1. Overview

Shopee is an e-commerce marketplace headquartered in Indonesia. Running a C2C mobile marketplace business, Shopee was officially introduced in Singapore in the year 2015 followed by Malaysia, Philippines, Taiwan, Thailand, Indonesia and Vietnam.

With a vision of “Being Number 1 C2C Mobile Marketplace in Southeast Asia”, Shopee allows its users to buy or sell goods through apps available on iOS and Android platforms.

To help sellers who have their business in the Southeast Asia or who want to sell in the Southeast Asia, CedCommerce brings the Shopee OpenCart Integration Extension! This extension enables the sellers to sell on Shopee and also manage the automatic syncing of Price, Inventory, Order etc between their OpenCart Store and Shopee.

Key Features of Extension-

- Profile based product upload on Shopee marketplace.
- Synchronization of price and inventory between OpenCart store and Shopee marketplace is done automatically.
- Product upload on Shopee marketplace becomes hassle free.
- To fetch the orders of Shopee, cron job automates the process in real time.
- Admin receives the Order Notification mail.

2. Configuration Settings

To accomplish the Integration, the first mandatory step needs to be taken by the admin is to complete the Configuration.

To do the **Configuration**,

- Go to you OpenCart admin panel.
- Place the cursor on Shopee Integration which is on the top navigation bar.
- From the menu that appears as shown in the image below, click on **Configuration**.

- On clicking it, the page appears as:

- Select **Enable** in **Module Status** to enable the extension.
- In **Shopee API URL**, select your preference amongst the **Live** and **Sandbox Mode**.
- In **Partner ID**, enter the partner ID that you get from your Shopee Seller Panel.
- In **Shop ID**, enter the shop ID that you get from your Shopee Seller Panel.
- Enter **Signature** in the next box that you get from your seller panel.

In Shopee Order Settings,

SHOPEE ORDER SETTINGS

- In **Email For Shopee Orders**, enter the email id on which you want to get notified about the Shopee orders via mail.
- In **Reject Order**, select **Enable** if you want the Shopee orders to be rejected if the products are not available with you. If you do not want orders to be rejected in such conditions, select **Disable**.

In **Shopee Product Settings**,

SHOPEE PRODUCT SETTINGS

- In **Price Variation From Store**, select from the options as shown in the figure below:

SHOPEE PRODUCT SETTINGS

Price Variation from Store	<div style="border: 2px solid red; padding: 2px;"> <ul style="list-style-type: none"> Default Price Default Price Increase By Fix Amount Decrease By Fix Amount Increase By Fix Percent Decrease By Fix Percent Price From Walmart Form Field </div>
Enable Cron Sync	Disabled
Update Inventory Edit	Disabled
Update Price On Edit	Disabled
Update Whole Info	Disabled

- **Increase By Fixed Amount-** You may select this option if you want your product price to be increased on Shopee as compared to you OpenCart store. If you select this option, a box appears as shown below:

SHOPEE PRODUCT SETTINGS

Price Variation from Store	Increase By Fix Amount
Variant Amount	<input type="text" value="Variant Amount"/>

- Now in **Variant Amount**, you may enter an amount by which you want your product price to be increased on Shopee as compared to your OpenCart store. Suppose if you enter 50 in this field and your product is for 100 on your OpenCart store, then the amount that your product will be available for on Shopee would be 150 (as the amount entered is 50 for **Increase** by fixed price, so the price entered would be added to the price for which product is available on OpenCart).

- On clicking the **Profile**, you will be navigated to the page as shown below:

 A screenshot of the 'Cedshopee Profile' configuration page. The page has a header with 'Cedshopee Profile' and 'Save' and 'Cancel' buttons. Below the header are four tabs: 'General', 'Default Attribute Mapping', 'Shopee Category & Attributes', and 'Logistic & Wholesale'. The 'General' tab is selected. The form contains the following fields:

- Title:** A text input field.
- Status:** A dropdown menu with 'Enabled' selected.
- Manufacturer:** A text input field.
- Category:** A text input field.
- Stores:** A dropdown menu with 'Default' selected.
- Language:** A dropdown menu with 'English' selected.

- In the **Title**, enter the title that you want to give to your profile.
- In the **Status**, select **Enable** to enable the profile that you are creating.
- In the **Manufacturer** box, enter the name of the product manufacturer whose product you want to add in the profile.
- In the **Category** box, enter the category of the products that you want to add in the profile.
- In **Stores**, enter the store that you want to integrate with Shopee.
- In **Language**, select the language in which you want the system to be proceeded.

Now click on the second section which is **Default Attribute Mapping**, from the upper menu and the section will appear as:

Shopee Attribute(s)	Store Attribute(s)
name	Name ▾
description	Description ▾
