1. Overview

Walmart Integration is an extension, developed by CedCommerce, helps to integrate the Magento store with Walmart by establishing a synchronization of products, orders and refunds with the help of Walmart API.

The CRONs implemented in this extension help to automate the process thereby keeping it up to date.

This extension interacts with Walmart Marketplace to integrate the synchronized product listing between the Magento and the Walmart retailers. After installing the extension, merchant can create the Walmart Categories and the dependent attributes on the Magento store.

The process enables merchant to configure the desired product category into Magento for automatic submission of the selected product to the same Category on Walmart.

The features of the Walmart Integration extension are as follows:

- Profile Based Product Upload
- Easy Walmart Category and Attribute mapping
- Manage Walmart Product and Upload Product (directly from grid and bulk upload all products)
- Product Synchronization
 - Automatic process on each product edit
 - Manual synchronization process
- Review Product/Inventory/Price Feeds
- Automated Order Import & Acknowledgement
- Shipment and Cancellation of Orders
- Automated Shipment with Shipworks/Shipstation
- Multiple Shipment of an Order
- Create Refund
- Upload Configurable Product(s)
- Bulk Product Upload/Publish
- Retire/Unpublish Selected Product(s)
- CRON Facility
- Knowledge Base
- Walmart Tax Codes

Caution

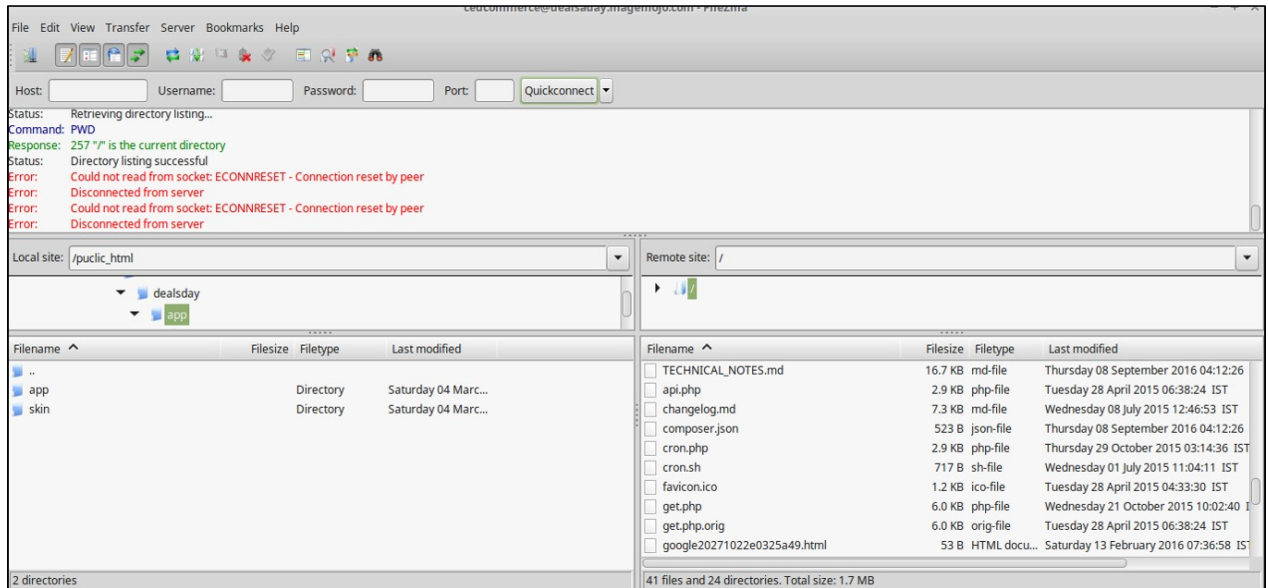

: Extension is heavily dependent on Crons for running various automated processes. So, make sure that Cron Job is properly configured and working on the server.

2. Walmart Integration Extension Installation

To install the extension

1. Log in the **ftp**, and then go to Magento root folder (generally present under the *public_html* folder).

2. Overwrite the *app*, *skin*, *js* and *var* folders in the same sequence as illustrated in the following steps:
 - a. Drag and Drop the *app/code*, *app/design*, *js*, *skin* and *var* directories.
 - b. Finally, upload the *app/etc* directory.
After the folders are loaded successfully, the extension is installed or upgraded.

3. Walmart Configuration Settings

Once the extension is successfully installed on the Merchant's store, Walmart menu appears in the Magento Admin Panel. The merchant has to fill-in the API credentials in the **Walmart Configuration** page of the admin panel.

The user has to log in the Walmart Seller account to obtain the following API credentials:

- Walmart **Consumer Id**
- API **Secret Key**
- **Consumer Channel Type Id**

After obtaining the ids and the private keys, the merchant has to copy all of them one by one from the Walmart Seller account and paste it one by one to the Configuration page of the admin panel of the merchant.

To follow the process of copying and pasting of the consumer ids and private keys,

- Open the Walmart Seller account and the Magento Admin Panel in two different tabs or windows of the browser. Thus, copy the keys from the Walmart Seller account and paste them one by one to the Magento Admin Panel.

OR

- Use the **Get Walmart Credentials** button available on the Walmart Configuration page of the admin panel of the merchant.

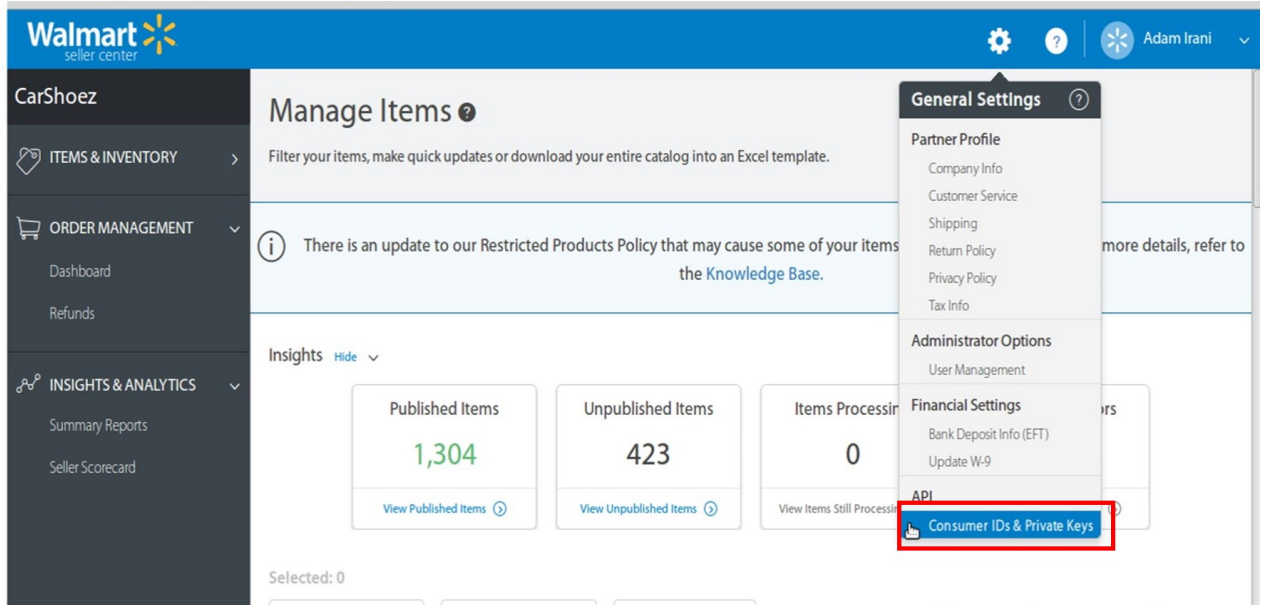

To Copy the Configuration Settings from the Walmart Seller account

1. Open the **Walmart Seller** account.
2. Click the **Settings**

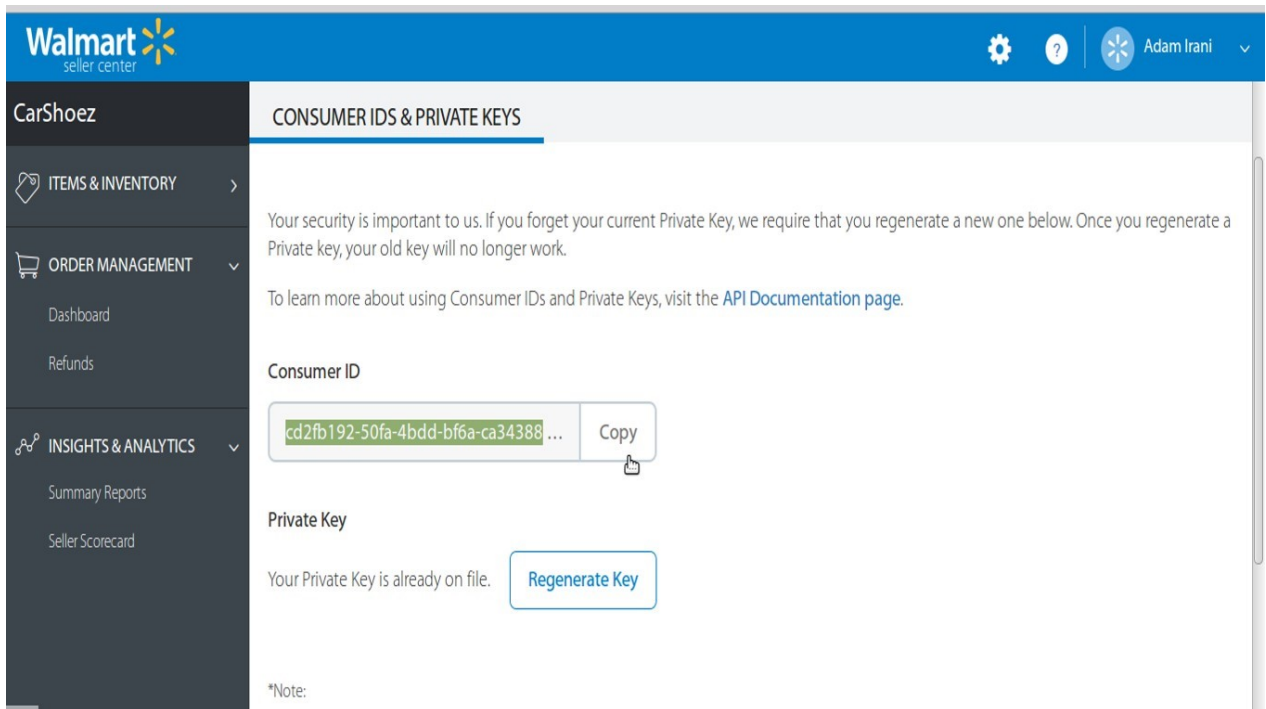

icon.

The **General Settings** menu appears as shown in the following figure:

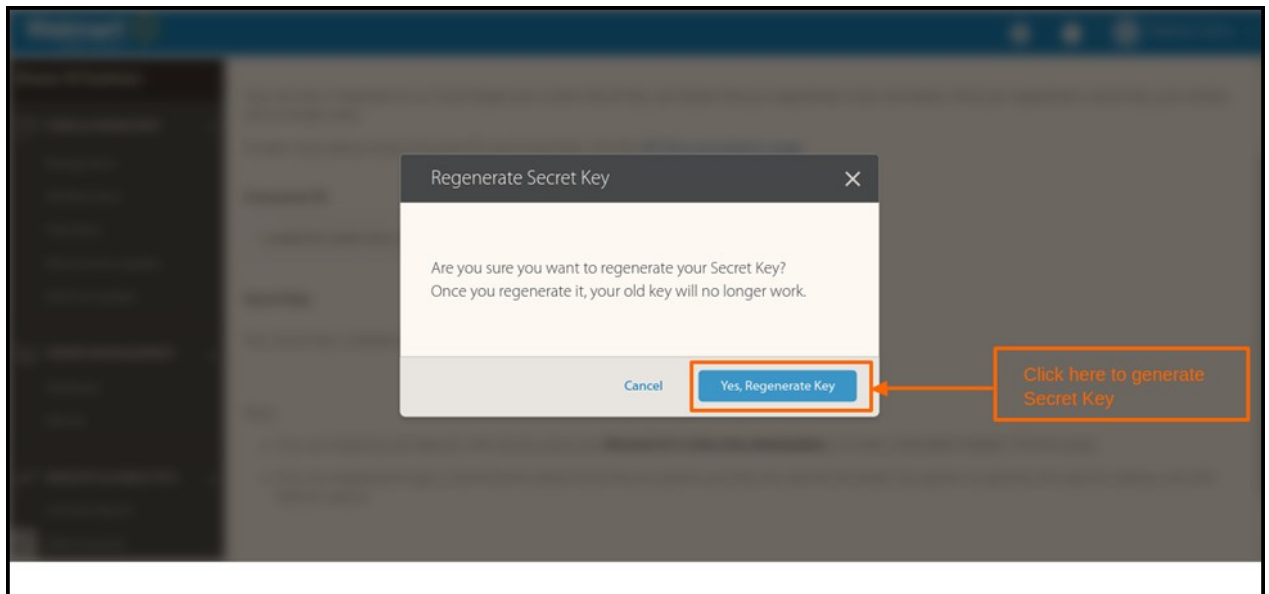

3. Under **API**, click **Consumer IDs & Private Keys**.
The page appears as shown in the following figure:

4. Under **Consumer ID**, click the **Copy** button.

5. Under **Private Key**, click the **Regenerate Key** button.

The **Regenerate Secret Key** dialog box appears as shown in the following figure:

6. Click the **Yes, Regenerate Key** button.

The key is generated. Copy the generated key.

To update the Walmart Configuration Setting of the extension

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, click the **Walmart** menu, and then click **Configuration**.

The **Walmart Configuration** page appears as shown in the following figure:

Walmart Configuration
Save Config

Walmart Api Settings

Enabled	<input type="text" value="Yes"/>	[WEBSITE]
Consumer Id	<input type="text" value="1535"/>	[GLOBAL]

3. Under **Walmart API Settings**, do the following steps:

- a. In the **Enabled** list, select **Yes**.

Note : Selecting the **No** option hides all other fields of **Walmart API Settings**. The Walmart menu does not appear on the top navigation bar.
- b. In the **Consumer Id** box, paste the corresponding id copied from the **Consumer IDs & Private Keys** page of the **Walmart Seller Account**.
- c. In the **Private Key** box, paste the corresponding key copied from the **Consumer IDs & Private Keys** page of the **Walmart Seller Account**.
- d. Click the **Validate** button.

If the entered ids and keys are valid then the success message appears, and if they are not valid then an error message appears.
- e. Click the **Get Walmart Credentials** button to to obtain the API credentials from the existing Jet partner account.

OR

Click the **Create Walmart Account** button to create the account to obtain the API credentials.

- f. In the **Order fetch Start Date** box, enter the date.
The date from which the user has started to fetch the order.
- g. In the **Choose Default Payment Method for Walmart Orders** list, select the required option.
- h. In the **Store Admin Email Id** box, enter the email-id where the admin wants to send the mail whenever new Walmart order is Imported.
- i. In the **Walmart Debug mode** list, select **Yes** to start Walmart Integration in the debug mode.
It captures the log for the debug process.
- j. In the **Walmart Customer Email** box, enter the customer email-id .
- k. in the **Walmart Order ID Prefix** box, enter the prefix that the admin wants to add before the Walmart order Id.

4. Click the **Walmart Product Global Settings** tab.

The **Walmart Product Global Settings** tab is expanded as shown in the following figure:

5. Under **Walmart Product Global Settings**, do the following steps:

- a. In the **Select Store** list, select the single store.
- b. To configure the shipping settings, click the **Add Rules** button.

The field is expanded and appears as shown in the following figure:

- c. In the **Enabled** list, select **Yes**.
 - d. In the **Region** list, select the required region.
 - e. In the **Method** list, select the required shipping method.
 - f. In the **Magento Attribute Code** list, select the corresponding attribute code.
- Note:** Click the **Add Rules** button to add more shipping settings. To delete the rule, click the **Delete** button.

6. Click **Walmart Product Advanced Price Settings** tab.

The **Walmart Product Advanced Price Settings** tab is expanded as shown in the following figure:

7. Under **Walmart Product Advanced Price Settings**, enter the values in the corresponding fields.

- **Walmart Product Price:** This is to set a different price for all the products as shown in the following figure:

User can set the price on the following basis: –

- **Increase by Fixed Price:** If selected, then the **Enter Amount** field appears.
- **Increase by Fixed Percentage:** If selected, then the **Enter Percentage** field appears. Enter the numeric value to increase the price of the the Walmart product price by the entered value % of Magento price
For Example: Magento price + 5% of Magento price.
Magento Price = 100
Select **Increase By Fixed Percentage** option
Enter Percentage = 5
 $100 + 5\% \text{ of } 100 = 100 + 5 = 105$
Thus, Walmart Product Price = 105
- **Decrease by Fixed Price:** If selected, then the **Enter Amount** field appears.
- **Decrease by Fixed Percentage:** If selected, then the **Enter Percentage** field appears. Enter the numeric value to decrease the price of the the Walmart product price by the entered value % of Magento price
For Example: Magento price – 5% of Magento price.
Magento Price = 100
Select **Decrease By Fixed Percentage** option
Enter Percentage = 5
 $100 - 5\% \text{ of } 100 = 100 - 5 = 95$
Thus, Walmart Product Price = 95
- **Product TaxCode:** Enter 7 digit product tax code.
- **Fullfillment Lag Time:** Enter Fullfillment Lag Time for products on Walmart.

8. Click the **Cron Settings** tab.

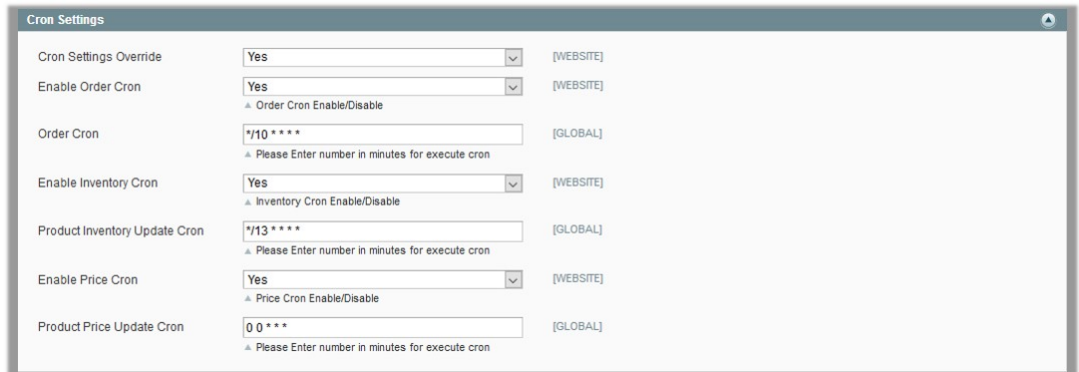

The **Cron Settings** tab is expanded as shown in the following figure:

Cron Settings		
Cron Settings Override	Yes	[WEBSITE]
Enable Order Cron	No	[WEBSITE]
	▲ Order Cron Enable/Disable	
Enable Inventory Cron	No	[WEBSITE]
	▲ Inventory Cron Enable/Disable	
Enable Price Cron	No	[WEBSITE]
	▲ Price Cron Enable/Disable	

9. Under **Cron Settings**, do the following steps:

- In the **Cron Settings** list, select **Yes** to enable the cron settings.
Note: Only when the admin selects **Yes**, the other fields appear.
- In the **Enable Order Cron** list, select **Yes** to enable the order cron.
The **Order Cron** field appears.
 - In the **Order Cron** box, enter the required value.
- In the **Enable Inventory Cron** list, select **Yes** to enable the order cron.
The **Product Inventory Update Cron** field appears.
 - In the **Product Inventory Update Cron** box, enter the required value.
- In the **Enable Price Cron** list, select **Yes** to enable the order cron.
The **Product Price Update Cron** field appears.

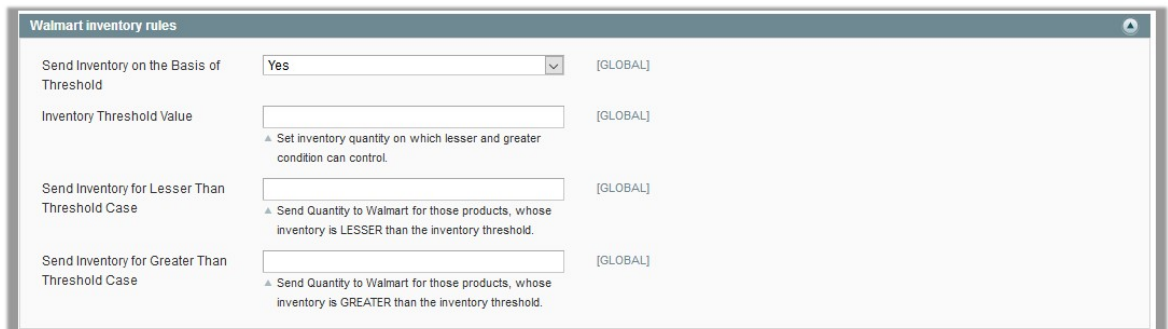

- In the **Product Price Update Cron** box, enter the required value.
The section appears as shown in the following figure:

10. Click the **Walmart inventory rules** tab.
The **Walmart inventory rules** tab is expanded as shown in the following figure:

11. Under **Walmart inventory rules**, do the following steps:
 - a. In the **Send Inventory on the Basis of Threshold** list, select Yes to send the inventory based on threshold.
Note: Only when the admin selects **Yes**, the other fields appear.
The section appears as shown in the following figure:

- b. In the **Inventory Threshold Value** box, enter the required value.
 - c. In the **Send Inventory for Lesser Than Threshold Case** box, enter the required value.
 - d. In the **Send Inventory for Greater Than Threshold Case** box, enter the required value.
12. Click the **Save Config** button.

4. Manage Walmart Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento attributes to the Walmart attributes. These attributes are applicable to all the

products that are assigned to the profile.

Admin can do the following tasks:

- Add new profile
- Edit the existing profile
- Delete the profile
- Submit Actions on the Walmart Profile Listing Page
- Upload Single Product, View Error Log, and Edit Product Information
- Submit Actions on the Product Manager page

4.1. Add New Profile

To add a new profile

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, click the **Walmart** menu.
The menu appears as shown in the following figure:

3. Click the **Manage Walmart Profiles** menu.
The **Walmart Profile Listing** page appears as shown in the following figure:
4. Click the **Add New Profile** button.

The page appears as shown in the following figure:

The screenshot shows the 'Add Walmart Profile' form. On the left is a navigation menu with 'Profile Information' selected. The main form area is titled 'Add Walmart Profile' and contains the following fields:

- Profile Code ***: A text input field containing 'profile_code1'. A tooltip below it reads: 'For internal use. Please use only letters (a-z), numbers (0-9) or underscore(_) in this field, first character should be a letter'.
- Profile Name ***: A text input field containing 'profile name'. A tooltip below it reads: 'Give some name to profile to identify them'.
- Status ***: A dropdown menu with 'Active' selected. A tooltip below it reads: 'Make active to enable the profile'.

At the top right of the form are buttons: Back, Reset, Save, Save and Continue Edit, and Save and Upload Product.

5. In the right panel, under Profile Information, do the following steps:
 - a. In the **Profile Code** box, enter a profile code.
Note: It is only for the internal use. Use the unique profile code with no spaces. Start with small letters.
 - b. In the **Profile Name** box, enter the name of the profile.
Note: Use the unique name to identify the profile.
 - c. In the **Status** list, select **Active** to enable the profile.
Note: The Inactive option disables the profile.
6. Click the **Save and Continue** button.
7. In the left navigation panel, click the **Profile Configurations** menu.
 The page appears as shown in the following figure:

The screenshot shows the 'Add Walmart Profile' form with the 'Walmart Product Global Settings' section expanded. The left navigation menu now has 'Profile Configurations' selected. The main form area contains the following sections:

- Walmart Product Global Settings**:
 - Select Store**: A dropdown menu with 'Default Store View' selected. A tooltip below it reads: 'Select only single store.' There is a checkbox for 'Use Default [GLOBAL]'.
 - Shipping Settings**: An 'Add Rules' button. A tooltip below it reads: 'Set shipping region and shipping method charges.' There is a checkbox for 'Use Default [GLOBAL]'.
- Walmart Product Advanced Price Settings**:
 - Walmart Product Price**: A dropdown menu with 'Default Magento Price' selected. A tooltip below it reads: 'Select to send different product price to walmart.com.' There is a checkbox for 'Use Default [GLOBAL]'.
 - Product TaxCode**: A text input field. A tooltip below it reads: 'Enter 7 digit product tax code. Characters not allowed.' There is a checked checkbox for 'Use Default [GLOBAL]'.
 - Fulfillment Lag Time**: A text input field. A tooltip below it reads: 'Enter Fulfillment Lag Time for products on Walmart.' There is a checked checkbox for 'Use Default [GLOBAL]'.
- Walmart Inventory Rules**:
 - Send Inventory on the Basis of Threshold**: A dropdown menu with 'No' selected. There is a checkbox for 'Use Default [GLOBAL]'.

8. In the right panel, under **Walmart Product Global Settings**, do the following steps:
 - a. In the **Select Store** list, select the single store.
 - b. To configure the shipping settings, click the **Add Rules** button.
 The field is expanded and appears as shown in the following figure:

The screenshot shows the 'Walmart Product Global Settings' form with the 'Shipping Settings' section expanded. The table below is visible:

Enabled	Region	Method	Magento Attribute Code
Yes	STREET_48_STA	Value (Free Shipp)	--please select--

Below the table are buttons for 'Delete' and 'Add Rules'. A tooltip below the table reads: 'Set shipping region and shipping method charges.'

- c. In the **Enabled** list, select **Yes**.
- d. In the **Region** list, select the required region.
- e. In the **Method** list, select the required shipping method.
- f. In the **Magento Attribute Code** list, select the corresponding attribute code.

Note: Click the **Add Rules** button to add more shipping settings. To delete the rule, click the **Delete** button.

9. In the right panel, click **Walmart Product Advanced Price Settings** tab.

The **Walmart Product Advanced Price Settings** tab is expanded as shown in the following figure:

10. Under **Walmart Product Advanced Price Settings**, enter the values in the corresponding fields.

- **Walmart Product Price:** This is to set a different price for all the products as shown in the following figure:

User can set the price on the following basis: –

- **Increase by Fixed Price:** If selected, then the **Enter Amount** field appears.
- **Increase by Fixed Percentage:** If selected, then the **Enter Percentage** field appears. Enter the numeric value to increase the price of the the Walmart product price by the entered value % of Magento price
For Example: Magento price + 5% of Magento price.
Magento Price = 100
Select **Increase By Fixed Percentage** option
Enter Percentage = 5
 $100 + 5\% \text{ of } 100 = 100 + 5 = 105$
Thus, Walmart Product Price = 105
- **Decrease by Fixed Price:** If selected, then the **Enter Amount** field appears.
- **Decrease by Fixed Percentage:** If selected, then the **Enter Percentage** field appears. Enter the numeric value to decrease the price of the the Walmart product price by the entered value % of Magento price
For Example: Magento price – 5% of Magento price.
Magento Price = 100
Select **Decrease By Fixed Percentage** option
Enter Percentage = 5
 $100 - 5\% \text{ of } 100 = 100 - 5 = 95$
Thus, Walmart Product Price = 95

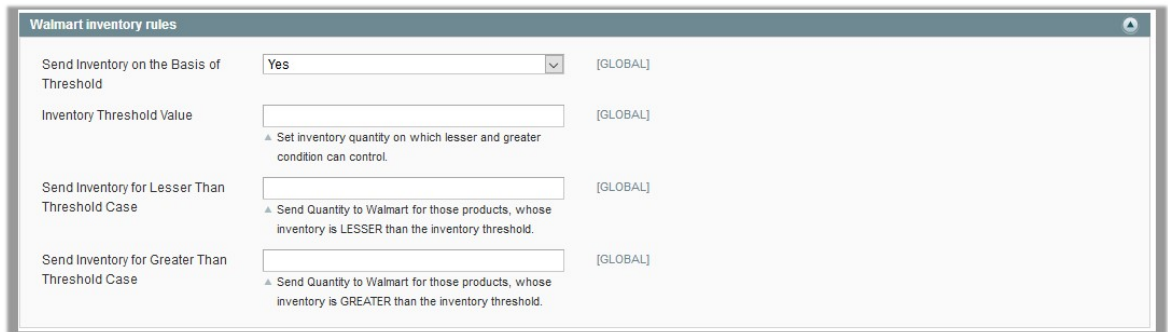

- **Product TaxCode:** Enter 7 digit product tax code.
- **Fulfillment Lag Time:** Enter Fulfillment Lag Time for products on Walmart.

11. In the right panel, click the **Walmart inventory rules** tab.

The **Walmart inventory rules** tab is expanded as shown in the following figure:

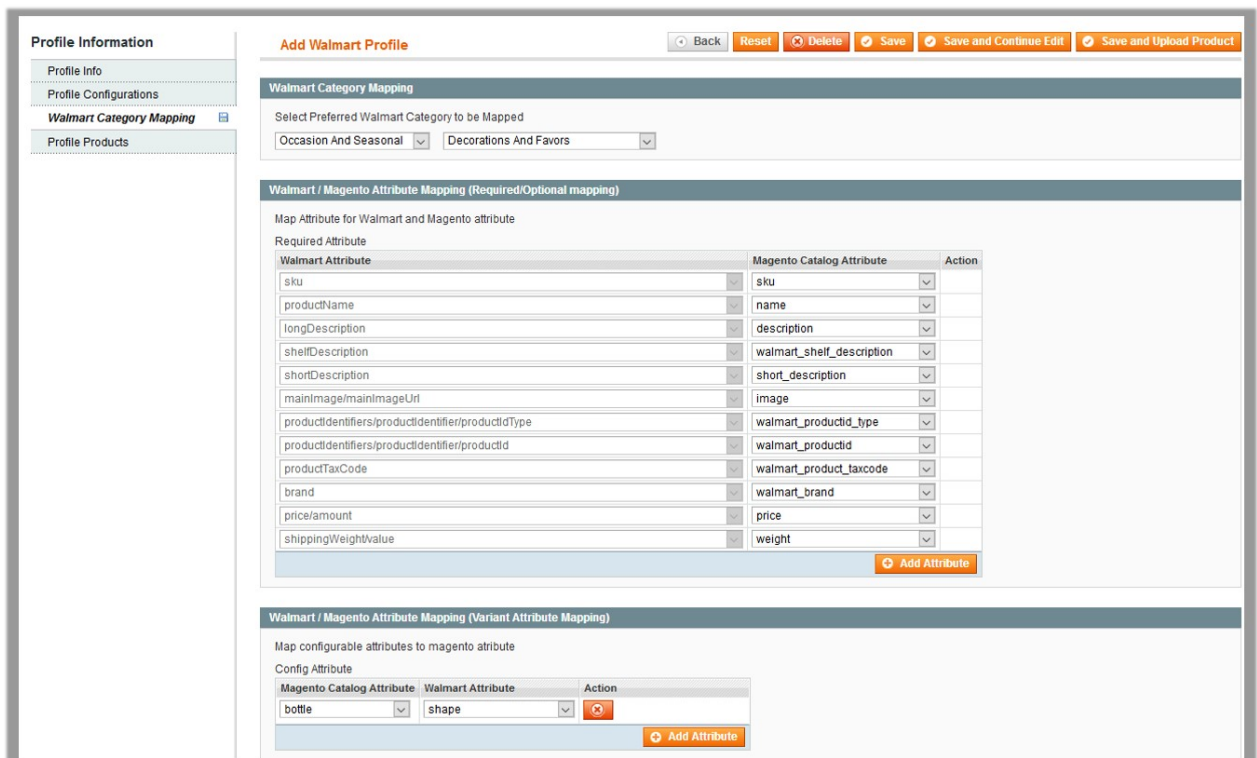

12. Under **Walmart inventory rules**, do the following steps:
 - a. In the **Send Inventory on the Basis of Threshold** list, select Yes to send the inventory based on threshold.

Note: Only when the admin selects **Yes**, the other fields appear. The section appears as shown in the following figure:

- b. In the **Inventory Threshold Value** box, enter the required value.
 - c. In the **Send Inventory for Lesser Than Threshold Case** box, enter the required value.
 - d. In the **Send Inventory for Greater Than Threshold Case** box, enter the required value.
13. Click the **Save and Continue** button.

14. In the left navigation panel, click the **Walmart Category Mapping** menu. The page appears as shown in the following figure:

Walmart Attribute	Magento Catalog Attribute	Action
sku	sku	
productName	name	
longDescription	description	
shellDescription	walmart_shell_description	
shortDescription	short_description	
mainImage/mainImageUrl	image	
productIdentifiers/productIdentifier/productIdType	walmart_productid_type	
productIdentifiers/productIdentifier/productId	walmart_productid	
productTaxCode	walmart_product_taxcode	
brand	walmart_brand	
price/amount	price	
shippingWeight/value	weight	

Magento Catalog Attribute	Walmart Attribute	Action
bottle	shape	

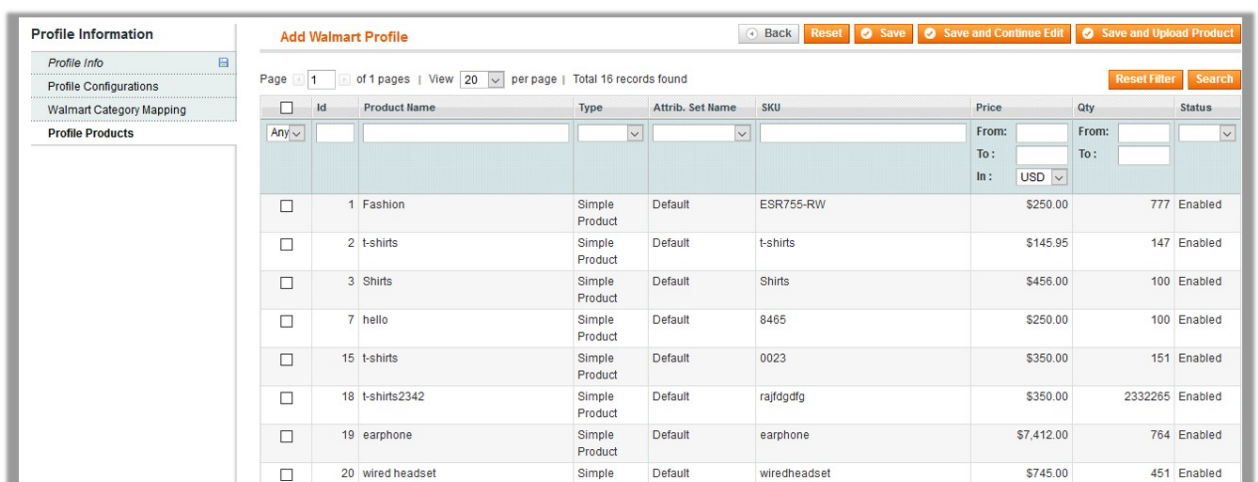

15. In the right panel, go to the **Walmart Category Mapping** section.
16. In the **Category** list, select the required **Walmart** category that the admin wants to map. The **Child Category** list appears next to the **Category** list.

17. In the **Child Category** list, select the required child category.
18. Depending upon the selection of the category and the sub-categories, the Walmart and Magento attributes appear under the **Walmart / Magento Attribute Mapping (Required/ Optional mapping)** section.
19. Go to the **Walmart / Magento Attribute Mapping (Required/ Optional mapping)** section.
20. In the **Magento Catalog Attribute** column, select the required Magento attribute to map it with the corresponding Walmart attribute.
21. Click the **Add Attribute** button to add more attributes.
22. Repeat the mapping of all the required or optional Magento attributes listed with the corresponding Walmart attributes.
23. Go to the **Walmart / Magento Attribute Mapping (Variant Attribute Mapping)** section.
24. In the **Magento Catalog Attribute** column, select the required Magento attribute.
25. In the **Walmart Attribute** column, select the required Walmart attribute to map it with the corresponding Magento attribute.
26. Click the **Add Attribute** button to add more attributes.
27. Click the **Save and Continue** button.
28. In the left navigation panel, click the **Profile Products** menu.
The page appears as shown in the following figure:

Since no products as assigned to the profile, there are no products listed in the table.

29. Click the **Reset Filter** button.
All the products are listed in the table as shown in the following figure:

30. Select the check box associated with the required product that the admin wants to assign to the new profile.

Note: Admin can assign a product to only one profile.

31. Click the **Save** button.

The created profile is saved and listed on the Jet Profile Listing page.

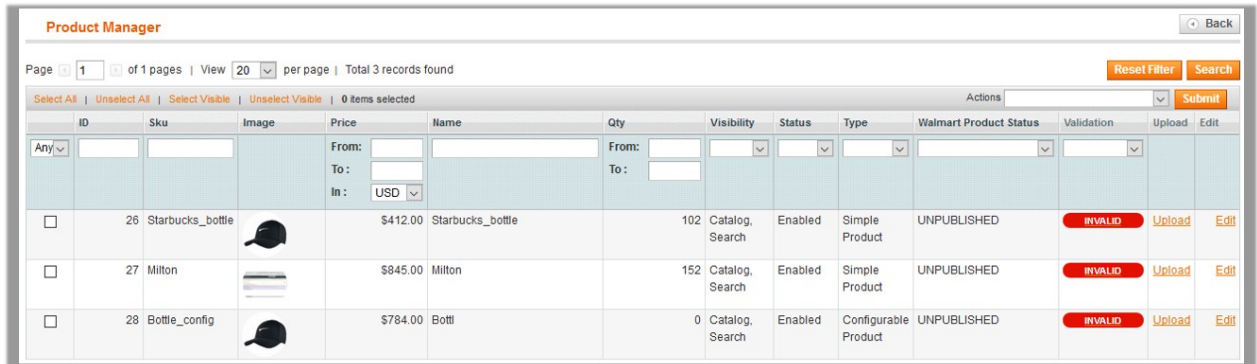

Or

Click the **Save and Continue Edit** button to save the created profile and continue editing, if required.

Or

Click the **Save and Upload Product** button to save the profile and make ready to upload the product on Jet.com.

The assigned products are listed on the **Product Manager** page as shown in the following figure:

Product Manager													Back
Page 1 of 1 pages View 20 per page Total 3 records found											Reset Filter	Search	
Select All Unselect All Select Visible Unselect Visible 0 items selected											Actions		Submit
ID	Sku	Image	Price	Name	Qty	Visibility	Status	Type	Walmart Product Status	Validation	Upload	Edit	
Any			From: <input type="text"/> To: <input type="text"/> In: USD		From: <input type="text"/> To: <input type="text"/>								
<input type="checkbox"/>	26 Starbucks_bottle		\$412.00	Starbucks_bottle		102 Catalog, Search	Enabled	Simple Product	UNPUBLISHED	INVALID	Upload	Edit	
<input type="checkbox"/>	27 Milton		\$845.00	Milton		152 Catalog, Search	Enabled	Simple Product	UNPUBLISHED	INVALID	Upload	Edit	
<input type="checkbox"/>	28 Bottle_config		\$784.00	Bottl		0 Catalog, Search	Enabled	Configurable Product	UNPUBLISHED	INVALID	Upload	Edit	

4.2. Edit the Existing Profile

To edit the existing profile

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, click the **Walmart** menu.
The menu appears as shown in the following figure:

3. Click **Manage Walmart Profiles**.

The **Walmart Profile Listing** page appears as shown in the following figure:

On this page all the available profiles are listed.

4. Click the required row of the profile that the admin wants to edit.

The **Edit Profile** page appears as shown in the following figure:

OR

In the **Action** column, click the arrow button, and then click **Edit Profile**.

5. Make the changes as per requirement.

6. Click the **Save** button.

The created profile is saved and listed on the **Walmart Profile Listing** page.

Or

Click the **Save and Continue Edit** button to save the created profile and continue editing, if required.

Or

Click the **Save and Upload Product** button to save the profile and make ready to upload the product on Jet.com.

The assigned products are listed on the **Product Manager** page as shown in the following figure:

The screenshot shows the 'Product Manager' interface. At the top, there are navigation options like 'Back', 'Page 1 of 1 pages', 'View 20 per page', and 'Total 3 records found'. Below this is a filter bar with 'Select All', 'Unselect All', 'Select Visible', and 'Unselect Visible' buttons, along with '0 items selected' and an 'Actions' dropdown. The main table has the following columns: ID, Sku, Image, Price, Name, Qty, Visibility, Status, Type, Walmart Product Status, Validation, Upload, and Edit. The table contains three rows of product data:

ID	Sku	Image	Price	Name	Qty	Visibility	Status	Type	Walmart Product Status	Validation	Upload	Edit
26	Starbucks_bottle		\$412.00	Starbucks_bottle	102	Catalog, Search	Enabled	Simple Product	UNPUBLISHED	INVALID	Upload	Edit
27	Milton		\$845.00	Milton	152	Catalog, Search	Enabled	Simple Product	UNPUBLISHED	INVALID	Upload	Edit
28	Bottle_config		\$784.00	Bottle	0	Catalog, Search	Enabled	Configurable Product	UNPUBLISHED	INVALID	Upload	Edit

4.3. Delete the Profile

To delete the existing profile

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, click the **Walmart** menu.
The menu appears as shown in the following figure:

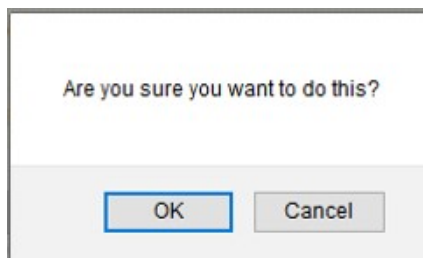

3. Click **Manage Walmart Profiles**.

The **Walmart Profile Listing** page appears as shown in the following figure:

On this page all the available profiles are listed.

4. Click the required row of the profile that the admin wants to delete.
The **Edit Profile** page appears as shown in the following figure:
5. Click the **Delete** button.

A confirmation dialog box appears as shown in the following figure:

6. Click the **OK** button.
The profile is deleted.

4.4. Submit Actions on the Walmart Profile Listing Page

Admin can delete the selected profiles and also can change the status of the profiles in bulk.

To delete the selected profiles in Bulk

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, click the **Walmart** menu.
The menu appears as shown in the following figure:

3. Click **Manage Walmart Profiles**.

The **Walmart Profile Listing** page appears as shown in the following figure:

Walmart Profile Listing							Add New Profile
Page 1 of 1 pages View 20 per page Total 3 records found						Reset Filter	Search
Select All Unselect All Select Visible Unselect Visible 0 Items selected						Actions	Submit
<input type="checkbox"/>	ID	Profile Name	Status	Total Item	Active Item	Inactive Item	Action
<input type="checkbox"/>	1	profile name	Active	3	0	3	<input type="text"/>
<input type="checkbox"/>	2	profile name 2	Active	7	0	7	<input type="text"/>
<input type="checkbox"/>	3	profile name 3	Active	0	0	0	<input type="text"/>

On this page all the available profiles are listed.

4. Select the check boxes associated with the required profiles.
5. Click the Arrow button next to the **Actions** field.

The **Actions** list appear as shown in the following figure:

6. In the **Actions** list, click **Delete**, and then click the **Submit** button.
A confirmation dialog box appears as shown in the following figure:
7. Click the **OK** button.
The selected profiles are deleted.

To change the status of the selected profiles

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, click the **Walmart** menu.
The menu appears as shown in the following figure:

3. Click **Manage Walmart Profiles**.
The **Walmart Profile Listing** page appears as shown in the following figure:

ID	Profile Name	Status	Total Item	Active Item	Inactive Item	Action
1	profile name	Active	3	0	3	
2	profile name 2	Active	7	0	7	
3	profile name 3	Active	0	0	0	

On this page all the available profiles are listed.

4. Select the check boxes associated with the required profiles.
5. Click the Arrow button next to the **Actions** field.

The **Actions** list appear as shown in the following figure:

6. In the **Status** list, click **Change status**.

The **Status** field appears next to the Actions list.

7. In the **Status** list, select the required option, and then click the **Submit** button.

The status is changed and a success message appears.

4.5. Product Manager

On this page, admin can view, edit, and upload the individual product. Also, the admin can view the error message if any error exist in any product details. The admin can also submit certain actions on the selected products available on the Product Manager page.

To upload single product

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, click the **Jet** menu, and then click **Manage Profile**.

The **Walmart Profile Listing** page appears as shown in the following figure:

ID	Profile Name	Status	Total Item	Active Item	Inactive Item	Action
1	profile name	Active	3	0	3	
2	profile name 2	Active	7	0	7	
3	profile name 3	Active	0	0	0	

On this page all the available profiles are listed.

3. Scroll down to the required profile.
4. In the **Action** column, click the Arrow button, and then click **Upload Products**.

The **Product Manager** page appears as shown in the following figure:

ID	Sku	Image	Price	Name	Qty	Visibility	Status	Type	Walmart Product Status	Validation	Upload	Edit
26	Starbucks_bottle		\$412.00	Starbucks_bottle		Catalog, Search	Enabled	Simple Product	UNPUBLISHED	INVALID	Upload	Edit
27	Milton		\$845.00	Milton		Catalog, Search	Enabled	Simple Product	UNPUBLISHED	INVALID	Upload	Edit
28	Bottle_config		\$784.00	Bottl		Catalog, Search	Enabled	Configurable Product	UNPUBLISHED	INVALID	Upload	Edit

All the products assigned to the profile are listed on this page.

5. Scroll down to the required product.

6. In the **Upload** column, click the **Upload** link.

If the product is uploaded successfully, then the success message appears on the top of the page.

If there is an error, then the error message appears on the top of the page.

To View the error log

1. Go to the **Product** page.

2. Scroll down to the required product.

3. In the **Validation** column, click the **INVALID** button.

The relevant error message appears as shown in the figure.

To view and edit product information

1. Go to the **Product** page.

2. Scroll down to the required product.

3. In the **Validation** column, click the **VALID** button.

The **Product Information** page appears as shown in the following figure:

The screenshot shows the Magento Admin interface for editing a product. The left navigation panel has 'Walmart' highlighted. The main content area shows the 'General' tab with fields for 'Name' and 'Description', both containing 'Starbucks_bottle'. At the top right, there are buttons for 'Back', 'Reset', 'Delete', 'Duplicate', 'Sync With Walmart', 'Save', and 'Save and Continue Edit'.

- In the left navigation panel, click the **Walmart** menu.
The page appears as shown in the following figure:

The screenshot shows the 'Walmart' tab in the product edit interface. The left navigation panel has 'Walmart' highlighted. The main content area shows various Walmart-specific fields: 'Walmart Self Description', 'Walmart Product Id Type' (set to 'UPC'), 'Walmart Product Id', 'Walmart Brand' (set to 'brand'), 'Walmart Product status', 'Walmart Product Validation' (set to 'Valid'), 'Walmart Product Status' (set to 'UNPUBLISHED'), and 'Walmart Product Tax Code'. Each field has a small triangle icon and a tooltip with instructions. At the top right, there are buttons for 'Back', 'Reset', 'Delete', 'Duplicate', 'Sync With Walmart', 'Save', and 'Save and Continue Edit'.

- Enter the required information, and then click the **Save** button.
- To sync the Magento Product with Walmart, click the **Sync With Walmart** button.

4.5.1. Upload Products

The admin can upload the products that are assigned to the selected profile and are listed on the **Product Manager** page to Walmart.

Other than the Validate & Upload Product(s) to Walmart action, the admin can also perform the following actions on the selected products available on the Product Manager page:

- **Validate Selected Product(s):** To validate the product before uploading it to the Walmart website. It displays the corresponding validation error, if any. If there is no error, it confirms that the product is ready to upload.
- **Product Price Update:** To update the price of the product on Walmart. For example, if the user has changed the product price on the Magento store and also wants to change the price on Walmart then this action is applicable. The price is updated when the user submits this action for the selected product.
- **Product Inventory Update:** To update the inventory of the product on Walmart. This action completes all the job related to the product inventory and also it manages the quantity related issues.

- **Retire Selected Product(s)**: To withdraw the selected product so that it is neither used nor ordered. On submitting this action, the product is not listed on Walmart is retired. Thus, nobody can order them from Walmart.
- **Sync Walmart Product Status**: To get the request from Walmart to update the status of the product on the Magento store. It helps the user to view the status of the product. For example, unpublished, transmit, data fix, system error, or so on.

Note: These actions are also sbmitted similarly as submitting the **Validate & Upload Product(s)** action for uploading the products.

To upload products

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, click the **Walmart** menu.
The menu appears as shown in the following figure:

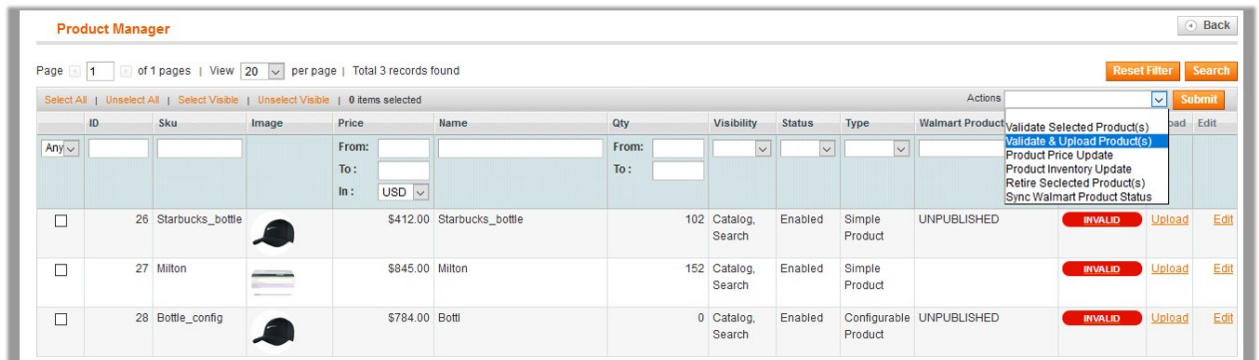

3. Click **Manage Walmart Profiles**.
The **Walmart Profile Listing** page appears as shown in the following figure:

On this page all the available profiles are listed.

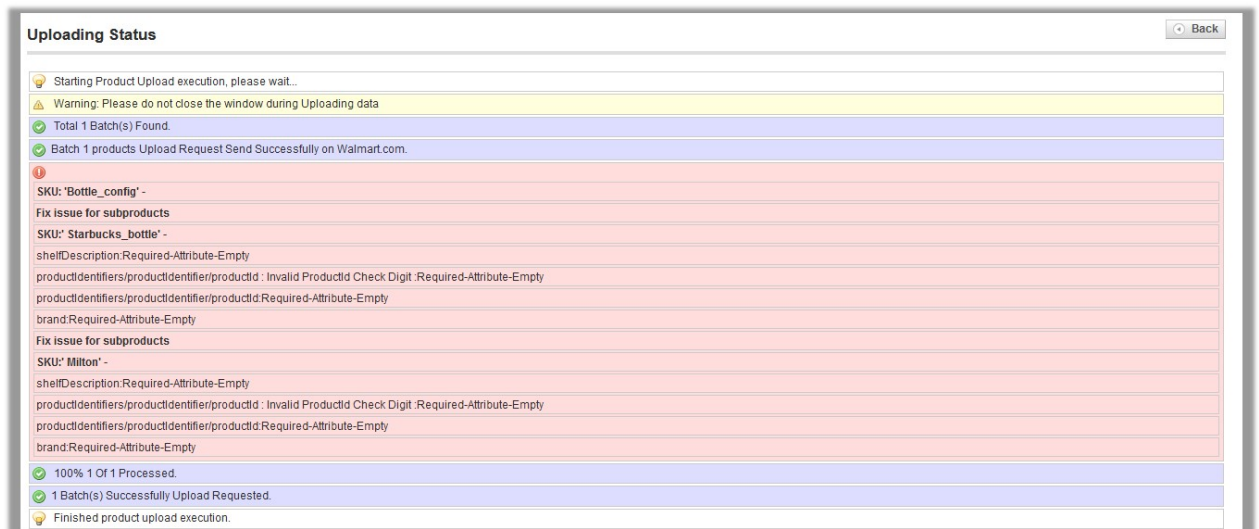

4. Scroll down to the required profile.
5. In the **Action** column, click the Arrow button, and then click **Upload Products**.
The **Product Manager** page appears as shown in the following figure:

All the products assigned to the profile are listed on this page.

6. Select the check box associated with the product that the admin wants to upload it to Walmart.
7. In the **Actions** list, click the arrow button, and then click **Validate & Upload Products**.
8. Click the **Submit** button.

The **Uploading Products to Walmart** page appears as shown in the following figure:

5. Product Feeds

After uploading the product on Walmart or after updating the product inventory or the product price, the user can check the status of the feed and sync the selected feeds or all the feeds from the Walmart Feed Details page.

To view product feeds status

1. Go to **Magento Admin Panel**.
2. Click the **Walmart** menu, and then click **Product Feeds**.
The **Walmart Feed Details** page appears as shown in the following figure:

	Id #	Feed Id #	Feed Status	Feed Source	Items Received	Items Succeeded	Items Failed	Items Processing	Feed Date	Feed File	Feed Errors
<input type="checkbox"/>	52		PROCESSED	SELLER	126	126	0	0	2017-05-31 02:55:30	File Not Available	SUCCESS
<input type="checkbox"/>	51		PROCESSED	SELLER	480	479	1	0	2017-05-31 03:01:46	File Not Available	50 ERROR(S)
<input type="checkbox"/>	50		PROCESSED	SELLER	480	479	1	0	2017-05-31 03:01:46	File Not Available	50 ERROR(S)
<input type="checkbox"/>	49		PROCESSED	SELLER	476	476	0	0	2017-05-31 03:31:35	File Not Available	SUCCESS
<input type="checkbox"/>	48		PROCESSED	SELLER	476	476	0	0	2017-05-31 03:31:37	File Not Available	SUCCESS
<input type="checkbox"/>	47		PROCESSED	SELLER	471	470	1	0	2017-05-31 03:33:04	File Not Available	50 ERROR(S)
<input type="checkbox"/>	46		PROCESSED	SELLER	478	478	0	0	2017-05-31 03:56:30	File Not Available	SUCCESS
<input type="checkbox"/>	45		PROCESSED	SELLER	474	473	1	0	2017-05-31 03:58:01	File Not Available	50 ERROR(S)

3. Do the required one from the following tasks:
 - View the status of the feed in the **Feed Status** column.
 - To synchronize the feeds between Walmart and Magento, click the **Sync Feeds** button.
Or
Select the check box associated with the product and submit the **Sync Feed** action.
 - To delete the feed, select the check box associated with the product and submit the **Delete Feed** action.
 - To view the product feed error, click the **Error** button.
Note: If the Success button appears in the **Feed Errors** column of the corresponding feed, then it means that the product is successfully synchronized with Walmart.

Note : The user can also view the detailed error report from Walmart seller panel.

To view product feed status on Walmart seller panel

1. Go to the **Walmart** seller panel.
2. In the left navigation menu, click **Feed Status**.
The page appears as shown in the following figure:

Walmart seller center

CarShoez

Feed Status

ITEM FEED | INVENTORY FEED | PRICE FEED | PROMO FEED

You can view your Item Feed statuses below. If any of your feeds have errors listed in the Error column, fix the error and reupload your feed.

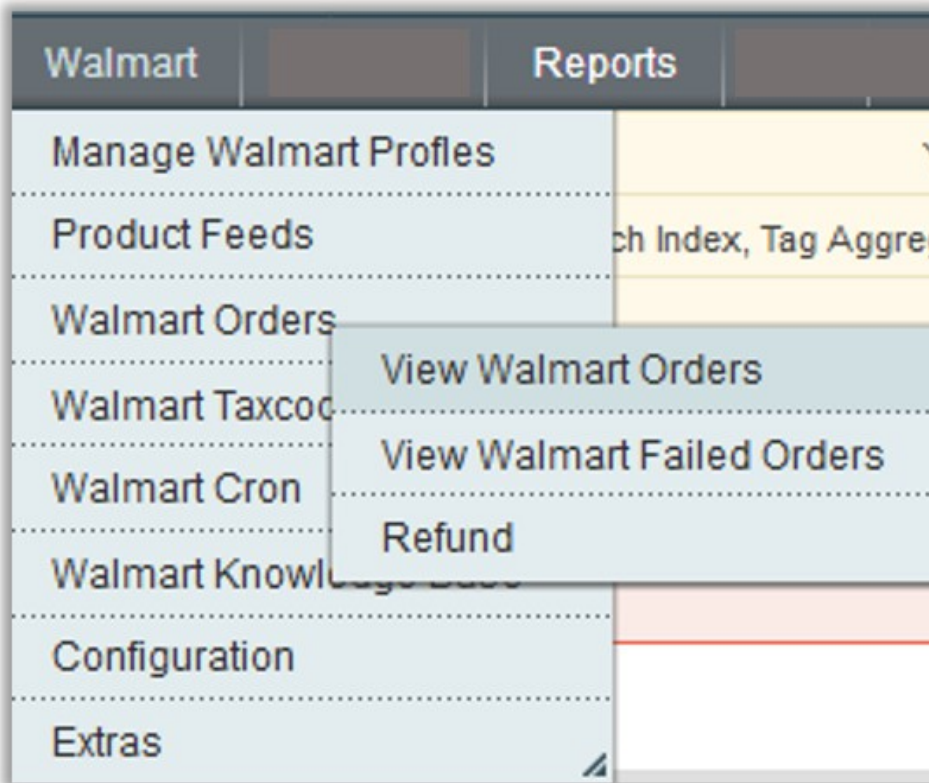

Feed ID	Date	Status	Submitted	Processed	Pending	Errors	Error File
1F10E462CEC94B378C3994A16FCFB0...	3/17/17	Processed	20	20	0	0	Download Errors
9CB984A8586D4F8885027C3F196340F...	3/17/17	Processed	20	20	0	0	Download Errors
6AED554253B54C6795CD3F7C409FD6...	3/16/17	Processed	20	20	0	0	Download Errors

3. In the **Error File** column, click the **Download Errors** link associated with the required product feed.
4. Fix the errors, if any.
5. Re-upload the product feed.

6. Walmart Orders

On the Walmart menu, Walmart Orders has the following three sub-menus as shown in the following figure:

- View Walmart Orders
- View Walmart Failed Orders
- Refund

6.1. View Walmart Orders

The user can fetch and view all the order details fetched from Walmart.

To view Walmart Orders

1. Go to **Magento Admin Panel**.
2. On the **Walmart** menu, point to **Walmart Orders**, and then click **View Walmart Orders**.
The **Walmart Orders Details** page appears as shown in the following figure:

Walmart Orders Details										Fetch Latest Walmart Orders
Magento Order #	Walmart Purchase Order Id #	Bill to Name	Ship to Name	Date Ordered	Delivery By	Status	G.T. (Purchased)			
100000024	3843952598994	Linda Meyer	Linda Meyer	Oct 29, 2016 2:08:46 AM	Nov 9, 2016 11:00:00 PM	Completed	106.0000			

3. Click the **Fetch Latest Walmart Orders** button.
If the order is imported successfully then, a new record is found in the **Walmart Order Details** table as shown in the above figure.

Notes:

- Orders are automatically imported through CRON in every 10 minutes.
- Whenever the latest orders are imported from Walmart, a Notification appears in the notification

area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported in the Magento admin panel.

- As per Walmart's Policy, orders should be acknowledged within 60 minutes.
 - If no Order is imported, then check the Failed order log on the **Failed Walmart Orders Import Log**
 - Order are auto rejected on Walmart in the following conditions:
 - When Walmart Product SKU does not exist in Magento.
 - When Product is Out of Stock in Magento.
 - When product is disabled in Magento.
4. In the **Magento Order#** column, click the link associated with the required order.
The page appears as shown in the following figure:

The screenshot shows the Magento Admin Panel interface. At the top, there is a navigation bar with tabs for Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Walmart, Jet, Reports, and System. Below the navigation bar, there are several notification messages. The main content area is titled "Order View" and shows details for "Order # 10000024 | Mar 21, 2017 4:46:31 AM". The order status is "Complete". The page is divided into several sections: "Information" (with a sidebar menu), "Order # 10000024 (the order confirmation email is not sent)", "Account Information" (Customer Name: Linda Meyer, Email: ikurrac@amphony.com), "Billing Address" (Linda Meyer, 8211 Densmore Avenue N, Seattle, WA, 98103, United States), and "Shipping Address" (Linda Meyer, 8211 Densmore Avenue N, Seattle, WA, 98103, United States).

5. In the left navigation menu, click **Ship By Walmart**.
The page appears as shown in the following figure:

The screenshot shows the Magento Admin Panel interface. The main content area is titled "Order View" and shows details for "Order # 10000020 | Mar 19, 2017 9:16:17 PM". The page is divided into several sections: "Information" (with a sidebar menu), "Shipment Info" (Purchase Order Id on Walmart.com: 3377742938561, Order Date: Wednesday, January 18th 2017 at 5:55pm, Order transmission on Walmart.com: Wednesday, January 18th 2017 at 5:55pm, Estimated Ship Date: Thursday, January 19th 2017 at 7:00am, Estimated Delivery Date: Thursday, January 26th 2017 at 7:00am, Shipping carrier used: UPS, Method Code: Standard, Tracking Number, Tracking Url, Ship Date), and "Shipment Items" (Product Sku: 0001, Quantity Ordered: 1, Quantity to Ship: 1, Quantity to Cancel: 0, Qty Available for Ship: 1). There is a "Submit Shipment" button and a "NOTE:" section below.

- Orders imported from Walmart uses **Payment Method** depending on the **System Configuration Settings** of Walmart extension.
6. Under **Shipment Info**, enter the corresponding values in the following fields:
- a. In the **Shipping carrier used** list, select the required option.
 - b. In the **Method Code** list, select the required option.
 - c. In the **Tracking Number** box, enter a value.

- d. In the **Ship Date** box, enter a date.
7. Under **Shipment Items**, enter the corresponding values in the following fields:
 - a. In the Quantity to Ship box, enter a value.
The number of quantity that the user can ship. The value cannot be greater than the **Qty Available for Ship** value.
 - b. In the Quantity Cancelled box, enter a value.
The number of quantity that the user wants to reject. The value cannot be greater than the **Qty Available for Ship** value. The success message appears, if the order is shipped successfully.
8. Click the **Submit Shipment** button.

Notes :

- a. Order **Shipment** is sent to Walmart.
- b. Order **Invoice** and **Shipment** is created automatically in Magento.
- c. Order **Status** changes to **Complete** on Walmart.
- d. The **status** of order changes to **Completed** on Magento.

6.2. View Walmart Failed Orders

The users can view the list of failed Walmart orders on the Failed Walmart Orders Import Log page.

Orders cannot be imported from Walmart due to the following conditions:

- If any product in the Walmart Order is Out of Stock in Magento.
- If any product in the Walmart Order is disabled in Magento.
- If any Product does not exist in Magento or is deleted from Magneto after uploading on Walmart.
- If the selected Payment Method in Walmart System Configuration Setting is not available in Magento.

To view Walmart failed orders

1. Go to **Magento Admin Panel**.
2. On the **Walmart** menu, point to **Walmart Orders**, and then click **View Walmart Failed Orders**.

The **Failed Walmart Orders Import Log** page appears as shown in the following figure:

ID	Purchase order ID	Reference Number	Reason to failed	Order Data	
<input type="checkbox"/>	7	3843952598994	5731668731958	Product L1700 is Not Enabled or not in stock or inventory <= 0 or Product visibility is set to not visible individually	{ "purchaseOrderId": "3843952598994", "customerOrderId": "5731668731958", "customerEmailId": "jkurac@amphony.com", "orderDate": "1477732126000", "phone": "8005312334", "estimatedDeliveryDate": "1478761200000", "estimatedShipDate": "1477893600000", "methodCode": "Standard", "postalAddress": { "name": "Meyer", "address1": "8211 Densmore Avenue N", "address2": null, "city": "Seattle", "state": "WA", "postalCode": "98103", "country": "USA", "addressType": "RESIDENTIAL" }, "orderLines": [{ "orderLine": { "lineNumber": "1", "item": { "productName": "Amphony Wireless Speaker Kit with one Wireless Amplifier (New Model), Makes Surround Speakers Wireless, 300ft range, Connect to any Audio Source, Better-than Bluetooth Digital Wireless", "sku": "L1700", "charges": [{ "chargeType": "PRODUCT", "chargeName": "ItemPrice", "chargeAmount": { "currency": "USD", "amount": 99, "tax": null }, { "chargeType": "SHIPPING", "chargeName": "Shipping", "chargeAmount": { "currency": "USD", "amount": 7, "tax": null }], "orderLineQuantity": { "unitOfMeasurement": "EACH", "amount": "1", "statusDate": "1476172408000", "orderLineStatuses": [{ "status": "Acknowledged", "statusQuar": { "unitOfMeasurement": "EACH", "amount": "1", "cancellationReason": null, "trackingInfo": null }], "refund": null } }] }] }] }

This page displays the failed orders with the order id and the reason for the failure.

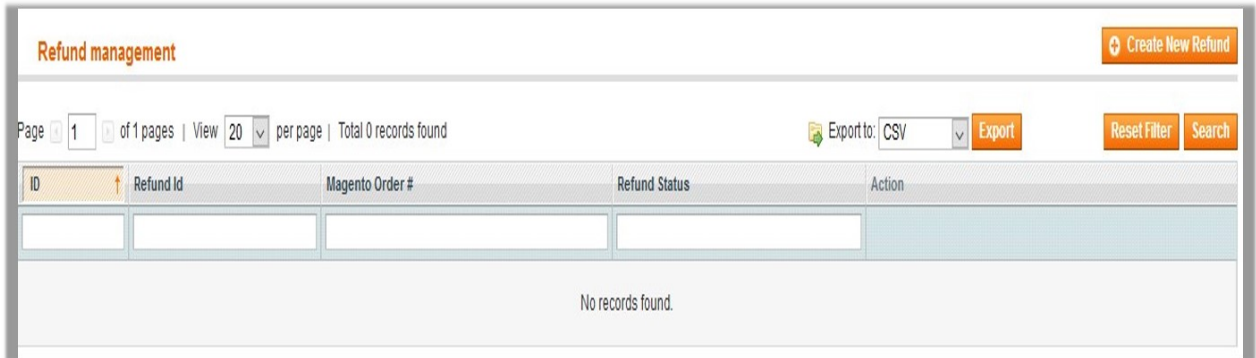

6.3. Refund

If a front-end user returns the product or order directly to the merchant without the involvement of walmart.com, then the merchant has to send a request on walmart.com for completing this type of return.

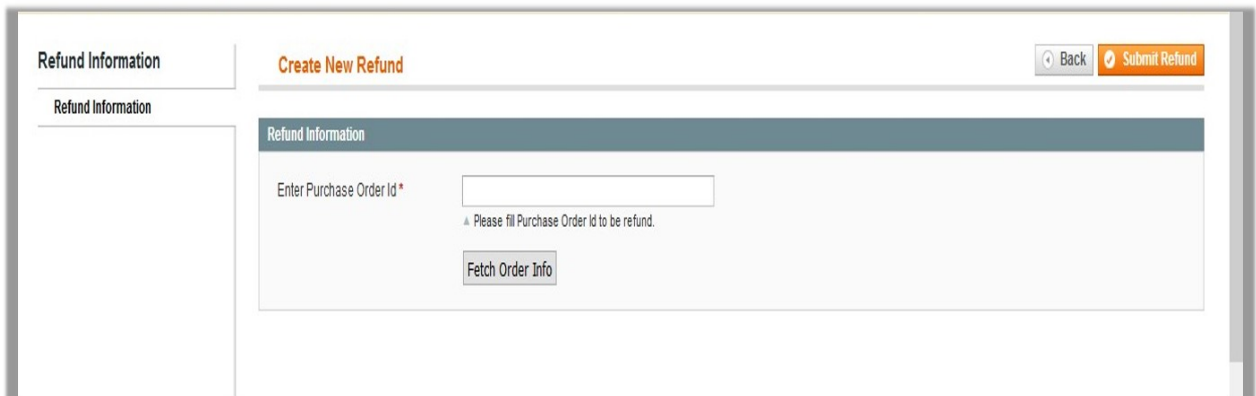

To complete this type of return the merchant has to create a new refund.

To create a new refund

1. Go to **Magento Admin Panel**.
2. On the **Walmart** menu, point to **Walmart Orders**, and then click **Refund**.
The **Refund Management** page appears as shown in the following figure:

3. Click the **Create New Refund** button.
The page appears as shown in the following figure:

4. Under **Refund Information**, in the **Enter Purchase Order Id** box, enter a value.
5. Click the **Fetch Order Info** button.
If the entered purchase order Id is correct, then the respective order details are displayed product-wise in the new sections as follows:

- **Refund id:** Refund id that the merchant receives from walmart.com.
- **Refund Merchant Id:** Identification number of the merchant.
- **Order item id:** Identification number generated at the time of placing order.
- **Qty Requested:** Total number of items or product ordered in the current order.
- **Qty Already Refunded:** Items or product that have been already refunded to the front-end user.
- **Qty Available for Refund:** Number of items or product that can be refunded.
- **Qty Returned:** Number of items or product returned by the customer.
Note: Returned quantity should be less than or equal to the shipped quantity.
- **Qty Refunded:** Number of items or product that the merchant wants to refund.
Note: Refunded quantity should be less than or equal to the Returned quantity.
- **Refund tax:** Tax applied on the items or products returned.
- **Refund Amount:** Amount that Walmart has to return to the front-end user.
- **Refund Shipping Cost:** Shipping cost applicable to the returned product.

- **Refund Shipping tax:** Shipping tax applicable to the returned product.
 - **Refund Feedback:** Feedback of merchant on the returned product.
 - **Refund Reason:** Reason why the front-end user has returned the product.
6. Click the **Submit Refund** button.

7. Walmart Taxcodes

The **Walmart Product Taxcodes** page displays all the sales tax codes that the merchant needs for items and shipping. Sales tax codes helps Walmart to collect the proper sales tax from the merchant so that the merchant can remit to the proper tax authorities.

Note: Walmart does not provide tax advice to merchants, not even advises which code to select for their items. Consult the tax advisor for more guidance on which tax code to select.

To view the Walmart product taxcodes

1. Go to **Magento Admin Panel**.
2. On the **Walmart** menu, click **Walmart Taxcodes**.

The **Walmart Product Taxcodes** page appears as shown in the following figure:

Id	Walmart Tax Code	Category Description	Sub Category Description
4985	2049946	Compostable Plastic Bag provided free of charge by a restaurant in connection with a sale of a taxable meal. Code assumes vendor elects to report any assessed bag fee on their meals tax return when applicable (MA)	Food and Beverages for Immediate Consumption and Related Charges - Carrying Applicable Sales Tax and Meals Tax Rules
4984	2049945	Recyclable Paper Bag provided free of charge by a restaurant in connection with a sale of a taxable meal. Code assumes vendor elects to report any assessed bag fee on their meals tax return when applicable (MA)	Food and Beverages for Immediate Consumption and Related Charges - Carrying Applicable Sales Tax and Meals Tax Rules
4983	2049944	Sale of a prepared food item (not containing raw egg) that is not in a "ready to eat" state, sold by an entity primarily in the business of offering food for immediate consumption (e.g. pizza dough sold by a pizzeria)	Food and Beverages for Immediate Consumption and Related Charges - Carrying Applicable Sales Tax and Meals Tax Rules
4982	2049943	Sale of Beer – less than or equal to 2.56% ABW/3.2% ABV where the seller holds an intoxicating liquor license (MN)	Food and Beverages for Immediate Consumption and Related Charges - Carrying Applicable Sales Tax and Meals Tax Rules
4981	2049942	Sale of Beer – greater than 2.56% ABW/3.2% ABV but less than or equal to 5% ABW/6.335% ABV	Food and Beverages for Immediate Consumption and Related Charges - Carrying Applicable Sales Tax and Meals Tax Rules
4980	2049941	Sale of Beer – less than or equal to 2.56% ABW/3.2% ABV where the seller holds a 3.2% malt liquor license (MN)	Food and Beverages for Immediate Consumption and Related Charges - Carrying Applicable Sales Tax and Meals Tax Rules
4979	2049937	Automotive aerosol paint in 2-pack containers sold to an auto repair shop. The seller must have received necessary documentation/information supporting a claim of exemption. If required by the jurisdiction, this code presumes the charge for paint is separately stated on the customer's invoice from the repair shop	Construction Materials

8. Walmart Cron

Walmart Integration, an extension developed by CedCommerce, is a one-stop integration, which establishes synchronization of inventory, price, other details for product creation and its management between Magento® store and Walmart with the help of Crons.

The user can view the following details:

- Walmart Cron Details
- Cron Status

8.1. Walmart Cron Details

The **Walmart Cron Details** page displays all the Cron details scheduled in Walmart.

To view the Walmart Cron details

1. Go to **Magento Admin Panel**.
2. On the **Walmart** menu, click **Walmart Cron**.

The **Walmart Cron Details** page appears as shown in the following figure:

Walmart Cron Details

8.2. Cron Status

The updated status appears as mentioned in the following table:

Activity	Time Required for Updating (min)
Order Creation	Every 10 minutes
Feeds Sync	Every 1 day
Inventory Sync	Every 15 Minutes
Price Sync	Twice a Day

9. Walmart Knowledge Base

This page displays a knowledge base link to view and understand the working of the extension properly and get the clarifications on Walmart-Magento Integration.

To view the Walmart Knowledge Base

1. Go to **Magento Admin Panel**.
2. On the **Walmart** menu, click **Walmart Knowledge Base**.

The page appears as shown in the following figure:

10. Extras

On the Walmart menu, the **Extras** menu has the following sub-menus as shown in the following figure:

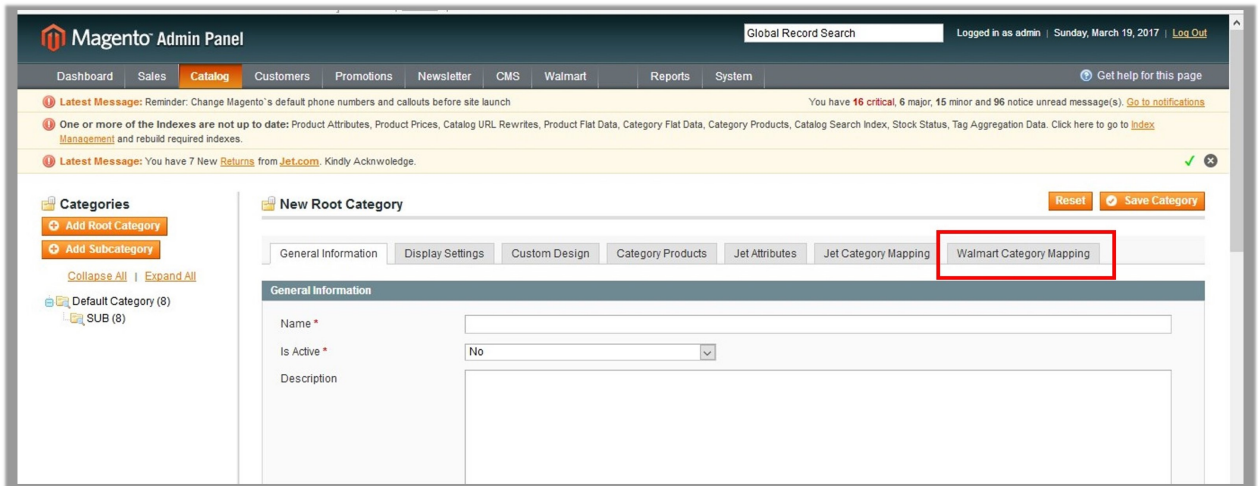

10.1. Manage Walmart Category

User has to Map Walmart Category to Magento Category to upload products on Walmart admin panel.

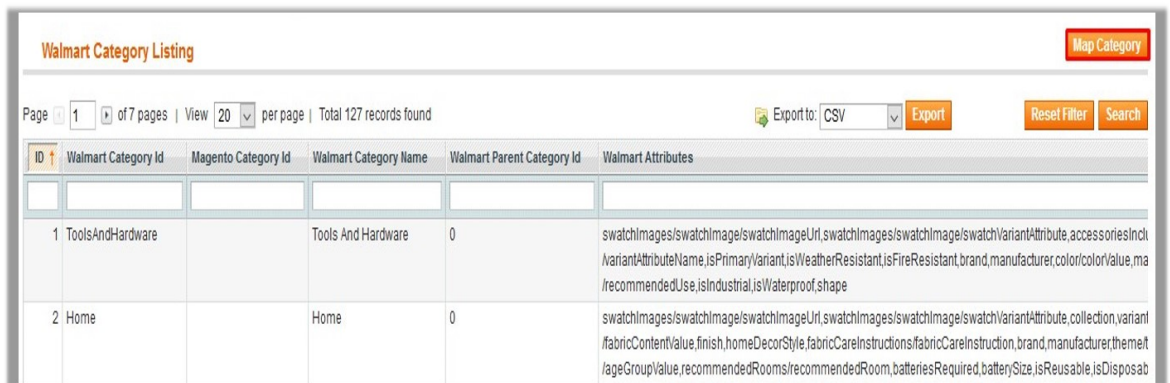

To map the Walmart categories to the Magento categories

1. Go to **Magento Admin Panel**.
2. On the **Catalog** menu, click **Manage Categories**.
The page appears as shown in the following figure:

OR

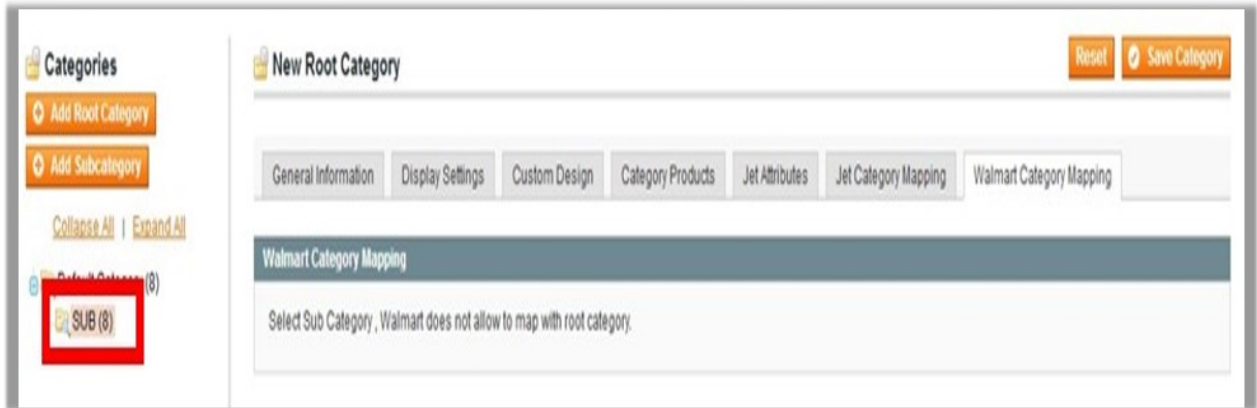

- a. On the **Walmart** menu, click the **Extras** menu, and then click **Manage Walmart Category**. The **Walmart Category Listing** Page appears as shown in the following figure:

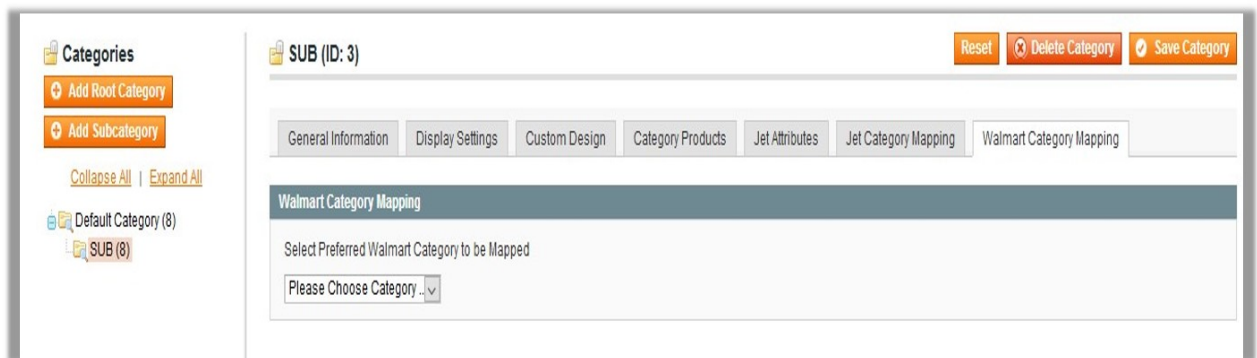

- b. Click the **Map Category** button. The page appears as shown in the following figure:

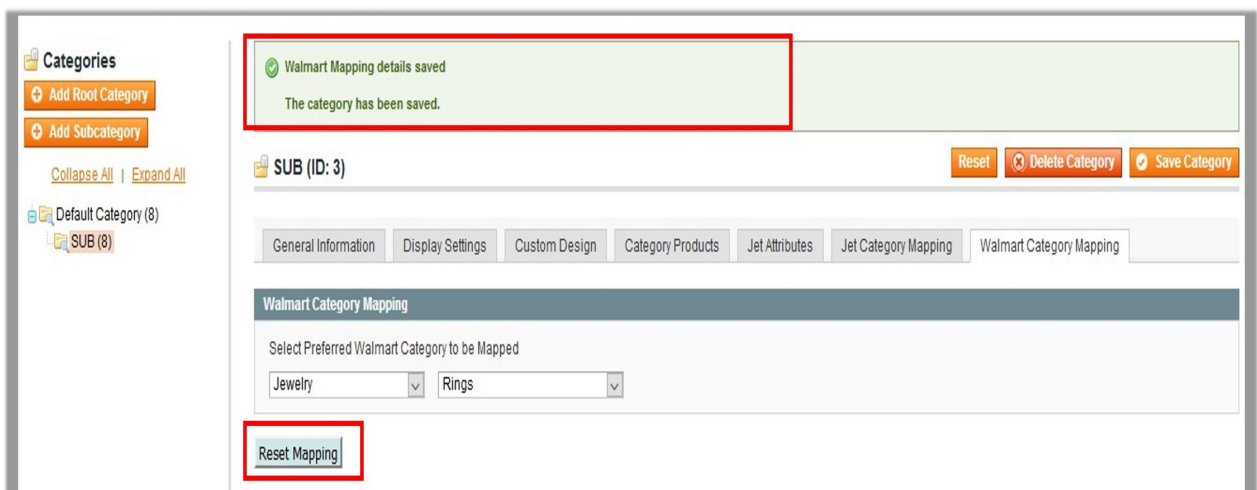

3. Click the **Walmart Category Mapping** tab. The page appears as shown in the following figure:

4. In the left panel, click the required subcategory.
The page appears as shown in the following figure:

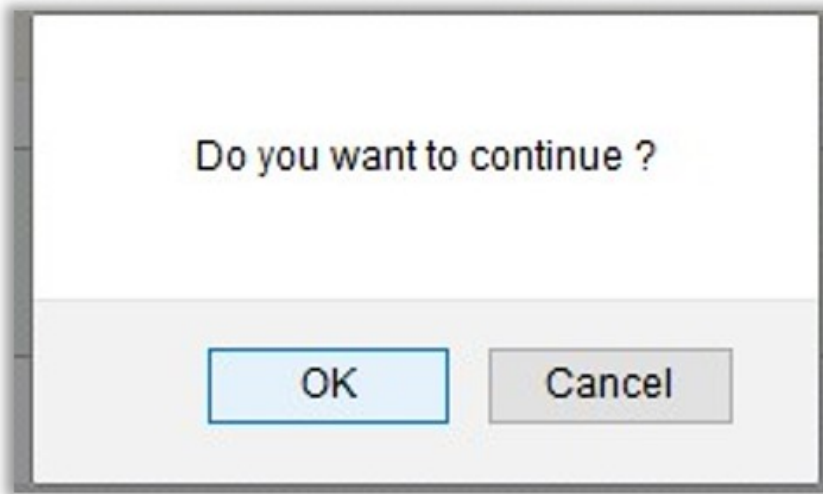

5. In the **Please Choose Category** list, select the category to map.
6. Click the **Save Category** button.
The category is saved and the message appears as highlighted in the following figure:

After mapping the Magento category, all the products of the mapped category are listed on the **Product Manager** page of the Walmart. Once the category is saved, the **Reset Mapping** button appears. The user can reset the category mapping.

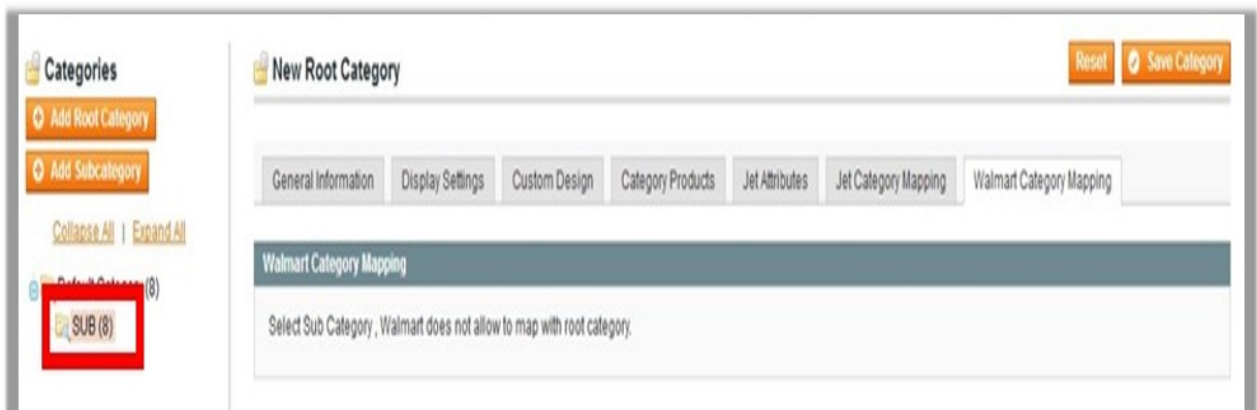

7. Click the **Reset Mapping** button to reset the category mapping.

A confirmation dialog box appears as shown in the following figure:

8. Click the **OK** button.

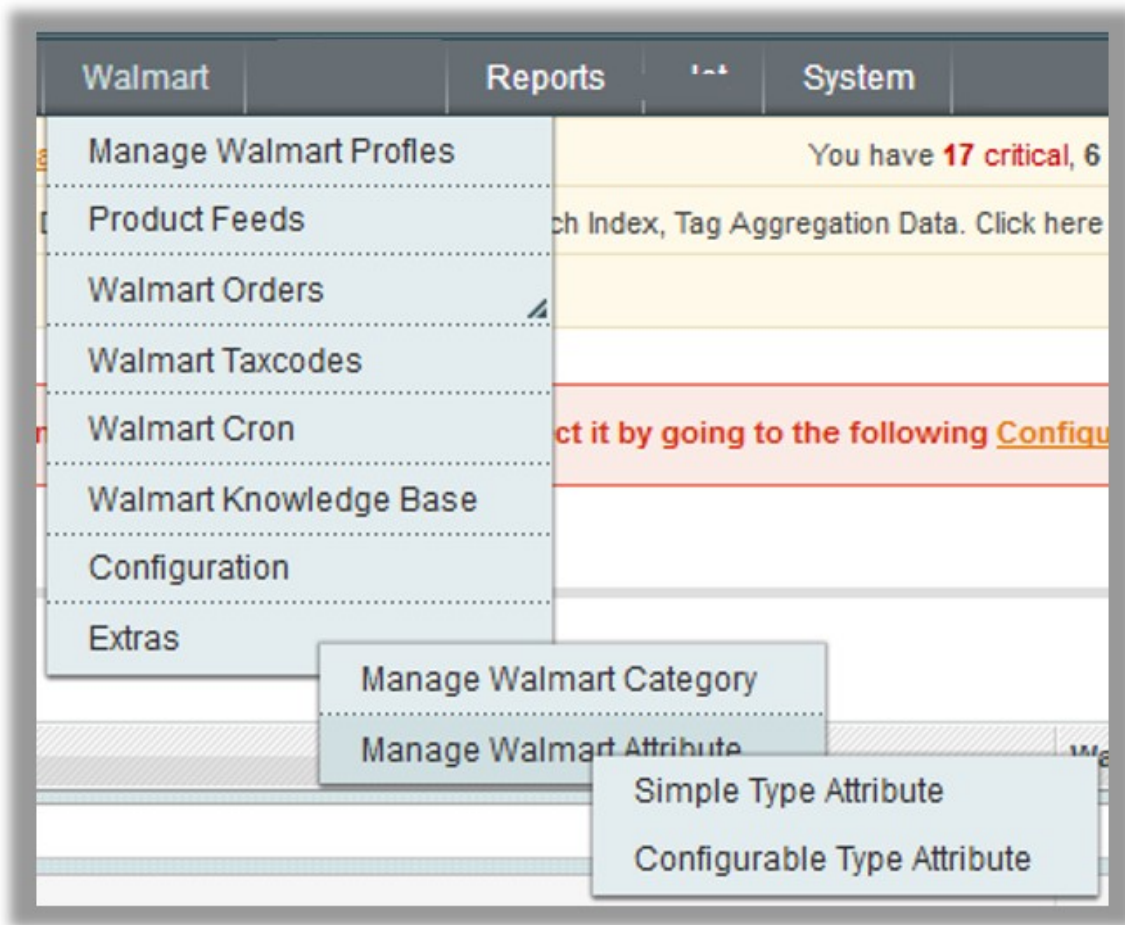

The category is reset and the page appears as shown in the following figure:

10.2. Manage Walmart Attributes

The Manage Walmart Attribute menu has the following two sub-menus:

- Simple type Attribute
- Configurable type Attribute

10.2.1. Simple Type Attribute

A simple type attribute consists of all the list of attributes associated with the simple product.

To view Walmart simple type attributes

1. Go to **Magento Admin Panel**.
2. On the **Walmart** menu, point to **Extras**, and then point to **Manage Walmart Attribute**, and then click **Simple Type Attribute**.

The **Attribute Management** page appears as shown in the following figure:

Attribute Management		
Page 1 of 47 pages View 20 per page Total 934 records found		
<input type="button" value="Reset Filter"/> <input type="button" value="Search"/>
