1. Overview

Exborders is a global platform that enables the online shoppers across the globe reach its premium quality branded products with ease. Pushing the barriers in the cross-border trade dynamics, Exborders offers a one stop store for the online buyers. The categories under which Exborders features its products are Electronics, Computers, Beauty, Health, Food & Grocery, Home & Kitchen, Baby & Mom, Toys, and many more.

Such a model to trade across countries and banish the borders makes Exborders one of the most sought-after marketplaces for the sellers too, who deal in products that fall under the Exborders categories.

With the same vision, we at CedCommerce have created the Exborders Integration for Magento extension that enables the sellers to sell on Exborders and grab the attention of the huge customer base that the Exborders marketplace already has. Powered with the advanced features, the Exborders Integration for Magento extension makes the selling easy for online sellers and empowers them to manage their business efficiently and with complete control.

Have a look at the features of our Exborders Integration for Magento extension:

Product Category Mapping: Follows many-to-one category mapping philosophy. Admin can map many categories of the Magento store to the single category of Exborders.

Profile based product upload: Admin can create a profile and map the Exborders category and attributes to the Magento category and attributes. Then, after assigning the products to the profile, can easily upload products.

Bulk Products Upload: Admin can upload the it's products in Bulk in just a single click on Exborders.

Low Stock Notifications: Whenever Stock diminishes lower than threshold, a notification is sent informing the status.

Rejected Products Notification: If any product containing some invalid details is rejected, then its information is fetched from the automatic synchronized requests along with the error due to which it is rejected.

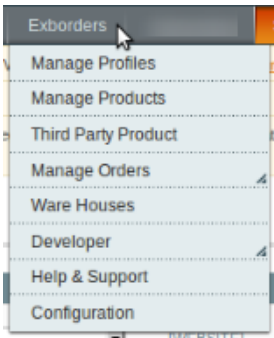

Order Automation: Experience the Automated Order Importing mechanism and manage the orders easily.

See the whole process in the form of a guide that will let you know the steps to integrate your Magento store with Exborders marketplace to sell on it – in the next sections.

2. Configuration

To complete the configuration.

- Go to your Magento admin panel.
- On the top navigation bar, place cursor on **Exborders**, which appears when you have installed the extension.
- When the menu appears, click on **Configuration**.

- On clicking it, you will be navigated to the page as shown below, with different sections:

Exborders Configuration

Save Config

Exborders Api Settings	▼
Exborders Product Global Settings	▼
Warehouse and Courier Setting	▼
Exborders Product Advanced Price Settings	▼
Cron Settings	▼

Exborders API Settings

- Click on the Exborders API Settings. The section will expand as:

Exborders Api Settings		
Enabled	<input type="text" value="No"/>	[WEBSITE]
Upload Product Using Ftp	<input type="text" value="No"/>	[WEBSITE]
▲ Pls Enable Setting if you want to upload product by Ftp		

- In **Enabled**, select **Yes** to enable the extension.
- On selecting **Yes**, the section will further expand as:

Exborders Configuration

Save Config

Exborders Api Settings		
Enabled	<input type="text" value="Yes"/>	[WEBSITE]
Public	<input type="text"/>	[GLOBAL]
Salt	<input type="text"/>	[GLOBAL]
Upload Product Using Ftp	<input type="text" value="No"/> <small>▲ Pls Enable Setting if you want to upload product by Ftp</small>	[WEBSITE]
Host Name	<input type="text"/> <small>▲ Pls fill host name</small>	[GLOBAL]
User Name	<input type="text"/> <small>▲ Pls fill user name</small>	[GLOBAL]
Passsword	<input type="text"/> <small>▲ Ftp password</small>	[GLOBAL]
	Create Exborders a/c Get Exborders Credentials	
Default payment method	<input type="text" value="--Please Select--"/> <small>▲ Choose a default payment method for Exborders.com orders.</small>	[GLOBAL]
Default shipping method	<input type="text"/> <small>▲ Choose a default shipping method for exborders.com orders.</small>	[GLOBAL]
Store Admin Email Id	<input type="text"/> <small>▲ Fill in if you want to recieve Email Notifications for newly imported Order</small>	[GLOBAL]
Exborders Debug Mode	<input type="text" value="No"/> <small>▲ Enable Exborders Debug Mode for Logging.</small>	[GLOBAL]
Exborders Customer Email	<input type="text"/> <small>▲ Enter Customer Id so that we dont create new customers in Magento for Order imported from Exborders</small>	[GLOBAL]
Exborders Order ID Prefix	<input type="text"/> <small>▲ Exborders OrderId Prefix (Ex EXB-)</small>	[GLOBAL]

