1. Overview

Keeping in mind the competitive dynamics of the e-commerce world and the increasing demands of the merchants in the cut throat competition, we at CedCommerce have developed the Ebay Basic Integration Extension for Magento. This extension is created for Magento 2 users which enables them to list their products on Ebay for FREE.

The advanced, easy to use Ebay Basic Integration for Magento from CedCommerce brings you an exclusive option to list your products on Ebay marketplace for FREE and earn globally.

Key features of the extension

- **Sending products on eBay gets easy** – Create a profile for similar type of products, add the products to it, and send those on eBay every time, easily.
- **Upload products on eBay in one go** – With seller friendly interface, it enables you to send the Magento products on eBay in an instant.
- **Enable/Disable products on eBay** – Disable your listed products on eBay marketplace and retire them. When needed, enable them once again.
- **Map Magento attributes with eBay** – The advanced extension enables you to map the Magento 2 store's product attributes to that of eBay marketplace.

2. Installation of the Extension

To install the extension

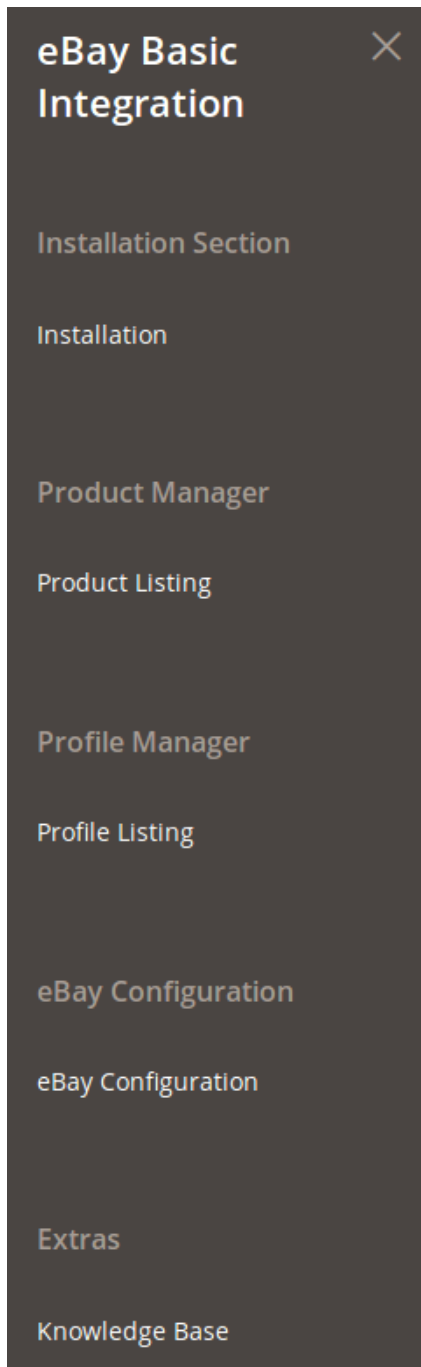

- Log in the **ftp**, and then go to Magento 2 root folder (generally present under the *public_html* folder).
- Create a new folder named *code* under the *app* folder; under *code* folder, create a folder named *Ced*.
 - a. Upload or Drag and Drop *app/code/Ced* directory.
 - b. After successfully uploading the directory, the extension will be installed/upgraded.
 - c. Now run the following upgrade command in *cmd*
`php bin/magento setup:upgrade.`

3. Connecting Magento with CedCommerce

For linking the Magento Store with CedCommerce to initiate the process of business data flow from Magento to CedCommerce and then to eBay, and vice-versa, you need to take following steps and establish a connection.

-

- Go to your Magento admin panel.
- Click on **Ebay Basic Integration** on the left navigation bar.
- When the menu appears, click on **Installation**,

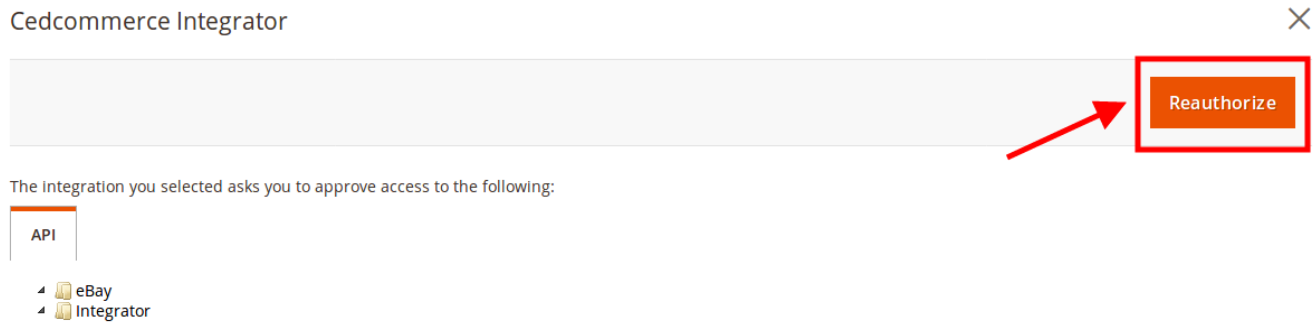

- On clicking it, you will be navigated to the page with a section which has been shown below,

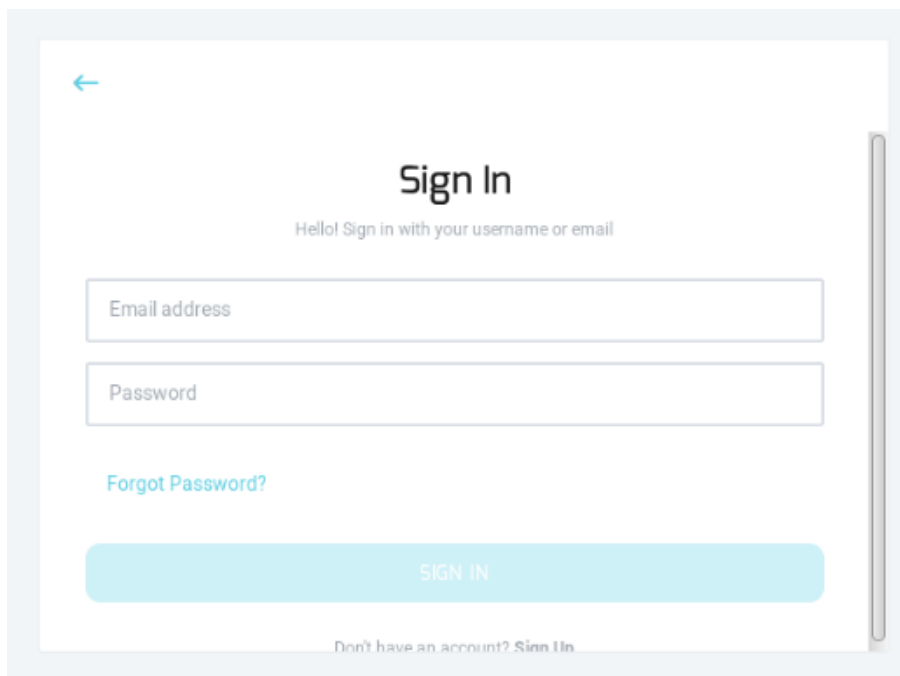

Name	Status			
<input type="text"/>	<input type="text"/>			
Cedcommerce Integrator ▲ Integration not secure	Active	Reauthorize	?	🗑
Magento Social	Reset	Activate	?	🗑

- Adjacent to CedCommerce Integrator, click on **Reauthorize** button.

- On clicking it, a new tab will appear as,

- Click on **Reauthorize** button as highlighted in the above image.
- On clicking, you will be navigated to the page as shown below:

- Login with your Magento auth credentials. On doing so, you will see the page as,

Magento Authorization

- Click on **I Agree** button.
- The connection will be established between Magento and CedCommerce.

4. Configuration

To complete the configuration.

- Go to your Magento 2 admin panel.
- Click on **ebay Basic Integration** present on the left navigation bar.

- When the menu appears, click on **ebay Configuration**.

- You will be navigated to the configuration page as shown below:
