## 1. Overview

CedCommerce SMSA Shipping is an online shipping extension for Magento which allows domestic shipping facilities only for Saudi Arabia.

With the help of this module, admin can set his own rates & allow SMSA shipping for his customers. It automatically calculates the shipping costs based on the products weight.

This unique shipping method is designed to calculate the exact shipping costs based on the weight of the products added to cart. Using this shipping method, you can set price for first 15 Kg of weight and also the price of each additional Kg.

## 2. Admin Configuration

Admin can enable SMSA shipping method by going to the **System > Configuration > Shipping Method** section.

Here you will see the “SMSA Shipping” group and from there you can set the “Enabled” field to “yes”.
