1. Overview

If you're a merchant who deals in DIY products, then ManoMano is a platform that can prove to be your key to success. To help you sell on ManoMano, CedCommerce brings to you the perfect solution. Read on to know more.

Founded in 2013, ManoMano is an online DIY marketplace that connects people directly to home improvement and gardening merchants. The business has 1.9 million customers across Europe and has 1.2 million products listed on its platform. It sells everything from sheds to cleaning tools.

The company operates in six countries across Europe including the UK, where it launched 18 months ago. It has racked up sales of £9 million in Britain since then. This online DIY marketplace has also raised €60 million (£54.6 million) to fuel expansion across Europe, with Britain being one of the top markets in its sights.

And to assist you sell on this marketplace, CedCommerce brings to you the **ManoMano Prestashop Integration** that will not only help you sell on ManoMano conveniently but will also render features that will make your business stand out.

Prestashop ManoMano Marketplace Integration connects the Prestashop store with the ManoMano Marketplace. Not only that, it also synchronizes the inventory, price, and other product details between the Prestashop store and ManoMano Marketplace.

Read on and discover its up-to-the-minute features to take your business to the soaring heights.

Key Features :

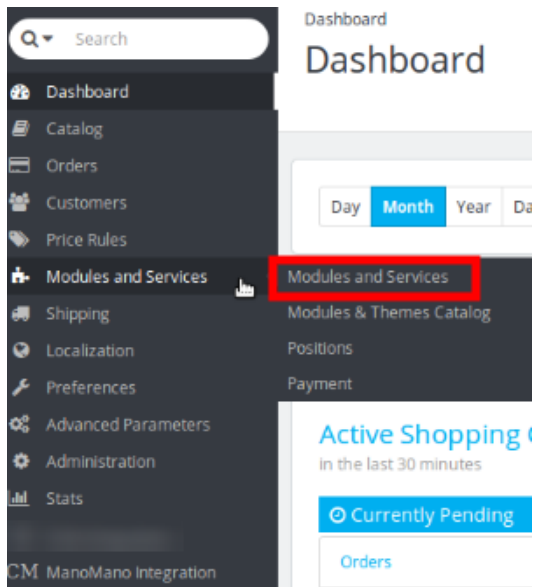

- **Price:** Real time synchronization of Price for every product between your Prestashop store and ManoMano marketplace.
- **Profile Based Product Upload:** This feature enables admin to create a profile, and after assigning products to the profile, products can easily be uploaded on ManoMano.com.
- **ManoMano Order Management::** All of your orders instantly get imported into Prestashop store from ManoMano marketplace.
- **Automated Inventory Updates:** No manual updating required. Automatic inventory updates are available with this extension, for better management.
- **Product Operation:** It allows admin to perform product related tasks such as product upload, and product view using bulk management system.

Move to the next section to know how can you start the integration process.

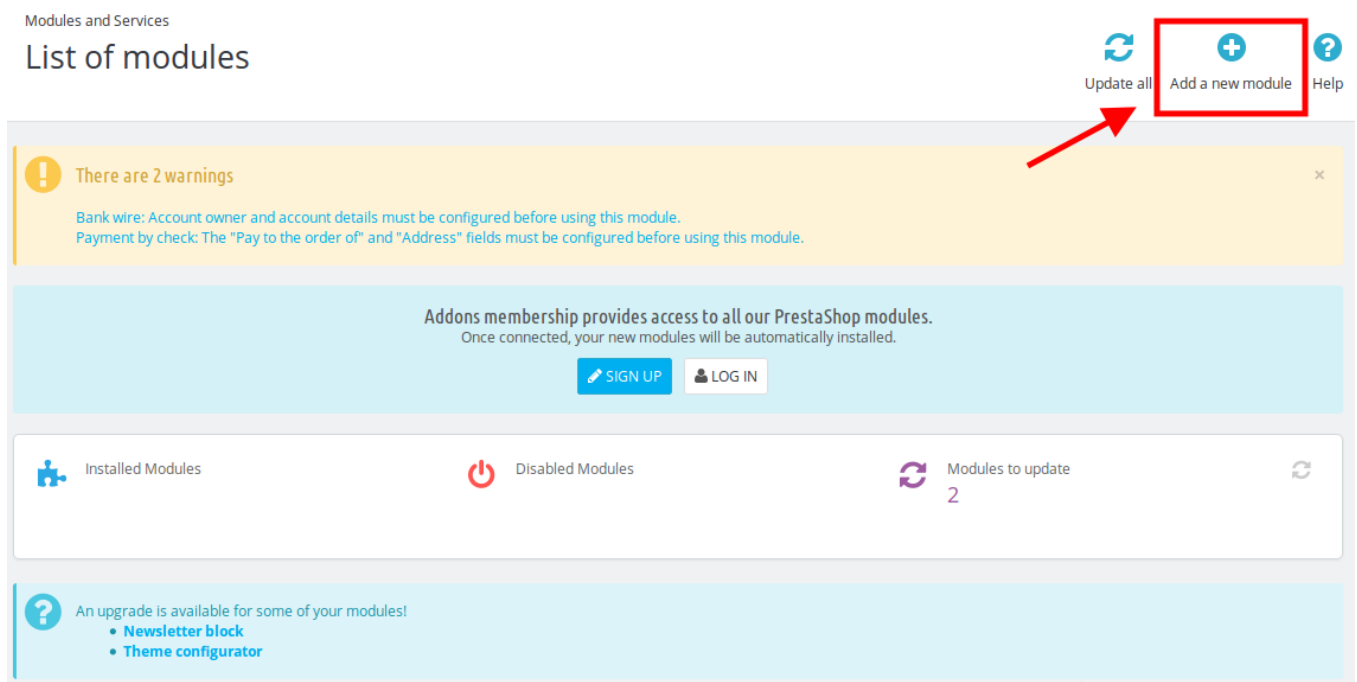

2. ManoMano Prestashop Integration Extension Installation

To install the extension:

- Go to the **Prestashop Admin panel**.
- On the left navigation bar, point cursor to the **Modules and Services**.
The menu appears as shown in the following figure:

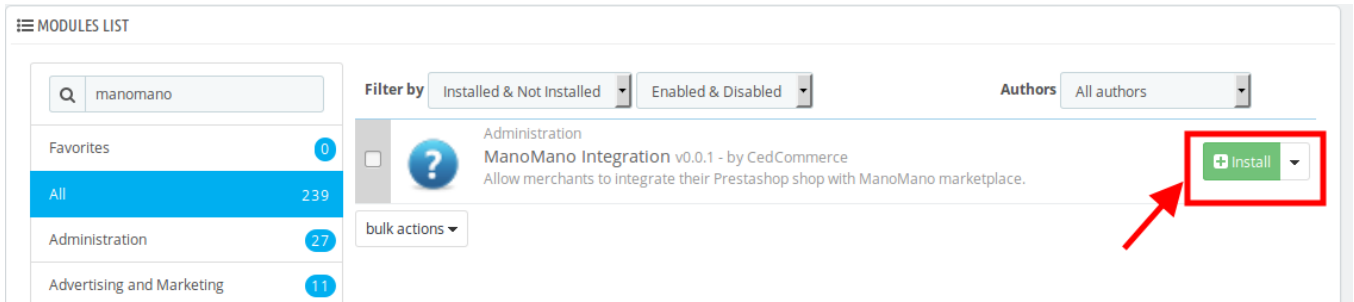

- You need to click the **Modules and Services** menu, and you will come across a page like shown below.

- Now click on the **Add a new module** as shown in the image above.
- On doing so, the page opens a section like shown in the image below:

- Now choose the package file of ManoMano marketplace from your system by clicking **Choose a file**.
- Once selected, click on the **Upload this module button**.
- On the same page, scroll down and in the Modules list, search for ManoMano and it will be listed in the right side like shown in the image below. You have to click on the **Install** button as shown in the image below:

- On clicking the **Install** button, you can see a message like shown below, on the same page, asking you if you wanted to proceed with the installation. You need to click on **Proceed with the installation**.

Important Notice

!

Do you want to install this module that could not be verified by PrestaShop?

This generally happens when the module isn't distributed through our official marketplace, PrestaShop Addons - or when your server failed to communicate with PrestaShop Addons.

You may take step by step actions as you will see below:

General Settings:

⚙️ GENERAL SETTINGS

Enable ☒ YES ☐ NO

Mode
The current environment in which all the request is to be process

* API Url

* User ID

* Password

Feed Url [Copy to clipboard](#)

Debug Mode ☒ YES ☐ NO

- Select **Yes** in the **Enable** part so that your module gets enabled.
- In the mode bar. You may select **Live** or **Sandbox** according to the need of your system.
- In the next bar of **API URL**, the URL gets filled itself in accordance with the mode that you select- Live or Sandbox.
- In the next two bars of **User Id** and **Password**, enter your ManoMano seller panel's user id and password.
- Next, you need to copy your **Feed URL** and enter it to your ManoMano seller panel.
- Select **Yes** in the **Debug Mode** if you want to enable the Debug Mode.

Product Settings:

⚙️ PRODUCT SETTINGS

Store Language
Language used for Module

Advance Pricing
Select the price variation if you want to send different product price at ManoMano

Auto Sync Inventory and Price By Cron ☒ YES ☐ NO
If enable then QUANTITY and PRICE will be automatically SYNCHRONIZED By Cron.

Update Inventory/Price on Product Edit. ☒ YES ☐ NO
Update inventory and price in product feed when you edit product in store .

Remove Product When deleted in Prestashop. ☒ YES ☐ NO
Remove product from product feed when you delete product in store .

- In the **Store Language**, select the language in for your module.
- In the **Advance Pricing**, you have the options to select the pricing to be reflected on ManoMano for your products, as shown below:

PRODUCT SETTINGS

Store Language: English (English)
Language used for Module

Advance Pricing: **Increase By Fixed Amount**
Default Prestashop Price
Increase By Fixed Amount
Decrease By Fixed Amount
Increase By Fixed Percentage
Decrease By Fixed Percentage

Fixed Amount: 50
Enter the Fixed amount which is to be added in product default price while creating or updating product feed for ManoMano.

Auto Sync Inventory and Price By Cron: YES NO
If enable then QUANTITY and PRICE will be automatically SYNCHRONIZED By Cron.

Update Inventory/Price on Product Edit: YES NO
Update inventory and price in product feed when you edit product in store .

Remove Product When deleted in Prestashop: YES NO
Remove product from product feed when you delete product in store .

- **Increase by Fixed Amount:** If you select this option, a bar gets opened as shown in the image below:

PRODUCT SETTINGS

Store Language: English (English)
Language used for Module

Advance Pricing: **Increase By Fixed Amount**
Select the price variation if you want to send different product price at ManoMano

Fixed Amount: 50
Enter the Fixed amount which is to be added in product default price while creating or updating product feed for ManoMano.

Now suppose if your product price on Prestashop is 100 and you enter 50 in this tab, the price of the product that will be reflected on ManoMano will be 150 now. It is because you have selected Increase By Fixed Amount and entered 50 in the corresponding field.

- **Increase by Fixed Percentage:** If you select this option, you may increase the product price by fixed percentage.

Suppose, your product is available on Prestashop for 100 and you enter 50 in the corresponding box, then the 50% of your product's Prestashop price will be added to it and it will be reflected on ManoMano. So now your product will be available on ManoMano for 150. (As 50% of 100=50.)

- **Decrease by Fixed Amount:** It works in the same manner as Increase by Fixed Amount works, **but** it decreases the price of the Prestashop product on ManoMano marketplace by a fixed amount.
- **Decrease by Fixed Percentage:** It works in the same manner as Increase by Fixed Percentage works, **but** it decreases the price of the Prestashop product on ManoMano marketplace by a fixed percentage.
- **Auto Sync Inventory and Price By Cron,** select **Yes** or **No** in accordance with your needs. If you select yes, the Inventory and Price will be synchronized between Prestashop and ManoMano.
- In **Update Inventory/Price on Product Edit**, select **Yes** or **No** in accordance with your needs. If you

select yes, the Inventory and Price will be updated in product feed when you edit the products in store.

- In **Remove Product When deleted in Prestashop**, select **Yes** or **No** in accordance with your needs. If you select yes, then on the deletion of product on Prestashop store, it also gets removed from the product feed.

Order Settings:

⚙️ ORDER SETTINGS

Auto Acknowledge ManoMano Orders

YES NO

If enable the imported order will be acknowledged automatically at ManoMano.

Auto Reject Failed ManoMano Orders

YES NO

If enable the failed order will be rejected automatically at ManoMano.

+ ADD NEW			

- If selected **No**, then even after adding new grids, the details would be considered from the first grid.

At completing the process, you need to click on the **Save Config** button on the bottom right of the page as shown in the figure below:

MANOMANO SHIPPING

Use Grid

If to be used, Select "Yes". This activates the transport matrix. You can add Upto 4 Carrier grid by clicking on "Add New" button

* Carrier Grid	Carrier	Min Shipping Time	Max Shipping Time
	<input type="text" value="a"/>	<input type="text" value="1"/>	<input type="text" value="2"/>
+ ADD NEW			

 Save Config

On clicking it, all your configuration will be saved.

4. Management of Profile(s)

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Prestashop attributes to the ManoMano attributes. These attributes are applicable to all the products that are assigned to the profile.

Admin can do the following tasks:

- Add new profile
- Edit the existing profile
- Delete the profiles

4.1. Add New Profile

To add a new profile, a seller needs to:

- Go to Prestashop Admin Panel
- On the left navigation bar, place the cursor on ManoMano Integration and you will see it getting expanded as below:

- Click on **ManoMano Profile** and you will be navigated to a page as shown below:

Ship Order

- You may see the order info and the shipping info on this page.
- In the next part i.e. tracking info, do the following
 - In the Tracking number, enter the unique identifier that your carrier provided so that the user can track their package as it is being delivered. Tracking number should only contain alphanumeric characters with no space between them.
 - Enter the tracking URL i.e., URL link of the parcel tracking.
 - In Carrier, enter the carrier's name which is being used to ship order.
- Once you have filled the necessary details, click on the **Ship Order button** in the bottom right of the page.
- Your product will be submitted for the shipment.

8.3. Accept/Reject ManoMano Orders

To Accept/Reject ManoMano Orders,

26 / 28

- Go to **Prestashop Admin** panel.
- On the left navigation bar, move the cursor over the **ManoMano Integration** menu.
The menu appears as shown in the following figure:

- Click on ManoMano Orders. You will see the page as shown in the image below:

ManoMano Orders

[Fetch Orders](#) [Help](#)

MANOMANO ORDERS 1									
ID	ManoMano Order ID	Reference	Delivery	Customer	Total	Payment	Status	Date	
11	M121100000004	DOVITBRPA	France	J. Accard	\$25.30	bankwire	Awaiting check payment	05/14/2018 07:21:00	

- Now click on the drop down arrow next to the **View** button and you can see the options to accept or reject the order as shown in the image below:

ManoMano Orders

[Fetch Orders](#) [Help](#)

MANOMANO ORDERS 1									
ID	ManoMano Order ID	Reference	Delivery	Customer	Total	Payment	Status	Date	
11	M121100000004	DOVITBRPA	France	J. Accard	\$25.30	bankwire	Awaiting check payment	05/14/2018 07:21:00	

- From here, you may select Reject or Accept in accordance with your needs and the chosen action for your order will take place.

8.4. ManoMano Failed Orders

The admin can see the failed ManoMano orders from the Prestashop admin panel.

To see the failed order:

- Go to Prestashop Admin Panel
- On the left navigation bar, place the cursor on ManoMano Integration and you will see it getting expanded as below:

- Click on ManoMano Failed Orders and you'll be navigated to the page as shown below:

ManoMano Failed Orders

MANOMANO FAILED ORDERS 1			
ID	SKU	ManoMano Order Id	Reason
3	test_sku	12345678	Sku does not exist

- On this page, you may see the Failed Order with – ID, SKU, ManoMano Order Id, and Reason.
- On this same page, you may take the following actions:
 - Export the failed orders to ManoMano.
 - Refresh the list.
 - You can see the SQL Query.
 - You can export failed orders to SQL manager.
 - You may take the above actions by clicking on the buttons shown in the image below in the red box.

MANOMANO FAILED ORDERS 1
