1. Overview

Colizey Integration for Magento is an extension, developed by CedCommerce which enables online sellers to integrate their Magento store with Colizey by establishing synchronization of products, and orders with the help of Colizey API.

Colizey Integration for Magento Integration extension interacts with Colizey Marketplace in order to integrate the synchronized product listing between the Magento and the Colizey retailers. Once you install this extension you have the freedom to create Colizey Categories and the dependent attributes on the Magento store.

Colizey is a French start-up marketplace which aims to reinvent the online sporting goods sales model. The deal with a wide variety of technical and trendy brands in more than 25 sports disciplines including clothing, shoes, equipment, accessories, high tech, nutrition and many more.

Using this extension online sellers can manage both the eCommerce stores easily under the single common platform which is only contingent on the source API made available by Colizey. The process enables Colizey sellers to configure the desired product category into Magento for automatic submission of the selected product to the same Category on Colizey.

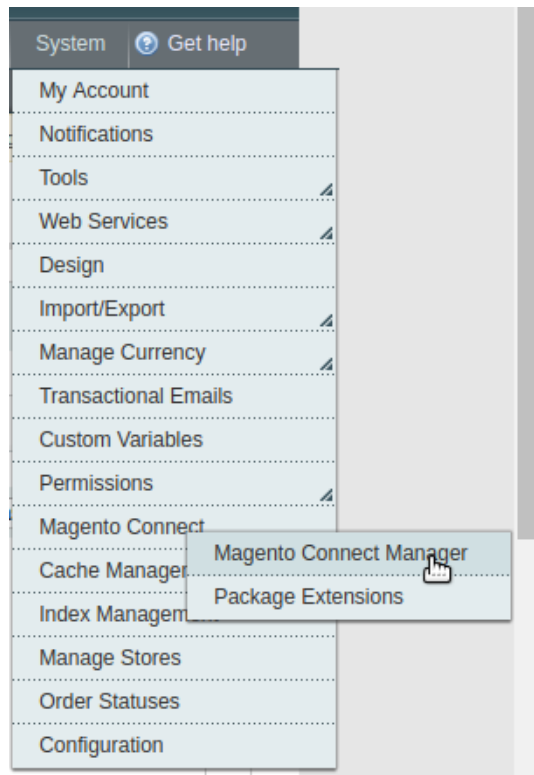

The features of the Colizey Integration for Magento extension are as follows:

- Manage Colizey Product and Upload Product
- Profile Based Product Upload
- Easy Colizey Category and Attribute mapping
- Multiple Shipment of an Order
- Automated Order Import & Acknowledgement
- Automated Product Synchronization
- Review Product/Inventory/Price Feeds
- Upload Configurable Product(s)
- Bulk Product Upload/Publish
- Cron Facility
- Retire/Unpublish Selected Product(s)
- Knowledge Base

2. Colizey Integration Installation

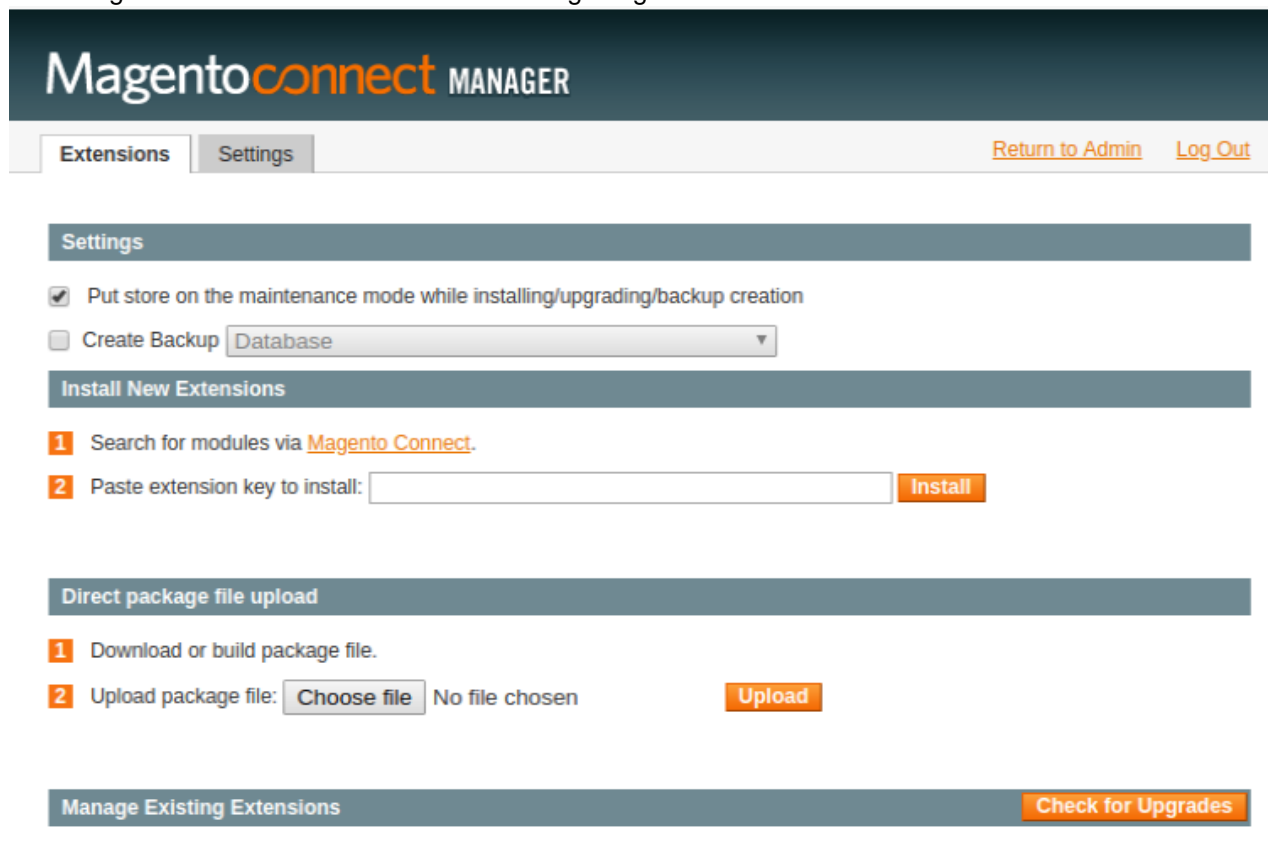

To install the extension

- To install the extension, Go to the system and select the drop down as shown in the below figure.

- Select the Magento Connect
 - Go to the Magento Connect Manager.

You will get the screen as shown in the following image.

- Click on the button **Choose File** to select the file from your local drive.
- After selecting the file, Click on the upload.
- After the installation, a successful message will be displayed on the upper side of the screen.

To **disable** or **enable** the product, scroll down the screen and you will get the screen as given in the below figure.

Commit Changes

- Select that particular extension
 - Go to the actions, and select the options **uninstall**, to uninstall the extension.
 - Click on the button **Commit Changes**. To save the changes.

3. Colizey Configuration Settings

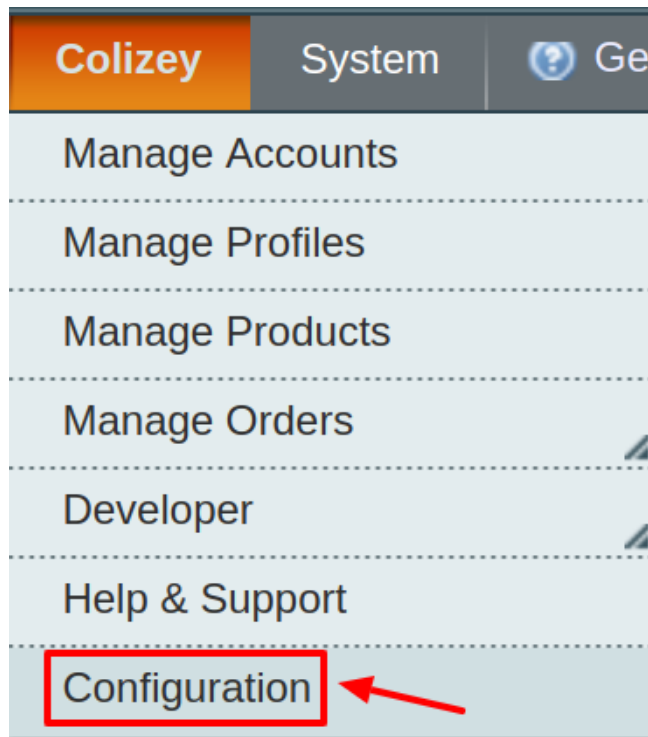

Once the extension is successfully installed in the Magento store, the Colizey menu appears on the top navigation bar of the Admin Panel. The merchant has to first create a seller account in the Colizey seller panel. Once the seller account is created and is approved by **Colizey**, then the Magento store owner can use the **Colizey Username** and **Password** while setting up the Colizey Configuration settings in the Magento Admin panel.

Procedure to set up the configuration settings in the Magento Admin panel

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Colizey** menu.
The menu appears as shown in the following figure:

3. Click **Configuration**.

The **Colizey Configuration** page appears as shown:

Colizey Configuration

[Save Config](#)

Colizey Api Settings	▼
Colizey Product Global Settings	▼
Colizey Product Advanced Price Settings	▼
Colizey inventory rules	▼
Cron Settings	▼

4. In the right panel, click **Colizey API Settings** section and it will expand as shown:

Colizey Configuration

Save Config

Colizey Api Settings		
Enabled	Yes	[WEBSITE]
<div>Create Colizey a/c</div>		
Colizey API Endpoint URL	<input type="text"/> ▲ Please fill https://api.sandbox.colizey.fr/ for sandbox and https://api.colizey.fr/ for live	[GLOBAL]
Default payment method	<input type="text"/> ▲ Choose a default payment method for colizey.fr orders.	[GLOBAL]
Default shipping method	<input type="text"/> ▲ Choose a default shipping method for colizey.fr orders.	[GLOBAL]
Email Id to Recive Critical Notifications	<input type="text"/> ▲ Get Email When you need to know something.Example: owner@example.com	[GLOBAL]
Colizey Debug Mode	Yes	[GLOBAL]
▲ Enable It to Turn On Logging.		
Colizey Customer Email	<input type="text"/> ▲ Enter the Email for which customer will be created for Colizey Orders.	[GLOBAL]
Colizey Order ID Prefix	<input type="text"/> CZ- ▲ Colizey OrderId Prefix (Ex Colizey-)	[GLOBAL]

5. Under **Colizey API Settings**, do the following steps:

- In the **Enabled** list, select **Yes**.

Note: Selecting the **No** option hides all other fields of **Colizey API Settings**. The **Colizey** menu does not appear on the top navigation bar.

- In the **Colizey API Endpoint URI** box, paste the corresponding fill either of these two URLs
 - For Sandbox enter <https://api.sandbox.colizey.fr/>
 - For Live enter <https://api.colizey.fr/>
- In the Next section choose **Default Payment Method for Colizey Orders** list from the drop-down menu.
- In the **Default Shipping Method**, select the default Shipping Method.
- The next section is the **Email Id to receive critical notification**, where you need to enter the desired email id on which you wish to receive the notifications.
- In the **Colizey Debug mode** list, select **Yes**.

Note: By Enabling the debug mode for Colizey Integration, it starts capturing the log for the debug process.
- In the **Colizey Customer Email** box, enter the customer email-id. This is the default customer id for the orders recieved.
- In the **Colizey Order ID Prefix** box, enter the prefix that the admin wants to add before the Colizey order Id. This is for your recognition of the orders recieved from the Colizey marketplace.

6. Now move to the **Colizey Product Global Settings**, Click on it and it expands and additional options appear.

Colizey Product Global Settings		
Select Store	Default Store View ▼ ▲ Select only single store.	[GLOBAL]
Shipping Settings	+ Add Rules ▲ Set shipping region and shipping method charges.	[GLOBAL]
Feed Size	2500 ▲ Provide the total number of items in a single feed file to be sent to colizey.fr.	[GLOBAL]
Upload Chunk Size	100 ▲ Provide the chunk size for product upload to colizey.fr.	[GLOBAL]
Inventory Chunk Size	1000 ▲ Provide the chunk size for product inventory update to colizey.fr.	[GLOBAL]
Price Chunk Size	1000 ▲ Provide the chunk size for product price update to colizey.fr.	[GLOBAL]

7. Do the following steps:

- In the **Select Store** list, select the single store.
- In Shipping Settings, Click on **Add Rule** & the section expands

Shipping Settings					[GLOBAL]
Enabled	Region	Method	Magento Attribute Code		
Yes ▼	STREET_48_STA ▼	Value (Free Shippi ▼	--please select-- ▼	Delete	+ Add Rules
▲ Set shipping region and shipping method charges.					

Under **Enabled**, select **Yes**.

Choose the **Region** from the drop-down menu.

Select the **Method** of Selling from the drop-down menu.

Method	Ma
Value (Free Shippi ▼	--p
Value (Free Shipping)	
Standard	
Expedited	
OneDay	
Freight	
Freight With White Glove	

You can also choose the **Magento Attribute Code** for selecting from the list.

- In **Feed Size**, Enter the total number of items to be sent in a single feed file to Colizey.
- In **Upload Chunk Size**, Enter the size of the chunk which will be used during the auto synchronization of Products.
- In **Inventory Chunk Size**, Enter the chunk size for product inventory to be updated on Colizey.
- In **Price Chunk Size**, Enter the size of chunks of Prices synchronization.

8. Move to the **Colizey Product Advanced Price Settings** and the section expands as:

In the **Colizey Product Price** list, select one of the following options:

- **Increase by Fixed Price**
- **Increase by Fixed Percentage**
- **Decrease by Fixed Price**
- **Decrease by Fixed Percentage**

a) **Increase by Fixed Price**: If selected, then the **Enter Amount** field appears. Now suppose if you enter 50 in the field and your product is available on Magento for 100, the product will be available on Colizey for 150 as you have chosen **increased** by fixed price and have entered the amount of 50; so it will be added to the price for which the product is available on Magento and the resultant amount will be reflected on Colizey, which is 150 in this case.

b) **Increase by Fixed Percentage**: If selected, then the **Enter Percentage** field appears. Enter the numeric value to increase the price of the Colizey, product price by the entered value % of Magento price
For Example,

Magento price + 5% of Magento price.

Magento Price = 100

Select Increase By Fixed Percentage option

Enter Percentage = 5

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Colizey Product Price = 105

c) **Decrease by Fixed Price:** If selected, then the **Enter Amount** field appears. Now suppose if you enter 50 in the field and your product is available on Magento for 100, the product will be available on Colizey for 50 as you have chosen **decreased** by fixed price and have entered the amount of 50; so it will be subtracted from the price for which the product is available on Magento and the resultant amount will be reflected on Colizey, which is 50 in this case.

d) **Decrease by Fixed Percentage:** If selected, then the **Enter Percentage** field appears. Enter the numeric value to decrease the price of the Colizey product price by the entered value % of Magento price

For Example,

Magento price – 5% of Magento price.

Magento Price = 100

Select Decrease By Fixed Percentage option

Enter Percentage = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Colizey Product Price = 95

9. Next is the **Colizey Inventory rules**. Click to open up additional options:

Colizey inventory rules

Send Inventory on the Basis of Threshold: No [GLOBAL]

- In the **Send Inventory on the Basis of Threshold** list, select **Yes** to send the inventory based on a threshold.

Note: Only when the admin selects **Yes**, the other fields appear. Threshold Inventory is the minimum count of an item that the store owner wants to keep in stock.

- The additional fields appear and the inventory rules look like:

Colizey inventory rules

Send Inventory on the Basis of Threshold: Yes [GLOBAL]

Inventory Threshold Value: [] [GLOBAL]
 ▲ Set inventory quantity on which lesser and greater condition can control.

Send Inventory for Lesser Than Threshold Case: [] [GLOBAL]
 ▲ Send Quantity to Colizey for those products, whose inventory is LESSER than the inventory threshold.

Send Inventory for Greater Than Threshold Case: [] [GLOBAL]
 ▲ Send Quantity to Colizey for those products, whose inventory is GREATER than the inventory threshold.

- Enter the **Inventory Threshold Value** in the next section, Enter the threshold value of the products on your Colizey store. By doing so sellers can adjust the deprecated products and hence can control the condition.
- In **Send Inventory Lesser Than Threshold Case** Enter the number of products that will be reflected on Colizey when the inventory quantity reaches below than the threshold value.
- In **Send Inventory Greater Than Threshold Case** Enter the number of products to be displayed on the Colizey Marketplace if your inventory value is greater than or equal to the threshold value entered above.

10. Move to the last configuration settings ie **Cron Settings** and do the following steps:

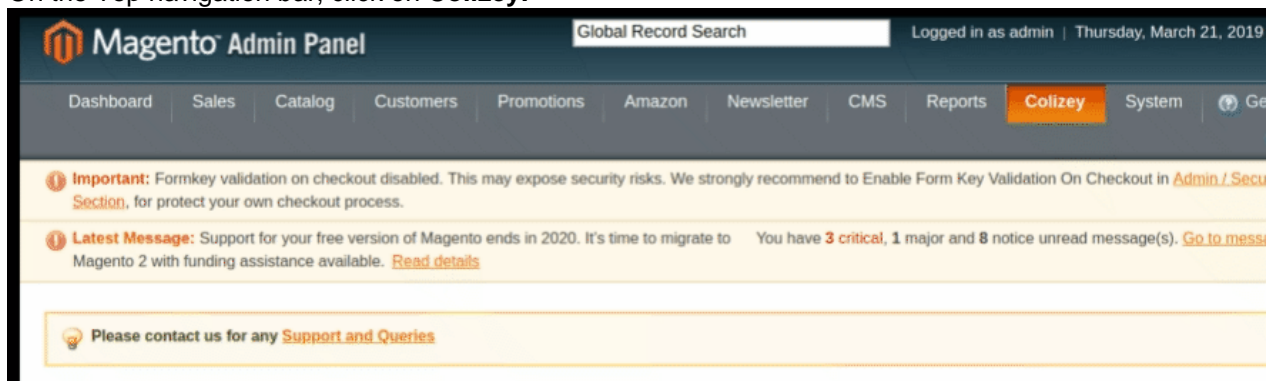

Cron Settings		
Cron Settings Override	No	[WEBSITE]
Enable Order Cron	Yes	[WEBSITE]
	▲ Order Cron Enable/Disable	
Enable Order Status Sync Cron	No	[WEBSITE]
	▲ Order Cron Status Sync Enable/Disable	
Enable Inventory Cron	Yes	[WEBSITE]
	▲ Inventory Cron Enable/Disable	
Enable Price Cron	Yes	[WEBSITE]
	▲ Price Cron Enable/Disable	

- In the **Cron Settings Override** list, select **Yes** to enable the cron settings.
 - To enable or disable the order cron, Select Yes or No from the **Enable Order Cron**.
 - Similarly, in the **Enable Order Status Sync Cron**, Select Yes to enable Order Cron Status Synchronisation.
 - In the **Enable Inventory Cron** list, select **Yes** to enable the Inventory cron.
 - To Enable the product price update cron select yes from the **Enable Price Cron** Settings.
11. Once all the actions have been taken, click on **Save Config** button on the top right side of the page. The configuration will be saved.

4. Manage Colizey Accounts

TO MANAGE ACCOUNT ON COLIZEY

- Go to the Magento admin panel.
- On the Top navigation bar, click on **Colizey**.

- When the menu appears, click **Manage Accounts**.

- On clicking it, you will be navigated to the **Colizey Accounts** page as shown below:

Colizey Accounts							Add New Account
Page <input type="text" value="1"/> of 1 pages View <input type="text" value="20"/> per page Total 1 records found							Reset Filter Search
ID	Account Code	API Key	Store	Status	Environment Mode	API Key Validation	Actions
1	fr		Main Website Main Website Store Default Store View	Active	Sandbox	Validate	Validate API

- To add a new account, click on **Add NewAccount** button on the top right corner.

Colizey Accounts							Add New Account
Page <input type="text" value="1"/> of 1 pages View <input type="text" value="20"/> per page Total 1 records found							Reset Filter Search
ID	Account Code	API Key	Store	Status	Environment Mode	API Key Validation	Actions
1	fr		Main Website Main Website Store Default Store View	Active	Sandbox	Validate	Validate API

- You'll be redirected on a new page:

Add Colizey Account

[Back](#) [Reset](#) [Save](#)

Account Information	
Account Name *	<input type="text"/>
Status *	<div>Inactive</div> <div>▲ Make active to enable the this account</div>
API Key *	<input type="text"/>
Environment Mode *	<div>sandbox</div>
Account Store *	<div>Default Store View</div>

- Enter the **Account Name** by which you wish to sell on Colizey, in the first section.
- Select the **Status** of the account from the drop-down menu, either Active or Inactive. This is to make your account active or inactive on Colizey marketplace.
- Enter the API Key granted by Colizey marketplace.
- Move to the next section and enter the **Environment Mode**. You can choose either sandbox or production.
NOTE: By choosing sandbox all the changes done in the account will not reflect on Colizey seller panel and on choosing production the changes will be live.
- In the **Account Store** section choose the view of the store from the drop-down menu. Choose the **default view** of your store from the next section.
- Once all the actions have been taken so far, click on **Save** button on the top right of the page.
- A confirmation message pops up:

✔ Colizey Account jumbo_98 has been saved.

- Once you do so you are redirected back to the Accounts page. The product created will be displayed.

✔ Colizey Account jumbo_98 has been saved.

