1. Overview

Walmart Mexico improves the communities where their associates and customers live and work. With the assistance of the Walmart Mexico Foundation, Walmart supports four primary pillars and they are fighting hunger, sustainable communities, volunteerism, and natural disaster relief.

Continuous investment in sustainable facility design has resulted in more than half of their stores in Mexico being powered by wind and other clean energy sources.

Hypermarket stores of Walmart provide the widest assortment of merchandise from groceries to apparel and general merchandise. Walmart was the first format that emerged from the joint venture of Cifra S.A. de C.V. with Wal-Mart Stores, Inc. combining the best of both businesses.

Walmart Mexico Prestashop Integration extension renders the Real-Time Synchronization of orders, products, pricing, and inventory through establishing the interaction between the Walmart Mexico APIs and the Prestashop store.

Prestashop store owners can very smoothly create the Walmart Mexico Categories and its dependent attributes in the Prestashop store. Hence, it enables them to establish a mapping of the desired product category on the Prestashop store for automatic submission of the selected product to the same category on Walmart Mexico.com.

It makes the process easier for the Prestashop store owners to manage the Walmart Mexico orders in the Prestashop stores without making any significant changes in the operational functionalities.

It synchronizes the product listing between your Prestashop store and the Walmart Mexico.com retailers. Products modified on the Prestashop store gets modified on Walmart Mexico.com.

Key features are as follows:

- **Easy Product Upload:** Products are uploaded with a single click when they are ready to upload.
- **Product Data Validation:** The extension enables validating the product information in accordance with Walmart standard and values.
- **Bulk Uploading:** The Walmart marketplace API integration extension enables sellers to upload products in a large number and thus minimize the manual work.
- **Real-time stock updates:** Stocks are updated automatically on both ends as stock status updated in your local shop or as per the order is marked for shipment by Walmart.
- **Centralized order management:** The orders can be easily acknowledged or canceled through centralized order management system.
- **Shipment:** This feature helps to supports high volume shippers with commercial pricing.
- **New Order Notifications:** Whenever a new order is fetched from Walmart.com, the admin receives a notification.
- **Order Cancellation:** It facilitates the admin to cancel the Orders. Once orders get canceled, a fee credit gets issued.
- **Refund:** Refunds are processed back to the original payment method used to purchase the order. Refund is also possible through extension.

2. Retrieve API Credentials from the Walmart Seller Account

The Prestashop store owner has to fill in the API credentials on the **Walmart Integration** page of the admin

panel.

The user has to log in the Walmart Seller account to retrieve the following API credentials:

- **Consumer Id**
- **Private Key**

After retrieving the **Consumer Id** and the **Private Key**, the merchant has to copy all of them one by one from the Walmart Seller account and paste it one by one to the **Walmart Integration** page of the admin panel of the merchant.

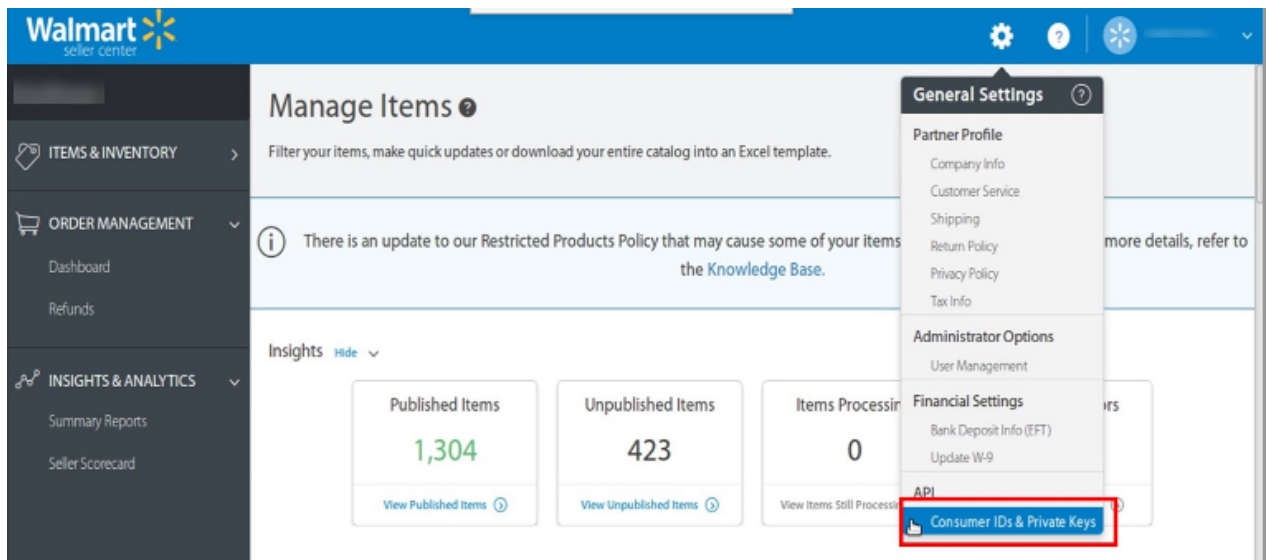

To copy the API Credentials from the Walmart Seller account

1. Open the **Walmart Seller** account.
2. Click the **Settings**

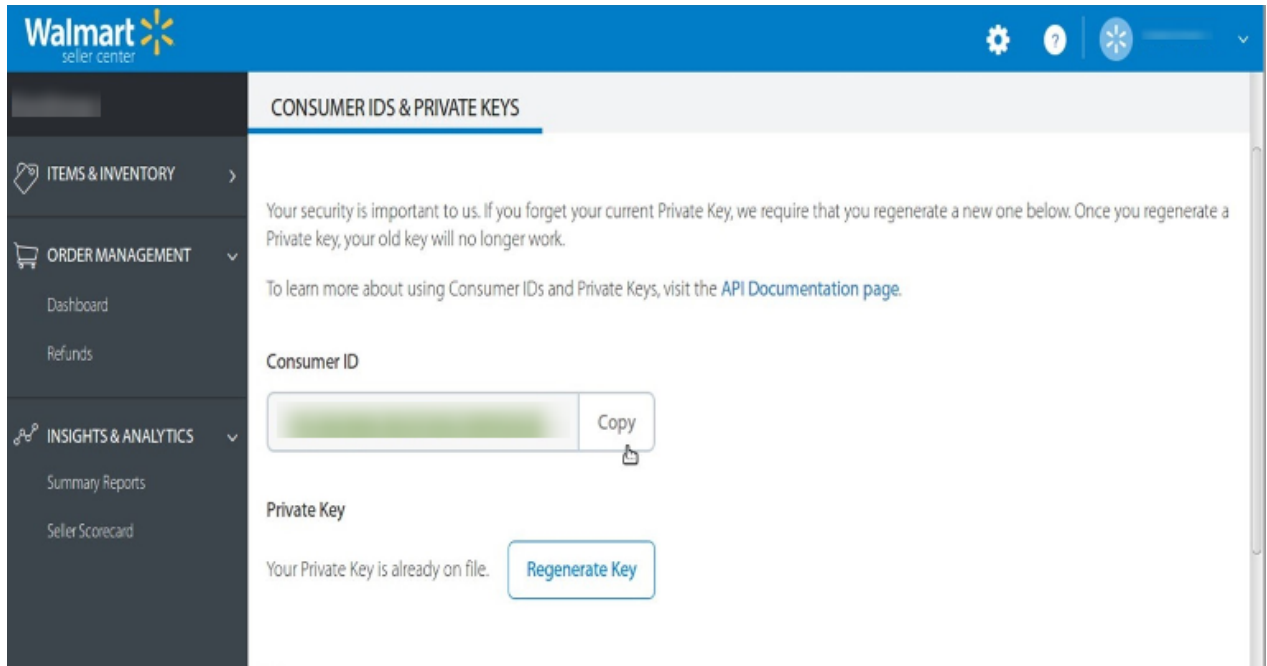

icon.

The **General Settings** menu appears as shown in the following figure:

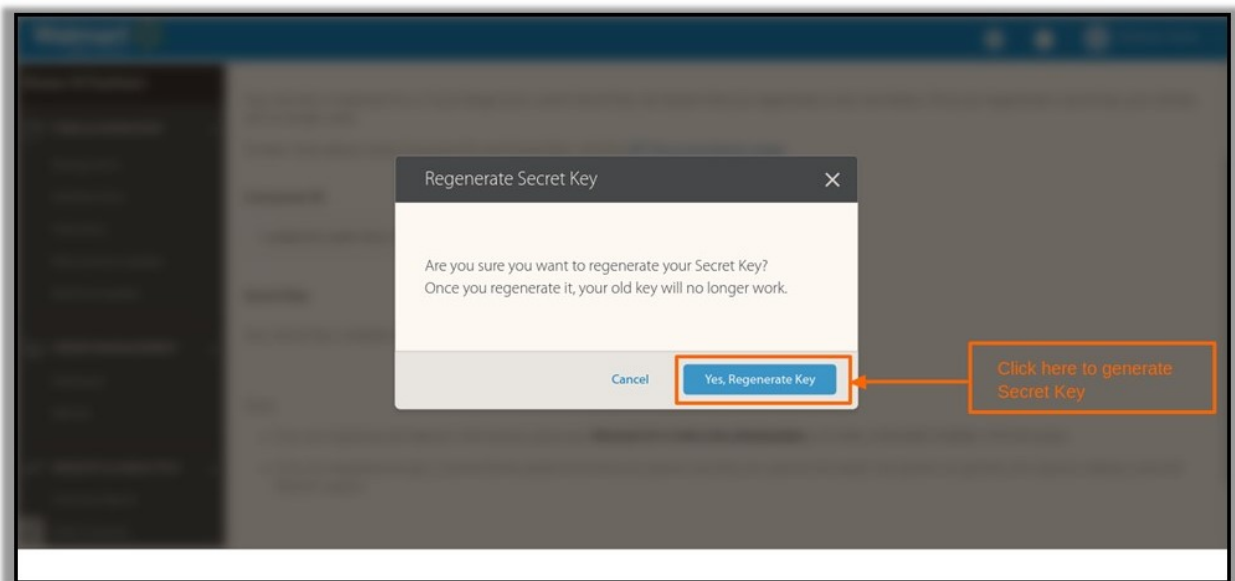

3. Under **API**, click **Consumer IDs & Private Keys**.
The page appears as shown in the following figure:

4. Under **Consumer ID**, click the **Copy** button.

5. Under **Private Key**, click the **Regenerate Key** button.

The **Regenerate Secret Key** dialog box appears as shown in the following figure:

6. Click the **Yes, Regenerate Key** button.

The key is generated. Copy the generated key.

3. Walmart Integration Configuration Settings

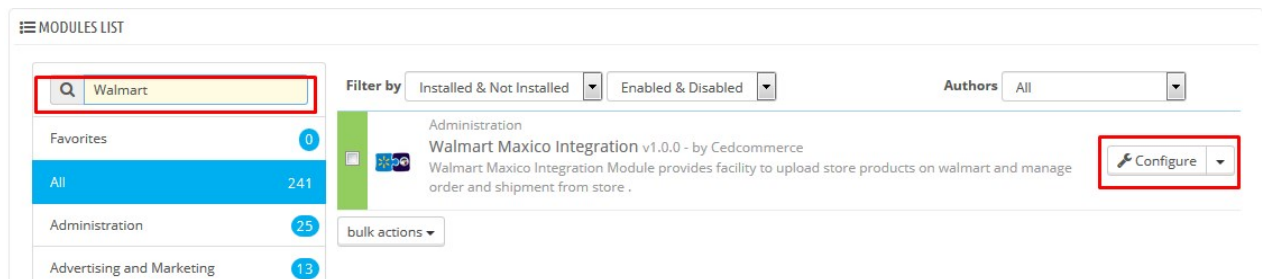

After obtaining the **Consumer Id** and the **Private Key** from the Walmart Seller account, the Prestashop store owner has to paste them on the **Walmart Integration** page of the admin panel of the merchant.

To Set up the Walmart Integration settings in the Prestashop Admin panel

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, click the **MODULES** menu.
The menu appears as shown in the following figure:

3. Click **Modules**.
The **MODULES LIST** page appears as shown in the following figure:

4. In the **Search** box, enter the **Walmart Mexico Integration** module name.
The **Walmart Mexico Integration** module appears in the right panel.
5. Click the **Configure** button.

4. Manage Walmart Mexico Category to Prestashop Category

The Prestashop store owner can map the Walmart Mexico Categories to the Prestashop Categories.

To map the Walmart Mexico categories to the Prestashop categories

1. Go to the Prestashop Admin panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Category**.

The **Walmart Maxico Category** page appears as shown in the following figure:

3. Under **Walmart Maxico Category**, select the required category from the list.
If the selected category has sub-categories then another list appears.
4. In the list, select the required sub-category of the selected parent category.
5. In the **Store Category** list, select the required category to map.
6. Click the **SAVE MAPPING** button.

5. Manage Categories and Attributes

The Prestashop store owner can perform the following tasks:

- Edit Category mapping.
- View the Walmart Mexico and store Attributes and map the Attributes of the selected category
- Set the default value of the attribute of the selected mapped category for all products

To edit the category mapping

1. Go to the Prestashop Admin panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Category Mappings**.

The **Mapped Categories** page appears as shown in the following figure:

ID	Category Name	Walmart Maxico Category	Action
1	Women	Accesorios de Moda	EDIT ATTRIBUTE MAPPING DEFAULT VALUES
2	Home	Belleza y Cuidado Personal	EDIT ATTRIBUTE MAPPING DEFAULT VALUES
3	Tops	Accesorios de Moda	EDIT ATTRIBUTE MAPPING DEFAULT VALUES

3. Scroll down to the required category, and then click the corresponding **EDIT** button.
The page appears as shown in the following figure:

4. Select the required category from the respective list, and then click the **SAVE MAPPING** button.

To map the attributes of the selected category

1. Go to the **MAPPED CATEGORIES** page.

ID	Category Name	Walmart Maxico Category	Action
1	Women	Accesorios de Moda	EDIT ATTRIBUTE MAPPING DEFAULT VALUES
2	Home	Belleza y Cuidado Personal	EDIT ATTRIBUTE MAPPING DEFAULT VALUES
3	Tops	Accesorios de Moda	EDIT ATTRIBUTE MAPPING DEFAULT VALUES

2. Scroll down to the required category, and then click the corresponding **ATTRIBUTE MAPPING** button. The page appears as shown in the following figure:

Name	Code	Type	Store Attribute
*Título de producto	(AMM_TITULO)	(TEXT)	Reference
*EAN / UPC	(AMM_UPC)	(TEXT)	EAN
*Modelo	(AMM_MODELO)	(TEXT)	
*Descripción Corta	(AMM_DES_CORTA)	(TEXT)	
*Descripción de Venta (Larga)	(AMM_DES_LARGA)	(TEXT)	
*Contenido de la caja	(AMM_CONT_CAJA)	(TEXT)	

3. Scroll down to the required attribute row.
4. In the **Store Attribute** column, select the required attribute from the list.
5. Click the **SAVE** button.

To set the default value of the attribute of the selected mapped category for all products

1. Go to the **MAPPED CATEGORIES** page.

ID	Category Name	Walmart Mexico Category	Action
1	Women	Accesorios de Moda	EDIT ATTRIBUTE MAPPING DEFAULT VALUES
2	Home	Belleza y Cuidado Personal	EDIT ATTRIBUTE MAPPING DEFAULT VALUES
3	Tops	Accesorios de Moda	EDIT ATTRIBUTE MAPPING DEFAULT VALUES

2. Scroll down to the required category, and then click the corresponding **DEFAULT VALUES** button. The page appears as shown in the following figure:

Name	Code	Type	Store Attribute
*Color	(AMM_COLOR)	(LIST)	VLC_VIOLETA
*Modelo	(AMM_MODELO)	(TEXT)	
*Contenido de la caja	(AMM_CONT_CAJA)	(TEXT)	
*Talla	(AMM_TALLA)	(TEXT)	
*Alto de producto (CM)	(AMM_ALTO_PROD)	(TEXT)	
*Largo de producto (CM)	(AMM_LARGO_PROD)	(TEXT)	
*Ancho de producto (CM)	(AMM_ANCHO_PROD)	(TEXT)	

3. Scroll down to the required attribute row.
4. In the **Store Attribute** column, select the required value from the list.
5. Click the **SAVE** button.

6. Walmart Products

On the **WALMART PRODUCTS** page, the store admin can perform the following tasks:

- Select All or Unselect All products(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=select-all-or-unselect-all-products>)
- **Upload All** the listed Products to the **Walmart** Web site, Upload the Single Product, and Upload the Selected Products(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=upload-products-4>)
- Edit the Product Information(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=upload-products-4>)

- Enable or Disable the Selected Products or the single product(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=enable-or-disable-the-products>)
- Retire the Selected Products(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=retire-the-selected-products>)
- Synchronize the Selected Products(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=synchronize-the-selected-products>)
- Delete the Single Product(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=delete-the-single-product>)

6.1. Select All or Unselect All products

To select all or unselect all the products to perform the further action on them

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Products**.

The **WALMART PRODUCTS** page appears as shown in the following figure:

ID	Image	Name	Reference	Category	Base price	Final price	Quantity	Status
4		Printed Dress	demo_4	Evening Dresses	\$50.99	\$50.99	900	<input type="checkbox"/>
5		Printed Summer Dress	demo_5	Summer Dresses	\$30.51	\$28.98	3600	<input checked="" type="checkbox"/>
6		Printed Summer Dress	demo_6	Summer Dresses	\$30.50	\$30.50	900	<input checked="" type="checkbox"/>
7		Printed Chiffon Dress	demo_7	Summer Dresses	\$20.50	\$16.40	1800	<input checked="" type="checkbox"/>

3. Select the check boxes associated with the required Products to enable or disable them at Walmart.

The menu appears as shown in the following figure:

5. To select all the products, click **Select all**.
All the listed products are selected.
6. To select all the products, click **Unselect all**.
The checkboxes associated with the selected product are cleared.

6.2. Upload Products

To upload all the listed products to the Walmart Website

First Procedure

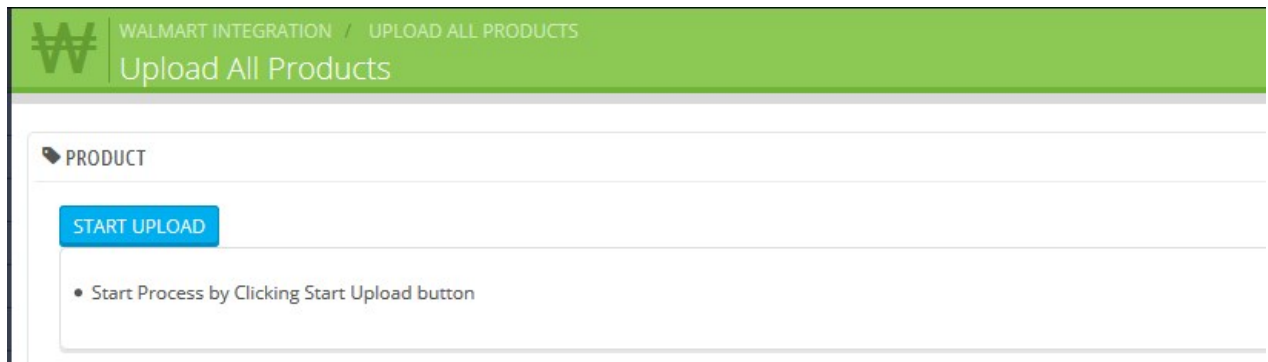

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Products**.

The **WALMART PRODUCTS** page appears as shown in the following figure:

ID	Image	Name	Reference	Category	Base price	Final price	Quantity	Status
4		Printed Dress	demo_4	Evening Dresses	\$50.99	\$50.99	900	✖
5		Printed Summer Dress	demo_5	Summer Dresses	\$30.51	\$28.98	3600	✔
6		Printed Summer Dress	demo_6	Summer Dresses	\$30.50	\$30.50	900	✔
7		Printed Chiffon Dress	demo_7	Summer Dresses	\$20.50	\$16.40	1800	✔

3. In the top-right corner, click the **Upload All** link.

The **Upload All Products** page appears as shown in the following figure:

4. Click the **START UPLOAD** button.

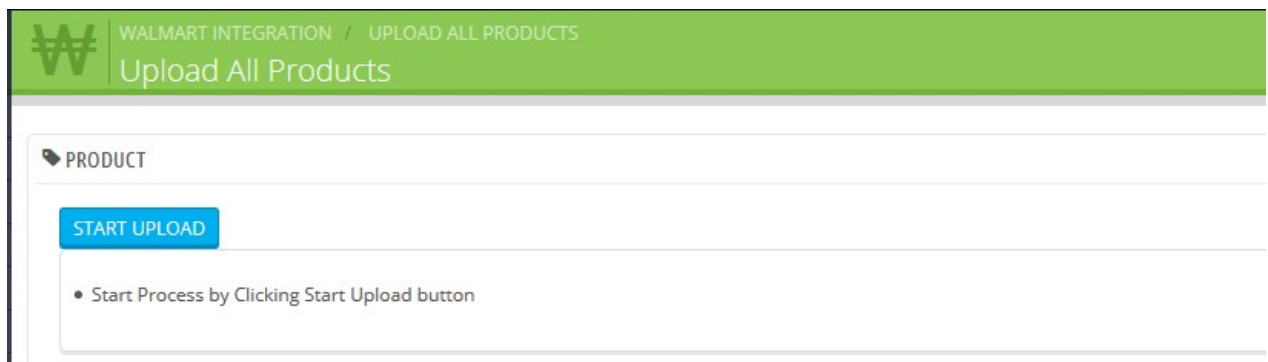

If the products are valid and error free, then all the products are uploaded and the feed id appears on the page as shown in the following figure:

The error details appear on the page if any.

Second Procedure

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Upload All Products**.
3. The **Upload All Products** page appears as shown in the following figure:

4. Click the **START UPLOAD** button.

The process of upload starts. If the products are valid and error free, then all the products are uploaded and the feed id appears on the page as shown in the following figure:

The error details appear on the page if any.

To upload the single product to the Walmart Website

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Products**.

The **WALMART PRODUCTS** page appears as shown in the following figure:

ID	Image	Name	Reference	Category	Base price	Final price	Quantity	Status
4		Printed Dress	demo_4	Evening Dresses	\$50.99	\$50.99	900	✖
5		Printed Summer Dress	demo_5	Summer Dresses	\$30.51	\$28.98	3600	✔
6		Printed Summer Dress	demo_6	Summer Dresses	\$30.50	\$30.50	900	✔
7		Printed Chiffon Dress	demo_7	Summer Dresses	\$20.50	\$16.40	1800	✔

3. Scroll down to the required product to upload.
4. In the respective row, click the **Arrow** button next to the **Edit** button. The menu appears as shown in the following figure:

5. Click **Upload Product**.

If the product is valid and error free, then it is uploaded and the feed id appears on the page as shown in the following figure:

The error details appear on the page if any.

To upload the selected products to the Walmart Website

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Products**.

The **WALMART PRODUCTS** page appears as shown in the following figure:

ID	Image	Name	Reference	Category	Base price	Final price	Quantity	Status
4		Printed Dress	demo_4	Evening Dresses	\$50.99	\$50.99	900	✖
5		Printed Summer Dress	demo_5	Summer Dresses	\$30.51	\$28.98	3600	✔
6		Printed Summer Dress	demo_6	Summer Dresses	\$30.50	\$30.50	900	✔
7		Printed Chiffon Dress	demo_7	Summer Dresses	\$20.50	\$16.40	1800	✔

3. Select the check boxes associated with the required Products to upload to Walmart.
4. Click the **Bulk actions** button.

The menu appears as shown in the following figure:

5. Click **Upload selected**.

If the selected products are valid and error free, then all the products are uploaded and the feed id appears on the page as shown in the following figure:

The error details appear on the page if any.

6.3. Edit Product Information

To edit the product information

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Products**.

The **WALMART PRODUCTS** page appears as shown in the following figure:

ID	Image	Name	Reference	Category	Base price	Final price	Quantity	Status

6		Printed Summer Dress	demo_6	Summer Dresses	\$30.50	\$30.50	900	✔
7		Printed Chiffon Dress	demo_7	Summer Dresses	\$20.50	\$16.40	1800	✔

3. Scroll down to the product that is no more required.
4. In the respective row, click the **Arrow** button next to the **Edit** button.
The menu appears as shown in the following figure:

5. Click **Delete**.
A confirmation dialog box appears.
6. Click the **OK** button.
The product is deleted and removed from the product list.

7. Manage Walmart Orders

The store admin can manage the orders from the Walmart Order page and can perform the following tasks:

- Fetch Orders from Walmart(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=fetch-orders-from-walmart>)
- View the Order Details(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=view-the-order-details-2>)
- Accept the Walmart Order(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=accept-the-walmart-order>)
- Cancel the Walmart Order(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=cancel-the-walmart-order>)

- Ship the Order(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=ship-the-order-2>)

7.1. Fetch Orders From Walmart

To fetch the orders from Walmart

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Order**.

The **Walmart Order** page appears as shown in the following figure:

The screenshot shows the Walmart Order page in the Prestashop Admin panel. The page has a green header with the Walmart logo and navigation links for 'Fetch Order' and 'Help'. Below the header, there is a table with the following columns: ID, Purchase Order ID, Reference, Delivery, Customer, Total, Payment, Status, and Date. The table is currently empty, displaying a warning icon and the text 'No records found'.

ID	Purchase Order ID	Reference	Delivery	Customer	Total	Payment	Status	Date
No records found								

3. In the top-right corner, click the **Fetch Order** button.
The new order is fetched from the Walmart Web site and listed in the Walmart Order grid.

The screenshot shows the Walmart Order page after a new order has been fetched. The table now contains one record with the following details:

ID	Purchase Order ID	Reference	Delivery	Customer	Total	Payment	Status	Date
5	123654	KHWLILZLL	United States	J. DOE	\$18.40	Bank wire	Awaiting bank wire payment	12/22/2017 08:45:45

An order Id of the fetched order appears on the page.

7.2. View the Order Details

To view the order details from Walmart

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Order**.

The **Walmart Order** page appears as shown in the following figure:

ID	Purchase Order ID	Reference	Delivery	Customer	Total	Payment	Status	Date
5	123654	KHWLILZLL	United States	J. DOE	\$18.40	Bank wire	Awaiting bank wire payment	12/22/2017 08:45:45

All the fetched orders are listed on the page.

3. Scroll down to the required order.
4. In the respective row click the **View** button.

The specific order page appears as shown in the following figure:

ORDER INFO		SHIPPING INFO

7.3. Accept the Walmart Order

To accept the Walmart order

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Order**.

The **Walmart Order** page appears as shown in the following figure:

ID	Purchase Order ID	Reference	Delivery	Customer	Total	Payment	Status	Date
5	123654	KHWLILZLL	United States	J. DOE	\$18.40	Bank wire	Awaiting bank wire payment	12/22/2017 08:45:45

All the fetched orders are listed on the page.

3. Scroll down to the required order.
4. Click the **Arrow** button next to the **View** button.

The menu appears as shown in the following figure:

5. Click the **Accept** option.
- The order is accepted and the success message appears on the page.

7.4. Cancel the Walmart Order

To cancel the Walmart order

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Order**.

The **Walmart Order** page appears as shown in the following figure:

ID	Purchase Order ID	Reference	Delivery	Customer	Total	Payment	Status	Date
5	123654	KHWLILZLL	United States	J. DOE	\$18.40	Bank wire	Awaiting bank wire payment	12/22/2017 08:45:45

All the fetched orders are listed on the page.

3. Scroll down to the required order.
4. Click the **Arrow** button next to the **View** button.
The menu appears as shown in the following figure:

5. Click the **Cancel** option.
The order is canceled and the success message appears on the page.

7.5. Ship the Order

To ship the order

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Order**.
The **Walmart Order** page appears as shown in the following figure:

ID	Purchase Order ID	Reference	Delivery	Customer	Total	Payment	Status	Date
5	123654	KHWLILZLL	United States	J. DOE	\$18.40	Bank wire	Awaiting bank wire payment	12/22/2017 08:45:45

All the fetched orders are listed on the page.

3. Scroll down to the required order.
4. In the respective row click the **View** button.
The specific order page appears as shown in the following figure:

ORDER INFO	
acceptance_decision_date	27-11-2017
can_cancel	false
channel	
commercial_id	string
created_date	27-11-2017

company	string
country	string
country_iso_code	MX
firstname	string

5. Scroll down to the **SHIP WHOLE ORDER** section.
The section appears as shown in the following figure:

SHIP WHOLE ORDER

tracking_number

carrier_url

carrier_name

carrier_code

ADD TRACKING FOR ORDER

SHIP ORDER

6. In the **tracking_number** box, enter the tracking number.
7. In the **carrier_url** box, enter the tracking URL.
8. In the **carrier_name** box, enter the carrier name.
9. In the **carrier_code** box, enter the carrier code.
10. Click the **ADD TRACKING FOR ORDER** button.
11. Click the **SHIP ORDER** button.
A success message appears.

8. Manage Walmart Rejected Orders

The store admin can manage the rejected orders from the **REJECTED ORDER** page. The store admin can view and cancel the rejected orders.

To cancel the single rejected order

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Rejected Order**.

The **REJECTED ORDER** page appears as shown in the following figure:

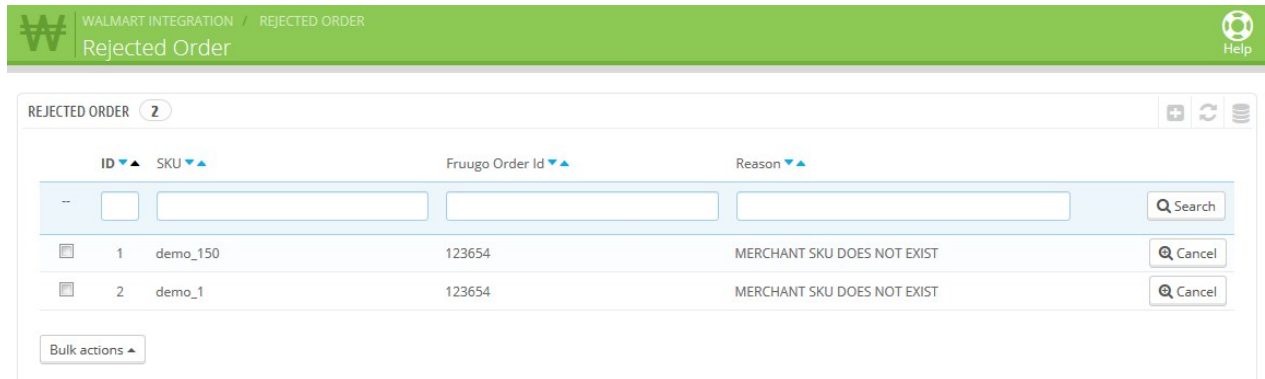

ID	SKU	Fruugo Order Id	Reason	
1	demo_150	123654	MERCHANT SKU DOES NOT EXIST	Cancel
2	demo_1	123654	MERCHANT SKU DOES NOT EXIST	Cancel

All the rejected orders are listed on the page.

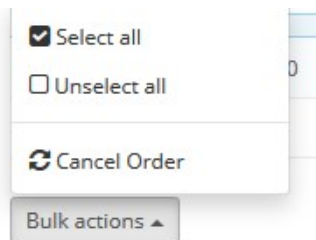

3. Scroll down to the required order.
4. In the respective row click the **Cancel** button.
The rejected order is canceled and the success message appears on the page.

To cancel the selected rejected order

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Rejected Order**.
The **REJECTED ORDER** page appears as shown in the following figure:

- All the rejected orders are listed on the page.
3. Click the **Bulk actions** button.
The menu appears as shown in the following figure:

4. Click the **Cancel Order** option.
The selected orders are canceled.

9. Option Mapping

The store owner view the Walmart options, which are actually Walmart attributes. Options are the attributes that the front-end users can use based on their requirement while placing an order for the product. Also, admin can map the store options (store attributes) with the corresponding Walmart attributes.

The admin can perform the following tasks:

- Add New Attribute Mapping(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=add-new-attribute-mapping>)
- Edit the Mapping(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=edit-attribute-mapping>)

integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=edit-the-attribute-mapping)

- Delete the Attributes(<https://docs.cedcommerce.com/prestashop/walmart-mexico-prestashop-integration/walmart-mexico-prestashop-integration-guide-0-0-1?section=delete-the-attribute-mapping>)

9.1. Add New Attribute Mapping

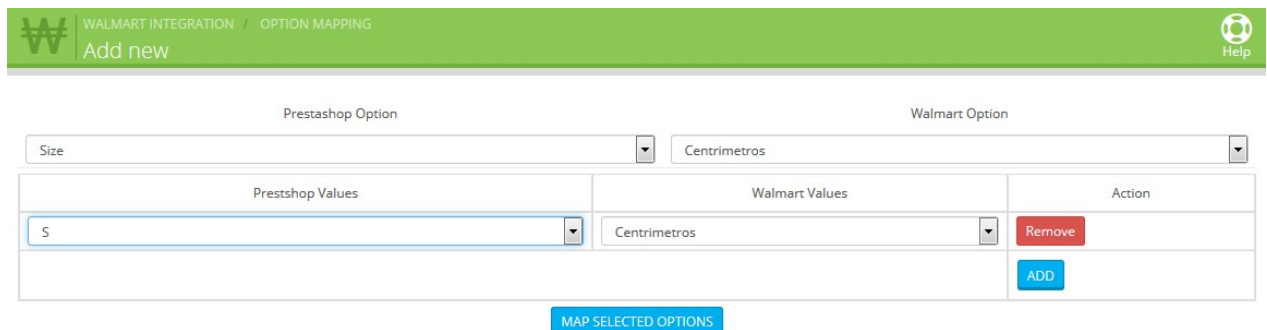

To add new attribute mapping

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Option Mapping**.

The **OPTION MAPPING** page appears as shown in the following figure:

3. On the top navigation bar, click the **Add Mapping** button.
- The Add New page appears as shown in the following figure:

4. In the **Prestashop Option** list, select the required option.
5. In the **Walmart Option** list, select the required option.
6. Click the **Add** button.
7. In the **Prestashop Values** list, select the required option value.
8. In the **Walmart Values** list, select the required option value.
9. Click the **Add** button to add more option values if required.
10. Click the **MAP SELECTED OPTIONS** button.

The attribute is mapped and a success message appears on the **Option Mapping** page.

Note: To remove the option values, click the respective **Remove** button.

9.2. Edit the Attribute Mapping

To edit the attribute mapping

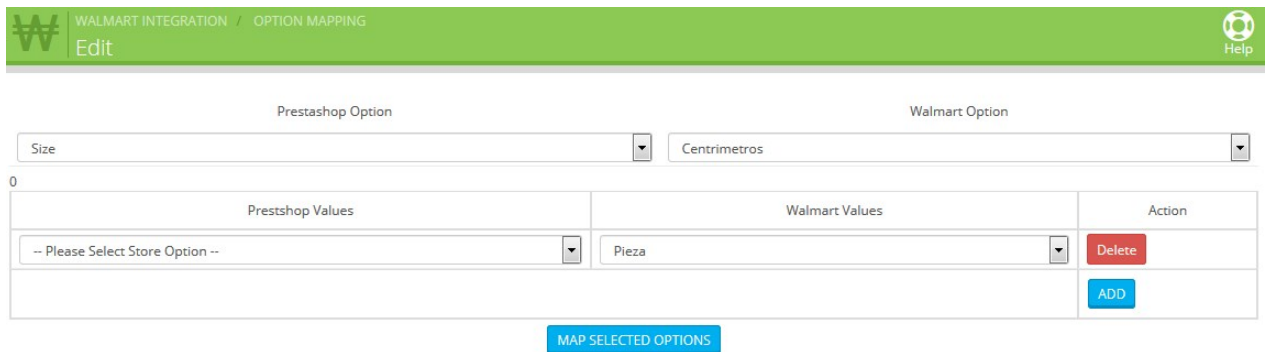

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Option Mapping**.

The **OPTION MAPPING** page appears as shown in the following figure:

3. Scroll down to the required attribute.
4. In the respective row, click the **Edit** button.

The **Edit** page appears as shown in the following figure:

5. Follow the procedure same as followed while adding new mapping.

9.3. Delete the Attribute Mapping

To delete the attribute mapping

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Option Mapping**.

The **OPTION MAPPING** page appears as shown in the following figure:

3. Scroll down to the required attribute.
4. In the respective row, click the **Arrow** button next to the **Edit** button.
A menu appears as shown in the following figure:

5. Click the **Remove** option.
The corresponding attribute is deleted.

10. Walmart Products Feed

After uploading the product on the Walmart website or after updating the product inventory or the product price, the user can check the status of all the feeds on the **Walmart Feed** page.

To view product feeds status

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Products Feed**.

The **WALMART PRODUCTS FEED** page appears as shown in the following figure:

import_id ▲	date_created ▼▲	transform_lines_in_error ▼▲	transform_lines_in_succes ▼▲	transform_lines_read ▼▲	import_status ▼▲	Download Error File ▼▲
7481	2017-11-30 06:20:19	0	2	2	SENT	No Error File
7482	2017-11-30 07:21:50	0	2	2	SENT	No Error File
7484	2017-11-30 11:53:59	0	2	2	SENT	No Error File
7485	2017-11-30 11:54:04	0	8	8	SENT	No Error File
7746	2017-12-06 00:00:00	0	0	0	TRANSFORMATION_WAITING	No Error File
7747	2017-12-06 00:00:00	0	0	0	TRANSFORMATION_WAITING	No Error File

All the feeds details appear on this page.

3. Do the following tasks if required:
 - View the status of the feed in the **import_status** column.
 - To update the feed status, click the **Update** button that appears in the respective row of the required Feed.
The feed is updated and a success message appears.
 - In the **Download Error file** column, click the **Download** button to view the error details if exist.
If there is no error, then the **No Error File** button appears.

11. Walmart Offers Feed

After uploading the product offers on the Walmart website or after updating the product offers, the user can check the status of all the offers feed on the **Walmart Offers Feed** page.

To view offers feeds status

1. Go to the **Prestashop Admin** panel.
2. On the left navigation bar, move the cursor over the **WALMART INTEGRATION** menu, and then click **Walmart Offers Feed**.

The **WALMART OFFERS FEED** page appears as shown in the following figure:

import_id ▼▲	date_created ▼▲	lines_in_error ▼▲	lines_in_success ▼▲	lines_read ▼▲	status ▼▲	Download Error File ▼▲
7860	2017-11-29 13:21:56	7	0	7	COMPLETE	Download
11367	2017-12-07 00:00:00	0	0	0	RUNNING	Download

All the feeds details appear on this page.

3. Do the following tasks if required:
 - View the status of the feed in the **status** column.
 - To update the feed status, click the **Update** button that appears in the respective row of the required Feed.
The feed is updated and a success message appears.
 - In the **Download Error file** column, click the **Download** button to view the error details if exist.
If there is no error, then the **No Error File** button appears.
