1. Overview

Founded in 2011, Wish is a mobile e-commerce application based in San Francisco, California operating globally with a large presence in North America, Europe, Brazil, and China. It is the sixth largest e-commerce company in the world.

Wish.com is competing with the companies such as Walmart and Amazon. They are valued at between 3.5 and 5 billion dollars. Wish currently works with thousands of merchants serving millions of users globally.

Wish Magento Integration is a fabulous API integration that helps the Magento 1 store owner to synchronize inventory, price, and other product details for the product creation and its management between the Magento store and the Wish marketplace.

The Wish Magento Integration extension interacts with the Wish Marketplace to integrate the synchronized product listing between the Magento and the Wish retailers. After installing the extension, the merchant can create the Wish Categories and the dependent attributes on the Magento store.

The process enables the merchant to configure the desired product category into Magento for automatic submission of the selected product to the same Category on Wish.

Key Features are as follows:

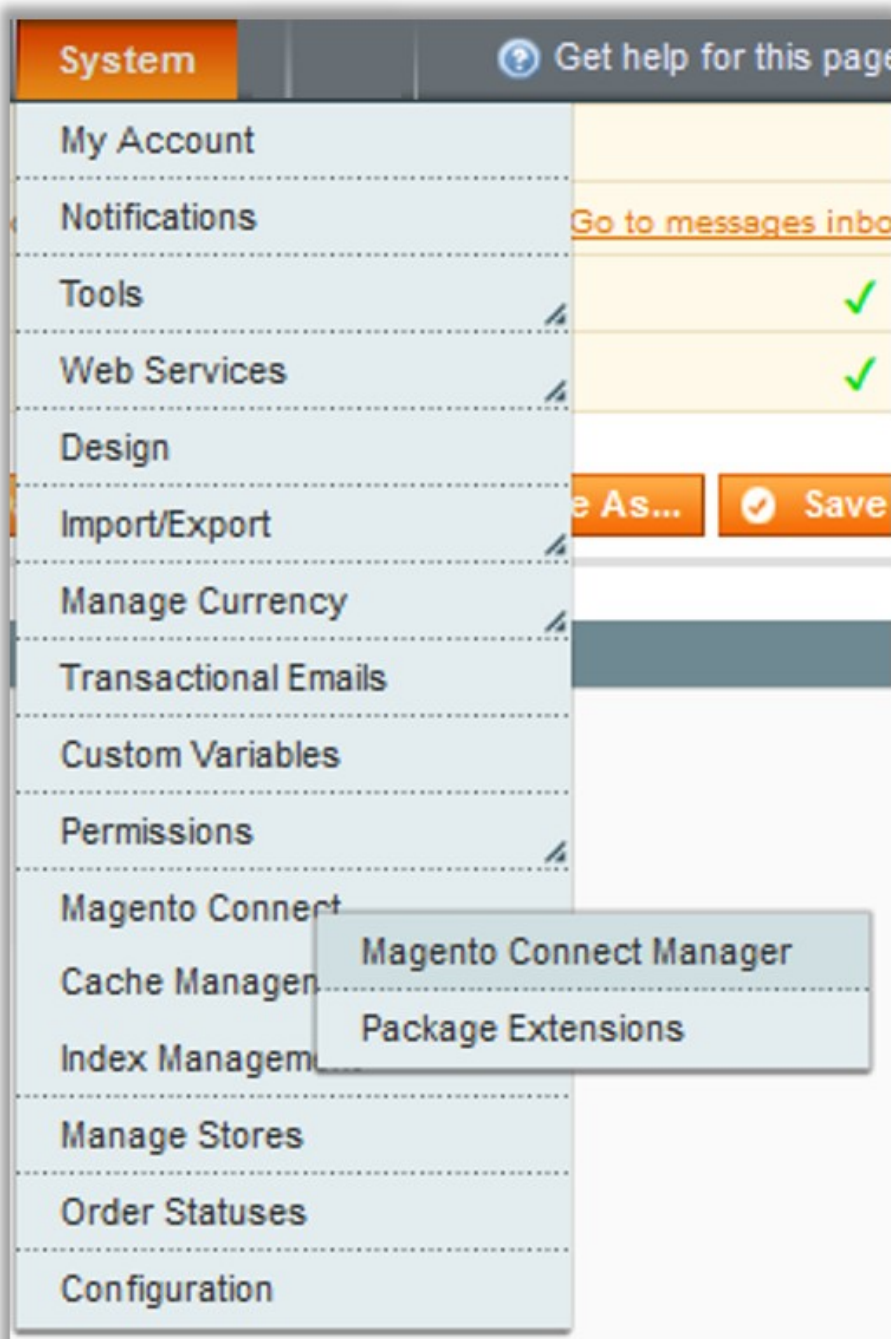

- **Profile based product upload:** Admin can create a profile, map the Wish category and attributes to the Magento category and attributes, and then after assigning the products to the profile can easily upload products to wish.com
- **Attribute Mapping:** Map suitable existing attribute with wish attribute , so you need not to populate that fields.
- **Bulk Upload System:** The merchant has the flexibility to upload any number of products on wish.com using bulk product upload feature.
- **Synchronized Inventory*** : Auto synchronization of the inventory at regular intervals and the listing of the products along with all the details is established between Magento and wish.com
- **Batch Product Download Request:** You can create batch product download request and fetch status. Once status turns to Finished, the admin can process this by one click.
- **Enable and Disable Products*** : Merchants can close and reopen the products on wish.com using Enable and Disable feature.
- **New Order Notifications*** : Whenever a new order is fetched from wish.com, the admin receives a notification.
- **Rejected Products Notification:** If any product containing some invalid details is rejected, then its information is fetched from the automatic synchronized requests along with the error due to which it is rejected.
- **Simple and Configurable Product Upload:** Admin can upload the Simple and Configurable type of Magento product on the Wish website.

Note: All the * features will be available within 7 days (approximately) of the purchase.

2. Wish Magento Integration Extension Installation

To install the extension

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **System** menu.
The menu appears as shown in the following figure:

3. Point to the **Magento Connect** menu, and then click **Magento Connect Manager**.
The page appears as shown in the following figure:

Magentoconnect MANAGER

☒ Put store on the maintenance mode while installing/upgrading/backup creation

☐ Create Backup

Install New Extensions

1 Search for modules via [Magento Connect](#).

2 Paste extension key to install: [Install](#)

Direct package file upload

1 Download or build package file.

2 Upload package file: [Browse...](#) No file selected. [Upload](#)

Manage Existing Extensions [Check for Upgrades](#)

Channel: **Magento Community Edition** [Commit Changes](#)

Clear all sessions after successful install or upgrade: ☐

Package Name	Installed	Actions	Summary
Cm_RedisSession	1.9.2.4 (stable)	<input type="text" value="v"/>	Redis session
Interface_Adminhtml_Default	1.9.2.4 (stable)	<input type="text" value="v"/>	Default interface for Adminhtml
Interface_Frontend_Base_Default	1.9.2.4 (stable)	<input type="text" value="v"/>	This is a Magento themes base
Interface_Frontend_Default	1.9.2.4 (stable)	<input type="text" value="v"/>	Default interface for Frontend

4. Scroll down to the **Ced_Wish** Package.
5. In the **Actions** column, select the **Install** option from the list.
6. Click the **Commit Changes** button.

Auto-scroll console contents screen appears and the extension is installed after the process.

3. Retrieve API Credentials From the Wish Seller Panel

Once the extension is successfully installed in the Magento store, the **Wish** menu appears on the top navigation bar of the Admin Panel. The merchant has to fill out the API credentials on the **Wish Configuration** page of the admin panel.

The user has to log in the Wish Seller account to obtain the following API credentials:

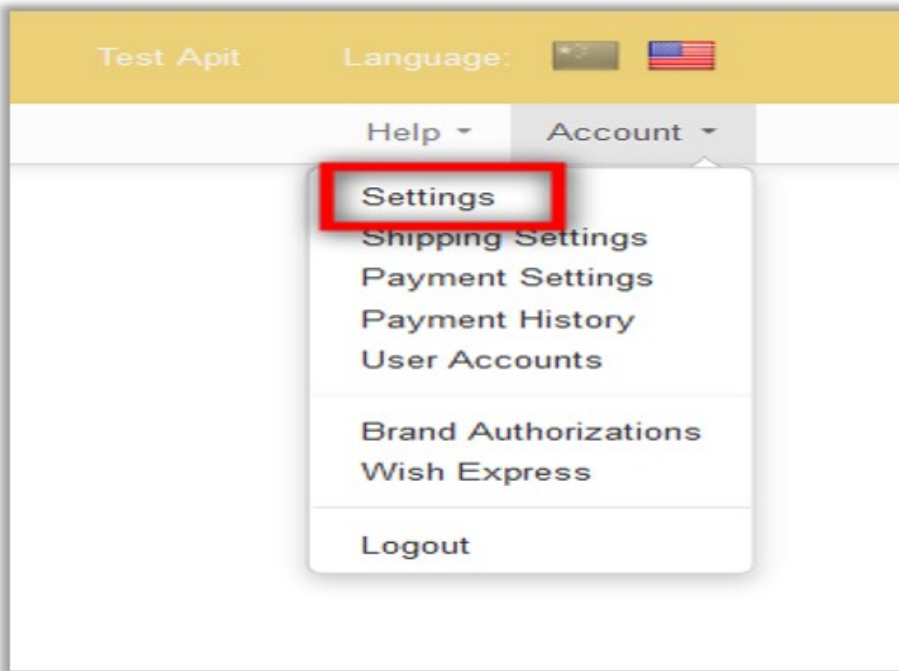

- Client Id
- Client Secret
- Authorization Code

After obtaining the details, the merchant has to copy all of them one by one from the Wish Seller account and

paste it one by one to the **Wish Configuration** page of the admin panel of the store.

To retrieve the API credentials

1. Go to the Wish Seller Panel <https://sandbox.merchant.wish.com/>(<https://sandbox.merchant.wish.com/>) link.
2. Enter the login credentials.
3. In the right-upper corner, click the **Account** menu, and then click **Settings**.

4. In the left navigation panel, click the **API Settings** menu.
The Page appears as shown in the following figure:

[Update](#)

Delete this application. [Delete](#)

5. Copy the **Client Id** value and the **Client Secret** value.
6. Save the corresponding values in some text editor or the in Word file to use it later on while setting up the configuration settings.
7. Go to the https://merchant.wish.com/oauth/authorize?client_id={client_id} URL.
Note: Make sure that the seller account is active on the another tab of the same browser.
8. Replace `{client_id}` with the **Client Id** value and run the URL.
The page appears as shown in the following figure:

9. Click the **Confirm** button.

It redirects the admin to the following redirect URI:

https://example.redirect.uri.com?code={authorization_code}

10. Copy the [authorization_code](#) displayed within the braces.
11. Save the corresponding value in some text editor or the in Word file to use it later on while setting up the configuration settings.

4. Wish Configuration Settings

After obtaining the **Client Id**, **Client Secret**, and **Authorization Code** values from the Wish Seller account, the Magento store owner has to paste them on the **Wish Configuration** page of the admin panel.

To set up the configuration settings in the Magento Admin panel

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Wish** menu, and then click **Configuration**.

The **Wish Configuration** page appears as shown in the following figure:

Wish Configuration Save Config

Wish Setting

Enabled	Yes	[WEBSITE]
Sandbox	Yes	[WEBSITE]
Sandbox User		[GLOBAL]
Sandbox Password		[GLOBAL]
Api Url		[GLOBAL]
API Refresh Token		[GLOBAL]
code		[GLOBAL]
Redirect URI	https://cedcommerce.com	[GLOBAL]
API Access Token		[GLOBAL]
Debug mode	Yes	[GLOBAL]
	Choose Yes to Start Wish Integration in debug mode. It will capture log for the debug process.	
Select Store	Default Store View	[GLOBAL]
	Select only single store.	
Choose Default Payment Method for Wish Orders	No Payment Information Required	[GLOBAL]
Order Prefix for Wish Orders	WISH-	[GLOBAL]
	Order Prefix for Wish Order Id.Example: For JET_10001 Use : JET_ , for JET-10001 use : JET-	
Store Admin Email Id		[GLOBAL]
	Get Email When New Wish Order Imported.Example: owner@example.com	
Enable Automated Shipment	No	[WEBSITE]
	Automated Shipment is supported for shipstation and shipworks only .	

3. Under **Wish Setting**, do the following steps:

- In the **Enabled** list, select **Yes** to enable the Wish Integration extension.
- In the **Sandbox** list, select one of the following options:
 - Yes:** Selecting **Yes** displays the following fields:
 - Sandbox User:** Paste the **Client Id** copied from the Wish seller panel.
 - Sandbox Password:** Paste the **Client Secret** copied from the Wish seller panel.
 - No:** Selecting **No** displays the following fields:
 - User:** Paste the **Client Id** copied from the Wish seller panel.
 - Password:** Paste the **Client Secret** copied from the Wish seller panel.
- In the **Code** box, paste the **Authorization Code** copied from the Wish seller panel.
- Click the **Save Config** button.

The settings are saved and the corresponding values appear in the following fields:

- `. Api Url
- `. API Refresh Token
- `. Redirect URI
- `. API Access Token

5. In the **Debug mode** list, select **Yes**.

Note: Choose **Yes** to Start Wish Integration in debug mode. It captures the log for the debug process.

6. In the **Select Store** list, select the single store.

7. In the **Choose Default Payment Method for Wish Orders** list, select the required payment method.

8. In the **Order Prefix for Wish Orders** box, enter the text to prefix with the Order Id.

For example, Use **Wish-** For **Wish-10001**.

9. In the **Store Admin Email Id** box, enter the email Id.

10. In the **Enable Automated Shipment** list, select **Yes** to enable the automated shipment.

Note: Automated Shipment supports only Shipstation and Shipworks.

4. Scroll down to the **Wish Cron Management** tab, and then click the tab.

The tab is expanded and the corresponding field under the section appears as shown in the following figure:

The screenshot shows the 'Wish Cron Management' tab. It contains a single field 'Cron Chunk Size' with a dropdown menu set to '100'. To the right of the dropdown is a '[GLOBAL]' label. Below the dropdown, there is a small triangle icon followed by the text: 'Select chunk size for cron jobs to sync product on wish.com'.

5. Under **Wish Cron Management**, do the following step:

- In the **Cron Chunk Size** list, select the chunk size for cron jobs to sync the product with Wish.com.

6. Scroll down to the **Product Edit Settings** tab, and then click the tab.

The tab is expanded and the corresponding fields under the section appear as shown in the following figure:

The screenshot shows the 'Product Edit Settings' tab. It contains several fields, each with a dropdown menu and a '[GLOBAL]' label to its right. Below each dropdown is a small triangle icon followed by a description. The fields and their values are:

- Auto Sync With Wish:** Yes. Description: If product is disabled or deleted it auto disable the product on wish.com.
- Show Upload Button:** Yes. Description: Show product upload button to wish on product edit page.
- Send Configurable (Parent) Product's Name:** Yes. Description: Choose yes if you want to send parent product's name during configurable products upload.
- Send Configurable (Parent) Product's Price:** No. Description: Choose yes if you want to send parent product's price (as same as display in magento frontend) during configurable products upload.
- Send Configurable (Parent) Product's Image:** No. Description: Choose yes if you want to send parent product's image (as same as display in magento frontend) during configurable products upload.
- Send Configurable (Parent) Product's Description:** No. Description: Choose yes if you want to send parent product's description (as same as display in magento frontend) during configurable products upload.
- Disable Child Products:** No. Description: Choose whether child product need to be archived on wish.com once it's parent config product is disabled or deleted.

7. Under **Product Edit Settings**, enable or disable the following fields based on the business requirement:

- **Auto Sync With Wish:** If selected **Yes**, then it auto disables the product on tophatter.com if the

product is disabled or deleted.

- **Show Upload Button:** If selected **Yes**, then it displays the product upload button on the product edit page.
- **Send Configurable (Parent) Product's Name:** Choose **Yes** to send parent product name during configurable products upload if required.
- **Send Configurable (Parent) Product's Price:** Choose **Yes** to send parent product price (similar to the price displayed on the Magento frontend view) during configurable products upload if required.
- **Send Configurable (Parent) Product's Image:** Choose **Yes** to send parent product image (similar to the image displayed on the Magento frontend view) during configurable products upload if required.
- **Send Configurable (Parent) Product's Description:** Choose **Yes** to send parent product description (similar to the product description displayed on the Magento frontend view) during configurable products upload if required.
- **Disable Child Products:** If required, choose **Yes** to archive the child product on wish.com once its parent config product is disabled or deleted.

8. Scroll down to the **Minimum Wish Attribute Mapping to List Mapping on Wish.com** tab, and then click the tab.

The tab is expanded and the corresponding fields under the section appear as shown in the following figure:

Minimum Wish Attribute Mapping to List Mapping on Wish.com		
Enter product attribute codes used for sending information on Wish		
Product Title	<input type="text" value="name"/> ▲ Attribute type -Text 5 to 500 characters	[GLOBAL]
Product Description	<input type="text" value="description"/> ▲ Attribute type -Text 1 to 2000 characters	[GLOBAL]
Wish Tags	<input type="text" value="short_description"/> ▲ Attribute type -Text 1 to 10 Tags seperated by comma(,)	[GLOBAL]
Wish Tags	<input type="text" value="Tags,Deafult tags"/> ▲ Attribute type -Text 1 to 10 Tags seperated by comma(,)	[GLOBAL]
Wish Shipping	<input type="text" value="2"/> ▲ Attribute type -Text 1 to 10 Tags seperated by comma(,)	[GLOBAL]
Wish Product Price	<input type="text" value="Increase By Fixed Percentage"/> ▲ Select to send different product price to wish.com	[GLOBAL]
Enter Percentage	<input type="text"/> ▲ Numeric value Required for Add % on Magento price 5 for Example: Magento price + 5% of Magento price. Off % on Magento price 5 for Example: 5% off on Magento price.	[GLOBAL]
Brand	<input type="text" value="brand"/> ▲ Attribute type - Text or 1 to 100 characters	[GLOBAL]
MSRP	<input type="text" value="msrp"/> ▲ Attribute type - Text 1 to 100 characters	[GLOBAL]
UPC	<input type="text" value="upc"/> ▲ Attribute type - text Variant Attribute from store	[GLOBAL]
Size	<input type="text" value="size_new"/> ▲ Attribute type - Select Variant Attribute from store	[GLOBAL]
Color	<input type="text" value="color"/> ▲ Attribute type - Select Variant Attribute from store	[GLOBAL]

9. Under the **Minimum Wish Attribute Mapping to List Mapping on Wish.com** section, enter product attribute codes used for sending information on Wish in the following fields:
- **Product Title:** Select attribute code for the title of the product. Attribute type used is Text – 5 to 500 characters
 - **Product Description:** Select attribute code for the description of the product. Attribute type used is

Text – 1 to 2000 characters

- **Wish Tags:** Select attribute code for the Wish Tags. Attribute type used is Text – 1 to 10 Tags separated by comma(,)
- **Wish Tags:** Enter attribute codes for the Wish Tags. Attribute type used is Text – 1 to 10 Tags separated by comma(,)
- **Wish Shipping:** Enter attribute codes for the Wish Shipping. Attribute type used is Text – 1 to 10 Tags separated by comma(,)
- **Wish Product Price:** This is to set a different price for all the products.

A user can set the price on the following basis: –

- **Increase by Fixed Price:** If selected, then the **Enter Amount** field appears.
- **Increase by Fixed Percentage:** If selected, then the **Enter Percentage** field appears. Enter the numeric value to increase the price of the **Wish** product price by the entered value % of Magento price
For Example, Magento price + 5% of Magento price.
 Magento Price = 100
 Select **Increase By Fixed Percentage** option
Enter Percentage = 5
 $100 + 5\% \text{ of } 100 = 100 + 5 = 105$
 Thus, Wish Product Price = 105
- **Decrease by Fixed Price:** If selected, then the **Enter Amount** field appears.
- **Decrease by Fixed Percentage:** If selected, then the **Enter Percentage** field appears. Enter the numeric value to decrease the price of the Wish product price by the entered value % of Magento price
For Example, Magento price – 5% of Magento price.
 Magento Price = 100
 Select **Decrease By Fixed Percentage** option
Enter Percentage = 5
 $100 - 5\% \text{ of } 100 = 100 - 5 = 95$
 Thus, Wish Product Price = 95
- **Brand:** Select attribute code for Brand of the product. Attribute type used is Text – 1 to 100 characters.
- **MSRP:** Select attribute code for MSRP of the product. Attribute type used is Text – 1 to 100 characters.
- **UPC:** Select the variant attribute code for UPC shipping. Attribute type used is Text.
- **Size:** Select the variant attribute code for the size of the product. Attribute type used is Text.
- **Color:** Select the variant attribute code for the color of the product. Attribute type used is Text.

10. Click the **Save Config** button.

5. Manage Wish Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento attributes to the Wish attributes. These attributes are applicable to all the products that are assigned to the profile.

Admin can do the following tasks:

- Add new profile(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=add-new-profile-6>)
- Edit the existing profile(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=edit-the-existing-profile-15>)

- Delete the profiles(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=delete-the-profiles-in-bulk>)
- Change the Status of the Selected Profiles(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=change-the-status-of-the-selected-profiles>)
- Manage the Product Assigned to the Profile(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=managing-the-product-assigned-to-the-profile>)

5.1. Add New Profile

To add a new profile

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Wish** menu.
The menu appears as shown in the following figure:

3. Click the **Manage Profile** menu.
The **Wish Profile Listing** page appears as shown in the following figure:

4. Click the **Add New Profile** button.
The page appears as shown in the following figure:

5. In the right panel, under **Profile Information**, do the following steps:

- a. In the **Profile Code** box, enter a profile code.
Note: It is only for the internal use. Use the unique profile code with no spaces. Start with small letters.
 - b. In the **Profile Name** box, enter the name of the profile.
Note: Use the unique name to identify the profile.
 - c. In the **Status** list, select **Active** to enable the profile.
Note: The Inactive option disables the profile.
6. Click the **Save and Continue** button.
 7. In the left navigation panel, click the **Wish Attribute Mapping** menu.
 The page appears as shown in the following figure:

The screenshot shows the 'Add Wish Profile' page. On the left is a navigation panel with 'Wish Attribute Mapping' selected. The main area is titled 'Add Wish Profile' and contains a section for 'Wish / Magento Attribute Mapping (Required/ Variant mapping)'. Below this is a table with two columns: 'Wish Attribute' and 'Magento Catalog Attribute'. Both columns have a dropdown menu with 'name' selected. There is an 'Add Attribute' button at the bottom right of the table. At the top right of the main area are buttons for 'Back', 'Reset', 'Save', 'Save and Continue Edit', and 'Save and Upload Product'.

8. In the right panel, go to the **Wish / Magento Attribute Mapping (Required/ Variant mapping)** section.
9. In the **Wish Attribute** column, select the required Wish attribute to map it with the corresponding Magento attribute.
10. In the **Magento Catalog Attribute** column, select the required Magento attribute to map it with the corresponding Wish attribute.
11. Click the **Add Attribute** button to add more attributes.
12. Repeat the mapping of all the required or optional Magento attributes listed with the corresponding Wish attributes.
13. Click the **Save and Continue** button.
14. In the left navigation panel, click the **Wish Shipping** menu.
 The page appears as shown in the following figure:

Shipping Info

Wish Shipping Price

Country	Price	Action
United Arab Emirates	240	Remove
Argentina	250	Remove
Add Shipping		

You can set multiple countries at once. Each parameter is a country code. Each value is the shipping price (in USD) of this product to the country (max 1000). See Shippable Countries for a list of supported countries.

Use Product Shipping Countries

United Arab Emirates
Albania
Argentina
Austria

A string that consists of country codes separated by comma. For example, 'AU,CA,US'. Each country will use the product variation shipping price.

Disabled Countries

Australia
Bosnia and Herzegovina
Barbados
Belgium

A string that consists of country codes separated by comma. For example, 'AU,CA,US'. Users in disabled countries cannot see or buy the product.

Wish Express Add Countries

United Arab Emirates
Albania
Argentina
Austria

A string that consists of country codes separated by comma. For example, 'AU,CA,US'. The product must be shipped to a customer in any of those countries within 5 working days. Warning: Wish Express countries cannot be disabled for promoted products. If you make a mistake, you must correct it immediately.

Wish Express Remove Countries

United Arab Emirates
Albania
Argentina
Austria

A string that consists of country codes separated by comma. For example, 'AU,CA,US'.

15. In the right panel, under the **Shipping Info** section, do the following steps:
 - a. **Wish Shipping Price:** Admin can set the different shipping price for multiple countries at once. Do the following steps:
 - i. Click **Add Shipping** button.
 - ii. In the **Country** column, select the country name.
 - iii. In the **Price** column, select the shipping price for the selected country.

Note: Click the **Add Shipping** button to add more country name and the corresponding shipping price.
 - b. In the **Use Product Shipping Countries** list, select the product shipping countries for use.

Note: Each selected country will use the product variation shipping price.
 - c. In the **Disabled Countries** list, select the countries to disable so that the users in disabled countries cannot see or buy the product.
 - d. In the **Wish Express Add Countries** list, select the required countries.

It is necessary to ship the products to the customer in any of these selected countries within 5 working days.

Caution: Wish Express countries cannot be disabled for the promoted products.
 - e. In the **Wish Express Remove Countries** list, select the countries to remove them from the Wish Express list.
 16. Click the **Save and Continue** button.
 17. In the left navigation panel, click the **Profile Products** menu.
- The page appears as shown in the following figure:

	ID	Profile Name	Status	Total Item	Active Item	Inactive Item	Action
Any							
<input type="checkbox"/>	1	Demo	Active	3	0	2	View Edit Delete
<input type="checkbox"/>	4	Profile 3	Active	0	0	0	View Edit Delete
<input type="checkbox"/>	5	Profile 1	Active	0	0	0	View Edit Delete
<input type="checkbox"/>	6	Profile 2	Inactive	0	0	0	View Edit Delete

On this page all the available profiles are listed.

4. Click the row of the profile that is no more required.

The **Edit Profile** page appears as shown in the following figure:

5. Click the **Delete** button.
A confirmation dialog box appears.
6. Click the **OK** button.
The profile is deleted and removed from the **Wish Profile Listing** page.

To delete the profiles in bulk

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Wish** menu.
The menu appears as shown in the following figure:

3. Click the **Manage Profile** menu.
The **Wish Profile Listing** page appears as shown in the following figure:

ID	Profile Name	Status	Total Item	Active Item	Inactive Item	Action
1	Demo	Active	3	0	2	[Dropdown]
4	Profile 3	Active	0	0	0	[Dropdown]
5	Profile 1	Active	0	0	0	[Dropdown]
6	Profile 2	Inactive	0	0	0	[Dropdown]

On this page, all the available profiles are listed.

4. Select the check boxes associated with the profiles those are no more required.
5. Click the **Arrow** button next to the **Actions** field.
The **Actions** list appear as shown in the following figure:

6. In the **Actions** list, click **Delete**, and then click the **Submit** button.
A confirmation dialog box appears as shown in the following figure:
7. Click the **OK** button.
The selected profiles are deleted.

5.4. Change the Status of the Selected Profiles

To change the status of the selected profiles

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, click the **Wish** menu.
The menu appears as shown in the following figure:

3. Click the **Manage Profile** menu.
The **Wish Profile Listing** page appears as shown in the following figure:

Wish Profile Listing							
<div> Page 1 of 1 pages View 20 per page Total 4 records found </div> <div> Select All Unselect All Select Visible Unselect Visible 0 items selected </div> <div> Reset Filter Search </div>							
	ID	Profile Name	Status	Total Item	Active Item	Inactive Item	Action
Any							
<input type="checkbox"/>	1	Demo	Active	3	0	2	
<input type="checkbox"/>	4	Profile 3	Active	0	0	0	
<input type="checkbox"/>	5	Profile 1	Active	0	0	0	
<input type="checkbox"/>	6	Profile 2	Inactive	0	0	0	

On this page, all the available profiles are listed.

4. Select the check boxes associated with the required profiles.
5. Click the **Arrow** button next to the **Actions** field.

The **Actions** list appear as shown in the following figure:

6. In the **Actions** list, click **Change status**.

The **Status** field appears next to the **Actions** list.

7. In the **Status** list, select the required option, and then click the **Submit** button.

The status is changed and a success message appears.

5.5. Manage the Products Assigned to the Profile

On this page, admin can view and edit the product, validate and upload the individual product. Also, the admin can view the error message if any error exists in any product details. The admin can also submit certain actions on the selected products available on the **Product Manager** page.

Thus, on the Product Manager page, the user can perform the following tasks:

- **Submit Actions on the Selected Products of the same Profile**(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=validate-and-upload-single-product>)
: The user can validate and upload the products of the same profile those are listed on the **Product Manager** page to the Wish Web site. The user can also submit the other respective actions on the selected products before uploading them to wish.com.
- **View the Error Log**(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=view-the-error-log>)
: If the product is invalid, then an **Invalid** button appears, and the admin can view the error log using the **Invalid** button. The admin can also view the Error log through the **Log** link.
- **View the Wish Product Information**(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=view-the-wish-product-information>)
: Admin can view the product information at a single click.
- **Edit Product Information**(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=edit-product-information>)
: Edit the information of the product that the user wants to upload on the Wish Web site.

5.5.1. Submit Actions on the Selected Products of the same Profile

To validate and upload products from the same profile

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Wish** menu.
The menu appears as shown in the following figure:

3. Click the **Manage Profile** menu.

The **Wish Profile Listing** page appears as shown in the following figure:

Wish Profile Listing							Add New Profile
Page 1 of 1 pages View 20 per page Total 4 records found							Reset Filter Search
Select All Unselect All Select Visible Unselect Visible 0 items selected							Actions Submit
	ID	Profile Name	Status	Total Item	Active Item	Inactive Item	Action
<input type="checkbox"/>	1	Demo	Active	3	0	2	Edit Profile
<input type="checkbox"/>	4	Profile 3	Active	0	0	0	Upload Products
<input type="checkbox"/>	5	Profile 1	Active	0	0	0	Upload Products
<input type="checkbox"/>	6	Profile 2	Active	0	0	0	Upload Products

On this page, all the available profiles are listed.

4. Scroll down to the required profile.

5. In the **Action** column, click the arrow button, and then click **Upload Products**.

The **Product Manager** page appears as shown in the following figure:

Product Manager												Back
Page 1 of 1 pages View 20 per page Total 5 records found												Reset Filter Search

Actions: Validate Products, **Validate & Upload Products to Wish**, Enable Products On Wish, Disable Products On Wish, Sync Inventory & Price, Sync Product Status

7. In the **Actions** list, click the arrow button.

A list appears as shown in the figure.

8. Click the **Validate & Upload Products to Wish** option, and then click the **Submit** button.

The Uploading Products to Wish process appears as shown in the following figure:

Uploading Products to Wish

Starting Product Upload execution, please wait..

Warning: Please do not close the window during Uploading data

Total 1 Batch(s) Found.

Error occurred in Batch 1 :

Error in Product Sku (hand bag) : Product Upload issue: Did not make any changes to shipping prices

Error in Product Sku (parent_sku 1) : Product Upload issue: Did not make any changes to shipping prices

Error in Product Sku (school kit) : Product validation issue: [" product image not found"]

100% 1 Of 1 Processed.

0 Batch(s) Successfully Upload Requested.

Finished product upload execution.

9. Correct the issues and then again repeat the process of validating and uploading the selected products.

Similarly, other than the **Validate & Upload Products to Wish** action, the admin can submit the other actions on the selected products of the same profile from the Product Manage page.

Actions on the Product Manager page

ID	Sku	Category	Price	Name	Qty	Visibility	Status	Type	Wish Product	Actions
1	hand bag	test sub category	₹1,000.00	Hand bag	100	Catalog, Search	Enabled	Simple Product	Pending	NOT VALIDATED View Edit Log
3	parent_sku 1	Default Category, test sub category	₹100.00	Lunch box	100	Catalog, Search	Enabled	Simple Product	Pending	NOT VALIDATED View Edit Log
4	school kit		₹100.00	school kit	100	Catalog, Search	Enabled	Simple Product	Pending	NOT VALIDATED View Edit Log
7	angry bird	test sub category	₹100.00	angry bird	100	Catalog, Search	Enabled	Simple Product		INVALID View Edit Log
10	Ben 10	test sub category	₹100.00	Ben 10	100	Catalog, Search	Enabled	Simple Product		INVALID View Edit Log

- **Validate Products:** To validate the product before uploading it to the wish.com. It displays the corresponding validation error if any. If there is no error, it confirms that the product is ready to upload.
- **Validate & Upload Products to Wish:** To validate the product before uploading it to the wish.com. It displays the corresponding validation error for all the products, if any. If there is no error, then it validates the selected products and then upload them to the wish.com.
- **Enable Products On Wish:** Submit the action to enable all the selected product on wish.com; it means, all the selected products are made available on wish.com.
- **Disable Products On Wish:** Submit the action to disable all the selected product on wish.com; it means, all the selected products are removed from the display of the product on wish.com.
- **Sync Inventory & Price:** To update the price and inventory of the product on wish.com. For example, if the admin has changed the product price and inventory on the Magento store and also wants to change the price and inventory on wish.com then this action is applicable. The price and inventory are updated when the user submits this action for the selected product. This action completes all the job related to the product inventory and also it manages the quantity related issues.
- **Sync Product Status:** To get the request from wish.com to update the status of the product on the Magento store. It helps the admin to view the status of the product. For example, unpublished, transmit, data fix, system error, or so on.

5.5.2. View the Error Log

To view the error log and the validation error

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Wish** menu.
The menu appears as shown in the following figure:

3. Click the **Manage Profile** menu.

The **Wish Profile Listing** page appears as shown in the following figure:

ID	Profile Name	Status	Total Item	Active Item	Inactive Item	Action
1	Demo	Active	3	0	2	Edit Profile
4	Profile 3	Active	0	0	0	Edit Profile
5	Profile 1	Active	0	0	0	Edit Profile
6	Profile 2	Active	0	0	0	Edit Profile

On this page all the available profiles are listed.

4. Scroll down to the required profile.

5. In the **Action** column, click the arrow button, and then click **Upload Products**.

The **Product Manager** page appears as shown in the following figure:

ID	Sku	Category	Price	Name	Qty	Visibility	Status	Type	Wish Product Status	Validation	Action
1	hand bag	test sub category	₹1,000.00	Hand bag	100	Catalog, Search	Enabled	Simple Product	Pending	VALID	View Edit
3	parent_sku 1	Default Category, test sub category	₹100.00	Lunch box	100	Catalog, Search	Enabled	Simple Product	Pending	VALID	View Edit
4	school kit	test sub category	₹100.00	school kit	100	Catalog, Search	Enabled	Simple Product	Pending	INVALID	View Edit Log
7	angry bird	test sub category	₹100.00	angry bird	100	Catalog, Search	Enabled	Simple Product	Pending	INVALID	View Edit Log
10	Ben 10	test sub category	₹100.00	Ben 10	100	Catalog, Search	Enabled	Simple Product	Pending	INVALID	View Edit

6. Click the **INVALID** button to view the validation error.

The relevant error message appears as shown in the figure.

7. In the **Actions** column, click the **Log** link associated with the required product to view the corresponding error.

The error message appears as shown in the following figure:

8. Correct the issues and then again repeat the process of validating and uploading the selected products.

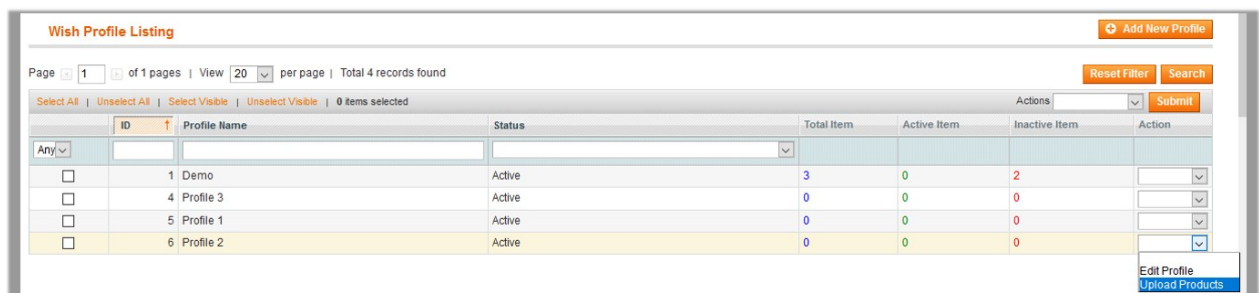

5.5.3. View the Wish Product Information

To view the Wish product information

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Wish** menu.
The menu appears as shown in the following figure:

3. Click the **Manage Profile** menu.
The **Wish Profile Listing** page appears as shown in the following figure:

On this page all the available profiles are listed.

4. Scroll down to the required profile.
5. In the **Action** column, click the arrow button, and then click **Upload Products**.
The **Product Manager** page appears as shown in the following figure:

Product Manager											
<div> <div>Page 1 of 1 pages View 20 per page Total 5 records found</div> <div> Reset Filter Search </div> </div>

- In the **Admin** box, enter the required attribute name, and then click the **Save Attribute** button.
- The attribute is created and appears on the **Edit Product Information** page.
- Click the **Save** button.
 - To validate and upload the current product, click the **Validate and Upload to Wish** button.

6. Manage Wish Orders

The admin can manage the wish.com orders and can perform the following tasks through using the options available on the Wish menu as shown in the following figure:

- View Wish Orders(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=view-wish-orders>)
- View Failed Wish Orders Import Log(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=view-failed-wish-orders-import-log>)
- Follow the Easy Refund Process(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=refund-4>)

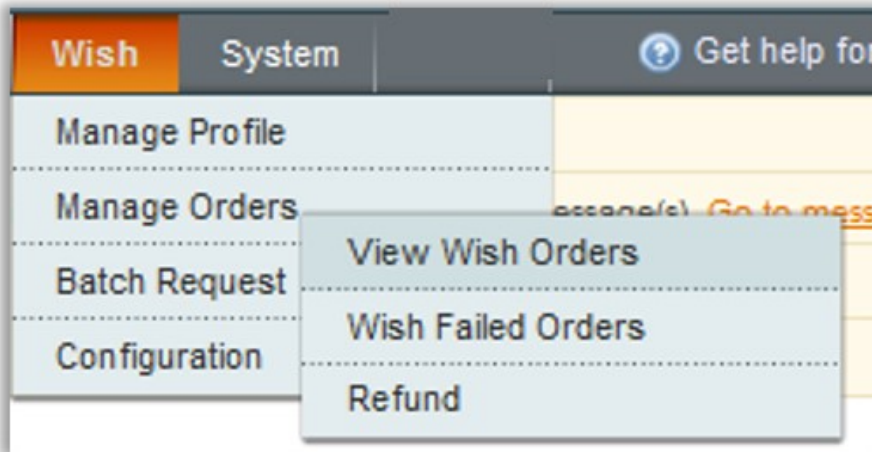

6.1. Wish Orders Details

The admin can view all the order details fetched from wish.com and ship the orders based on requirements. Admin can also delete and cancel the existing orders and export the order details in the CSV format.

To ship Wish Orders

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Wish** menu, and then point to the **Manage Orders** menu.

The menu appears as shown in the following figure:

3. Click **View Wish Orders**.

The **Wish Orders Details** page appears as shown in the following figure:

<input type="checkbox"/>	WISH-145000058	59cccbc10000000000000000	test name	test name	Dec 20, 2017 6:09:28 PM	Ready	8.0000

4. Click the **Export** button.
A dialog box appears to open or save the exported file as shown in the following figure.

5. Click to select the **Open With** or **Save File** as per the requirement.
6. Click the **OK** button.

6.2. Failed Wish Orders Import Log

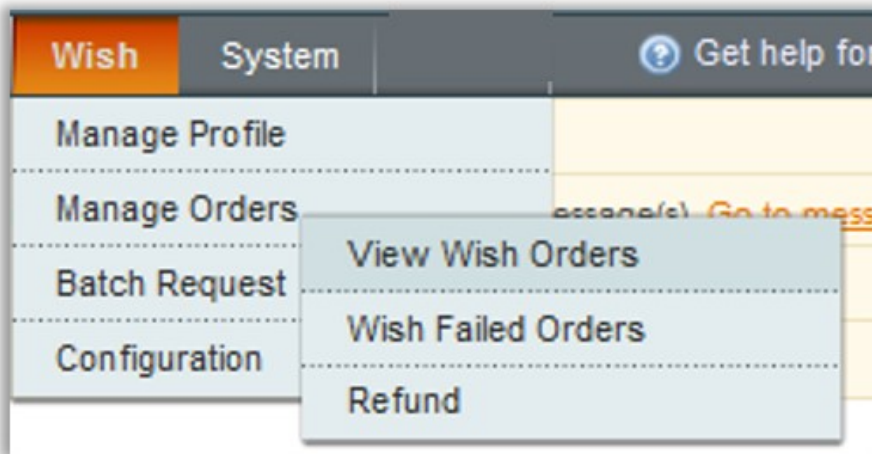

The users can view the list of failed Wish orders on the Failed Wish Orders Import Log page.

Orders cannot be imported from Wish due to the following conditions:

- If any product in the Wish Order is Out of Stock in Magento.
- If any product in the Wish Order is disabled in Magento.
- If any Product does not exist in Magento or is deleted from Magneto after uploading on Wish.
- If the selected Payment Method in Wish System Configuration Setting is not available in Magento.

To view Wish failed orders

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Wish** menu.
The menu appears as shown in the following figure:

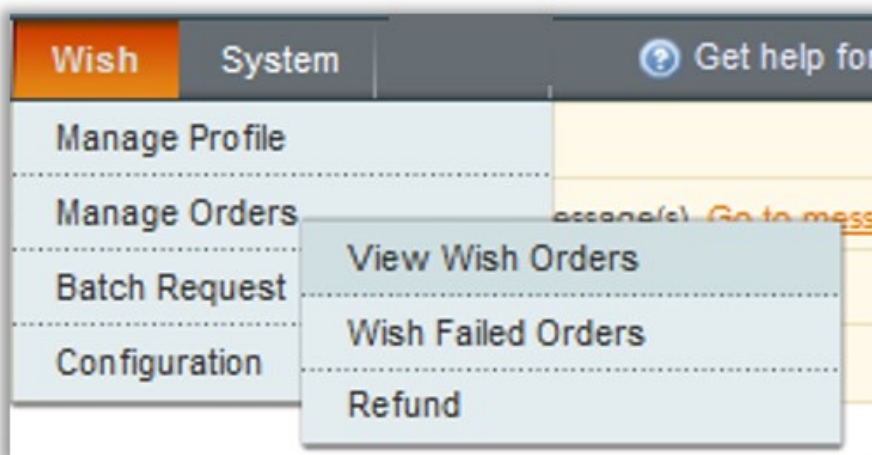

- Point to the **Manage Orders** menu, and then click **View Failed Orders**.
The **Failed Wish Orders Import Log** page appears as shown in the following figure:

Failed Wish Orders Import Log				Clear Failed Import Order Logs
Page 1 of 1 pages View 20 per page Total 1 records found				Reset Filter Search
Select Visible Unselect Visible 0 items selected				Actions Submit
ID	Wish order ID	Wish Item ID	Reason to failed	
Any				
<input type="checkbox"/>	1 59b92d6b15da0739605c135e	59b92d6b15da0739605c1	There product "sku" is not found on store	

This page displays the failed orders with the order id and the reason for the failure.

To clear failed import order logs

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Wish** menu.
The menu appears as shown in the following figure:

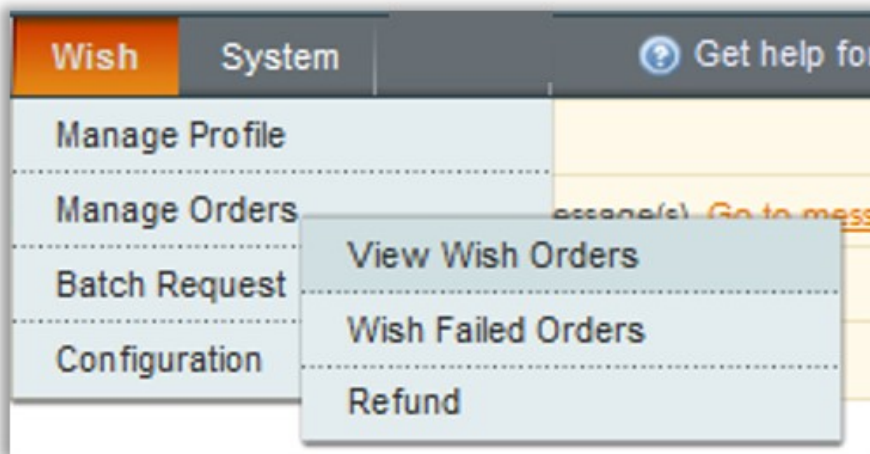

- Point to the **Manage Orders** menu, and then click **View Failed Orders**.
The **Failed Wish Orders Import Log** page appears as shown in the following figure:

ID	Wish order ID	Wish Item ID	Reason to failed
1	59b92d6b15da0739605c135e	59b92d6b15da0739605c1	There product "sku" is not found on store

- Click the **Clear Failed Import Order Logs** button.
All the logs are deleted.

To delete selected failed import order log

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Wish** menu.
The menu appears as shown in the following figure:

- Point to the **Manage Orders** menu, and then click **View Failed Orders**.
The **Failed Wish Orders Import Log** page appears as shown in the following figure:

ID	Wish order ID	Wish Item ID	Reason to failed
1	59b92d6b15da0739605c135e	59b92d6b15da0739605c1	There product "sku" is not found on store

- Select the check boxes of the required logs.
- In the **Actions** list, click **Delete**.
- Click the **Submit** button.
A confirmation dialog box appears.
- Click the **OK** button.

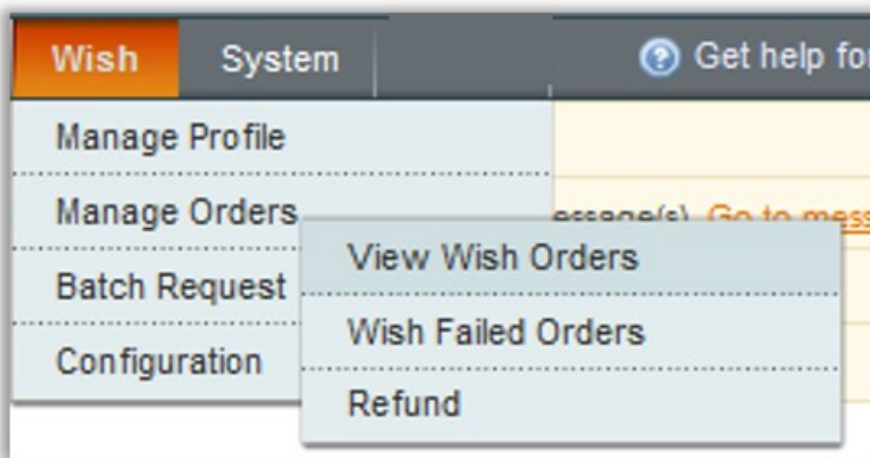

6.3. Refund

If a front-end user returns the product or order directly to the merchant without the involvement of wish.com, then the merchant has to send a request on wish.com for completing this type of return. To complete this type of return the merchant has to create a new refund.

Admin can also view the refund details and export it on the local system.

To create a new refund

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Wish** menu.
The menu appears as shown in the following figure:

3. Point to the **Manage Orders** menu, and then click **Refund**.
The **Refund Management** page appears as shown in the following figure:

4. Click the **Create New Refund** button.

5. Under **Refund Information**, in the **Enter Wish Order Id** box, enter a value.
6. Click the **Fetch Order Info** button.
The page appears as shown in the following figure:

7. In the **Reason** list, select the reason.

Note: If the required reason does not appear in the list, then select **Other**. The Comments field appears.

8. Enter the required reason.

9. Click the **Submit Refund** button.

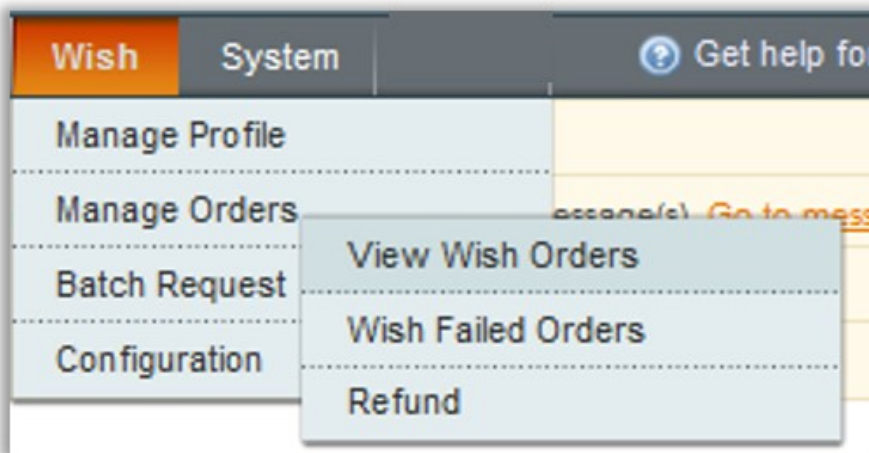

The refund is submitted and listed in the Table displayed on the **Refund Management** page.

To view the Refund details

1. Go to the **Magento Admin** panel.

2. On the top navigation bar, point to the **Wish** menu.

The menu appears as shown in the following figure:

3. Point to the **Manage Orders** menu, and then click **Refund**.

The **Refund Management** page appears as shown in the following figure:

ID	Magento Order #	Refund Order Id	Refund Status	Action
1	WISH-145000059	59ce1d410000000000000000	Created	View Details

4. Scroll down to the required refund.

5. In the **Action** column, click the **View Details** link.

The page appears as shown in the following figure:

Refund Information

Refund Fields

▲ Please fill Merchant Id.

Refund Wish Order Id *
▲ Please fill Wish Order Id to be refund.

Refund Wish Order Id *
▲ Please fill Wish Order Id to be refund.

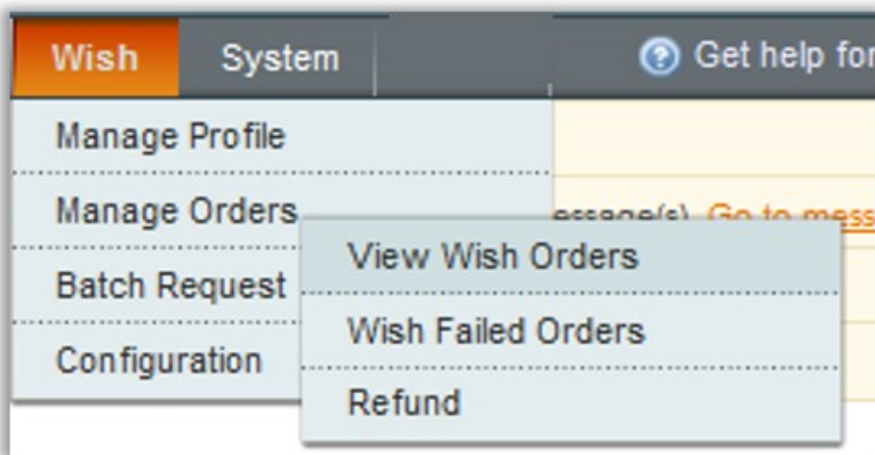

Refund Note *

[Back](#)

All the refund details are displayed.

To export the Refund Details through CSV file

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Wish** menu.
The menu appears as shown in the following figure:

3. Point to the **Manage Orders** menu, and then click **Refund**.
The **Refund Management** page appears as shown in the following figure:

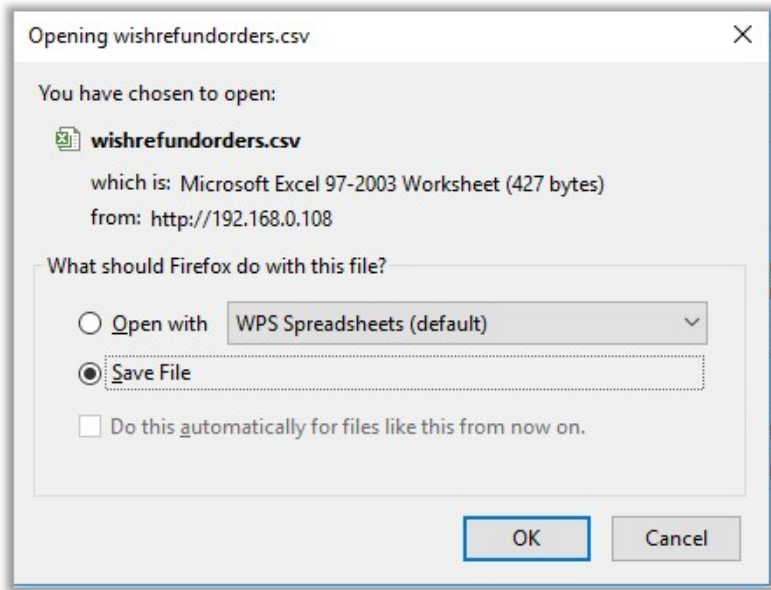

Refund management [Create New Refund](#)

Page of 1 pages | View per page | Total 1 records found

Export to: [Export](#) [Reset Filter](#) [Search](#)

ID	Magento Order #	Refund Order Id	Refund Status	Action
1	WISH-145000059	59ce1d410000000000000000	Created	View Details

4. Click the **Export** button.
A dialog box appears to open or save the exported file as shown in the following figure.

5. Click to select the **Open With** or **Save File** as per the requirement.
6. Click the **OK** button.

7. Batch Request

When creating products listings in bulk, the listings are added to a batch process. It is functionality through which the admin can request the batch product download and fetch its status. Once the status of the batch appears as Finished, the Download and Process link appears in the Download Link column. Thus, the admin can click and sync the status of products.

Admin can perform the following tasks:

- Add a New Batch(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=add-a-new-batch>)
- Edit the Batch(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=edit-the-existing-batch>)
- Delete the Batch from the Magento Store(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=delete-the-batch-from-the-magento-store>)
- Cancel the Batch Request(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=cancel-the-batch-request>)
- Download and Process the Batch(<https://docs.cedcommerce.com/magento/wish-magento-integration/wish-magento-integration-guide-0-0-1?section=download-and-process-the-batch>)

7.1. Add A New Batch

To add a new batch

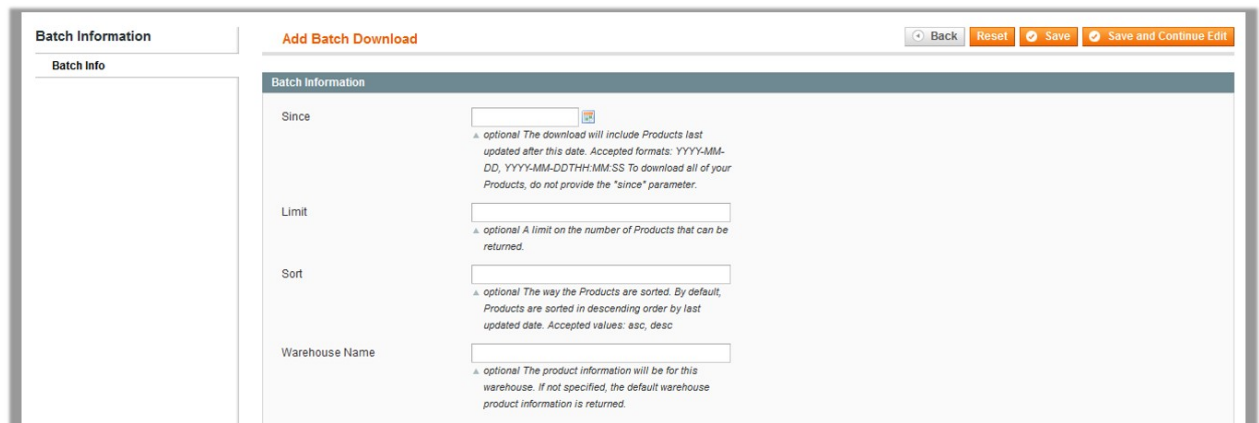

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Wish** menu.
The menu appears as shown in the following figure:

3. Click the **Batch Request** menu.
The **Wish Batch Listing** page appears as shown in the following figure:

4. Click the **Add New Batch** button.
The **Add Batch Download** page appears as shown in the following figure:

5. In the **Since** Box, click the associated **Calendar** icon to enter the required date.
The download includes the Products last updated after this date. Accepted formats are: YYYY-MM-DD, YYYY-MM-DDTHH:MM:SS.
Note: To download all of the Products, keep the box empty.
6. In the **Limit** box, enter the limit on number of Products in a batch.
7. In the **Sort** box, enter the required value.
Note: The way the Products are sorted. By default, Products are sorted in descending order by last updated date. Accepted values are: *asc, desc*.
8. In the **Warehouse Name** box, enter the name of the Warehouse.
Note: If not specified, the default warehouse product information is returned.

7.2. Edit the Existing Batch

To edit the existing batch

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Wish** menu.
The menu appears as shown in the following figure:

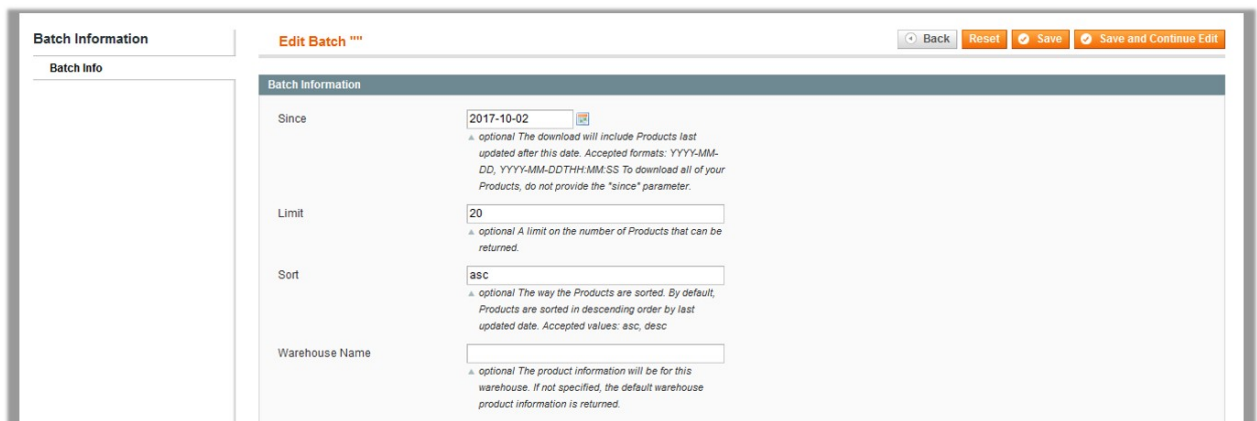

3. Click the **Batch Request** menu.
The **Wish Batch Listing** page appears as shown in the following figure:

On this page, all the available batches are listed.

4. Click the row of the required batch that the admin wants to edit.
