1. Overview

Founded in 2009, Houzz is headquartered in Palo Alto, California(https://en.wikipedia.org/wiki/Palo_Alto,_California)

. **Houzz** is a website and online community about architecture, interior design and decorating, landscape design and home improvement. In other words, Houzz is a marketplace where the consumers can find the ultimate collection of furniture, Kitchen and Tabletop, Bed and Bath, and so on.

The Houzz Integration for Magento 2 extension helps admin to synchronize the orders, products, pricing, and inventory through establishing the interaction between the **Houzz** API and the Magento 2 store.

The Magento 2 store owner can also manage the **Houzz** orders on the Magento 2 stores without making any significant changes in the operational functionalities.

The most important feature is that it enables the users to create the **Houzz** Categories and its dependent attributes in the Magento 2 store. Thus, it enables the admin to configure the desired product category to the Magento 2 store for automatic submission of the selected product to the same category on **Houzz.com**.

Key Features are as follows:

-
- **Profile-based product Upload:** Admin can create a profile and map the *Houzz* category and attributes to the Magento 2 category and attributes, and then after assigning the products to the profile can easily upload products to the *Houzz Website*.
-
- **Low Stock Notifications:** Whenever Stock diminishes lower than a threshold, notification is sent informing the status.
-
- **Rejected Products Notification:** If any product containing some invalid details is rejected by **Houzz.com**, then its information is fetched from the automatically synchronized requests along with the error due to which it is rejected.
- **New Order Notifications:** Whenever a new order is fetched from the **Houzz** website, the admin receives a notification.
-
- **Crons:** Cron job automates the process for Inventory, Price and Order management.
-
- **Easy Debug:** Easy debug process for hassle-free products upload on the **Houzz** website.
- **Synchronized Product Editing:** Besides adding the products, any product information changes made on the Magento 2 store reflects on the **Houzz.com**.
-
- **Creation of Magento 2 Orders:** The newly placed orders on **Houzz.com** are automatically created in the Magento 2 store with all the required details as it is on **Houzz.com**.

-

Bulk Upload System: The merchant has the flexibility to upload any number of products on the **Houzz** Website using bulk product upload feature.

-

Synchronized Inventory and Profile Based Pricing: Inventory Synchronization at regular intervals. product Listing is established between Magento 2 and **Houzz.com**. Profile-based price increase or decrease.

2. Houzz Integration for Magento 2 Installation

To install the extension

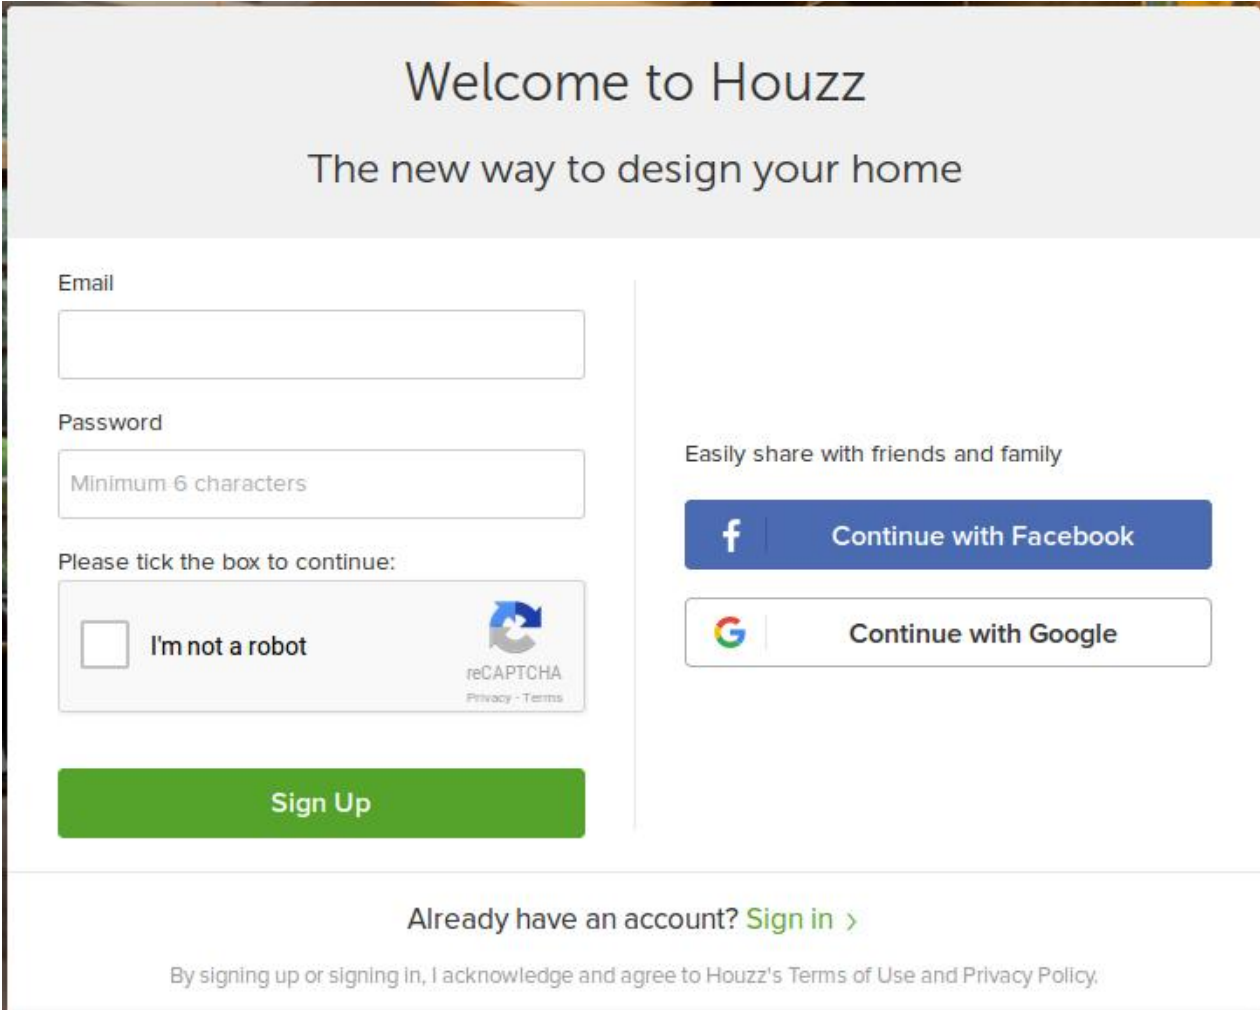

1. Log in the **ftp**, and then go to Magento 2 root folder (generally present under the [public_html](#) folder).
2. Create a new folder named [code](#) under the [app](#) folder; under [code](#) folder, create a folder named [Ced](#).
 - a. Upload or Drag and Drop [app/code/Ced/Houzz](#) directory.
 - b. After successfully uploading the directory, the extension will be installed/upgraded.
 - c. Now run the following upgrade command in [cmd](#)
[php bin/magento setup:upgrade](#).

3. Retrieve API Credentials from Houzz

Once the extension is successfully installed on the Magento 2 store, the **HOUZZ INTEGRATION** menu appears on the left navigation bar of the Magento 2 Admin Panel. The merchant has to enter the **API Key details** on the **Houzz Configuration** page of the admin panel.

To retrieve API Key Details from the Houzz

1. Go to the Sell on Houzz.com(<https://www.houzz.com/in/signup>) link.
The page appears as shown in the following figure:

The image shows the Houzz sign-up page. At the top, it says 'Welcome to Houzz' and 'The new way to design your home'. Below this, there are input fields for 'Email' and 'Password'. The password field has a hint 'Minimum 6 characters'. To the right of the password field, it says 'Easily share with friends and family' and provides two buttons: 'Continue with Facebook' and 'Continue with Google'. Below the password field, there is a reCAPTCHA section with a checkbox labeled 'I'm not a robot' and a 'Sign Up' button. At the bottom, there is a link to 'Sign in' for existing users and a footer note about terms and privacy policy.

Welcome to Houzz

11. Enter the required information in the following fields:
 - **What can we help you with today?:** Select **Other**.
 - **Your email address:** Enter the registered Email Id.
 - **Subject:** Enter the subject as “*Need SSL Token and APP Name*”.
 - **Description:** Enter the mail content to request for the *Houzz SSL Token and App Name*. In the content, mention the **Registered Email Id**, **Public Profile Link**, and the provided **Website Id**.
12. Enter the values in the other required fields and then click the **Submit** button.

The ticket is raised and the request is submitted. After receiving the API keys, continue further to set up the Houzz Configuration Settings.

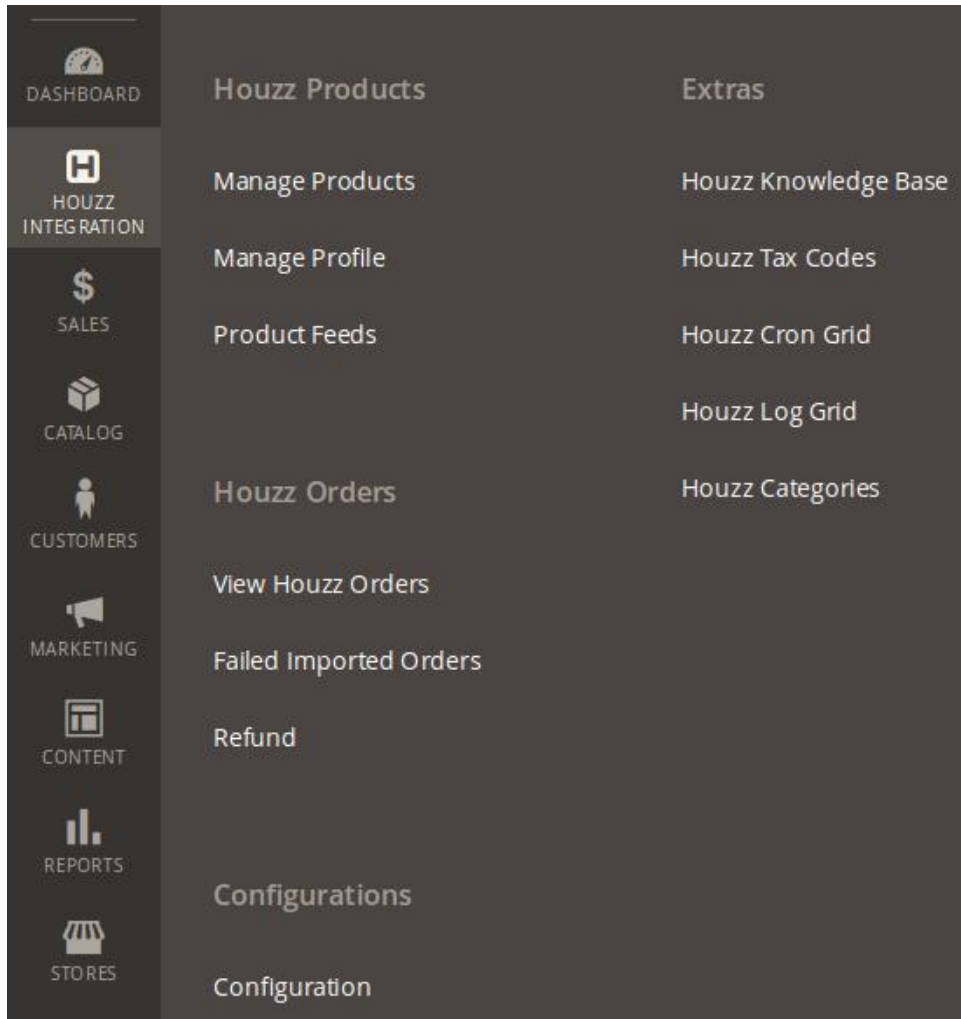

4. Houzz Configuration Settings

After obtaining the **API credentials** from the Houzz Seller account, the Magento 2 store owner has to paste them in the respective fields displayed on the **Houzz Configuration** page of the admin panel.

To set up the configuration settings in the Magento 2 Admin panel

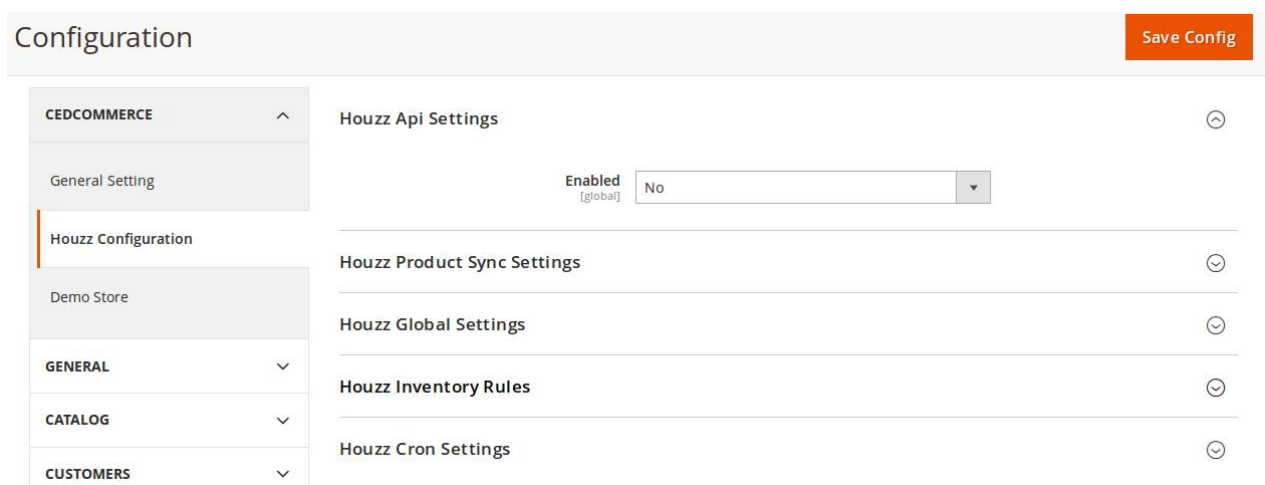

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **HOUZZ INTEGRATION** menu.

The menu appears as shown in the following figure:

3. Click **Configuration**.

The page appears as shown in the following figure:

4. In the right panel, under **Houzz Api Settings**, do the following steps:

- a. In the **Enabled** list, select **Yes** to enable the extension features.

The other relevant fields appear as shown in the following figure:

Houzz Api Settings

Enabled [global]	Yes ▼
API Token [global]	<input type="text"/>
API Username [global]	<input type="text"/>
API App Name [global]	<input type="text"/>
Debug Log [global]	No ▼

- b. In the **API Token** box, paste the SSL Token provided by Houzz.
- c. In the **API Username** box, paste the username provided by Houzz.
- d. In the **API App Name** box, paste the App name provided by Houzz.
- e. In the **Debug Log** list, select **Yes** to start Houzz Integration in the debug mode.
It captures the log for the debug process.

5. Click the **Save Config** button to save the entered values.

6. Scroll down to the **Houzz Product Sync Settings** tab, and then click the tab.

The section appears as shown in the following figure:

Houzz Product Sync Settings

Select Store [global]	Default Store View ▼
---------------------------------	----------------------

7. Under **Houzz Product Sync Settings**, do the following step:

- In the **Select Store** list, select the required store.

8. Scroll down to the **Houzz Global Settings** tab, and then click the tab.

The section appears as shown in the following figure:

Houzz Global Settings

Please set the global settings for Houzz.com

Houzz Product Price
[global]

Default Magento Price ▼

Select to send a different product price to **houzz.com**

Inventory Fullfillment Lag Time
[global]

1

Days to fulfill the Inventory on **out of stock**

Product Tax Code Value
[global]

Category Wise Tax Code for Category **Animal** to be applied on each product for **houzz.com**

Select Taxcode

Houzz Order Id Prefix
[global]

Prefix for Houzz Increment ID

Houzz Product Id Override
[global]

Enabled	Region	Method	Magento Attribute Code	Action
Add Rule				

9. Under **Houzz Global Settings**, do the following steps:

a. In the **Houzz Product Price** list, select one of the following options:

- \. **Increase by Fixed Price**: If selected, then the **Modify by Fix Price** field appears.
- \. **Increase by Fixed Percentage**: If selected, then the **Modify by Percentage Price** field appears.
Enter the numeric value to increase the price of the Houzz, product price by the entered value % of Magento price
For Example,
Magento price + 5% of Magento price.
Magento Price = 100
Select **Increase By Fixed Percentage** option
Enter Percentage = 5
 $100 + 5\% \text{ of } 100 = 100 + 5 = 105$
Thus, Houzz Product Price = 105
- \. **Decrease by Fixed Price**: If selected, then the **Modify by Fix Price** field appears.
- \. **Decrease by Fixed Percentage**: If selected, then the **Modify by Percentage Price** field

appears.

Enter the numeric value to decrease the price of the Houzz product price by the entered value % of Magento price

For Example,

Magento price – 5% of Magento price.

Magento Price = 100

Select **Decrease By Fixed Percentage** option

Enter Percentage = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Houzz Product Price = 95

- b. In the **Inventory Fulfillment Lag Time** box, enter the required value.
Enter the numeric value for the fulfillment lag time provided with the number of days to fulfill the inventory when **out of stock**.
- c. In the **Product Tax Code Value** box, enter the 7 digit product tax code.
OR
Click the **Select Taxcode** button to select the required tax code.
- d. In the **Houzz Order ID Prefix** box, enter the required prefix value.
For instance, enter **HZ-** for **HZ-10001**.
- e. In the **Houzz Product Id Override** list, select **Enable** to change the UPC/GTIN of any product previously uploaded on Houzz if required.
- f. In the **Houzz Product SKU Override** list, select **Enable** to change an SKU for an existing product on Houzz if required.
- g. In the **Shipping Settings** area, click the **Add Rule** button.
The Grid appears as shown in the following figure:

Shipping Settings [global]

Enabled	Region	Method	Magento Attribute Code	Action
Yes ▼	▼	STAI ▼	--pl ▼	
Add Rule				

- i. In the **Enabled** list, select **Yes** to enable the rule.
 - ii. In the **Region** list, select the required region.
 - iii. In the **Method** list, select the required method.
 - iv. In the **Magento Attribute Code** list, select the required code.
 - v. Click the **Add Rules** to add more rules if required.
 - vi. To delete the rule, click the corresponding **Delete** button.
10. Click the **Save Config** button to save the entered values.
 11. Scroll down to the **Houzz Inventory Rules** tab, and then click the tab.
The tab is expanded and the relevant field appears as shown in the following figure:

Houzz Inventory Rules

Set Inventory on Basis of Threshold [global] 

Choose yes to send inventory on houzz by condition

12. Under **Houzz Inventory Rules**, do the following steps:

- In the Set Inventory on Basis of Threshold list, select Enable to send the inventory based on the threshold.

Note: Only when the admin selects **Enable**, the other fields appear. Threshold Inventory is the minimum count of an item that the store owner wants to keep in stock.

The section appears as shown in the following figure:

Houzz Inventory Rules

Set Inventory on Basis of Threshold [global] 

Choose yes to send inventory on houzz by condition

Inventory Threshold Value [global]

Set inventory quantity on which lesser and greater condition can control.

Send Inventory for Lesser Than Threshold Case [global]

Send Quantity to Houzz for those products, whose inventory is LESSER than the inventory threshold.

Send Inventory for Greater Than Threshold Case [global]

Send Quantity to Houzz for those products, whose inventory is GREATER than the inventory threshold.

- In the **Inventory Threshold Value** box, enter the required value.

- In the **Send Inventory for Lesser Than Threshold Case** box, enter the required value.

- In the **Send Inventory for Greater Than Threshold Case** box, enter the required value.

13. Click the **Save Config** button to save the entered values.

14. Scroll down to the **Houzz Cron Settings** tab, and then click the tab.

The tab is expanded and the relevant field appears as shown in the following figure:

Houzz Cron Settings

Houzz Order Cron [global]	Enable	▼
	Order Fetch Cron	
Houzz Price Cron [global]	Enable	▼
	Price Sync Cron	
Houzz Inventory Cron [global]	Enable	▼
	Inventory Sync Cron	
Houzz Shipment Cron [global]	Enable	▼
	This will automatically generate	

15. Under **Houzz Cron Settings**, do the following steps:
 - a. In the **Houzz Order Cron** list, select Enable to enable the fetch order cron.
 - b. In the **Houzz Price Cron** list, select Enable to enable the Price Sync cron.
 - c. In the **Houzz Inventory Cron** list, select Enable to enable the Inventory Sync cron.
 - d. In the **Houzz Shipment Cron** list, select Enable to automatically generate the cron.
16. Click the **Save Config** button.

5. Manage Houzz Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento 2 attributes to the Houzz attributes. These attributes are applicable to all the products that are assigned to the profile.

Admin can do the following tasks:

- Add new profile(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=add-a-new-profile-12>)
- Edit the existing profile(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=edit-the-existing-profile-21>)
- Delete the profiles(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=delete-the-profiles-8>)
- Enable or Disable the Selected Profiles(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=enable-or-disable-the-selected-profiles>)
- Manage the Product Assigned to the Profile(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=manage-products-20>)

5.1. Add A New Profile

To add a new profile

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **HOUZZ INTEGRATION** menu, and then click **Manage Profile**.
The **Manage Profile** page appears as shown in the following figure:

Manage Profile

Category Mapping

Root Level Category * Aprons ▼

Search Category

7. Under **Category Mapping**, do the following steps:

- In the **Root Level Category** list, select the required category to map.

OR

In the **Search Category** box, enter the category initials to search for the required category.

A list appears with the suggested categories, select the required one. Once selected the category appears in the **Root Level Category** field.

8. Scroll down to the **Houzz / Magento Attribute Mapping (Required/Optional mapping)** section.

9. Under **Houzz / Magento Attribute Mapping (Required/Optional mapping)**, do the following steps:

- In the **Magento Catalog Attribute** column, select the required Magento attribute from the corresponding list to map it with the corresponding Houzz attribute.

Note: In case the required attribute does not exist in the corresponding list, then select **-Set Default value-** from the corresponding list. A text box appears in the Default Value column next to corresponding **Magento Catalog Attribute** column such as shown in the following figure:

Houzz / Magento Attribute Mapping (Required/Optional mapping)

Houzz Attribute	Magento Catalog Attribute	Default Value	Action
title ▼	news_to_date ▼		
description ▼	description ▼		
sku ▼	sku ▼		
upc ▼	houzz_upc ▼		
price ▼	--Set Default Value-- ▼	350	
▼	--please select-- ▼		Delete

Add Attribute

- Repeat the mapping of all the required or optional Magento attributes listed with the corresponding Houzz attributes.

- Click the **Add Attribute** button to add more attributes.

10. Click the **Save and Continue Edit** button.

11. In the left navigation panel, click the **Profile Products** menu.
In the right panel, the page appears as shown in the following figure:

The screenshot shows the 'Profile Products' page. On the left, the 'Profile Products' menu item is highlighted. The main content area shows a search bar with 'Search' and 'Reset Filter' buttons. Below the search bar, it says '0 records found'. A table with 8 columns is visible: Product Id, Product Name, Type, Vendor Status, Attrib. Set Name, SKU, and two empty columns. The table is currently empty, and a message at the bottom says 'We couldn't find any records.'

Since no products are assigned to the profile, there are no products listed in the table.

12. Click the **Reset Filter** link.
All the products are listed in the table as shown in the following figure:

The screenshot shows the 'Profile Products' page with 179 records found. The table has 8 columns: Product Id, Product Name, Type, Vendor Status, Attrib. Set Name, SKU, and two empty columns. The table contains 4 rows of product data.

	Product Id	Product Name	Type	Vendor Status	Attrib. Set Name	SKU	SKU
<input type="checkbox"/>	1	Joust Duffle Bag	Simple Product	Enabled	Bag	24-MB01	\$34.00
<input type="checkbox"/>	2	Strive Shoulder Pack	Simple Product	Enabled	Bag	24-MB04	\$32.00
<input type="checkbox"/>	3	Crown Summit Backpack	Simple Product	Enabled	Bag	24-MB03	\$38.00
<input type="checkbox"/>	4	Wayfarer Messenger Bag	Simple Product	Enabled	Bag	24-MB05	\$45.00

13. In the right panel, do the following step:
- Select the check boxes associated with the required products those the admin wants to assign to the new profile.
- Note:** Admin can assign one product to one profile only. It means, admin can assign multiple products to the same profile but can associate a product only with one profile at one time. To assign a product to another profile, the admin has to remove that product from the currently assigned profile.

14. Click the **Save Profile** button.

The created profile is saved and listed on the **Manage Profile** page.

Or

Click the **Save and Continue Edit** button to save the created profile and continue editing, if required.

Or

Click the **Save and Manage Product** button to save the profile and make ready to upload the product on Houzz.

The assigned products are listed on the **Manage Products** page as shown in the following figure:

On this page, all the available profiles are listed.

- Select the check boxes associated with the required profiles.
- In the **Actions** list, select the **Enable** option to enable the selected profiles or select the **Disable** option to disable the selected profiles.

The selected profiles are enabled or disabled based on the selected option.

6. Manage Products

This feature of the integration extension enables the admin to manage all the products available in the Magento 2 store and uploaded on Houzz.com.

Hence, after getting redirected to the **Manage Products** page from the **Manage Products** menu, the store owners can perform the similar tasks as they can perform on the **Manage Products** page after getting redirected from the **Manage Profile** page.

The only difference here is the display of the products on the **Manage Products** page. The differences are mentioned below:

- **Display of the Products on the Manage Products page after getting redirected from the Manage Profile page:** Only those products that are assigned to the selected profile are listed.
- **Display of the Products on the Manage Products page after getting redirected from the Manage Products menu:** All the products of all the profiles are listed.

Hence, there are two ways to open or go to the Manage Products page:

Option 1: Through the **Manage Profile** page:

1. On the left navigation bar, click the **HOUZZ INTEGRATION** menu, and then click **Manage Profile**. The **Manage Profile** page appears as shown in the following figure:

Manage Profile

Add New Profile

All the available products assigned to any profile are listed.

The admin can perform the following tasks on the Manage Products page:

- View and edit the product information(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=view-and-edit-the-product-information-4>)
- Upload a single product(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=upload-a-single-product-2>)

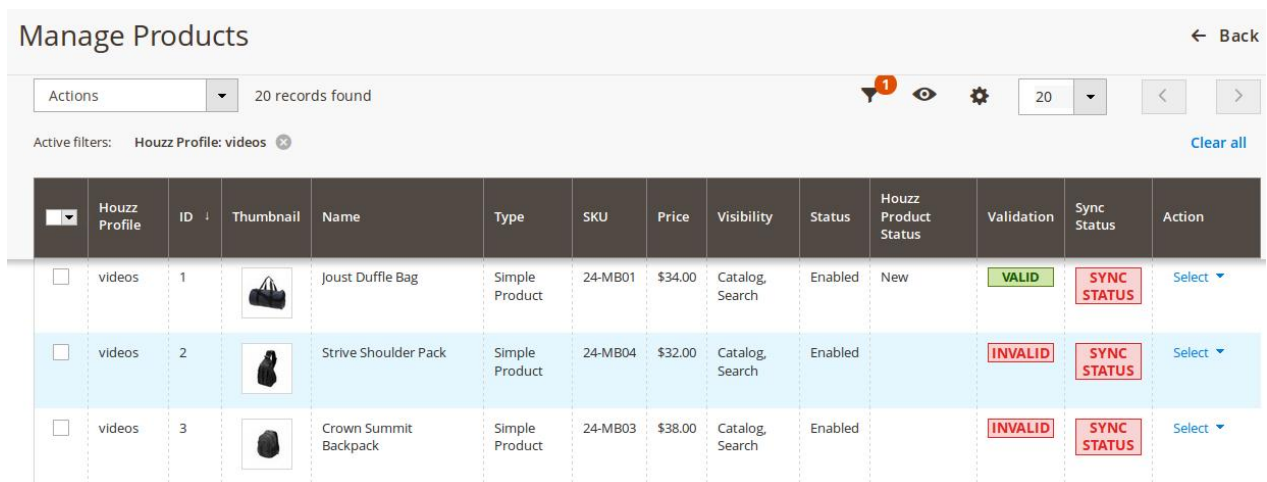

- Synchronize the status of the single product(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=synchronize-the-status-of-the-single-product>)
- View the validation error details if any error exists in any product details(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=view-the-validation-error-details-2>)
- Submit certain actions on the selected products(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=submit-certain-actions-on-the-selected-products-2>)

6.1. View and Edit the Product Information

To view and edit the product information

1. Go to the **Manage Products** page.

The **Manage Products** page appears as shown in the following figure:

	Houzz Profile	ID	Thumbnail	Name	Type	SKU	Price	Visibility	Status	Houzz Product Status	Validation	Sync Status	Action
<input type="checkbox"/>	videos	1		Joust Duffle Bag	Simple Product	24-MB01	\$34.00	Catalog, Search	Enabled	New	VALID	SYNC STATUS	Select ▾
<input type="checkbox"/>	videos	2		Strive Shoulder Pack	Simple Product	24-MB04	\$32.00	Catalog, Search	Enabled		INVALID	SYNC STATUS	Select ▾
<input type="checkbox"/>	videos	3		Crown Summit Backpack	Simple Product	24-MB03	\$38.00	Catalog, Search	Enabled		INVALID	SYNC STATUS	Select ▾

2. Scroll down to the required product.
3. In the **Action** column, click the **Select** link associated with the required product.

The menu appears as shown in the following figure:

4. Click **Edit**.

The selected product information page appears as shown in the following figure:

6.5. Submit Certain Actions on the Selected Products

Admin can submit the following actions for the selected products:

- **Validate Products:** To validate the product before uploading it to the Houzz.com. It displays the corresponding validation error if any. If there is no error, it confirms that the product is ready to upload.
- **Validate And Upload Products:** To validate the product before uploading it on the Houzz.com. It displays the corresponding validation error for all the products if any. If there is no error, then it validates the selected products and then uploads them to the Houzz.com.
- **Sync Product Status:** To get the request from Houzz to update the status of the products in the Magento store. It helps the user to view the status of the product, unpublished, transmit, data fix, system error, or so on.
- **Update Inventory:** Updates the inventory of the product on Houzz.com. This action completes all the job related to the product inventory and also it manages the quantity related issues.
- **Active On Houzz:** Activates all the validated products on Houzz at one time in a bulk. It means the user can activate all the validated products on a single click.
- **Inactive On Houzz:** Inactivates all the validated products on Houzz at one time in a bulk. It means the user can inactivate all the validated products on a single click.

To submit actions for the selected products

1. Go to the **Manage Products** page.
The **Manage Products** page appears as shown in the following figure:

- Do the required one of the following tasks:
 - View the status of the feed in the **Feed Status** column.

- To delete the feed, select the checkbox associated with the product and submit the **Delete Feeds** action.
- To view the product feed error, click the **Error**

button or to view the details of the feed, click the

button.

A feed error appears as shown in the following figure:

Feeds Errors ×	
SKU	Errors
24-MB01	ErrorCode: 25103 ShortMessage: Listing Already Exists LongMessage: A listing with this SKU already exists.

Note: If the feed detail is not available, then the

button appears.

- To download the **Feed File**, click the respective **filename** link appearing in the **Feed File** column.

8. Manage Houzz Orders

The admin can manage the Houzz.com orders and can perform the following tasks:

- View Houzz Orders(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=fetch-and-view-the-orders-details-2>)
- View Failed Imported Orders(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=view-houzz-failed-orders-2>)
- Refund Management(<https://docs.cedcommerce.com/magento-2/houzz-magento-2-integration-guide-0-0-1?section=refund-management-2>)

8.1. Fetch and View the Orders Details

The user can fetch and view all the order details fetched from **Houzz**.

To fetch and view Houzz Orders

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **HOUZZ INTEGRATION** menu, and then click **View Houzz Orders**.

The **Orders Grid** page appears as shown in the following figure:

Orders Grid

Fetch New Orders

	Magento Order id	Merchant Order Id	Purchase Order Id	Order Place Date	Status	Deliver By	Entity Id
We couldn't find any records.							

3. Click the **Fetch New Orders** button.

If the order is imported successfully then, a new record is found in the **Orders Grid** table as shown in the above figure.

Notes:

- Orders are automatically imported through CRON in every 10 minutes.
- Whenever the latest orders are imported from **Houzz**, a Notification appears in the notification area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported into the Magento 2 admin panel.
- If no Order is imported, then check the Failed order log on the **Failed Orders Grid** page.
- Order are auto-rejected on **Houzz** in the following conditions:
 - When **Houzz** Product SKU does not exist in Magento 2.
 - When Product is Out of Stock in Magento 2.
 - When a product is disabled in Magento 2.

8.2. View Houzz Failed Orders

The users can view the list of failed Houzz orders on the **Failed Orders Grid** page.

In the following conditions, Orders are not imported from Houzz:

- If any product in the Houzz Order is Out of Stock in Magento 2.
- If any product in the Houzz Order is disabled in Magento 2.
- If any Product does not exist in Magento 2 or is deleted from Magneto after uploading to Houzz.
- If the selected Payment Method in Houzz System Configuration Setting is not available in Magento 2.

To view Houzz failed orders

- Go to the **Magento 2 Admin** panel.
- On the left navigation bar, click the **HOUZZ INTEGRATION** menu, and then click **Failed Imported Orders**.

The **Failed Orders Grid** page appears as shown in the following figure:

This page displays the failed orders with the order id and the reason for the failure.

8.3. Refund Management

If a front-end user returns the product or order directly to the merchant without the involvement of Houzz.com, then the merchant has to send a request on Houzz.com for completing this type of return.

To complete this type of return the merchant has to create a new refund.

To create a new refund

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **HOZZ INTEGRATION** menu, and then click **Refund**. The **Houzz Refund** page appears as shown in the following figure:

4. In the right panel, under View Refund, do the following steps:

- a. In the **Enter Merchant Order ID or Reference Order ID** box, enter a value.
- b. Click the **Fetch Order Info** button.

If the entered purchase order Id is correct, then the respective order details are displayed product-wise in the new sections as follows:

- `. **Refund id:** Refund id that the merchant receives from Houzz.com.
- `. **Refund Merchant Id:** Identification number of the merchant.
- `. **Order item id:** Identification number generated at the time of placing order.
- `. **Qty Requested:** Total number of items or product ordered in the current order.
- `. **Qty Already Refunded:** Items or product that have been already refunded to the front-end user.
- `. **Qty Available for Refund:** Number of items or product that can be refunded.
- `. **Qty Returned:** Number of items or product returned by the customer.
Note: Returned quantity should be less than or equal to the shipped quantity.
- `. **Qty Refunded:** Number of items or product that the merchant wants to refund.
Note: Refunded quantity should be less than or equal to the Returned quantity.
- `. **Refund tax:** Tax applied on the items or products returned.
- `. **Refund Amount:** Amount that Houzz has to return to the front-end user.
- `. **Refund Shipping Cost:** Shipping cost applicable to the returned product.
- `. **Refund Shipping tax:** Shipping tax applicable to the returned product.
- `. **Refund Feedback:** Feedback of merchant on the returned product.
- `. **Refund Reason:** Reason why the front-end user has returned the product.

3. Click the **Save** button.

9. Extras

The admin can view the following information:

- Houzz Knowledge Base
- Houzz Tax Codes
- Houzz Cron Grid
- Houzz Log Grid
- Houzz Categories

To view Houzz Knowledge Base

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **HOZZ INTEGRATION** menu, and then click **Houzz Knowledge Base**.

The **Houzz Knowledge Base** page appears as shown in the following figure:
