Submit Actions
