1. Overview

Trade Me is amongst one of the top internet auction websites operating in New Zealand.

It is New Zealand's most popular website and largest digital platform, with 75% of all domestic web traffic.

With 3.9 million registered users, it has a huge coverage. As 85% of the population of New Zealand holds a Trade Me account, the platform reaches a very broad demographic spread.

To make merchants experience the best selling results, CedCommerce brings the Trade Me Integration for Magento that not only allows the sellers to sell on Trade Me but also empowers the Magento store owner to synchronize the product inventory, price and other crucial details between Magento and Trade Me.

-Key Features-

- **Profile Based Category and Attribute Mapping:** This extension authorizes the admin to map the Categories and Attributes based on the profile, at a single place on the admin panel.
- **Product Operation:** It allows admin to perform product related tasks such as Product Uploading, ReListing, and Syncing, using bulk management system.
- Manage TradeMe Orders: It allows admin to import orders from the TradeMe Marketplace to convert it into regular Magento Orders.
- Easy Debug: Easy debug process for hassle-free products upload on the TradeMe marketplace.
- Crons: Cron job automates the process for Order management.

2. Configuration Settings

The first step that a seller needs to take is to complete the configuration while doing the TradeMe Integration for Magento.

Once the TradeMe Integration for Magento is successfully installed by the user. The configuration can be commenced.

For Configuration,

- Go to your Magento admin panel.
- On the top navigation bar, you may see **Trade Me.** Place the cursor on it and you will the options as shown in the figure below:

Lifetime Sales ₹1,516.54	Orders Amounts Select Range: Last 24 Hours -
Average Orders ₹27.08	No Data Found

- Click on **Configuration**.
- You will be navigated to the configuration page which has sections as shown below:

TradeMe Configuration	Save Config
Account Setting	0
Product Settings	•
Order Settings	•
Cron Settings	0

Account Settings-

• Click on Account Settings and the section will be expanded as shown below:

TradeMe Configuration			Save Config
Account Setting			٥
Mode	Sandbox A SandBox or Production Mode	[GLOBAL]	
OAuth Consumer Key		[GLOBAL]	
OAuth Consumer Secret		[GLOBAL]	
OAuth Callback URL		[GLOBAL]	
OAuth Token Secret		[GLOBAL]	
OAuth Access Token		[GLOBAL]	
Verifier Code		[GLOBAL]	
Fetch Token	Fetch Token A Fetch Temp Token and oauth varifier		
Validate Token	Validate Token		
Fetch Categories	Fetch Categories		

- In Mode, select Live or Sandbox as per your needs.
- In the OAuth Consumer Key, enter the key which you can get from the TradeMe seller panel.

- In the OAuth Consumer Secret, enter the Secret Key that you get from your Trade Me seller panel.
- In the OAuth Callback URL, enter the URL that you can get from your TradeMe Seller Panel.

TradeMe Configuration		Save Config
Account Setting		0
Mode	Sandbox A SandBox or Production Mode	[GLOBAL]
OAuth Consumer Key	1	[GLOBAL]
OAuth Consumer Secret		[GLOBAL]
OAuth Callback URL	ر	[GLOBAL]
OAuth Token Secret		[GLOBAL]
OAuth Access Token		[GLOBAL]
Verifier Code		[GLOBAL]
Fetch Token	Fetch Token A Fetch Temp Token and oauth varifier	
Validate Token	Validate Token A Fetch Final Token and Token Secret	
Fetch Categories	Fetch Categories	

• Now, for OAuth Token Secret, OAuth Access Token, and Verifier Code, you need to click on Fetch Token button in the same section and a new tab gets opened with the details of OAuth Token and OAuth Verifier, as has been shown in the image below:

Arra	/
÷	[oauth token] ⇒
	[oauth verifier] =>
)	-

(Note: If you have already logged in your TradeMe seller panel, you will get the details in a new tab as shown in the image above. If you have not logged in, you will be asked in the new tab to log in into your TradeMe seller panel and the moment you log in, the information will be provided as shown in the image above).

• You will see that by clicking on **Fetch Token**, the **OAuth Token Secret** and **OAuth Access Token** will be filled in the corresponding boxes automatically as shown in the image below:

TradeMe Configuration			Save Config
Account Setting			٥
Mode	Sandbox San	[GLOBAL]	
OAuth Consumer Key	5	[GLOBAL]	
OAuth Consumer Secret	į	[GLOBAL]	
OAuth Callback URL	1	[GLOBAL]	
OAuth Token Secret	([GLOBAL]	
OAuth Access Token		[GLOBAL]	
Verifier Code		[GLOBAL]	
Fetch Token	Success Fetch Token Fetch Tomp Token and oauth varifier		
Validate Token	Validate Token Fetch Final Token and Token Secret		
Fetch Categories	Fetch Categories		

- All that you need to do now is to copy the **Verifier Code** from the new tab that got opened upon clicking **Fetch Token**, paste it in the corresponding box, and click on **Validate Token**.
- The token will be successfully validated and you will see the message on top of the page as shown in the image below, in the red box:

TradeMe Token Successfully Valid	ated	
TradeMe Configuration		Save Config
Account Setting		0
Mode	Sandbox 🗾	[GLOBAL]
OAuth Consumer Key		[GLOBAL]

Payment Services	Shipping Method(for Custom Type		[GLOBAL]	

• Increase By Fixed Price: By selecting this, you can increase the price of your Magento Product on TradeMe by entering a particular amount. For example, if your product is for US\$100 on Magento, and if you increase the price by fixed amount and enter 50 in the corresponding box, then your product will be available on TradeMe for US\$150.

Product Settings		•
TradeMe Product Price	Increase By Fixed Price	[GLOBAL]
Enter Amount		[GLOBAL]
Select Payment Methods	None BankDeposit CreditCard Cash SafeTrader Other Afterpay	[GLOBAL]

- Increase By Fixed Percentage: By selecting this, you can increase the price of your Magento Product on TradeMe by entering a particular amount in the corresponding box which will be considered as a percentage. For example, if your product is for US\$100 on Magento, and if you increase the price by fixed percentage and enter 20 in the corresponding box, then your product will be available on TradeMe for US\$120 (20% of US\$100=US\$20. And the price on TradeMe will be US\$100+US\$20=US\$120).
- Decrease By Fixed Price: By selecting this, you can decrease the price of your Magento Product on TradeMe by entering a particular amount. For example, if your product is for US\$100 on Magento, and if you decrease the price by fixed amount and enter 50 in the corresponding box, then your product will be available on TradeMe for US\$50.
- Decrease By Fixed Percentage: By selecting this, you can decrease the price of your Magento Product on TradeMe by entering a particular amount in the corresponding box which will be considered as a percentage. For example, if your product is for US\$100 on Magento, and if you decrease the price by fixed percentage and enter 20 in the corresponding box, then your product will be available on TradeMe for US\$80 (20% of US\$100=US\$20. And the price on TradeMe will be US\$100-US\$20=US\$80).
- Set Individually For Each Product: By selecting this option, the Map Attribute section appears as shown in the image below:

Product Settings		0
TradeMe Product Price	set individually for each product Select to send different product price to TradeMe	[GLOBAL]
Map Attribute	Price Attribute Code Required in case of Custom Fixed Price	[GLOBAL]

- From the drop down, select the **Attribute Code** and the custom fixed price will be fetched form the code and this is the price that will be sent to TradeMe for your Magento products.
- Now select payment method in the Select Payment Method for order as shown in the image below:

Select Payment Methods	None	[GLOBAL]
	BankDeposit	
	CreditCard	
	Cash	
	SafeTrader	
	Other	
	Afterpay	

• In Select Shipping Options, select the shipping option from the options as shown in the image below:

Select Shipping Options	None Undecided Pickup Free Custom	[GLOBAL]
	Undecided	
	Pickup	
	Free	
	Custom	
	Trademe	

- In Shipping Price(For Custom Type Only), enter the shipping price if you have chosen Custom in the Select Shipping Options.
- In Shipping Method(For Custom Type Only), enter the shipping method if you have chosen Custom in the Select Shipping Options.
- In **Select Store**, select the store from which you want to export your products to the TradeMe Marketplace.
- In the **Chunk Size (Product Upload)**, enter the quantity of product(s) you want to be uploaded on TradeMe from your Magento store in one batch.

Order Settings-

• Click on Order Settings and the section gets expanded as shown below:

Order Settings				
Select Store	Default Store View A Select Store to get Trademe Orders.	•	[GLOBAL]	
Select Order Filter	Sale Completed A Select Store to get Trademe Orders.	•	[GLOBAL]	
Shipping Method	Trademe Shipping A Select Shipping Method to get Trademe Orders.	•	[GLOBAL]	
Payement Method	Trade Me	•	[GLOBAL]	
Order Customer Group	NOT LOGGED IN	•	[GLOBAL]	
Create Order if product is OutOfStock	No	• ?	[WEBSITE]	
e-mail Id for order notification			[GLOBAL]	

• In the Select Store, select the store on which you want the TradeMe orders to be imported.

- In the **Select Order Filter**, select the time duration after which you want the orders to be imported from TradeMe.
- In the Shipping Method, select the TradeMe Shipping Method.
- In Payment Method, select Payment Method to get Trademe Orders on Magento.
- In Order Customer Group, select the group on which the customers along with their information and their order details will be listed.
- In Create Order if product is Out Of Stock, if you select Yes, then products which are out of stock will also be acknowledged on TradeMe if they have been ordered. If No is selected, no action will be taken for the products which are out of stock, if they have been ordered.
- Enter the e-mail id on which you will be getting notifications regarding the orders in the e-mail Id for Order Notification.

Cron Settings-

• Click on the Cron Settings section and it gets expanded as shown below:

Cron Settings		•
Cron Settings Override	No	[WEBSITE]

• Now, if you want to customize or change the cron settings, then select **Yes**, in the Cron Settings Override. The section gets expanded as shown below:

Cron Settings			٥
Cron Settings Override	Yes	[WEBSITE]	
Order Cron	*/30 * * * *	[GLOBAL]	
	▲ Please Enter number in * * * * * format for execute cron		

• In the **Order Cron**, enter the number in minutes and after every time interval of those minutes, the orders will by synced to Magento from TradeMe.

3. Profile Management

While doing the TradeMe Integration for Magento, the next step after configuration is the management of profile(s). While doing the management of profiles, you may:

- Add new profile
- Edit the profile
- Delete new profile

3.1. Add New Profile

To Add a New Profile,

- Go to your Magento Admin Panel.
- On the top navigation bar, place cursor on Trade Me, and amongst the options displayed, click on Manage Profiles.
