1. Overview

Walmart DSV Integration for Magento, developed by CedCommerce is an advanced API integration that helps the Magento store owners who are the sellers and keepers of the products to sell their products on Walmart and ship them as well. Not only that, it enables the merchant to synchronize inventory, price, and other product details for the product creation and its management between the Magento store and the Walmart website.

Some of the key features of this integration extension have been mentioned below:

- **Profile Based Product Upload:** Upload the products on Walmart marketplace on the basis of the profile you've made for a particular type of products.
- Synchronization of Price and Inventory: Real-time synchronization of product inventory and product price.
- Manage Walmart Orders: It allows admin to import orders from the Walmart Marketplace to convert it into regular Magento Orders for Shipments.
- Easy Debug: Easy debug process for hassle-free products upload on the Walmart website.

2. Installation of the extension

- Go to the Magento Admin panel.
- On the top navigation bar, point to the **System** menu. The menu appears as shown in the following figure:

• Point to the **Magento Connect** menu, and then click **Magento Connect Manager**. The page appears as shown in the following figure:

Magentoconnect	MANAGER		
Extensions Settings			Return to Admin Log Out
Settings			
Put store on the maintenance mode wh	nile installing/upgrading/ba	ckup creation	
Create Backup Database		~	
Install New Extensions			
1 Search for modules via Magento Conn	ect.		
2 Paste extension key to install:			Instali
2 Upload package file: Browse No	o file selected.	Upload	
Manage Existing Extensions			Check for Upgrades
Channel: Magento Comm	unity Edition		Commit Changes

Interface_Frontend_Base_Default	1.9.2.4 (stable)		This is a Magento themes base
		· · · ·	The le a magente themes base

- Scroll down to the Walmartdsv_Integration Package.
- In the Actions column, select the Install option from the list.
- Click the **Commit Changes** button. Auto-scroll console contents screen appears and the extension is installed after the process.

3. Configuration

Once the installation has been done, you need to start the configuration.

To complete the configuration,

- Go to your Magento admin panel.
- Place cursor on **Walmartdsv** on the top navigation bar.
- When the menu appears, click on **Configuration**.

Walmartdsv Product Identifier	No	[GLOBAL]
Override	Walmartdsv Product Identifier Override (Enable it Incase you want to change a UPC/GTIN of any	
	product previously uploaded on Walmartdsv)	
Walmartdsv SKU Override	No	[GLOBAL]
	Waimartdsv SKU Override (Enable it Incase you want to change a SKU for an existing product on	
	Walmartdsv)	

- In **Consumer ID**, enter the consumer id that you may get from your Walmart seller panel.
- Enter the Shipping Node in the next field.
- The private key that you can get from your Walmart seller panel needs to be filled in the Private key field.
- To create the Walmart dsv account, click on the **Create Walmartdsv a/c** button present in the section. On doing so, you will be navigated to a page on which you may create your Walmartdsv account.
- To get the **Walmartdsv** credentials, click on the **Get Walmartdsv Credentials** button and you will be navigated to a page where you will be able to get the credentials.
- In Order Import Start Date, select the date from which you want the Walmart orders to be imported to Magento, till date.
- In **Default Payment Method**, choose a default payment method for Walmartdsv.com orders.
- In Default Shipping Method, choose a default shipping method for Walmartdsv.com orders.
- In **Store Admin Email Id**, enter the email id on which you want to get an email whenever a new Walmartdsv order gets imported.
- In Walmartdsv Debug Mode, select Yes if you want to enable Walmartdsv debug mode for logging.
- In Walmartdsv Customer Email, enter the email for which customer will be created for Walmartdsv orders.

- In Walmartdsv Order ID Prefix, enter the Walmartdsv Order Id Prefix (Ex WM-)
- In **Walmartdsv Product Identifier Override**, select Yes and enable it in case you want to change a UPC/GTIN of any product previously uploaded on Walmartdsv.
- In Walmartdsv SKU Override, select Yes and enable it in case you want to change an SKU for an existing product on Walmartdsv.

Walmartdsv Product Global Settings

• Click on Walmartdsv Product Global Settings and the section will expand as:

Walmartdsv Product Global Settings		0	
Select Store	Default Store View	[GLOBAL]	
Walmartdsv Swatches	No Table Swatch Images for Walmartdsv	[GLOBAL]

	Yes	STREET_48_STA1	Value (Free Shippi 🕶	please select 💌	🛞 Delete]
	Yes	STREET_48_STA1	Value (Free Shippi 💌	please select 💌	🛞 Delete	1
					Add Rules	1
	Set shipping reg	ion and shipping method char	ges.			

- You may select **Yes** in **Enabled**, and select the **Region**, **Method**, **and Magento Attribute Code** from the respective fields.
- In **Auto Image Resizing**, you may select **Yes** and resize an image to 3:4 Ratio. On selecting yes, a field with options of different sizes appears as:

Auto Image Resizing	Yes	• ?
	▲ Auto Image Resizing Image to 3:4 Ratio.	
Resized Image Size	600x800	-
	Size of image after resizing to 3:4 Ratio.	

- You may select the size as per your needs.
- In Feed Size, enter the total number of items in a single feed file to be sent to Walmartdsv.com.
- In **Upload Chunk Size**, enter the chunk size for product upload on Walmartdsv.com.
- In Inventory Chunk Size, enter the chunk size for product inventory update on Walmartdsv.com.
- In Price Chunk Size, enter the chunk size for product price update on Walmartdsv.com.

Walmartdsv Product Advanced Price Settings

On clicking Walmartdsv Product Advanced Price Settings, the section will expand as:

Walmartdsv Product Advanced Price	Settings	٥
Walmartdsv Product Price	Default Magento Price	[GLOBAL]
Fullfillment Lag Time	A Enter Fullfillment Lag Time for products on Walmartdsv	[GLOBAL]

• In **Walmartdsv Product Price**, you may select the price that you want to be sent to Walmartdsv for your products. The price options are:

- **Default Magento Price:** If this option is selected, the price for which your product will be available on Walmartdsv will be same as the price of your product on your Magento store.
- Increase By Fixed Price: You may select this option if you want your product price to be increased on Walmartdsv as compared to your Magento store. If you select this option, a box appears as shown below:

	1
Enter Amount	[GLOBAL]

- By choosing this option, you may enter in the **Enter Amount** box the amount by which you want your product price to be increased on Walmartdsv as compared to your Magento store. Suppose if you enter 50 in this field and your product is for 100 on your Magento store, then the amount that your product will be available for on Walmartdsv would be 150 (as the amount entered is 50 for **Increase** by fixed price, so the price entered would be added to the price for which product is available on Magento store).
- Increase By Fixed Percentage: You may use this option if you want the price of your Magento product to be increased on Walmartdsv by a certain percentage. By choosing this option, you may enter in the Enter Percentage box the percentage amount by which you want your product price to be increased on Walmartdsv as compared to your Magento store. Suppose if you enter 20 in this field and your product is for 100 on your Magento store, then the amount that your product will be available for on Walmartdsv would be 120 (as 20% of 100 is 20 which gets added to 100).
- Decrease By Fixed Price- You may use this option if you want the price of your Magento product to be decreased on Walmartdsv. By choosing this option, you may enter in the Enter Amount box the amount by which you want your product price to be decreased on Walmartdsv as compared to your Magento store. Suppose if you enter 50 in this field and your product is for 100 on your Magento store, then the amount that your product will be available for on Walmartdsv would be 50 (as the amount entered is 50 for Decrease by fixed price, so the price entered would be subtracted from the price for which the product is available on Magento store).
- Decrease By Fixed Percentage- You may use this option if you want the price of your Magento product to be decreased on Walmartdsv by a certain percentage. By choosing this option, you may enter in the Enter Percentage box the percentage amount by which you want your product price to be decreased on Walmartdsv as compared to your Magento store. Suppose if you enter 20 in this field and your product is for 100 on your Magento store, then the amount that your product will be available for on Walmartdsv would be 80 (as 20% of 100 is 20 which gets subtracted from 100).
- Multiply with Fixed Rate- You may use this option if you want your Magento products price to be
 multiplied and that price to be reflected on Walmartdsv. Suppose your Magento product prices for certain
 products are \$100, \$50, and \$300, and if you enter 5 in the Enter Rate box after selecting the Multiply
 with Fixed Rate option, the amounts for which your products will be available on Walmartdsv will be \$500,
 \$250, and \$1500 respectively.
- In Fullfillment Lag Time, enter fulfillment Lag Time for products on Walmartdsv.

Walmartdsv Inventory Rules

• On clicking Walmartdsv Inventory rules, the section will expand as:

Walmartdsv inventory rules		
Send Inventory on the Basis of Threshold	No	[GLOBAL]

• On selecting Yes in Set Inventory on the Basis of Threshold, the section will expand as:

Walmartdsv inventory rules		٥
Send Inventory on the Basis of Threshold	Yes 💌	[GLOBAL]
Inventory Threshold Value		[GLOBAL]
	Set inventory quantity on which lesser and greater condition can control.	
Send Inventory for Lesser Than		[GLOBAL]
Threshold Case	▲ Send Quantity to Walmartdsv for those products,	
	whose inventory is LESSER than the inventory	
	threshold.	
Send Inventory for Greater Than		[GLOBAL]
Threshold Case	 Send Quantity to Walmartdsv for those products, 	
	whose inventory is GREATER than the inventory	
	threshold.	

- In **Inventory Threshold Value**, set inventory quantity on the basis of which, the lesser and greater condition can control.
- In the Send Inventory for Lesser Than Threshold Case box, enter the required value.
- In the Send Inventory for Greater Than Threshold Case box, enter the required value.

Cron Settings

• On clicking Cron Settings, the section will expand as:

Cron Settings				
Cron Settings Override	No	•	[WEBSITE]	
Enable Order Cron	Yes A Order Cron Enable/Disable	•	[WEBSITE]	
Enable Order Status Sync Cron	No A Order Cron Status Sync Enable/Disable	•	[WEBSITE]	
Enable Inventory Cron	Yes A Inventory Cron Enable/Disable	•	[WEBSITE]	
Enable Price Cron	Yes Price Cron Enable/Disable	•	[WEBSITE]	

• On selecting Yes in Cron Settings Override, the section expands as,

Cron Settings		٥
Cron Settings Override	Yes	(WEBSITE)
Enable Order Cron	Yes	(WEBSITE)
Order Cron	*/10 * * * * A Please Enter number in minutes for execute cron	[GLOBAL]
Enable Order Status Sync Cron	Yes	▼ [WEBSITE]
Order Status Sync Cron	0 0 * * * ▲ Please Enter number in minutes for execute cron. Default set to once in a day.	[GLOBAL]
Enable Inventory Cron	Yes	[WEBSITE]
Product Inventory Update Cron	*/13 * * * * A Please Enter number in minutes for execute cron	[GLOBAL]
Enable Price Cron	Yes A Price Cron Enable/Disable	V [WEBSITE]
Product Price Update Cron	A Please Enter number in minutes for execute cron	[GLOBAL]

- In Enable Order Cron, you may select Yes and enable it.
- In Order Cron, you may enter the number in minutes after which the order cron will run periodically.
- In Enable Order Status Sync Cron, select Yes if you want to enable it.
- In Order Status Sync Cron, enter the number for minutes after which the cron will get executed periodically.
- In Enable Inventory Cron, you may select Yes and enable it.
- In **Product Inventory Update Cron**, you may enter the number in minutes after which the product inventory update cron will run periodically.
- In Enable Price Cron, you may select Yes and enable it.
- In **Product Price Update Cron**, you may enter the number in minutes after which the product price update cron will run periodically.

Once you have completed the process, click on **Save Config** button on the top right side of the page to save the configuration settings. The configuration will be saved.

4. Manage Profiles

Under the **Manage Profile** section of the Walmartdsv Integration for Magento Extension, the following actions can be carried out by you:

- Adding a Profile
- Editing a Profile
- Changing Status of Profile
- Managing Profile Products
- Deleting a Profile

To take any of these actions, you need to go to the Walmartdsv Profile Listing page. For that,

- Go to you Magento Admin Panel.
- On the top navigation bar, place cursor on Walmartdsv.
- When the menu appears, click Manage Profiles.

Walmartdsv 📐 System	
Manage Profiles	You har

- Select Delete, and click on Submit.
- Profile(s) will be deleted.

5. Manage Products

The Manage Products section of the **Walmartdsv Integration for Magento** enables you to carry multiple functions which you may see in this section. To take any action, you need to go to the **Product Management** page. For that,

- On your Magento admin panel, place cursor on Walmartdsv on the top navigation bar.
- When the menu appears, click on Manage Products.