- In **Public**, enter the specific user credential needed for authentication and which you may get from your Exborders seller account
- Same as Public, in **Salt** too, enter the credential that you may get from your seller account.
- In **Upload Product Using FTP**, select **Yes** if you want to enable product upload via FTP.
- Enter the Host name in the **Host Name** field.
- Enter your **User Name** in the next field.
- Enter the FTP password in the **Password** field.
- For the creation of Exborders account, you may click the **Create Exborders a/c** which will take you to the Exborders seller registration page.
- To get the Exborders Credentials, click **Get Exborders Credentials** and you will be navigated to your account where you may get the necessary credentials.
- In **Default Payment Method**, choose the payment method that you want for your Exborders orders. The options you have to choose from have been shown in the image below:

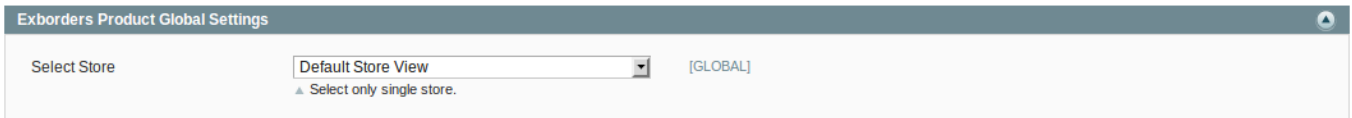

- Choose a default shipping method for Exborders orders in **Default Shipping Method** field.

- In **Store Admin Email Id**, fill the email id on which you want to receive Email Notifications for newly imported orders.
- In **Exborders Debug Mode**, select **Yes** if you want to **Enable Exborders Debug Mode** for Logging.
- Enter Customer Id in **Exborders Customer Email** so that you don't have to create new customers in Magento for order imported from Exborders.
- In **Exborders Order ID Prefix**, enter the prefix that you want to be attached to all the orders for your products that you will get on Exborders.

Exborders Product Global Settings

- On clicking the Exborders Global Settings, the section will expand as:

Exborders Product Global Settings

Select Store: Default Store View [GLOBAL]
▲ Select only single store.

- In **Select Store**, select the one store that you want to integrate with Exborders.

Warehouse and Courier Settings

- On clicking it, the section will expand as:

Warehouse and Courier Setting

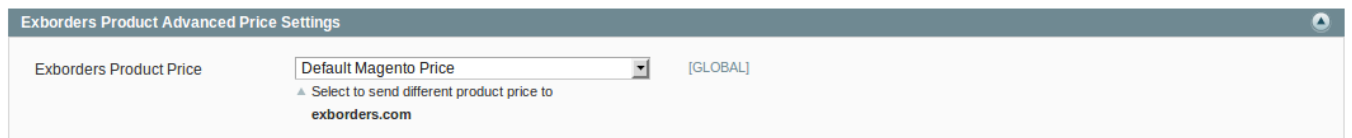

Select Warehouse: No WareHouses [GLOBAL]

Select Courier companies: No Courier Companies [GLOBAL]

- In **Select Warehouses**, select the warehouse for your product shipping.
- In **Select Courier Companies**, select the courier companies for your products' shipping.

Exborders Product Advanced Price Settings

- On clicking **Exborders Product Advanced Price Settings**, the section will expand as:

Exborders Product Advanced Price Settings

Exborders Product Price: Default Magento Price [GLOBAL]
▲ Select to send different product price to exborders.com

- In **Exborders Product Price**, you may select the price that you want to be sent to Exborders for your products. The price options are:

Default Magento Price

- Default Magento Price
- Increase By Fixed Price
- Increase By Fixed Percentage
- Decrease By Fixed Price
- Decrease By Fixed Percentage
- Multiply with Fixed Rate

- **Default Magento Price:** If this option is selected, the price for which your product will be available on Exborders will be same as the price of your product on your Magento store.
- **Increase By Fixed Price:** You may select this option if you want your product price to be increased on Exborders as compared to you Magento store. If you select this option, a box appears as shown below:

Enter Amount	<input type="text"/>	[GLOBAL]
--------------	----------------------	----------

- By choosing this option, you may enter in the **Enter Amount** box the amount by which you want your product price to be increased on Exborders as compared to your Magento store. Suppose if you enter 50 in this field and your product is for 100 on your Magento store, then the amount that your product will be available for on Exborders would be 150 (as the amount entered is 50 for **Increase** by fixed price, so the price entered would be added to the price for which product is available on Magento store).
- **Increase By Fixed Percentage:** You may use this option if you want the price of your Magento product to be increased on Exborders by a certain percentage. By choosing this option, you may enter in the **Enter Percentage** box the percentage amount by which you want your product price to be increased on Exborders as compared to your Magento store. Suppose if you enter 20 in this field and your product is for 100 on your Magento store, then the amount that your product will be available for on Exborders would be 120 (as 20% of 100 is 20 which gets added to 100).
- **Decrease By Fixed Price-** You may use this option if you want the price of your Magento product to be decreased on Exborders. By choosing this option, you may enter in the **Enter Amount** box the amount by which you want your product price to be decreased on Exborders as compared to your Magento store. Suppose if you enter 50 in this field and your product is for 100 on your Magento store, then the amount that your product will be available for on Exborders would be 50 (as the amount entered is 50 for **Decrease** by fixed price, so the price entered would be subtracted from the price for which the product is available on Magento store).
- **Decrease By Fixed Percentage-** You may use this option if you want the price of your Magento product to be decreased on Exborders by a certain percentage. By choosing this option, you may enter in the **Enter Percentage** box the percentage amount by which you want your product price to be decreased on Exborders as compared to your Magento store. Suppose if you enter 20 in this field and your product is for 100 on your Magento store, then the amount that your product will be available for on Exborders would be 80 (as 20% of 100 is 20 which gets subtracted from 100).
- **Multiply with Fixed Rate-** You may use this option if you want your Magento products price to be multiplied and that price to be reflected on Exborders. Suppose your Magento product prices for certain products are \$100, \$50, and \$300, and if you enter 5 in the **Enter Rate** box after selecting the **Multiply with Fixed Rate** option, the amounts for which your products will be available on Exborders will be \$500, \$250, and \$1500 respectively.

Cron Settings

- On clicking **Cron Settings**, the section expands as:

Cron Settings		
Cron Settings Override	<input type="text" value="No"/>	[WEBSITE]
Enable Order Cron	<input type="text" value="No"/> <small>▲ Order Cron Enable/Disable</small>	[WEBSITE]
Enable Order Status Sync Cron	<input type="text" value="No"/> <small>▲ Order Cron Status Sync Enable/Disable</small>	[WEBSITE]

- In **Cron Settings Override**, select **Yes** if you want to set the crons according to your needs.
- On selecting Yes, the section further expands as:

Cron Settings		
Cron Settings Override	<input type="text" value="Yes"/>	[WEBSITE]
Enable Order Cron	<input type="text" value="No"/> <small>▲ Order Cron Enable/Disable</small>	[WEBSITE]
Order Cron	<input type="text" value="*/10 * * * *"/> <small>▲ Please Enter number in minutes for execute cron</small>	[GLOBAL]
Enable Order Status Sync Cron	<input type="text" value="No"/> <small>▲ Order Cron Status Sync Enable/Disable</small>	[WEBSITE]
Order Status Sync Cron	<input type="text" value="0 0 * * *"/> <small>▲ Please Enter number in minutes for execute cron. Default set to once in a day.</small>	[GLOBAL]

- In **Enable Order Cron**, you may select **Yes** and enable it.
- In **Order Cron**, you may enter the number in minutes after which the order cron will run periodically.
- In **Enable Order Status Sync Cron**, select **Yes** if you want to enable it.
- In **Order Status Sync Cron**, enter the number for minutes after which the cron will get executed periodically.

Once you have completed the process, click on **Save Config** button on the top right side of the page to save the configuration settings. The configuration will be saved.

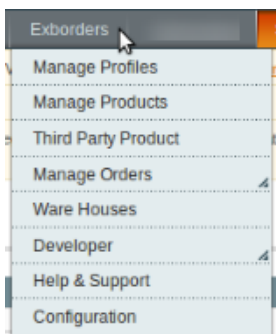

3. Manage Profiles

Under the **Manage Profile** section of the Exborders Integration for Magento Extension, the following actions can be carried out by you:

- Adding a Profile
- Editing a Profile
- Changing Status of Profile
- Managing Profile Products
- Deleting a Profile

To take any of these actions, you need to go to the Exborders Profile Listing page. For that,

- Go to your Magento Admin Panel.
- On the top navigation bar, place cursor on **Exborders**.
- When the menu appears, click **Manage Profiles**.

- On clicking it, you will be navigated to the **Exborders Profile Listing** page as shown below.

Exborders Profile Listing [Add New Profile](#)

Page 1 of 1 pages | View 20 per page | Total 2 records found [Reset Filter](#) [Search](#)

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected Actions [Submit](#)

	ID	Profile Name	Status	Total Item	Uploaded	Not Uploaded	Actions
<input type="checkbox"/>	1	test	Active	1	0 [0%]	1	Edit
<input type="checkbox"/>	2	test1	Inactive	0	0 [0%]	0	Edit

To add a profile,

- Click on **Add New Profile** button on the top right side of the page.
- On clicking, you will be navigated to the page as shown below:

Add Exborders Profile [Back](#) [Reset](#) [Save](#) [Save and Continue Edit](#)

Profile Information

Profile Code *
▲ For internal use. Please use only letters (a-z), numbers (0-9) or underscore(_) in this field, first character should be a letter

Profile Name *
▲ Give some name to profile to identify them

Status *
▲ Make active to enable the profile

- In **Profile Code**, enter the profile code which is for your internal use.
- In **Profile Name**, enter the name that you want for your profile.
- In **Status**, select the status that you want for your profile. You need to select **Active** for your profile to be active after it has been created.

Now, click on **Exborders Attribute Mapping** from the menu on the left of the page. The section will appear as:

Add Exborders Profile [Back](#) [Reset](#) [Save](#) [Save and Continue Edit](#)

Required Attribute

Exborders Attribute	Magento Catalog Attribute	Default Value	Action
sku	sku		
exborders_productid	exborders_productid		
title	name		
description	description		
short_description	short_description		
price	price		
brand	exborders_brand		
weight	weight		
image	image		

[Add Attribute](#)

- In the **Required Attribute**, map the Exborders Attribute with that of Magento Catalog Attributes.
- To add more attributes, click on **Add Attribute** button on the bottom of the section as shown in the above image.

Again, go to the left side menu on the page and click on **Profile Products**. The page will appear as:

Add Exborders Profile Back Reset Save Save and Continue Edit

Page 1 of 1 pages | View 20 per page | Total 1 records found Reset Filter Search

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected

	ID	Category	Product Name	Type	Attrib. Set Name	SKU	Price	Qty	Status

<input type="checkbox"/>	1	Default Category, sample	sample1	Simple Product	Default	sample1	\$100.00	50	Enabled

- Now select the products that you want to add to this profile, by checking the corresponding boxes.
- Once done, click on the **Save** button on the top right side of the page.
- The profile will be created and you will be navigated back to the **Exborders Profile Listing**.
- You may see the success message on the screen as highlighted in the image below:

✔ The profile has been successfully saved.

Exborders Profile Listing Add New Profile

Page 1 of 1 pages | View 20 per page | Total 3 records found Reset Filter Search

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected Actions Submit

	ID	Profile Name	Status	Total Item	Uploaded	Not Uploaded	Actions

<input type="checkbox"/>	2	test1	Inactive	0	0 [0%]	0	
<input type="checkbox"/>	3	testing	Active	1	0 [0%]	1	

- Click **Edit Profile**. You will be directed to the page as:

Profile Information

Profile Code *
▲ For internal use. Please use only letters (a-z), numbers (0-9) or underscore(_) in this field, first character should be a letter

Profile Name *
▲ Give some name to profile to identify them

Status *
▲ Make active to enable the profile

- You may edit the **Profile Name** and **Status** in this section.
- To edit the attributes, click on **Exborders Attribute Mapping**. You will see the section as:

Required Attribute

Exborders Attribute	Magento Catalog Attribute	Default Value	Action
sku	sku		
exborders_productid	exborders_productid		
title	name		
description	description		
short_description	short_description		
price	price		
brand	exborders_brand		
weight	weight		
image	image		

[Add Attribute](#)

- You may edit or add attribute in this section.
- To add or remove the profile products, click on **Profile Products** on the left menu of the page. Page will appear as:

Page 1 of 1 pages | View 20 per page | Total 1 records found [Reset Filter](#) [Search](#)

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected

	Id	Category	Product Name	Type	Attrib. Set Name	SKU	Price	Qty	Status
	Any						From: <input type="text"/> To: <input type="text"/> In: USD	From: <input type="text"/> To: <input type="text"/>	
<input type="checkbox"/>	1	Default Category, sample	sample1	Simple Product	Default	sample1	\$100.00	50	Enabled

- You may take the necessary steps and save the changes by clicking on **Save** button on the upper right part of the page.
- All the changes will be made.

To change status of profile.

- Select the profile(s) for which you want the status to be changed.
- You may also select all the profiles by clicking on **Select All** on the upper left side of the page above the profile listings.
- Now click on **Actions** drop down on the upper right side of the page as shown in the image below. Then click **Change Status**.

Exborders Profile Listing [Add New Profile](#)

Page 1 of 1 pages | View 20 per page | Total 3 records found [Reset Filter](#) [Search](#)

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected

	ID	Profile Name	Status	Total Item	Uploaded	Not Uploaded	Actions
<input type="checkbox"/>	1	test	Active	0	0 [0%]		<div style="border: 1px solid red; padding: 2px;"> Actions Delete Change status </div>
<input type="checkbox"/>	2	test1	Inactive	0	0 [0%]		
<input type="checkbox"/>	3	testing	Active	1	0 [0%]	1	

- On clicking it, the **Status** field will appear as:

- Select the status that you want for your profile(s).
- Then click on **Submit** button next to the **Status** field.
- The status will be changed.

To delete a profile.

- Select profile(s) that you want to delete.
- You may select all the profiles by clicking on **Select All** on the upper left side of the listings.
- Now click the **Actions** drop down on the top right side of the page. It will appear as:

- Select **Delete**, and click on **Submit**.
- Profile(s) will be deleted.

4. Manage Products

The Manage Products section of the **Exborders Integration for Magento** enables you to carry multiple functions which you may see in this section. To take any action, you need to go to the **Product Management** page. For that,

- On your Magento admin panel, place cursor on **Exborders** on the top navigation bar.
- When the menu appears, click on **Manage Products**.
- You will be navigated to the page as shown below:

To validate product,

- Click the **Validate** button under the **Actions** column, adjacent to the product that you want to validate, as highlighted in the image below:

- On clicking it, you may view the product details.

5. Third Party Product

In our Exborders Magento Integration extension, we have designed an exclusive feature with which you may see the third party product listings of other sellers and manage your own product accordingly.

To see the Exborders third party product listings.

- Go to your Magento admin panel.
- On the top navigation bar, place cursor on **Exborders**.
- When the menu appears, click on **Third Party Product**.
- On clicking it, you will be navigated to a page as shown below:
