1. Overview

Want to sell on RueDuCommerce? Have an overview of this marketplace and RueDuCommerce Magento 2 Integration Extension by CedCommerce.

Founded in 1999, the RueDuCommerce website is one of the pioneers of e-commerce sites in France. The site was first recognized as a leader in the high-tech sector, then expanded its offer while creating its marketplace.

The site now offers more than 3.5 million offers. One of the leaders in non-food e-commerce in France Multi-specialist, RueDuCommerce offers a very wide range of items in home and personal equipment: computer, image and sound, telephony, home appliances, home, garden, childcare, toys, sports, fashion, travel and cultural products.

A subsidiary of the Carrefour group Since 2016, RueDuCommerce is part of the Carrefour Group and participates in the development of the Group's digital and omni-channel strategy.

To help those sellers who have Magento 2 store, CedCommerce brings the RueDuCommerce Magento 2 Integration Extension! Using this extension, sellers can't only sell on RueDuCommerce but can synchronize the product details between their Magento 2 store and RueDuCommerce easily.

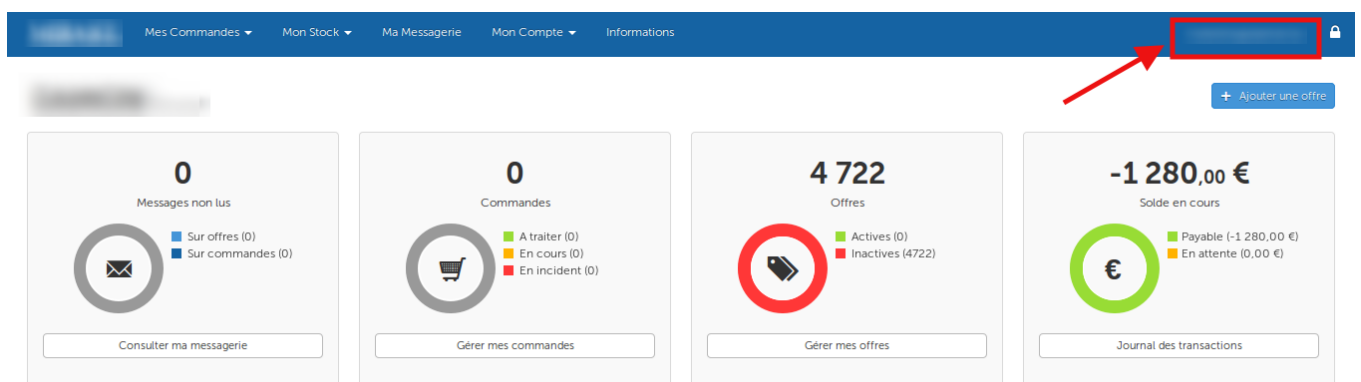

Read on the sections and have a glance at the Integration process of Magento 2 store with RueDuCommerce.

2. Retrieving API Key

To start the integration, you need to have the API Key which will be needed while doing the Configuration.

To Retrieve the API Key,

- Go to RueDuCommerce seller panel.
- Login to your seller panel and the dashboard will appears as shown below:

Statistiques du 31/05/18

- Click on your profile name as shown in the red box in the above image.
- You will be navigated to page as shown below:

Mes préférences utilisateur

- Click on **Clé API** as shown in the image above in the red box.
- The section will appear as shown in the image below:

Mes préférences utilisateur

- You may see the API Key in the box and you need to copy it from here to paste in the corresponding box while doing the Configuration.
- You may also regenerate the API Key by clicking on **Générer une nouvelle clé** button below the box in which the API Key can be seen.

3. Configuration Settings

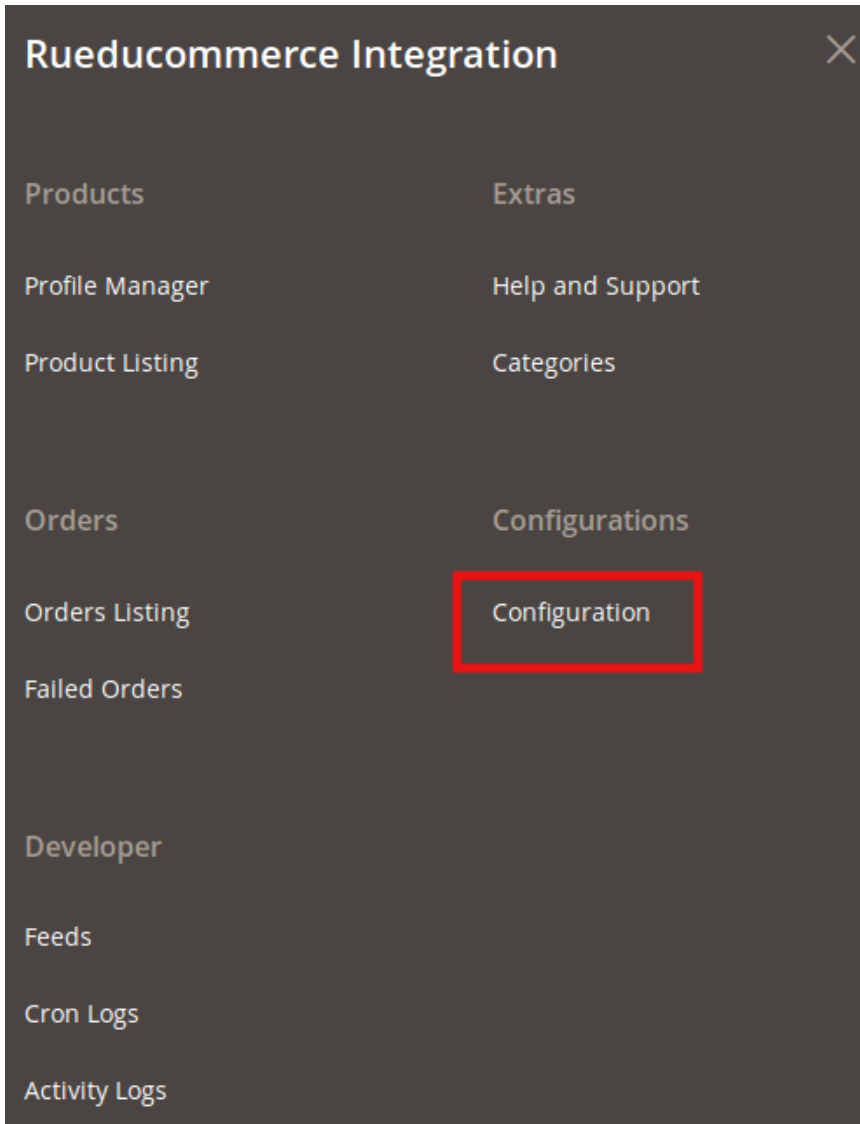

Once you've retrieved the API Key, you may start the Configuration.

For Configuration,

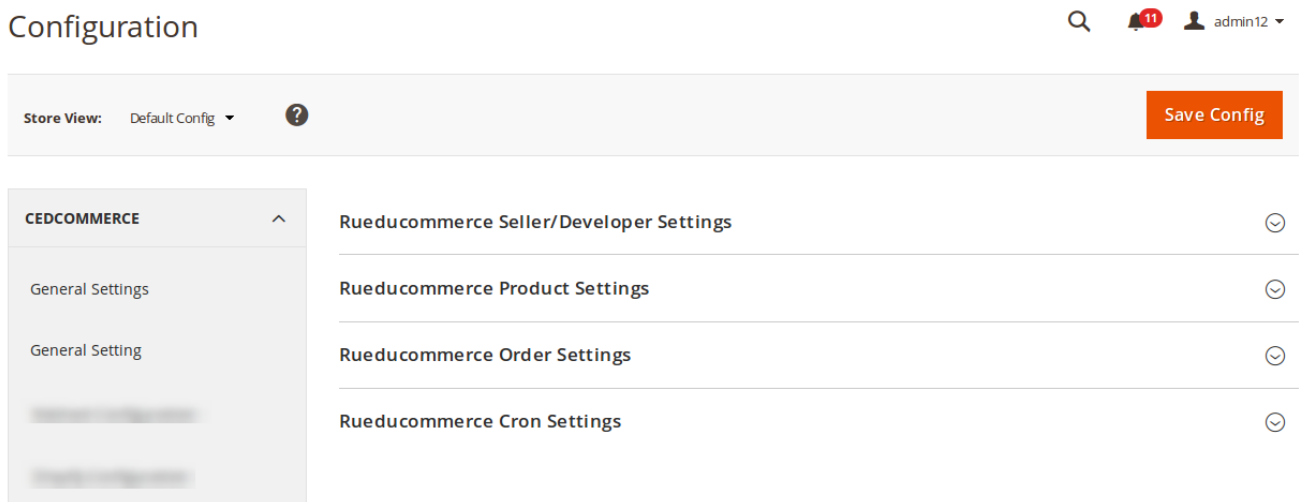

- Go to your Magento 2 admin panel.
- On the left navigation bar, you may see the **RueDuCommerce Integration** as shown in the figure below:

- Click on it and you will see it getting expanded as:

- Click on **Configuration** and you will be navigated to the configuration page as shown below:

- Click **RueDuCommerce Seller/Developer Settings** and the section gets expanded as shown below:

Rueducommerce Seller/Developer Settings

Enabled [global] 

- Select **Yes** as the status in the **Enabled**. The section gets expanded as below:

Rueducommerce Seller/Developer Settings

Enabled [global] 

Api Url [global]

Debug Mode [global]  
Debug Mode

Api Key [global]

Select Store [global] 

- In the **API URL**, enter the API URL.
- In the **Debug Mode**, select **Yes** to enable logging, or select **No**.
- In the **API Key**, enter the API Key that you retrieved from the RueDuCommerce seller panel.
- In **Select Store**, select the store from which you want to export your products to RueDuCommerce Marketplace. In other words, select the store which you want to integrate with RueDuCommerce.

Now once you're done with this section, click on **RueDuCommerce Product Settings** which gets expanded as shown below:

Rueducommerce Product Settings

Parent Values In Case Of Configurable Product
[website]

Short Title

Long Title

Short Description

Long Description

Brand

Select the Attributes that will be fetched from Configurable Product

- In the **Parent Values In Case Of Configurable Product**, select the attributes and the values of these attributes will be fetched from parent category in case of configurable products.

Click on **RueDuCommerce Order Settings** and the section will get expanded as shown below:

Rueducommerce Order Settings

Rueducommerce Order Id Prefix
[global]

Prefix for Rueducommerce Increment ID

Order Notification Email
[global]

- In **RueDuCommerce Order Id Prefix**, enter the prefix which will be added to the all the orders that will be placed for your products on RueDuCommerce Marketplace.
- In **Order Notification Mail**, enter the mail on which you want to get notifications about the orders placed for your products on RueDuCommerce.

Now click on RueDuCommerce Cron Settings, and it will expand as shown in the image below:

Rueducommerce Cron Settings

Order Cron
[global]

Order Fetch Cron

All Inventory | Price Cron
[global]

Inventory Sync Cron

- In **Order Cron**, select **Enable** if you want to enable the order fetch cron and the corresponding box will appear as:

Rueducommerce Cron Settings

Order Cron [global] ▼
Order Fetch Cron

Order Cron Expression [global] ▼
Order Fetch Expression

All Inventory | Price Cron [global] ▼
Inventory Sync Cron

- In **Order Cron Expression**, select the time period after which the orders will be fetched from RueDuCommerce periodically.
- In **All Inventory | Price Cron**, select **Enable**, if you want the Inventory and Price Cron to run.
- When you enable it, a box of **All Inventory | Price Cron Expression** appears as shown below:

Order Cron [global] ▼
Order Fetch Cron

Order Cron Expression [global] ▼
Order Fetch Expression

All Inventory | Price Cron [global] ▼
Inventory Sync Cron

All Inventory | Price Cron Expression [global] ▼
 ▼

- Select the time interval after which the Price and Inventory will be updated periodically.
- Click the **Save Config** button on the top right side of the page and the configuration will be saved.

4. Profile Management

The Profile Actions that can be taken while doing the RueDuCommerce Magento 2 Integration are:

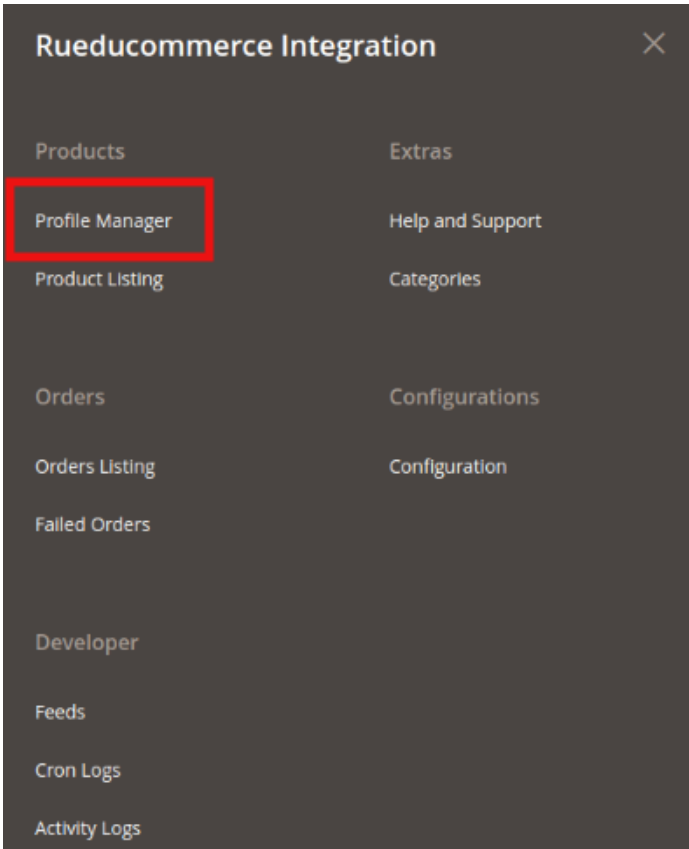

- Addition of a new profile
- Editing a profile

- Enabling/Disabling a profile
- Deleting a profile

4.1. Adding a New Profile

To Add a New Profile,

- Go to your Magento 2 Admin Panel.
- Click RueDuCommerce Integration on the left navigation bar and it will expand as shown:

- Now click on **Profile Manager** and you will be navigated to page as shown below:

Manage Profile 🔍 🔔 11 👤 admin12 ▾

[Add New Profile](#)

⌵ Filters |

▾	ID	Profile Code	Profile Name	Status	Action
We couldn't find any records.					

- Click on **Add New Profile** on the top right of the page. You will be taken to the page as shown below:

The screenshot shows the 'General Information' section of the profile management interface. On the left, there is a sidebar menu titled 'PROFILE INFORMATION' with four items: 'General Information' (highlighted with an orange bar), 'Offer Information', 'Store Categories', and 'Profile Mappings'. The main content area is titled 'General Information' and contains three fields: 'Profile Code *' (a text input field), 'Profile Name *' (a text input field), and 'Profile Status' (a dropdown menu with 'Enabled' selected).

- In **Profile Code**, add a code that you want for your profile.
- In **Profile Name**, enter the name that you want for your profile.
- In the **Profile Status**, select **Enabled** to enable your profile.

Now click **Offer Information** from the left menu. The section gets expanded as shown below:

The screenshot shows the 'Offer Information' section of the profile management interface. On the left, the sidebar menu 'PROFILE INFORMATION' has 'Offer Information' highlighted with an orange bar. The main content area is titled 'Offer Information' and contains three fields: 'Offer State' (a dropdown menu with 'New' selected), 'Product Id Type' (a dropdown menu with 'EAN' selected), and 'Product Id Value *' (a dropdown menu with '[Please select a option]' selected).

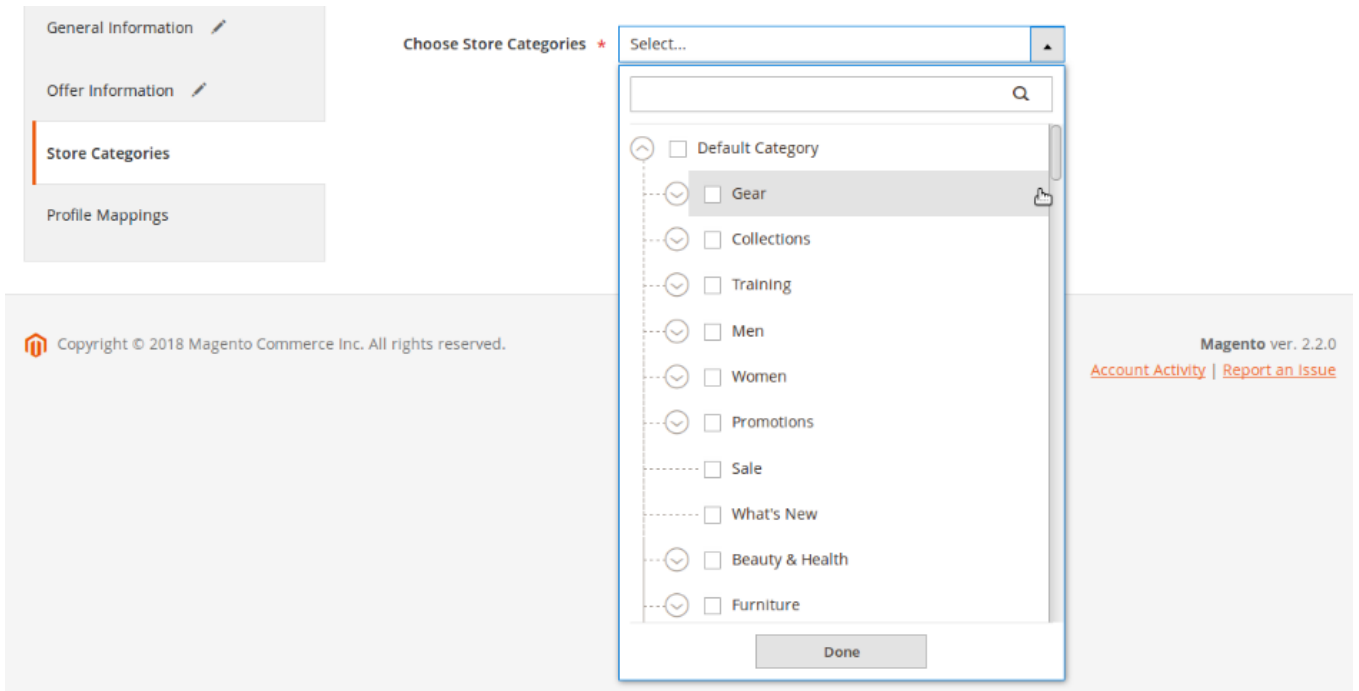

- In **Offer State**, select the state of the product.
- In the **Product Id Type**, select the ID Type.
- In **Product Id Value**, select the value from which the value for the EAN will be fetched.

Now click **Store Categories** from the left menu. The section gets expanded as shown below:

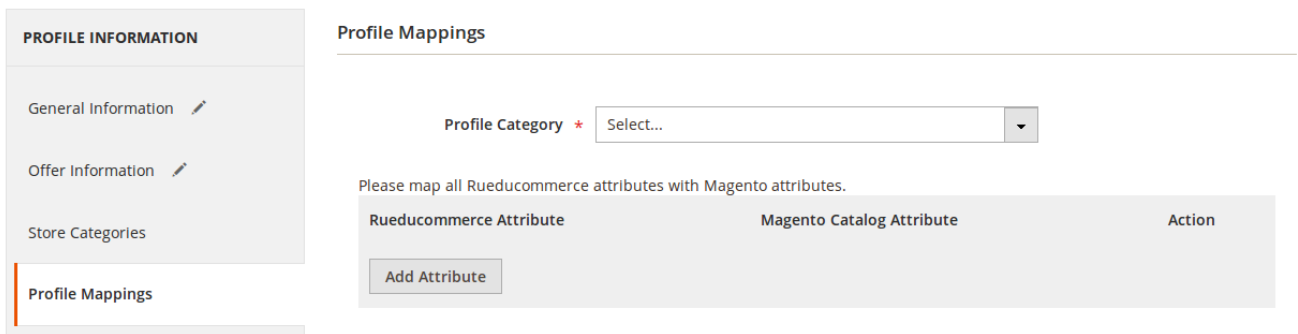

The screenshot shows the 'Store Categories' section of the profile management interface. On the left, the sidebar menu 'PROFILE INFORMATION' has 'Store Categories' highlighted with an orange bar. The main content area is titled 'Store Categories' and contains one field: 'Choose Store Categories *' (a dropdown menu with 'Select...' selected).

- From **Choose Store Categories**, select the Magento 2 category for your profile, from category list as

shown below:

Now click **Profile Mappings** from the left menu. The section gets expanded as shown below:

- In **Profile Category**, select the RueDuCommerce category and the corresponding category attribute section will appear as shown below:

PROFILE INFORMATION

- General Information
- Offer Information
- Store Categories
- Profile Mappings**

Profile Mappings

Profile Category *

Please map all RueDuCommerce attributes with Magento attributes.

Rueducommerce Attribute	Magento Catalog Attribute	Action
<input type="text" value="Identifiant de l'article"/>	<input type="text" value="SKU"/>	<input type="button" value="Map Options"/>
<input type="text" value="Désignation courte"/>	<input type="text" value="Product Name"/>	<input type="button" value="Map Options"/>
<input type="text" value="Description courte"/>	<input type="text" value="Short Description"/>	<input type="button" value="Map Options"/>
<input type="text" value="brand"/>	<input type="text" value="Brand"/>	<input type="button" value="Map Options"/>
<input type="text" value="Homme, femme ou enfant"/>	<input type="text" value="Description"/>	<input type="button" value="Map Options"/>
<input type="text" value="Couleur"/>	<input type="text" value="Color [select]"/>	<input type="button" value="Map Options"/>
<input type="text" value="Saison, collection"/>	<input type="text" value="Description"/>	<input type="button" value="Map Options"/>
<input type="text" value="Taille"/>	<input type="text" value="Description"/>	<input type="button" value="Map Options"/>
<input type="button" value="Add Attribute"/>		

- Map the RueDuCommerce attributes with the Magento 2 store attributes.
- You may click on **Add Attribute** button to add more attributes as shown below:

<input type="text" value="Couleur"/>	<input type="text" value="Color [select]"/>	<input type="button" value="Map Options"/>
<input type="text" value="Code de regroupement articles"/>	<input type="text" value="--please select--"/>	<input type="button" value="Map Options"/> 
<input type="button" value="Add Attribute"/>		

- Once you have completed the profile mapping, click on **Save** button on the top right of the page.
- The profile will be saved and appear as shown below on the profile page.

Filters | Default View | Columns

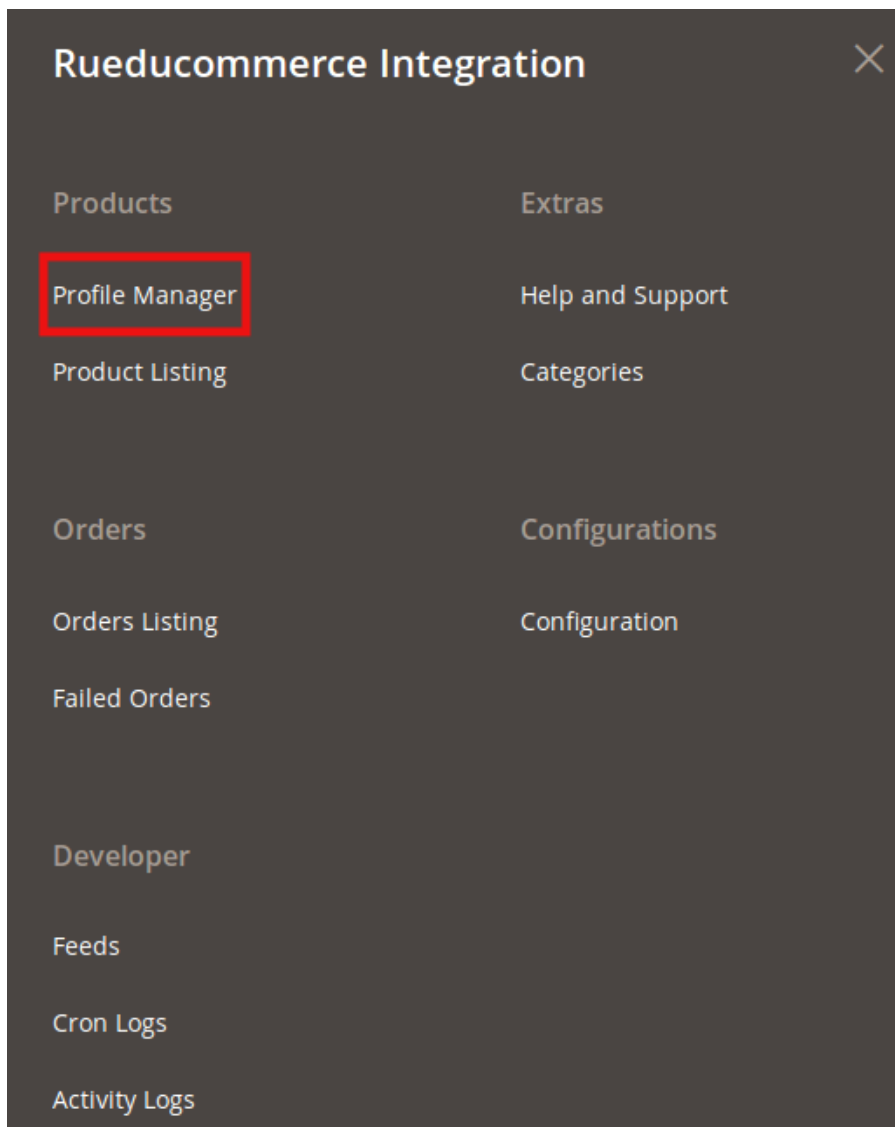

Actions | 1 records found | 20 per page | 1 of 1

ID	Profile Code	Profile Name	Status	Action
1	test	test	Enabled	Edit

4.2. Editing the Profile

To Edit the Profile that you've created,

- Go to your Magento 2 admin panel.
- Click on RueDuCommerce Integration in the left admin panel. It appears as shown below:

- Click on **Profile Manager**, and you'll be navigated to the page as shown below:

Manage Profile 🔍 11 👤 admin12 ▾

[Add New Profile](#)

Filters | Default View ▾ | Columns ▾

Actions ▾ 1 records found 20 ▾ per page < 1 of 1 >

<input type="checkbox"/>	ID	Profile Code	Profile Name	Status	Action
<input type="checkbox"/>	1	test	test	Enabled	Edit

- To edit a profile, click on **Edit** button in the last column under **Actions**.
- On clicking, you will see the page as below:

← Back [Save](#)

PROFILE INFORMATION

General Information
