## 1. Overview

Coolshop is an emerging North European online retailer and marketplace which initially started selling video games but soon branched out to numerous other categories including home decor and baby items. Coolshop originally began as a retailer in its own right in Denmark but has now expanded to Sweden, Norway, Finland, the Netherlands and UK and has localized marketplaces available in all five countries.

**Coolshop Integration for PrestaShop** is an API integration that helps PrestaShop store owners to sell their products on Coolshop and also to synchronize inventory, price, and other product details for product creation and management between PrestaShop store and Coolshop marketplace. This integration facilitates the easy synchronization of your product orders, price, and inventory between your PrestaShop store and Coolshop marketplace.

### *Key Features are as follows:*

**Product Category Mapping:** The admin using this extension can map numerous PrestaShop store categories to a single Coolshop marketplace category.

**Profile-Based Pricing:** This feature enables the admin to plan a variety of pricing strategies when selling a product or service on Coolshop marketplace. The profile-based pricing increases or decreases the product price on Coolshop marketplace.

**Profile Based Product Upload:** The admin can easily upload the products on Coolshop marketplace after creating a profile and assigning the products to it.

**Enabling, Disabling, and Deletion of Products:** This extension facilitates the merchants to easily disable, enable or permanently delete their products on Coolshop.com.

**Simple and Configurable Product Upload:** The admin using this extension can upload simple as well as configurable types of products on Coolshop marketplace.

**Bulk Upload System:** The vendor may upload a huge number of products on Coolshop marketplace using the bulk product upload feature.

**Rejected Product Notification:** If a product gets rejected by Coolshop due to the violation of Coolshop guidelines or invalid data, the merchants can see the details of the error according to the individual products in the module.

**New Order Notification:** The admin receives a notification on the registered email address whenever a new order is fetched from Coolshop marketplace.

**Cron Management:** Cron setting updates the product inventory, order, and price automatically, after a fixed interval of time.

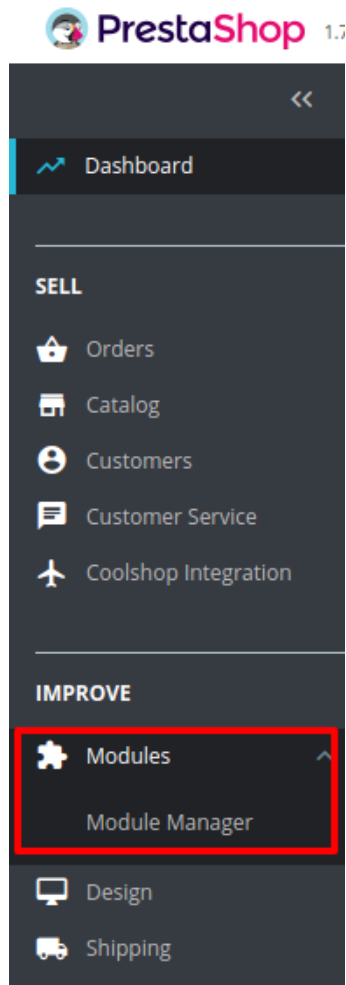

## 2. Installation of Coolshop Prestashop Integration Module

### *To install the module*

#### *To install the extension:*

- Go to the **Prestashop Admin panel**.

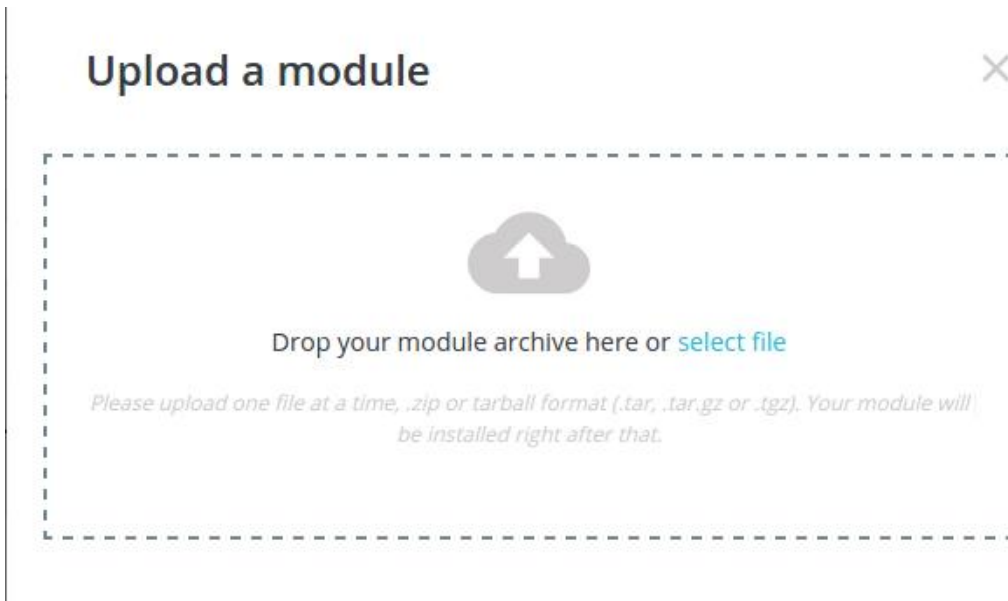

- On the left navigation bar, point cursor to the **Modules**.  
The menu appears as shown in the following figure:

- Now click the **Modules Manager** menu, and you will come across a page like shown below.

- Now you need to click on **Upload a Module** on the top of the page.
- In doing so, the page opens a section like shown in the image below:

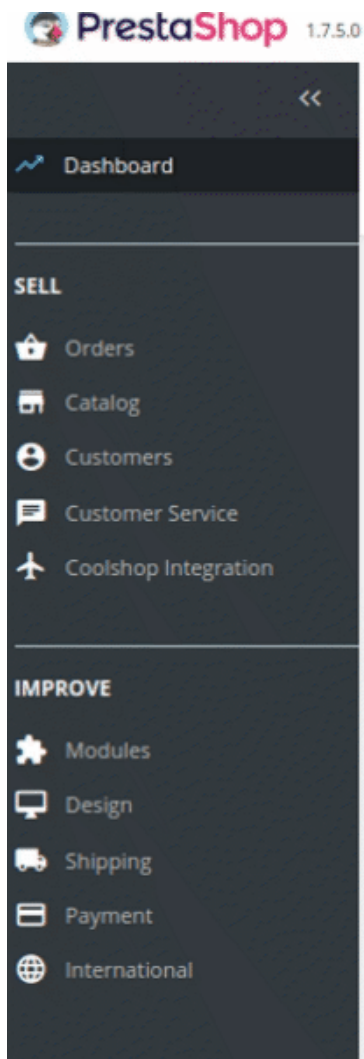

- **Drag and Drop** the module or click the **select file** link to upload the Coolshop PrestaShop Integration module from your system.
- The module will be installed and you will be navigated to the **Configuration** page for further steps to be taken.

### 3. Coolshop Prestashop Configuration Settings

After installing the **Coolshop PrestaShop Integration** module, the store owner (admin) has to set up the Coolshop Integrations configurations. Prior to this, the admin has to first create a seller account on Coolshop seller panel. Once the seller account is created and is approved by Coolshop, the store owner can use the Coolshop **Username** and **Password** while setting up the Coolshop Configuration settings in the PrestaShop Admin panel.

#### *To set up the configuration settings in the PrestaShop Admin panel*

- Go to the **Prestashop Admin** panel.
- In the left navigation panel, place cursor on **Coolshop Integration** and the section expands as:

- Now click on **Coolshop Configuration.S**

- The Configuration Page opens up as shown:

**Configure**  
Coolshop Integration

-  Back
-  Translate
-  Check update
-  Manage hooks

**COOLSHOP INTEGRATION**

**Here is my new generic module!**  
Thanks to PrestaShop, now I have a great module.  
I can configure it using the following configuration form.  
  
This module will boost your sales!

**SETTINGS**

Enable  YES  NO  
*Use this module in live mode*

API URL   
*API URL OF COOLSHOP SELLER.*

CRON SECURE KEY   
*KEY TO USE AS "secure\_key" IN CRON FILES LIKE.  
http://yourdomain.com/modules/coolshop/cronfilename.php?  
secure\_key=your configuration secure key*

CONSUMER API KEY   
*WALMART SELLER CONSUMER ID.*

CUSTOMER ORDER EMAIL   
*Email to create order on store which are imported form coolshop.*

CUSTOMER ID   
*Customer id to create order on store which are imported form coolshop.*

Order status   
*Order Status While importing order.*

Order status when Acknowledge   
*Order Status after Acknowledge order.*

Order status when Shipped   
*Order Status after order Shipped.*

Order Carrier   
*Order Carrier While importing order.*

Order Payment   
*Order Payment While importing order.*

Price variant Type

PRICE VARIANT AMOUNT   
*Amount to be variate on the basis of Increment or Decrement value.*

Price Description   
*Price Description to be send in offers*

Price Internal Description   
*Price Internal Description to be send in offers.*

Minimum Quantity Alert   
*Minimum Qty to be send in offers for Minimum Qty alert.*

Auto Order Acknowledge/Reject  YES  NO  
*If enable then order will be automatically Acknowledge or rejected based on fulfillment status .*

Auto Sync Inventory and Price By Cron  YES  NO  
*If enable then QUANTITY AND PRICE will be automatically SYNCHRONIZED By Cron.*

Remove Free Shipping  YES  NO  
*Remove free shipping from coolshop products*

Update on Product Edit.  YES  NO  
*Update Inventory on coolshop when you edit product on store .*

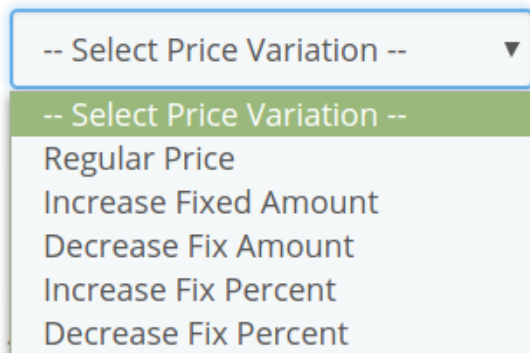

Debug.  YES  NO  
*Log data while request sends on coolshop.*

- In the **Enable** Section, Select **Yes**. By choosing Yes the Coolshop extension gets enabled and all the changes made on the Prestashop Dashboard will get reflected back to the marketplace.
- In the **API URL** section enter the API URL of the seller. This can be retrieved on the Coolshop seller panel.
- The next option is the **Cron Secure Key**. Here you need to enter the cron key that validates the URL. By doing so a perfect synchronization is established between the Coolshop and Prestashop as regular updates from the Cron updates the current scenario.
- In the **consumer API key**, enter the unique API key retrieved from the Coolshop seller panel for your store.
- In the **Customer Order Mail**, you need to provide the Email to create order on the store which is imported from Coolshop.
- Enter the **Customer Id** in the next section. Customer Id is a unique id which is used to create order on the Prestashop store which is imported form Coolshop.
- In the **Order status when shipped**, select the order status to appear when the order has been shipped.
- In the **Order Carrier**, select the order carrier set for particular orders while importing the Coolshop order.
- In the **Order Payment Method**, select the order payment method set for each order while importing the Coolshop order.
- In the **Price Variant Type**, you have the options to select the pricing to be reflected on Coolshop for your products, as shown below:

#### Price variant Type

- **Increase by Fixed Amount:** If you select this option, a bar gets opened as shown in the image below: Now suppose if your product price on Prestashop is 100 and you enter 50 in this tab, the price of the product that will be reflected on Coolshop will be 150 now. It is because you have selected Increase By Fixed Amount and entered 50 in the corresponding field. Suppose, your product is available on Prestashop for 100 and you enter 50 in the corresponding box, then the 50% of your product's Prestashop price will be added to it and it will be reflected on Coolshop. So now your product will be available on Coolshop for 150. (As 50% of 100=50.)
- **Increase by Fixed Percentage:** If you select this option, you may increase the product price by a fixed percentage.
- **Decrease by Fixed Amount:** It works in the same manner as Increase by Fixed Amount works, **but** it decreases the price of the Prestashop product on Coolshop marketplace by a fixed amount.
- **Decrease by Fixed Percentage:** It works in the same manner as Increase by Fixed Percentage works, **but** it decreases the price of the Prestashop product on Coolshop marketplace by a fixed percentage.
- In **Price Internal Description** you need to enter the description for the offer you are providing on the price of the product.

- In the **Minimum Quantity Alert**, enter the minimum quantity of products for which you wish to receive an alert notification.
- In **Auto Order Acknowledge/Reject**, if **Yes** is selected, the order will be automatically accepted or rejected based on fulfillment status.
- **Auto Sync Inventory and Price By Cron**, select **Yes** or **No** in accordance with your needs. If you select yes, the Inventory and Price will be synchronized between Prestashop and Coolshop.
- In **Remove Free Shipping**, select **Yes** or **No** in accordance with your needs. If you select yes, then free shipping gets removed from the product feed.
- In **Update on Product Edit**, select **Yes** or **No** in accordance with your needs. If you select yes, the Inventory and Price will be updated in product feed when you edit the products in the store.
- In the **Debug** section select Yes if you wish to Log data while the request is being sent on Coolshop.
- At completing the process, you need to click on the **Save Config** button on the bottom right of the page as shown in the figure below:

- A confirmation message appears as shown:

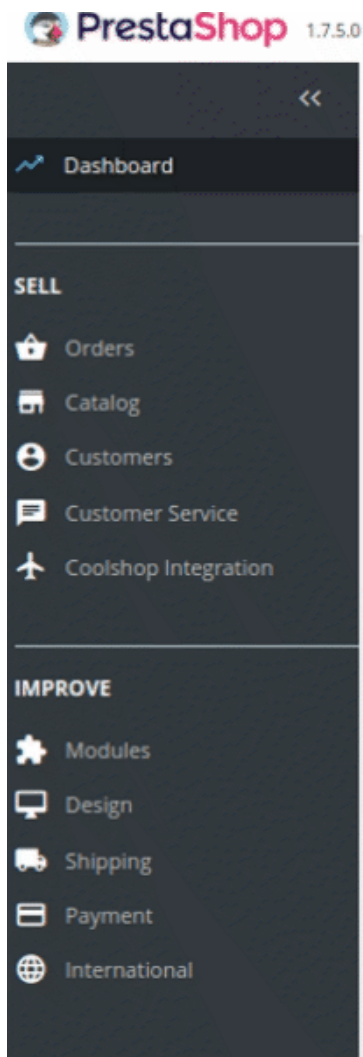

Configure  
Coolshop Integration

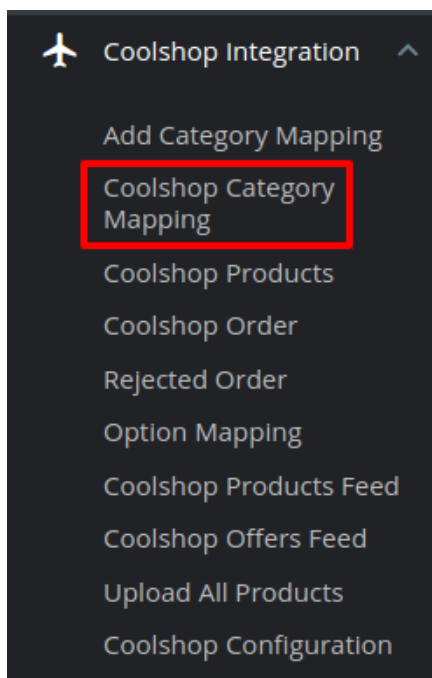

## 4. Coolshop Category Mapping

### *To Perform Category Mapping for Coolshop:*

- Go to Prestashop Admin Panel
- On the left navigation bar, place the cursor on Coolshop Integration and you will see it getting expanded as below:

- In the expanded section, click on **Coolshop Category Mapping**

- You will be navigated to Coolshop Category Mapping page as shown below:

Coolshop Integration / Coolshop Category Mapping

A new page opens up with all the required information pertaining to the order:

### 6.3. View Rejected Orders

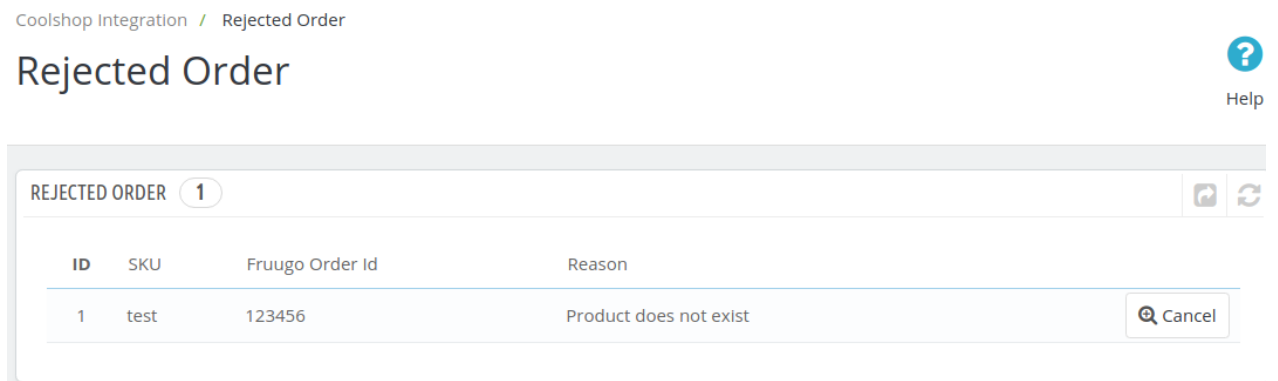

*To view the rejected orders:*

- Go to the **PrestaShop Admin** panel.
- In the left navigation panel, place cursor on **Coolshop Integration** menu.
- The menu appears as shown in the following figure:

- Click **Coolshop Rejected Orders**.  
The **Coolshop Rejected Orders** page appears as shown in the following figure:

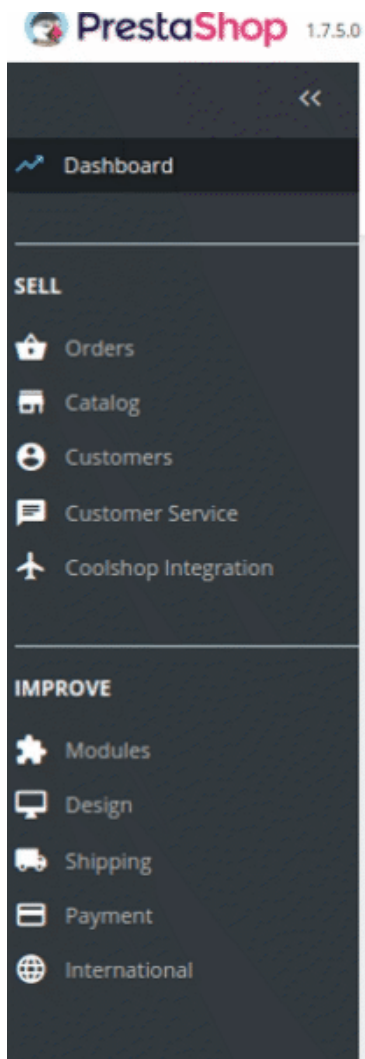

- All the rejected orders are listed here.
- In case you wish to cancel any rejected orders from the list, Click on the cancel button associated with the rejected order.

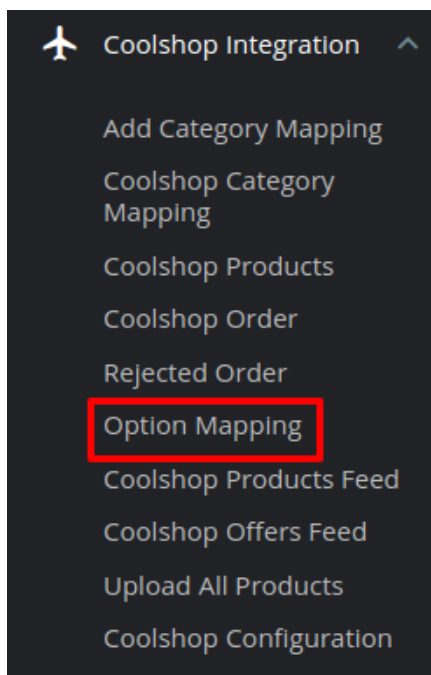

## 7. Option Mapping

### *To Perform Offer Mapping*

- Go to the **PrestaShop Admin** panel.
- In the left navigation panel, place cursor on **Coolshop Integration** menu.

- The menu appears as shown in the following figure:

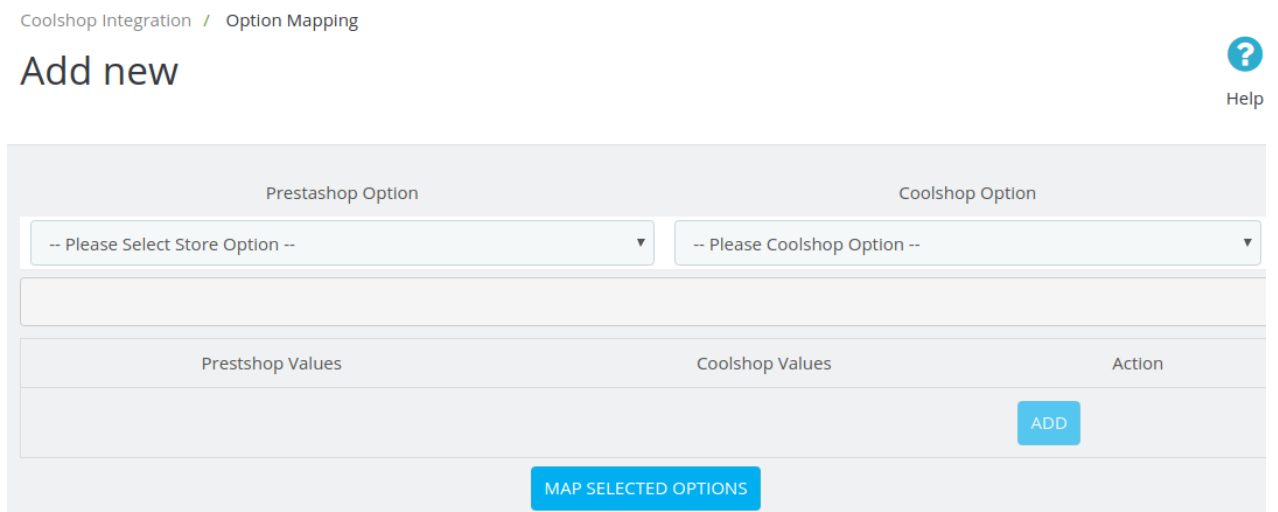

- Click **Option Mapping**.
- The **Coolshop Option Mapping** page appears as shown in the following figure:

- To add a new Mapping Click on the + button on the top right-hand side:

- You will be redirected to a new page:

- Here all the Prestashop categories are mentioned on the left-hand side and the Coolshop categories are mentioned on the right.
- Map the Prestashop category with the most appropriate category on Coolshop.
- Then click on Add to map the Prestashop value for that desired category with the Coolshop values.  
**For example**, if you wish to map the values of various Colors between the Prestashop and Coolshop categories. Then select the color in option and in the values map the desired color (say Pink) for your Prestashop with the purple of the Coolshop value. The image below will make it all clear:

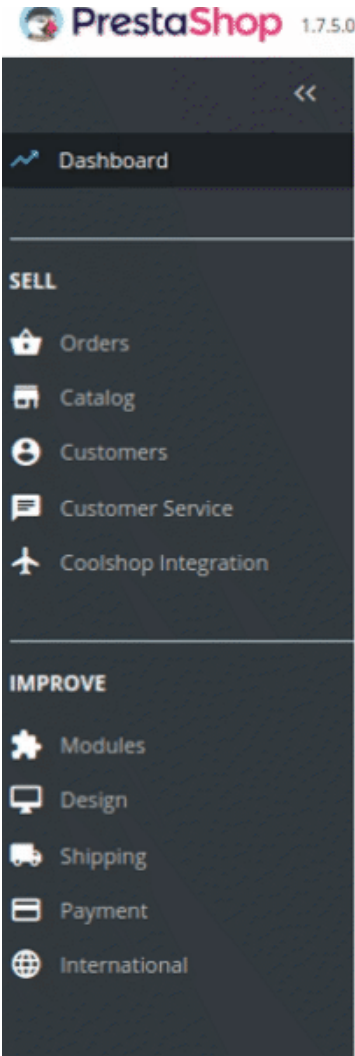

Prestashop Option		Coolshop Option	
Color		Primary Color	
Prestashop Values	Coolshop Values	Action	
Pink	Purple	Remove	
Green	Lime	Remove	
		ADD	
<b>MAP SELECTED OPTIONS</b>			

- Once you select the desired category then click on **Map selected options** and the option mapping is saved.

## 8. Coolshop Product Feed

### *To view the product feed:*

- Go to the **PrestaShop Admin** panel.
- In the left navigation panel, place cursor on **Coolshop Integration** menu.

- rejected ordersThe menu appears as shown in the following figure:

- Click **Coolshop Product Feed**.
