1. Overview

Newegg B2B Integration for Magento store is an extension, developed by CedCommerce(https://www.newegg.com/sellers/index.php/integration-providers/#Ced) helps to integrate the Magento store with Newegg B2B by establishing a synchronization of products and orders with Newegg B2B API.

The CRONs implemented in this extension help to automate the process thereby keeping it up to date.

This extension interacts with Newegg B2B Marketplace to integrate the synchronized product listing between the Magento store and the Newegg B2B retailers. After installing the extension, the merchant can map with multiple Newegg B2B Categories and the dependent attributes on the Newegg B2B store.

The process enables the merchant to configure the desired product category into a Magento store for automatic submission of the selected product to the same Category on Newegg B2B.

The features of the Newegg B2B Integration with Magento store extension are as follows:

- Profile Based Product Upload It allows you to Create a particular profile and Upload Products on the basis of the profile
- Easy Newegg B2B Category and Attribute mapping Choose among multiple categories and map attributes on the basis of categories Selected
- Manage Newegg B2B Product and Upload Product (directly from the grid and bulk upload all products)
- Debug Mode Enables you to Check the feeds corresponding to every SKU Updated
- Automated Order Import.
 This works on the basis of Crons(Automated Programs)
- Shipment and Cancellation of Orders Ship/Cancel Your orders In one Click
- Automated Shipment with Shipworks/Shipstation
 Our Extension is completely compatible with Shipworks/Shipstation
- Multiple Shipment of an Order Ship Multiple orders from Magento store itself
- Upload Simple and Configurable Product(s)
 Value approximate and configurable beth turn
- You can upload simple and configurable both type of products along with proper attributes
- Bulk Product Upload/Publish This Feature allows you to upload products in a bulk
- Activate/Deactivate Selected Product(s)
 With, this You can Select and Deactivate products as you need
- CRON Facility
- Crons are working for Order, Inventory, Price Auto-sync
- Knowledge Base

Caution

: Extension is heavily dependent on Crons for running various automated processes. So, make sure that Cron Job is properly configured and working on the server.