Colizey Accounts [Add New Account](#)

ID	Account Code	API Key	Store	Status	Environment Mode	API Key Validation	Actions
1	fr		Main Website Main Website Store Default Store View	Active	Sandbox	Validate	Validate API
2	jumbo_98		Main Website Main Website Store Default Store View	Inactive	Sandbox	Not Verified	Validate API

- Now To Validate the API for the account, click on the button labeled Validate API in the Actions column.
- Once the API gets validated a success message appears:

✔ Woah You are all set. Details Validated Successfully

5. Manage Colizey Profiles

Using Colizey Magento Extension Admin can create a new profile and assign the required products to that profile. While creating and editing the profile, admin can map the Magento attributes to the Colizey attributes. These attributes are applicable to all the products that are assigned to the profile.

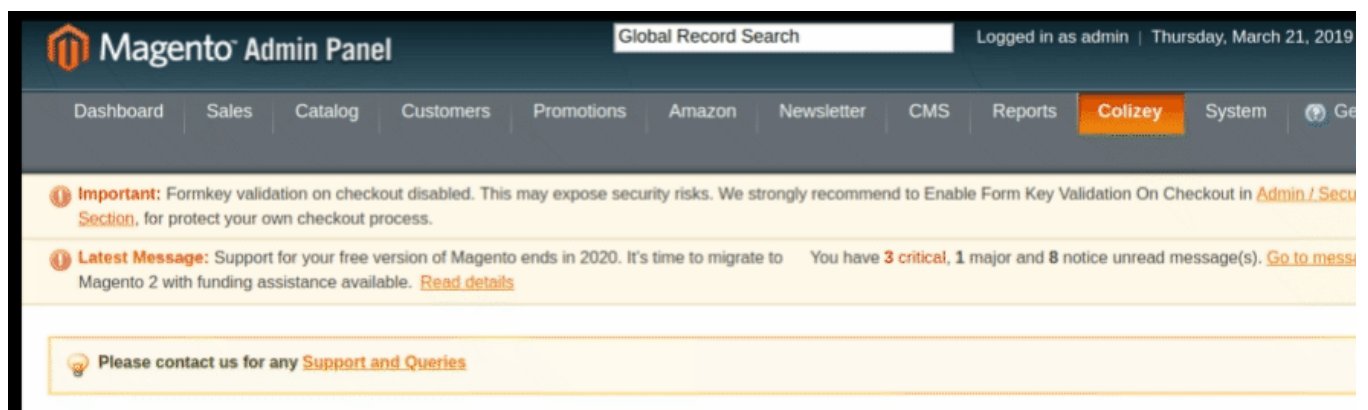

Admin can do the following tasks:

- Add a new profile
- Edit the existing profile
- Delete the profile
- Change the status of the Profiles
- Manage Products assigned to the profiles

5.1. Add A New Profile

Procedure to Add A New Profile:

1. To add a new profile you must go to your **Magento Admin** panel.
2. On the top navigation bar, point to the **Colizey** menu. The menu appears as shown:

3. Click **Manage Colizey Profiles**.

The **Colizey Profile Listing** page appears as shown:

On this page, all the available profiles are listed.

4. Select the check boxes associated with the profiles those are no more required.
5. In the **Actions** list, select the **Change Status** option.

The **Status** field appears next to the **Actions** list.

6. In the **Status** list, select the required option, and then click the **Submit** button. The status is changed and a success message appears.

5.5. Manage the Products assigned to the Profile

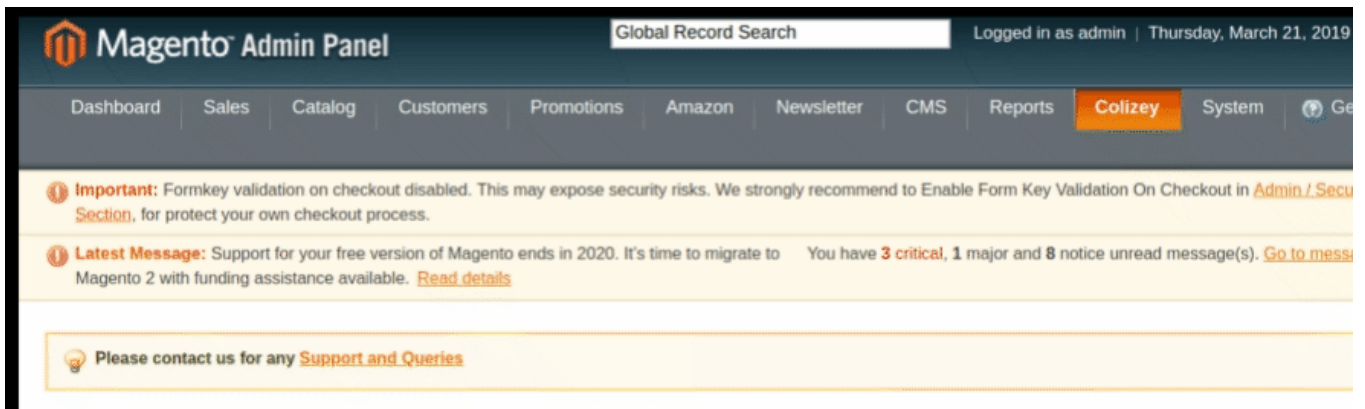

With the help of this feature, the admin can manage the products assigned to the specific profile. The admin can perform the following process.

- view the product
- edit the product
- validate the product
- upload the individual product
- view the error message if any error exists in any product details.
- Submit certain actions on the selected products available on the Product Manager page.

Note: After getting redirected to the Product Manager page from the Colizey Profile Listing page, the admin can view the list of only those products that are assigned to the selected profile.

To go to the Product Manager page:

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Colizey** menu. The menu appears as shown:

3. Click **Manage Profiles**.

The **Colizey Profile Listing** page appears as shown:

Colizey Profile Listing + Add New Profile

All the products assigned to the selected profile are listed on this page.

6. Manage Products

In Colizey Product Management Admin can perform the following tasks:

- Upload Products
- View Error Log
- View and Edit the Product Information

6.1. Upload Products

The admin can upload the products that are assigned to the selected profile and are listed on the **Product Manager** page to Colizey.

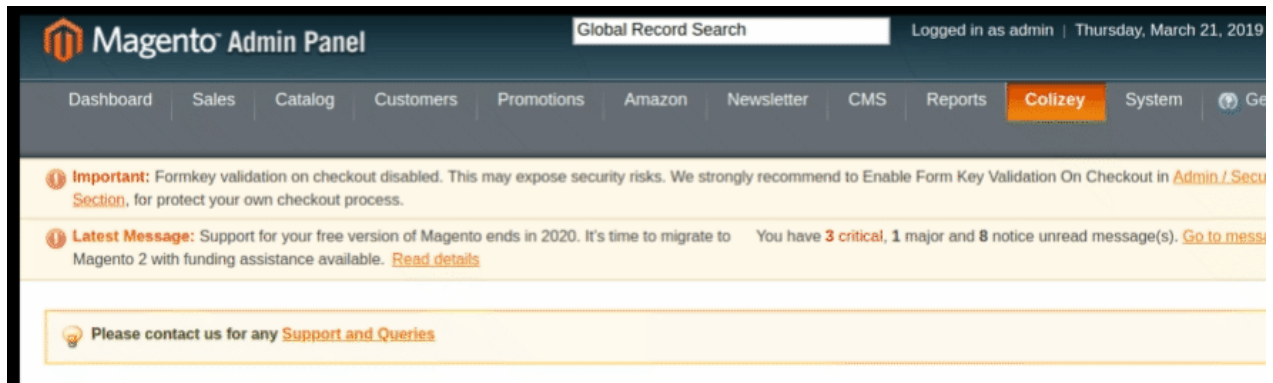

Other than the Validate & Upload Product(s) to Colizey action, the admin can also perform the following actions on the selected products available on the Product Manager page:

- **Validate Selected Product(s):** To validate the product before uploading it to the Colizey website. It displays the corresponding validation error if any. If there is no error, it confirms that the product is ready to upload.
- **Product Price Update:** To update the price of the selected products on Colizey. For example, if the user has changed the product price on the Magento store and also wants to change the price on Colizey then this action is applicable. The price is updated when the user submits this action for the selected product.
- **Product Inventory Update:** To update the inventory of the selected products on Colizey. This action completes all the job related to the product inventory and also it manages the quantity related issues.
- **Delete Selected Product(s):** To delete the selected products so that it is neither used nor ordered. On submitting this action, the product is not listed on Colizey. Thus, nobody can order them from Colizey.

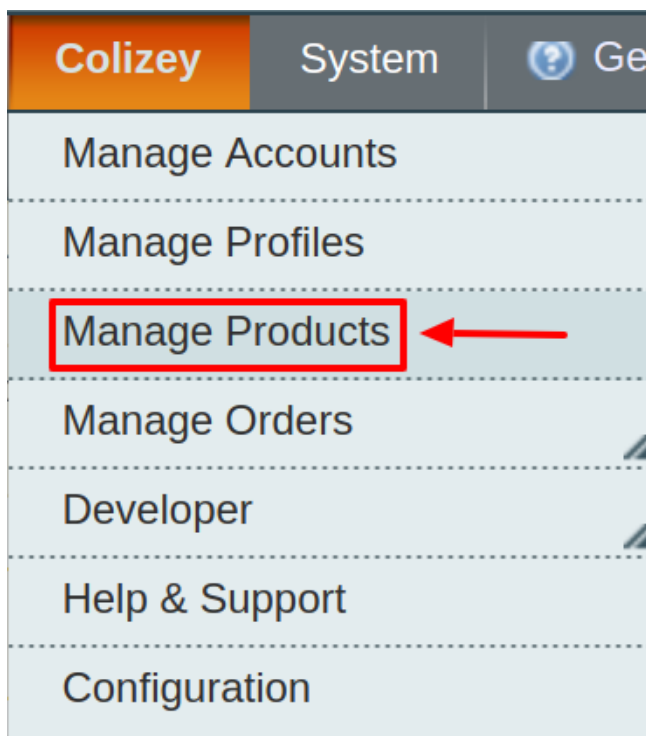

Note: These actions are also submitted similarly as submitting the **Validate & Upload Product(s)** action for uploading the products.

To upload the selected products

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Colizey** menu.

The menu appears as shown in the following figure:

- Click the **Manage Product** menu.
- The **Product Manager** page appears as shown in the following figure:

All the available products are listed.

- First & Foremost **Choose the Colizey Account** for which you want to add products.

- From the drop-down menu select the account.
- Select the checkboxes associated with the product that the admin wants to upload it to Colizey.
- In the **Actions** list, click the arrow button, and then click **Validate & Upload Products**.

- Click the **Submit** button.
- The **Uploading Products Status to Colizey** page appears as shown in the following figure:

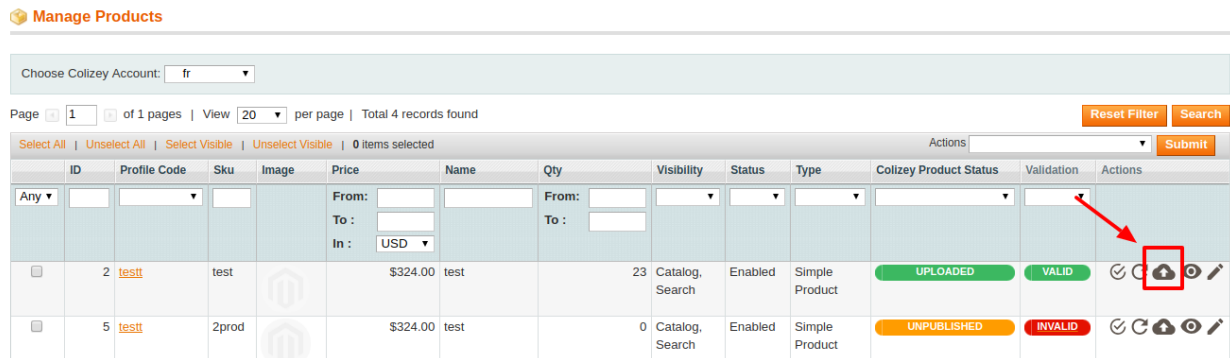

- Similarly, you can perform the other bulk functions like Product Price Update, Product Inventory Update,

Sync Product status, and delete the selected products by just selecting the products and clicking submit.

- You can also upload a single product on Colizey:

To upload single product

- Go to the **Product Manager** page.
The **Product Manager** page appears as shown in the following figure:

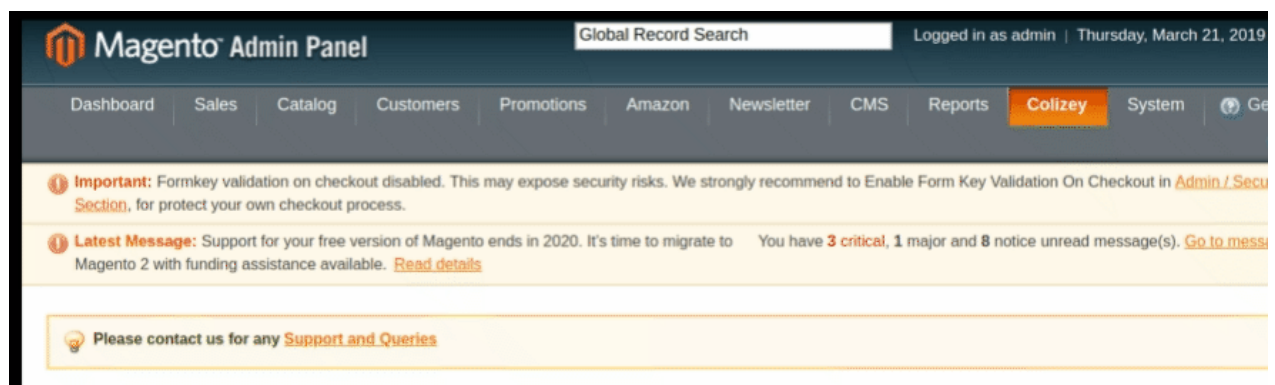

- Scroll down to the required product.
- In the **Actions** column, click the **Upload** button.
If the product is uploaded successfully, then the success message appears on the top of the page.
If there is an error, then the upload failed message appears on the top of the page. Resolve the issue and then again upload the product.

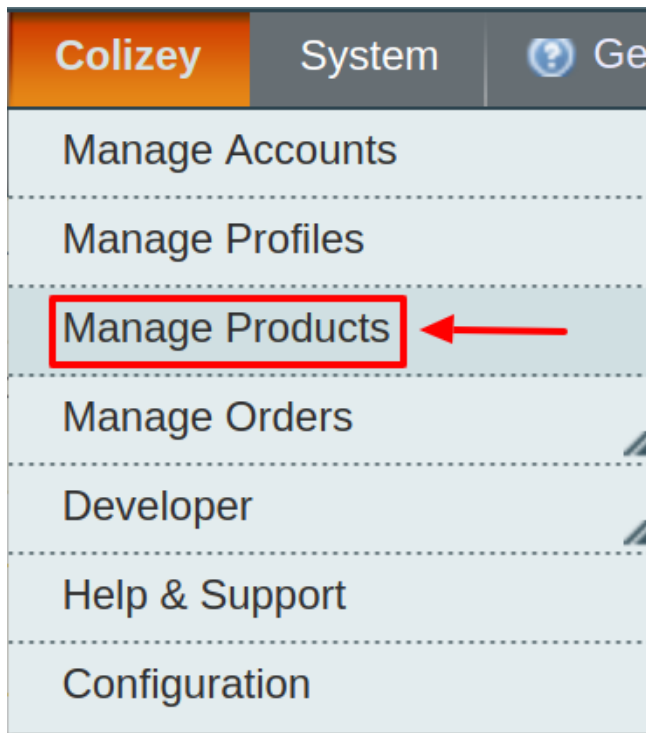

6.2. View Error Log

To View the error log

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Colizey** menu:

- Then click the **Manage Product** menu.

- Click **Manage Product**.
The **Product Manager** page appears as shown in the following figure:

Manage Products

Choose Colizey Account: fr

<input type="checkbox"/>	8	testt	M001		\$10.00	TEST PARENT	0	Catalog, Search	Enabled	Configurable Product	NOT UPLOADED	VALID	

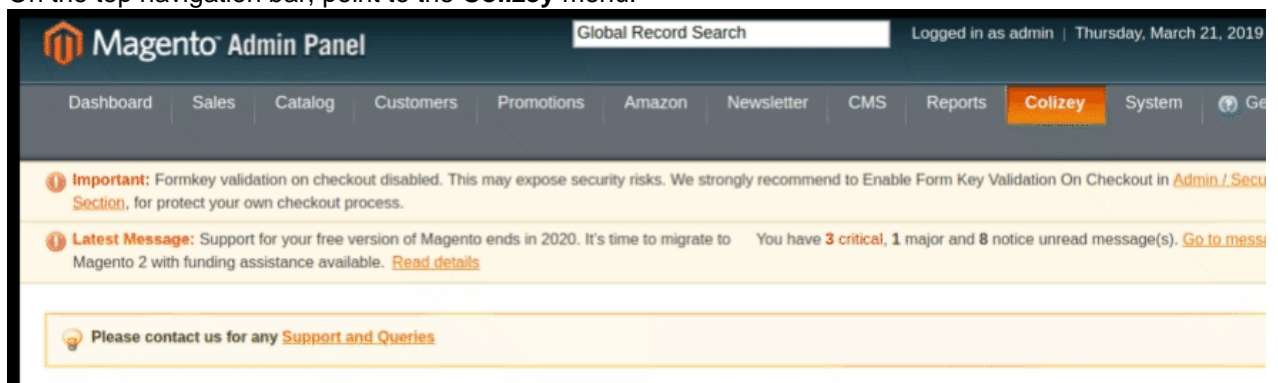

- All the available products are listed.
- Scroll down to the required product.
 - In the **Validation** column, click the **INVALID** button.
The relevant error message appears as shown in the figure.

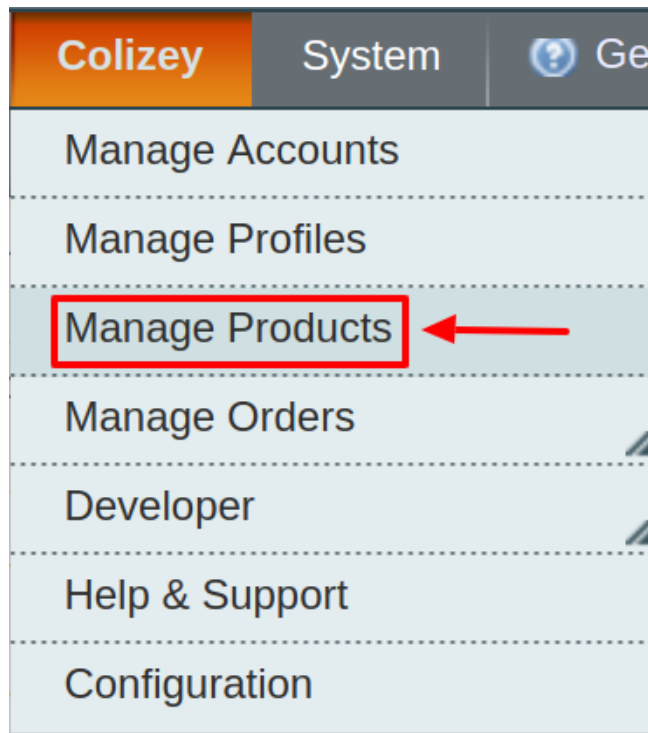

6.3. View & Edit Product Information

To view and edit product information

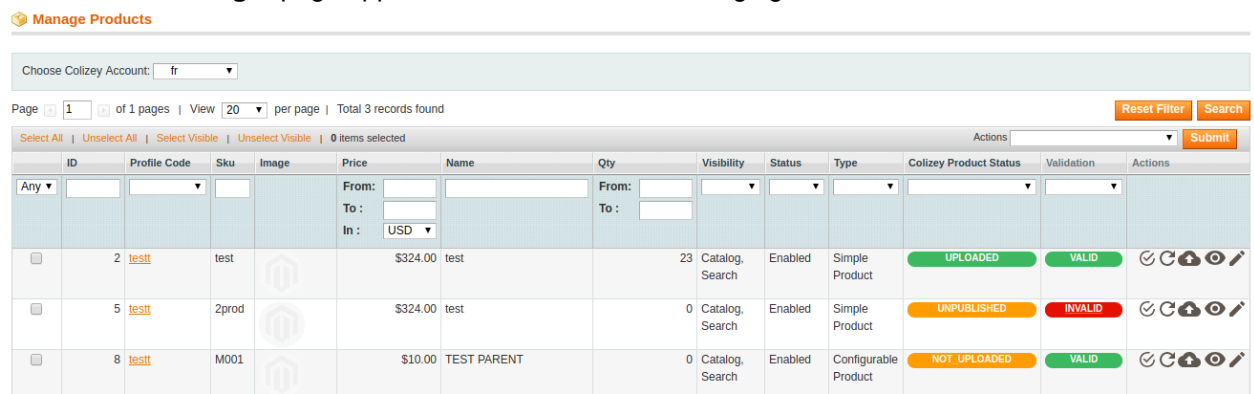

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Colizey** menu:

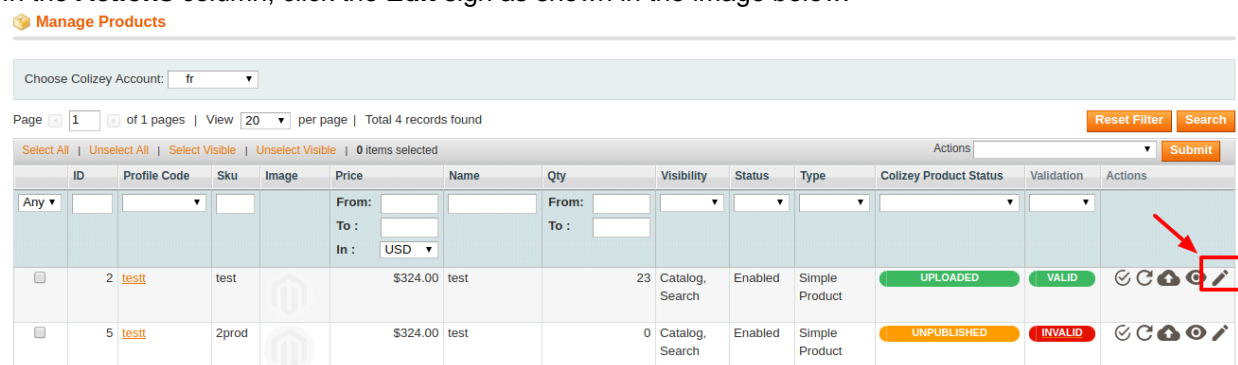

- Then click the **Manage Product** menu.

- Click **Manage Product**.
The **Product Manager** page appears as shown in the following figure:

- All the available products are listed.
- Scroll down to the required product.
- In the **Actions** column, click the **Edit** sign as shown in the image below:

- The **Product Information** page appears as shown in the following figure:

7. Manage Colizey Orders

The Magento store owner can fetch the Colizey new orders instantly from Colizey to the store. The same order is generated for the store merchants to view the details and fulfill them easily in their native order processing system.

Note: Only the **READY** orders are imported to the store.

The admin has access to the following features related to Orders:

- View Colizey Orders
- View Colizey Failed Orders

7.1. View Colizey Orders

Users can fetch and view all the order details fetched from Colizey.

To fetch and view Colizey Orders:

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Colizey** menu.

3. Point to the **Manage Orders** menu. The menu appears as shown in the following figure:

4. Click **View Colizey Orders**. The Colizey **Orders Details** page appears.

Colizey Orders Details										Fetch Latest Colizey Orders
Page 1 of 1 pages View 20 per page Total 7 records found Export to: CSV Export Reset Filter Search

5. Click the **Fetch Latest Colizey Orders** button. If the order is imported successfully then, a new record is found in the **Colizey Order Details** table as shown in the above figure. A success message appears:

Fetch Status

	Starting Order Fetch , please wait...
	Warning: Please do not close the window during Order Fetch
	Total 1 Batch(s) Found.
	Batch 1 for fr accounts fetched Successfully.
	100% 1 Of 1 Processed.
	1 Batch(s) Successfully Fetched.
	Finished order fetch execution.

Notes:

- **Orders** are automatically imported through **CRON** in every 10 minutes.
- Whenever the latest orders are imported from **Colizey**, a **Notification** appears in the notification area of the **Admin** panel for those orders and they are **Auto-Acknowledged** as soon as they are imported into the Magento admin panel.
- If no **Order** is imported, then check the Failed order log on the **Failed Colizey Orders Import Log** page.
- Order are auto-rejected on Colizey in the following conditions:
 - When **Colizey Product SKU** does not exist in Magento.
 - When **Product is Out of Stock** in Magento.
 - When a product is disabled in Magento.

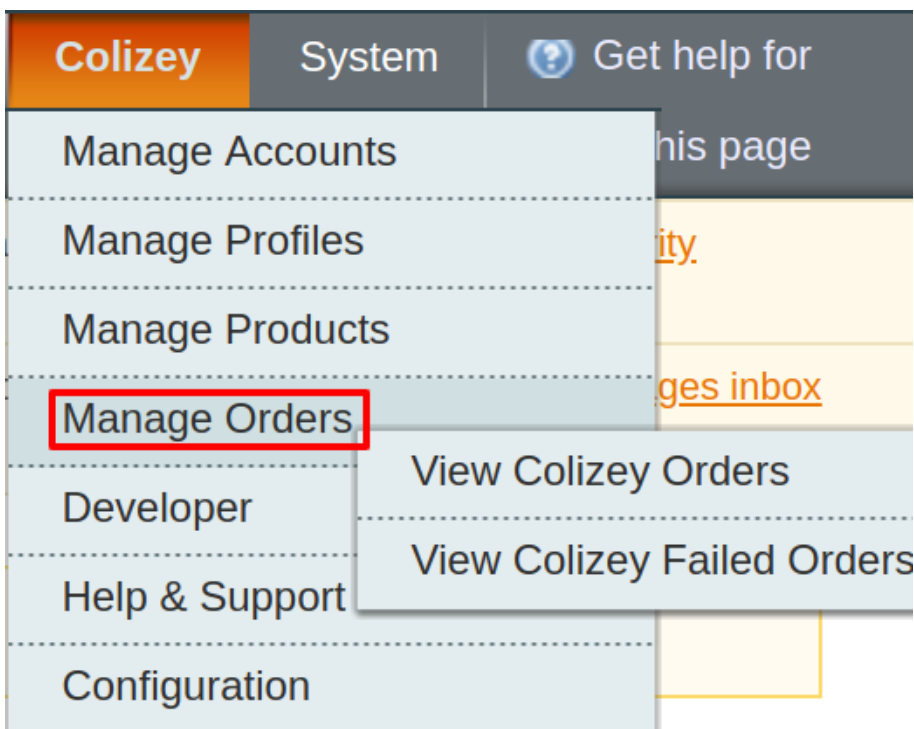

7.2. View Colizey Failed Orders

To view Colizey failed Orders:

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Colizey** menu.

3. Point to the **Colizey Orders** menu. The menu appears as shown in the following figure:

4. Click **View Colizey Failed Orders**. The **Failed Colizey Orders Import Log** page appears.

This page displays the failed orders with the order id and the reason for the failure.

8. Developer Options

In the Developer section, the seller may take manage the following two sections:

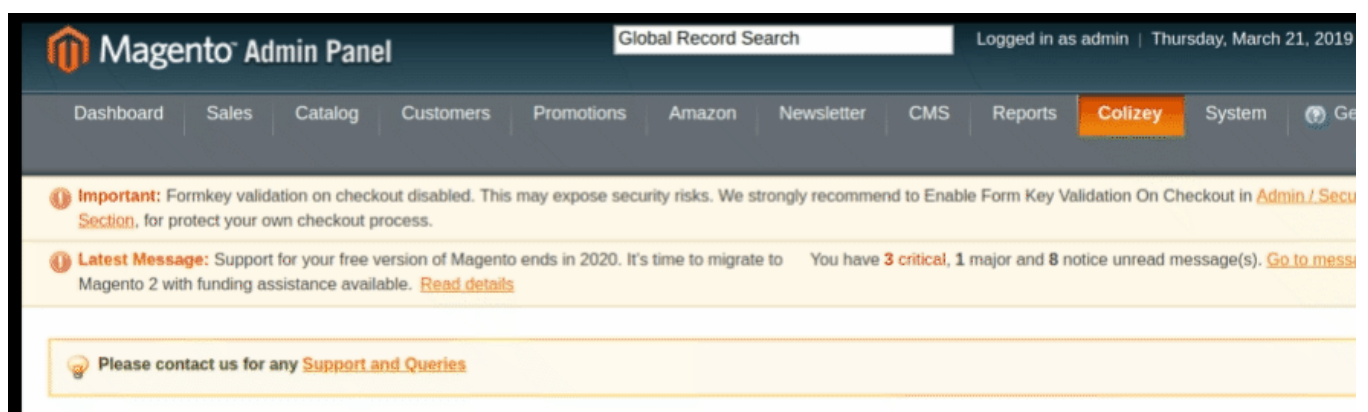

- Cron Details
- Activity Logs

8.1. Colizey Cron Details

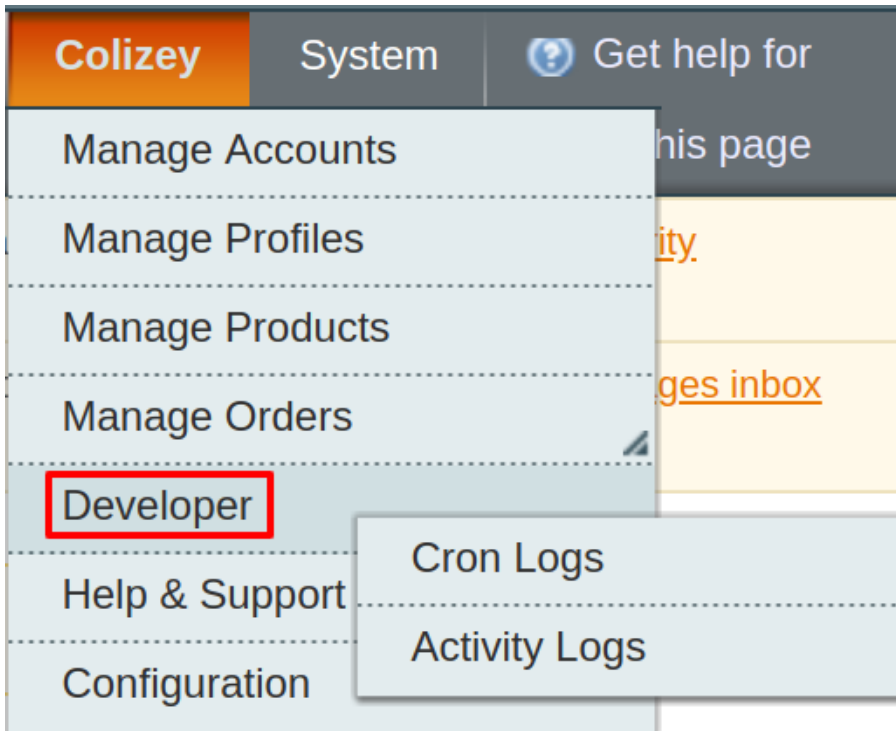

The **Colizey Cron Details** page displays all the **Cron** details scheduled in Colizey.

To view the Colizey Cron details:

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Colizey** menu.

3. Click **Developers** and then on **Colizey Crons**:

The **Colizey Cron Details** page appears as shown in the following figure:

Colizey Cron Details

Page 1 of 1 pages | View 20 per page | Total 0 records found Reset Filter Search

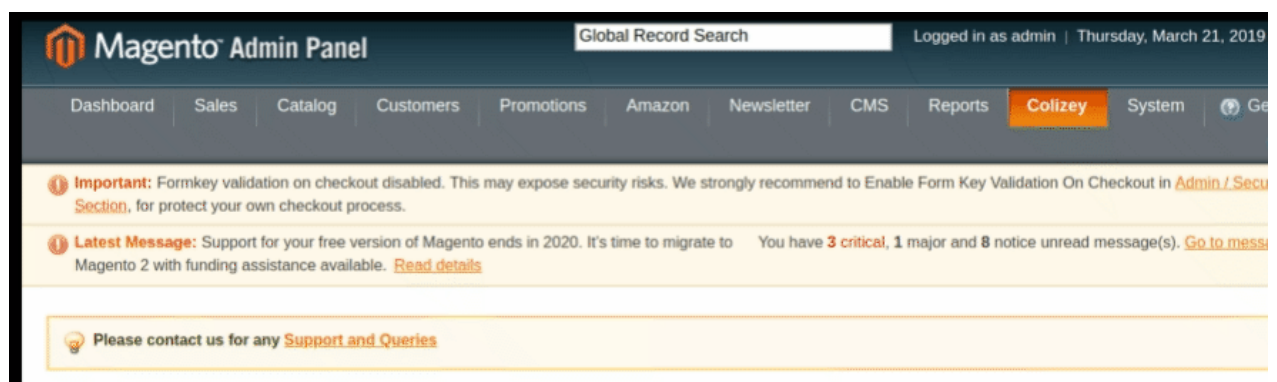

ID	Job Code	Status	Messages	Created At	Scheduled At	Executed At	Finished At

All the crons are listed here.

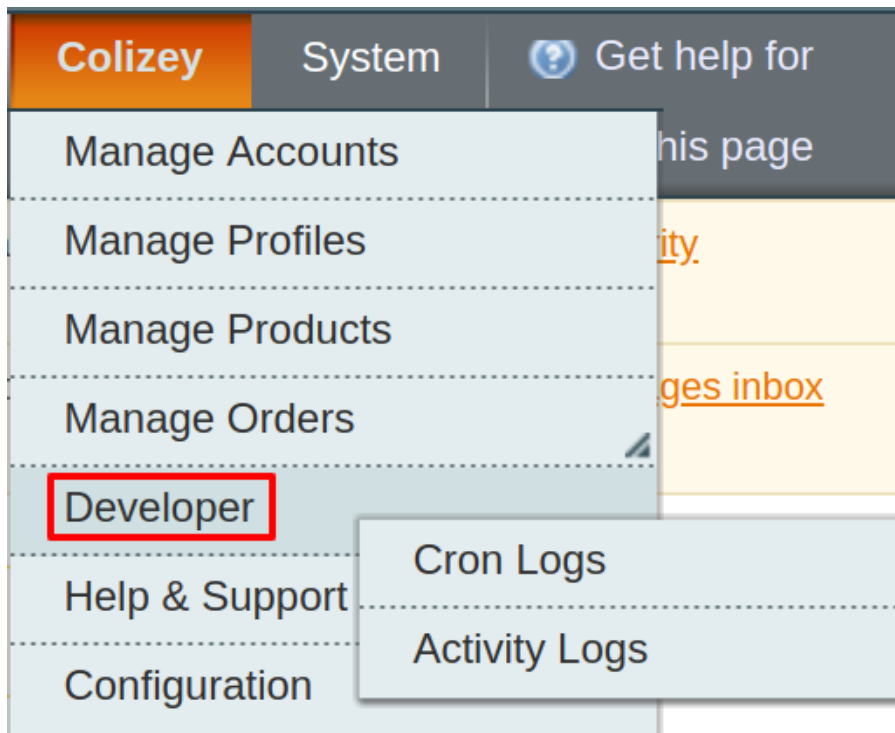

8.2. Colizey Activity Logs

To view the Colizey log details

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Colizey** menu.

- Then point to the **Developer** menu. Click **Activity Logs**.

The **Colizey Log details** page appears as shown in the following figure:

Note: To clear all the failed import order logs at once, click the **Truncate** button.

To delete Colizey log details

1. Go to the **Colizey Log Details** page.
2. Select the check-boxes associated with the logs that the admin wants to delete.
3. In the **Actions** list, select **Delete Records**, and then click the **Submit** button.
The log records are deleted and a success message appears.

9. Help & Support

This page displays a knowledge base link to view and understand the working of the extension properly and get the clarifications on -Magento Integration.

To view the Colizey help and support

1. Go to Magento Admin Panel.
2. On the **Colizey** menu, click **Help and Support**

The page appears as shown in the following figure:
