1. Overview

The Pricefalls **Integration For Magento 2** by CedCommerce is a handy tool that helps the Magento® 2 store owners to boost their business and generate the revenue as it interacts with Pricefalls API's to connect their Magento® 2 store to Pricefalls. It provides an opportunity to cover a wide range of customers.

Admin gets the authority to create Pricefalls Categories and the dependent attributes on the Magento 2 store. It also enables you to establish a mapping of the desired product category on the Magento 2 store for automatic submission of the selected product to the same category on Pricefalls.com.

This extension interacts with the Pricefalls Marketplace to integrate the synchronized product listing between Magento® 2 Store and the Pricefalls.com retailers.

It enables the admin to manage the Pricefalls orders on the seller's Magento® 2 stores without making any significant changes to operational functionalities.

Synchronizing orders, pricing, and inventory is possible through establishing the communication between Pricefalls APIs and the Magento® 2 stores.

Key Features are as follows:

- **Product Upload Based on Profile:** Enables the admin to create a profile based on a single category, and then assign the products to the profile to automate the product upload.
- **Bulk upload Methodology:** Admin gets the authority to upload bulk products on Pricefalls but just selecting the products and upload in one go.
- **Magento Order creation:** The newly placed orders on Pricefalls.com are automatically created in the Magento® 2 stores with all the required details as it is on Pricefalls.com.
- **Product Data Validation:** The extension enables validation of the product information in accordance with Pricefalls standard and values.
- **Auto synchronization:** Auto synchronization of the order, inventory, and pricing at regular intervals is established between Magento® 2 Store and Pricefalls.com
- **Product category mapping:** Follows category mapping philosophy. Admin can map any category of the Magento® 2 stores to the single category of Pricefalls.
- **Email Notification:** Admin receives the notification through the mail on new order creation, low stock and if the product is rejected from Pricefalls.

2. Pricefalls Integration Extension Installation

To install the extension

1. Log in the **ftp**, and then go to the **Magento 2** store root folder (generally present under the *public_html* folder).
2. Create a new folder named *code* under the *app* folder; under *code* folder, create a folder named *Ced*.
 - a. Upload or Drag and Drop *app/code/Ced/Pricefalls* directory.
 - b. After successfully uploading the directory, the extension will be installed/upgraded.
 - c. Now run the following upgrade command in *cmd*
php bin/magento setup:upgrade.

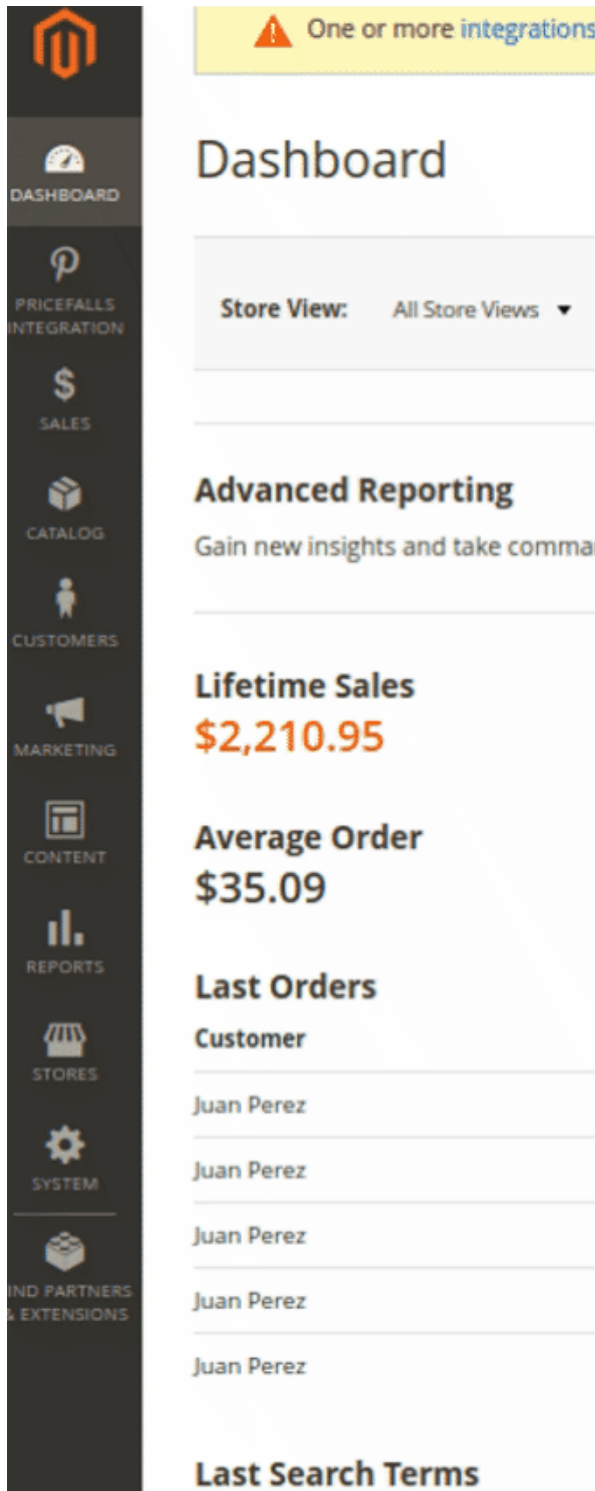

3. Configuration Settings

Once the extension is successfully installed on the Merchant's store, the Pricefalls tab appears in the Magento Admin Panel.

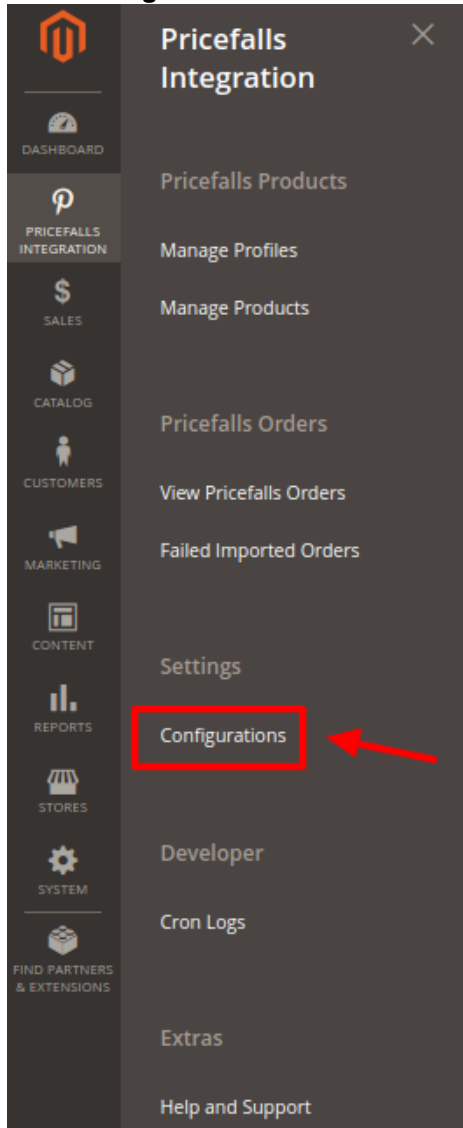

The admin has to set up the configuration settings for establishing the connection between the Magento store and the Pricefalls marketplace.

To set up the configuration settings in the Magento Admin panel:

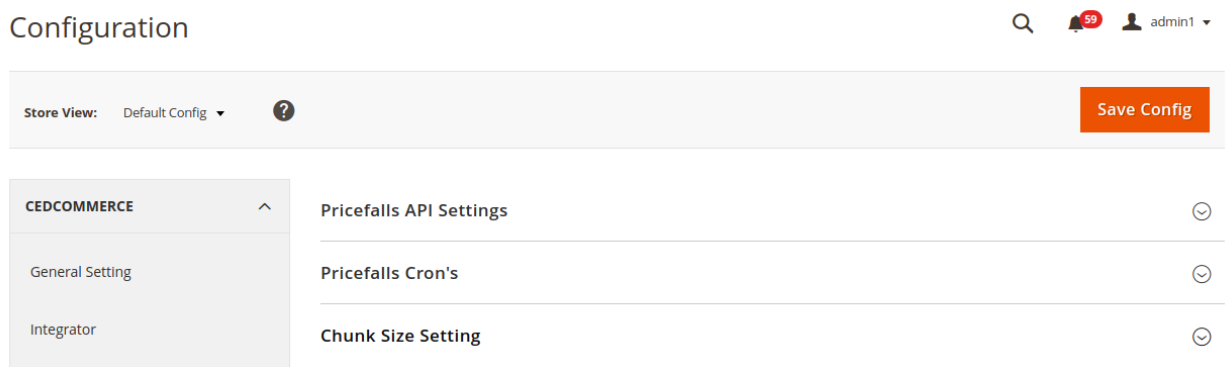

1. Go to the **Admin** panel.
2. On the left navigation bar, you will find the **Pricefalls Integration** option.

1. Click **Configuration**.

The **Pricefalls Configuration** page appears as shown in the following figure:

2. Click on **Flubit API settings**, the section will expand as:

Pricefalls API Settings

Enabled [global]

3. To Enable all the API settings in the extension, Select YES from the dropdown menu.
4. Addition Setting Options will appear as:

Pricefalls API Settings

Enabled [global]

Debug Log [global]

Initial FTP Path for Products /pub/media/pricefalls/products/

This is your pricefalls product feed directory, you need to set this path in your pricefalls seller panel under Product->Data Feed Schedule->Initial Path. Note1 : Directory will also include basic path which appear just after connecting ftp account, eg : /public_html/media/pricefalls/products/ Note2 : Directory will also include starting and ending / (forward slashes)

Initial FTP Path for Inventory/Price /pub/media/pricefalls/invprice/

This is your pricefalls inventory and price feed directory, you need to set this path in your pricefalls seller panel under Product->Data Feed Schedule->Initial Path. Note1 : Directory will also include basic path which appear just after connecting ftp account, eg : /public_html/media/pricefalls/inventory/ Note2 : Directory will also include starting and ending / (forward slashes) File Name : InventoryPriceFeed.csv

Initial FTP Path for Order /pub/media/pricefalls/order/

This is your pricefalls order feed directory, you need to set this path in your pricefalls seller panel under Orders->Schedule Order Reports->Initial Path. Note: Directory will also include basic path which appear just after connecting ftp account, eg : /public_html/media/pricefalls/orders/ Note2 : Directory will also include starting and ending / (forward slashes)

Initial FTP Path for Fulfillment /pub/media/pricefalls/fulfillment/

This is your pricefalls fulfillment feed directory, you need to set this path in your pricefalls seller panel under Orders->Schedule Order Reports->Initial Path. Note: Directory will also include basic path which appear just after connecting ftp account, eg : /public_html/media/pricefalls/fulfillment/ Note2 : Directory will also include starting and ending / (forward slashes)

5. In the **PriceFalls Debug Log** list, select **Yes** to enable Pricefalls Debug Mode for logging
 - a. Now move on the next section, ie. **Initial FTP Path of the product.**
This is your Pricefalls product feed directory, you need to set this path in your Pricefalls seller panel
 - b. For this, you need to login to the PriceFalls Seller Panel.(<https://www.pricefalls.com/login>)
 - c. As you click the above link, this page shows up:

The image shows the top navigation bar of the Pricefalls Marketplace. It includes the logo, a search bar, a 'Shop By Category' dropdown, 'All Categories' dropdown, a search icon, and a cart icon. Below the navigation bar is a registration and login form. The form is divided into two sections: 'New to Pricefalls?' and 'Returning Customers'. The 'New to Pricefalls?' section has a 'Create Account' button and a list of benefits: 'It's free, private, and secure', 'Track your orders online', 'View your order history', 'Communicate with sellers', and 'Create wishlists, share with others, and more!'. The 'Returning Customers' section has an 'Email or Username' field with the placeholder 'xxx@xxx.com', a 'Password' field with a masked password '*****' and a visibility toggle, a 'Forgot your Password?' link, and a 'Sign In' button.

d. Enter the username and password and Sign In.

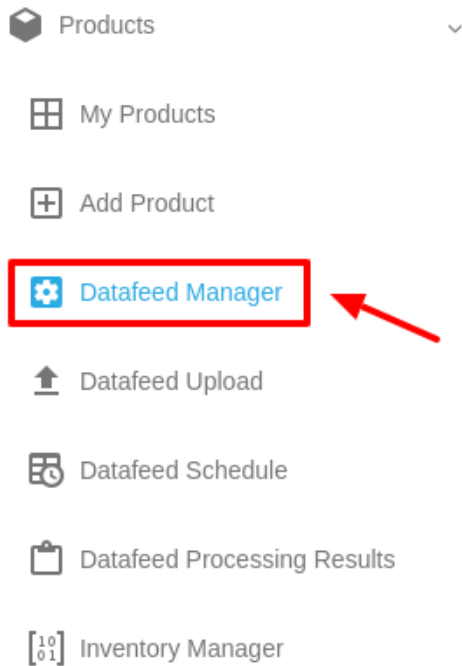

e. In the Seller panel, move to the Products settings under Dashboard.

Navigation

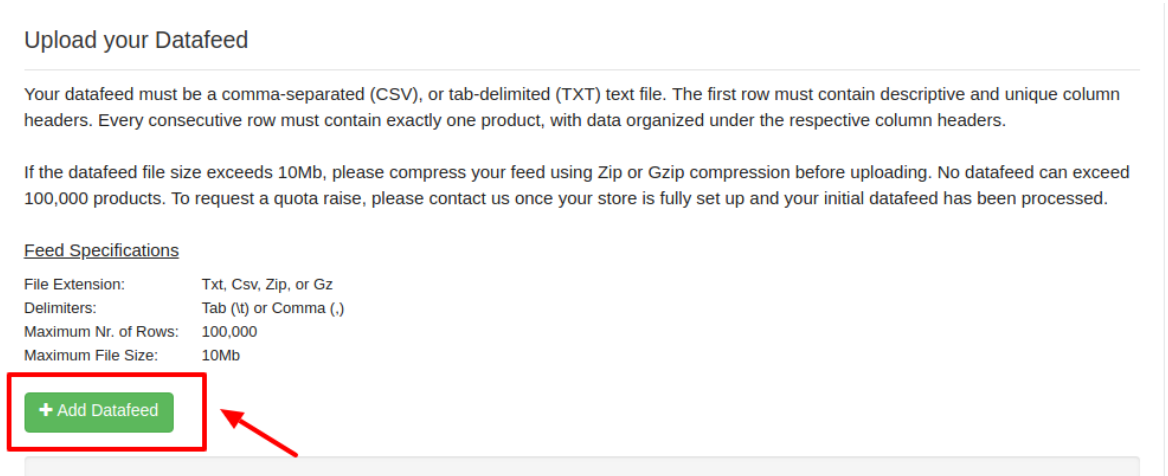

The image shows a navigation sidebar for a seller. At the top is a dark blue bar with a home icon, the text 'My Store · ID: [blurred]', and a dropdown arrow. Below this are several menu items, each with an icon and a right-pointing arrow: 'Dashboard' (clock icon), 'Visit My Store' (store icon), 'Orders' (shopping cart icon) with a grey badge containing the number '0', 'Products' (cube icon) which is highlighted with a grey background, 'App Store' (puzzle piece icon), 'Messages' (envelope icon) with a red badge containing the number '31', 'Seller Feedback' (star icon), 'Coupons' (percent sign icon), and 'Billing' (receipt icon).

f. Under the heading product setting, click on Data Feed Manager.

