1. Overview

Fruugo is a UK based e-commerce company and a global marketplace offering thousands of buyers a huge catalog of products from categories such as sports and leisure, health and beauty, clothing, home and garden, kids, toys and many more. It operates in 32 countries across the globe with great products and determination to deliver the best to its customers.

Fruugo Integration for OpenCart is an API integration that helps OpenCart store owners to sell their products on Fruugo and also to synchronize inventory, price, and other product details for product creation and management between OpenCart store and Fruugo marketplace.

Fruugo OpenCart Integration extension interacts with Fruugo marketplace to integrate the synchronized product listing between OpenCart and Fruugo retailers.

Key Features:

Easy Product Listing: Export all products of the store to Fruugo.com.

Order Management: Manipulate the Fruugo orders from YOUR store.

Information Update: Any change in your store's product(s) gets reflected on Fruugo.

Error Notification: Get notified of the errors while uploading the products and their details.

Inventory Update: Inventory changes are tracked and updated.

Bulk Upload: Upload as many products as you want, with Bulk Product Upload mechanism.

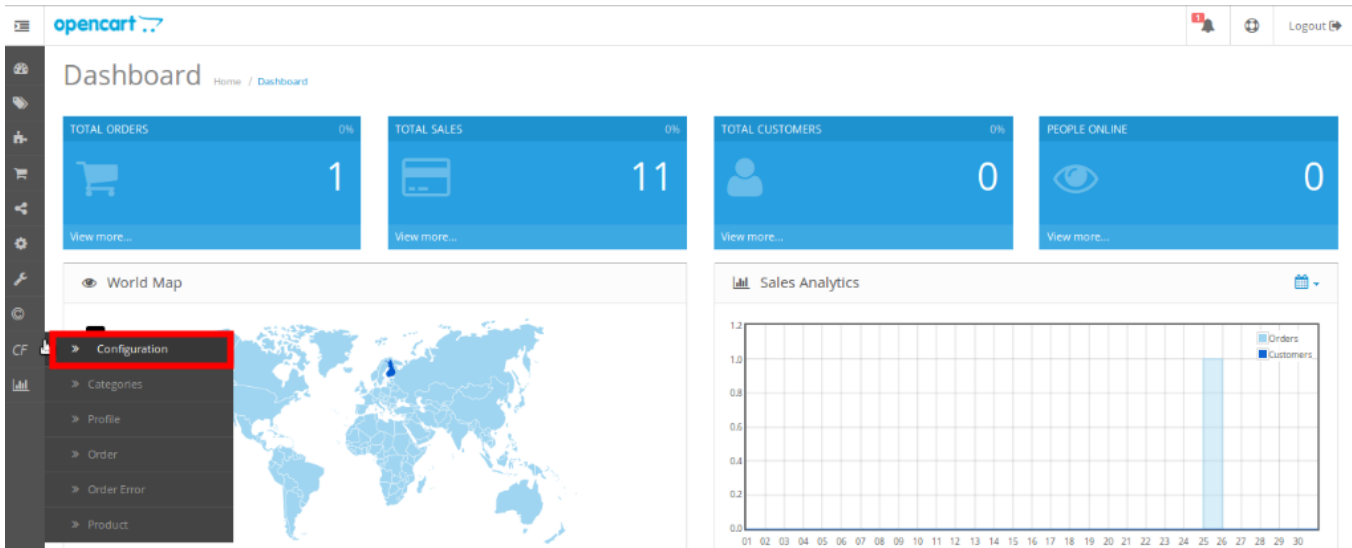

Order Automation: Fulfill the order shipment the easiest way in few clicks.

2. Configuration Settings

Once the module has been installed, the first necessary step needs to be taken by the admin is to complete the Configuration.

To do the **Configuration**,

- Go to you OpenCart admin panel.
- Place the cursor on **CF** which is on the left navigation bar, as shown in the figure below.
- From the menu that appears as shown in the image below, click on **Configuration**.

- On clicking Configuration, you will be navigated to the Configuration page as shown below:

Edit CED Fruugo Module

| | |
|---------------------------------------|---------------------------------------|
| Status | Enabled |
| API Url | https://www.fruugo.com/ |
| Feed Url | |
| Cron Url | |
| * Username | admin |
| * Password | ●●●●●●●● |
| Customer Order Email Id | customer@example.com |
| Customer Id | 12345 |
| Order Status | Pending |
| Order Accepted | Complete |
| Order Rejected | --Order status after rejected order-- |
| Order Shipped | Shipped |
| Order Carrier | flat |
| Payment Method | cod |
| Store Language | English (en) |
| Price variant Type | Regular Price |
| Price Type | Normal price without VAT |
| Disabled Product Upload | Skip Disbaled Product |
| Map Category | Map Category |
| Auto order accept/reject | Disabled |
| Auto Sync Inventory and Price By Cron | Disabled |
| Update Price on Product Edit | Disabled |
| Update Inventory on Product Edit | Disabled |
| Update Product Data on Product Edit | Disabled |
| Debug | Disabled |
| Fruugo Country | |
| Fruugo Language | |
| Fruugo Currency | |

- In **Status**, select **Enabled** to enable the module.
- The **API URL** is fixed – https://www.fruugo.com/
- In **Feed URL** also, the **URL** is filled automatically after it gets auto generated. You can download feed file from download button highlighted in the image below:

Feed Url

/home/democe5/public_html/integration/opencart2.0/image/cedfruugo/product_upload/product_feed.csv

- In **Cron URL**, the **URL** is filled automatically after it gets auto generated.
- In **Username** and **Password**, enter the Fruugo seller panel name and password.
- In the **Customer Order E-Mail ID**, enter the email id to create orders in it which are imported from Fruugo.
- In **Customer ID**, enter the ID for customers to be created, for orders which are imported from Fruugo.
- In **Order Status**, select the status for orders when they are being imported from Fruugo to OpenCart.
- In **Order Accepted**, select the status for orders when they have been accepted by you.
- In **Order Rejected**, select the status for orders when they have been rejected.
- In **Order Shipped**, select the status for the orders when they have been shipped you.
- In **Order Carrier**, select the order carrier set for orders which have been imported from Fruugo.
- In **Payment Method**, select the payment method you want while importing the Fruugo orders.
- In **Store Language**, select the language for your store in which you want your entire system to be processed.
- In **Price Variant Type**, you may select the price that you want for your products on Fruugo marketplace. The options for sending different prices are shown in the image below:

The image shows a web form with a dropdown menu for 'Price variant Type'. The dropdown is open, showing the following options: 'Regular Price', 'Increase Fixed Amount', 'Decrease Fixed Amount', 'Increase Fixed Percentage', and 'Decrease Fixed Percentage'. To the left of the dropdown, there are labels for 'Price variant Type', 'Price Variant Amount', and 'Price Type'.

- **Regular Price:** Choose this if you don't want any change in price between OpenCart store and Fruugo.
- **Increase Fixed Amount:** You may select this option if you want your product price to be increased on Fruugo as compared to you OpenCart store. If you select this option, a box appears as shown below:

The image shows the same web form as before, but now the 'Price variant Type' dropdown is set to 'Increase Fixed Amount'. Below the dropdown, there is a text input field labeled 'Price Variant Amount' which contains the text 'Price Variant Amount'.

- By choosing this option, you may enter in the **Price Variant Amount** box the amount by which you want your product price to be Increased on Fruugo as compared to your OpenCart store. Suppose if you enter 50 in this field and your product is for 100 on your OpenCart store, then the amount that your product will be available for on Fruugo would be 150 (as the amount entered is 50 for **Increase** by fixed price, so the price entered would be added to the price for which product is available on OpenCart).
- **Decrease Fixed Amount-** You may use this option if you want the price of your OpenCart product to be decreased on Fruugo.
- By choosing this option, you may enter in the **Price Variant Amount** box the amount by which you want your product price to be decreased on Fruugo as compared to your OpenCart store. Suppose if you enter 50 in this field and your product is for 100 on your OpenCart store, then the amount that your product will be available for on Fruugo would be 50 (as the amount entered is 50 for **Decrease** by fixed price, so the price entered would be subtracted from the price for which product is available on OpenCart).
- **Increase Fix Percentage-** You may use this option if you want the price of your OpenCart product to be increased on Fruugo by a certain percent.
- By choosing this option, you may enter in the **Price Variant Amount** box the percentage amount by which you want your product price to be increased on Fruugo as compared to your OpenCart store. Suppose if you enter 20 in this field and your product is for 100 on your OpenCart store, then the amount that your product will be available for on Fruugo would be 120 (as 20% of 100 is 20 which gets added to 100).
- **Decrease By Fix Percent-** You may use this option if you want the price of your OpenCart product to be decreased on Fruugo by a certain percent.
- By choosing this option, you may enter in the **Price Variant Amount** box the percentage amount by which you want your product price to be decreased on Fruugo as compared to your OpenCart store. Suppose if you enter 20 in this field and your product is for 100 on your OpenCart store, then the amount that your product will be available for on Fruugo would be 80 (as 20% of 100 is 20 which gets subtracted from 100).

- In **Price Type**, choose from **Normal Price with VAT** and **Normal Price without VAT**, as per your requirement.
- In **Disabled Product Upload**, select the status for your products which are disabled, from **Skip Disabled Products** and **Upload with Out Of Stock status**.
- In **Map Category**, select one from the categories to map it with OpenCart category, for all your products.
- In **Auto order accept/reject**, select **Enable** if you want to enable the auto accept or reject of order. Select **Disable** if you don't want to enable it.
- In **Auto Sync Inventory and Price By Cron**, select **Enable** if you want to enable it, or select **Disable** to disable it.
- In **Update Price on Product Edit**, select **Enable** if you want the price to be updated on editing the product. You may disable it by selecting **Disable**.
- In **Update Inventory on Product Edit**, select **Enable** if you want the inventory to be updated on editing the product. You may disable it by selecting **Disable**.
- In **Debug**, select **Enable** if you want the Debug log to be created.
- In **Fruugo Country**, select the **Country** in which you have registered yourself with Fruugo.
- In **Fruugo Language**, select the **Language** for the country in which you have registered yourself with Fruugo.
- In **Update product data on Product Edit**, select **Enable** if you want the product to be updated on editing the product.
- In **Fruugo Currency**, select the **Currency** for the country for which you have registered yourself with Fruugo. You may disable it by selecting **Disable**.
- Once all the necessary details have been filled or selected, click on Save button on top right side of the page, as shown below:

CED Fruugo [Home](#) / [Modules](#) / [CED Fruugo](#)

- Configuration will be saved and a success message will appear as:

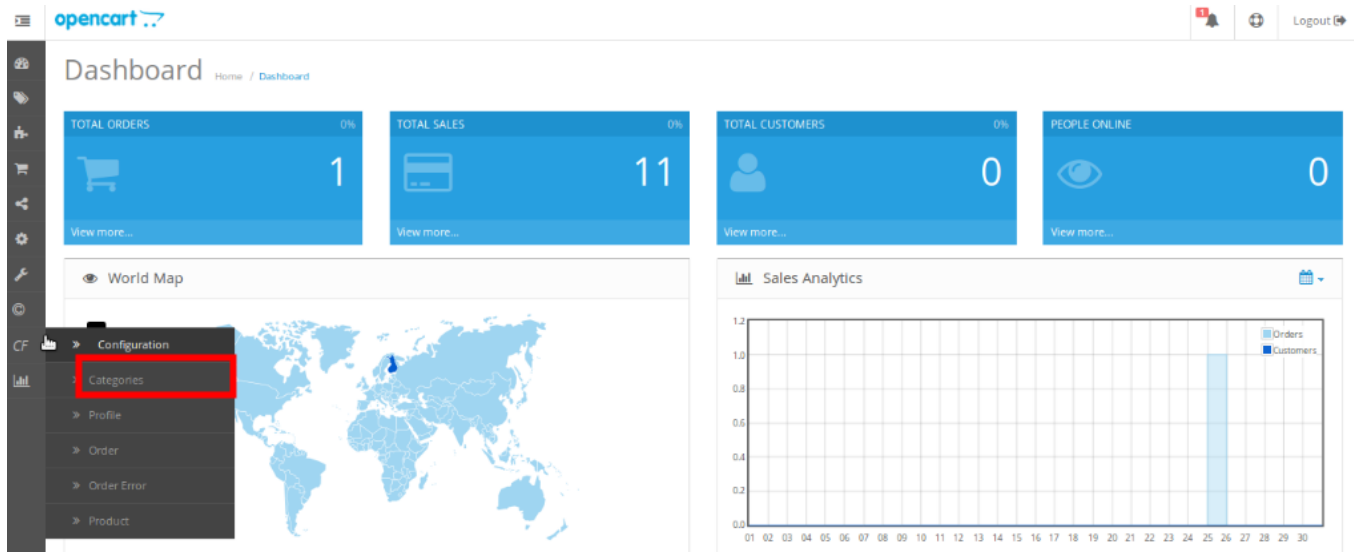

Success: You have modified CED Fruugo module!

3. Fruugo Categories

Once the Configuration is completed and saved, Fruugo categories will appear in the admin panel in the Categories section.

To see the categories.

- Place the cursor on **CF** on the left navigation bar of the admin panel as shown below, and then click on **Categories**.

- On clicking **Categories**, you will be navigated to a page as shown below:

Fruugo Categories

Fruugo Category List

| Category ID | Category Name |
|-------------|---|
| Category ID | Category Name |
| 1 | Animals & Pet Supplies > Live Animals |
| 2 | Animals & Pet Supplies > Pet Supplies > Bird Supplies > Bird Cage Accessories |
| 3 | Animals & Pet Supplies > Pet Supplies > Bird Supplies > Bird Cage Accessories > Bird Cage Bird Baths |
| 4 | Animals & Pet Supplies > Pet Supplies > Bird Supplies > Bird Cage Accessories > Bird Cage Food & Water Dishes |
| 5 | Animals & Pet Supplies > Pet Supplies > Bird Supplies > Bird Cages & Stands |
| 6 | Animals & Pet Supplies > Pet Supplies > Bird Supplies > Bird Food |
| 7 | Animals & Pet Supplies > Pet Supplies > Bird Supplies > Bird Gyms & Playstands |
| 8 | Animals & Pet Supplies > Pet Supplies > Bird Supplies > Bird Ladders & Perches |
| 9 | Animals & Pet Supplies > Pet Supplies > Bird Supplies > Bird Toys |

- Here, you can see all the Fruugo categories.

4. Profile Management

While integrating the OpenCart store with Fruugo, under the Profile section, a seller/admin has the liberty to perform the below mentioned actions:

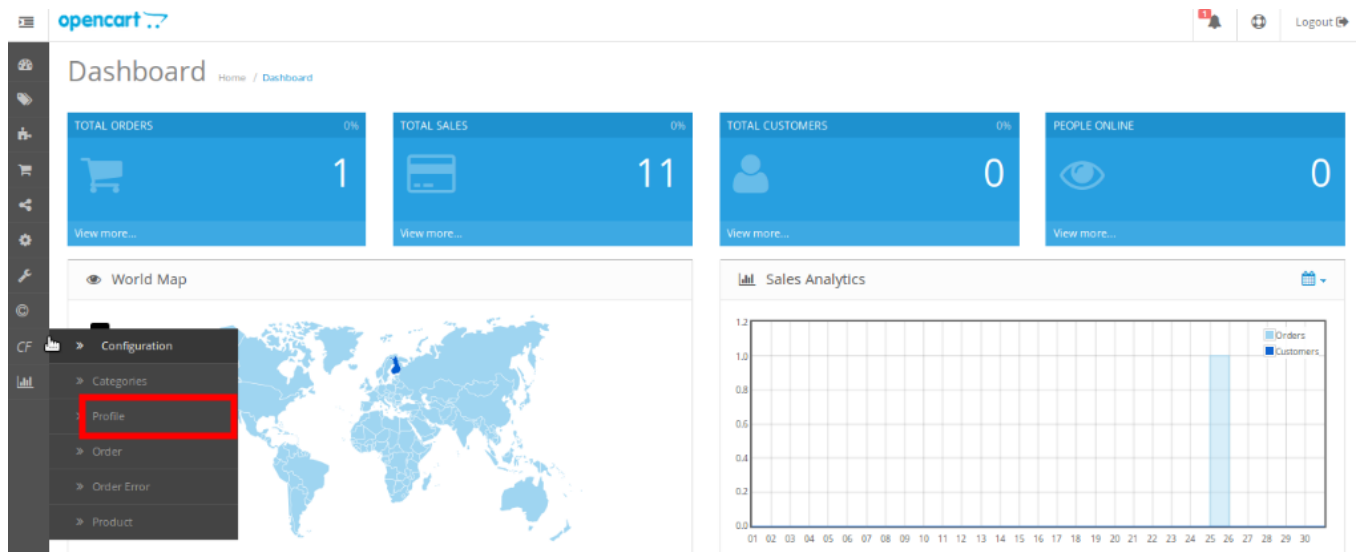

- Adding a Profile(<https://docs.cedcommerce.com/opencart/fruugo-opencart-integration-user-guide/?section=add-a-new-profile-31>)
- Editing a Profile(<https://docs.cedcommerce.com/opencart/fruugo-opencart-integration-user-guide/?section=edit-the-existing-profile-44>)

- Deleting a Profile(<https://docs.cedcommerce.com/opencart/fruugo-opencart-integration-user-guide/?section=deleting-a-profile-5>)

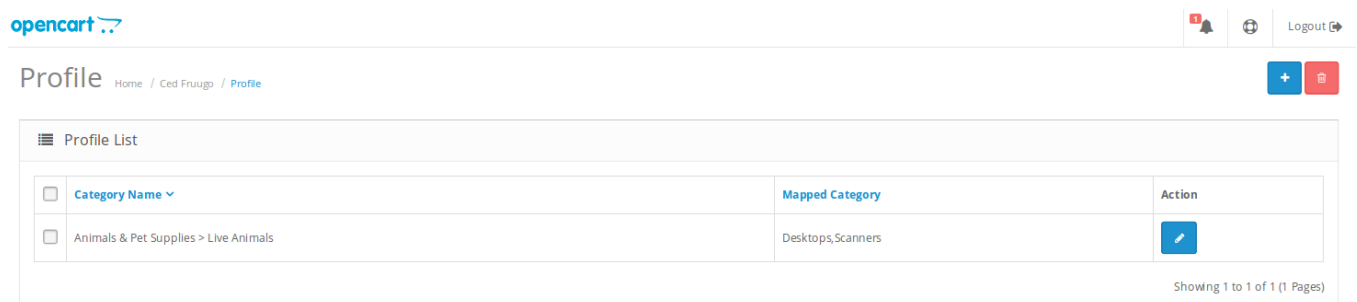

4.1. Add a New Profile

To Add a New Profile.

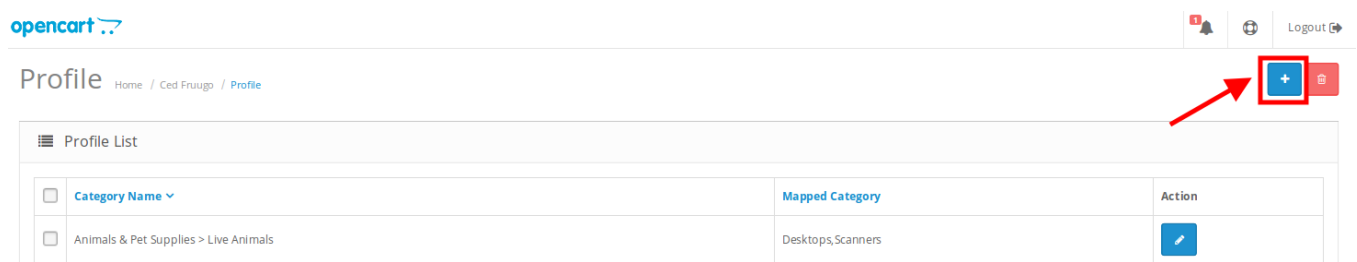

- On your OpenCart admin panel, place the cursor on **CF** and click on **Profile** when the menu appears as shown below:

- On clicking Profile, you will be navigated to the page as below:

- Click on the button on the top right of the page with '+' **Sign** to add a new profile, as shown in the image below:

- On clicking it, you will be navigated to the page as shown below:

Profile [Home](#) / [Profile](#)

 Add Profile

Map Category Attribute Variant Attribute Default

- On this page you may make the changes as you want.
- You may click on different section from the upper menu and make changes required.
- Once the changes have been made, click on **Save** button on the upper right side of page.
- The changes you have made will be saved.

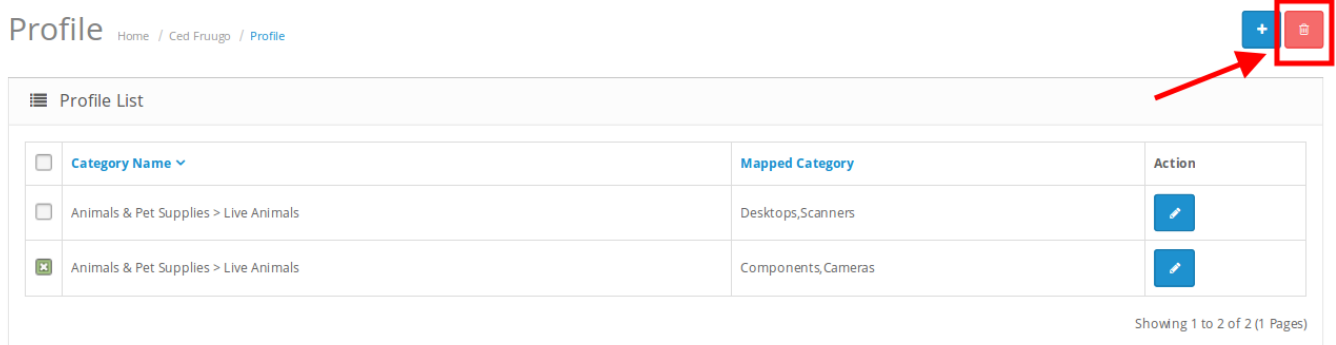

4.3. Deleting a Profile

To Delete a Profile.

- On your OpenCart admin panel, place the cursor on the **CF** in the left navigation bar.
- The menu appears and you need to click on **Profile**.

- On clicking it, you will be navigated to the following page:

- Now select the profile you want to delete and click on the **Delete** button as shown in the above image.
- A box will appear asking you to confirm your action. Click **OK** and the profile will be deleted.

5. Manage Products

From the Product section of the Admin Panel, an admin can take multiple actions for its products such as:

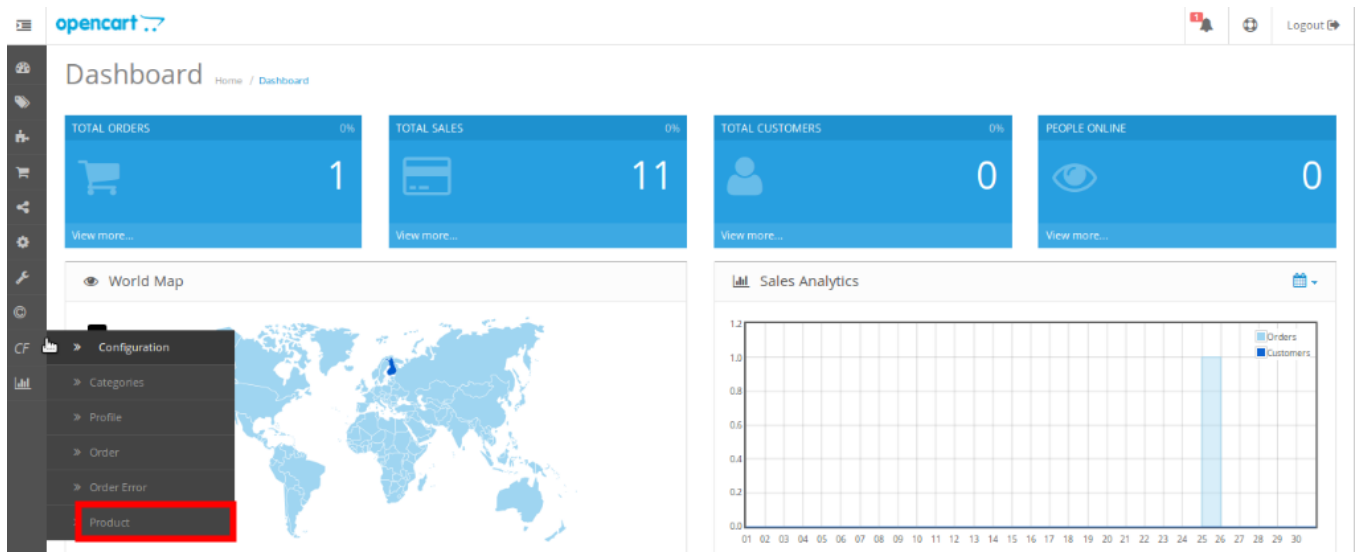

- Upload All Product
- Upload Multiple Products in Bulk
- Disable Selected Products in Bulk
- Enable Selected Products in Bulk
- Sync Product Inventory
- Fetch Product Status
- Edit Product Details

Upload All Products on Fruugo:

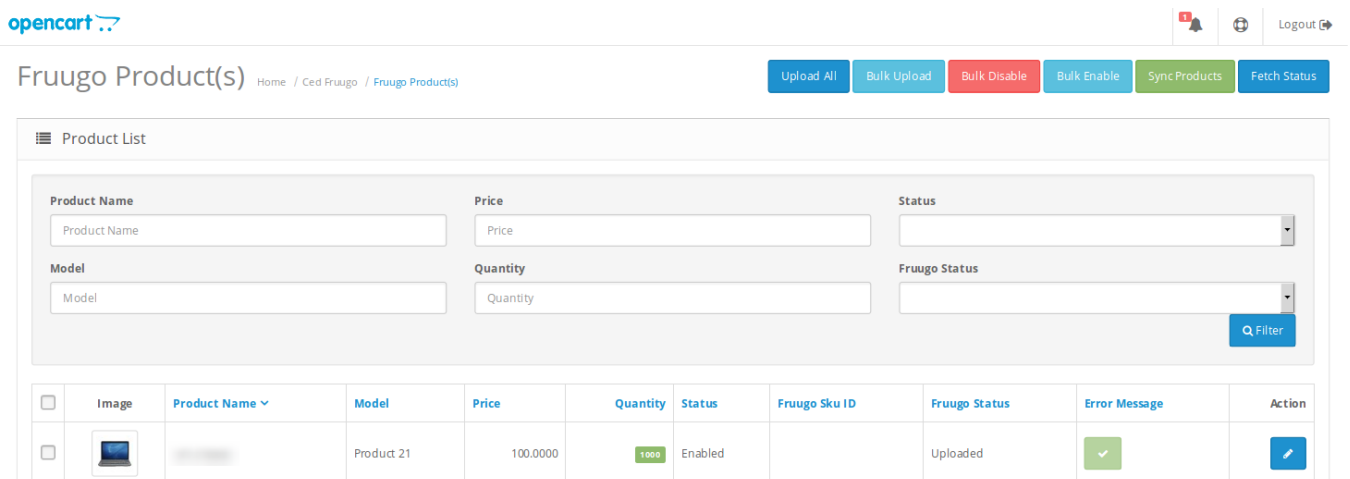

To upload all your products to Fruugo,

- Go to OpenCart admin panel.

- Place cursor on CF in the left navigation bar.
- When menu appears, click on Products.

- On clicking Product, you will be navigated to the page as shown below:

- Now click on the **Upload All** button which is the first button amongst the buttons on the top right side of the page.
- On clicking it, you will see the message as:

To upload selected products in bulk/upload selected products

- On the same page as shown above, where all your products are listed, select the products you want to

upload on Fruugo.

- Click on the **Bulk Upload** button.
- The selected products will be uploaded and the message will appear as:

To Disable the status of the products on Fruugo.

- Select the products for which you want the status to be disabled.
- Click on **Bulk Disable** button which is amongst the buttons on the top right of the page.
- The products will be disabled in bulk and a message will appear as:

To Enable the status of the Disable products on Fruugo.

- Select the products for which you want the status to be enabled.
- Click on **Bulk Enable** button which is amongst the buttons on the top right of the page.
- The products will be enabled in bulk and a message will appear as:

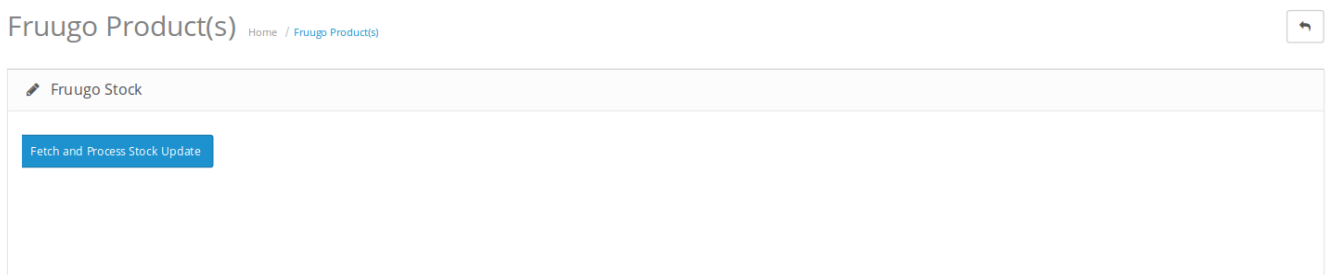

To Sync the product inventory on Fruugo for selected products.

- Select the products for which you want the inventory to be synced.
- Click on **Sync Products** button which is amongst the buttons on the top right of the page.
- The products' inventory will be synced on Fruugo in bulk and a message will appear as:

To Fetch the status of the selected products from Fruugo to OpenCart store.

- Select the products for which you want the status to be fetched.
- Click on **Fetch Status** button which is amongst the buttons on the top right of the page.
- A page will appear to you as:

- Click on **Fetch and Process Stock Update** button.

- The product status will be fetched from Fruugo to OpenCart as it is on Fruugo.

To Edit a Product,

- Click on the **Edit** button as highlighted in the image below, adjacent to the product, in the last column:

| <input type="checkbox"/> | Image | Product Name ▾ | Model | Price | Quantity | Status | Fruugo Sku ID | Fruugo Status | Error Message | Action |

- On this page, you may make the changes as per your needs in sections that can be seen in the image above.
- Once the changes have been made, click on **Save** button on the top right side of the page in blue color.
- The changes will be made and the product will be edited.

6. Order Management

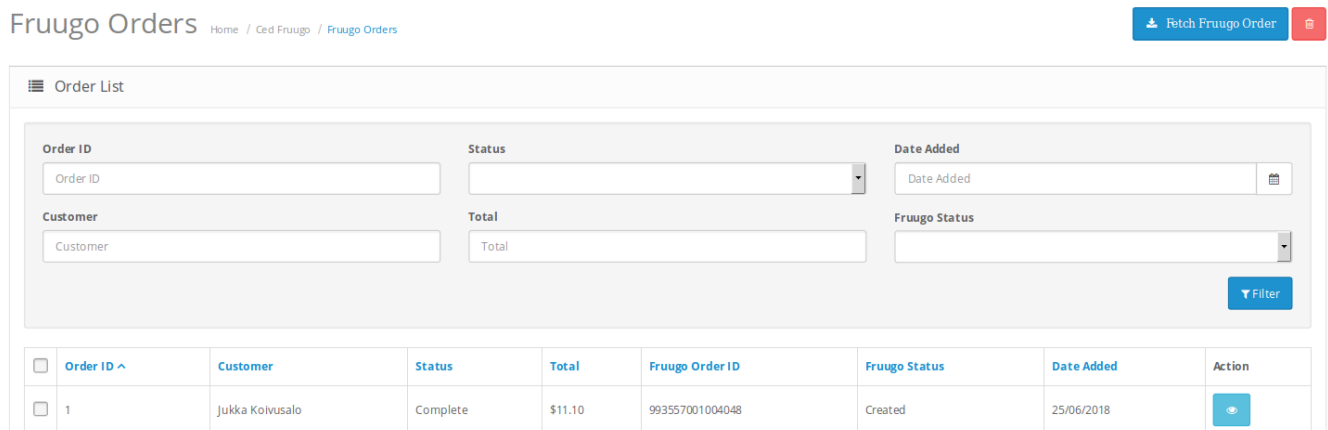

Once a seller has started selling on Fruugo using the Fruugo OpenCart Integration Extension, the orders that have been placed for the seller's products can be managed from the admin panel itself.

To go to the order's page.

- Place cursor on CF in the left navigation bar on your OpenCart admin panel.
- When menu appears, click on **Orders**.

- On clicking it, you will be navigated to the orders page as shown below:

- On the top right of the page, click **Fetch Fruugo Orders** to fetch all the orders from Fruugo. They will be listed as shown in the above image.

To view the order, click on the View button as highlighted in the image below:

| <input type="checkbox"/> | Order ID ^ | Customer | Status | Total | Fruugo Order ID | Fruugo Status | Date Added | Action |
|--------------------------|------------|-----------------|----------|---------|-----------------|---------------|------------|--------|
| <input type="checkbox"/> | 1 | Jukka Koivusalo | Complete | \$11.10 | 993557001004048 | Created | 25/06/2018 | |

- On clicking it, you will be navigated to the page as shown below:

To Ship the products,

- On the bottom of the same page, you may see the **Ship Whole Order** Section as:

| | |
|---|----------------------|
| 🚚 Ship Whole Order | |
| Tracking URL : | <input type="text"/> |
| Tracking Code : | <input type="text"/> |
| Message to Customer : | <input type="text"/> |
| Message to Fruugo : | <input type="text"/> |
| <input type="button" value="Ship Whole Order"/> | |

- In **Tracking URL**, enter the URL as given by shipment carrier.
- In the **Tracking Code**, enter the code as given by shipment carrier.
- In **Message to Customer**, enter the message for customer.
- In **Message to Fruugo**, enter the message for Fruugo.
- Click on **Ship Whole Order**.
- The order will be shipped.

To Delete the Order,

- Place cursor on CF in the left navigation bar on your OpenCart admin panel.
- When menu appears, click on **Orders**.

The screenshot shows the OpenCart admin dashboard. On the left, the 'CF' (Catalog) menu is expanded, and the 'Order' option is highlighted with a red box. The dashboard includes several widgets: 'TOTAL ORDERS' (1), 'TOTAL SALES' (11), 'TOTAL CUSTOMERS' (0), and 'PEOPLE ONLINE' (0). Below these are a 'World Map' and a 'Sales Analytics' chart showing data for 'Orders' and 'Customers' over a 30-day period.

- On clicking it, you will be navigated to the orders page as shown below:
