## 1. Overview

Privalia is an e-commerce website that is based in 4 major countries Spain Italy France and Germany. This is a rapidly growing e-commerce organization which generally deals with fashion and household products. Privalia is a marketplace where customers can search for goods based on names or product type.

On Privalia sellers can choose from a wide range of category to sell from. Clothing products such as tops, cardigans and sweaters, jackets, shoes, accessories, sportswear, and swimwear for men, women, and children are the most selling items in this European marketplace. Another eye-catching category is the 'home and décor' where items like for kitchen and dining, furniture, textile, electronics and gadgets, suitcases, and leisure are in demand.

Privalia was launched in 2006 by Jose Manuel Villanueva and Lucas Carne and is operated from Barcelona, Spain.

Privalia Integration for Magento by CedCommerce offers Management of your products on a centralized platform, wherein you can easily list your products on Privalia directly from existing Magento marketplace. Management of inventory and price is synchronous and gets updated followed by any activity. Furthermore, tracking and order fulfillment can be achieved through CedCommerce integration.

Integration also offers management of inventory, with greater flexibility, providing you with several ways to manage it at discrete levels with Privalia.com Order cancellations from the customer's end are retrieved simultaneously to cancel the order ensuring that you don't ship items that were canceled.

### *Key Features of Privalia Integration Extension by CedCommerce:*

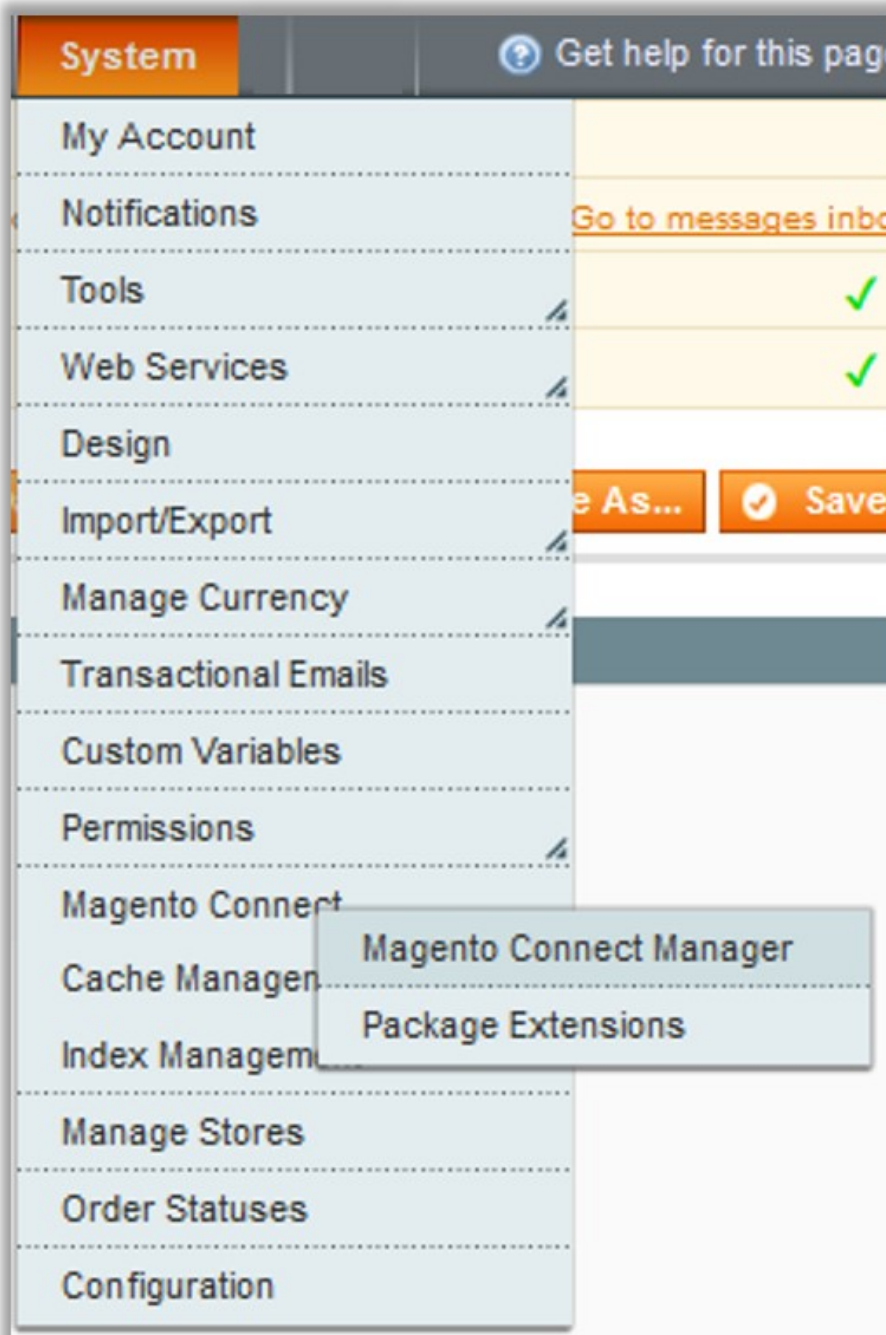

- **Stock Update:** Stocks are updated automatically on both ends as stock status updated in your local shop or as an order is marked shipped by Privalia.
- **Privalia Order Management:** The orders can be easily acknowledged or canceled through the centralized order management system.
- **Profile-based product upload:** It allows the admin to upload their product to profile based on Privalia Marketplace.
- **Synchronization:** Auto synchronization of the product listing, order, inventory, return and refund, and pricing at regular intervals is established between Magento and Privalia.com.
- **Bulk Upload System:** Bulk product upload service from cedcommerce is your ultimate solution to be spared from hassles of operational overload in product uploading.
- **Notification Errors:** If any error occurs, there is a feed error feature helping you to know what the error is.
- **Crons:** Crons automate the process of Price, Inventory and Order management.
- **Rejected Products Notification:** If any product containing some invalid details is rejected, then its information is fetched from the automatically synchronized requests along with the error due to which it is rejected.
- **Return And Refunds:** Refunds are processed back to the original payment method used to purchase the order. Refund is also possible through extension.

## 2. Privalia Integration Extension Installation

*To begin with, the installation of the extension follow the given steps:*

1. Go to the **Magento Admin Panel**.

2. On the top, you will find a navigation bar. Point to the **System** menu. You will see a drop-down menu like this,

3. Point to the **Magento Connect** menu, and then click on **Magento Connect Manager**. The page then appears as shown in the following figure:

The screenshot shows the Magento Connect Manager interface. At the top, there is a navigation bar with 'Extensions' and 'Settings' tabs, and links for 'Return to Admin' and 'Log Out'. The main content area is divided into several sections:

- Settings:** Contains a checked checkbox for 'Put store on the maintenance mode while installing/upgrading/backup creation' and an unchecked checkbox for 'Create Backup' with a dropdown menu set to 'Database'.
- Install New Extensions:** Includes a step-by-step guide: '1 Search for modules via [Magento Connect](#).' and '2 Paste extension key to install:' followed by a text input field and an 'Install' button.
- Direct package file upload:** Includes a step-by-step guide: '1 Download or build package file.' and '2 Upload package file:' followed by a 'Browse...' button, the text 'No file selected.', and an 'Upload' button.
- Manage Existing Extensions:** Features a 'Check for Upgrades' button and a 'Commit Changes' button. Below this is a 'Channel: Magento Community Edition' label and a checkbox for 'Clear all sessions after successfull install or upgrade:'.
- Table of Installed Extensions:** A table with columns for Package Name, Installed, Actions, and Summary.
 

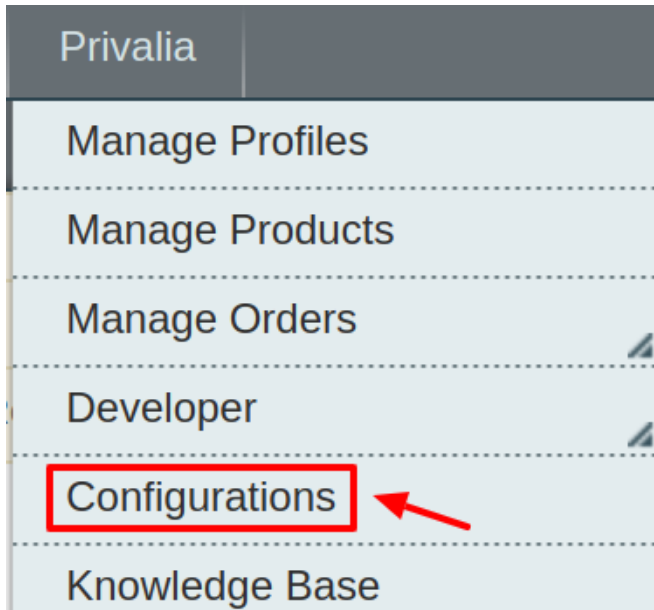

Package Name	Installed	Actions	Summary
Cm_RedisSession	1.9.2.4 (stable)	[Dropdown]	Redis session
Interface_Adminhtml_Default	1.9.2.4 (stable)	[Dropdown]	Default interface for Adminhtml
Interface_Frontend_Base_Default	1.9.2.4 (stable)	[Dropdown]	This is a Magento themes base
Interface_Frontend_Default	1.9.2.4 (stable)	[Dropdown]	Default interface for Frontend

4. Scroll down to the **Privalia\_Integration** Package.
5. In the **Actions** column, select the **Install** option from the list.
6. Click the **Commit Changes** button.
7. Auto-scroll console contents screen appears and the extension is installed after the process.

### 3. Retrieve API Credentials from Privalia

#### *To Retrieve the API Credentials:*

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Privalia** menu.  
The menu appears as shown in the following figure:

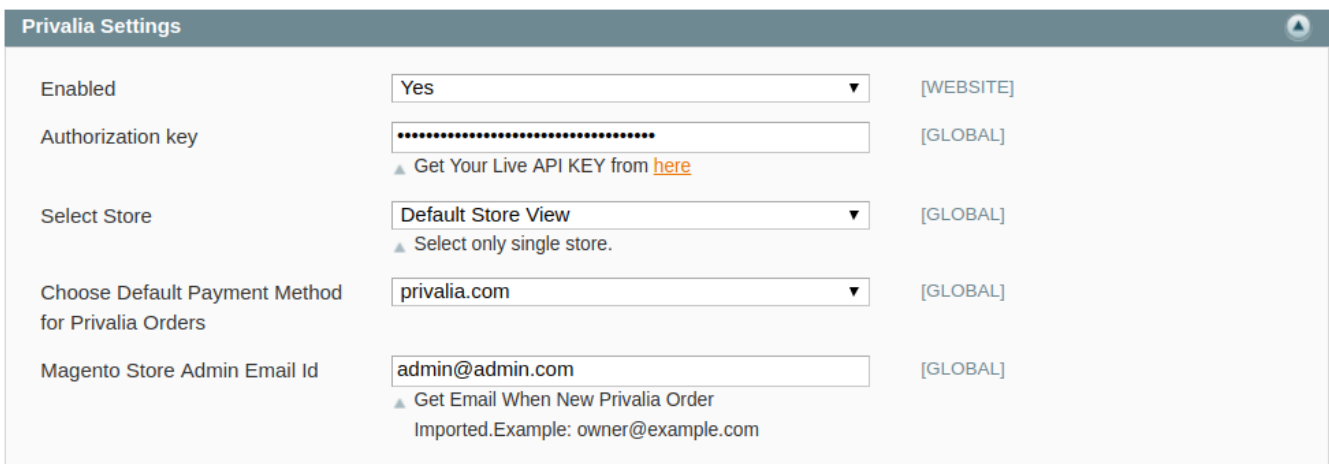

Click **Configuration**.

The **Privalia Configuration** page appears as shown in the following figure:

Click the **Privalia Settings** tab.

The tab is expanded and the relevant field appears under the **Privalia Settings** section.

Under the heading **Authorization key**, Click on the link naming **Get Your Live API KEY** from here.

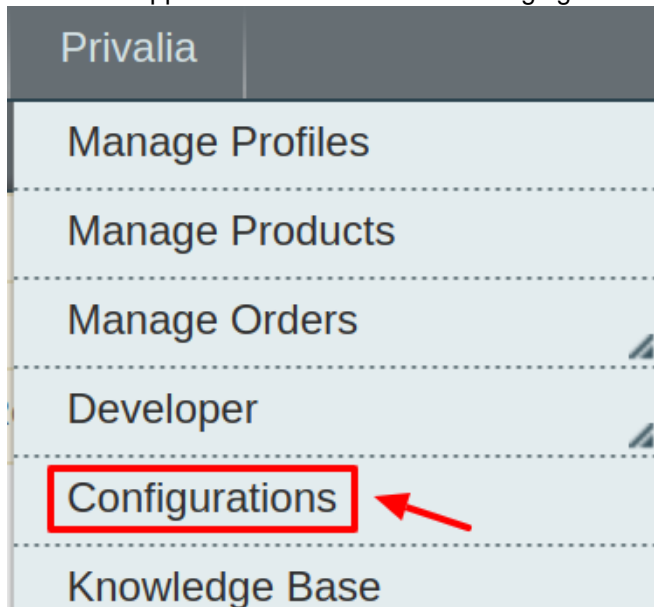

You will be redirected to a new page:

## 4. Privalia Configuration Setting

After obtaining the **API credentials** from the Privalia Seller account, the Magento store owner has to paste them in the respective fields displayed on the **Privalia Configuration** page of the admin panel.

### *To set up the configuration settings in the Magento Admin panel*

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Privalia** menu.  
The menu appears as shown in the following figure:

Click **Configuration**.

The **Privalia Configuration** page appears as shown in the following figure:

Click the **Privalia Settings** tab.

The tab is expanded and the relevant field appears under the **Privalia Settings** section.

Privalia Settings		
Enabled	Yes ▼	[WEBSITE]
Authorization key	..... ▲ Get Your Live API KEY from <a href="#">here</a>	[GLOBAL]
Select Store	Default Store View ▼ ▲ Select only single store.	[GLOBAL]
Choose Default Payment Method for Privalia Orders	privalia.com ▼	[GLOBAL]
Magento Store Admin Email Id	admin@admin.com ▲ Get Email When New Privalia Order Imported.Example: owner@example.com	[GLOBAL]

Under **Privalia Settings**, do the following steps:

- In the **Enabled** list, select **Yes** to enable the extension features.
- In the **Authorisation key**, enter the key that you are provided by Privalia once you register yourself with its seller panel.
- In the **Select Store**, choose the store from where you want your products to be integrated into Privalia marketplace.
- In the **Choose Default Payment Method for Privalia Orders** list, select **Privalia.com**.
- In the **Magento Store Admin Email Id** box, enter the email Id on which you want to receive a mail whenever an order is placed for your product, on Privalia.
- Click on **Save Config** to save the details that you have entered.

Click the **Privalia Product Settings** tab.

The tab is expanded and the relevant fields appear under the **Privalia Product Settings** section as shown in the following figure:

Privalia Product Settings		
Send Inventory on the Basis of Threshold	Yes ▼	[GLOBAL]
Inventory Threshold Value	<input type="text"/> ▲ Set inventory quantity on which lesser and greater condition can control.	[GLOBAL]
Send Inventory for Greater Than Threshold Case	<input type="text"/> ▲ Send Quantity to Ebay for those products, whose inventory is GREATER than and Equalto the inventory threshold.	[GLOBAL]

- Under **Privalia Product Settings**, do the following steps:
  - In the **Send Inventory on the Basis of Threshold**, select **Yes** and additional menus appear.
  - In the **Inventory Threshold Value** users can Set inventory quantity on which lesser and greater condition can control
  - In the Send Inventory Greater than Threshold, users can Send Quantity to Privalia for those

products, whose inventory is GREATER than and Equal to the inventory threshold.

Next, click on **Privalia Product Price Settings** and you'll come across the following:

From the drop down menu here, you may come across many options that are discussed below:

- **Increase by Fixed Price:**

You can **Enter the Amount** in the field below.

If you enter a particular amount here, your product will be featured on Privalia by adding that amount to the amount of your product on your own store. For example, if you enter 10 here and your product on Magento is for 100, your product will be featured on Privalia with the price of 110.

- **Increase by Fixed Percentage:** If selected, then the **Enter Percentage** field appears below

Enter the numeric value to increase the price of the Privalia product price by the entered value % of Magento price

*For Example:* Magento price + 5% of Magento price.

Magento Price = 100

Select **Increase By Fixed Percentage** option

**Enter Percentage** = 5

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Privalia Product Price = 105

- **Decrease by Fixed Price:** If selected, then the **Enter Amount** field appears below.

If you enter a particular amount here, your product will be featured on Privalia by decreasing that amount from the amount of your product on your own store. For example, if you enter 10 here and your product on Magento is for 100, your product will be featured on Privalia with the price of 90.

- **Decrease by Fixed Percentage:** If selected, then the **Enter Percentage** field appears below.

Enter the numeric value to decrease the price of the Privalia product price by the entered value % of Magento price

*For Example:* Magento price – 5% of Magento price.

Magento Price = 100

Select **Decrease By Fixed Percentage** option

**Enter Percentage** = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Privalia Product Price = 95

- By selecting Yes in **Use Parent Product Image**, the final image that is uploaded on the Privalia website will be the image of the parent product. In case you choose **No**, then all the individual images are uploaded.
- Use **Parent Product Info**, choose all the attributes you wish to include from the parent product.
- In the **Attribute to skip validation**, you can select all those attributes which you wish to skip from configurable product upload.
- In **Upload config as simple**, admins can upload the product as simple products.

Click **Cron Settings** tab to view the following fields.

Cron Settings		
Enable Order Cron	Yes <input type="button" value="▼"/>	[WEBSITE]

	▲ Please Enter expression for execute cron	
Enable Order Shipment Cron	No <input type="button" value="▼"/>	[WEBSITE]
	▲ To Ship Completed Order On Privalia Enable this Cron	

- Select if you want to enable/disable the cron for **orders/ order sync/inventory/feed/feed sync** and **enter the desired values for the respective cron's execution.**
- Click **Save Config** to save the entered details.

Click the Order Settings now and appears as below:

Order Settings		
Enable Order Auto Accept	<input type="text" value="No"/>	[?] [WEBSITE]
Orders To Fetch	<input type="text" value="WAITING_ACCEPTANCE"/>	[?] [WEBSITE]
Cancel Order on Privalia	<input type="text" value="No"/>	[?] [WEBSITE]
Refund Reason for Privalia	<input type="text" value="--Please Select Reason--"/>	[?] [WEBSITE]
Refund Order on Privalia	<input type="text" value="No"/>	[?] [WEBSITE]
Create Credit Memo or cancel order on Magento	<input type="text" value="No"/>	[?] [WEBSITE]
Privalia Order Customer Group	<input type="text" value="NOT LOGGED IN"/>	[GLOBAL]
Use Same Customer	<input type="text" value="No"/>	[STORE VIEW]
Create Order by Quote	<input type="text" value="No"/>	[WEBSITE]
SKU Mapping	<input type="button" value="Add Rules"/>	[GLOBAL]
	[?] <input type="button" value="Map Previous Sku with New Sku"/>	

- Here, you may enable the auto acceptance or rejection of an order placed for your product on the Privalia marketplace by clicking either **Yes** or **No**.
- In the **Orders to Fetch**, you can select the desired source from which the orders need to be fetched.
- In the cancel order on Privalia,
- In Refund Reason for Privalia, select the reason for a refund.
- In **Privalia Order Customer Group**, select a group in which your customers who order your products on Privalia will be listed.
- If you don't wish to create a new customer for every order then in **Use same customer**, select **Yes** and specify the email id of the customer.
- Select Yes in create **order by quote** if you want to apply Magento taxes in Privalia orders.
- In SKU Mapping section, admins can add a rule as shown below:
- in case an old sku is deleted or changed then you can map the new sku with the previous one here.

SKU Mapping	Previous Sku	New Sku	[GLOBAL]
	<input type="text"/>	<input type="text"/>	<input type="button" value="Delete"/>
			<input type="button" value="Add Rules"/>
	[?] <input type="button" value="Map Previous Sku with New Sku"/>		

- Save the configuration now by clicking on **Save Config** button on the top right of page.

Now click on the Developer Settings tab and it will be expanded as:

Developer Settings		
Privalia Debug Mode	Yes <input type="button" value="▼"/>	[GLOBAL]
	▲ Enable privalia debug mode for logging.	
Category Sync Chunk Size	10	[WEBSITE]
Attribute Sync Chunk Size	50	[WEBSITE]
Product Chunk Size	25	[WEBSITE]
Feed Sync Chunk Size	100	[WEBSITE]

- In **Privalia Debug Mode** click on **Enable/Disable** depending on whether you want to log the data or not.
- In **Category Sync Chunk Size** enter the value which would be the number of categories to be synced in one batch.
- In **Attribute Sync Chunk Size** enter the value which would be the number of attributes to be synced in one batch.
- In **Product Chunk Size** enter the value which would be the number of products in one batch.
- In **Feed Sync Chunk Size** enter the value which would be the number of feeds to be synced in one batch.
- Click on **Save Config** to save the entered details.

## 5. Manage Privalia Profile

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento attributes to the Privalia attributes. These attributes are applicable to all the products that are assigned to the profile.

### *Admin can do the following tasks:*

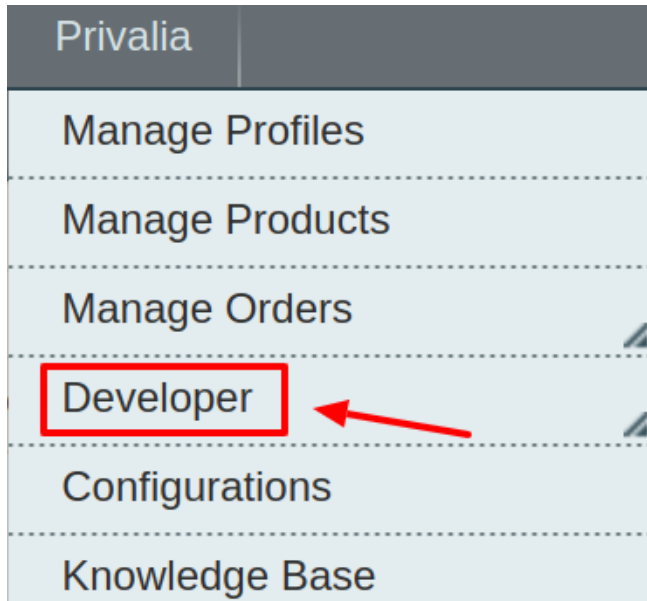

- Syncing the Categories
- Syncing the Attributes
- Add a new profile
- Edit the existing profile
- Delete the profile
- Submit Actions from the Privalia Profile Listing Page

### 5.1. Syncing the Attributes

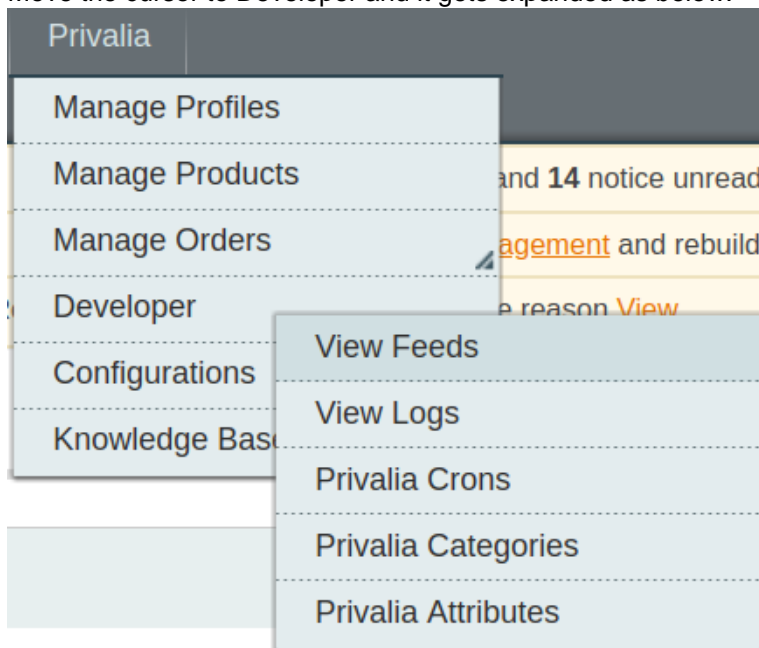

After the Categories have been synced to the seller's admin panel, the Attributes need to be synced before the creation of a new profile.

To do so:

- Go to the Magento admin panel.
- Place the cursor on the top navigation bar of Privalia and it will appear as:

- Move the cursor to Developer and it gets expanded as below:

- Click on Privalia Attributes and on the page that you get to navigate to, click on the Sync Attribute button on the top right, and all the Privalia Attributes get listed as shown in the figure below:

**Attribute Management** Truncate Attributes Sync Attribute

Page 1 of 3 pages | View 20 per page | Total 43 records found Reset Filter Search

Id	Privalia Attribute Code	Privalia Attribute Label	Description	Hierarchy Code	Type	Required	Variant	Magento Attribute Code	Default	Actions
1	C16-PRODUCT_TEMPLATE	C16-PRODUCT_TEMPLATE			TEXT	Yes	No			Map
2	C03-COM_REF	C03-COM REF	ES: Referencia del producto modelo/color/talla. EN: Common ID to group the different sizes of a <model-color		TEXT	Yes	No			Map
3	C07-NAME	C07-NAME	ES: Nombre del producto que aparecerá en la ficha del producto EN: Product name		TEXT	Yes	No			Map
4	C01-EAN_CODE	C01-EAN CODE	Código EAN (EAN code)		TEXT	No	No			Map
5	C02-SEASON	C02-SEASON	Temporada del producto (Product Season).		LIST	No	No			Map

- Now all the Privalia attributes get successfully synced to your Magento admin panel, and you may proceed to create a new profile.

## 5.2. Syncing the Category

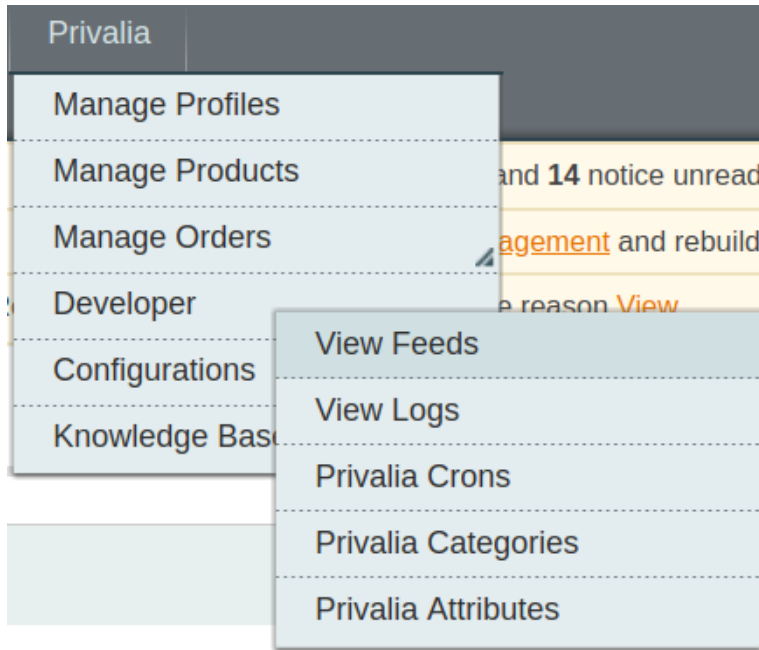

Before creating a new profile, a seller needs to sync the categories available on Privalia marketplace to the Magento admin panel.

To do so, the admin needs to:

- Go to the Magento admin panel.
- Place the cursor on Privalia on the top navigation bar and it will appear to you as below:

- Now move the cursor to developers and it gets expanded as below:

- Now click on the **Privalia Categories** and on the same page and you will be redirected to this page as shown:

Privalia Category Listing [Sync Category](#)

Page 1 of 238 pages | View 20 per page | Total 4743 records found [Reset Filter](#) [Search](#)

ID	Privalia Category Code	Privalia Category Label	Leaf Category	Level	Actions
1	ACCESORIOS	ACCESORIOS	0	1	<a href="#">Sync</a>
2	ACCESORIOS>>Accesorios para Coche	Accesorios para Coche	0	2	<a href="#">Sync</a>
3	ACCESORIOS>>Accesorios para Coche>>Organizador De Maletero Para Coche	Organizador De Maletero Para Coche	1	3	<a href="#">Sync</a>
4	ACCESORIOS>>Accesorios para Coche>>Organizador De Visera Para Coche	Organizador De Visera Para Coche	1	3	<a href="#">Sync</a>
5	ACCESORIOS>>Accesorios para Coche>>Pestañas Para Coches	Pestañas Para Coches	1	3	<a href="#">Sync</a>

- Click on the **Sync Categories** button or the Sync button associated with the profile.
- All the categories will be synced to your Magento admin panel.

### 5.3. Add a new Profile

#### To add a new profile

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the Privalia tab, and then point to the **Manage Profiles** menu.

The menu appears as shown in the following figure:

3. Click **Manage Profiles**. The Privalia profile listing page appears as shown:

4. Click the **Add New Profile** button.

The **Add Privalia Profile** page appears as shown in the following figure:

5. In the right panel, under **Profile Information**, do the following steps:

1. In the **Profile Code** box, enter a profile code.  
**Note:** It is only for internal use. Use the unique profile code with no spaces. Start with small letters.
2. In the **Profile Name** box, enter the name of the profile.  
**Note:** Use the unique name to identify the profile.
3. In the **Status** list, select **Active** to enable the profile.  
**Note:** The Inactive option disables the profile.

1. Click the **Save and Continue** button.

6. In the left navigation panel, click the **Privalia Category Mapping** menu. The page appears as shown in the following figure:

1. In the right panel, go to the **Privalia Category Mapping** section.
2. In the **Category** list, select the required **Privalia** category that the admin wants to map. Depending upon the selected category, the **Privalia** and the **Magento** attributes appear under the **Privalia / Magento Attribute Mapping (Required/ Optional mapping)** section, if exist.
3. Go to the **Privalia / Magento Attribute Mapping (Variant attribute mapping)** section. Map the configurable attributes to Magento attributes.
4. Click **Save and Continue Edit** button.

7. In the left navigation panel, click the **Profile Products** menu. The page appears as shown in the following figure:

The screenshot shows the 'Add Privalia Profile' page. On the left is a navigation menu with 'Profile Information' (containing 'Profile Info', 'Privalia Category Mapping', and 'Profile Products') and 'Profile Products' selected. The main area has a title 'Add Privalia Profile' and buttons for 'Back', 'Reset', 'Save', 'Save and Continue Edit', and 'Save and Proceed To Upload'. Below the title is a pagination bar: 'Page 1 of 1 pages | View 20 per page | Total 9 records found'. There are also 'Reset Filter' and 'Search' buttons. A table below shows product details:

	Id	Profile	Category	Websites	Product Name	Type	Attrib. Set Name	SKU	Price	Qty	Status
Yes									From: <input type="text"/> To: <input type="text"/> In: USD		
<input type="checkbox"/>	2	<a href="#">Test Profile 1</a>	Electronic	Main Website	Test Product 2	Simple Product	Default	test_product_2	\$40.00	99	Enable
<input type="checkbox"/>	3	<a href="#">Test Profile 1</a>	Electronic	Main Website	Test Product 31	Simple Product	Default	test_product_1	\$16.00	458	Enable

1. All the products assigned to the profile are listed in this table.

8. Click the **Reset Filter** button. All the products are listed in the table.

1. Select the check boxes associated with the required products to assign them to the new profile.

**Note:** Admin can assign the product to only one profile.

9. Click the **Save** button. The created profile is saved and listed on the **Privalia Profile Listing** page.

- Or
- Click the **Save and Continue Edit** button to save the created profile and continue editing, if required.
- Or
- Click the **Save and Upload Product** button to save the profile and make ready to upload the product on Privalia. The assigned products are listed on the **Product Manager** page.

## 5.4. To Edit an Existing Profile

### *To edit the existing profile*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the Privalia tab, and then point to the **Manage Profiles** option and click on it. The menu appears as shown in the following figure:

3. The **PrivaliaProfile Listing** page appears as shown in the following figure:

**Privalia Profile Listing** [Add New Profile](#)

Page  of 1 pages | View  per page | Total 1 records found [Reset Filter](#) [Search](#)

[Select All](#) | [Unselect All](#) | [Select Visible](#) | [Unselect Visible](#) | 0 Items selected Actions:  [Submit](#)

	ID	Profile Name	Status	Total Item	Action
<input type="checkbox"/>	1	Test Profile 1	Active	9	<input type="text"/>

1. On this page, all the available profiles are listed.

4. Click the required row of the profile that the admin wants to edit.

OR

In the **Action** column, click the arrow button, and then click **Edit Profile**.

The **Edit Privalia Profile** page appears.

\*\*\*\*\*image edit orofule\*\*\*\*\*

5. Make the changes as per requirement.

6. Click the **Save** button.

The edited profile is saved and listed on the **Privalia Profile Listing** page.

Or

Click the **Save and Continue Edit** button to save the created profile and continue editing, if required.

Or

Click the **Save and Upload Product** button to save the profile and make ready to upload the product on Privalia.com.

The assigned products are listed on the **Product Manager** page.

✔ **The configuration has been saved.**

**The profile has been successfully saved.**

[Product Manager](#)

## 5.5. To Delete A Profile

### To delete the existing profile

1. Go to the **Magento Admin** panel.

2. On the top navigation bar, move the cursor over the Privalia tab, and then point to the **Manage Profiles** menu.

The menu appears as shown in the following figure:

3. The **Privalia Profile Listing** page appears as shown in the following figure:

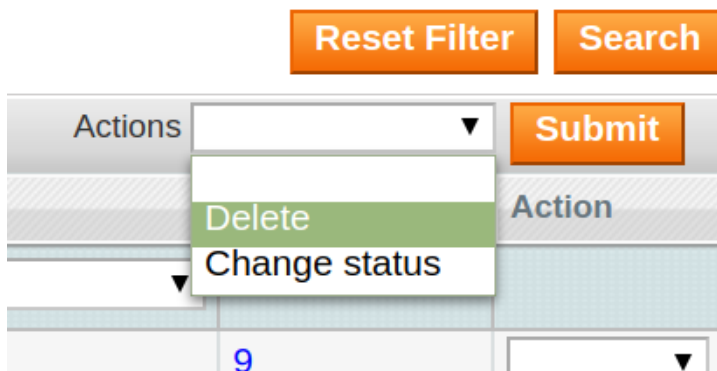

1. On this page, all the available profiles are listed.

4. Click the required row of the profile that the admin wants to delete.

OR

In the **Action** column, click the arrow button, and then click **Delete**. Confirm your action in the dialog box by clicking ok.

5. The profile is deleted.

## 6. Manage Privalia Products

On the **Product Manager** page, the admin can perform the following tasks:

- View and edit the product information
- Upload a single product
- View the error log if any error exists in any product details
- Submit certain actions on the selected products

### 6.1. Submit Actions

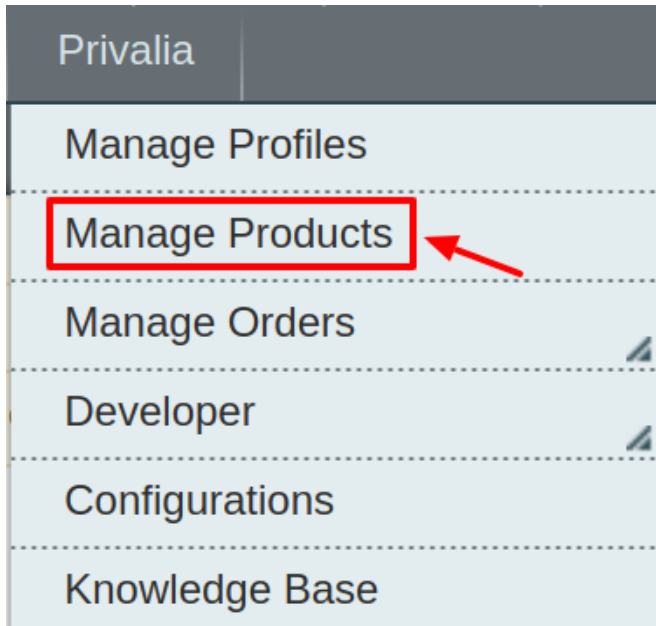

The admin can perform the following actions on the selected products available on the **Product Manager** page:

- **Validate Selected Product(s)**: Validates the product before uploading it to the Catch website. It displays the corresponding validation error if any. If there is no error, it confirms that the product is ready to upload.
- **Upload Product(s)**: Uploads all the validated products on Catch at one time. It means, the user can upload all the validated products in one click.
- **Update Price/Inventory Offer(s)**: Update the price or inventory offers in an instant.

#### *To validate Products*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the Privalia tab, and then point to the **Manage Products** menu.

The menu appears as shown in the following figure:

3. Click **Manage Products**. The Privalia Product Manager listing page appears as shown:

**Product Manager**

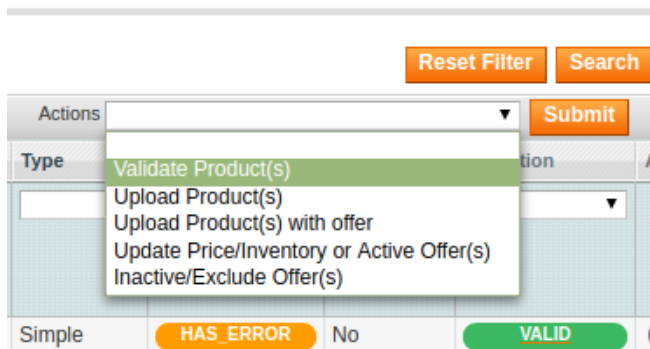

Page 1 of 1 pages | View 20 per page | Total 9 records found Reset Filter Search

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected Actions Submit

	ID	Profile	Category	Privalia Category	SKU	Name	Price	Qty	Visibility	Status	Type	Privalia Status	Excluded	Validation
Any							From: To: In: USD	From: To:						
<input type="checkbox"/>	2	<a href="#">Test Profile 1</a>	Electronic	ACCESORIOS>>Accesorios para Coche>>Organizador De Maletero Para Coche	test_product_2	Test Product 2	\$40.00	99	Catalog, Search	Enabled	Simple Product	HAS_ERROR	No	VALID
<input type="checkbox"/>	3	<a href="#">Test Profile 1</a>	Electronic	ACCESORIOS>>Accesorios para Coche>>Organizador De Maletero Para Coche	test_product_1	Test Product 31	\$16.00	458	Catalog, Search	Enabled	Simple Product			INVALID
<input type="checkbox"/>	7	<a href="#">Test Profile</a>	TV	ACCESORIOS>>Accesorios para Coche>>Organizador	test_config	test config	\$60.00	0	Catalog, Search	Enabled	Configurable Product	UPLOADED : 2		VALID

4. Select the Products which you wish to validate from the check boxes associated with it on the left.

5. Now click on the Actions on the box on the top right column and the section expands as:

6. Click on the Validate Product(s) and click on the submit button.
7. A confirmation message appears confirming the validation successful.

### Validation Status

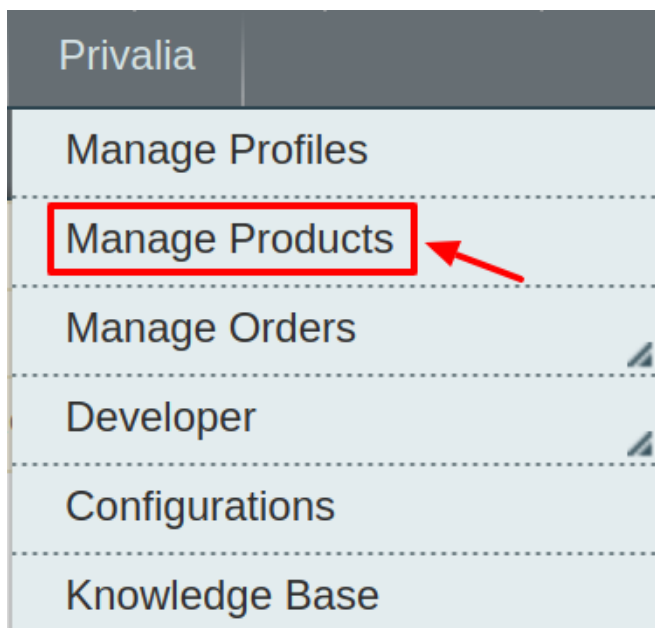

💡	Starting Product Validation , please wait...
⚠️	Warning: Please do not close the window during Validating data
✅	Total 1 Batch(s) Found.
🔄	100% 1 Of 1 Processing

**Note:** By validating products the product feed is successfully sent to the privalia marketplace. After confirmation, the products are successfully created. Now you wish to move the uploading these products.

### To Upload Products

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the Privalia tab, and then point to the **Manage Products** menu.

The menu appears as shown in the following figure:

3. Click **Manage Products**. The Privalia Product Manager listing page appears as shown:

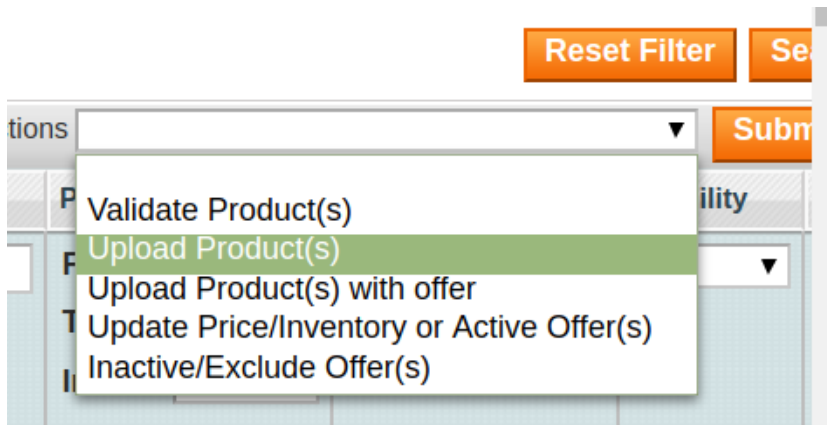

**Product Manager**

Page 1 of 1 pages | View 20 per page | Total 9 records found Reset Filter Search

6. Enter the required information, and then click the **Save** button.

7. To sync the Magento Product with **Privalia**, click the **Sync With Privalia** button.

## 7. Manage Privalia Orders

Using the **Manage Orders** menu, the admin can perform the following tasks:

- View Privalia Orders
- View Failed Orders

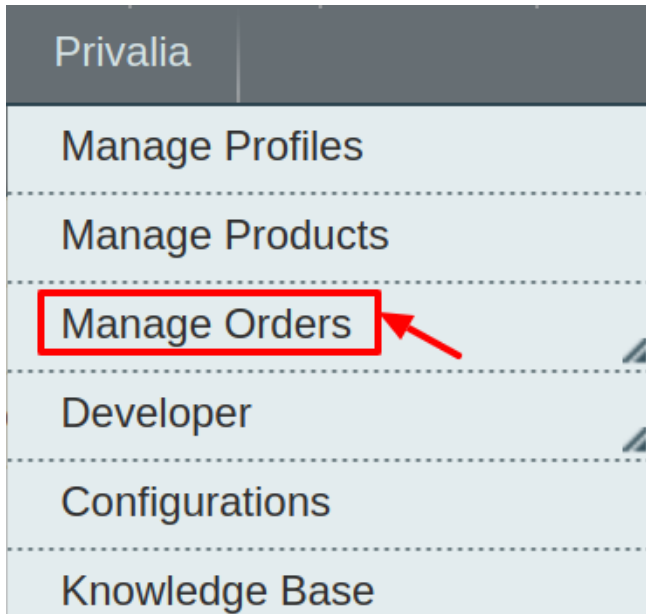

### 7.1. View Privalia Orders

The user can fetch and view all the order details fetched from **Privalia**.

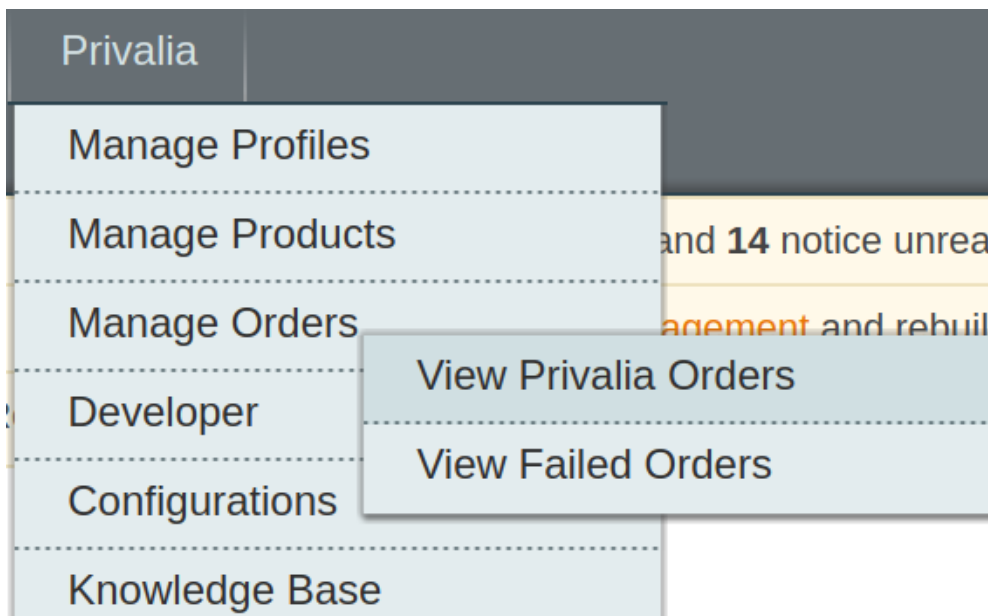

#### *To fetch and view Privalia Orders*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Privalia** menu, and then point to the **Manage Orders** menu.

The menu appears as shown in the following figure:

3. Click **View Privalia Orders**.

The **Privalia Orders Details** page appears as shown in the following figure:

4. Click the **Fetch Latest Privalia Orders** or **Sync All Privalia Orders Info** button.

**Privalia Orders Details**

Sync All Privalia Orders Info
Fetch Latest Privalia Orders

Page 1 of 1 pages | View 20 per page | Total 0 records found

Export to: CSV Export Reset Filter Search

Select Visible | Unselect Visible | 0 items selected Actions Submit

Magento Order #	Privalia Purchase Order Id #	Customers Order Id #	Bill to Name	Ship to Name	Date Ordered	Ship By	Status	Magento Status	G.T. (Purchased)
Any					From: <input type="text"/> To: <input type="text"/>	From: <input type="text"/> To: <input type="text"/>			From: <input type="text"/> To: <input type="text"/>

If the order is imported successfully then, a new record is found in the **Privalia Order Details** table as shown in the above figure.

**Notes:**

- Orders are automatically imported through CRON every 10 minutes.
- Whenever the latest orders are imported from **Privalia**, a Notification appears in the notification area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported into the Magento admin panel.
- If no Order is imported, then check the Failed order log on the **Failed Privalia Orders Import Log** page.
- Order are auto-rejected on **Privalia** in the following conditions:
  - When **Privalia** Product SKU does not exist in Magento.
  - When Product is Out of Stock in Magento.
  - When a product is disabled in Magento.

## 7.2. View Failed Orders

The users can view the list of failed Privalia orders on the **View Failed Orders** page.

***In the following conditions, Orders are not imported from Privalia:***

- If any product in the Privalia Order is Out of Stock in Magento.
- If any product in the Privalia Order is disabled in Magento.
- If any Product does not exist in Magento or is deleted from Magneto after uploading to Privalia.
- If the selected Payment Method in Privalia System Configuration Setting is not available in Magento.

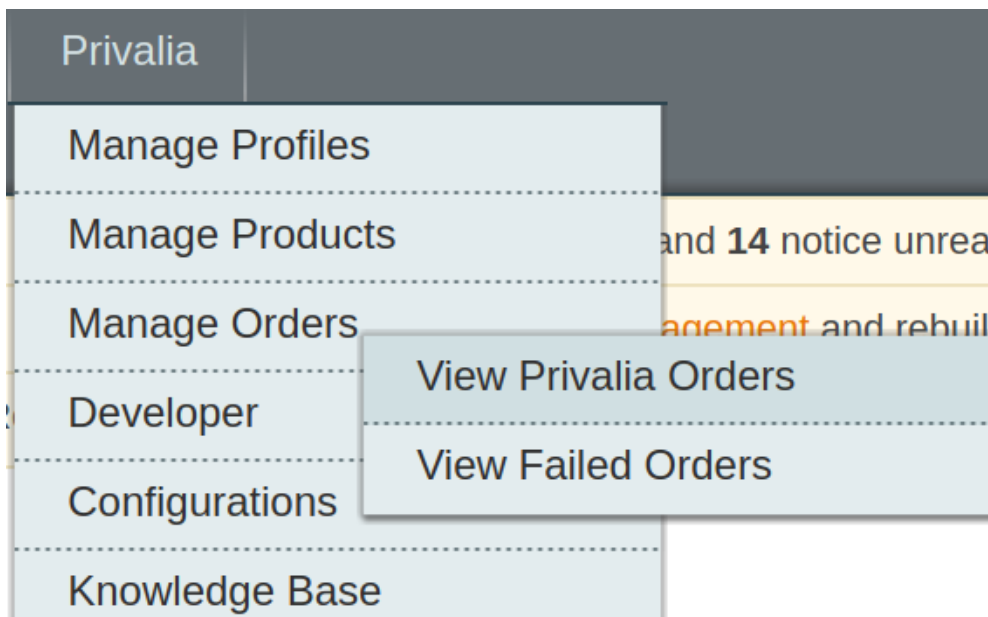

***To view Privalia failed orders***

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Privalia** menu, and then point to the **Privalia Orders** menu.

The menu appears as shown in the following figure:

3. Click **View Failed Orders**.

The Failed Privalia Orders Import Log page appears as shown in the following figure:

This page displays the failed orders with the order id and the reason for the failure.

## 8. Privalia Developer Settings

Under the developer section the admin will be able to perform the following actions:

- View Logs
- View Feeds
- Privalia Crons
- Privalia Categories
- Privalia Attributes

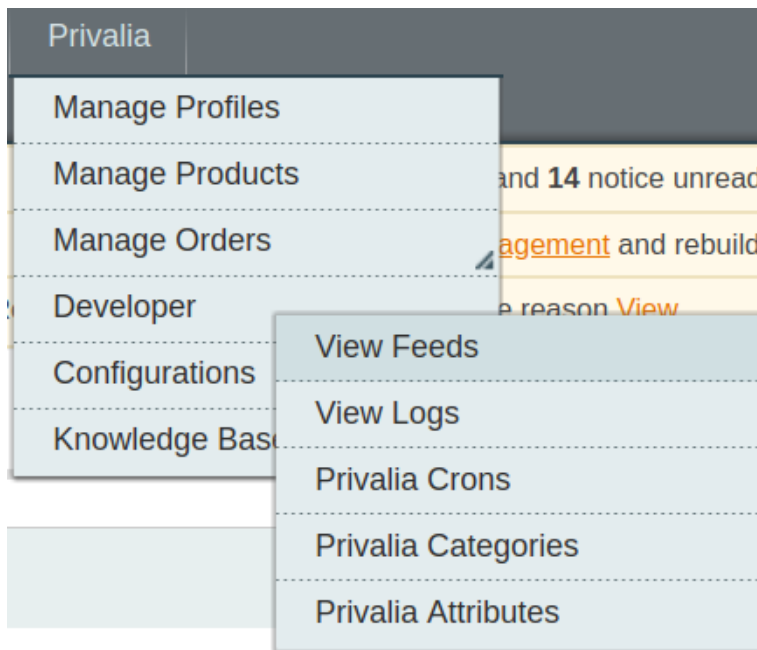

### 8.1. View logs

Admin can view and delete the Privalia log details on the **Privalia Log Details** page.

#### *To view the Privalia log details*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Privalia** menu, and then point to the **Developer** option. Click on **View Logs**.

The menu appears as shown in the following figure:

3. Click **View Logs**.

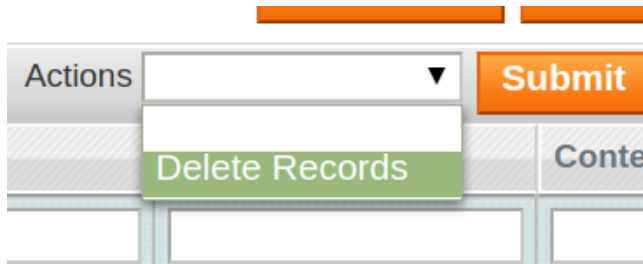

The **Privalia Log Details** page appears as shown in the following figure:

**Note:** To clear all the failed import order logs at once, click the **Truncate** button.

### **To delete Privalia log details**

1. Go to the **Privalia Log Details** page.
2. Select the check-boxes associated with the logs those are no more required.
3. In the **Actions** list, select **Delete Records**, and then click the **Submit** button.

The log records are deleted and a success message appears.

## **8.2. View Feeds**

After uploading the product on Privalia.com or after updating the product inventory or the product price, the user can check the status of the feed from the Privalia **Feed Details** page.

### **To view the product feeds status**

1. Go to the **Magento Admin** Panel.
2. On the top navigation bar, move the cursor over the **Privalia** menu and then point to the **Developer** option.

The menu appears as shown in the following figure:

3. Click **View Feeds**.

The **Privalia Feed Details** page appears as shown in the following figure:

**Privalia Feed Details** Sync Feeds

Page 1 of 1 pages | View 20 per page | Total 12 records found Reset Filter Search

4.

Do the required one of the following tasks:

- View the status of the feed in the **Feed Status** column.
- To synchronize the feeds between **Privalia** and Magento, click the **Sync Feeds** button.  
Or  
Select the checkbox associated with the required product and submit the **Sync Feeds** action.
- To delete the feed, select the check box associated with the product and submit the **Delete Feeds** action.

- To view the product feed error, click the **Error**  button or to view the details of the feed, click the  button.

button.

**Note:** If the feed detail is not available, then the

button appears.

- To download the **Feed File**, click the **Download** link appearing in the **Feed File** column.

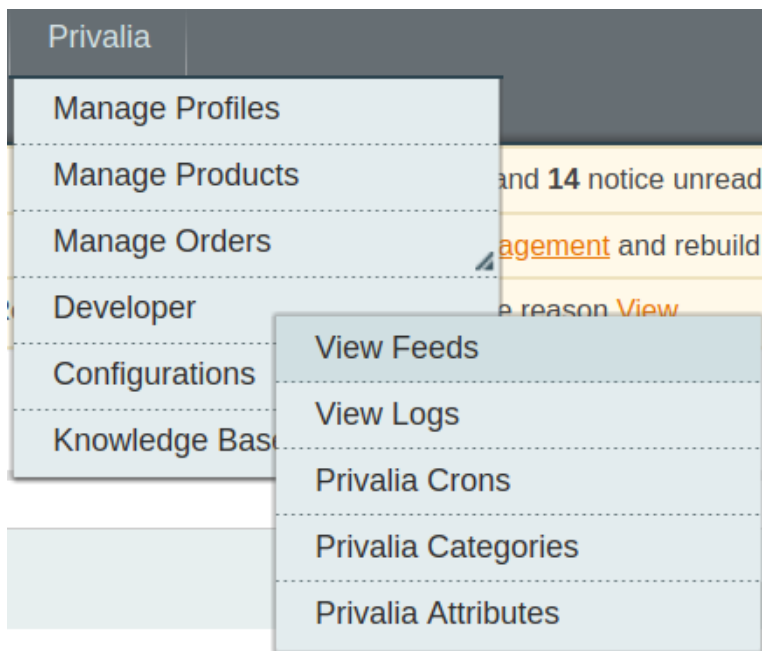

### 8.3. Privalia Crons

The Privalia Crons page displays all the **Cron** details scheduled in Privalia.

**To view the Privalia Cron details:**

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the Privalia menu.

The menu appears as shown in the following figure:

3. Click **Privalia Crons**.

The **Privalia Cron Details** page appears as shown in the following figure:

**Privalia Cron Details**

Page 1 of 1 pages | View 20 per page | Total 0 records found [Reset Filter](#) [Search](#)
