1. Overview

Wish is a mobile and web E-Commerce platform that was founded in the year 2011. Headquartered in San Francisco, USA, it operates worldwide with a major presence in the regions of North America, Europe, Brazil, and China. It is one of the largest e-commerce companies in the world and allows sellers to sell on Wish in some simple steps

Launched much after them, Wish.com has been a competitor for formidable marketplaces such as Walmart and Amazon. Wish currently has thousands of active merchants who have been selling products to millions of users globally.

CedWish OpenCart Integration is CedCommerce's Wish OpenCart Integration that helps the OpenCart store owners to synchronize inventory, price, and other product details for the product creation and its management between the OpenCart store and the Wish marketplace.

The CedCommerce's Wish OpenCart Integration extension integrates the synchronized product listing between OpenCart and Wish. Once the seller has installed the extension, it is very easy to integrate the OpenCart store with Wish marketplace.

Glance over its advanced features!

The Key Features are as follows:

Profile-based Product Upload: Admin can create a profile, map Wish attributes to the OpenCart attribute, and then after assigning the products to the profile can easily upload products to Wish.com.

Attribute Mapping: Admin may map suitable existing attributes with Wish attributes.

Bulk Upload: The merchant has the flexibility to upload as many number of products on Wish.com using bulk product upload feature, as wanted.

Synchronized Inventory: Auto synchronization of product inventory at regular intervals and the listing of the products along with all the details is established between OpenCart and Wish.com.

Enable and Disable Products: Merchants can close and reopen the products on Wish.com using Enable and Disable feature.

2. Configuration Settings

Once the module has been installed, the first necessary step needs to be taken by the admin is to complete the Configuration.

To do the Configuration,

- Go to you OpenCart admin panel.
- Place the cursor on **CW** which is on the left navigation bar, as shown in the figure below.
- From the menu that appears as shown in the image below, click on **Configuration**.

The screenshot shows the OpenCart dashboard with the following statistics:

- TOTAL ORDERS: 46 (0%)
- TOTAL SALES: 3.5K (0%)
- TOTAL CUSTOMERS: 0 (0%)
- PEOPLE ONLINE: 0

The sidebar menu includes the following options:

- Configuration (highlighted with a red box)
- Profile
- Order
- Order Error
- Product

The main content area features a World Map and a Sales Analytics chart showing Orders and Customers over a 31-day period.

- On clicking Configuration, you will be navigated to the Configuration page as shown below:

The screenshot shows the 'Wish Setting' configuration page with the following settings:

- Status:** Enabled
- API Mode:** Sandbox
- Sandbox Client ID:** [Redacted]
- Sandbox Client Secret:** [Redacted]
- Redirect URI:** [Redacted]
- Generate Code:** [Generate Code button]
- Code:** [Redacted]
- Validate Token:** [Validate Token button]
- Access Token:** [Redacted]
- Refresh Token:** [Refresh Token button]
- Refresh Token:** [Redacted]
- Enable Logging:** Enabled

General

- In **Status**, select **Enabled** to enable the module.
- In **API Mode**, select from **Sandbox or Production**.
- In **Client ID**, enter the client ID that you may get from your Wish seller panel.
- In **Client Secret**, enter the client ID that you may get from your Wish seller panel.
- The **Redirect URL** is the field where your store URL gets auto filled. Once the Generate Code button is

clicked, you will get redirected to you Wish seller account and after completing the process, it will redirect to this same URL.

- Click **Generate Code** in the next field and a new tab of Wish seller panel will be opened and on logging in to your panel, you may get the code.
- Once you get the code just refresh the configuration page and the **Code , Access Token** and **Refresh Token** fields will automatically get filled.
- Click **Validate Token** in the next field to validate the token.
- In **Access Token**, the access token gets filled automatically once you click **Generate Code** button.
- Click **Refresh Token** to refresh the token.
- In **Refresh Token**, the refresh token gets filled automatically once you click **Generate Code** button.
- In **Enable Logging**, select **enabled** if you want the log to be created. If you don't want that, select **disabled**.

Wish Product Setting

Wish Setting [Home / Modules / Wish Setting](#)

Edit Wish Setting

General **Product Setting** Order Setting Cron Setting

Product Price: Increase By Fixed Price

Modify By Fixed Price: 5.0

Default Tags: Tags,Default tags

Default Shipping: cghf 576

CED Wish [Home / Modules / CED Wish](#)

Edit CED Wish Module

General **Wish Product Settings** Wish Order Settings Wish Cron Settings Wish Chunk (Batch) Settings

Product Price: --Product Price--

Cedwish Default Tags: Regular Price, Increase By Fixed Price, Decrease By Fixed Price, Increase By Fixed Percentage, Decrease By Fixed Percentage

Cedwish Default Shipping: [Empty]

Auto Update Product: Disabled

- **Regular Price:** Choose this if you don't want any change in price between your OpenCart store and Wish.
- **Increase By Fixed Price:** You may select this option if you want your product price to be increased on Wish as compared to you OpenCart store. If you select this option, a box appears as shown below:

Modify By Fixed Price

5.0

- By choosing this option, you may enter in the **Modify By Fixed Price** box the amount by which you want your product price to be Increased on Wish as compared to your OpenCart store. Suppose if you enter 50 in this field and your product is for 100 on your OpenCart store, then the amount that your product will be available for on Wish would be 150 (as the amount entered is 50 for **Increase** by fixed price, so the price entered would be added to the price for which product is available on OpenCart).
- **Decrease By Fixed Price-** You may use this option if you want the price of your OpenCart product to be decreased on Wish.
- By choosing this option, you may enter in the **Modify By Fixed Price** box the amount by which you want your product price to be decreased on Wish as compared to your OpenCart store. Suppose if you enter 50 in this field and your product is for 100 on your OpenCart store, then the amount that your product will be available for on Wish would be 50 (as the amount entered is 50 for **Decrease** by fixed price, so the price entered would be subtracted from the price for which product is available on OpenCart).
- **Increase by Fix Percentage-** You may use this option if you want the price of your OpenCart product to be increased on Wish by a certain percent.
- By choosing this option, you may enter in the **Modify by Percentage** box the percentage amount by which you want your product price to be increased on Wish as compared to your OpenCart store. Suppose if you enter 20 in this field and your product is for 100 on your OpenCart store, then the amount that your product will be available for on Wish would be 120 (as 20% of 100 is 20 which gets added to 100).
- **Decrease By Fix Percent-** You may use this option if you want the price of your OpenCart product to be decreased on Wish by a certain percent.
- By choosing this option, you may enter in the **Modify by Percentage** box the percentage amount by which you want your product price to be decreased on Wish as compared to your OpenCart store. Suppose if you enter 20 in this field and your product is for 100 on your OpenCart store, then the amount that your product will be available for on Wish would be 80 (as 20% of 100 is 20 which gets subtracted from 100).
- In **CedWish Default Tag**, enter the default tags for your products that you will be sending at Wish.
- In **Default Shipping**, enter the default shipping price.
- In the next field of **Auto Update Product**, select **enabled** if you want the products to be updated automatically.

Order Settings

Wish Setting [Home](#) / [Modules](#) / [Wish Setting](#)

 Edit Wish Setting

General Product Setting **Order Setting** Cron Setting

Order Notification Email

Default Customer Email

Auto Accept Order

Auto Cancel Order

- In **Order Notification Email**, enter the email id on which you want to receive the notifications for orders placed on Wish for your products.
- In **Default Customer Email**, enter the ID for customers to be created, for orders which are imported from

Wish.

- In **Auto Accept Order**, select **enabled** if you want the orders placed on Wish to be auto accepted.
- In **Auto Cancel Order**, select **enabled** if you want the orders placed on Wish to be auto canceled.

Cron Settings

The screenshot shows the 'Wish Setting' page with the 'Cron Setting' tab selected. The 'Edit Wish Setting' header is visible. Below the tabs, there are four configuration rows:

Field Name	Value
Order Cron	https://demo.cedcommerce.com/integration/opencart2.0/index.php?route=ced_wish/order/fetchOrder
Order Cron Time	30 mins
Inventory Cron	https://demo.cedcommerce.com/integration/opencart2.0/index.php?route=ced_wish/product/fetchStatus
Inventory Cron Time	Once a day

- Copy the auto generated Order Cron link from the Order Cron field and paste the cron URL in your cPanel along with setting the mentioned time here in your cPanel, to automatically fetch the orders.
- Copy the auto generated Inventory Cron link from the Inventory Cron field and paste the cron URL in your cPanel along with setting the mentioned time here in your cPanel, to automatically update the inventory.

3. Profile Management

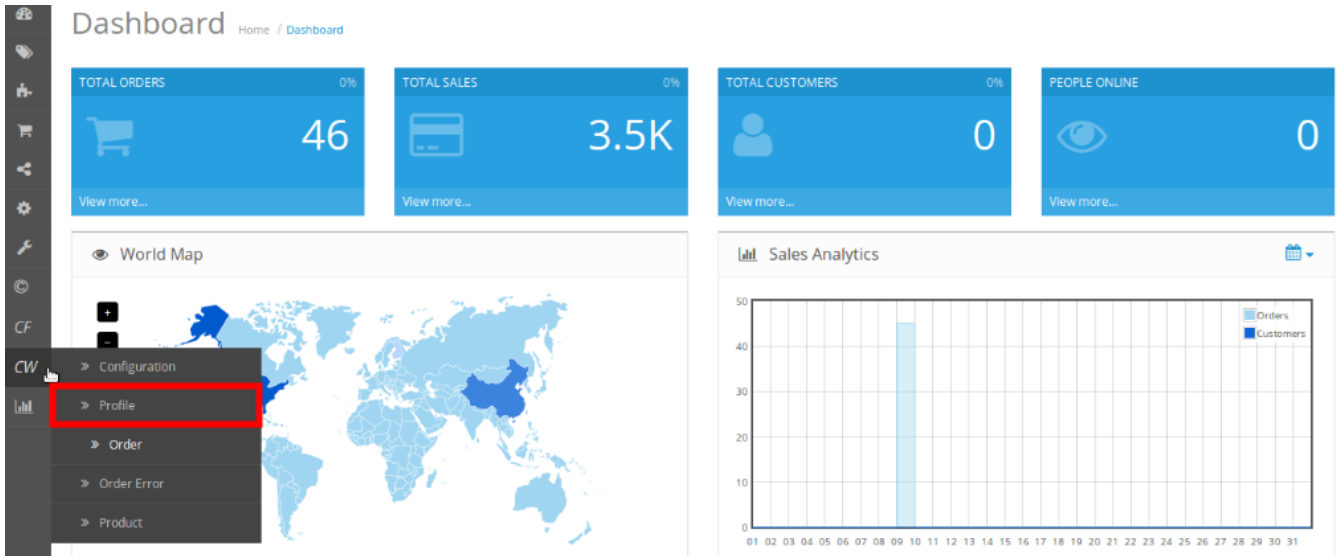

While integrating the OpenCart store with Wish, under the **Profile** section, a seller/admin has the liberty to perform the below mentioned actions:

- Adding a Profile
- Editing a Profile
- Deleting a Profile

3.1. Adding a New Profile

To Add a New Profile.

- On your OpenCart admin panel, place the cursor on **CW** and click on **Profile** when the menu appears as shown below:

- On clicking Profile, you will be navigated to the page as shown below:

- Click on the button on the top right of the page with '+ Sign' to add a new profile, as shown in the above image.
- On clicking it, you will be navigated to the page as shown below:

✎ Add Profile

Profile Info
Attribute
Variant Attribute
Default

* **Profile Name**

* **Stock Category**

Manufacturer

Store

Store Language

Status

Map Category

- In **Name**, enter your profile name.
- In **Stock Category**, select the stock category. You may select more than one category in this part.
- In **Manufacturer**, enter the Manufacturer's name.
- In **Store**, select your store or keep it as default.
- In **Store Language**, select the language for your store.
- In **Status**, select **enabled** to enable your profile.

Once you've added the details in this section, move on to the next section from the upper section as shown below:

✎ Add Profile

Map Category
Attribute
Variant Attribute
Default

English

Attribute

- On clicking the Attribute, the section will appear to you as:

Profile [Home](#) / [Profile](#)  

 Add Profile

Map Category	Attribute	Variant Attribute	Default
	* name	<input type="text"/>	<input type="text"/>
	* description	<input type="text"/>	<input type="text"/>
	declared_name	<input type="text"/>	<input type="text"/>
	declared_local_name	<input type="text"/>	<input type="text"/>
	pieces	<input type="text"/>	<input type="text"/>

	declared_value	declared_value	
	hscode	hscode	
	origin_country		
	has_powder		
	has_liquid		
	has_battery		
	has_metal		

- In **tags**, enter the tags for your products which will be used as default if not selected in the attribute section.
- In **inventory**, enter the default inventory.
- In **shipping**, enter the default shipping price for your products.
- Enter the default **msrp** value for your product.
- Enter the default **shipping time** for your profile products.
- Select the **brand** of the product.
- Enter the **landing page URL**.
- Enter the product **UPC**.
- Enter the **maximum quantity** of products.
- Enter the **length, width, height, weight** of your profile products.
- Enter the **declared value** of your product in the next field.
- Enter the **hscode** of products.
- Enter the origin country of the products of profile.
- Select form **True** or **False** if the product **has powder**.

- Select from **True** or **False** if the product **has liquid**.
- Select from **True** or **False** if the product **has battery**.
- Select from **True** or **False** if the product **has metal**.

Once all the necessary actions have been taken, click on save button on the top right side of the page. The profile will be created and you will be navigated to the profile page with a success message.

- On this page you may make the changes as you want.
- You may click on different section from the upper menu and make changes required.
- Once the changes have been made, click on **Save** button on the upper right side of page.
- The changes you have made will be saved.

3.3. Deleting a Profile

To Delete a Profile.

- On your OpenCart admin panel, place the cursor on the **CW** in the left navigation bar.
- The menu appears and you need to click on **Profile**.

- On clicking it, you will be navigated to the following page:

- Now select the profile you want to delete and click on the **Delete** button as highlighted in red box in the above image.
- A box will appear asking you to confirm your action. Click **OK** and the profile will be deleted.

4. Manage Products

From the Product section of the Admin Panel, an admin can take multiple actions for its products such as:

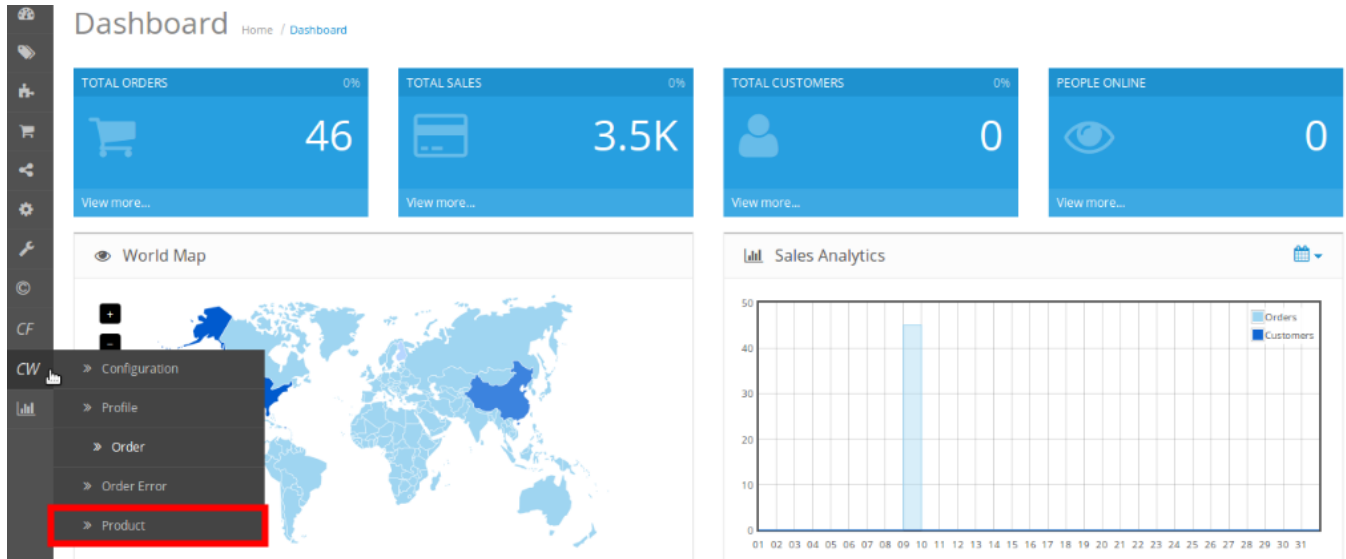

- Upload All Product
- Upload Multiple Products in Bulk
- Disable Selected Products in Bulk
- Enable Selected Products in Bulk
- Sync Product Inventory

- Fetch Product Status
- Edit Product Details

Upload All Products on Fruugo:

To upload all your products to Fruugo,

- Go to OpenCart admin panel.
- Place cursor on **CW** in the left navigation bar.
- When menu appears, click on **Products**.

- On clicking **Product**, you will be navigated to the page as shown below:

Wish Product(s) [Home / text_ced_wish / Wish Product\(s\)](#) Upload All Bulk Upload Bulk Disable Bulk Enable Sync Products Fetch Status

*** Product Name**

Description

The 30-inch Apple Cinema HD Display delivers an amazing 2560 x 1600 pixel resolution. Designed specifically for the creative professional, this display provides more space for easier access to all the tools and palettes needed to edit, format and composite your work. Combine this display with a Mac Pro, MacBook Pro, or PowerMac G5 and there's no limit to what you can achieve.

The Cinema HD features an active-matrix liquid crystal display that produces flicker-free images that deliver twice the brightness, twice the sharpness and twice the contrast ratio of a typical CRT display. Unlike other flat panels, it's designed with a pure digital interface to deliver distortion-free images that never need adjusting. With over 4 million digital pixels, the display is uniquely suited for scientific and technical applications such as visualizing molecular structures or analyzing geological data

- On this page, you may make the changes as per your needs in sections from the top menu, that can be seen in the image above.
- Once the changes have been made, click on **Save** button on the top right side of the page in blue color.
- The changes will be made and the product will be edited.

5. Order Management

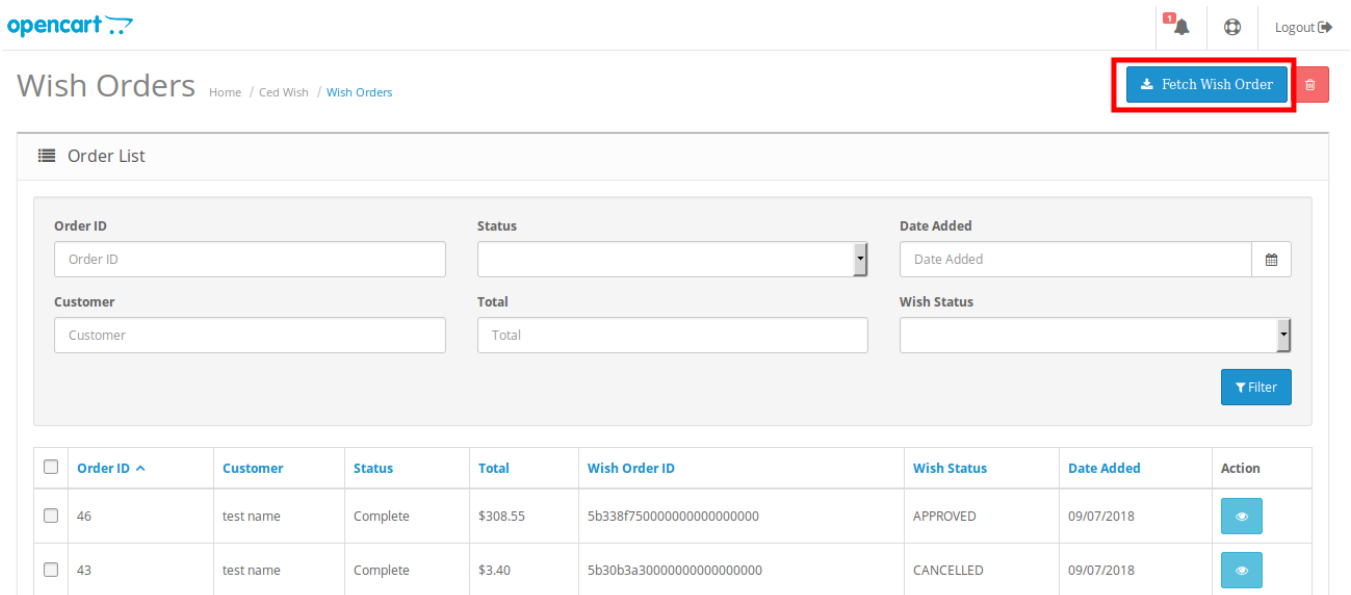

Once a seller has started selling on Wish using the CedCommerce's Wish OpenCart Integration Extension, the orders that have been placed for the seller's products on Wish can be managed from the admin panel itself.

To go to the order's page,

- Place cursor on **CW** in the left navigation bar on your OpenCart admin panel.
- When menu appears, click on **Orders**.

- On clicking it, you will be navigated to the orders page as shown below:

- On the top right of the page, click **Fetch Wish Orders**(in red box in the image above) to fetch all the orders from Wish. They will be listed as shown in the above image.

To view the order, click on the View button as highlighted in the image below:

- On clicking it, you will be navigated to the page as shown below:

Order Details		Shipping Info	
Customer ID :	4	Shipping Firstname :	test
Order ID :	5b338f750000000000000000	Shipping Lastname :	name

Order ID :	<input type="text" value="5b338f750000000000000000"/>
Tracking Provider :	<input type="text"/>
Tracking Number :	<input type="text"/>
Ship Note :	<input type="text"/>
<input type="button" value="Ship Whole Order"/>	

- On the page shown in the above image, you may take multiple actions.
- You may see the order details as shown in the image.
- You may also take actions such as:
 - Cancel Order by clicking on **Cancel** button which is in **Red color**.
 - Ship Order by clicking on **Ship Whole Order** button which is in **blue color** at the bottom of the page, after entering **Tracking Provider Name**, **Tracking Number**, and **Ship Note**. The order will be shipped.

To Delete the Order,

- Place cursor on CW in the left navigation bar on your OpenCart admin panel.
- When menu appears, click on **Orders**.

- On clicking it, you will be navigated to the orders page as shown below:

Order List

Order ID: Status: Date Added:

Customer: Total: Wish Status:

<input type="checkbox"/>	Order ID ^	Customer	Status	Total	Wish Order ID	Wish Status	Date Added	Action
