1. Overview

Walmart Integration for Magento is an extension, developed by CedCommerce helps to integrate the Magento store with Walmart by establishing a synchronization of products, orders and refunds with the help of Walmart API.

The CRONs implemented in this extension help to automate the process thereby keeping it up to date.

This extension interacts with Walmart Marketplace to integrate the synchronized product listing between the Magento and the Walmart retailers. After installing the extension, merchant can create the Walmart Categories and the dependent attributes on the Magento store.

The process enables merchant to configure the desired product category into Magento for automatic submission of the selected product to the same Category on Walmart.

The features of the Walmart Integration for Magento extension are as follows:

- Profile Based Product Upload
- Easy Walmart Category and Attribute mapping
- Manage Walmart Product and Upload Product (directly from grid and bulk upload all products)
- Product Synchronization
 - Automatic process on each product edit
 - Manual synchronization process
- Review Product/Inventory/Price Feeds
- Automated Order Import & Acknowledgement
- Shipment and Cancellation of Orders
- Automated Shipment with Shipworks/Shipstation
- Multiple Shipment of an Order
- Create Refund
- Upload Configurable Product(s)
- Bulk Product Upload/Publish
- Retire/Unpublish Selected Product(s)
- CRON Facility
- Knowledge Base
- Walmart Tax Codes

Caution

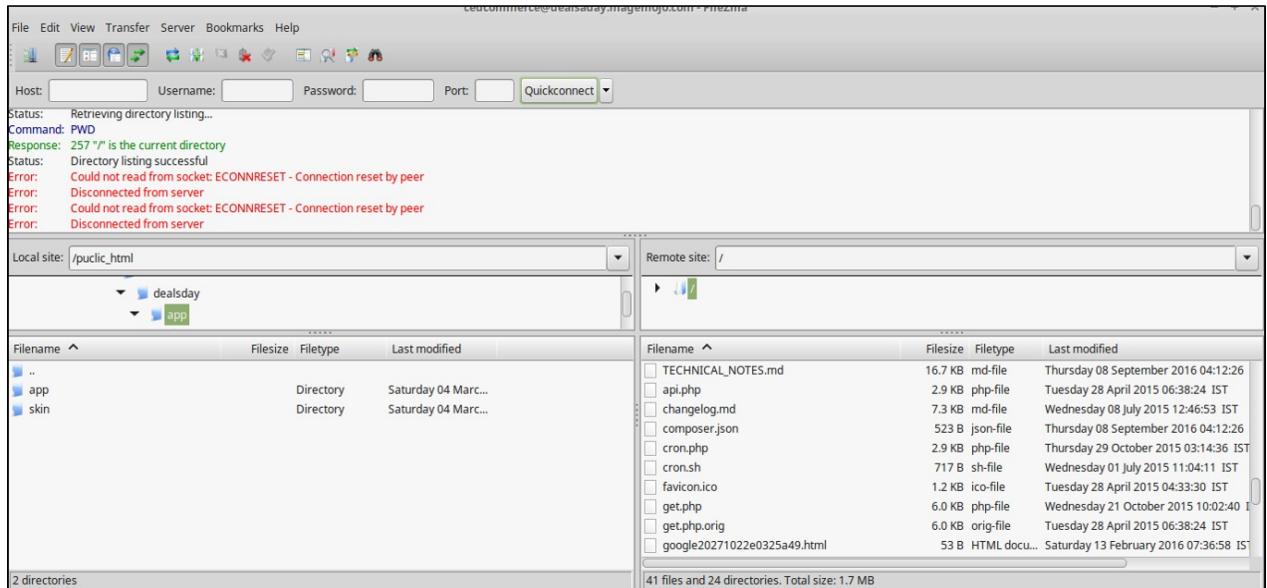

: Extension is heavily dependent on Crons for running various automated processes. So, make sure that Cron Job is properly configured and working on the server.

2. Walmart Integration for Magento

To install the extension

- Log in the **ftp**, and then go to Magento root folder (generally present under the [public_html](#) folder).

- Overwrite the *app*, *skin*, *js* and *var* folders in the same sequence as illustrated in the following steps:
 - Drag and Drop the *app/code*, *app/design*, *js*, *skin* and *var* directories.
 - Finally, upload the *app/etc* directory.
 - After the folders are loaded successfully, the extension is installed or upgraded.

3. Getting the Walmart API Credentials

Once the extension is successfully installed on the Merchant's store, Walmart menu appears in the Magento Admin Panel. The merchant has to fill-in the API credentials in the **Walmart Configuration** page of the admin panel.

The user has to log in the Walmart Seller account to obtain the following API credentials:

- Walmart **Consumer Id**
- API **Secret Key**
- **Consumer Channel Type Id**

After obtaining the ids and the private keys, the merchant has to copy all of them one by one from the Walmart Seller account and paste it one by one to the Configuration page of the admin panel of the merchant.

To follow the process of copying and pasting of the consumer ids and private keys,

- Open the Walmart Seller account and the Magento Admin Panel in two different tabs or windows of the browser. Thus, copy the keys from the Walmart Seller account and paste them one by one to the Magento Admin Panel.

OR

- Use the **Get Walmart Credentials** button available on the Walmart Configuration page of the admin panel of the merchant.

To copy the API Credentials from the Walmart Seller account

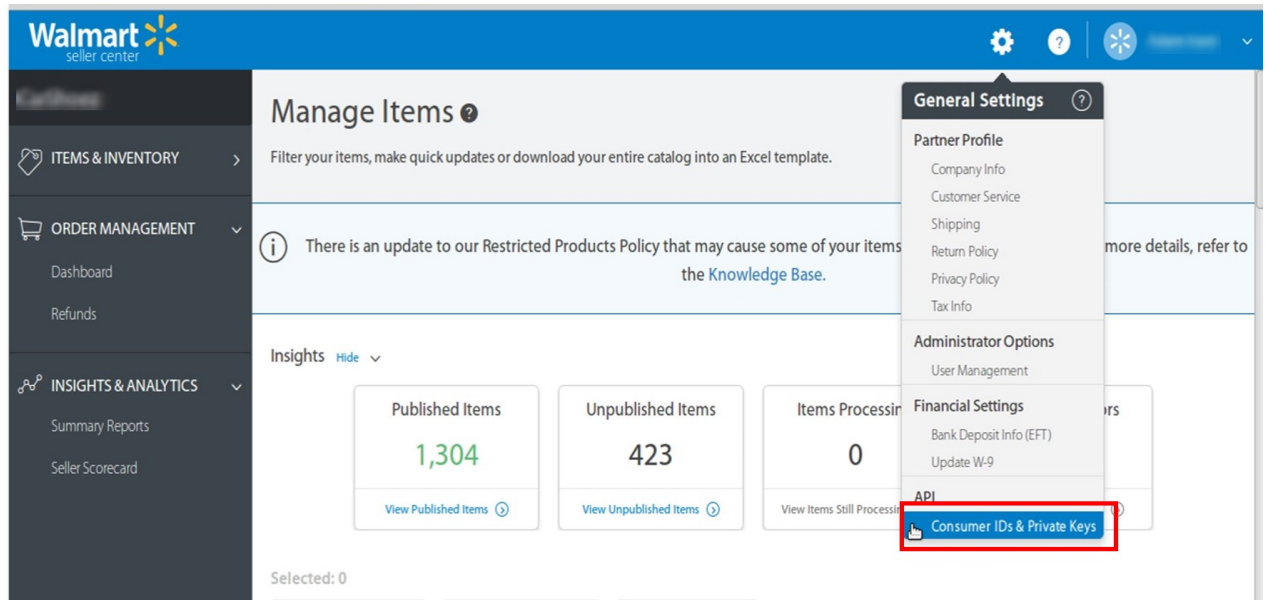

- Open the **Walmart Seller** account.

- Click the **Settings**

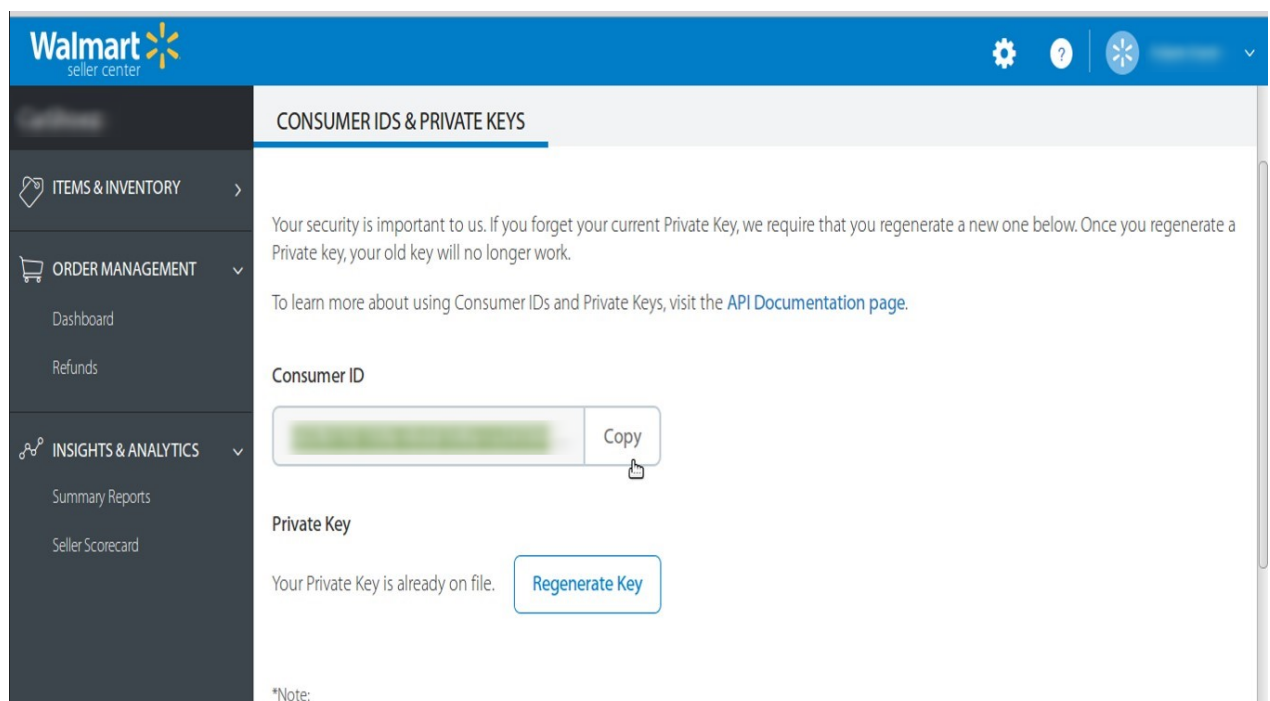

icon.

The **General Settings** menu appears as shown in the following figure:

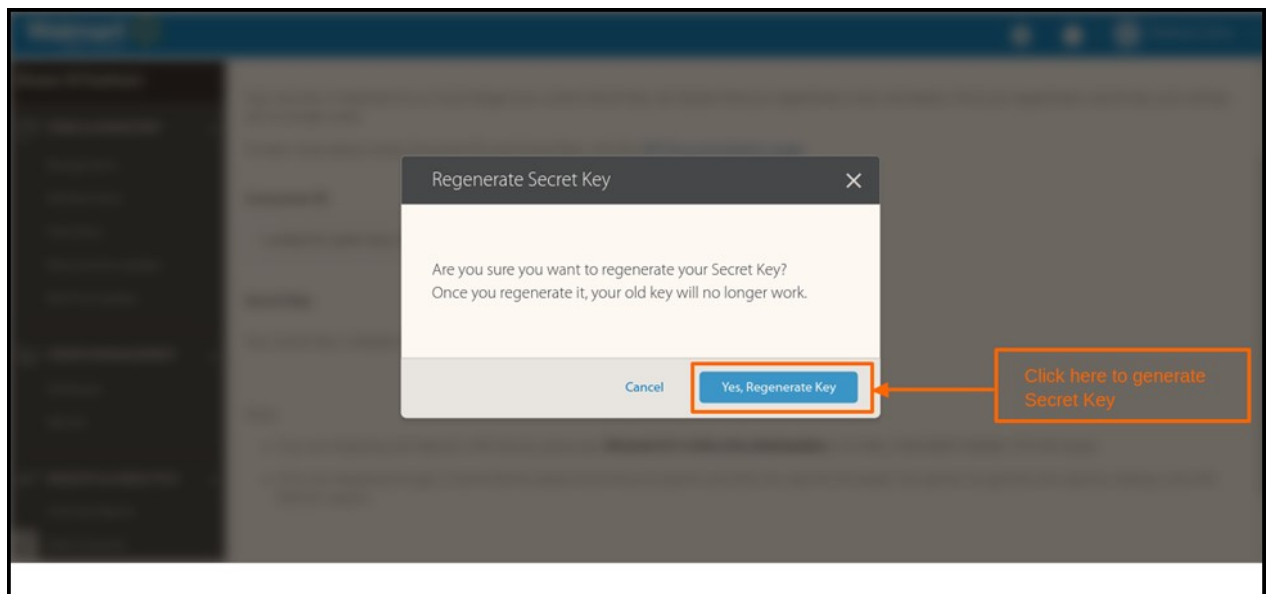

- Under **API**, click **Consumer IDs & Private Keys**.

The page appears as shown in the following figure:

- Under **Consumer ID**, click the **Copy** button.
- Under **Private Key**, click the **Regenerate Key** button.

The **Regenerate Secret Key** dialog box appears as shown in the following figure:

- Click the **Yes, Regenerate Key** button.
Now you have all the information to be used in the next step i.e. **Configuration**.

4. Walmart Magento Configuration Settings

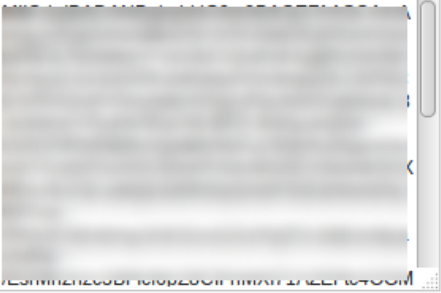

To complete the Configuration Settings, do the following:

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Walmart** menu, and then click **Configuration**.

The **Walmart Configuration** page appears as shown in the following figure:

Walmart Configuration

Walmart Api Settings		
Enabled	<input type="text" value="Yes"/>	[WEBSITE]
Consumer Id	<input type="text"/>	[GLOBAL]
Private key	<div></div>	[GLOBAL]
<div> <input type="button" value="Create Walmart a/c"/> <input type="button" value="Get Walmart Credentials"/> </div>		
Orders Fetch Start Date	<input type="text" value="2018-04-18"/>  <small>▲ Date Format : YYYY-MM-DD</small>	[GLOBAL]
Choose Default Payment Method for Walmart Orders	<input type="text" value="walmart.com"/>	[GLOBAL]
Store Admin Email Id	<input type="text"/> <small>▲ Get Email When New Walmart Order Imported.Example: owner@example.com</small>	[GLOBAL]
Walmart Debug Mode	<input type="text" value="No"/> <small>▲ Enable Walmart Debug Mode for Logging.</small>	[GLOBAL]
Walmart Customer Email	<input type="text" value="danmorris@cedcommerce.com"/> <small>▲ Enter the Email for which customer will be created for Walmart Orders.</small>	[GLOBAL]
Walmart Order ID Prefix	<input type="text"/> <small>▲ Walmart OrderId Prefix (Ex WM-)</small>	[GLOBAL]
Walmart Product Identifier Override	<input type="text" value="No"/> <small>▲ Walmart Product Identifier Override (Enable it Incase you want to change a UPC/GTIN of any product previously uploaded on Walmart)</small>	[GLOBAL]
Walmart SKU Override	<input type="text" value="No"/> <small>▲ Walmart SKU Override (Enable it Incase you want to change a SKU for an existing product on Walmart)</small>	[GLOBAL]

- Under **Walmart API Settings**, do the following steps:
 - In the **Enabled** list, select **Yes**.

Note: Selecting the **No** option hides all other fields of **Walmart API Settings**. The Walmart menu does not appear on the top navigation bar.
 - In the **Consumer Id** box, paste the corresponding **Consumer ID** copied from the **Consumer IDs & Private Keys** page of the **Walmart Seller Account**.
 - In the **Private Key** box, paste the corresponding **Private Key** copied from the **Consumer IDs & Private Keys** page of the **Walmart Seller Account**.
 - Click the **Get Walmart Credentials** button to obtain the API credentials from the existing Walmart partner account.
 - OR
 - Click the **Create Walmart Account** button to create the account to obtain the API credentials.
 - In the **Orders Fetch Start Date** box, click the calendar icon, and enter the date.

The date from when the user starts to fetch the order.

- In the **Choose Default Payment Method for Walmart Orders** list, select the required option.
- In the **Store Admin Email Id** box, enter the email-id where the admin wants to send the mail whenever new Walmart order is Imported.
- In the **Walmart Debug mode** list, select **Yes**.
Note: Enable it to start Walmart Integration in the debug mode. It captures the log for the debug process.
- In the **Walmart Customer Email** box, enter the customer email-id .
- In the **Walmart Order ID Prefix** box, enter the prefix that the admin wants to add before the Walmart order Id.
- In the **Walmart Product Identifier Override** list, select **Yes**.
Note: Enable it to change a UPC/GTIN of any product previously uploaded on Walmart.
- In the **Walmart SKU Override** list, select **Yes**.
Note: Enable it to change an SKU of an existing product previously uploaded on Walmart.
- Click the **Save Config** button.

The API settings are validated and the success message appears. If the entered ids and keys or any other API settings are not valid then an error message appears.

- Now click the **Walmart Product Global Settings** tab.

The **Walmart Product Global Settings** tab is expanded as shown in the following figure:

Walmart Product Global Settings		
Select Store	Default Store View	[GLOBAL]
▲ Select only single store.		
Walmart Swatches	No	[GLOBAL]
▲ Enable Swatch Images for Walmart		
Shipping Settings	Add Rules	[GLOBAL]
▲ Set shipping region and shipping method charges.		
Auto Image Resizing	No	[GLOBAL]
▲ Auto Image Resizing Image to 3:4 Ratio.		

- Under **Walmart Product Global Settings**, do the following steps:
 - In the **Select Store** list, select the single store.
 - In the Walmart swatches, select **Yes** if you want to enable swatch images for your product(s). On selecting yes, you can see the tab like this:

Walmart Product Global Settings

Select Store: Default Store View [GLOBAL]
▲ Select only single store.

Walmart Swatches: Yes [GLOBAL]
▲ Enable Swatch Images for Walmart

Walmart Swatches Attributes: color [GLOBAL]

Shipping Settings [GLOBAL]

Enabled	Region	Method	Magento Attribute Code	
Yes	STREET_48_STA1	Value (Free Shippi	--please select--	<input type="button" value="Delete"/> <input type="button" value="Add Rules"/>

▲ Set shipping region and shipping method charges.

Auto Image Resizing: Yes [GLOBAL]
▲ Auto Image Resizing Image to 3:4 Ratio.

Resized Image Size: 750x1000 [GLOBAL]
▲ Size of image after resizing to 3:4 Ratio.

Here, in the Walmart Swatches Attributes, you may select the attribute from which the swatch images will be fetched for your products.

- To configure the shipping settings, click the **Add Rules** button.
The field is expanded and appears as shown in the following figure:

Shipping Settings [GLOBAL]

Enabled	Region	Method	Magento Attribute Code	
Yes	STREET_48_STA1	Value (Free Shippi	--please select--	<input type="button" value="Delete"/> <input type="button" value="Add Rules"/>

▲ Set shipping region and shipping method charges.

- In the **Enabled** list, select **Yes**.
- In the **Region** list, select the required region.
- In the **Method** list, select the required shipping method.
- In the **Magento Attribute Code** list, select the corresponding attribute code.

Note: Click the **Add Rules** button to add more shipping settings. To delete the rule, click the **Delete** button.

- In the **Auto Image Resizing**, if you select Yes, the tab gets opened further like shown below and you may choose the size of the images for products.

Auto Image Resizing: Yes [GLOBAL]
▲ Auto Image Resizing Image to 3:4 Ratio.

Resized Image Size: 750x1000 [GLOBAL]
▲ Size of image after resizing to 3:4 Ratio.

- Now, click **Walmart Product Advanced Price Settings** tab.

The **Walmart Product Advanced Price Settings** tab is expanded as shown in the following figure:

Walmart Product Advanced Price Settings

Walmart Product Price: Default Magento Price ☐ Use Default [GLOBAL]
▲ Select to send different product price to walmart.com

Fulfillment Lag Time: ☒ Use Default [GLOBAL]
▲ Enter Fulfillment Lag Time for products on Walmart

- Now, in the Walmart Product Price, you have options to choose from, to send a price to Walmart which is shown in the below pointers on this page. If you select one of the options – like Increase by fixed price in the below image – the tab gets expanded further as below:

Walmart Product Advanced Price Settings

Walmart Product Price: Increase By Fixed Price ☐ Use Default [GLOBAL]
▲ Select to send different product price to walmart.com

Enter Amount: ? ☐ Use Default [GLOBAL]

Fulfillment Lag Time: ☐ Use Default [GLOBAL]
▲ Enter Fulfillment Lag Time for products on Walmart

- Under **Walmart Product Price**, enter the values in the corresponding fields.
 User can set the price on the following basis: –
 - Increase by Fixed Price:** If selected, then the **Enter Amount** field appears.
 - Increase by Fixed Percentage:** If selected, then the **Enter Percentage** field appears.
 Enter the numeric value to increase the price of the Walmart product price by the entered value % of Magento price
For Example: Magento price + 5% of Magento price.
 Magento Price = 100
 Select **Increase By Fixed Percentage** option
Enter Percentage = 5
 $100 + 5\% \text{ of } 100 = 100 + 5 = 105$
 Thus, Walmart Product Price = 105
 - Decrease by Fixed Price:** If selected, then the **Enter Amount** field appears.
 - Decrease by Fixed Percentage:** If selected, then the **Enter Percentage** field appears.
 Enter the numeric value to decrease the price of the the Walmart product price by the entered value % of Magento price
For Example: Magento price – 5% of Magento price.
 Magento Price = 100
 Select **Decrease By Fixed Percentage** option
Enter Percentage = 5
 $100 - 5\% \text{ of } 100 = 100 - 5 = 95$
 Thus, Walmart Product Price = 95
- Fulfilment Lag Time:** Enter Fulfilment Lag Time for products on Walmart.

Next is the **Walmart Inventory Rules**.

- Click the **Walmart inventory rules** tab.

The **Walmart inventory rules** tab is expanded as shown in the following figure:

Walmart inventory rules		
Send Inventory on the Basis of Threshold	<input type="text" value="No"/>	[GLOBAL]

- Under **Walmart inventory rules**, do the following steps:
- In the **Send Inventory on the Basis of Threshold** list, select **Yes** to send the inventory based on threshold.

Note: Only when the admin selects **Yes**, the other fields appear. Threshold Inventory is the minimum count of an item that the store owner wants to keep in stock.

The section appears as shown in the following figure:

Walmart inventory rules		
Send Inventory on the Basis of Threshold	<input type="text" value="Yes"/>	[GLOBAL]
Inventory Threshold Value	<input type="text"/>	[GLOBAL]
▲ Set inventory quantity on which lesser and greater condition can control.		
Send Inventory for Lesser Than Threshold Case	<input type="text"/>	[GLOBAL]
▲ Send Quantity to Walmart for those products, whose inventory is LESSER than the inventory threshold.		
Send Inventory for Greater Than Threshold Case	<input type="text"/>	[GLOBAL]
▲ Send Quantity to Walmart for those products, whose inventory is GREATER than the inventory threshold.		

- In the **Inventory Threshold Value** box, enter the required value.
- In the **Send Inventory for Lesser Than Threshold Case** box, enter the required value.
- In the **Send Inventory for Greater Than Threshold Case** box, enter the required value.

Next is the **Cron Settings** in the process.

- Click the **Cron Settings** tab.

The **Cron Settings** tab is expanded as shown in the following figure:

Cron Settings		
Cron Settings Override	<input type="text" value="Yes"/>	[WEBSITE]
Enable Order Cron	<input type="text" value="No"/>	[WEBSITE]
▲ Order Cron Enable/Disable		
Enable Inventory Cron	<input type="text" value="No"/>	[WEBSITE]
▲ Inventory Cron Enable/Disable		
Enable Price Cron	<input type="text" value="No"/>	[WEBSITE]
▲ Price Cron Enable/Disable		

- Under **Cron Settings**, do the following steps:
 - In the **Cron Settings Override** list, select **Yes** to enable the cron settings.

Note: Only when the admin selects **Yes**, the other fields appear.

Setting	Value	Scope
Cron Settings Override	Yes	[WEBSITE]
Enable Order Cron	Yes	[WEBSITE]
Order Cron	*/10 * * * *	[GLOBAL]
Enable Inventory Cron	Yes	[WEBSITE]
Product Inventory Update Cron	*/13 * * * *	[GLOBAL]
Enable Price Cron	Yes	[WEBSITE]
Product Price Update Cron	0 0 * * * *	[GLOBAL]

- In the **Enable Order Cron** list, select **Yes** to enable the order cron.
The **Order Cron** field appears.
 - In the **Order Cron** box, enter the required value.
- In the **Enable Inventory Cron** list, select **Yes** to enable the order cron.
The **Product Inventory Update Cron** field appears.
 - In the **Product Inventory Update Cron** box, enter the required value.
- In the **Enable Price Cron** list, select **Yes** to enable the order cron.
The **Product Price Update Cron** field appears.
 - In the **Product Price Update Cron** box, enter the required value.
The section appears as shown in the following figure:
- Click the **Save Config** button.

5. Manage Walmart Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento attributes to the Walmart attributes. These attributes are applicable to all the products that are assigned to the profile.

Admin can do the following tasks:

- Add new profile(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=add-new-profile>)
- Edit the existing profile(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=edit-the-existing-profile-2>)
- Delete the profile(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=delete-the-profile-2>)
- Submit Actions on the Walmart Profile Listing Page(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=submit-actions-3>)

5.1. Add New Profile

To add a new profile

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Walmart** menu.
The menu appears as shown in the following figure:

- Click the **Manage Walmart Profiles** menu.
The **Walmart Profile Listing** page appears as shown in the following figure:

- Click the **Add New Profile** button.
The page appears as shown in the following figure:

- In the right panel, under **Profile Information**, do the following steps:
 - In the **Profile Code** box, enter a profile code.
Note: It is only for the internal use. Use the unique profile code with no spaces. Start with small letters.
 - In the **Profile Name** box, enter the name of the profile.
Note: Use the unique name to identify the profile.
 - In the **Status** list, select **Active** to enable the profile.
Note: The Inactive option disables the profile.
- Click the **Save and Continue** button.
- In the left navigation panel, click the **Profile Configurations** menu.

The page appears as shown in the following figure:

Add Walmart Profile

▲ Set shipping region and shipping method charges.

Auto Image Resizing: Yes
▲ Auto Image Resizing Image to 3:4 Ratio.

Resized Image Size: 750x1000
▲ Size of image after resizing to 3:4 Ratio.

Use Default [GLOBAL] (checkboxes for each section)

- In the **Enabled** list, select **Yes**.
- In the **Region** list, select the required region.
- In the **Method** list, select the required shipping method.
- In the **Magento Attribute Code** list, select the corresponding attribute code.
Note: Click the **Add Rules** button to add more shipping settings. To delete the rule, click the **Delete** button.
- In the Auto Image Resizing, select yes if you want to resize the images.
- On selecting Yes, the tab gets expanded and you can enter the size of image as shown in the image

above, for the same.

Important Note: You may use the default settings for the above settings by selecting the *Use Default option*. On doing so, the actions that you took while doing the configurations will be applied.

- Now, in the right panel, click **Walmart Product Advanced Price Settings** tab.
The **Walmart Product Advanced Price Settings** tab is expanded as shown in the following figure:

The screenshot shows the 'Walmart Product Advanced Price Settings' configuration panel. It contains three main settings:

- Walmart Product Price:** A dropdown menu is set to 'Increase By Fixed Price'. Below it is a small triangle icon and the text 'Select to send different product price to walmart.com'. To the right is a checkbox labeled 'Use Default [GLOBAL]'.
- Enter Amount:** A text input field is empty. To its right is a question mark icon and a checkbox labeled 'Use Default [GLOBAL]'.
- Fulfillment Lag Time:** A text input field is empty. Below it is a small triangle icon and the text 'Enter Fulfillment Lag Time for products on Walmart'. To the right is a checkbox labeled 'Use Default [GLOBAL]'.

- Under **Walmart Product Advanced Price Settings**, enter the values in the corresponding fields.
 - Walmart Product Price:** This is to set a different price for all the products as shown in the following figure:
The user can set the price on the following basis: –
 - Increase by Fixed Price:** If selected, then the **Enter Amount** field appears.
 - Increase by Fixed Percentage:** If selected, then the **Enter Percentage** field appears.
Enter the numeric value to increase the price of the Walmart product price by the entered value % of Magento price
For Example, Magento price + 5% of Magento price.
Magento Price = 100
Select **Increase By Fixed Percentage** option
Enter Percentage = 5
 $100 + 5\% \text{ of } 100 = 100 + 5 = 105$
Thus, Walmart Product Price = 105
 - Decrease by Fixed Price:** If selected, then the **Enter Amount** field appears.
 - Decrease by Fixed Percentage:** If selected, then the **Enter Percentage** field appears.
Enter the numeric value to decrease the price of the Walmart product price by the entered value % of Magento price
For Example, Magento price – 5% of Magento price.
Magento Price = 100
Select **Decrease By Fixed Percentage** option
Enter Percentage = 5
 $100 - 5\% \text{ of } 100 = 100 - 5 = 95$
Thus, Walmart Product Price = 95
 - Product TaxCode:** Enter 7 digit product tax code.
 - Fulfillment Lag Time:** Enter Fulfillment Lag Time for products on Walmart.
- In the right panel, click the **Walmart inventory rules** tab.
The **Walmart inventory rules** tab is expanded as shown in the following figure:

The screenshot shows the 'Walmart inventory rules' configuration panel. It contains one main setting:

- Send Inventory on the Basis of Threshold:** A dropdown menu is set to 'No'. To its right is a checkbox labeled '[GLOBAL]'.

- Under **Walmart inventory rules**, do the following steps:

- In the **Send Inventory on the Basis of Threshold** list, select Yes to send the inventory based on a threshold.

Note: Only when the admin selects **Yes**, the other fields appear.

The section appears as shown in the following figure:

Note: Inventory Threshold Value is the minimum quantity of the inventory that the admin wants to have in hand.

- In the **Inventory Threshold Value** box, enter the required value.
 - In the **Send Inventory for Lesser Than Threshold Case** box, enter the required value.
 - In the **Send Inventory for Greater Than Threshold Case** box, enter the required value.
 - Click the **Save and Continue** button.
 - In the left navigation panel, click the **Walmart Category Mapping** menu.
- The page appears as shown in the following figure:

Add Walmart Profile

- In the **Category** list, select the required **Walmart** category that the admin wants to map.
The **Child Category** list appears next to the **Category** list.
- In the **Child Category** list, select the required child category.

Depending upon the selection of the category and the sub-categories, the Walmart and Magento attributes appear under the **Walmart / Magento Attribute Mapping (Required/ Optional mapping)** section, if exist.

- Do one of the following steps:
 - Select the check boxes associated with the required products those the admin wants to assign to the new profile.

Note: Admin can assign one product to one profile only. It means, admin can assign multiple products to the same profile but can associate a product only to one profile at one time. To assign a product to another profile, the admin has to remove that product from the current assigned profile.
 - Click the **Select All** link to select all the products available in the store.

Note: To clear the selection, click the **Unselect All** link.
 - Click the **Select Visible** link to select the products displayed on the current page.

Note: To clear the selection, click the **Unselect Visible** link.

- Click the **Save** button.

The created profile is saved and listed on the Walmart Profile Listing page.

Or

Click the **Save and Continue Edit** button to save the created profile and continue editing, if required.

Or

Click the **Save and Upload Product** button to save the profile and make ready to upload the product on Walmart.

The assigned products are listed on the **Product Manager** page as shown in the following figure:

5.2. Edit the Existing Profile

To edit the existing profile

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Walmart** menu.
The menu appears as shown in the following figure:

- Click **Manage Walmart Profiles**.
The **Walmart Profile Listing** page appears as shown in the following figure:

On this page all the available profiles are listed.

- Click the required row of the profile that the admin wants to edit.
OR
In the **Action** column, click the arrow button, and then click **Edit Profile**.
The **Edit Profile** page appears as shown in the following figure:

- Make the changes as per requirement.
- Click the **Save** button.
The edited profile is saved and listed on the **Walmart Profile Listing** page.
Or
Click the **Save and Continue Edit** button to save the created profile and continue editing, if required.
Or
Click the **Save and Upload Product** button to save the profile and make ready to upload the product on Walmart.com.
The assigned products are listed on the **Product Manager** page as shown in the following figure:

Manage Products Back

Page 1 of 1 pages | View 20 per page | Total 2 records found Reset Filter Search

ID	Profile Name	Status	Total Item	Action
Any				
<input type="checkbox"/>	1 fashion	Active	1	

On this page all the available profiles are listed.

4. Click the required row of the profile that the admin wants to delete.
The **Edit Profile** page appears as shown in the following figure:

Profile Information Edit Walmart Profile Back Reset Delete Save Save and Continue Edit Save and Upload Product

Profile Information

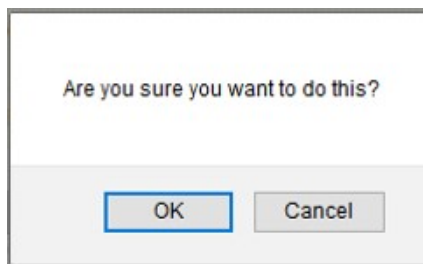

Profile Code *
▲ For internal use. Please use only letters (a-z), numbers (0-9) or underscore(_) in this field, first character should be a letter

Profile Name *
▲ Give some name to profile to identify them

Status *
▲ Make active to enable the profile

- Click the **Delete** button.

A confirmation dialog box appears as shown in the following figure:

- Click the **OK** button.

The profile is deleted.

5.4. Submit Actions on the Walmart Profile Listing Page

Admin can delete the selected profiles and also can change the status of the profiles in bulk.

To delete the selected profiles in Bulk

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Walmart** menu.
The menu appears as shown in the following figure:
- Click **Manage Walmart Profiles**.
The **Walmart Profile Listing** page appears as shown in the following figure:

On this page, all the available profiles are listed.

- Select the check boxes associated with the required profiles.
- Click the Arrow button next to the **Actions** field.

The **Actions** list appear as shown in the following figure:

- In the **Actions** list, click **Delete**, and then click the **Submit** button.
A confirmation dialog box appears as shown in the following figure:
- Click the **OK** button.
The selected profiles are deleted.

To change the status of the selected profiles

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Walmart** menu.
The menu appears as shown in the following figure:

3. Click **Manage Walmart Profiles**.

The **Walmart Profile Listing** page appears as shown in the following figure:

On this page, all the available profiles are listed.

- Select the check boxes associated with the required profiles.
- Click the Arrow button next to the **Actions** field.

The **Actions** list appear as shown in the following figure:

- In the **Status** list, click **Change status**.

The **Status** field appears next to the Actions list.

- In the **Status** list, select the required option, and then click the **Submit** button.
The status is changed and a success message appears.

6. Manage Product

Admin can perform the following tasks:

- Upload Products(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=upload-products-2>)
- View Error Log(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=product-manager-2>)
- View and Edit the Product Information(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=view-and-edit-product-information>)

6.1. Upload Products

The admin can upload the products that are assigned to the selected profile and are listed on the **Product Manager** page to Walmart.

*Other than the **Validate & Upload Product(s) to Walmart** action, the admin can also perform the following actions on the selected products available on the **Product Manager** page:*

- **Validate Selected Product(s)**: To validate the product before uploading it to the Walmart website. It displays the corresponding validation error, if any. If there is no error, it confirms that the product is ready to upload.
- **Product Price Update**: To update the price of the selected products on Walmart. For example, if the user has changed the product price on the Magento store and also wants to change the price on Walmart then this action is applicable. The price is updated when the user submits this action for the selected product.
- **Product Inventory Update**: To update the inventory of the selected products on Walmart. This action completes all the job related to the product inventory and also it manages the quantity related issues.
- **Retire Selected Product(s)**: To withdraw the selected products so that it is neither used nor ordered. On submitting this action, the product is not listed on Walmart. Thus, nobody can order them from Walmart.
- **Sync Walmart Product Status**: To get the request from Walmart to update the status of the products on the Magento store. It helps the user to view the status of the product. , unpublished, transmit, data fix, system error, or so on.

Note: These actions are also sbmitted similarly as submitting the **Validate & Upload Product(s)** action for uploading the products.

To upload the selected products

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Walmart** menu.
The menu appears as shown in the following figure:

- click the **Manage Product** menu.
The **Product Manager** page appears as shown in the following figure:

Manage Products Back

Page 1 of 1 pages | View 20 per page | Total 2 records found Reset Filter Search

Select All | Unselected All | Select Visible | Unselected Visible | 0 items selected

<input type="checkbox"/>	2 jeans	Test-Configurable		\$10.00	Test Configurable	0	Catalog, Search	Enabled	Configurable Product	PUBLISHED	INVALID	

All the available products are listed.

- Select the checkboxes associated with the product that the admin wants to upload it to Walmart.
- In the **Actions** list, click the arrow button, and then click **Validate & Upload Products**.

- Click the **Submit** button.
The **Uploading Products to Walmart** page appears as shown in the following figure:

To upload single product

- Go to the **Product Manager** page.
The **Product Manager** page appears as shown in the following figure:

- Scroll down to the required product.
- In the **Actions** column, click the **Upload** button.
If the product is uploaded successfully, then the success message appears on the top of the page.
If there is an error, then the upload failed message appears on the top of the page. Resolve the issue and then again upload the product.

6.2. View Error Log

To View the error log

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Walmart** menu, and then click the **Manage Product** menu.
The menu appears as shown in the following figure:

- Click **Manage Product**.

The **Product Manager** page appears as shown in the following figure:

ID	Profile Code	Sku	Image	Price	Name	Qty	Visibility	Status	Type	Walmart Product Status	Validation	Actions

- Enter the required information, and then click the **Save** button.
- To sync the Magento Product with Walmart, click the **Sync With Walmart** button.

7. Item and Order Testing on Seller Account

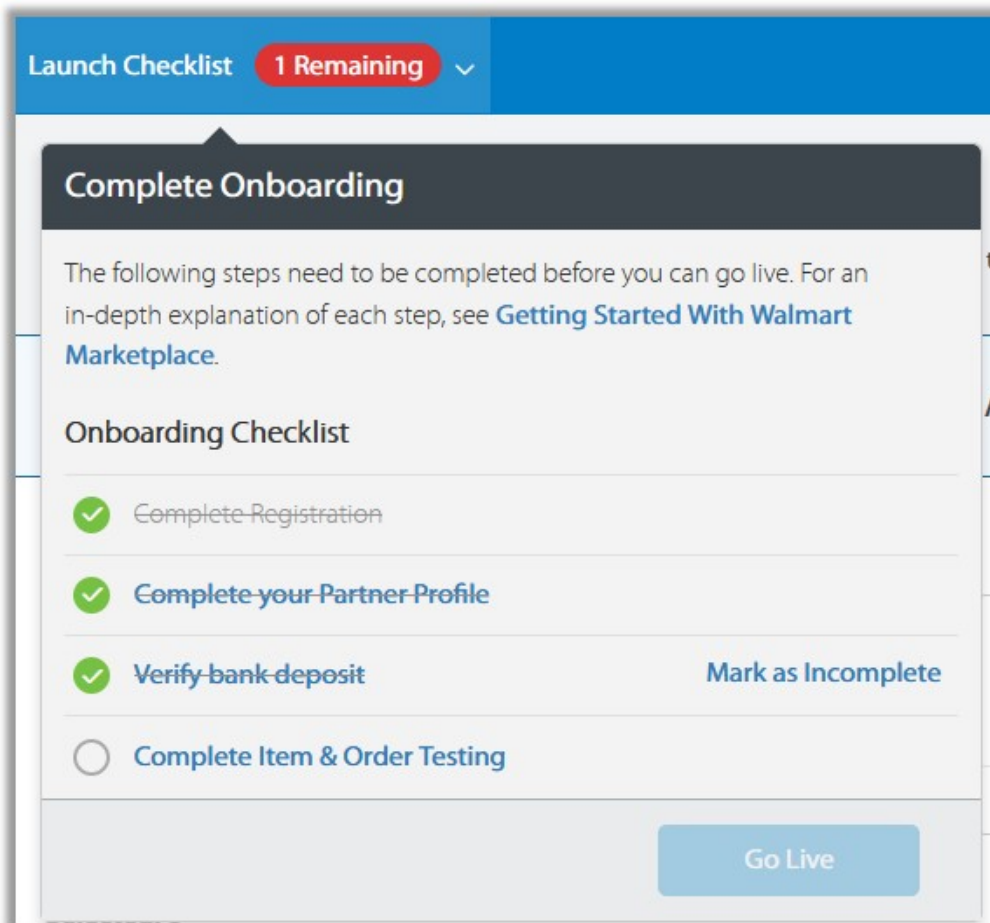

After the product is uploaded successfully, the items appear in the Staged status until the admin establishes as a seller. The admin can preview how the prices and content appears to the Walmart customers before officially going for live with the entire catalog. Admin can publish the selected items for Order Testing before all the items are officially published.

Admin has to publish and purchase single item by placing two orders on Walmart.com and then complete the following three order scenarios before going live:

- Acknowledge & Cancel** at least one order
- Acknowledge & Ship** at least one order
- Refund** one of your Shipped orders

To follow the process of Item and Order Testing

- Log in the Seller(<https://seller.walmart.com/>) account.
- On the top navigation bar, click **Launch Checklist**.
The Complete Onboarding dialog box appears as shown in the following figure:

The image shows a 'Complete Onboarding' dialog box. At the top, there is a blue header bar with the text 'Launch Checklist' and a red pill-shaped button with '1 Remaining' and a dropdown arrow. Below the header, the dialog has a dark grey title bar with 'Complete Onboarding'. The main content area is light grey and contains the text: 'The following steps need to be completed before you can go live. For an in-depth explanation of each step, see [Getting Started With Walmart Marketplace](#).' Below this is a section titled 'Onboarding Checklist' with a list of four items: 'Complete Registration' (checked), 'Complete your Partner Profile' (checked), 'Verify bank deposit' (checked), and 'Complete Item & Order Testing' (unchecked). To the right of the 'Verify bank deposit' item is a link 'Mark as Incomplete'. At the bottom right of the dialog is a blue button labeled 'Go Live'.

- Click to select the **Complete Item & Order Testing** option.
The **Item & Order Testing** page appears as shown in the following figure:

Walmart seller center Launch Checklist **1 Remaining**

Item & Order Testing

Publish and purchase at least one item on Walmart.com and complete the three order scenarios below before you go live.

Publish item(s)
Publish at least one of your items that is in Staged status

Purchase item(s)
Purchase at least one of your Published items on Walmart.com

Order scenarios

- ☐ Acknowledge & Cancel at least one order
- ☐ Acknowledge & Ship at least one order
- ☐ Refund one of your Shipped orders

Mark as Done

Selected: 0

Update Price **Update Inventory** **Filter**

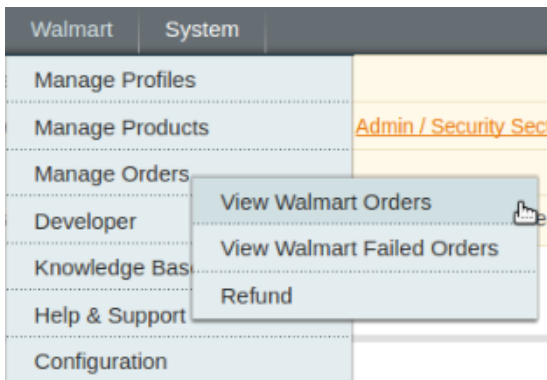

<input type="checkbox"/>	Status	Item Details	Price	Units	Actions
<input type="checkbox"/>	Stage	WonderSlim Vegetarian Joe (7 ct) SKU: WS116	\$12.95	1	Preview item Publish item

- In the **Item Details** column, click the **Preview Item** link to verify the content and pricing of your items in the Stage status.
- In the **Actions** column, click the **Publish Item** link.
Once the item is published, the status changes to **Published**, and the link in the **Action** column changes to **Purchase Item**.
- In the **Actions** column, click the **Purchase Item** link.
The page is redirected to the live Item Page where the admin can purchase the item on Walmart.com.
Note: Admin can publish items only that are in **Stage** status.
- Test the following three order scenarios:
 - **Acknowledge & Cancel** at least one order
 - **Acknowledge & Ship** at least one order
 - **Refund** one of your Shipped orders

8. Walmart Orders

On the Walmart menu, Walmart Orders has the following three sub-menus as shown in the following figure:

- View Walmart Orders(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=view-walmart-orders-2>)
- View Walmart Failed Orders(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=view-walmart-failed-orders-3>)
- Refund(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=refund-3>)

8.1. View Walmart Orders

The user can fetch and view all the order details fetched from Walmart.

To view Walmart Orders

1. Go to **Magento Admin Panel**.
2. On the **Walmart** menu, point to **Walmart Orders**, and then click **View Walmart Orders**.
The **Walmart Orders Details** page appears as shown in the following figure:

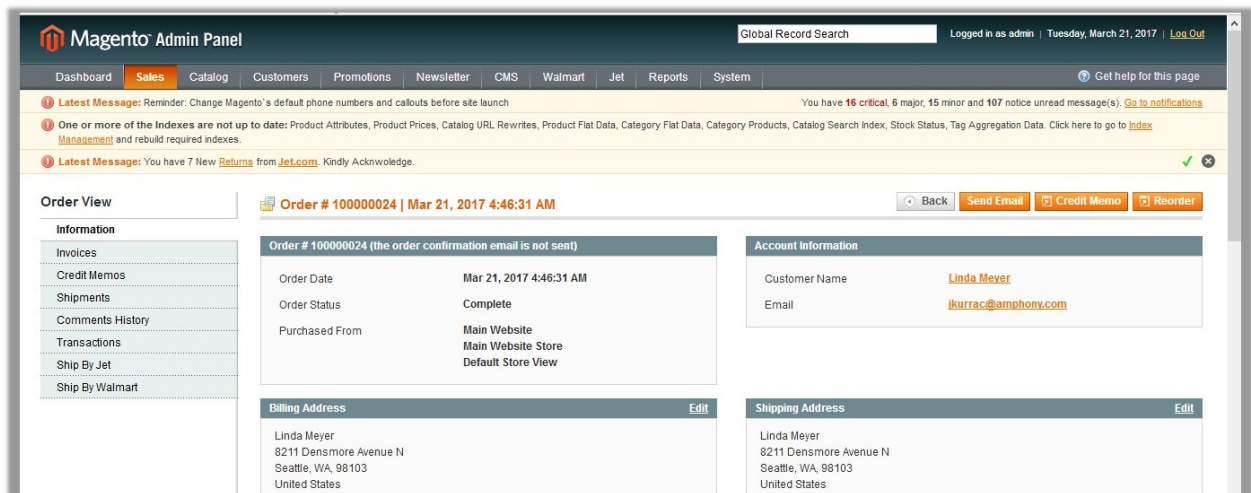

Magento Order #	Walmart Purchase Order Id #	Walmart Order #	Bill to Name	Ship to Name	Date Ordered	Ship By	Status	G.T. (Purchased)
000000011	35977128355611	2891779609246	Mark Ismach	Mark Ismach	Jan 18, 2017 11:25:37 PM	Jan 19, 2017 12:30:00 PM	Acknowledged	11.1300

3. Click the **Fetch Latest Walmart Orders** button.

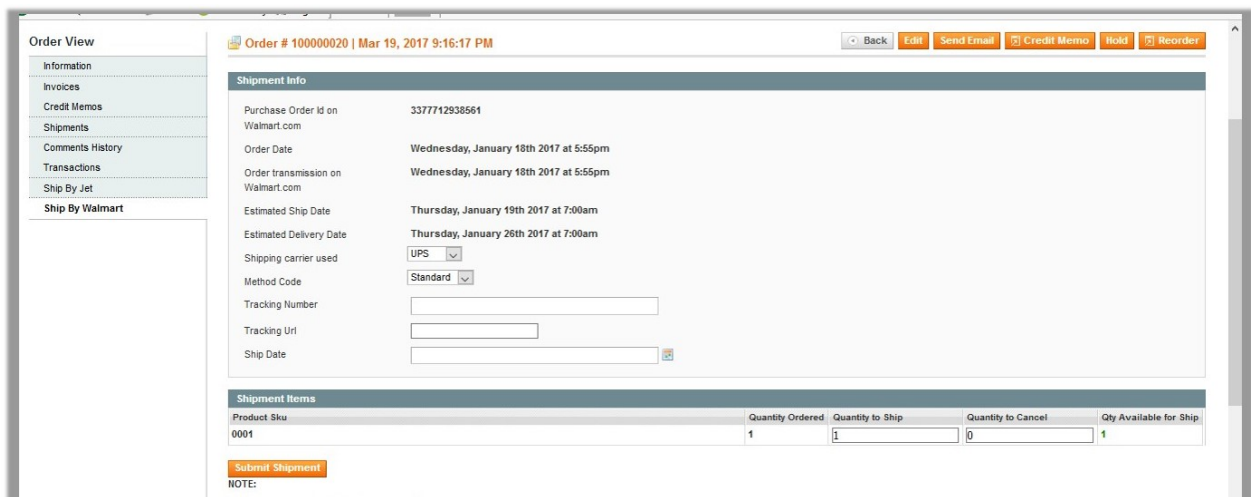

If the order is imported successfully then, a new record is found in the **Walmart Order Details** table as shown in the above figure.

Notes:

- Orders are automatically imported through CRON in every 10 minutes.
 - Whenever the latest orders are imported from Walmart, a Notification appears in the notification area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported in the Magento admin panel.
 - As per Walmart's Policy, orders should be acknowledged within 60 minutes.
 - If no Order is imported, then check the Failed order log on the **Failed Walmart Orders Import Log** page.
 - Order are auto rejected on Walmart in the following conditions:
 - When Walmart Product SKU does not exist in Magento.
 - When Product is Out of Stock in Magento.
 - When product is disabled in Magento.
4. In the **Magento Order#** column, click the link associated with the required order.
The page appears as shown in the following figure:

5. In the left navigation menu, click **Ship By Walmart**.
The page appears as shown in the following figure:

- Orders imported from Walmart uses **Payment Method** depending on the **System Configuration Settings** of Walmart extension.
6. Under **Shipment Info**, enter the corresponding values in the following fields:
 - a. In the **Shipping carrier used** list, select the required option.
 - b. In the **Method Code** list, select the required option.
 - c. In the **Tracking Number** box, enter a value.
 - d. In the **Ship Date** box, enter a date.
 7. Under **Shipment Items**, enter the corresponding values in the following fields:
 - a. In the **Quantity to Ship** box, enter a value.
The number of quantity that the user can ship. The value cannot be greater than the **Qty Available for Ship** value.
 - b. In the **Quantity Cancelled** box, enter a value.
The number of quantity that the user wants to reject. The value cannot be greater than the **Qty Available for Ship** value. The success message appears, if the order is shipped successfully.
 8. Click the **Submit Shipment** button.

Notes:

- Order **Shipment** is sent to Walmart.
- Order **Invoice** and **Shipment** is created automatically in Magento.
- Order **Status** changes to **Complete** on Walmart.
- The **status** of order changes to **Completed** on Magento.

8.2. View Walmart Failed Orders

The users can view the list of failed Walmart orders on the **Failed Walmart Orders Import Log** page.

In the following conditions, Orders are not imported from Walmart:

- If any product in the Walmart Order is Out of Stock in Magento.
- If any product in the Walmart Order is disabled in Magento.
- If any Product does not exist in Magento or is deleted from Magneto after uploading on Walmart.
- If the selected Payment Method in Walmart System Configuration Setting is not available in Magento.

To view Walmart failed orders

- Go to **Magento Admin Panel**.
- On the **Walmart** menu, point to **Walmart Orders**, and then click **View Walmart Failed Orders**.
The **Failed Walmart Orders Import Log** page appears as shown in the following figure:

ID	Purchase order ID	Reference Number	Reason to failed	Order Data
<input type="checkbox"/>	7	3843952598994	5731668731958	Product L1700 is Not Enabled or not in stock or inventory<=0 or Product visibility is set to not visible individually

This page displays the failed orders with the order id and the reason for the failure.

8.3. Refund

If a front-end user returns the product or order directly to the merchant without the involvement of walmart.com, then the merchant has to send a request on walmart.com for completing this type of return.

To complete this type of return the merchant has to create a new refund.

To create a new refund

- Go to **Magento Admin Panel**.
- On the **Walmart** menu, point to **Walmart Orders**, and then click **Refund**.
The **Refund Management** page appears as shown in the following figure:

- Click the **Create New Refund** button.
The page appears as shown in the following figure:

- Under **Refund Information**, in the **Enter Purchase Order Id** box, enter a value.
- Click the **Fetch Order Info** button.
If the entered purchase order Id is correct, then the respective order details are displayed product-wise in the new sections as follows:
 - Refund id:** Refund id that the merchant receives from walmart.com.
 - Refund Merchant Id:** Identification number of the merchant.
 - Order item id:** Identification number generated at the time of placing order.
 - Qty Requested:** Total number of items or product ordered in the current order.
 - Qty Already Refunded:** Items or product that have been already refunded to the front-end user.
 - Qty Available for Refund:** Number of items or product that can be refunded.
 - Qty Returned:** Number of items or product returned by the customer.
Note: Returned quantity should be less than or equal to the shipped quantity.
 - Qty Refunded:** Number of items or product that the merchant wants to refund.
Note: Refunded quantity should be less than or equal to the Returned quantity.
 - Refund tax:** Tax applied on the items or products returned.
 - Refund Amount:** Amount that Walmart has to return to the front-end user.
 - Refund Shipping Cost:** Shipping cost applicable to the returned product.
 - Refund Shipping tax:** Shipping tax applicable to the returned product.
 - Refund Feedback:** Feedback of merchant on the returned product.
 - Refund Reason:** Reason why the front-end user has returned the product.
- Click the **Submit Refund** button.

9. Developer

In the Developer section, the seller may take manage the following three sections:

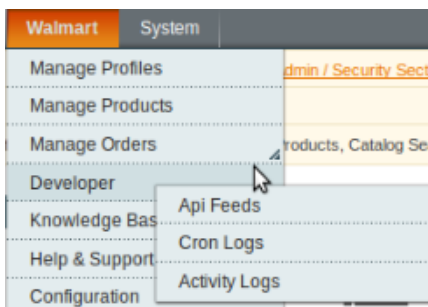

- API Feeds(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=product-feeds-3>)

- Cron Details(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=walmart-cron-details-2>)
- Cron Status(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=cron-status-2>)
- Activity Logs(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=walmart-logs>)

9.1. API Feeds

To view product feeds status

- Go to **Magento Admin Panel**.
- On the top navigation bar, point cursor on the **Walmart** menu, and then on **Developer**. Now click on **API Feeds**.

The **Walmart Feed Details** page appears as shown in the following figure:

- Do the required one from the following tasks:
 - View the status of the feed in the **Feed Status** column.
 - To synchronize the feeds between Walmart and Magento, click the **Sync Feeds** button. Or
Select the check box associated with the product and submit the **Sync Feed** action.
 - To delete the feed, select the check box associated with the product and submit the **Delete Feed** action.

- To view the product feed error, click the **Error** button.

Note: If the Success button appears in the **Feed Errors** column of the corresponding feed, then it means that the product is successfully synchronized with Walmart.

Note: The user can also view the detailed error report from Walmart seller panel.

To view product feed status on Walmart seller panel

- Go to the **Walmart** seller panel.
 - In the left navigation menu, click **Feed Status**.
- The page appears as shown in the following figure:

Feed Status

ITEM FEED INVENTORY FEED PRICE FEED PROMO FEED

You can view your Item Feed statuses below. If any of your feeds have errors listed in the Error column, fix the error and reupload your feed.

Feed ID	Date	Status	Submitted	Processed	Pending	Errors	Error File

6AED554253854C6795CD3F7C409FD6...	3/16/17	Processed	20	20	0	0	Download Errors

- In the **Error File** column, click the **Download Errors** link associated with the required product feed.
- Fix the errors, if any.
- Re-upload the product feed.

9.2. Walmart Cron Details

The **Walmart Cron Details** page displays all the Cron details scheduled in Walmart.

To view the Walmart Cron details

1. Go to **Magento Admin Panel**.
2. On the **Walmart** menu, go to **Developer** and then click **Cron Logs**.

The **Walmart Cron Details** page appears as shown in the following figure:

Walmart Cron Details-

9.3. Cron Status

The updated status appears as mentioned in the following table:

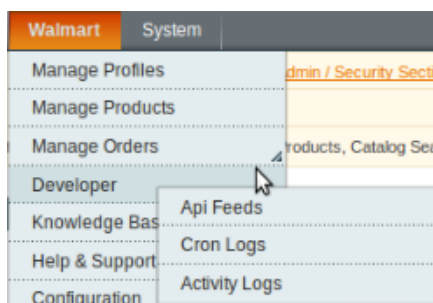

Activity	Time Required for Updating (min)	
Order Creation	Every 10 minutes	
Feeds Sync	Every 1 day	
Inventory Sync	Every 15 Minutes	
Price Sync	Twice a Day	

9.4. Activity Logs

Admin can view and delete the Walmart log details on the **Walmart Log Details** page.

To view the Walmart log details

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Walmart** menu, and then point to the **Developer** menu. The menu appears as shown in the following figure:

- Click **Activity Logs**. The **Walmart Log details** page appears as shown in the following figure:

Walmart Log Details							Truncate
Page 1 of 1 pages View 20 per page Total 5 records found							Reset Filter Search

Note: To clear all the failed import order logs at once, click the **Truncate** button.

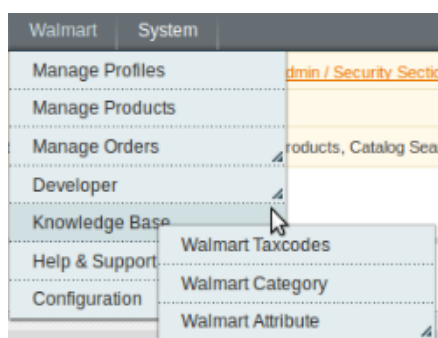

To delete Walmart log details

1. Go to the **Walmart Log Details** page.
 2. Select the check-boxes associated with the logs that the admin wants to delete.
 3. In the **Actions** list, select **Delete Records**, and then click the **Submit** button.
- The log records are deleted and a success message appears.

10. Walmart Knowledge Base

In the Knowledge Base section, you may see the sections as shown in the figure below:

- Walmart Taxcodes(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=walmart-taxcodes-2>)
- Walmart Category(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=manage-walmart-category>)
- Walmart Attribute(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=manage-walmart-attributes>)

10.1. Walmart Taxcodes

The **Walmart Product Taxcodes** page displays all the sales tax codes that the merchant needs for items and shipping. Sales tax codes help Walmart to collect the proper sales tax from the merchant so that the merchant can remit to the proper tax authorities.

Note: Walmart does not provide tax advice to merchants, not even advises which code to select for their items. Consult the tax advisor for more guidance on which tax code to select.

To view the Walmart product tax codes

1. Go to **Magento Admin Panel**.
 2. On the **Walmart** menu, point to **Knowledge Base** and click **Walmart Taxcodes**.
- The **Walmart Product Taxcodes** page appears as shown in the following figure:

Id	Walmart Tax Code	Category Description	Sub Category Description
4985	2049946	Compostable Plastic Bag provided free of charge by a restaurant in connection with a sale of a taxable meal. Code assumes vendor elects to report any assessed bag fee on their meals tax return when applicable (MA)	Food and Beverages for Immediate Consumption and Related Charges - Carrying Applicable Sales Tax and Meals Tax Rules
4984	2049945	Recyclable Paper Bag provided free of charge by a restaurant in connection with a sale of a taxable meal. Code assumes vendor elects to report any assessed bag fee on their meals tax return when applicable (MA)	Food and Beverages for Immediate Consumption and Related Charges - Carrying Applicable Sales Tax and Meals Tax Rules
4983	2049944	Sale of a prepared food item (not containing raw egg) that is not in a "ready to eat" state, sold by an entity primarily in the business of offering food for immediate consumption (e.g. pizza dough sold by a pizzeria)	Food and Beverages for Immediate Consumption and Related Charges - Carrying Applicable Sales Tax and Meals Tax Rules
4982	2049943	Sale of Beer – less than or equal to 2.56% ABW/3.2% ABV where the seller holds an intoxicating liquor license (MN)	Food and Beverages for Immediate Consumption and Related Charges - Carrying Applicable Sales Tax and Meals Tax Rules
4981	2049942	Sale of Beer – greater than 2.56% ABW/3.2% ABV but less than or equal to 5% ABW/6.335% ABV	Food and Beverages for Immediate Consumption and Related Charges - Carrying Applicable Sales Tax and Meals Tax Rules
4980	2049941	Sale of Beer – less than or equal to 2.56% ABW/3.2% ABV where the seller holds a 3.2% malt liquor license (MN)	Food and Beverages for Immediate Consumption and Related Charges - Carrying Applicable Sales Tax and Meals Tax Rules
4979	2049937	Automotive aerosol paint in 2-pack containers sold to an auto repair shop. The seller must have received necessary documentation/information supporting a claim of exemption. If required by the jurisdiction, this code presumes the charge for paint is separately stated on the customer's invoice from the repair shop	Construction Materials

10.2. View Walmart Category

The user has to Map Walmart Category to Magento Category to upload products on Walmart admin panel.

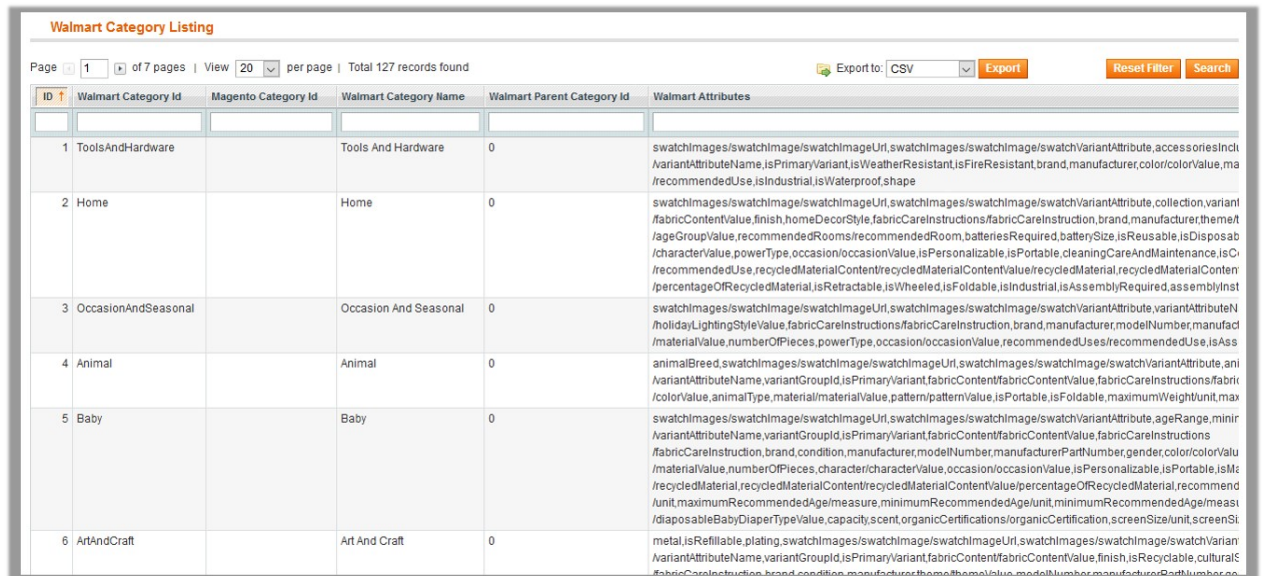

To view the Walmart categories to the Magento categories

- Go to **Magento Admin Panel**.
 - On the top navigation bar, point to the **Walmart** menu, and then point to the **Knowledge Base** menu.
- The menu appears as shown in the following figure:

- Click **Walmart Category**.

The **Walmart Category Listing** Page appears as shown in the following figure:

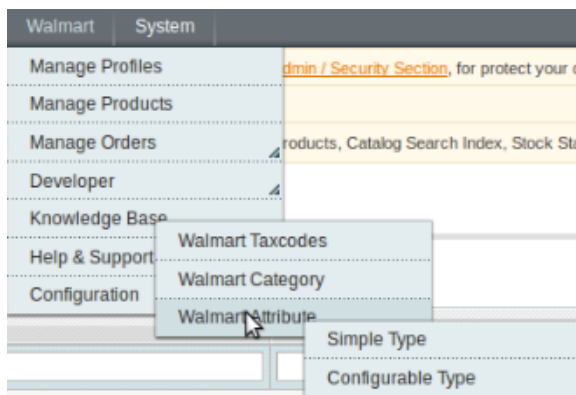

ID	Walmart Category Id	Magento Category Id	Walmart Category Name	Walmart Parent Category Id	Walmart Attributes
1	ToolsAndHardware		Tools And Hardware	0	swatchImages/swatchImage/swatchImageUrl,swatchImages/swatchImage/swatchVariantAttribute,accessoriesIndi VariantAttributeName,isPrimaryVariant,isWeatherResistant,isFireResistant,brand,manufacturer,color/colorValue,ma /recommendedUse,isIndustrial,isWaterproof,shape

On this page all the Walmart Categories details are listed.

10.3. View Walmart Attributes

The View Walmart Attribute menu has the following two sub-menus:

- Simple type Attribute(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=simple-type-attribute-2>)
- Configurable type Attribute(<https://docs.cedcommerce.com/magento/walmart-integration-for-magento-store-user-guide/?section=configurable-type-attribute-2>)

10.3.1. Simple Type Attribute

A simple type attribute consists of all the list of attributes associated with the simple product.

To view Walmart simple type attributes

- Go to **Magento Admin Panel**.
- On the **Walmart** menu, point to **Knowledge Base**, and then point to **Walmart Attribute**, and then click **Simple Type**.

The **Attribute Management** page appears as shown in the following figure:

Attribute Management		
Page 1 of 47 pages View 20 per page Total 934 records found		
Reset Filter Search		
Id	Walmart Attribute Name	Walmart Attribute Enum/Values
510	apparelCategory	Young Men's,Maternity Plus,School Uniforms,Men's Big Tall,Women's Plus,Petites,Maternity Wear,Newborn Girl,Boys,Baby Boy,Girls,Baby Girl,Newborn Boy,Juniors,Women,Men
4949	productIdentifiers/productIdentifier /productIdType	UPC,GTIN,ISBN,JSSN,EAN
398	gender	Unisex,Women,Men,Boys,Girls
1279	jewelryStyle	Religious,Fashion,Fine
1380	mpaaRating	PG,PG-13,G,R,NC-17,Unrated,Not Rated
804	esrbRating	Pending,Adults Only,Everyone 10+,Everyone,Mature,Teen,Early Childhood,Unrated,Not Rated
799	monochromeColor	Monochrome,Color
725	clothingSizeType	Junior Plus,Petite Plus,Big Tall,Plus,Juniors,Regular,Big,Husky,Slim,Tall,Petite
821	internalExternal	Internal,External
1371	fictionNonfiction	Fiction,Nonfiction

All the Simple Type Walmart Attribute details are listed.

10.3.2. Configurable Type Attribute

A configurable type attribute consists of all the list of attributes associated with the configurable products.

To view Walmart configurable type attributes

- Go to **Magento Admin Panel**.
- On the **Walmart** menu, point to **Knowledge Base**, and then point to **Walmart Attribute**, and then click **Configurable Type**.

The **Configurable Attribute Management** page appears as shown in the following figure:

Configurable Attribute Management			
Page 1 of 4 pages View 20 per page Total 68 records found			
Reset Filter Search			
Id	Walmart Attribute Name	Walmart Attribute Doc	Walmart Attribute Enum/Values
1	color	Color value as provided by the manufacturer. Example: Aqua; Burgundy; Mauve; Fuchsia	
2	size	Example: S; M; L; 2; 4; 6	
3	flavor	Example: Chicken Lamb; Bacon; Beef Liver; Tuna	
4	scent	Descriptive term for fragrance. Example: Vanilla; Geranium; Rose	
5	assembledProductLength	Dimensions referring to the item as it is out of the box and assembled. Example: 5 in; 2 ft; 2.5 ft	
6	assembledProductWidth	Dimensions referring to the item as it is out of the box and assembled. Example: 5 in; 2 ft; 2.5 ft	
7	assembledProductHeight	Dimensions referring to the item as it is out of the box and assembled. Example: 5 in; 2 ft; 2.5 ft	
8	shape	Physical shape of the item. Example: Aviator; Cateye; Horned; Oval; Rectangle; Round; Square; Wayfarer	
9	material	Material makeup of the item. Fabric materials should be entered using the "Fabric Content" attribute. Example: Nickel; Metal; Plastic	
10	finish	Overall finish of the item. Example: Natural; Unfinished; Brown; Espresso; Oak	
11	babyClothingSize	Example: S; M; L; 2; 4; 6	

All the Configurable Type Walmart Attribute details are listed.

11. Walmart Help & Support

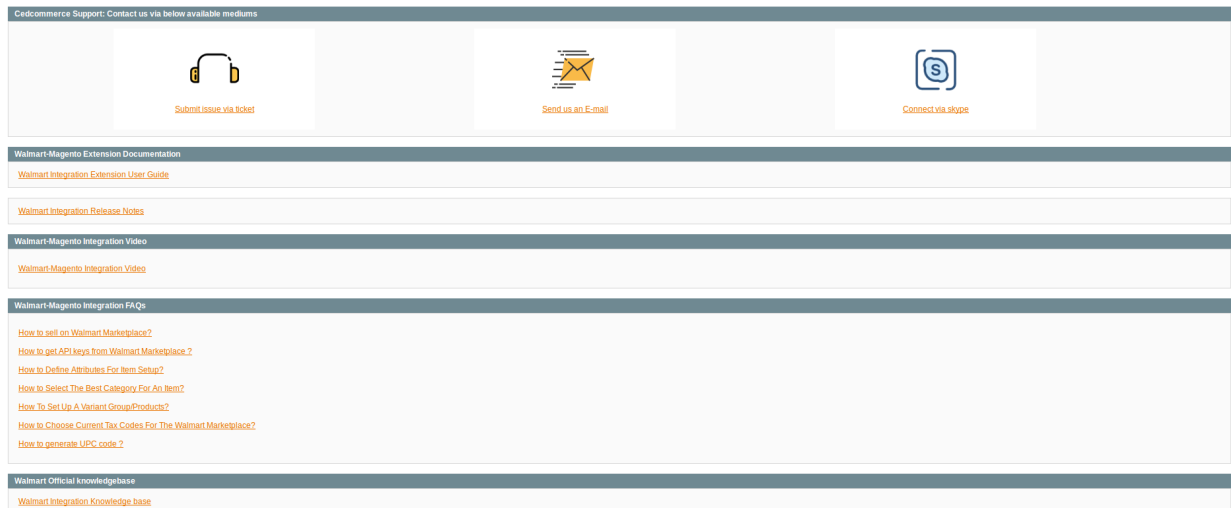

This page displays a knowledge base link to view and understand the working of the extension properly and get

the clarifications on Walmart-Magento Integration.

To view the Help & Support

- Go to Magento Admin Panel.
- On the Walmart menu, click **Help & Support**.

The page appears as shown in the following figure:

On this page of the Admin panel, the following links are available:
