## 1. Overview

Walmart Mexico Integration for Magento by CedCommerce offers Management of your products on a centralized platform, wherein you can easily list your products on Walmart Mexico directly from existing Magento marketplace. Management of inventory and price is synchronous and gets updated followed by any activity. Furthermore, tracking and order fulfillment can be achieved through CedCommerce integration.

Integration also offers management of inventory, with greater flexibility, providing you with several ways to manage it at discrete levels with Walmart Mexico Order cancellations from the customer's end are retrieved simultaneously to cancel the order ensuring that you don't ship items that were canceled.

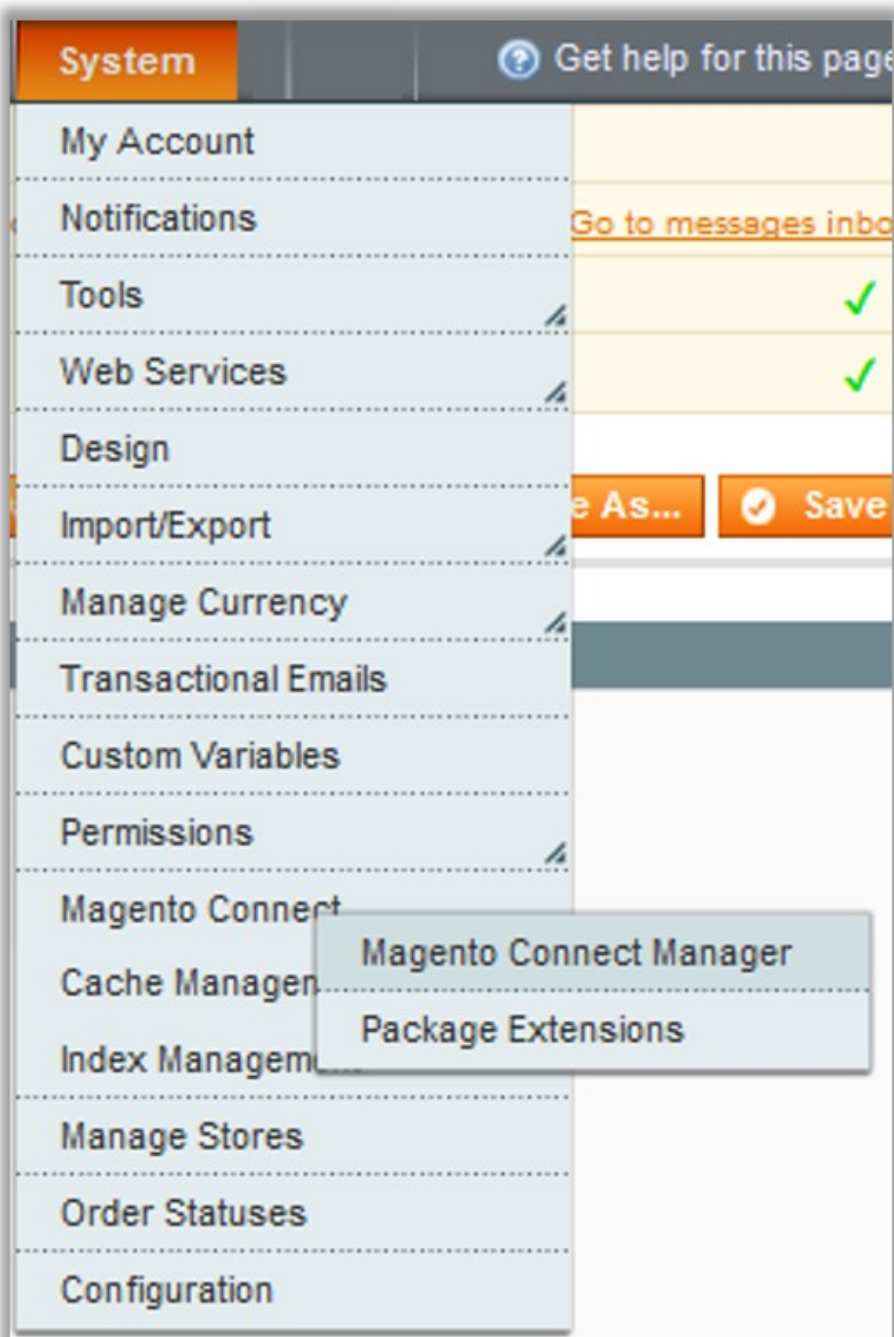

### ***Key Features of Walmart Mexico Integration Extension by CedCommerce:***

- **Stock Update:** Stocks are updated automatically on both ends as stock status updated in your local shop or as an order is marked shipped by Walmart Mexico.
- **Walmart Mexico Order Management:** The orders can be easily acknowledged or canceled through the centralized order management system.
- **Profile-based product upload:** It allows the admin to upload their product to profile based on Walmart Mexico Marketplace.
- **Synchronization:** Auto synchronization of the product listing, order, inventory, return and refund, and pricing at regular intervals is established between Magento and Walmart Mexico.
- **Bulk Upload System:** Bulk product upload service from cedcommerce is your ultimate solution to be spared from hassles of operational overload in product uploading.
- **Notification Errors:** If any error occurs, there is a feed error feature helping you to know what the error is.
- **Crons:** Crons automate the process of Price, Inventory and Order management.
- **Rejected Products Notification:** If any product containing some invalid details is rejected, then its information is fetched from the automatically synchronized requests along with the error due to which it is rejected.
- **Return And Refunds:** Refunds are processed back to the original payment method used to purchase the order. Refund is also possible through extension.

## 2. Walmart Mexico Integration Extension Installation

***To begin with, the installation of the extension follow the given steps:***

1. Go to the **Magento Admin Panel**.
2. On the top, you will find a navigation bar. Point to the **System** menu. You will see a drop-down menu like this,

3. Point to the **Magento Connect** menu, and then click on **Magento Connect Manager**.  
The page then appears as shown in the following figure:

**Magentoconnect MANAGER**

Extensions Settings [Return to Admin](#) [Log Out](#)

**Settings**

☒ Put store on the maintenance mode while installing/upgrading/backup creation

☐ Create Backup Database

**Install New Extensions**

1 Search for modules via [Magento Connect](#).

2 Paste extension key to install:  [Install](#)

**Direct package file upload**

1 Download or build package file.

2 Upload package file: [Browse...](#) No file selected. [Upload](#)

**Manage Existing Extensions** [Check for Upgrades](#)

Channel: **Magento Community Edition** [Commit Changes](#)

Clear all sessions after successfull install or upgrade: ☐

Package Name	Installed	Actions	Summary
Cm_RedisSession	1.9.2.4 (stable)	<input type="text"/>	Redis session
Interface_Adminhtml_Default	1.9.2.4 (stable)	<input type="text"/>	Default interface for Adminhtml
Interface_Frontend_Base_Default	1.9.2.4 (stable)	<input type="text"/>	This is a Magento themes base
Interface_Frontend_Default	1.9.2.4 (stable)	<input type="text"/>	Default interface for Frontend

4. Scroll down to the **WalmartMexico\_Integration** Package.
5. In the **Actions** column, select the **Install** option from the list.
6. Click the **Commit Changes** button.
7. Auto-scroll console contents screen appears and the extension is installed after the process.

### 3. Retrieve API Credentials From Walmart Mexico

#### *To Retrieve the API Credentials:*

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Walmart Mexico** menu.  
The menu appears as shown in the following figure:

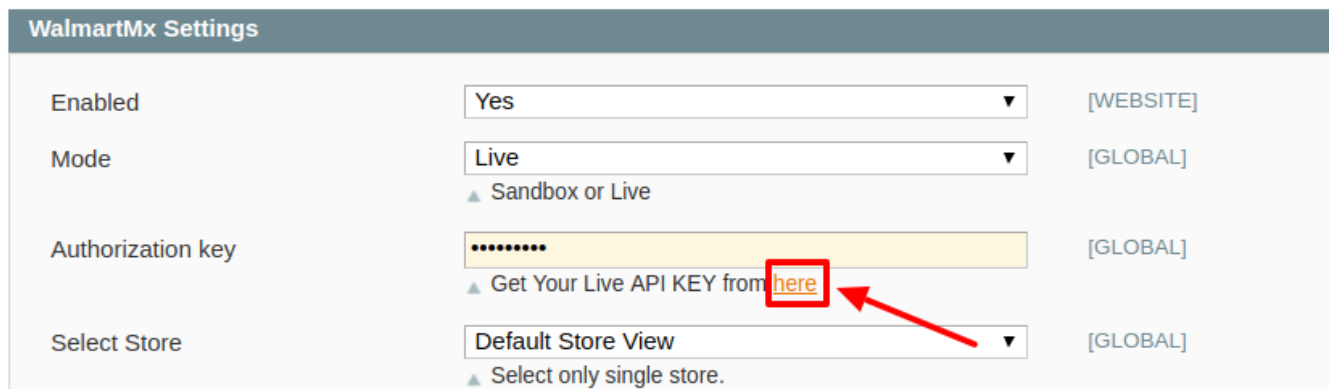

Click **Configuration**.

The **Walmart Mexico Configuration** page appears as shown in the following figure:

Click the **Walmart Mexico Settings** tab.

The tab is expanded and the relevant field appears under the **Walmart Mexico Settings** section.

Under the heading **Authorization key**, Click on the link naming **Get Your Live API KEY** from here.

You will be redirected to a new page:

## 4. Walmart Mexico Configuration

After obtaining the **API credentials** from the Walmart Mexico Seller account, the Magento store owner has to paste them in the respective fields displayed on the **Walmart Mexico Configuration** page of the admin panel.

*To set up the configuration settings in the Magento Admin panel*

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Walmart Mexico** menu.  
The menu appears as shown in the following figure:

Click **Configuration**.

The **Walmart Mexico Configuration** page appears as shown in the following figure:

## WalmartMx Configuration

Save Config

WalmartMx Settings	▼
WalmartMx Product Settings	▼
WalmartMx Product Price Settings	▼
Cron Settings	▼
Order Settings	▼
Developer Settings	▼

Click the **Walmart Mexico Settings** tab.

The tab is expanded and the relevant field appears under the **Walmart Mexico Settings** section.

WalmartMx Settings		
Enabled	Yes ▼	[WEBSITE]
Mode	Live ▼ ▲ Sandbox or Live	[GLOBAL]
Authorization key	..... ▲ Get Your Live API KEY from <a href="#">here</a>	[GLOBAL]
Select Store	Default Store View ▼ ▲ Select only single store.	[GLOBAL]
Choose Default Payment Method for WalmartMx Orders	walmartmx.com ▼	[GLOBAL]
Magento Store Admin Email Id	admin ▲ Get Email When New WalmartMx Order Imported.Example: owner@example.com	[GLOBAL]

Under **Walmart Mexico Settings**, do the following steps:

- In the **Enabled** list, select **Yes** to enable the extension features.
- In the **Mode** select live or sandbox.  
Choose live if you want to directly make changes in the products and sandbox if you want no changes.
- In the **Authorisation key**, enter the key that you are provided by Walmart Mexico once you register yourself with its seller panel.
- In the **Select Store**, choose the store from where you want your products to be integrated into Walmart Mexico marketplace.
- In the **Choose Default Payment Method for Walmart Mexico Orders** list, select Walmart Mexico.
- In the **Magento Store Admin Email Id** box, enter the email Id on which you want to receive a mail whenever an order is placed for your product, on Walmart Mexico.
- Click on **Save Config** to save the details that you have entered.

Click the **Walmart Mexico Product Settings** tab.

The tab is expanded and the relevant fields appear under the **Walmart Mexico Product Settings** section as shown in the following figure:

WalmartMx Product Settings		
Send Inventory on the Basis of Threshold	Yes ▼	[GLOBAL]
Inventory Threshold Value	<input type="text"/>	[GLOBAL]
	▲ Set inventory quantity on which lesser and greater condition can control.	
Send Inventory for Greater Than Threshold Case	<input type="text"/>	[GLOBAL]
	▲ Send Quantity to Ebay for those products, whose inventory is GREATER than and Equalto the inventory threshold.	

- Under **Walmart Mexico Product Settings**, do the following steps:
  - In the **Send Inventory on the Basis of Threshold**, select **Yes** and additional menus appear.
  - In the **Inventory Threshold Value** users can Set inventory quantity on which lesser and greater condition can control
  - In the Send Inventory Greater than Threshold, users can Send Quantity to Walmart Mexico for those products, whose inventory is GREATER than and Equal to the inventory threshold.

Next, click on **Walmart Mexico Product Price Settings** and you'll come across the following:

[GLOBAL]

From the drop-down menu across **Walmart Product Price**, you may come across these options that are discussed below:

- **Increase by Fixed Price:**

Here you can **Enter the Amount** in the field below.

If you enter a particular amount here, your product will be featured on Walmart Mexico by adding that amount to the amount of your product on your own store. For example, if you enter 10 here and your product on Magento is for 100, your product will be featured on Walmart Mexico with the price of 110.

- **Increase by Fixed Percentage:** If selected, then the **Enter Percentage** field appears below

Enter the numeric value to increase the price of the Walmart Mexico product price by the entered value % of Magento price

*For Example:* Magento price + 5% of Magento price.

Magento Price = 100

Select **Increase By Fixed Percentage** option

**Enter Percentage** = 5

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Walmart Mexico Product Price = 105

- **Decrease by Fixed Price:** If selected, then the **Enter Amount** field appears below.

If you enter a particular amount here, your product will be featured on Walmart Mexico by decreasing that amount from the amount of your product on your own store. For example, if you enter 10 here and your product on Magento is for 100, your product will be featured on Walmart Mexico with the price of 90.

- **Decrease by Fixed Percentage:** If selected, then the **Enter Percentage** field appears below.

Enter the numeric value to decrease the price of the Walmart Mexico product price by the entered value % of Magento price

*For Example:* Magento price – 5% of Magento price.

Magento Price = 100

Select **Decrease By Fixed Percentage** option

**Enter Percentage** = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Walmart Mexico Product Price = 95

- By selecting Yes in **Use Parent Product Image**, the final image that is uploaded on the Walmart Mexico website will be the image of the parent product. In case you choose **No**, then all the individual images are uploaded.
- Use **Parent Product Info**, choose all the attributes you wish to include from the parent product.
- In the **Attribute to skip validation**, you can select all those attributes which you wish to skip from configurable product upload.
- In **Upload config as simple**, admins can upload the product as simple products.

Click **Cron Settings** tab to view the following fields.

Cron Settings		
Cron Settings Override	Yes ▼	[WEBSITE]
Enable Order Cron	Yes ▼ ▲ Order Cron Enable/Disable	[WEBSITE]
Order Cron	*/30 * * * * ▲ Please Enter number in minutes for execute cron	[GLOBAL]
Enable Order Sync Cron	Yes ▼ ▲ Order Sync Cron Enable/Disable	[WEBSITE]
Order Sync Cron	*/20 * * * * ▲ Please Enter number in minutes for execute cron	[GLOBAL]
Enable Inventory Cron	Yes ▼ ▲ Inventory Cron Enable/Disable	[WEBSITE]
Inventory Sync Cron	*/15 * * * * ▲ Please Enter number in minutes for execute cron	[GLOBAL]
Enable Feed Sync	Yes ▼ ▲ Price Cron Enable/Disable	[WEBSITE]
Feed Sync Cron	0 * * * * ▲ Please Enter number in minutes for execute cron	[GLOBAL]
Enable Full Inventory Cron	Yes ▼ ▲ Full Inventory Cron Enable/Disable	[WEBSITE]
Full Inventory Sync Cron	*/30 * * * * ▲ Please Enter expression for execute cron	[GLOBAL]
Enable Order Shipment Cron	No ▼ ▲ To Ship Completed Order On WalmartMx Enable this Cron	[WEBSITE]

- Select if you want to enable/disable the cron for **orders/ order sync/inventory/feed/feed sync** and **enter the desired values for the respective cron's execution.**
- Click **Save Config** to save the entered details.

Click the Order Settings now and appears as below:

Order Settings		
Enable Order Auto Accept	<input type="text" value="No"/>	[?] [WEBSITE]
Orders To Fetch	<input type="text" value="WAITING_ACCEPTANCE"/>	[?] [WEBSITE]
Cancel Order on WalmartMx	<input type="text" value="No"/>	[?] [WEBSITE]
Refund Order on WalmartMx	<input type="text" value="No"/>	[?] [WEBSITE]
Refund Reason for WalmartMx	<input type="text" value="--Please Select Reason--"/>	[?] [WEBSITE]
Create Credit Memo or cancel order on Magento	<input type="text" value="No"/>	[?] [WEBSITE]
WalmartMx Order Customer Group	<input type="text" value="NOT LOGGED IN"/>	[GLOBAL]
Use Same Customer	<input type="text" value="No"/>	[STORE VIEW]
Create Order by Quote	<input type="text" value="No"/>	[WEBSITE]
SKU Mapping	<input type="button" value="+ Add Rules"/>	[GLOBAL]
<input type="button" value="Map Previous Sku with New Sku"/>		

- Here, you may enable the auto acceptance or rejection of an order placed for your product on the Walmart Mexico marketplace by clicking either **Yes** or **No**.
- In the **Orders to Fetch**, you can select the desired source from which the orders need to be fetched.
- In the **cancel order** on Walmart Mexico, Choose Yes or No from the drop-down menu.
- In the **refund order** on Walmart Mexico, Choose Yes or No from the drop-down menu
- In **Refund Reason** for Walmart Mexico, select the reason for a refund.
- In **Create Credit Memo or cancel order on Magento**, by selecting yes credit memo will be generated for the whole order. By selecting NO, no orders will be performed.
- In **Walmart Mexico Order Customer Group**, select a group in which your customers who order your products on Walmart Mexico will be listed.
- If you don't wish to create a new customer for every order then in **Use same customer**, select **Yes** and specify the email id of the customer.
- Select Yes in **create order by quote** if you want to apply Magento taxes in Walmart Mexico orders.
- In SKU Mapping section, admins can add a rule as shown below:
- in case an old sku is deleted or changed then you can map the new sku with the previous one here.

SKU Mapping		[GLOBAL]
<input type="text" value="Previous Sku"/>	<input type="text" value="New Sku"/>	<input type="button" value="Delete"/>
		<input type="button" value="+ Add Rules"/>
<input type="button" value="Map Previous Sku with New Sku"/>		

- Save the configuration now by clicking on **Save Config** button on the top right of page.

Now click on the Developer Settings tab and it will be expanded as:

Developer Settings		
WalmartMx Debug Mode	Yes 	[GLOBAL]
 Enable walmartmx debug mode for logging.		
Product Chunk Size	25	[WEBSITE]
Attribute Sync Chunk Size	50	[WEBSITE]
Category Sync Chunk Size	10	[WEBSITE]
Feed Sync Chunk Size	100	[WEBSITE]

- In **Walmart Mexico Debug Mode** click on **Enable/Disable** depending on whether you want to log the data or not.
- In **Product Chunk Size** enter the value which would be the number of products in one batch.
- In **Attribute Sync Chunk Size** enter the value which would be the number of attributes to be synced in one batch.
- In **Category Sync Chunk Size** enter the value which would be the number of categories to be synced in one batch.
- In **Feed Sync Chunk Size** enter the value which would be the number of feeds to be synced in one batch.
- Click on **Save Config** to save the entered details.

## 5. Manage Walmart Mexico Profile

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento attributes to the Walmart Mexico attributes. These attributes are applicable to all the products that are assigned to the profile.

**Admin can do the following tasks:**

- Syncing the Attributes
- Syncing the Categories
- Add a new profile
- Edit the existing profile
- Delete the profile

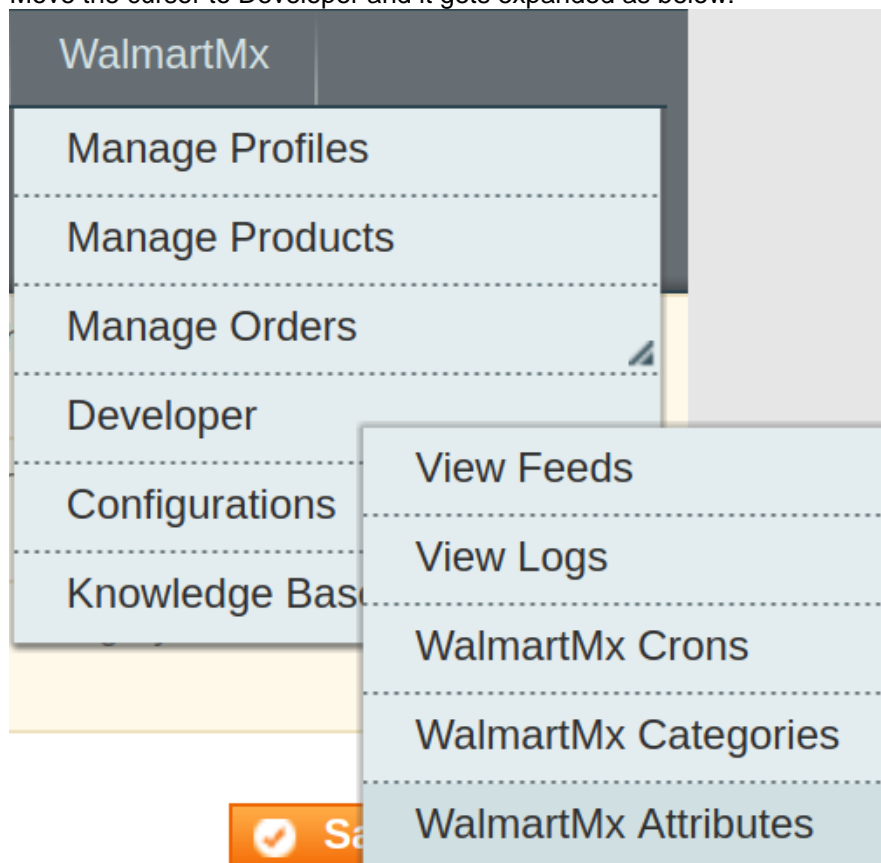

### 5.1. Syncing the Attributes

**To sync the attributes:**

- Go to the Magento admin panel.
- Place the cursor on the top navigation bar of Walmart Mexico and it will appear as:

- Move the cursor to Developer and it gets expanded as below:

- Click on Walmart Mexico Attributes and on the page that you get to navigate to, click on the Sync Attribute button on the top right, and all the Walmart Mexico Attributes get listed as shown in the figure below:

Attribute Management

Truncate Attributes

Sync Attribute

Page  of 55 pages | View  per page | Total 1082 records found

459	AMM_DES_CORTA	Descripción Corta	AMM_DES_CORTA		TEXT	Yes	No			<a href="#">Map</a>

- Now all the Walmart Mexico attributes get successfully synced to your Magento admin panel, and you may proceed to create a new profile.

## 5.2. Syncing the Categories

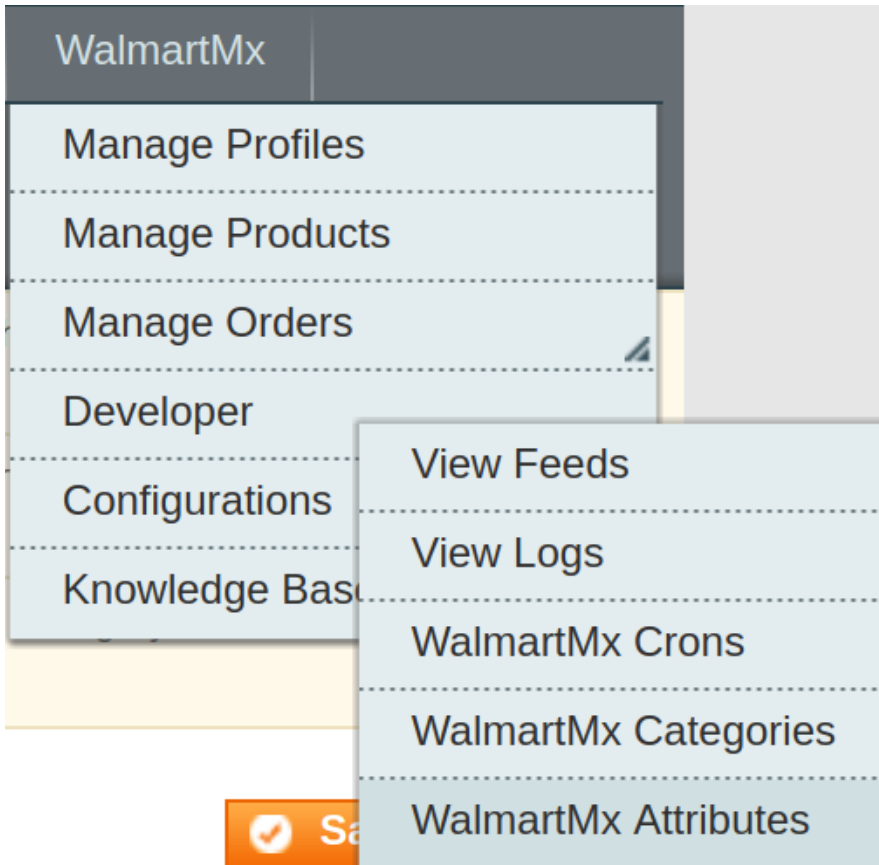

**To Sync the categories available on Walmart Mexico marketplace to the Magento admin panel:**

- Go to the Magento admin panel.
- Place the cursor on Walmart Mexico on the top navigation bar and it will appear to you as below:

- Now move the cursor to developers and it gets expanded as below:

- Now click on the **Walmart Mexico Categories** and on the same page and you will be redirected to this page as shown:

here to go to [Index Management](#) and rebuild required indexes.

1. On this page, all the available profiles are listed.

4. Click the required row of the profile that the admin wants to delete.

OR

In the **Action** column, click the arrow button, and then click **Delete**. Confirm your action in the dialog box by

clicking ok.

5. The profile is deleted.

## 6. Manage Walmart Mexico Products

On the **Product Manager** page, the admin can perform the following tasks:

- View and edit the product information
- Upload a single product
- View the error log if any error exists in any product details
- Submit certain actions on the selected products

### 6.1. submit actions

The admin can perform the following actions on the selected products available on the **Product Manager** page:

- **Validate Selected Product(s):** Validates the product before uploading it to the Walmart Mexico website. It displays the corresponding validation error if any. If there is no error, it confirms that the product is ready to upload.
- **Upload Product(s):** Uploads all the validated products on Walmart Mexico at one time. It means, the user can upload all the validated products in one click.
- **Update Price/Inventory Offer(s):** Update the price or inventory offers in an instant.

#### *To validate Products*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the Walmart Mexico tab, and then point to the **Manage Products** menu.

The menu appears as shown in the following figure:

3. Click **Manage Products**. The Walmart Mexico Product Manager listing page appears as shown:

6. Enter the required information, and then click the **Save** button.
7. To sync the Magento Product with Walmart Mexico, click the **Sync With Walmart Mexico** button.

## 7. Manage Walmart Mexico Orders

Using the **Manage Orders** menu, the admin can perform the following tasks:

- View Walmart Mexico Orders
- View Failed Orders

### 7.1. View Walmart Mexico Orders

The user can fetch and view all the order details fetched from Walmart Mexico.

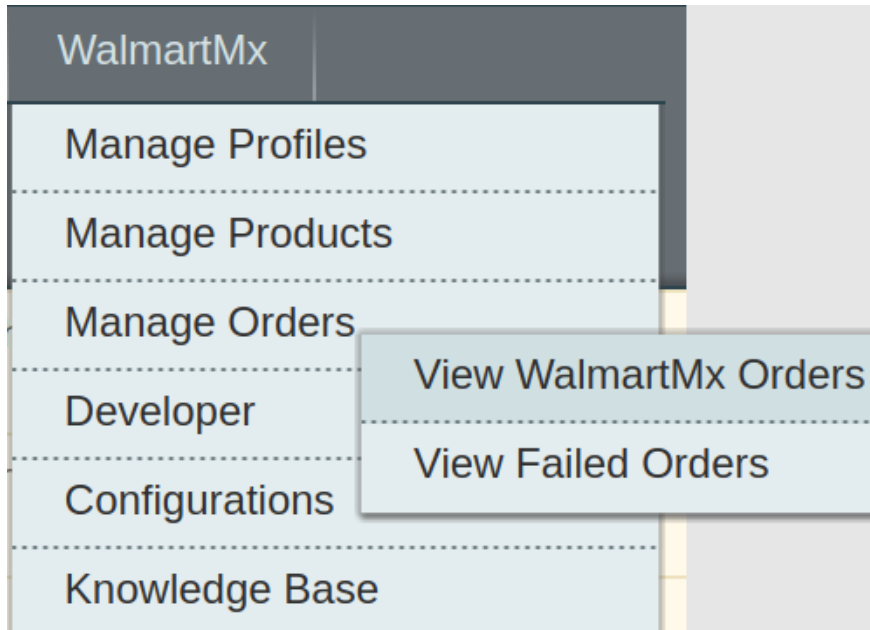

#### *To fetch and view Walmart Mexico Orders*

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Walmart Mexico** menu, and then point to the **Manage Orders** menu.

The menu appears as shown in the following figure:

3. Click **View Walmart Mexico Orders**.

The **Walmart Mexico Orders Details** page appears as shown in the following figure:

4. Click the **Fetch Latest Walmart Mexico Orders** or **Sync All Walmart Mexico Orders Info** button.

If the order is imported successfully then, a new record is found in the **Walmart Mexico Order Details** table as shown in the above figure.

**Notes:**

- Orders are automatically imported through CRON every 10 minutes.
- Whenever the latest orders are imported from **Walmart Mexico**, a Notification appears in the notification area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported into the Magento admin panel.
- If no Order is imported, then check the Failed order log on the **Failed Walmart Mexico Orders Import Log** page.
- Order are auto-rejected on **Walmart Mexico** in the following conditions:
  - When **Walmart Mexico** Product SKU does not exist in Magento.
  - When Product is Out of Stock in Magento.

- When a product is disabled in Magento.

## 7.2. View Failed Orders

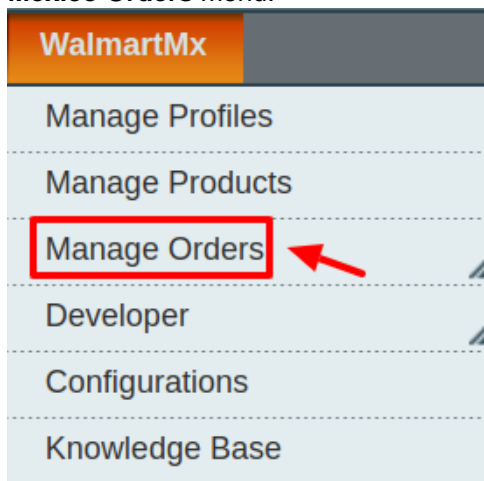

The users can view the list of failed Walmart Mexico orders on the **View Failed Orders** page.

***In the following conditions, Orders are not imported from Walmart Mexico:***

- If any product in the Walmart Mexico Order is Out of Stock in Magento.
- If any product in the Walmart Mexico Order is disabled in Magento.
- If any Product does not exist in Magento or is deleted from Magneto after uploading to Walmart Mexico.
- If the selected Payment Method in Walmart Mexico System Configuration Setting is not available in Magento.

***To view Walmart Mexico failed orders***

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the Walmart Mexico menu, and then point to the **Walmart Mexico Orders** menu.

The menu appears as shown in the following figure:

3. Click **View Failed Orders**.

The Failed Walmart Mexico Orders Import Log page appears as shown in the following figure:

This page displays the failed orders with the order id and the reason for the failure.

## 8. Walmart Mexico Developer Setting

Under the developer section the admin will be able to perform the following actions:

- View Logs
- View Feeds
- Walmart Mexico Crons
- Walmart Mexico Categories
- Walmart Mexico Attributes

### 8.1. View Logs

Admin can view and delete the Walmart Mexico log details on the **Walmart Mexico Log Details** page.

#### *To view the Walmart Mexico log details*

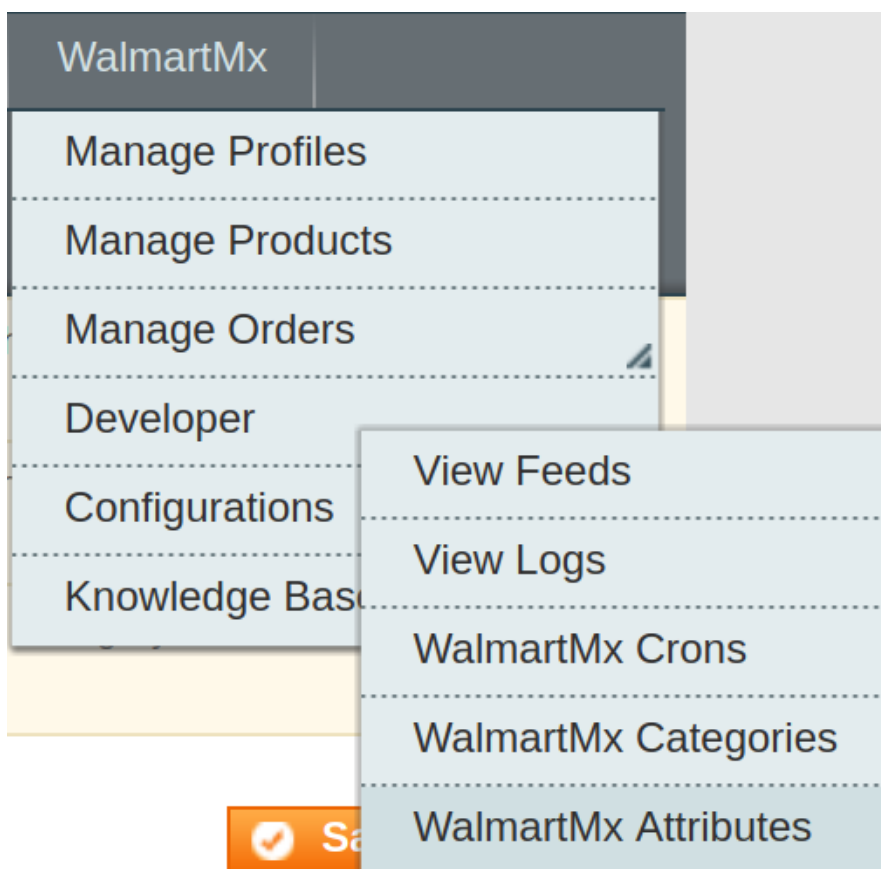

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Walmart Mexico** menu, and then point to

the **Developer** option.

3. Click on **View Logs**.

4. The menu appears as shown in the following figure:

5. Click **View Logs**.

The **Walmart Mexico Log Details** page appears as shown in the following figure:

**WalmartMx Log Details** Truncate

Page  of 1 pages | View  per page | Total 0 records found Reset Filter Search

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected Actions Submit

Id #	Channel	Message	Datetime	Level	Level Name	Context
Any						

**Note:** To clear all the failed import order logs at once, click the **Truncate** button.

### To delete Walmart Mexico log details

1. Go to the **Walmart Mexico Log Details** page.
2. Select the check-boxes associated with the logs those are no more required.
3. In the **Actions** list, select **Delete Records**, and then click the **Submit** button.

The screenshot shows the 'Actions' dropdown menu open, with 'Delete Records' highlighted in green. The 'Submit' button is visible next to it. The table below the menu is partially visible, showing columns for Id #, Channel, Message, Datetime, Level, Level Name, and Context.

The log records are deleted and a success message appears.

## 8.2. View Feeds

After uploading the product on Walmart Mexico or after updating the product inventory or the product price, the user can check the status of the feed from the **Walmart Mexico Feed Details** page.

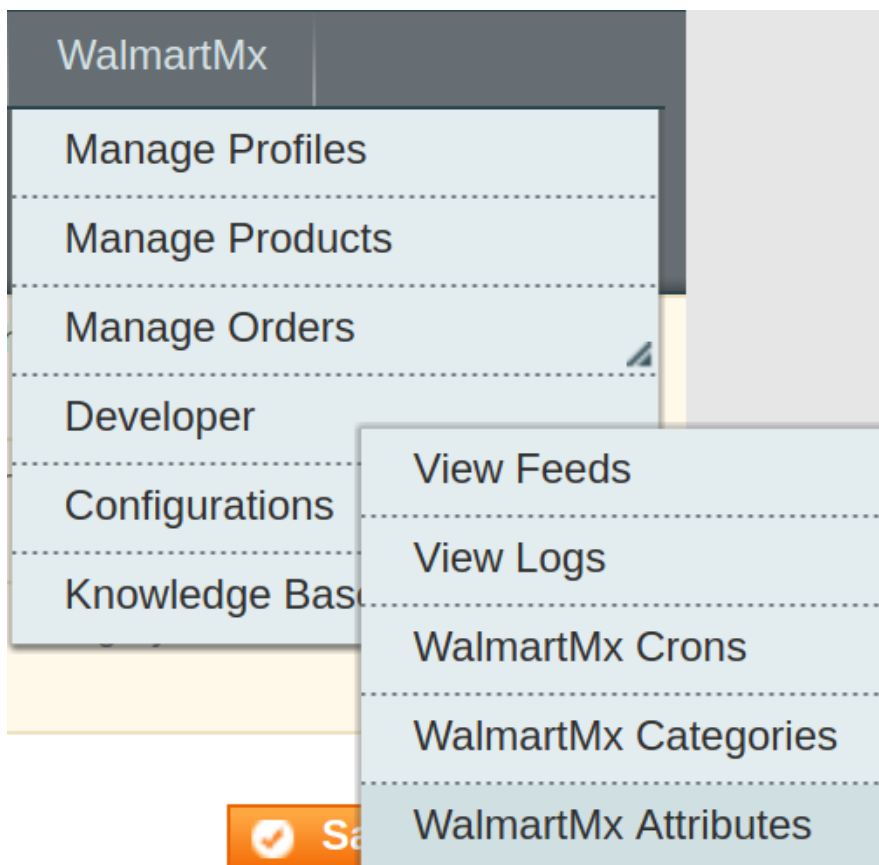

### To view the product feeds status

1. Go to the **Magento Admin Panel**.
2. On the top navigation bar, move the cursor over the **Walmart Mexico** menu and then point to the **Developer** option.

The menu appears as shown in the following figure:

3. Click **View Feeds**.

The **Walmart Mexico Feed Details** page appears as shown in the following figure:

**WalmartMx Feed Details** Sync Feeds

Page 1 of 1 pages | View 20 per page | Total 0 records found Reset Filter Search

Select Visible | Unselect Visible | 0 items selected Actions Submit

	Id #	Feed Id #	Feed Source	Feed Date	Lines Read	Lines With Success	Lines With Error	Lines With Warning	Feed Status	Feed Errors	Actions
Any											

4.

Do the required one of the following tasks:

- View the status of the feed in the **Feed Status** column.
- To synchronize the feeds between **Walmart Mexico** and Magento, click the **Sync Feeds** button.  
Or  
Select the checkbox associated with the required product and submit the **Sync Feeds** action.
- To delete the feed, select the check box associated with the product and submit the **Delete Feeds** action.
- To view the product feed error, click the **Error**

**1 ERROR**

button or to view the details of the feed, click the

**DETAILS**

button.

**Note:** If the feed detail is not available, then the

**NO DETAIL AVAILABLE**

button appears.

- To download the **Feed File**, click the **Download** link appearing in the **Feed File** column.

## 8.3. Walmart Mexico Crons

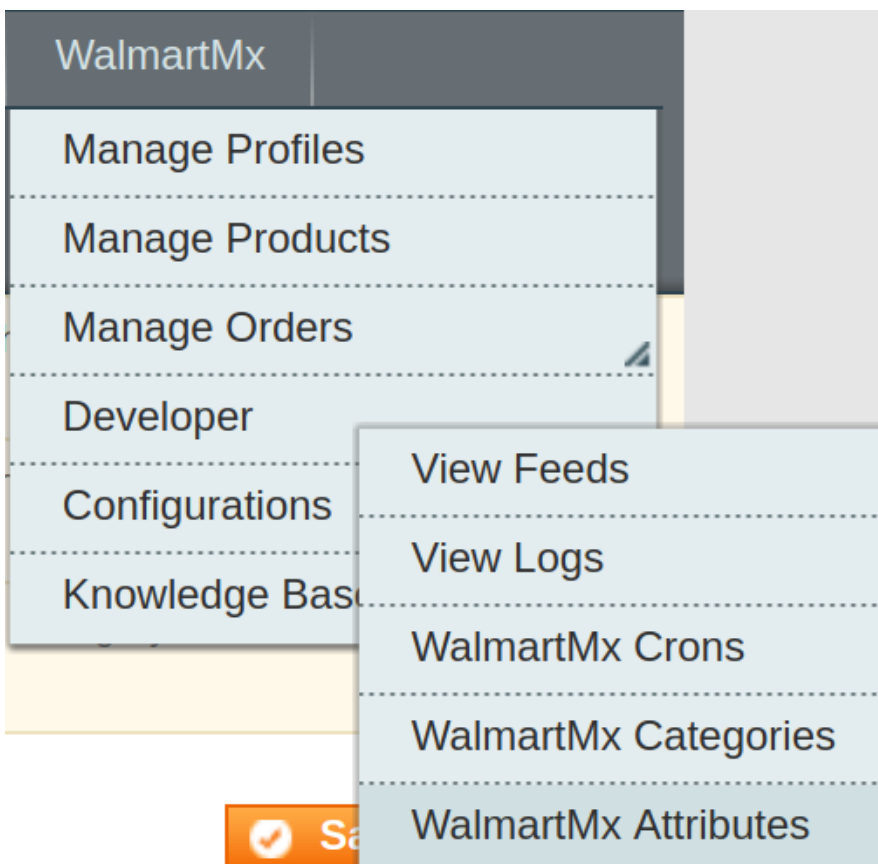

The Walmart Mexico Crons page displays all the **Cron** details scheduled in **Walmart Mexico**.

**To view the Walmart Mexico Cron details:**

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Walmart Mexico** menu.

The menu appears as shown in the following figure:

### 3. Click **Walmart Mexico Crons**.

The **Walmart Mexico Cron Details** page appears as shown in the following figure:

WalmartMx Cron Details

Page 1 of 1 pages | View 20 per page | Total 0 records found Reset Filter Search
