## 1. Overview

Founded in 2009, Houzz is headquartered in Palo Alto, California([https://en.wikipedia.org/wiki/Palo\\_Alto,\\_California](https://en.wikipedia.org/wiki/Palo_Alto,_California))

. **Houzz** is a website and online community about architecture, interior design and decorating, landscape design and home improvement. In other words, Houzz is a marketplace where the consumers can find the ultimate collection of furniture, Kitchen and Tabletop, Bed and Bath, and so on.

The Houzz Integration for Magento 1 extension helps admin to synchronize the orders, products, pricing, and inventory through establishing the interaction between the **Houzz** API and the Magento 1 store.

The Magento store owner can also manage the **Houzz** orders on the Magento stores without making any significant changes in the operational functionalities.

Most important feature is that it enables the users to create the **Houzz** Categories and its dependent attributes in the Magento store. Thus, it enables the admin to configure the desired product category to the Magento store for automatic submission of the selected product to the same category on **Houzz.com**.

### **Key Features are as follows:**

- **Easy Debug:** Easy debug process for hassle-free products upload on the **Houzz** website.
- **New Order Notifications:** Whenever a new order is fetched from the **Houzz** website, the admin receives a notification.
- **Rejected Products Notification:** If any product containing some invalid details is rejected by **Houzz.com**, then its information is fetched from the automatically synchronized requests along with the error due to which it is rejected.
- **Low Stock Notifications:** Whenever Stock diminishes lower than a threshold, notification is sent informing the status.
- **Crons:** Cron job automates the process for Inventory, Price and Order management.
- **Creation of Magento Orders:** The newly placed orders on **Houzz.com** are automatically created in the Magento store with all the required details as it is on **Houzz.com**.
- **Profile-based product Upload:** Admin can create a profile and map the **Houzz** category and attributes to the Magento 1 category and attributes, and then after assigning the products to the profile can easily upload products to the **Houzz** Website.

- 

**Synchronized Product Editing:** Besides adding the products, any product information changes made on the Magento store reflects on the **Houzz.com**.

- 

**Synchronized Inventory and Profile Based Pricing:** Inventory Synchronization at regular intervals. product Listing is established between Magento and **Houzz.com**. Profile-based price increase or decrease.

- **Bulk Upload System:** The merchant has the flexibility to upload any number of products on the **Houzz** Website using bulk product upload feature.

## 2. Houzz Integration for Magento Extension Installation

### *To install the extension*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **System** menu.  
The menu appears as shown in the following figure:

3. Point to the **Magento Connect** menu, and then click **Magento Connect Manager**.  
The page appears as shown in the following figure:

The screenshot shows the Magento Connect Manager interface. At the top, there's a header with the 'Magentoconnect MANAGER' logo. Below the header, there are tabs for 'Extensions' and 'Settings', with 'Settings' being the active tab. On the right, there are links for 'Return to Admin' and 'Log Out'.

The 'Settings' section includes a checkbox for 'Put store on the maintenance mode while installing/upgrading/backup creation' (checked) and a 'Create Backup' section with a dropdown menu set to 'Database'.

The 'Install New Extensions' section has two numbered steps:
 

- Search for modules via [Magento Connect](#).
- Paste extension key to install: [input field] [Install button]

Below this is the 'Direct package file upload' section with two numbered steps:
 

- Download or build package file.
- Upload package file: [Browse... button] No file selected. [Upload button]

The 'Manage Existing Extensions' section features a 'Check for Upgrades' button and a 'Commit Changes' button. Below these is a checkbox for 'Clear all sessions after successful install or upgrade:'. A table lists installed extensions:

Package Name	Installed	Actions	Summary
Cm_RedisSession	1.9.2.4 (stable)	[dropdown]	Redis session
Interface_Adminhtml_Default	1.9.2.4 (stable)	[dropdown]	Default interface for Adminhtml
Interface_Frontend_Base_Default	1.9.2.4 (stable)	[dropdown]	This is a Magento themes base
Interface_Frontend_Default	1.9.2.4 (stable)	[dropdown]	Default interface for Frontend

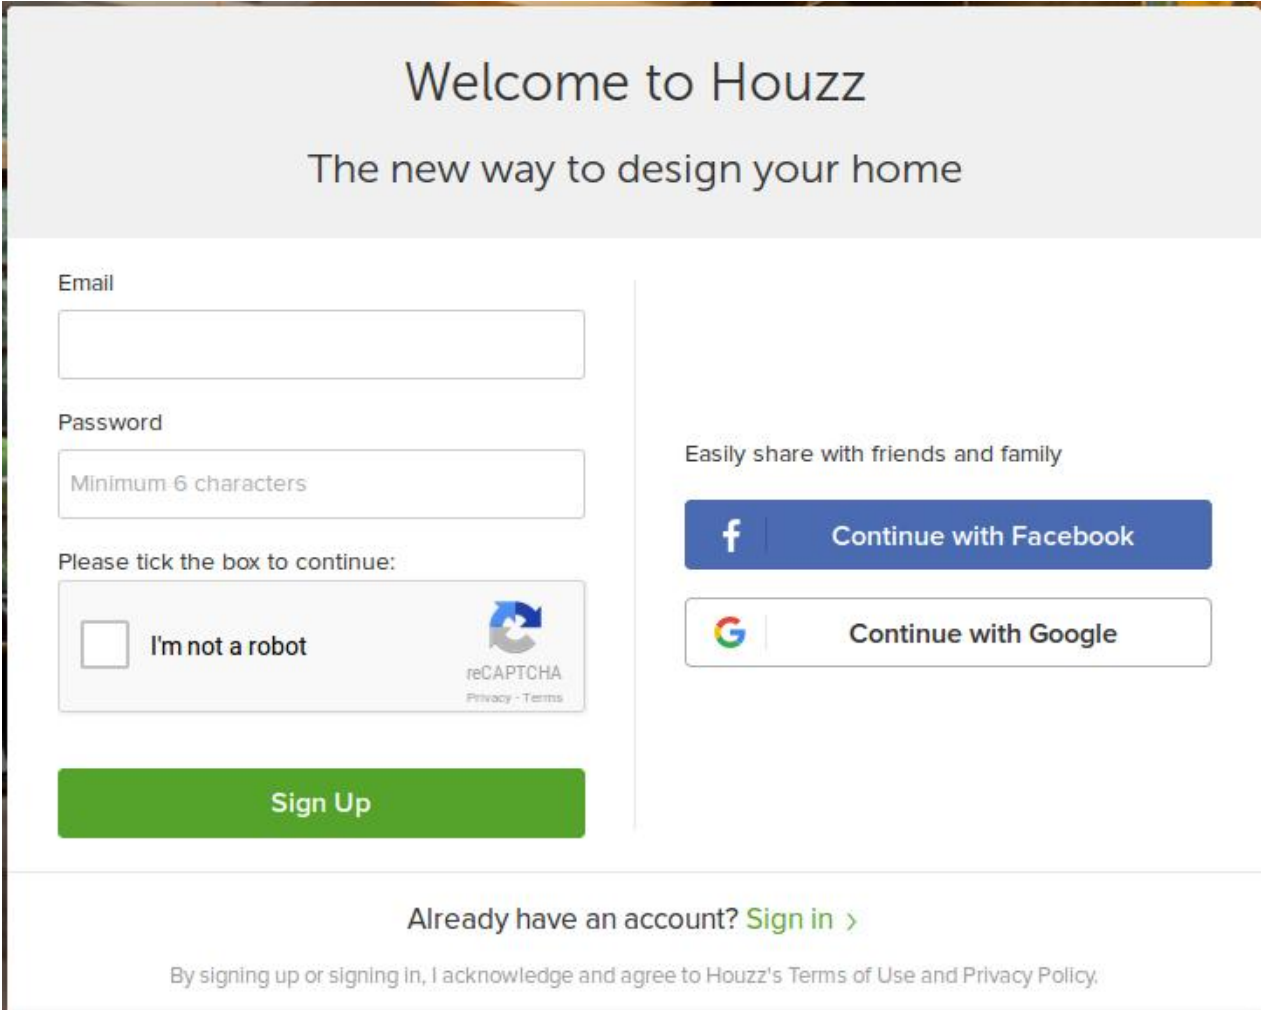

4. Scroll down to the **Ced\_Houzz** Package.
  5. In the **Actions** column, select the **Install** option from the list.
  6. Click the **Commit Changes** button.
- Auto-scroll console contents screen appears and the extension is installed after the process.

### 3. Retrieve API Credentials from Houzz

Once the extension is successfully installed on the Magento 1 store, the **Houzz** menu appears on the top navigation bar of the Magento Admin Panel. The merchant has to enter the **API Key details** on the **Houzz Configuration** page of the admin panel.

#### *To retrieve API Key Details from the Houzz*

1. Go to the Sell on Houzz.com(<https://www.houzz.com/in/signup>) link.
- The page appears as shown in the following figure:

The image shows the Houzz sign-up page. At the top, it says 'Welcome to Houzz' and 'The new way to design your home'. Below this, there are input fields for 'Email' and 'Password'. The password field has a hint 'Minimum 6 characters'. To the right of the password field, it says 'Easily share with friends and family' and provides two buttons: 'Continue with Facebook' and 'Continue with Google'. Below the password field, there is a reCAPTCHA section with a checkbox labeled 'I'm not a robot' and a 'Sign Up' button. At the bottom, there is a link to 'Sign in' for existing users and a footer note about terms and privacy policy.

Welcome to Houzz

5. Enter the provided **Username** and **Password**, and then click the **Sign In** button.  
The Website page appears as shown in the following figure:

6. In the right-upper corner, click the **Your Houzz** link.  
A menu appears as shown in the following figure:

7. Click the highlighted profile name.

The public profile link appears in the address bar and the profile gets opened.

8. Copy the public profile link from the address bar and keep it safely.
9. Click the [https://support.houzz.com/\(https://support.houzz.com/\)](https://support.houzz.com/(https://support.houzz.com/)) link.

The page appears as shown in the following figure:

10. Click the **Submit a request** link.

A page appears as shown in the following figure:

Submit

11. Enter the required information in the following fields:
  - **What can we help you with today?:** Select **Other**.
  - **Your email address:** Enter the registered Email Id.
  - **Subject:** Enter the subject as “*Need SSL Token and APP Name*”.
  - **Description:** Enter the mail content to request for the Houzz SSL Token and App Name. In the content, mention the **Registered Email Id**, **Public Profile Link**, and the provided **Website Id**.
12. Enter the values in the other required fields and then click the **Submit** button.  
 The ticket is raised and the request is submitted. After receiving the API keys, continue further to set up the Houzz Configuration Settings(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=houzz-configuration-settings>)

## 4. Houzz Configuration Settings

After obtaining the **API credentials** from the Houzz Seller account, the Magento store owner has to paste them in the respective fields displayed on the **Houzz Configuration** page of the admin panel.

### *To set up the configuration settings in the Magento Admin panel*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Houzz** menu.  
 The menu appears as shown in the following figure:

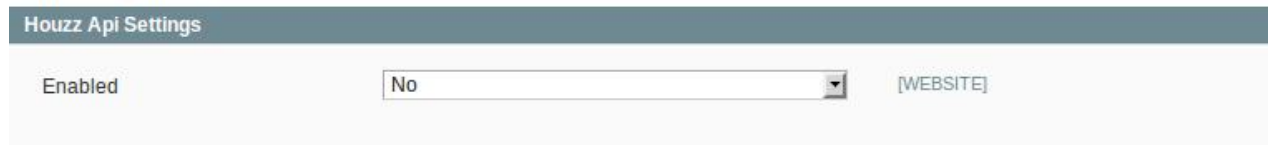

3. Click **Configuration**.  
 The **Houzz Configuration** page appears as shown in the following figure:

4. Click the **Houzz Api Settings** tab.

The tab is expanded and the relevant field appears under the **Houzz Api Settings** section.

Houzz Api Settings	
Enabled	<div>No</div> <div>[WEBSITE]</div>

5. Under **Houzz Api Settings**, do the following steps:
  - a. In the **Enabled** list, select **Yes** to enable the extension features.  
The other relevant fields appear as shown in the following figure:

Houzz Api Settings		
Enabled	Yes <input type="button" value="Create Houzz a/c"/>	[WEBSITE]
Houzz Username	<input type="text"/>	[GLOBAL]
Houzz SSL Token	<input type="text"/>	[GLOBAL]
APP Name	<input type="text"/>	[GLOBAL]
Orders Fetch Start Date	<input type="text"/>  ▲ Date Format : YYYY-MM-DD	[GLOBAL]
Choose Default Payment Method for Houzz Orders	--Please Select-- <input type="button" value="Create Houzz a/c"/>	[GLOBAL]
Store Admin Email Id	<input type="text"/> ▲ Get Email When New Houzz Order Imported.Example: owner@example.com	[GLOBAL]
Houzz Debug Mode	No <input type="button" value="Create Houzz a/c"/> ▲ Enable Houzz Debug Mode for Logging.	[GLOBAL]
Houzz Customer Email	<input type="text"/> ▲ Enter the Email for which customer will be created for Houzz Orders.	[GLOBAL]
Houzz Order ID Prefix	<input type="text"/> ▲ Houzz OrderId Prefix (Ex WM-)	[GLOBAL]
Houzz Product Identifier Override	No <input type="button" value="Create Houzz a/c"/> ▲ Houzz Product Identifier Override (Enable it Incase you want to change a UPC/GTIN of any product previously uploaded on Houzz)	[GLOBAL]
Houzz SKU Override	No <input type="button" value="Create Houzz a/c"/> ▲ Houzz SKU Override (Enable it Incase you want to change a SKU for an existing product on Houzz)	[GLOBAL]

- b. Click the **Create Houzz a/c** button.

The admin is redirected to the Sell on Houzz.com(<https://www.houzz.com/in/signup>) link to create a seller account and retrieve API Key Details from the Houzz seller account. Once the API keys are retrieved, the admin has to enter those key values in the respective fields under the **Houzz Api Settings** section.

- c. In the **Houzz Username** box, paste the username provided by Houzz.  
 d. In the **Houzz SSL Token** box, paste the SSL Token provided by Houzz.  
 e. In the **App Name** box, paste the App name provided by Houzz.  
 f. In the **Orders Fetch Start Date** box, enter the required date in the **YYYY-MM-DD** format.  
 Or

- Click the corresponding **Calendar** icon to select the required date.
- g. In the **Choose Default Payment Method for Houzz Orders** list, select **houzz.com**.
  - h. In the **Store Admin Email Id** box, enter the required email Id.
  - i. In the **Houzz Debug mode** list, select **Yes** to start Houzz Integration in the debug mode.  
It captures the log for the debug process.
  - j. In the **Houzz Order ID Prefix** box, enter the required prefix value.  
For instance, enter **HZ-** for **HZ-10001**.
  - k. In the **Houzz Product Identifier Override** list, select **Yes** to change the UPC/GTIN of any product previously uploaded on Houzz if required.
  - l. In the **Houzz SKU Override** list, select **Yes** to change an SKU for an existing product on Houzz if required.
6. Click the **Save Config** button to save the entered values.
  7. Click the **Houzz Product Global Settings** tab.  
The tab is expanded and the relevant fields appear under the **Houzz Product Global Settings** section as shown in the following figure:

8. Under **Houzz Product Global Settings**, do the following steps:
    - a. In the **Select Store** list, select the single store.
    - b. In the **Houzz Swatches** list, select **Yes** to enable Swatch Images for Houzz.com.
    - c. Click the **Add Rules** button next to the **Shipping Settings** field to set the shipping region and shipping method charges.
- The Grid appears as shown in the following figure:

- i. In the **Enabled** list, select **Yes** to enable the rule.
  - ii. In the **Region** list, select the required region.
  - iii. In the **Method** list, select the required method.
  - iv. In the **Magento Attribute Code** list, select the required code.
  - v. Click the **Add Rules** to add more rules if required.
  - vi. To delete the rule, click the corresponding **Delete** button.
9. Click the **Save Config** button to save the entered values.
10. Click the **Houzz Product Advanced Price Settings** tab.  
The tab is expanded and the relevant fields appear under the **Houzz Product Advanced Price Settings** section as shown in the following figure:

Houzz Product Advanced Price Settings		
Houzz Product Price	<input type="text" value="Increase By Fixed Price"/> <small>▲ Select to send different product price to houzz.com</small>	[GLOBAL]
Enter Amount	<input type="text"/> <small>? [GLOBAL]</small>	
Product TaxCode	<input type="text"/> <small>▲ Enter 7 digit product tax code. Characters not allowed</small>	[GLOBAL]
Fulfillment Lag Time	<input type="text"/> <small>▲ Enter Fulfillment Lag Time for products on Houzz</small>	[GLOBAL]

11. Under **Houzz Product Advanced Price Settings**, do the following steps:

a. In the **Houzz Product Price** list, select one of the following options:

• **Increase by Fixed Price:** If selected, then the **Enter Amount** field appears.

• **Increase by Fixed Percentage:** If selected, then the **Enter Percentage** field appears.  
Enter the numeric value to increase the price of the Houzz, product price by the entered value % of Magento price

*For Example,*

Magento price + 5% of Magento price.

Magento Price = 100

Select **Increase By Fixed Percentage** option

**Enter Percentage = 5**

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Houzz Product Price = 105

• **Decrease by Fixed Price:** If selected, then the **Enter Amount** field appears.

• **Decrease by Fixed Percentage:** If selected, then the **Enter Percentage** field appears.  
Enter the numeric value to decrease the price of the Houzz product price by the entered value % of Magento price

*For Example,*

Magento price – 5% of Magento price.

Magento Price = 100

Select **Decrease By Fixed Percentage** option

**Enter Percentage = 5**

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Houzz Product Price = 95

b. In the **Product TaxCode** box, enter the 7 digit product tax code.

c. In the **Fulfillment Lag Time** box, enter the required value.

Enter the numeric value for the fulfillment lag time in number of days or in minutes as required.

12. Click the **Save Config** button to save the entered values.

13. Click the **Houzz inventory rules** tab.

The tab is expanded and the relevant field appears under the **Houzz inventory rules** section as shown in the following figure:

Houzz inventory rules	
Send Inventory on the Basis of Threshold	<input type="text" value="No"/> <small>[GLOBAL]</small>

14. Under **Houzz inventory rules**, do the following steps:

a. In the **Send Inventory on the Basis of Threshold** list, select **Yes** to send the inventory based on

the threshold.

**Note:** Only when the admin selects **Yes**, the other fields appear. Threshold Inventory is the minimum count of an item that the store owner wants to keep in stock.

The section appears as shown in the following figure:

Houzz inventory rules		
Send Inventory on the Basis of Threshold	Yes	[GLOBAL]
Inventory Threshold Value		[GLOBAL]
▲ Set inventory quantity on which lesser and greater condition can control.		
Send Inventory for Lesser Than Threshold Case		[GLOBAL]
▲ Send Quantity to Houzz for those products, whose inventory is LESSER than the inventory threshold.		
Send Inventory for Greater Than Threshold Case		[GLOBAL]
▲ Send Quantity to Houzz for those products, whose inventory is GREATER than the inventory threshold.		

b. In the **Inventory Threshold Value** box, enter the required value.

c. In the **Send Inventory for Lesser Than Threshold Case** box, enter the required value.

d. In the **Send Inventory for Greater Than Threshold Case** box, enter the required value.

15. Click the **Save Config** button to save the entered values.

16. Click the **Cron Settings** tab.

The tab is expanded and the relevant field appears under the **Cron Settings** section as shown in the following figure:

Cron Settings		
Cron Settings Override	No	[WEBSITE]
Enable Order Cron	Yes	[WEBSITE]
▲ Order Cron Enable/Disable		
Enable Inventory Cron	Yes	[WEBSITE]
▲ Inventory Cron Enable/Disable		
Enable Price Cron	Yes	[WEBSITE]
▲ Price Cron Enable/Disable		

17. Under **Cron Settings**, do the following steps:

a. In the **Cron Settings Override** list, select **Yes** to enable the cron settings.

**Note:** Only when the admin selects **Yes**, the Order Cron, Product Inventory Update Cron, and Product Price Update Cron fields appear as shown in the following figure:

Cron Settings		
Cron Settings Override	Yes	[WEBSITE]
Enable Order Cron	Yes	[WEBSITE]
	▲ Order Cron Enable/Disable	
Order Cron	*/10 * * * *	[GLOBAL]
	▲ Please Enter number in minutes for execute cron	
Enable Inventory Cron	Yes	[WEBSITE]
	▲ Inventory Cron Enable/Disable	
Product Inventory Update Cron	*/12 * * * *	[GLOBAL]
	▲ Please Enter number in minutes for execute cron	
Enable Price Cron	Yes	[WEBSITE]
	▲ Price Cron Enable/Disable	
Product Price Update Cron	0 0 * * *	[GLOBAL]
	▲ Please Enter number in minutes for execute cron	

- b. In the **Enable Order Cron** list, select **Yes** to enable the order cron.
  - c. In the **Order Cron** box, enter the required value in minutes to execute the Order cron.
  - d. In the **Enable Inventory Cron** list, select **Yes** to enable the order cron.
  - e. In the **Product Inventory Update Cron** box, enter the required value in minutes to execute the Inventory cron.
  - f. In the **Enable Price Cron** list, select **Yes** to enable the order cron.
  - g. In the **Product Price Update Cron** box, enter the required value in minutes to execute the Price cron.
18. Click the **Save Config** button.

## 5. Manage Houzz Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento attributes to the Houzz attributes. These attributes are applicable to all the products that are assigned to the profile.

### Admin can do the following tasks:

- Add new profile(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=add-a-new-profile-11>)
- Edit the existing profile(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=edit-the-existing-profile-20>)
- Delete the profiles(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=delete-the-profiles-7>)
- Change the Status of the Selected Profiles(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=change-the-status-of-the-selected-profiles-4>)
- Manage the Product Assigned to the Profile(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=manage-profile-products-2>)

## 5.1. Add A New Profile

### To add a new profile

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Houzz** menu.  
The menu appears as shown in the following figure:

3. Click the **Manage Houzz Profiles** menu.  
The **Houzz Profile Listing** page appears as shown in the following figure:

4. Click the **Add New Profile** button.  
The page appears as shown in the following figure:

**Add Houzz Profile**

Profile Information

Profile Code \*

profile\_code\_1

▲ For internal use. Please use only letters (a-z), numbers (0-9) or underscore( ) in this field, first character should be a letter

Profile Name \*

Profile 1

▲ Give some name to profile to identify them

Status \*

Active

▲ Make active to enable the profile

5. In the right panel, under **Profile Information**, do the following steps:
  - a. In the **Profile Code** box, enter a profile code.

**Note:** It is only for the internal use. Use the unique profile code with no spaces. Start with small letters.

b. In the **Profile Name** box, enter the name of the profile.

**Note:** Use the unique name to identify the profile.

c. In the **Status** list, select **Active** to enable the profile.

**Note:** The Inactive option disables the profile.

6. Click the **Save and Continue** button.

7. In the left navigation panel, click the **Houzz Category Mapping** menu.

The page appears as shown in the following figure:

**Add Houzz Profile** [Back] [Reset] [Save] [Save and Continue Edit] [Save and Upload Product]

**Houzz Category Mapping**

Select Preferred Houzz Category to be Mapped  
Please Choose Category ..

**Houzz / Magento Attribute Mapping (Variant Attribute Mapping)**

Map configurable attributes to magento attribute

Config Attribute

Magento Catalog Attribute	Houzz Attribute	Action

[Add Attribute]

8. In the right panel, go to the **Houzz Category Mapping** section, and do the following steps:

a. In the **Category** list, select the required **Houzz** category to map.

b. Go to the **Houzz / Magento Attribute Mapping (Required/Optional mapping)** section and do the following steps:

i. In the **Magento Catalog Attribute** column, select the required Magento attribute from the corresponding list to map it with the corresponding Houzz attribute.

**Note:** In case the required attribute does not exist in the corresponding list, then select **-Set Default value-** from the corresponding list. A text box appears in the Default Value column

next to corresponding **Magento Catalog Attribute** column such as shown in the following figure:

Houzz Attribute	Magento Catalog Attribute	Default Value	Action
title	name		
description	description		
sku	sku		
upc	houzz_upc		
price	--Set Default Value--	350	

- ii. Repeat the mapping of all the required or optional Magento attributes listed with the corresponding Houzz attributes.
  - iii. Click the **Add Attribute** button to add more attributes.
  - c. Go to the **Houzz / Magento Attribute Mapping (Variant Attribute Mapping)** section and do the following steps:
    - i. Click the **Add Attribute** button.
    - ii. In the **Magento Catalog Attribute** column, select the required Magento attribute.
    - iii. In the **Houzz Attribute** column, select the required Houzz attribute to map it with the corresponding Magento attribute.
    - iv. Click the **Add Attribute** button to add more attributes.
  9. Click the **Save and Continue** button.
  10. In the left navigation panel, click the **Profile Products** menu.
- The page appears as shown in the following figure:

<input type="checkbox"/>	4		school kit	Simple Product	Default	school kit	₹100.00	100	Enabled
<input type="checkbox"/>	7	test sub category	angry bird	Simple Product	Default	angry bird	₹100.00	100	Enabled

12. In the right panel, do the following step:

- Select the check boxes associated with the required products those the admin wants to assign to the new profile.

**Note:** Admin can assign one product to one profile only. It means, admin can assign multiple products to the same profile but can associate a product only with one profile at one time. To assign a product to another profile, the admin has to remove that product from the currently assigned profile.

13. Click the **Save** button.

The created profile is saved and listed on the Houzz Profile Listing page.

Or

Click the **Save and Continue Edit** button to save the created profile and continue editing, if required.

Or

Click the **Save and Upload Product** button to save the profile and make ready to upload the product on Houzz.

The assigned products are listed on the **Product Manager** page as shown in the following figure:

**Product Manager** Back

Page 1 of 1 pages | View 20 per page | Total 3 records found Reset Filter Search

## 5.2. Edit the Existing Profile

### To edit the existing profile

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Houzz** menu.

The menu appears as shown in the following figure:

3. Click the **Manage Houzz Profiles** menu.

The **Houzz Profile Listing** page appears as shown in the following figure:

**Houzz Profile Listing** Add New Profile

Page 1 of 1 pages | View 20 per page | Total 2 records found Reset Filter Search

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected Actions Submit

	ID	Profile Name	Status	Total Item	Action
<input type="checkbox"/>	1	test	Active	17	
<input type="checkbox"/>	2	Profile 1	Active	3	

Edit Profile  
Manage Products

On this page, all the available profiles are listed.

- Click the required row of the profile that the admin wants to edit.

OR

In the **Action** column, click the arrow button, and then click **Edit Profile**.

The page appears as shown in the following figure:

**Profile Information** Add Houzz Profile Back Reset Save Save and Continue Edit Save and Upload Product

**Profile Info**

**Houzz Category Mapping**

**Profile Products**

**Profile Information**

Profile Code \*   
▲ For internal use. Please use only letters (a-z), numbers (0-9) or underscore(\_) in this field, first character should be a letter

Profile Name \*   
▲ Give some name to profile to identify them

Status \*   
▲ Make active to enable the profile

- Make the changes as per requirement.

- Click the **Save** button.

The created profile is saved and listed on the Houzz Profile Listing page.

Or

Click the **Save and Continue Edit** button to save the created profile and continue editing, if required.

Or

Click the **Save and Upload Product** button to save the profile and make ready to upload the product on Houzz.

The assigned products are listed on the **Product Manager** page as shown in the following figure:

**Product Manager** Back

Page 1 of 1 pages | View 20 per page | Total 3 records found Reset Filter Search

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected Actions Submit

## 5.3. Delete the Profiles

*To delete the profiles*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Houzz** menu.  
The menu appears as shown in the following figure:

3. Click the **Manage Houzz Profiles** menu.  
The **Houzz Profile Listing** page appears as shown in the following figure:

**Houzz Profile Listing** + Add New Profile

Page  of 1 pages | View  per page | Total 2 records found Reset Filter Search

Select All | Unselect All | Select Visible | Unselect Visible | 1 items selected Actions Submit

	ID	Profile Name	Status	Total Item	Action
Any					
<input type="checkbox"/>	1	test	Active	17	
<input checked="" type="checkbox"/>	2	Profile 1	Active	3	

On this page, all the available profiles are listed.

4. Select the check boxes associated with the profiles those are no more required.
5. In the **Actions** list, select the **Delete** option, and then click the **Submit** button.

A confirmation dialog box appears as shown in the following figure:

6. Click the **OK** button.  
The selected profiles are deleted.

## 5.4. Change the Status of the Selected Profiles

### *To change the status of the selected profiles*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Houzz** menu.  
The menu appears as shown in the following figure:

3. Click the **Manage Houzz Profiles** menu.

The **Houzz Profile Listing** page appears as shown in the following figure:

On this page, all the available profiles are listed.

4. Select the check boxes associated with the required profiles.

5. In the **Actions** list, select the **Change Status** option.

The **Status** field appears next to the **Actions** list.

6. In the **Status** list, select the required option, and then click the **Submit** button.

The status is changed and a success message appears.

## 6. Manage Profile Products

This feature of the integration extension enables the admin to manage the products those are assigned to the profile.

Hence, after getting redirected from the Houzz Profile Listing page, the admin can perform the following tasks on the Product Manager page:

- View and edit the product information(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=view-and-edit-the-product-information-3>)

- Upload a single product(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=upload-a-single-product>)
- View the validation error details if any error exists in any product details(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=view-the-validation-error-details>)
- Submit certain actions on the selected products(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=submit-actions-on-the-selected-products>)

## 6.1. View and Edit the Product Information

### *To view and edit the product information*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Houzz** menu.  
The menu appears as shown in the following figure:

3. Click the **Manage Houzz Profiles** menu.  
The **Houzz Profile Listing** page appears as shown in the following figure:

5. Click the **INVALID** button to view the validation error.  
The relevant error message appears as shown in the figure.

## 6.4. Submit Actions on the Selected Products

*Admin can submit the following actions for the selected products:*

- **Validate Selected Products:** To validate the product before uploading it to the Houzz.com. It displays the corresponding validation error if any. If there is no error, it confirms that the product is ready to upload.
- **Validate & Upload Products:** To validate the product before uploading it on the Houzz.com. It displays the corresponding validation error for all the products if any. If there is no error, then it validates the selected products and then uploads them to the Houzz.com.
- **Product Price Update:** Updates the price of the product on Houzz.com. For example, if the user has changed the product price on the Magento store and also wants to change the price on Sears then this action is applicable. The price is updated when the user submits this action for the selected product.
- **Product Inventory Update:** Updates the inventory of the product on Houzz.com. This action completes all the job related to the product inventory and also it manages the quantity related issues.
- **Sync Houzz Product Status:** To get the request from Houzz to update the status of the products in the Magento store. It helps the user to view the status of the product, unpublished, transmit, data fix, system error, or so on.

*To submit actions for the selected products*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Houzz** menu.  
The menu appears as shown in the following figure:

3. Click the **Manage Houzz Profiles** menu.  
The **Houzz Profile Listing** page appears as shown in the following figure:

**Houzz Profile Listing** Add New Profile

- d. Click the **Back** button to go back to the **Product Manager** page.
- e. Correct the issues and then again repeat the process of updating the prices of the selected products.
8. To update the inventories of the selected products on Houzz.com, do the following steps:
- Select the check boxes associated with the required products.
  - In the **Actions** list, click the arrow button.
- A list appears as shown in the figure:

- c. In the **Actions** list, select the **Product Inventory Update** option, and then click the **Submit** button. The synchronization process of the inventories of the selected products starts and appears as shown in the following figure:

**Note:** If there is an error in synchronizing the product inventories in bulk, then it appears on the page and the **Invalid** button appears under the corresponding **Validation** column displayed on the **Product Manager** page. Otherwise, a success message appears.

- d. Click the **Back** button to go back to the **Product Manager** page.
- e. Correct the issues and then again repeat the process of synchronizing the product inventories of the selected products.
9. To sync the status of the selected products available on Houzz.com, do the following steps:
- Select the check boxes associated with the required products.
  - In the **Actions** list, click the arrow button.

A list appears as shown in the figure:

- c. In the **Actions** list, select the **Sync Houzz Product Status** option, and then click the **Submit** button.

The synchronization process of the status of the selected products available on Houzz.com starts and appears as shown in the following figure:

**Note:** If there is an error in synchronizing the products statuses in bulk, then it appears on the page and the **Invalid** button appears under the corresponding **Validation** column displayed on the **Product Manager** page. Otherwise, a success message appears.

- d. Click the **Back** button to go back to the **Product Manager** page.  
e. Correct the issues and then again repeat the process of synchronizing the products statuses .

## 7. Manage Products

This feature of the integration extension enables the admin to manage all the products available in the Magento 1 store and uploaded on Houzz.com.

Hence, after getting redirected to the Product Manager page from the Manage Products menu, the store owners can perform the similar tasks as they can perform on the Product Manager page after getting redirected from the Houzz Profile Listing page.

The only difference here is the display of the products on the Product Manager page. The differences are mentioned below:

- **Display of the Products on the Product Manager page after getting redirected from the Houzz Profile Listing page**(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=add-a-new-profile-11>)  
: Only those products that are assigned to the selected profile are listed.
- **Display of the Products on the Product Manager page after getting redirected from the Manage Products menu**(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=upload-products-3>)  
: All the products those are uploaded on Houzz.com and synchronized with the Magento 1 store are listed.

**The admin can perform the following tasks:**

- Upload Products(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=upload-products-3>)
  - View and edit the product information
  - Upload a single product
  - View the validation error details if any error exists in any product details
  - Submit certain actions on the selected products
- Manage Product Feeds(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=manage-product-feeds-2>)
  - View Product Feed Status
  - Synchronize Feeds
  - Delete Feeds
  - View the Product Feed Error

## 7.1. Upload Products

BY using the **Upload Products** menu, the admin can access the **Product Manager** page and can perform the following tasks on the products those are uploaded on *Houzz.com* and synchronized with the Magento 1 store:

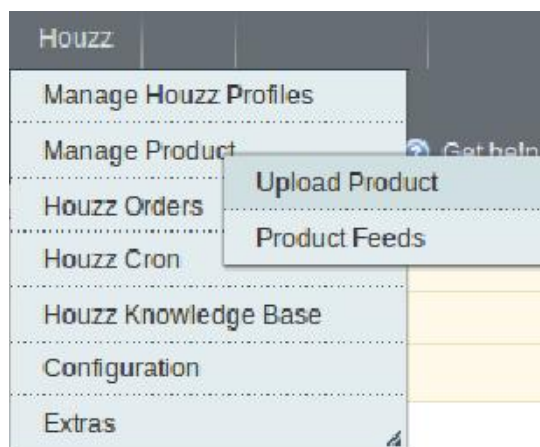

- View and edit the product information
- Upload a single product
- View the validation error details if any error exists in any product details
- Submit certain actions on the selected products

**Note:** After accessing the **Product Manager** page, the procedure for all the tasks performed on this page are same as mentioned in the **Manage Profile Products** section.

**To access the Product Manager page from the Manage Products menu**

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Houzz** menu, and then point to the **Manage Product** menu.

The menu appears as shown in the following figure:

3. Click **Upload Product**.

The **Product Manager** page appears as shown in the following figure:

**Product Manager** Back

Page 1 of 1 pages | View 20 per page | Total 20 records found Reset Filter Search

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected Actions Submit

	ID	Profile Code	Sku	Image	Price	Name	Qty	Visibility	Status	Type	Houzz Product Status	Validation	Upload	Edit

<input type="checkbox"/>	14	test	spider solitaire		₹100.00	spider solitaire	100	Catalog, Search	Enabled	Simple Product		NOT VALIDATED	Upload	Edit

On this page, all the products those are uploaded on *Houzz.com* and synchronized with the Magento 1 store are listed.

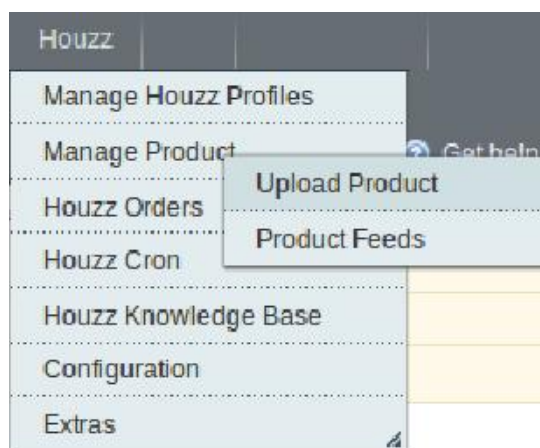

## 7.2. Manage Product Feeds

After uploading the product on *Houzz.com* or after updating the product inventory or the product price, the user can check the status of the feed from the **Houzz Feed Details** page.

### To view the product feeds status

1. Go to the **Magento Admin Panel**.
2. On the top navigation bar, move the cursor over the **Houzz** menu and then point to the **Manage Product** menu.

The menu appears as shown in the following figure:

3. Click **Product Feeds**.

The **Houzz Feed Details** page appears as shown in the following figure:

Houzz Feed Details							Sync Feeds
Page 1 of 1 pages   View 20 per page   Total 9 records found							Reset Filter Search
Select Visible   Unselect Visible   0 items selected	Actions						Submit
Any	Id #	Feed Id #	Feed Status	Feed Source	Feed Date	Feed File	Feed Errors
<input type="checkbox"/>	9	41094287910	UPLOADED	Item-sopt-details	2017-06-30 11:10:17	<a href="#">Download</a>	<a href="#">DETAILS</a>

4.

Do the required one of the following tasks:

- View the status of the feed in the **Feed Status** column.
- To synchronize the feeds between Sears and Magento, click the **Sync Feeds** button.  
Or  
Select the checkbox associated with the required product and submit the **Sync Feeds** action.
- To delete the feed, select the check box associated with the product and submit the **Delete Feeds** action.
- To view the product feed error, click the **Error**

[ERRORS](#)

button or to view the details of the feed, click the

[DETAILS](#)

button.

A dialog box appears as shown in the following figure:

Feed Errors				
summary				
description	record-count	records-with-warnings	records-with-errors	records-accepted
FBM Catalog - XML	1	0	0	1

**Note:** If the feed detail is not available, then the

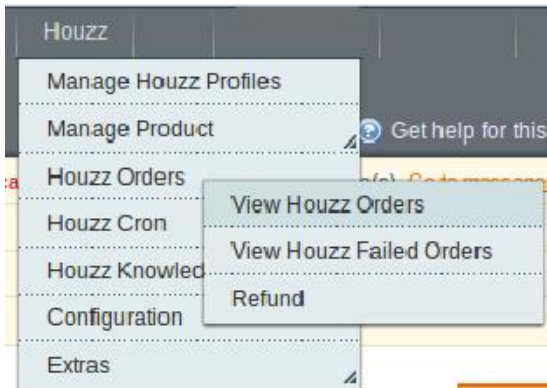

[NO DETAIL AVAILABLE](#)

button appears.

- To download the **Feed File**, click the **Download** link appearing in the **Feed File** column.

## 8. Manage Houzz Orders

The admin can manage the Houzz.com orders and can perform the following tasks through using the options available on the Houzz menu as shown in the following figure:

- View Houzz Orders(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=fetch-and-view-the-orders-details>)
- View Failed Orders(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=view-houzz-failed-orders>)
- Refund Management(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=refund-management>)

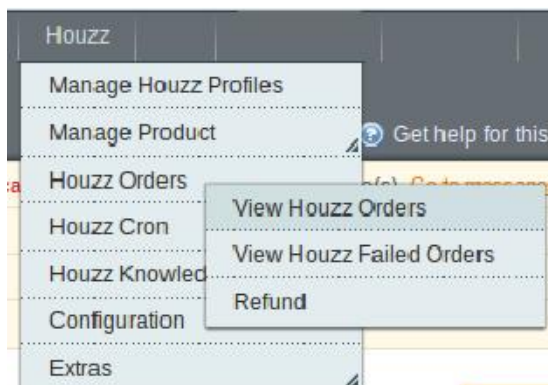

## 8.1. Fetch and View the Orders Details

The user can fetch and view all the order details fetched from **Houzz**.

### *To fetch and view Houzz Orders*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Houzz** menu, and then point to the **Houzz Orders** menu.

The menu appears as shown in the following figure:

### 3. Click **View Houzz Orders**.

The **Houzz Orders Details** page appears as shown in the following figure:

### 4. Click the **Fetch Latest Houzz Orders** button.

If the order is imported successfully then, a new record is found in the **Houzz Order Details** table as shown in the above figure.

#### **Notes:**

- Orders are automatically imported through CRON in every 10 minutes.
- Whenever the latest orders are imported from **Houzz**, a Notification appears in the notification area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported into the Magento admin panel.
- If no Order is imported, then check the Failed order log on the **Failed Houzz Orders Import Log** page.
- Order are auto-rejected on **Houzz** in the following conditions:
  - When **Houzz** Product SKU does not exist in Magento.
  - When Product is Out of Stock in Magento.
  - When a product is disabled in Magento.

## 8.2. View Houzz Failed Orders

The users can view the list of failed Houzz orders on the **Failed Houzz Orders Import Log** page.

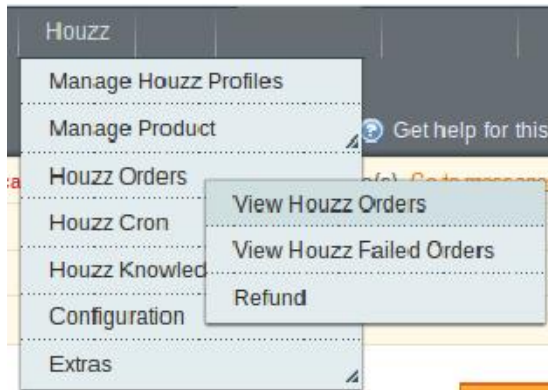

**In the following conditions, Orders are not imported from Houzz:**

- If any product in the Houzz Order is Out of Stock in Magento.
- If any product in the Houzz Order is disabled in Magento.
- If any Product does not exist in Magento or is deleted from Magneto after uploading to Houzz.
- If the selected Payment Method in Houzz System Configuration Setting is not available in Magento.

#### **To view Houzz failed orders**

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Houzz** menu, and then point to the **Houzz Orders** menu.

The menu appears as shown in the following figure:

3. Click **View Houzz Failed Orders**.

The Failed Houzz Orders Import Log page appears as shown in the following figure:

This page displays the failed orders with the order id and the reason for the failure.

## 8.3. Refund Management

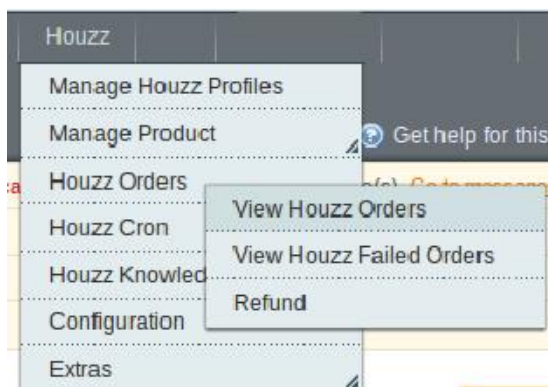

If a front-end user returns the product or order directly to the merchant without the involvement of Houzz.com, then the merchant has to send a request on Houzz.com for completing this type of return.

To complete this type of return the merchant has to create a new refund.

### *To create a new refund*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Houzz** menu, and then point to the **Houzz Orders** menu.

The menu appears as shown in the following figure:

3. Click **Refund**.

The **Refund Management** page appears as shown in the following figure:

4. Click the **Create New Refund** button.

The page appears as shown in the following figure:

5. Under **Refund Information**, in the **Enter Purchase Order Id** box, enter a value.

6. Click the **Fetch Order Info** button.

If the entered purchase order Id is correct, then the respective order details are displayed product-wise in the new sections as follows:

- **Refund id:** Refund id that the merchant receives from Houzz.com.
- **Refund Merchant Id:** Identification number of the merchant.
- **Order item id:** Identification number generated at the time of placing order.
- **Qty Requested:** Total number of items or product ordered in the current order.
- **Qty Already Refunded:** Items or product that have been already refunded to the front-end user.
- **Qty Available for Refund:** Number of items or product that can be refunded.
- **Qty Returned:** Number of items or product returned by the customer.
- **Note:** Returned quantity should be less than or equal to the shipped quantity.
- **Qty Refunded:** Number of items or product that the merchant wants to refund.
- **Note:** Refunded quantity should be less than or equal to the Returned quantity.
- **Refund tax:** Tax applied on the items or products returned.
- **Refund Amount:** Amount that Houzz has to return to the front-end user.
- **Refund Shipping Cost:** Shipping cost applicable to the returned product.
- **Refund Shipping tax:** Shipping tax applicable to the returned product.
- **Refund Feedback:** Feedback of merchant on the returned product.
- **Refund Reason:** Reason why the front-end user has returned the product.

7. Click the **Submit Refund** button.

## 9. Houzz Cron

The Houzz Integration for Magento extension is a one-stop integration, which establishes a synchronization of inventory, price, other details for product creation and its management between the Magento 1 store and Houzz with the help of Crons.

*The user can view the following details:*

- Houzz Cron Details(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=houzz-cron-details>)
- Cron Status(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=cron-status-6>)

### 9.1. Houzz Cron Details

The **Houzz Cron Details** page displays all the Cron details scheduled in Houzz.

*To view the Houzz Cron details*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Houzz** menu.  
The menu appears as shown in the following figure:

3. Click **Houzz Cron**.

The **Houzz Cron Details** page appears as shown in the following figure:

Houzz Cron Details							
Page 1 of 1 pages   View 20 per page   Total 0 records found							
<div>Reset Filter Search</div>							
ID	Job Code	Status	Messages	Created At	Scheduled At	Executed At	Finished At
No records found.							

### 9.2. Cron Status

The updated status appears as mentioned in the following table:

Activity	Time Required for Updating (min)	
Order Creation	Every 10 minutes	
Inventory Sync / Price Sync	Every 15 Minutes	

## 10. Houzz Knowledge Base

This page displays a knowledge base link to view and understand the working of the extension properly and get the clarifications on Houzz-Magento Integration.

### *To view the Houzz Knowledge Base*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Houzz** menu.

The menu appears as shown in the following figure:

3. Click **Houzz Knowledge Base**.

The page appears as shown in the following figure:

*On this page of the Admin panel, the following links are available:*

## 11. Extras

On the **Houzz** menu, the **Extras** menu has the following sub-menus as shown in the following figure:

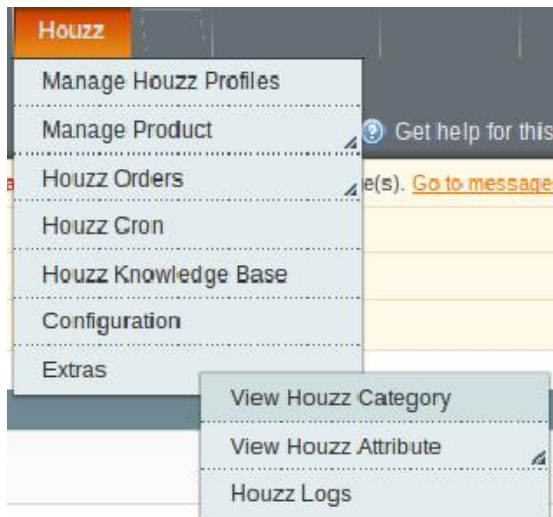

### 11.1. View Houzz Category

The admin has to Map the Houzz Category to the Magento Category to upload products on Houzz.com.

*To view the Houzz categories to the Magento categories*

1. Go to **Magento Admin Panel**.
2. On the top navigation bar, move the cursor over the **Houzz** menu, and then point to the **Extras** menu.  
The menu appears as shown in the following figure:

### 3. Click **View Houzz Category**.

The **Houzz Category Listing** page appears as shown in the following figure:

**Houzz Category Listing**

Page 1 of 48 pages | View 20 per page | Total 956 records found | Export to: CSV | Export | Reset Filter | Search

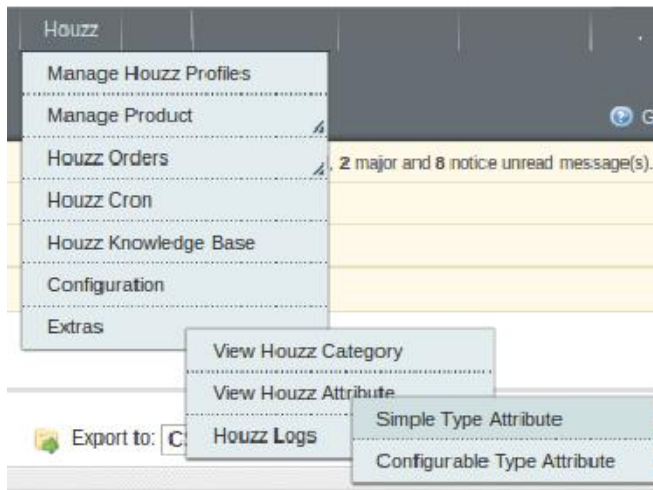

ID	Houzz Category Id	Magento Category Id	Houzz Category Name	Houzz Parent Category Id	Houzz Attributes
1	ToolsAndHardware		Tools And Hardware	0	swatchImages/swatchImage/swatchImageUrl,swatchImages/swatchImage/swatchVariantAttribute,accessoriesIncluded/acc...
2	Home		Home	0	swatchImages/swatchImage/swatchImageUrl,swatchImages/swatchImage/swatchVariantAttribute,collection,variantAttribute...

5	Baby		Baby	0	swatchImages/swatchImage/swatchImageUrl,swatchImages/swatchImage/swatchVariantAttribute,ageRange,minimumWeigh...

On this page, all the **Houzz Categories** details are listed.

## 11.2. View Houzz Attributes

*The View Houzz Attribute menu has the following two sub-menus:*

- Simple type Attribute(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=simple-type-attribute-3>)
- Configurable type Attribute(<https://docs.cedcommerce.com/magento/houzz-magento-integration-guide-0-0-1?section=configurable-type-attribute-3>)

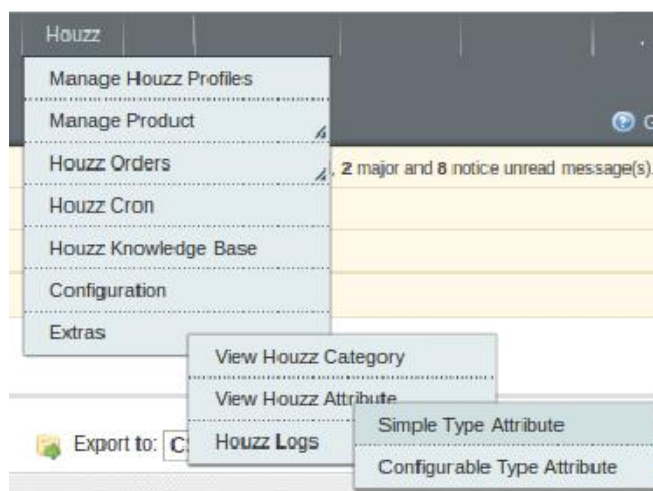

### 11.2.1. Simple Type Attribute

A simple type attribute consists of all the list of attributes associated with the simple product.

#### *To view Houzz simple type attributes*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the Houzz **Walmart** menu, point to the **Extras** menu, and then point to the **View Houzz Attribute** menu.

The menu appears as shown in the following figure:

3. Click **Simple Type Attribute**.

The **Attribute Management** page appears as shown in the following figure:

**Attribute Management**

Page 1 of 47 pages | View 20 per page | Total 934 records found Reset Filter Search

Id	Houzz Attribute Name	Houzz Attribute Enum/Values
1	productTaxCode	
2	condition	
3	isDisposable	
4	powerType	
5	animalHealthConcern	
6	hairLength/hairLengthValue	
7	scent	
8	isDrugFactsLabelRequired	
9	drugFactsLabel	
10	activeIngredients/activeIngredient/activeIngredientName	
11	activeIngredients/activeIngredient/activeIngredientPercentage	
12	inactiveIngredients/inactiveIngredient	

All the Simple Type Houzz Attributes details are listed.

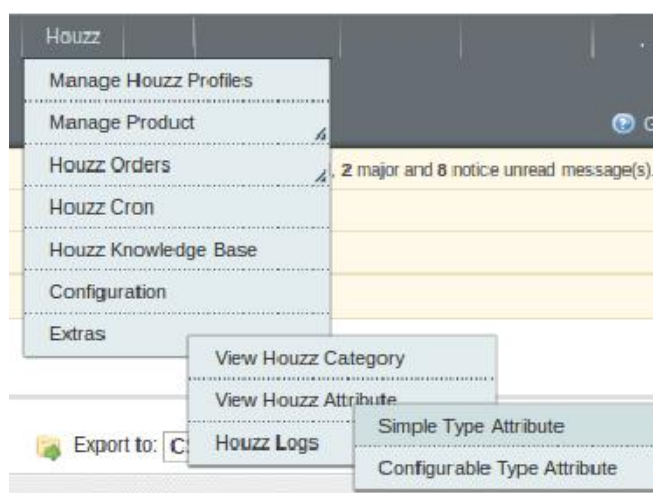

## 11.2.2. Configurable Type Attribute

A configurable type attribute consists of all the list of attributes associated with the configurable products.

### *To view Houzz configurable type attributes*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the Houzz **Walmart** menu, point to the **Extras** menu, and then point to the **View Houzz Attribute** menu.

The menu appears as shown in the following figure:

3. Click **Configurable Type Attribute**.  
The **Configurable Attribute Management** page appears as shown in the following figure:

**Configurable Attribute Management**

Page 1 of 4 pages | View 20 per page | Total 68 records found Reset Filter Search

ID	Houzz Attribute Name	Houzz Attribute Doc	Houzz Attribute Enum/Values
1	color	Color value as provided by the manufacturer. Example: Aqua; Burgundy; Mauve; Fuchsia	
2	size	Example: S; M; L; 2; 4; 6

4	scent	Descriptive term for fragrance. Example: Vanilla; Geranium; Rose	
5	assembledProductLength	Dimensions referring to the item as it is out of the box and assembled. Example: 5 in; 2 ft; 2.5 ft	
6	assembledProductWidth	Dimensions referring to the item as it is out of the box and assembled. Example: 5 in; 2 ft; 2.5 ft	
7	assembledProductHeight	Dimensions referring to the item as it is out of the box and assembled. Example: 5 in; 2 ft; 2.5 ft	
8	shape	Physical shape of the item. Example: Aviator; Cateye; Horned; Oval; Rectangle; Round; Square; Wayfarer	

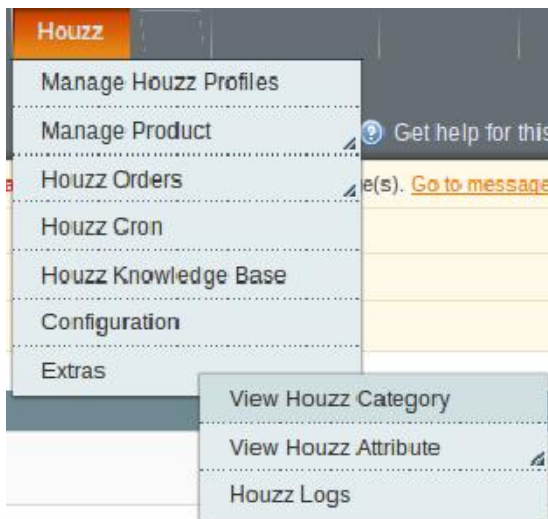

All the Configurable Type Houzz Attribute details are listed.

## 11.3. Houzz Logs

Admin can view and delete the Houzz log details on the **Houzz Log Details** page.

### To view the Houzz log details

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Houzz** menu, and then point to the **Extras** menu.  
The menu appears as shown in the following figure:

3. Click **Houzz Logs**.  
The **Houzz Log Details** page appears as shown in the following figure:

**Houzz Log Details** Truncate

Page 1 of 1 pages | View 20 per page | Total 0 records found Reset Filter Search

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected Actions Submit

	Id #	Log Type	Log Sub Type	Log Date	Value	Log Comment
Any						

No records found.

**Note:** To clear all the failed import order logs at once, click the **Truncate** button.

### To delete Houzz log details

1. Go to the **Houzz Log Details** page.
2. Select the check-boxes associated with the logs those are no more required.
3. In the **Actions** list, select **Delete Records**, and then click the **Submit** button.  
The log records are deleted and a success message appears.