- g. On the Data Feed Manager Page, move to the section naming **Upload your Datafeed** and Click on Add Data Feed.

- h. Browse and select the desired DataFeed and Click on Save & Continue.

6. Now move back to the Magento Admin Panel and move to **Initial FTP Path for Inventory/Price**. This is your pricefalls inventory and price feed directory, you need to set this path in your pricefalls seller panel

- a. To do so you have to visit the Pricefalls seller Panel and move to product settings.

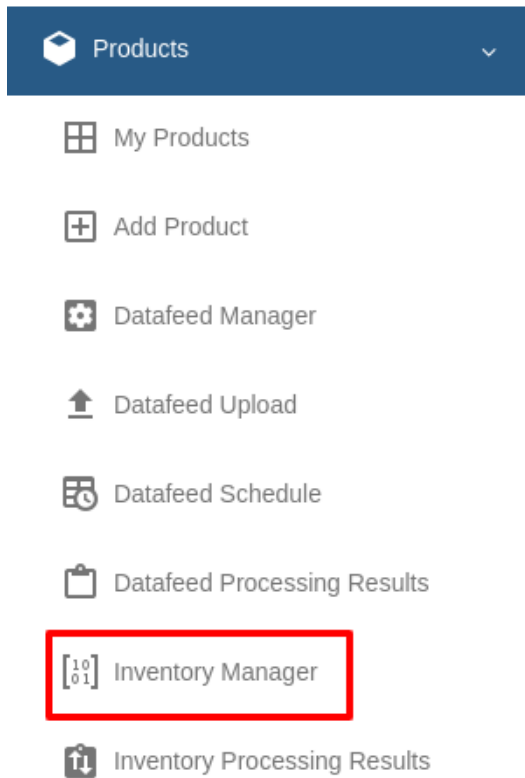

Navigation

The navigation menu is displayed on a light gray background. At the top is a dark blue bar with a white home icon and the text 'My Store · ID: [blurred]'. Below this are several menu items, each with an icon and a right-pointing chevron. The 'Products' item is highlighted with a light gray background. The 'Orders' item has a gray badge with the number '0'. The 'Messages' item has a red badge with the number '31'.

- My Store · ID: [blurred]
- Dashboard
- Visit My Store
- Orders 0
- Products
- App Store
- Messages 31
- Seller Feedback
- Coupons
- Billing

b. Under this section, Click on Inventory Manager:

c. In this page perform the desired mapping under the section **Inventory File Column Header Mapping.**

Inventory File Column Header Mapping

Copy/paste your feed column name corresponding to the field labels below. SKU and Quantity columns are required. Please ensure an exact match of your column names.

SKU*

| | |
|--------------|-----|
| Column Name: | SKU |
|--------------|-----|

Quantity*

| | |
|--------------|----------|
| Column Name: | QUANTITY |
|--------------|----------|

Price/Sale Price (optional)

| | |
|--------------|------------|
| Column Name: | FIXEDPRICE |
|--------------|------------|

MSRP/Original Price (optional)

| | |
|--------------|--|
| Column Name: | |
|--------------|--|

d. In the feed URL Path Enter the ftp account, eg : /public_html/media/pricefalls/inventory/
This Directory will also include starting and ending / (forward slashes) File Name :
InventoryPriceFeed.csv

Feed URL *

e. Enter the other relevant details and Click on Save Settings Button.

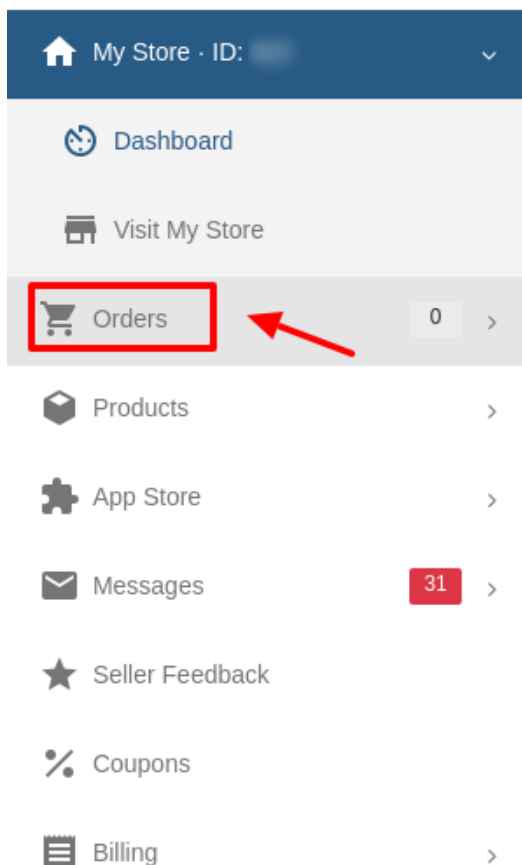

7. Now we need to set the **Initial FTP Path for Order**.

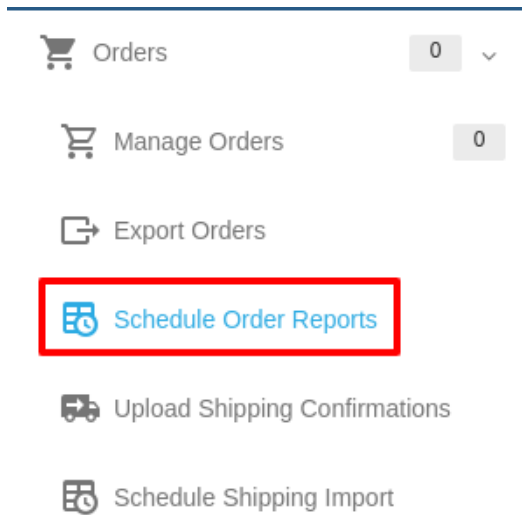

This is your pricefalls order feed directory, you need to set this path in your pricefalls seller panel.

a. Go to the Pricefalls seller panel and move to the Order section.

Navigation

b. Click on Schedule Order Reports

c. These 3 options are provided:

- Upload my order files to my FTP Server ?
- Keep Report Filename constant? ?
- Date Order Report Filename? ?

Save

d. Choose Upload my orders files to my FTP server and copy the path from the Magento Admin Panel here.

The path basic path will be framed out as: /public_html/media/pricefalls/orders/

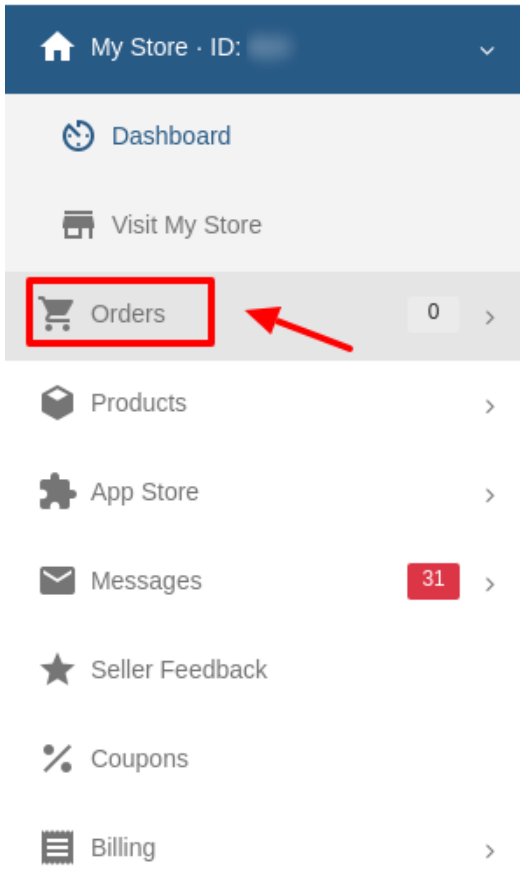

The Directory will also include starting and ending / (forward slashes).

8. Now we need to set the initial FTP Path for Fulfillment.

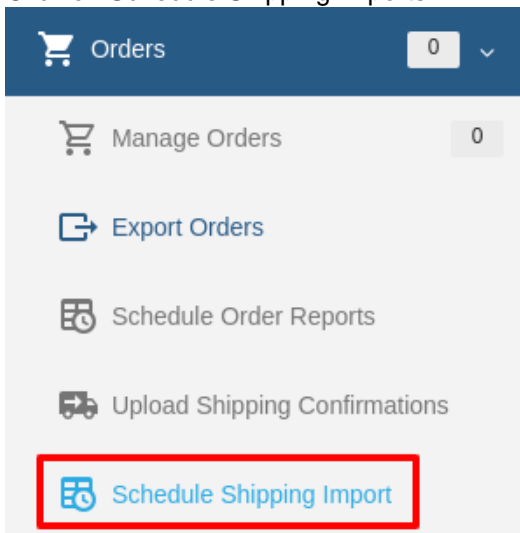

This is your pricefalls fulfillment feed directory, you need to set this path in your pricefalls seller panel.

a. Go to the Pricefalls seller panel and move to the Order section.

Navigation

b. Click on Schedule Shipping Imports:

c. These fields are needed to be filled:

FTP Server Settings

Server*

Username*

Password*

- d. In the server column, Enter FTP Path for Fulfillment copied from the Magento Admin Panel here. The path basic path will be framed out as: /public_html/media/pricefalls/orders/ The Directory will also include starting and ending / (forward slashes).
9. Click on **PriceFalls Cron Settings**. You will find the window as shown below.

Pricefalls Cron's

Price And Inventory Cron [global]

Enabled Price And Inventory Sync Cron

- In the **Price and Inventory Cron**: Enable/Disable the **Price & Inventory Sync Cron**.
10. Click the **Chunk Size Setting** tab and it will expand as:

Chunk Size Setting

Validation Size [global]

Chunk size for validate Product .

Upload [global]

Chunk size for Upload Product .

Inventory And Price Update [global]

Chunk size for Inventory And Price Update .

Retire Product [global]

Chunk size for remove product from pricefalls.com .

- a. In the **Validation Size** field, enter the chunk size for the products. The products that will get validated before being uploaded on Pricefalls would be the same as the number you enter in this field.

- b. In the **Upload** field, enter the number of products that you want to upload in one go from Magento to Pricefalls.
 - c. In the **Inventory and Price Update** field, enter the chunk size of the products. The inventory and price will be updated in one batch for the number of products that you enter in this field.
 - d. In the **Retire Product** field, enter the chunk size of the products. The number of products that you will be able to retire on Pricefalls would be the same as the number that you enter in this field.
11. Click on Save Config and the Configuration will be saved.

4. Manage Pricefalls Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento Store attributes to the Pricefalls attributes. These attributes are applicable to all the products that are assigned to the profile.

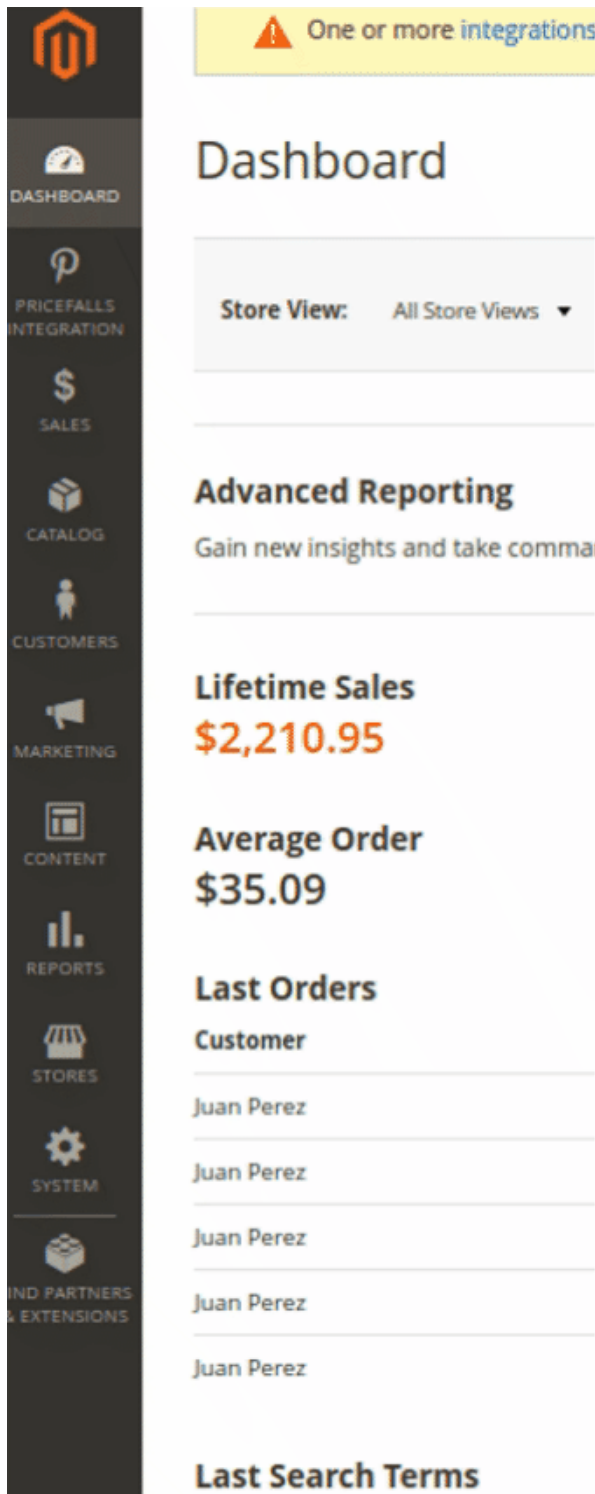

Admin can do the following tasks:

- Add a new profile
- Edit the existing profile
- Delete the profile
- Submit Actions on the Pricefalls Profile Listing Page

4.1. Add a New Profile

To add a new profile

1. Go to the **Magento Admin** panel.
2. On the left navigation bar, click the **Flubit Integration** menu.
The menu appears as shown in the following figure:

3. Click the **Manage Profiles** menu.

The **Pricefalls Profile Listing** page appears as shown in the following figure:

4. Click the **Add New Profile** button.

6. On the Actions tab click on the drop down. Click on **Disable/Enable** in order to change the status of the profiles. When the status change is successfully performed a success message displays on the screen.

5. Manage Pricefalls Products

Admin can view, edit, and upload the individual product. Also, the admin can view the error message if any error exists in any product details. The admin can also submit certain actions on the selected products available on the **Product Manager** page.

Thus, on the Product Manager page, the user can perform the following three tasks:

- **Upload Single Product:** The user can upload the products that are listed on the **Product Manager** page, to the Pricefalls website.
- **View & Edit Product Information:** View & Edit the information of the product that the user wants to upload on the Pricefalls website.
- **View the Error Log:** If the product is invalid, then an **Invalid** button appears, and the admin can view the error log using the Invalid button.
- **Submit Bulk Actions:** The user can submit the respective bulk action on the selected product before uploading it to the Pricefalls website.

5.1. View & Edit Single Products

To view the product information,

1. Go to the **Magento Store Admin** panel.
2. On the left navigation bar, click the **PRICEFALLS INTEGRATION** menu.
The menu appears as shown in the following figure:

The screenshot displays the Magento 2 dashboard interface. On the left is a vertical navigation menu with icons and labels for: DASHBOARD, PRICEFALLS INTEGRATION, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and BRAND PARTNERS & EXTENSIONS. The main content area features a yellow warning banner at the top stating "One or more integrations". Below this is the "Dashboard" title and a "Store View: All Store Views" dropdown menu. The "Advanced Reporting" section includes the text "Gain new insights and take commal". The "Lifetime Sales" section shows a value of "\$2,210.95". The "Average Order" section shows a value of "\$35.09". The "Last Orders" section has a "Customer" header and a list of six entries, each labeled "Juan Perez". The "Last Search Terms" section is partially visible at the bottom.

3. Click on **Manage Products**.

4. The **Manage Products** page appears as shown in the following figure:

To validate and upload products,

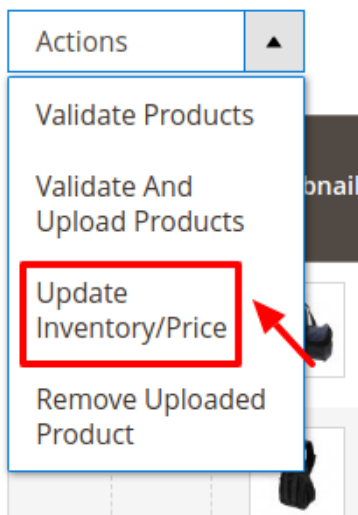

1. Select the check boxes associated with the products that the admin wants to submit action on.
2. In the **Actions** list, click the arrow button, and then click **Validate And Upload Products**.

3. A box will appear to confirm your action.
4. Click **OK**.
5. A success message will appear.

To update inventory / Price,

1. Select the check boxes associated with the products that the admin wants to submit action on.
2. In the **Actions** list, click the arrow button, and then click **Update Inventory**.

3. A box will appear to confirm your action.
4. Click **OK**.
5. A success message will appear.

6. Pricefalls Order

Admin can do the following tasks while managing the Pricefalls orders:

- View Pricefalls Orders
- View Failed Imported Orders
- Add New Refund

6.1. View Pricefalls Order

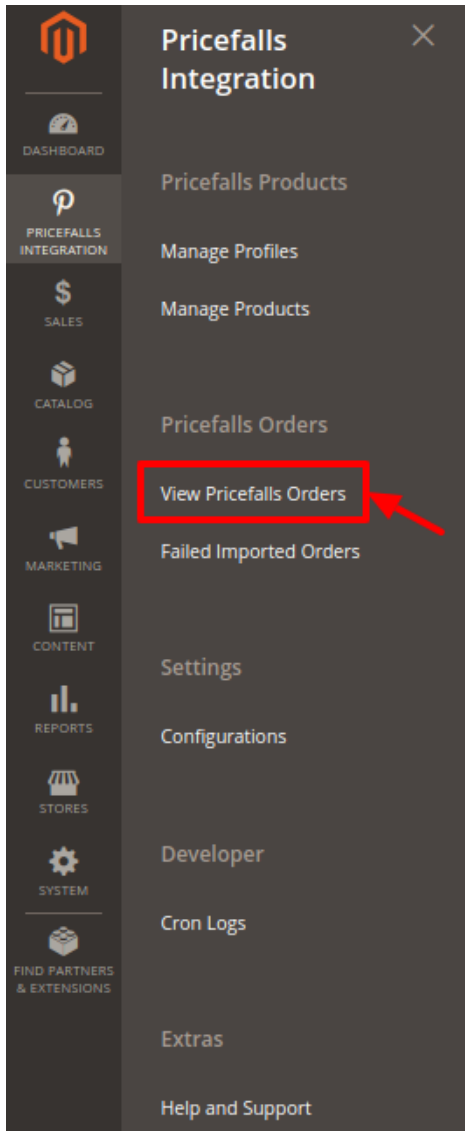

The user can fetch and view all the order details fetched from Pricefalls.

To view Pricefalls Orders,

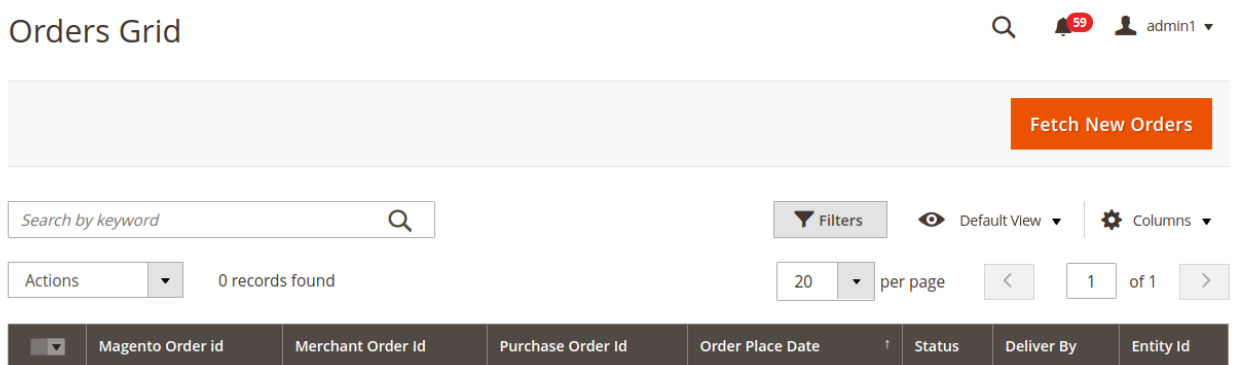

1. Go to **Magento Store Admin** Panel.
2. On the left navigation bar, click the **Pricefalls Integration** menu,

The screenshot displays the Magento 2 dashboard interface. On the left is a dark sidebar with navigation icons and labels: DASHBOARD, PRICEFALLS INTEGRATION, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and BRAND PARTNERS & EXTENSIONS. The main content area features a yellow warning banner at the top stating "One or more integrations". Below this is the "Dashboard" title and a "Store View" dropdown menu set to "All Store Views". The primary section is "Advanced Reporting", which includes "Lifetime Sales" at \$2,210.95 and "Average Order" at \$35.09. A "Last Orders" section lists six entries, all for "Juan Perez". The "Last Search Terms" section is partially visible at the bottom.

3. Then click **View Pricefalls Orders**.

The **Orders Grid** page appears as shown in the following figure:

4. Click the **Fetch New Orders** button.

If the order is imported successfully then, a new record is found in the **Orders Grid** table.

Notes:

- Orders are automatically imported through CRON in every 10 minutes.

- Whenever the latest orders are imported from Pricefalls, a Notification appears in the notification area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported in the Magento Store admin panel.
- As per Pricefalls Policy, orders should be acknowledged within 60 minutes.
- If no Order is imported, then check the Failed order log on the **Failed Pricefalls Orders Import Log** page.

- Order are auto-rejected on Pricefalls in the following conditions:
 - When Pricefalls Product SKU does not exist in Magento Store.
 - When Product is Out of Stock in Magento Store.
 - When Product is disabled in Magento Store.

6.2. View Failed Imported Orders

The users can view the list of failed Pricefalls orders on the **Failed Orders Grid** page.

In the following conditions, Orders are not imported from Pricefalls:

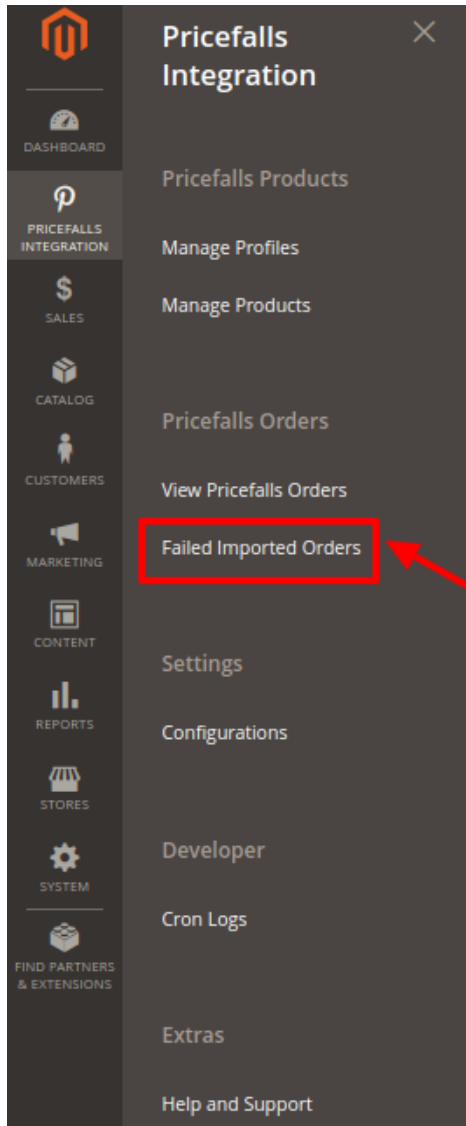

- If any product in the Pricefalls Order is Out of Stock in the Magento store.
- If any product in the Pricefalls Order is disabled in the Magento store.
- If any Product does not exist in Magento or is deleted from the Magneto 2 store after uploading on Pricefalls.
- If the selected Payment Method in Pricefalls System Configuration Setting is not available in the Magento store.

To view Pricefalls failed orders

1. Go to **Magento Store Admin** panel.
2. On the left navigation bar click the **Pricefalls Integration** menu.
The menu appears as shown in the following figure:

The screenshot displays the Magento 2 dashboard interface. On the left is a dark sidebar with navigation icons and labels: DASHBOARD, PRICEFALLS INTEGRATION, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and THIRD PARTNERS & EXTENSIONS. The main content area features a yellow warning banner at the top stating "One or more integrations". Below this is the "Dashboard" title and a "Store View" dropdown menu set to "All Store Views". The "Advanced Reporting" section includes the text "Gain new insights and take commal". The "Lifetime Sales" section shows a value of "\$2,210.95". The "Average Order" section shows a value of "\$35.09". The "Last Orders" section has a "Customer" header and a list of six entries, each labeled "Juan Perez". The "Last Search Terms" section is partially visible at the bottom.

3. Click **Failed Imported Orders**.

The **Failed Orders Grid** page appears as shown in the following figure:
