1. Overview

Shopee Integration for Magento 2 developed by CedCommerce provides you the complete integration solution that offers an opportunity of selling your Magento® 2 store products on the Shopee marketplace.

This solution enables you to synchronize the inventory, price, and other product details between the Magento® 2 store and the Shopee marketplace. It helps you to smoothly create the Shopee attributes on the Magento® 2 store. Hence, it enables you to establish a mapping of the desired product attributes on the Magento® 2 store for the submission of the selected product to the same attributes on the Shopee marketplace.

This extension provides you the facility to send the Magento® 2 Product Breadcrumbs to the Shopee marketplace to assign it to the desired category of the Shopee.

It enables the Magento® 2 store owner to manage the Shopee orders in the Magento® 2 stores without making any significant changes in the operational functionalities.

Key Features are as follows:

- **Profile Based Product Upload:** Admin can create a profile and after assigning products to the profile can easily upload on Shopee.
- **Creation of Magento Orders:** Orders from Shopee gets imported into Magento 2 Admin panel, with all the required details as it is on Shopee.com.
- **Product Category Mapping:** Follow many to one category mapping. Admin can map many categories of Magento® 2 store to a single category of Shopee.
- **Synchronized Inventory and Profile Based Pricing:** Inventory Synchronization at regular intervals. product Listing is established between Magento® 2 and Shopee. Profile-based price increase or decrease.
- **Automated Shipment Process:** Store owner can automate the shipment process with Shipstation, Shipwork.
- **Product Data Validation:** The extension enables validating the product information in accordance with Shopee standards and value.
- **Bulk Products Upload System:** Admin has a facility to upload any number of products on Shopee using bulk product upload feature.

2. Shopee Integration Extension Installation

To install the extension

1. Log in the **ftp**, and then go to Magento 2 root folder (generally present under the *public_html* folder).
2. Create a new folder named *code* under the *app* folder; under *code* folder, create a folder named *Ced*.
 - a. Upload or Drag and Drop *app/code/Ced/Shopee* directory.
 - b. After successfully uploading the directory, the extension will be installed/upgraded.
 - c. Now run the following upgrade command in *cmd*
php bin/magento setup:upgrade.

3. Shopee Configuration

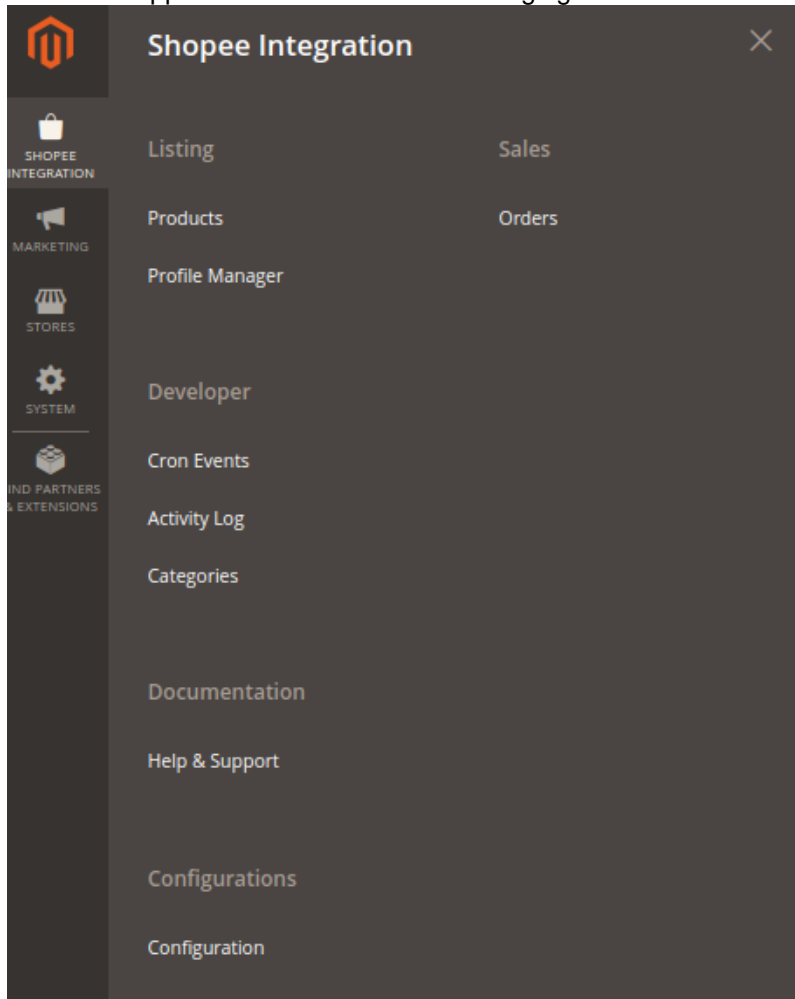

Once the extension is successfully installed in the Magento 2 store, the **SHOPEE INTEGRATION** menu appears on the left navigation bar of the Admin Panel. The merchant has to first create a seller account in the Shopee seller panel.

After assessment of the seller request and the possibility of a partnership, Shopee proceeds further for the next step.

Once the seller account is created and is approved by Shopee, they provide the username and password of the seller account to the admin. The Magento 2 store owner can use the **Shopee Username** and **Password** while setting up the Shopee Configuration settings in the Magento 2 Admin panel.

To set up the configuration settings in the Magento 2 Admin panel

1. Go to the **Magento Admin** panel.
2. On the left navigation bar, click the **SHOPEE INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Configuration**.
The Configuration page appears as shown in the following figure:

Configuration

Q  6  admin ▾

Store View: Default Config ▾

CEDCOMMERCE ^	Shopee Api Settings	⌵
General Setting	Product Global Settings	⌵
Shopee Configuration	Order Settings	⌵
CEDCOMMERCE INTEGRATION ▾	Shopee Inventory Rules	⌵
GENERAL ▾	Shopee Cron's	⌵
SECURITY ▾	Chunk Size Setting	⌵
CATALOG ▾		

4. You can notice the following six categories:=

- Shopee API Settings
- Product Global Settings
- Order Settings
- Shopee Inventories
- Shopee Cron's
- Chunk Size Setting

5. In the right panel, click on **Shopee Api Settings**, and the section expands as:

Shopee Api Settings

Enabled [global] Yes

Mode [global] Production

Select Account Mode Sandbox or Live Production

Partner ID [global]

Shop Id [global]

Signature [global]

Redirect URL [global]

Orders Fetch Start Date [global] 2018-12-02

Status [global] NORMAL

Shop Status

Select Country [global] Malaysia

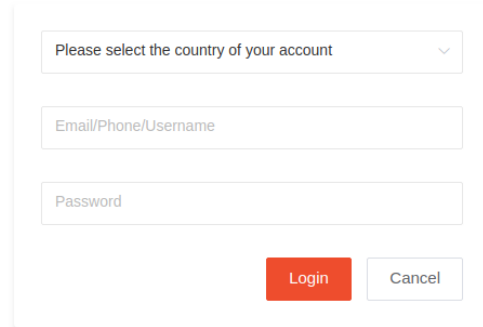

Please select country (this is required for data language) . Default we are using english language

Debug Log [global] No

Select Store [global] Default Store View

- a. In the **Enabled** list, select **Yes** to enable the extension features.
- b. In the **Mode** column select **production** from the drop-down menu
- c. In the **Partner ID** box, enter the Id provided by CedCommerce.
- d. In the **Shop ID** box, enter your Shop ID.
- e. In the **Signature** box, enter the signature provided by CedCommerce.
- f. Now click on the box named **Authorize**.
 - \. You will be redirected to a new page:

Authorization

Please select the country of your account

Email/Phone/Username

Password

- \. Enter your **country**, **username**, and **password** and Click on **Login**.
- \. A confirmation page opens up asking for your permission:

Authorization

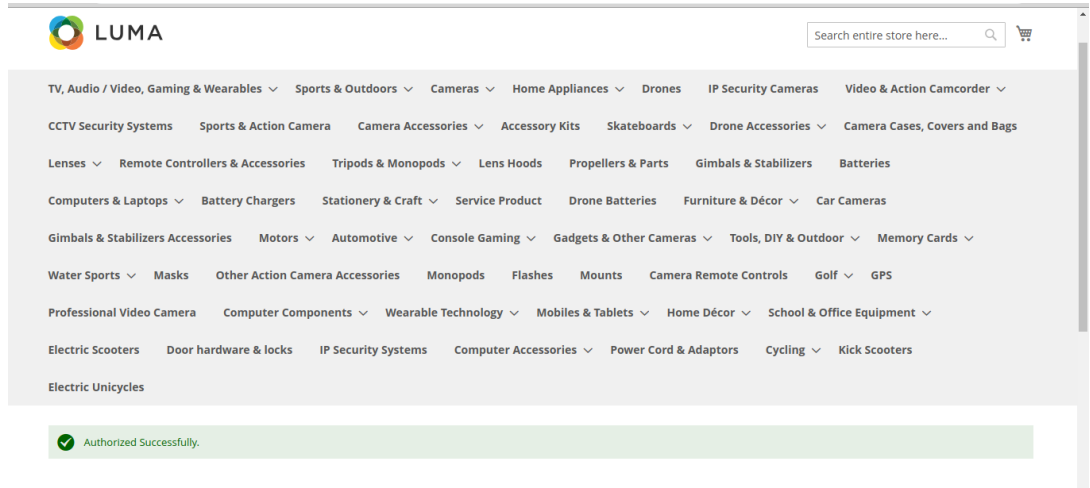

The Developer **cedcommerce inc** is requesting the permission of operating the data of your shop. Including:

Orders
Shop
Items
Logistics
Discounts
Returns
ShopCategory

Are you sure?

- \. Click on Yes and you will be redirected to your Magento panel. Here you can see the confirmation that authorization is successful.

- \. Now move back to the CedCommerce's Dashboard.
 - g. The Redirect URL gets automatically filled.
 - h. Enter the **order fetch start date** in the next column.
 - i. Select the Shop **Status** as banned, frozen or normal as per the requirement
 - j. Choose the **country** from the drop-down list
 - k. In the **Debug Log** list, select **Yes** to start Shopee Integration in the debug mode.
It captures the log for the debug process.
 - l. Select the view of the store you wish to, from the next section of **Select Store**.
6. Now move to **Shopee Global Settings**, and click on it do the following steps:

Product Global Settings

Please set the global settings for Shopee.com

Shopee Product Price [global]

Select to send a different product price to **shopee.com**

Shipping Settings [global]

Enabled	Region	Method	Magento Attribute Code	Action
<input type="button" value="Add Rule"/>				

- a. In the **Shopee Product Price** list, select one of the following options:
 - \. **Increase by Fixed Price**: If selected, then the **Modify by Fix Price** field appears.
 - \. **Increase by Fixed Percentage**: If selected, then the **Modify by Percentage Price** field appears. Enter the numeric value to increase the price of the Shopee, product price by the entered value % of Magento price
For Example,
 Magento price + 5% of Magento price.
 Magento Price = 100
 Select **Increase By Fixed Percentage** option
 Enter **Percentage = 5**

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Shopee Product Price = 105

\. **Decrease by Fixed Price:** If selected, then the **Modify by Fix Price** field appears.

\. **Decrease by Fixed Percentage:** If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to decrease the price of the Shopee product price by the entered value % of Magento price.

For Example,

Magento price – 5% of Magento price.

Magento Price = 100

Select **Decrease By Fixed Percentage** option

Enter Percentage = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Manomano Product Price = 9

2. In the **Shipping Settings** field, click the **Add** button.

Shipping Settings
[global]

Enabled	Region	Method	Magento Attribute Code	Action
Yes ▼	▼	▼	--pl€ ▼	
<input type="button" value="Add Rule"/>				

1. In **Enabled**, select **Yes**.

2. Select the shipping region in **Region** field.

3. Select the shipping method in the next field.

4. Select the **Magento Attribute Code** in the next field.

3. Click **Order Settings** tab and the section will expand as:

Order Settings

Create Product [global] ▼
 Create Product if product Not exist in magento.

Shopee Order Id Prefix [global]
 Prefix for Shopee Increment ID

Customer Email [global]
 Enter the Email for which customer will be created for Shopee Orders.

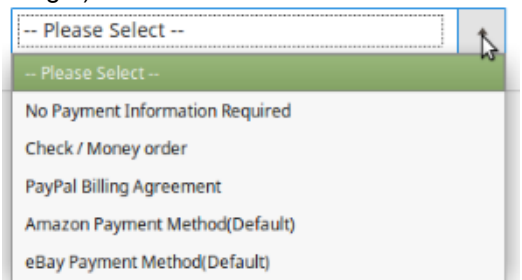

Shipping [global] ▼

Payment [global] ▼

1. In **Create Product** field, select **Yes** if you want to create product if it does not exist in Magento and yet has been ordered on Shopee.
2. In the **Shopee Order Id Prefix** box, enter text as a prefix for Shopee Increment ID.
3. In the **Customer Email** field, enter the email for which customer will be created for Shopee Orders.
4. In **Shipping** field, select the shipping method from the options as shown below: (i have to change the image)

5. In **Payment** field, select the payment method from the options as shown below: (i have to change the image)

4. Click the **Shopee Inventory Rules** tab and the tab expands as:

Shopee Inventory Rules

Set Inventory on Basis of Threshold [global] ▼
 Choose yes to send inventory on shopee by condition

1. In the **Send Inventory on Basis of Threshold** list, select **Enable** to send the inventory based on the threshold.
2. **Note:** Only when the admin selects **Enable**, the other fields appear.
3. The section appears as shown in the following figure:

Set Inventory on Basis of Threshold [global] ▼
 Choose yes to send inventory on shopee by condition

Inventory Threshold Value [global]
 Set inventory quantity on which lesser and greater condition can control.

Send Inventory for Lesser Than Threshold Case [global]
 Send Quantity to Shopee for those products, whose inventory is LESSER than the inventory threshold.

Send Inventory for Greater Than Threshold Case [global]
 Send Quantity to Shopee for those products, whose inventory is GREATER than the inventory threshold.

4. In the **Inventory Threshold Value** box, enter the required value.
 5. In the **Send Inventory for Lesser Than Threshold Case** box, enter the required value.
 6. In the **Send Inventory for Greater Than Threshold Case** box, enter the required value.
5. Click on **Shopee Crons** tab and the tab will expand as:

Shopee Cron's

Order Cron [global] ▼
 Order Fetch Cron

Price Cron [global] ▼
 Price Sync Cron

Inventory Cron [global] ▼
 Inventory Sync Cron

Shipment Cron [global] ▼
 This will automatically generate

- a. In the **Order Cron** list, select **Enable** to enable the order fetch cron.

- b. In the **Price Cron** list, select **Enable** to enable the price sync cron.
- c. In the **Inventory Cron** list, select **Enable** to enable the inventory sync cron.
- d. In the **Shipment Cron** list, select **Enable** to automatically generate the shipment cron.

6. Click the **Chunk Size Setting** tab and it will expand as:

Chunk Size Setting

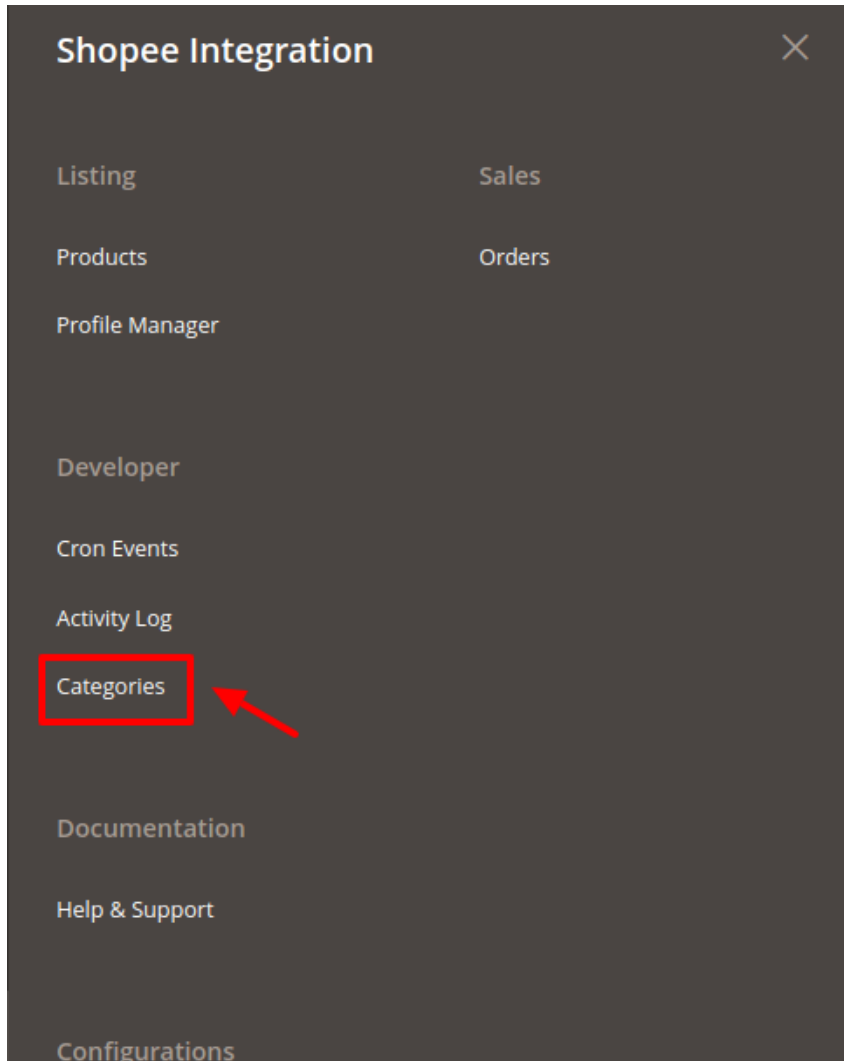

Validation Size <small>[global]</small>	<input type="text" value="10"/>
	Chunk size for validate Product .
Upload <small>[global]</small>	<input type="text" value="10"/>
	Chunk size for Upload Product .
Inventory Update <small>[global]</small>	<input type="text" value="1"/>
	Chunk size for Inventory Update .
Price Update <small>[global]</small>	<input type="text" value="10"/>
	Chunk size for Price Update .
Sync Status <small>[global]</small>	<input type="text" value="10"/>
	Chunk size for Product Status Sync.

1. In the **Validation Size** field, enter the chunk size for the products. The products that will get validated before being uploaded on Walmart would be same as the number you enter in this field.
2. In the **Upload** field, enter the number of products that you want to upload in one go from Magento to Walmart.
3. In the **Inventory Update** field, enter the chunk size of the products. The inventory will be updated in one batch for the number of products that you enter in this field.
4. In the **Price Update** field, enter the chunk size for the number of products. The price will be updated in one batch for the number of products that you enter in this field.
5. In the **Retire Update** field, enter the chunk size of the products. The number of products that you will be able to retire on Walmart would be same as the number that you enter in this field.
6. In the **Sync Status** field, enter the chunk size of the products. The number of products that you will be able to sync the status for would be the same as the number that you enter in this field.

4. Shopee Categories

To view the Flubit Cron details

1. Go to **Magento Admin Panel**.

2. On the **Shopee Integration** menu, click **Categories**.

The **Manage Categories** page appears as shown in the following figure:

3. Now in order to sync the Shopee categories with your Magento 2 store categories, click on **Sync Categories** Button on the top.

Manage Categories

A confirmation message appears:

4. Now Click on the **sync attributes button**, which will import and synchronize all the Shopee attributes into your magento 2 store:

Manage Categories

5. The Shopee categories and Attributes start getting reflected in your Magento panel. Synchronization is established:

Manage Categories

The screenshot shows the 'Manage Categories' interface with a table of categories. The table has the following columns: Id, Category Id, Parent Category Id, Name, Path, Level, Shopee Required Attributes, and Shopee Attributes. The table contains 8 rows of data.

Id	Category Id	Parent Category Id	Name	Path	Level	Shopee Required Attributes	Shopee Attributes
256	4931	455	Others		0	6059	
512	4900	2299	Others		0	9773	
768	7126	2288	Rings		0	5931,5932,5938,5934,5939,21425,21426	
1024	17608	17607	Others		0	19836	
1	16	0	Women's Clothing		0		
257	131	0	Mobile & Gadgets		0		
513	11205	27	Formula, Food & Supplements		0		
769	7127	2288	Earrings		0	5931,5932,5933,5934,5936,21425,21426	

6. If you wish to remove the previous categories or make amends, Click on the **Truncate Button** the top right corner:

Manage Categories

The screenshot shows the 'Manage Categories' interface. At the top right, there is a search icon, a notification bell with '6' alerts, and a user profile 'admin'. Below these are three orange buttons: 'Sync Category', 'Sync Attribute', and 'Truncate'. The 'Truncate' button is highlighted with a red border and a red arrow points to it. Below the buttons are three icons: a funnel for 'Filters', an eye for 'Default View', and a gear for 'Columns'. At the bottom left, it says '1239 records found'. At the bottom right, there is a pagination control showing '20' in a dropdown, 'per page', and '1 of 62' with navigation arrows.

All the previous categories will get removed.

5. Manage Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento Store attributes to the Shopee attributes. These attributes are applicable to all the products that are assigned to the profile.

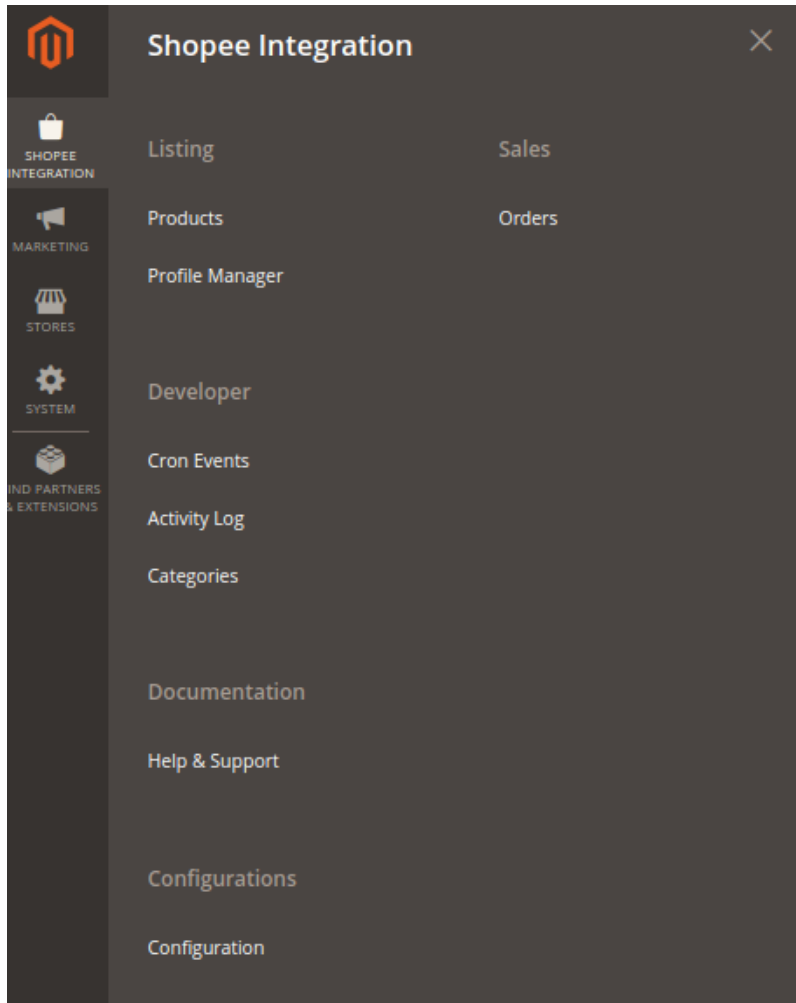

Admin can complete the following tasks:

- Add a new profile
- Edit the existing profile
- Delete the profile
- Submit Actions on the Manage Profile page

5.1. Add New Profile

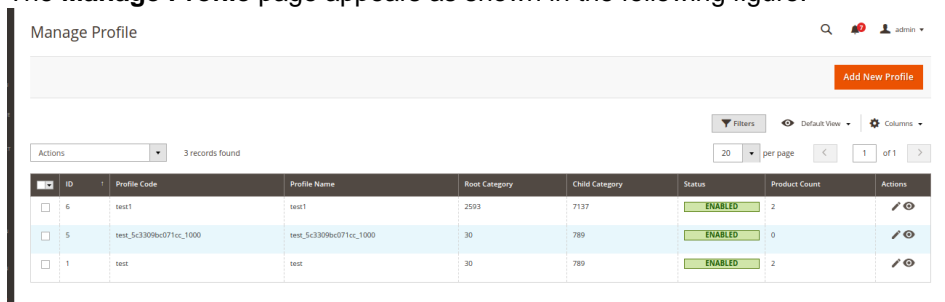

To add a new profile

1. Go to the **Magento Store Admin** panel.
2. On the left navigation bar, click the **SHOPEE INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Profile Manager**.

The **Manage Profile** page appears as shown in the following figure:

4. Click the **Add New Profile** button.

The **New Profile** page appears as shown in the following figure:

New Profile

5. In the right panel, under the **Profile Information** section, do the following steps:
 - a. In the **Profile Code** box, enter a profile code.
Note: It is only for the internal use. Use the unique profile code with no spaces. Start with small letters.
 - b. In the **Profile Name** box, enter the name of the profile.
Note: Use the unique name to identify the profile.
 - c. In the **Status** list, select **Active** to enable the profile.
Note: The Inactive option disables the profile.
6. Click the **Save and Continue Edit** button.

7. In the left navigation panel, click the **Profile Configurations** menu.

The page appears as shown in the following figure:

8. Under the **Shopee Global Settings** section, do the following steps:
- a. In the **Shopee Product Price** list, select the required option. *You may do it once you have unchecked the **Use Default** option adjacent to the corresponding field.*
 - i. **Shopee Product Price:** This is to set a different price for all the products as shown in the following figure:
The user can set the price on the following basis: –

Increase by Fixed Price: If selected, then the **Modify by Fix Price** field appears.
Increase by Fixed Percentage: If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to increase the price of the Shopee product price by the entered value % of Magento price

For Example: Magento price + 5% of Magento price.

Magento Price = 100

Select **Increase By Fixed Percentage** option

Modify by Percentage Price = 5

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Shopee Product Price = 105

Decrease by Fixed Price: If selected, then the **Modify by Fix Price** field appears.
Decrease by Fixed Percentage: If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to decrease the price of the **Shopee** product price by the entered value % of Magento price

For Example: Magento price – 5% of Magento price.

Magento Price = 100

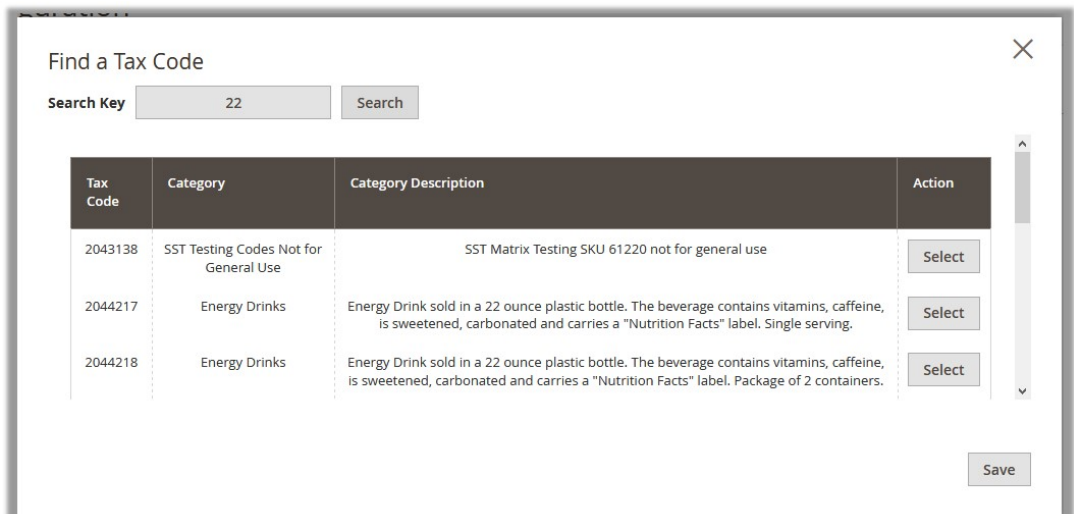

Select **Decrease By Fixed Percentage** option

Modify by Percentage Price = 5

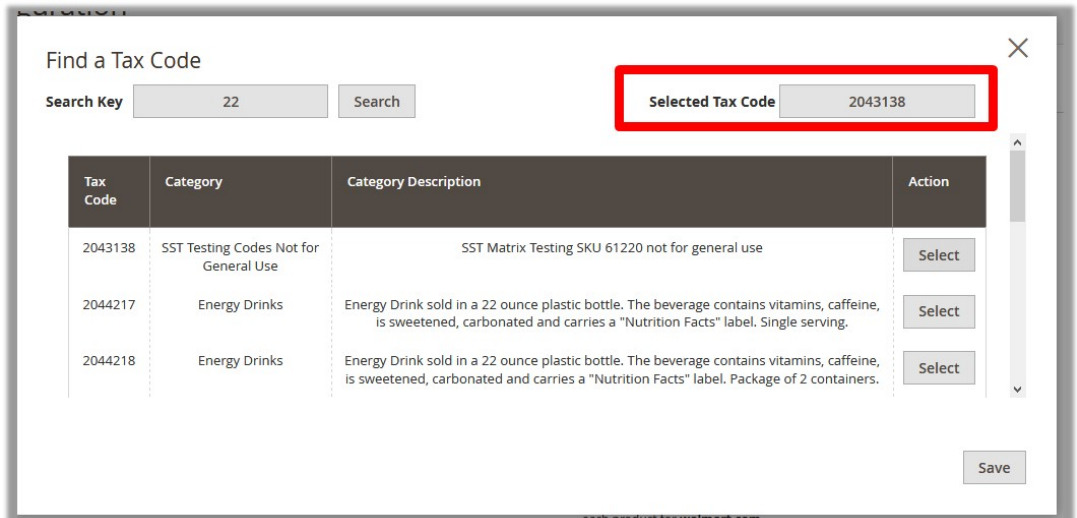

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Shopee Product Price = 95

- b. In the **Inventory Fulfillment Lag Time** box, enter the number of days to fulfill the inventory when the product is out of stock. *You may do it once you have unchecked the **Use Default** option adjacent to the corresponding field.*
- c. In the **Product Tax Code Value** box, enter 7 digit product tax code.
Or Click the **Select Taxcode** button.
The **Find a Tax Code** page appears as shown in the following figure:

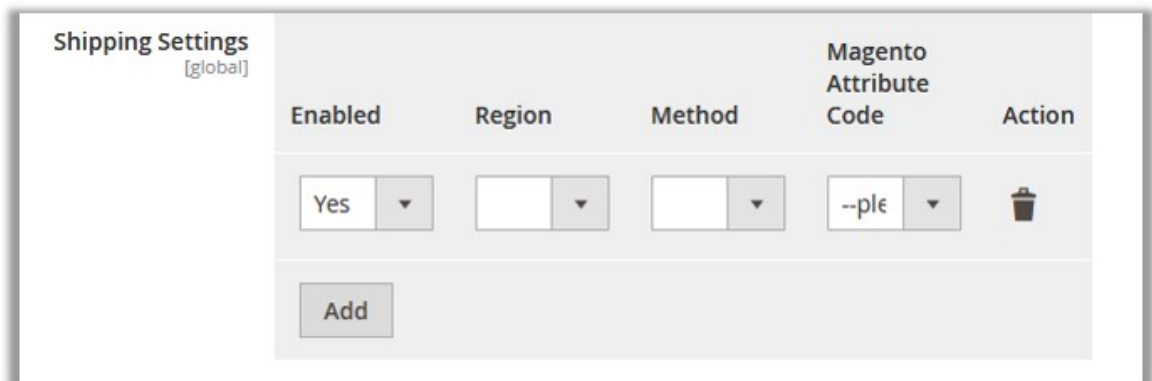

- d. Scroll down to the required Tax Code.
- e. In the **Action** column, click the corresponding **Select** button.
The Tax Code is selected and appears on the top-right corner of the page as highlighted.

- f. Click the **Save** button.
The page is closed and the selected Tax Code appears in the **Product Tax Code** box.
- g. In the **Shopee Product Id Override** list, select the required option.
Note: **Enable** to Override Shopee Product Identifier. Disable it until it is specifically needed.
- h. In the **Shopee Product SKU Override** list, select the required option.
Note: **Enable** to Override Product SKU on Shopee.

- 2. To configure the **Shipping Settings**, click the **Add** button.
The field is expanded and appears as shown in the following figure:

- i. In the **Enabled** list, select **Yes**.
- ii. In the **Region** list, select the required region.
- iii. In the **Method** list, select the required shipping method.
- iv. In the **Magento Attribute Code** list, select the corresponding attribute code.
Note: Click the **Add** button to add more shipping settings. To delete the rule, in the corresponding row of the **Action** column, click the **Delete** icon.

- 9. Under **Shopee Inventory Rules**, do the following steps:

a. In the **Send Inventory on Basis of Threshold** list, select **Enable** to send the inventory based on the threshold.

Note: Only when the admin selects **Enable**, the other fields appear. The section appears as shown in the following figure:

Shopee Inventory Rules

Set Inventory on Basis of Threshold [global] Use Default
 Choose yes to send inventory on shopee by condition

Inventory Threshold Value [global] Use Default
 Set inventory quantity on which lesser and greater condition can control.

Send Inventory for Lesser Than Threshold Case [global] Use Default
 Send Quantity to Shopee for those products, whose inventory is LESSER than the inventory threshold.

Send Inventory for Greater Than Threshold Case [global] Use Default
 Send Quantity to Shopee for those products, whose inventory is GREATER than the inventory threshold.

Note: Threshold Inventory is the minimum count of an item that the store owner wants to keep in stock.

- b. In the **Inventory Threshold Value** box, enter the required value.
- c. In the **Send Inventory for Lesser Than Threshold Case** box, enter the required value.
- d. In the **Send Inventory for Greater Than Threshold Case** box, enter the required value.

10. Click the **Save and Continue Edit** button.

11. In the left navigation panel, click the **Mapping** menu.

The page appears as shown in the following figure:

1	test	test	30	789	ENABLED	2	✎ 👁

7. Click **Change Status**. On clicking it, the status options appear as:

8. Click **Enable** or **Disable** as per your requirement.

9. The selected profile will be enabled/disabled.

To create a duplicate of a profile

1. Go to the **Magento Store Admin** panel.
2. On the left navigation bar, click the **SHOPEE INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Profile Manager**.
- The **Manage Profile** page appears.
4. On this page, all the available profiles are listed.
5. Select the check boxes associated with the required profile.
6. Click the **Arrow** button next to the **Actions** field.

7. Click on **Create Duplicate**.

8. The profile gets duplicated and appears on the page.

6. Shopee Products

Admin can manage products, create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento store attributes to the Shopee attributes. These attributes are applicable to all the products that are assigned to the profile.

Admin can do the following tasks:

- Upload Single Product, View Error Log, and Edit Product Information
- Submit Actions on the Manage Products page
- Add a new profile
- Edit the existing profile
- Delete the profile
- Submit Actions on the Manage Profile page

6.1. Manage Products

On this page, admin can view, edit, and upload the individual product. Also, the admin can view the error message if any error exists in any product details. The admin can also submit certain actions on the selected products available on the **Manage Products** page.

This section covers the following topics:

- View and Edit Single Product
- Upload Single Product
- View Error Log
- Submit Actions on the Manage Products Page

6.2. View and Edit Single Product

To view the product information

1. Go to the **Magento Store Admin** panel.
2. On the left navigation bar, click the **SHOPEE INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Products**.

The **Manage Products** page appears as shown in the following figure:

3. Click on **Sync Category** to establish synchronization in the categories between shopee and Magento.

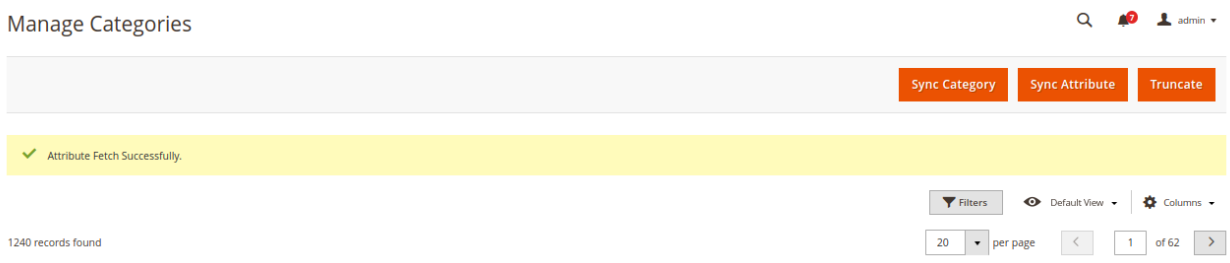

A confirmation message is received confirming successful fetching of categories.

4. Click on **Sync Attributes** to establish synchronization in the attributes between shopee and Magento.

A confirmation message is received confirming successful fetching of attributes.

5. Click on **Truncate** to delete all the Shopee categories:

?

8. Shopee Orders

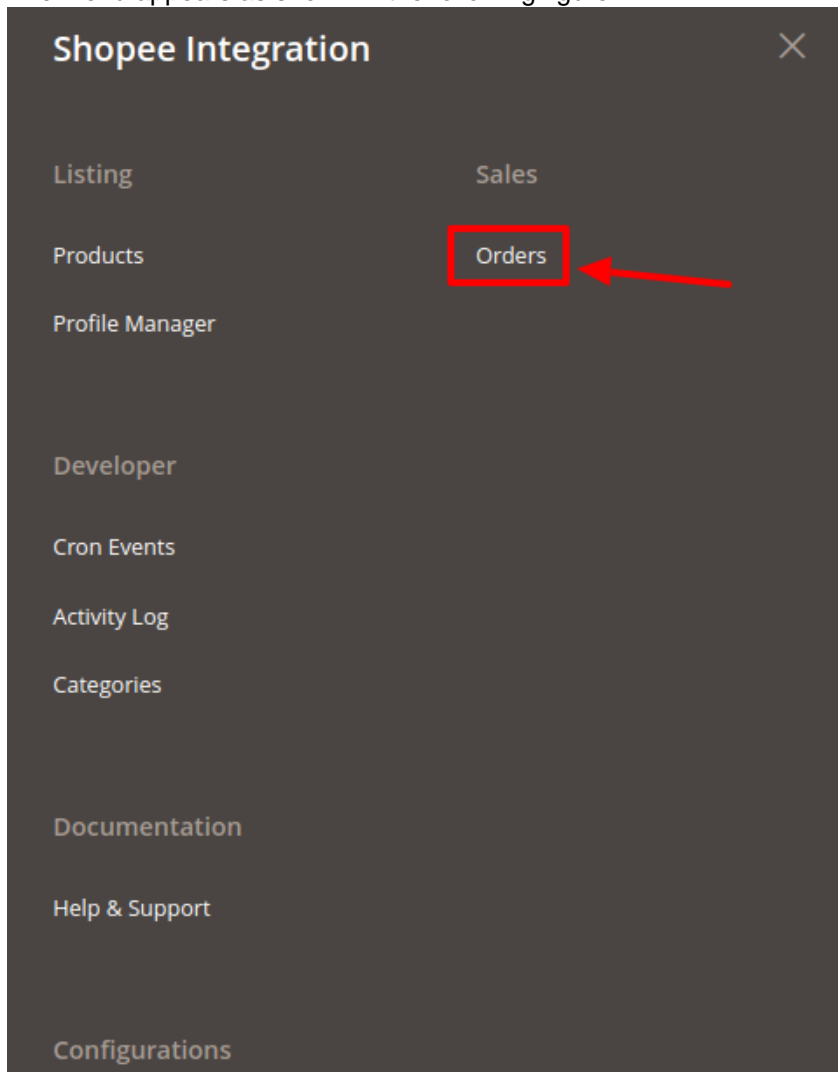

Admin can do the following tasks while managing the Shopee orders:

- Fetch New Orders
- View Shopee Orders

8.1. Fetch New Shopee Orders

To fetch new orders

1. Go to the **Magento 2 Store Admin** panel.
2. On the left navigation bar, click the **Shopee Integration** menu.
The menu appears as shown in the following figure:

3. Click **Orders**.
The **Shopee Order** page appears as shown in the following figure:

4. Click on **Fetch New Orders**, and all the orders will get fetched from the Shopee:

<input type="checkbox"/>	Magento Order id	Entity Id	Purchase Order id	Order Place Date	Magento Order Status	Status	Bill-to Name	Ship-to Name	Grand Total (Base)	Deliver By	Reason	Actions
<input type="checkbox"/>	000000011	103	18121917253869E	2018-12-19 09:25:18	processing	READY_TO_SHIP	peartawan peartawan	peartawan peartawan	695.0000	2018-12-19 09:26:15		
<input type="checkbox"/>	000000012	104	1812191724385PS	2018-12-19 09:24:58	processing	READY_TO_SHIP	peartawan peartawan	peartawan peartawan	915.0000	2018-12-19 09:25:33		

5. If the order is imported successfully then, a new record is found in the Orders Grid table as shown in the figure.

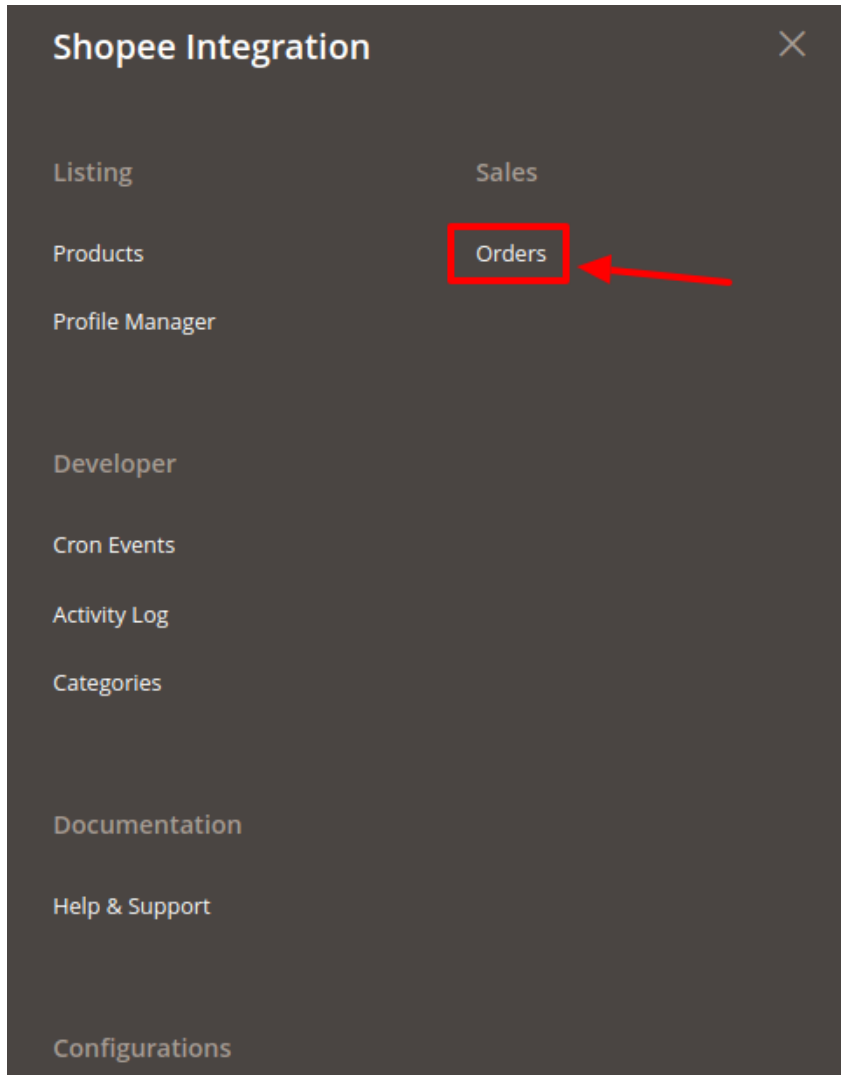

Notes:

- o Orders are automatically imported through CRON in every 10 minutes.
- o Whenever the latest orders are imported from Shopee, a Notification appears in the notification area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported in the Magento 2 store admin panel.
- o If no order is imported, then check the Failed orders listed on the **Shopee Failed Order** page.
- o Order are auto-rejected on Shopee in the following conditions:
 - When Shopee Product SKU does not exist in Magento 2 store.
 - When Product is Out of Stock in Magento 2 store.
 - When a product is disabled in Magento 2 store.

8.2. View Shopee Orders

To view Shopee orders

1. Go to the **Magento 2 Store Admin** panel.
2. On the left navigation bar, click the **Shopee Integration** menu.
The menu appears as shown in the following figure:

3. Click **Orders**.

The **Shopee Order** page appears as shown in the following figure:
