1. Overview

Wish.com is competing with the companies such as Walmart and Amazon. They are valued at between 3.5 and 5 billion dollars. Wish currently works with thousands of merchants serving millions of users globally.

Founded in 2011, Wish is a mobile e-commerce application based in San Francisco, California operating globally with a large presence in North America, Europe, Brazil, and China. It is the sixth largest e-commerce company in the world.

WooCommerce Wish Integration helps the **WooCommerce** store owner to synchronize inventory, price, and other product details for the product creation and its management between the **WooCommerce** store and the **Wish** marketplace.

This plug-in interacts with the Wish Marketplace to integrate the synchronized product listing between the **WooCommerce** and the **Wish** retailers. After installing the plug-in, the merchant can create the Wish Categories and the dependent attributes in the **WooCommerce** store.

Thus, it enables the merchant to configure the desired product category to the **WooCommerce** store for automatic submission of the selected product to the same category on the **Wish** website.

Features of the extension are as follows:

- **Synchronized Inventory and Profile Based Pricing:** Inventory Synchronization at regular intervals. A product listing is established between WooCommerce and Wish. Profile-based price increase or decrease.
- **Synchronized Product Editing:** Besides adding the products, any product information changes made on the WooCommerce store reflects on the Wish website.
- **Profile based Product Upload:** Enables the admin to create the Profiles and assign it to the products to automate the product upload.
- **Bulk Upload System:** The merchant has the flexibility to upload any number of products on the Wish Web site using bulk product upload feature.
- **Crons:** Cron job automates the process of Inventory, Price and Order management.
- **Creation of WooCommerce Orders:** The newly placed orders on the Wish Web site are automatically created in the WooCommerce store with all the required details as it is on the Wish Web site.
- **Error Notification:** If an error occurs while products uploading, then it gets listed on the page.
- **Archive and Unarchive Products:** Merchants can close and reopen the products on the Wish website using Archive and Unarchive feature.

2. Retrieve API Credentials From the Wish Sandbox Account

Once the extension is successfully installed in the WooCommerce store, the **Wish** menu appears on the left navigation bar of the Admin Panel. The merchant has to fill out the API credentials on the **WISH CONFIGURATION** page of the admin panel.

The user has to log in the Wish Seller account to obtain the following API credentials:

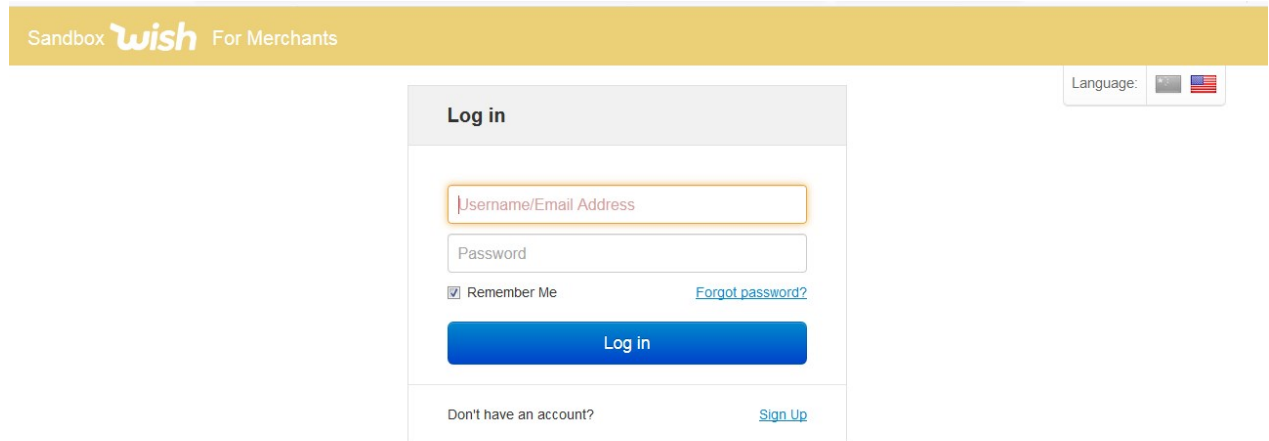

- Client Id
- Client Secret

After obtaining the details, the merchant has to copy all of them one by one from the Wish Seller account and paste it one by one to the **WISH CONFIGURATION** page of the admin panel of the store.

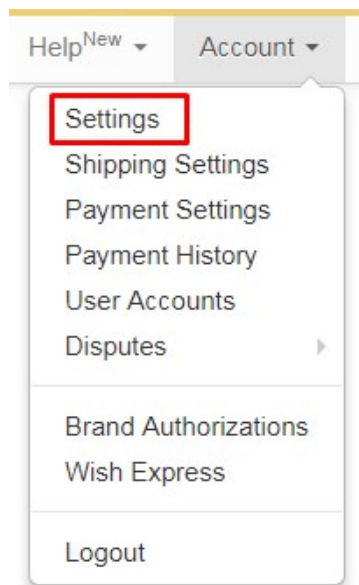

To retrieve the API credentials

1. Go to the Wish Seller Panel <https://sandbox.merchant.wish.com/>(<https://sandbox.merchant.wish.com/>) link.

The login page appears as shown in the following figure:

2. Enter the login credentials, and then click the **Log in** button.
3. In the right-upper corner, click the **Account** menu.
A menu appears as shown in the following figure:

4. Click **Settings**.
5. In the left navigation panel, click the **API Settings** menu.
The Page appears as shown in the following figure:

Your Private App Settings

To learn how to authenticate your app, click [here](#).

App Name

Client Id

Client Secret

"Redirect URI"

[Update](#)

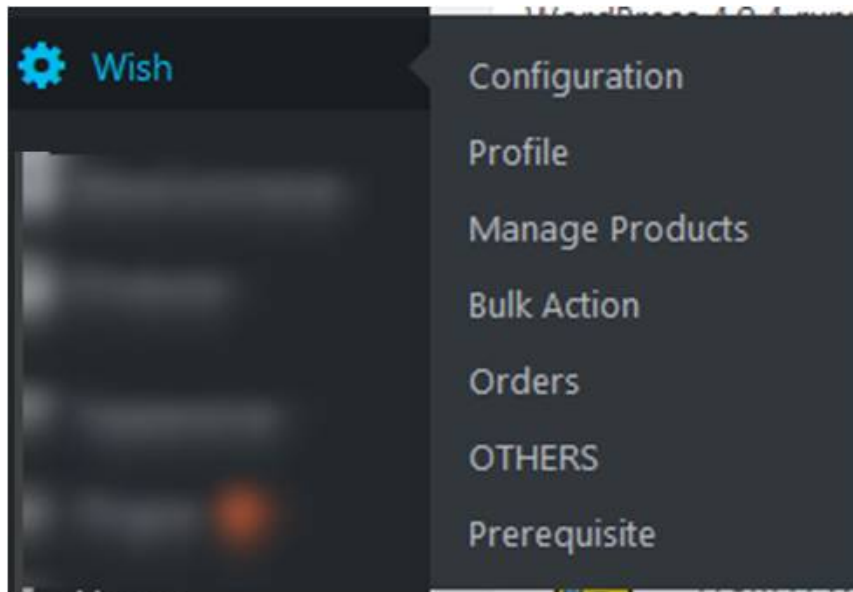

6. Copy the **Client Id** value and the **Client Secret** value.
7. Save the corresponding values in some text editor or the in Word file to use it later on while setting up the configuration settings.

3. Wish Configuration Settings

Once the extension is successfully installed in the WooCommerce store, the **Wish** menu appears on the left navigation bar of its Admin Panel. The merchant has to first create a seller account in the Wish seller panel. Once the seller account is created and is approved by Wish, the store owners can get the **API credentials from the <https://sandbox.merchant.wish.com>(<https://sandbox.merchant.wish.com>) link as mentioned in the Retrieve API Credentials from the Wish Sandbox Account section of the doc. Hence, the store owners can use the Wish **API credentials provided by Wish** while setting up the Wish Configuration settings in the **WooCommerce store Admin** panel.**

To set up the configuration settings in the WooCommerce Admin panel

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Wish** menu.
The menu appears as shown in the following figure:

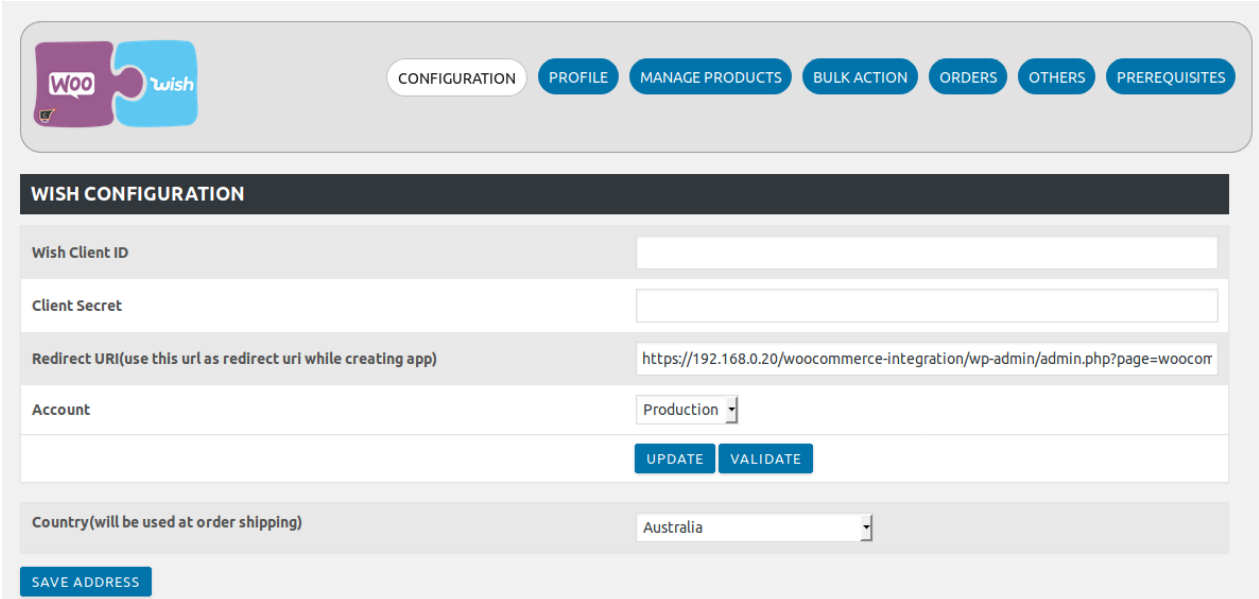

3. Click **Configuration**.

The menu moves to the left navigation bar, below Wish as shown in the following figure:

The **WISH CONFIGURATION** page appears as shown in the following figure:

The screenshot shows the 'Wish Configuration' page. At the top, there is a navigation bar with the 'Woo' and 'Wish' logos, and several menu items: CONFIGURATION (highlighted), PROFILE, MANAGE PRODUCTS, BULK ACTION, ORDERS, OTHERS, and PREREQUISITES. Below the navigation bar, the 'WISH CONFIGURATION' section contains the following fields and buttons:

- Wish Client ID**: A text input field.
- Client Secret**: A text input field.
- Redirect URI**: A text input field with the value 'https://192.168.0.20/woocommerce-integration/wp-admin/admin.php?page=woocorr'.
- Account**: A dropdown menu currently showing 'Production'.
- Buttons**: 'UPDATE' and 'VALIDATE' buttons.
- Country**: A dropdown menu currently showing 'Australia'.
- SAVE ADDRESS**: A button at the bottom left.

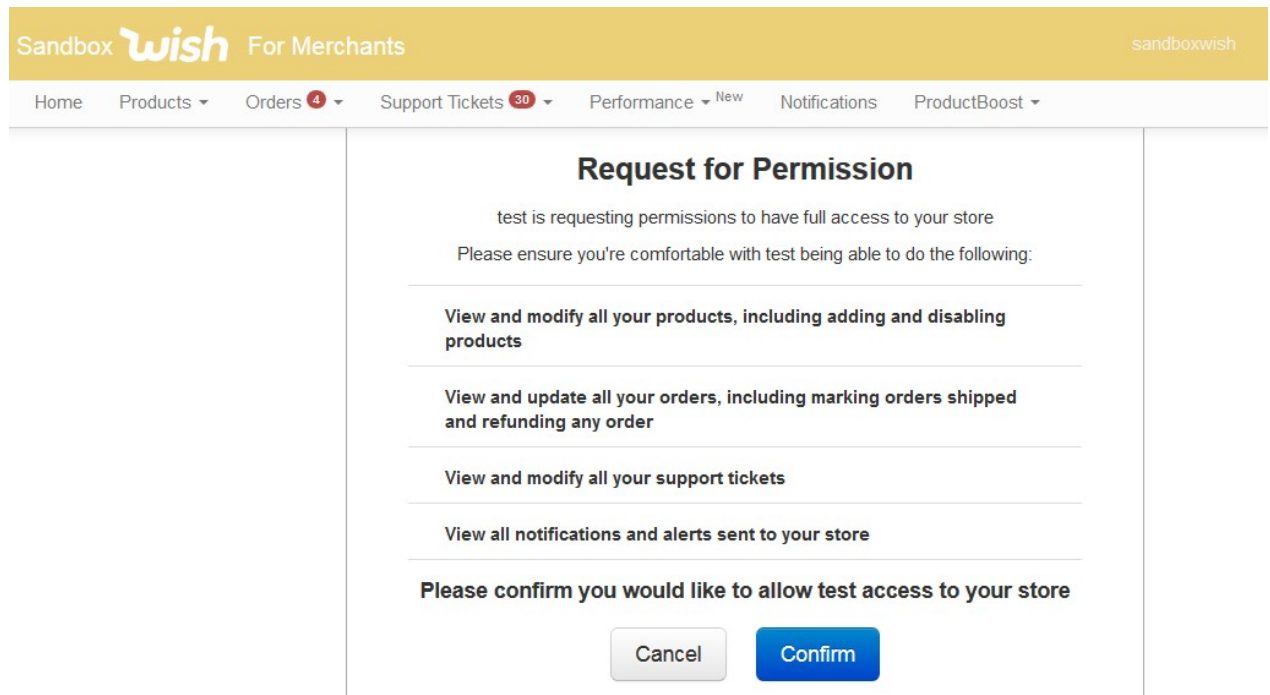

4. In the **Wish Client ID** box, enter the **Client ID** value copied from the Wish Sandbox account.
5. In the **Client Secret** box enter the **Client Secret** value copied from the Wish Sandbox account.
6. In the **Redirect URI** box, enter the Redirect URI.
7. In the **Account** list, select the **Sandbox** option.
8. Click the **UPDATE** button.

The entered credentials are saved and a success message appears as shown in the following figure:

9. Click the **VALIDATE** button.

The **Request for Permission** page appears as shown in the following figure:

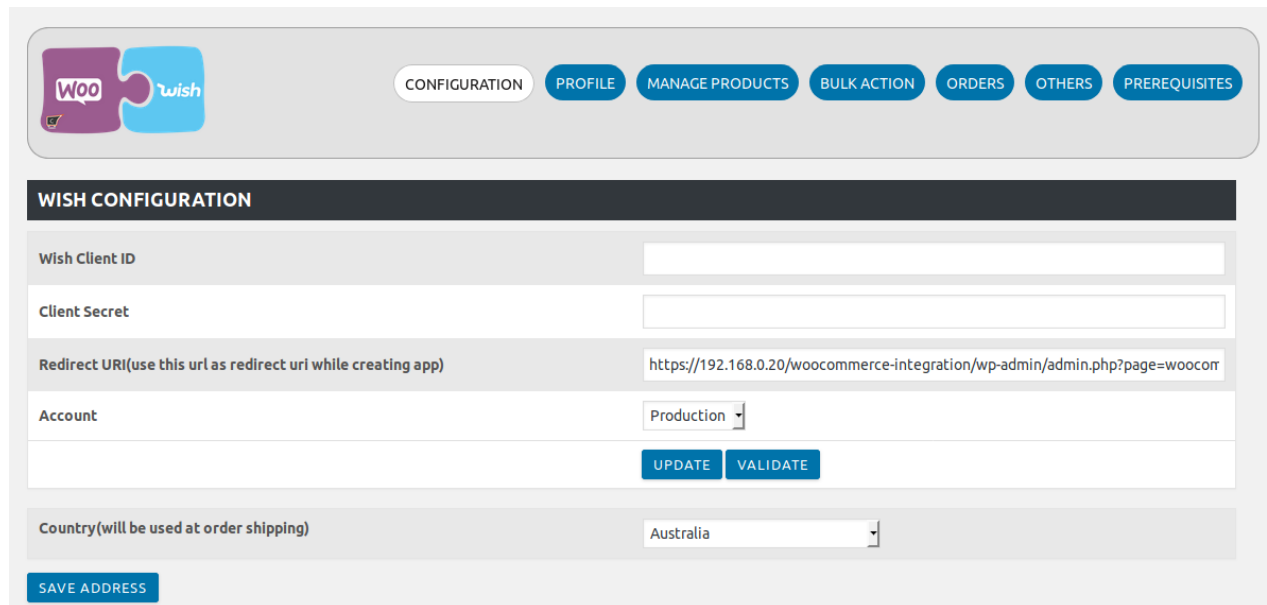

10. Click the **Confirm** button.

A confirmation dialog box appears as shown in the following figure:

11. Click the **Confirm** button.

The view is redirected back to the **WISH CONFIGURATION** page of the Wish WooCommerce Integration as shown in the following figure:

WISH CONFIGURATION

Wish Client ID

Client Secret

Redirect URI (use this url as redirect url while creating app)

Account

Country (will be used at order shipping)

4. Manage Profiles

Profile-based product uploading provides the admin a facility to create a group of the required products those have common meta-keys, and then upload those products at one go through uploading that profile (created group). In other words, admin can create a new profile and assign it to the group of those products, and then upload the profile on Wish; it saves the time of making the same changes in each meta-keys of each and every product.

It means, rather than making the changes in the common meta-keys of each and every product, admin can create a profile and assign it to all the products having common meta-keys, and thus make the changes in the meta-keys available on the profile page.

While creating and editing the profile, admin can select the product and the corresponding meta-keys. These meta-keys are applicable to all the products that are assigned to the profile.

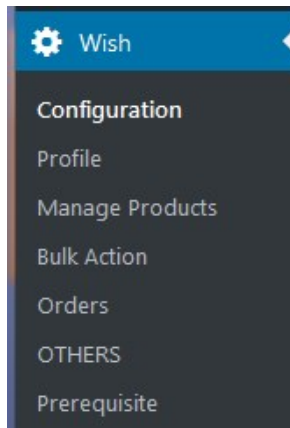

Admin can perform the following tasks:

- Add new profile(<https://docs.cedcommerce.com/woocommerce/wish-woocommerce-integration-user-guide/?section=add-a-new-profile-27>)
- Edit the existing profile(<https://docs.cedcommerce.com/woocommerce/wish-woocommerce-integration-user-guide/?section=edit-the-existing-profile-37>)
- Delete the profiles(<https://docs.cedcommerce.com/woocommerce/wish-woocommerce-integration-user-guide/?section=delete-the-profiles-18>)
- Enable the Profiles(<https://docs.cedcommerce.com/woocommerce/wish-woocommerce-integration-user-guide/?section=enable-the-selected-disabled-profiles-in-bulk-3>)
- Disable the Profiles(<https://docs.cedcommerce.com/woocommerce/wish-woocommerce-integration-user-guide/?section=disable-the-selected-enabled-profiles-in-bulk-4>)

4.1. Add a New Profile

To add a new profile

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Wish** menu.
A Submenu appears below the **Wish** menu as shown in the following figure:

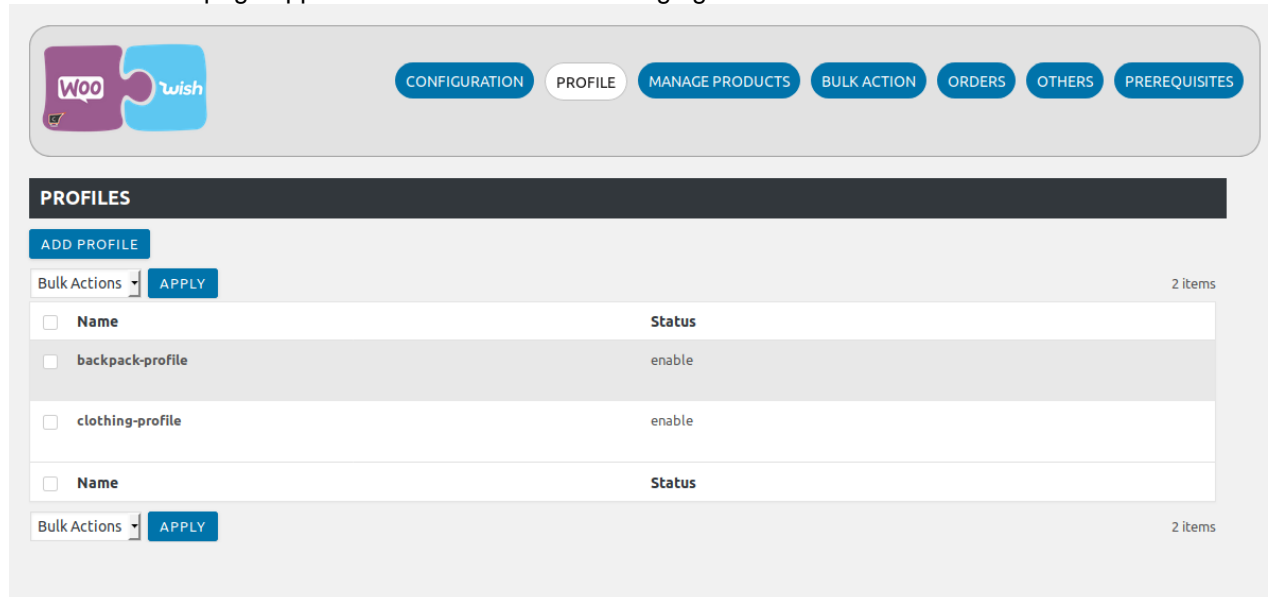

3. Click **Profile**.

OR

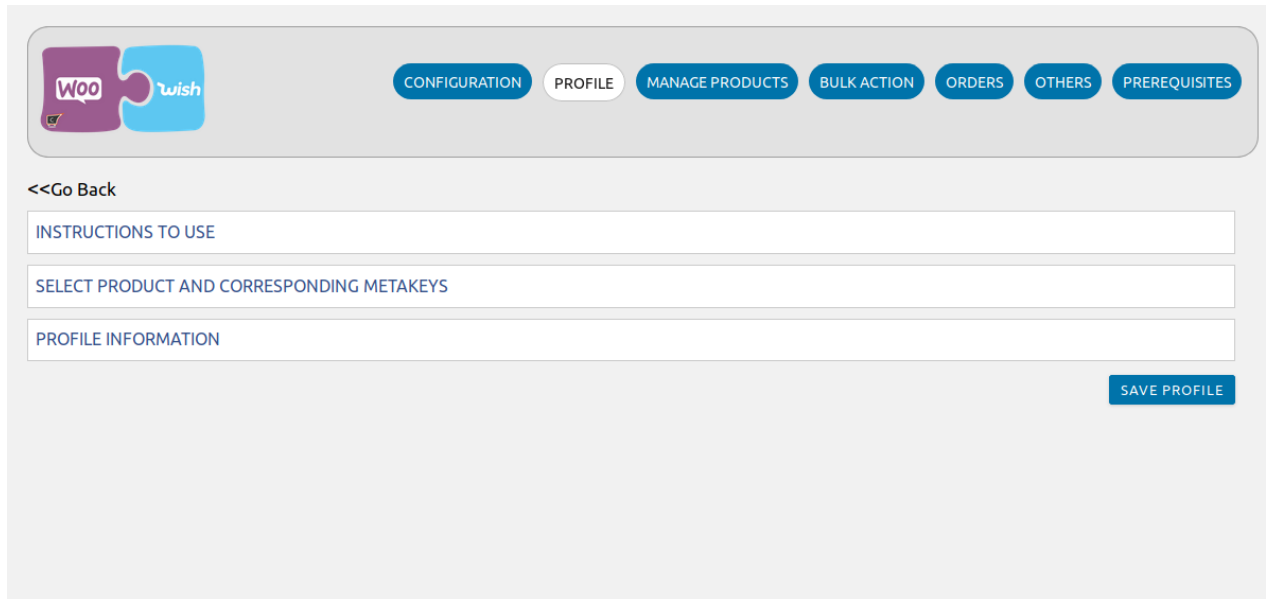

In the right panel, click the **PROFILE** tab.

The **PROFILES** page appears as shown in the following figure:

4. Click the **ADD PROFILE** button.

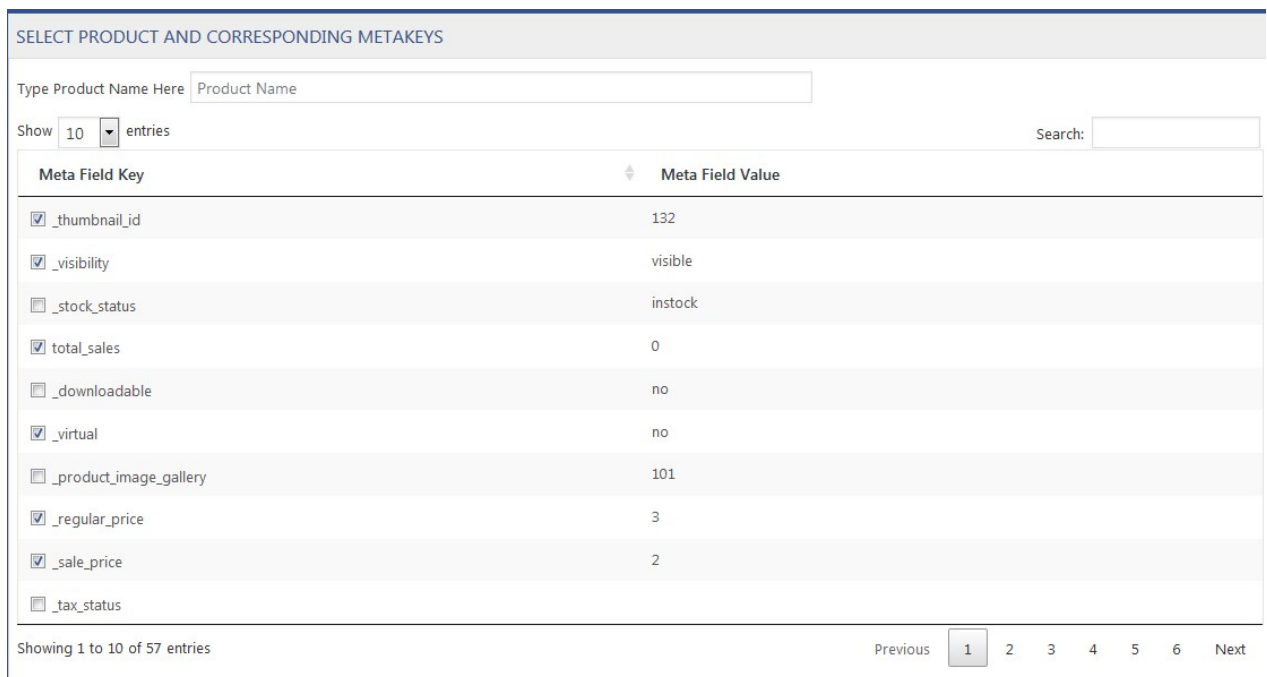

The page appears as shown in the following figure:

Note: Click the **INSTRUCTION TO USE** tab, to view the instruction.

- Click the **SELECT PRODUCT AND CORRESPONDING METAKEYS** tab.

The section appears as shown in the following figure:

Meta Field Key	Meta Field Value
<input checked="" type="checkbox"/> _thumbnail_id	132
<input checked="" type="checkbox"/> _visibility	visible
<input type="checkbox"/> _stock_status	instock
<input checked="" type="checkbox"/> total_sales	0
<input type="checkbox"/> _downloadable	no
<input checked="" type="checkbox"/> _virtual	no
<input type="checkbox"/> _product_image_gallery	101
<input checked="" type="checkbox"/> _regular_price	3
<input checked="" type="checkbox"/> _sale_price	2
<input type="checkbox"/> _tax_status	

- In the **Type Product Name Here** box, enter the required product name to get the attributes of the entered product name.

Note: Enter the initial of the product and a list appears. Select the required one from the list.

- In the **Meta Field Key** column, select the check boxes associated with the required meta-keys.
- Scroll down to the **PROFILE INFORMATION** tab, and then click the tab.

The section appears as shown in the following figure:

PROFILE INFORMATION

BASIC **ADVANCE**

Profile Name ⓘ

Enable Profile ⓘ ☐ Enable Profile

Following two tabs appear:

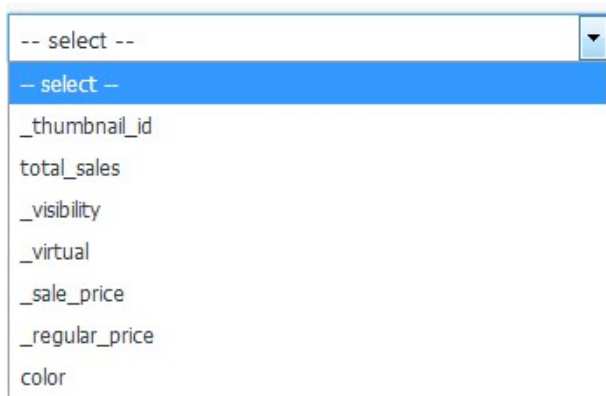

- BASIC
 - ADVANCE
9. Click the **BASIC** tab.
 10. Under **BASIC**, do the following steps:
 - a. In the **Profile Name** box, enter the name of the profile.
 - b. Select the check-box associated with the **Enable Profile** field.
 11. Click the **ADVANCE** tab.
- The page appears as shown in the following figure:

PROFILE INFORMATION

BASIC **ADVANCE**

Standard Product Price [Required]	<input type="text"/>	-- select --
Shipping [Required]	<input type="text"/>	-- select --
Wish inventory [Required]	<input type="text"/>	-- select --
Product Tags [Required]	<input type="text"/>	-- select --
Color	<input type="text"/>	-- select --
Size	<input type="text"/>	-- select --
Upc	<input type="text"/>	-- select --

The meta-keys selected under the **Select Product And Corresponding MetaKeys** section are listed in the select list field that appears next to the text boxes as shown in the following figure:

- a. In the select list associated with the **Standard Product Price** box, select the required meta key.
OR
In the **Standard Product Price** box, enter the required value.
Note: The value entered in the box is applicable to all the products assigned to the profile.
Whereas, selecting the meta key from the list selects the individual value of the individual product.
- b. Similarly, enter the values in the other mandatory fields and other fields if required.
Note: These meta-keys are applicable to all the products, the profile is assigned to. Leave the field empty if the specific value is required based on a specific product.

12. Click **SAVE PROFILE** button.
The created profile is saved.

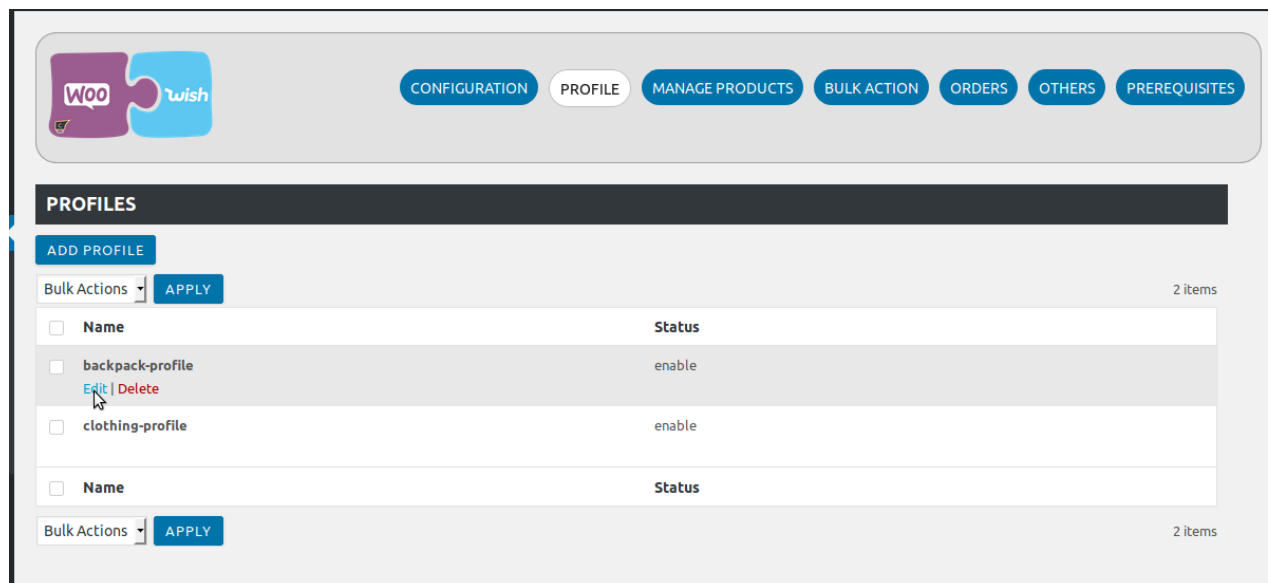

4.2. Edit the Existing Profile

To edit the existing profile

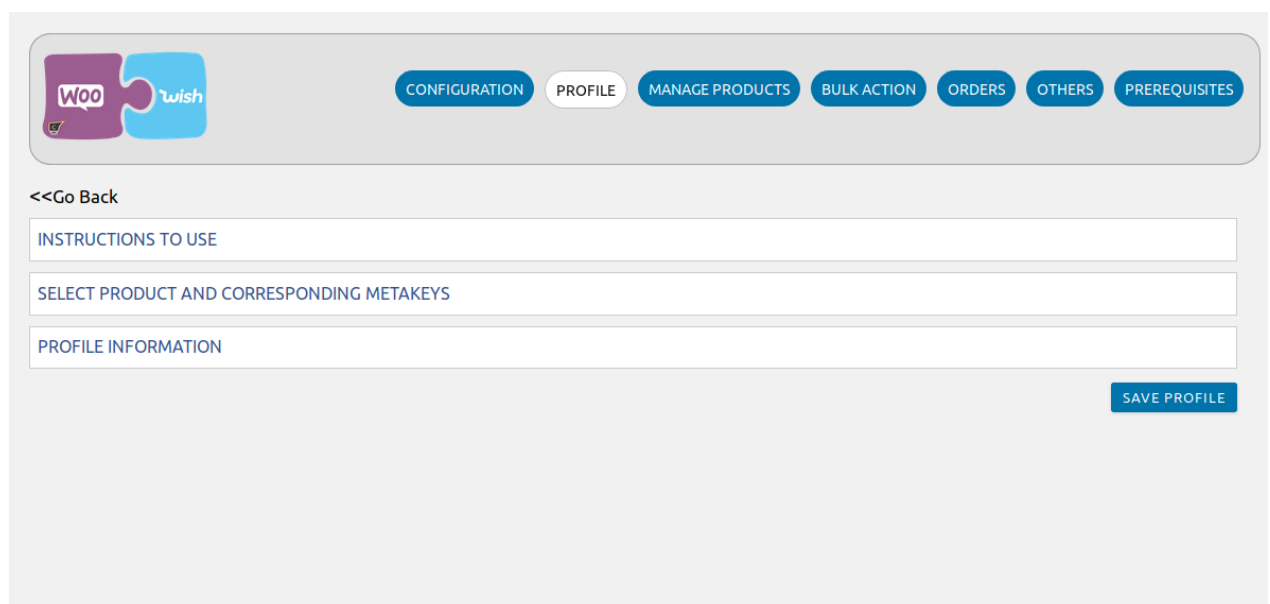

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Wish** menu.
A Submenu appears below the **Wish** menu as shown in the following figure:

3. Click **Profile**.
OR
In the right panel, click the **PROFILE** tab.
The **PROFILES** page appears as shown in the following figure:

4. Move the cursor over the required profile to edit.
The [Edit](#) and the [Delete](#) links appear as shown in the figure.
5. Click the **Edit** link.
The page appears as shown in the following figure:

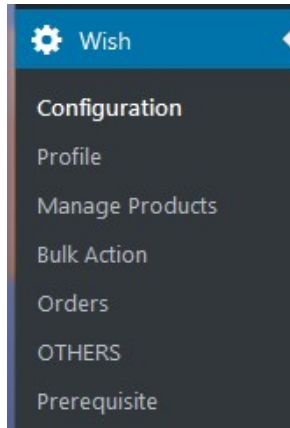

6. Click the **SELECT PRODUCT AND CORRESPONDING METAKEYS** tab and/ or the **PROFILE INFORMATION** tab as per the requirement.
7. Make the changes in the required section, and then click the **SAVE PROFILE** button.
The changes are saved.

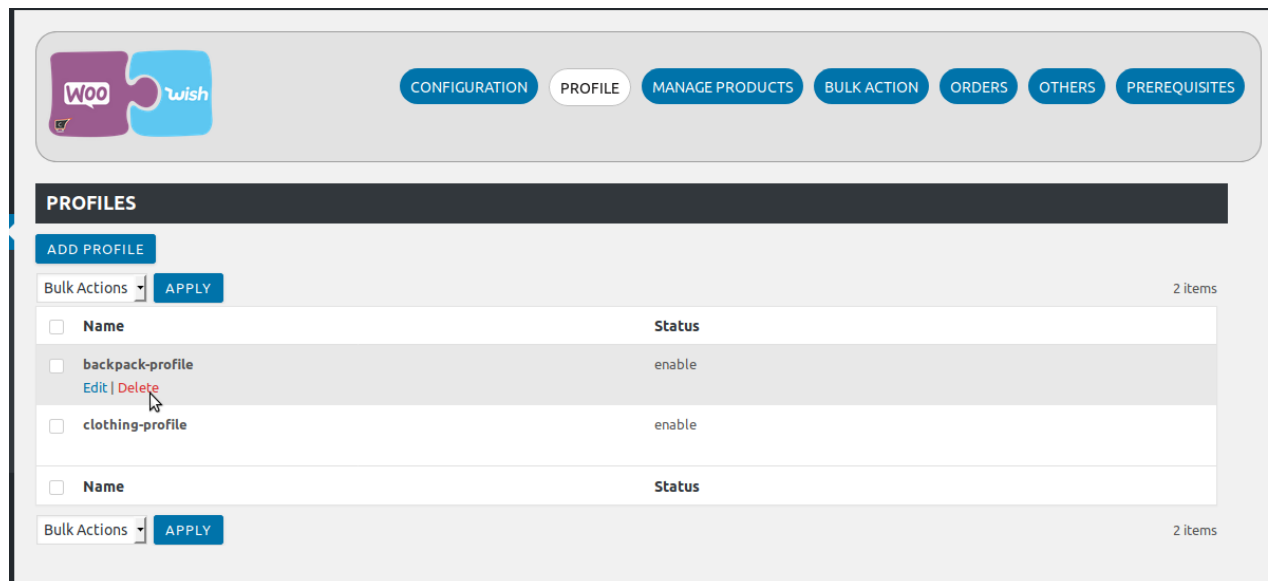

4.3. Delete the Profiles

To delete the single profile

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Wish** menu.
A Submenu appears below the **Wish** menu as shown in the following figure:

3. Click **Profile**.

ORIn the right panel, click the **PROFILE** tab.The **PROFILES** page appears as shown in the following figure:

4. Move the cursor over the required profile to edit.
The **Edit** and the **Delete** links appear as shown in the figure.
5. Click the **Delete** link.
The profile is deleted.
Admin can also delete more than one profiles in bulk through the **Bulk Action**.

To delete the selected profiles in bulk

1. Go to the **WooCommerce Admin** panel.

- On the left navigation bar, click the **Wish** menu.

A Submenu appears below the **Wish** menu as shown in the following figure:

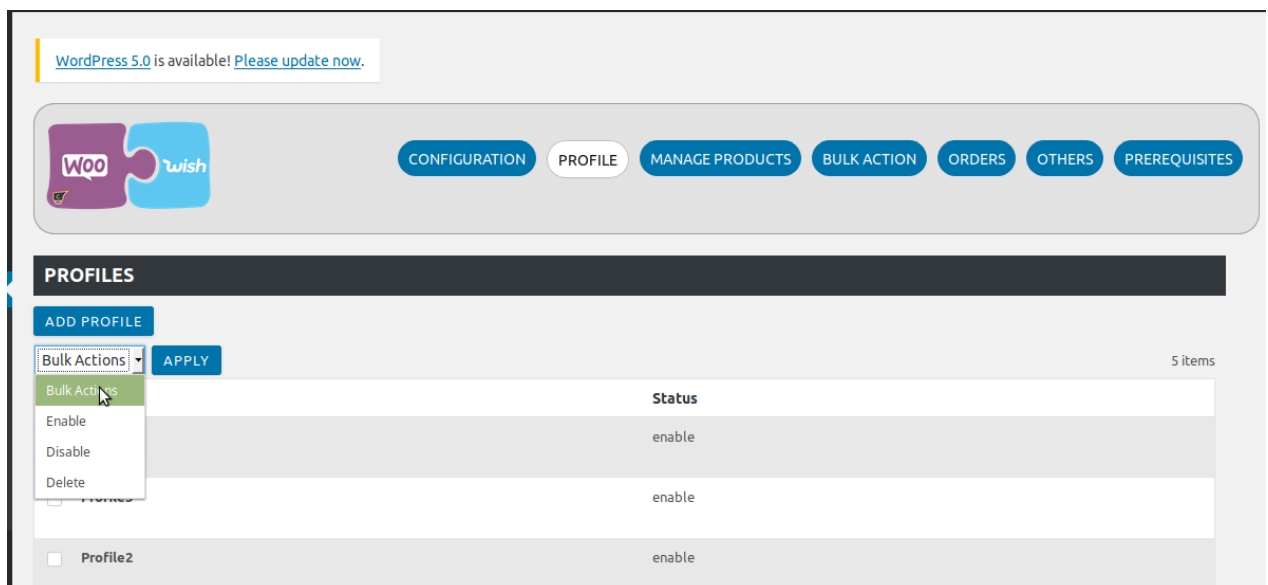

- Click **Profile**.

OR

In the right panel, click the **PROFILE** tab.

The **PROFILES** page appears as shown in the following figure:

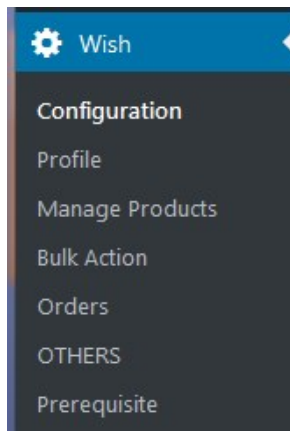

- Select the check boxes associated with the required profiles.
- In the **Bulk Actions** list, select **Delete**.
- Click the **Apply** button.
A confirmation dialog box appears.
- Click the **OK** button.
The selected profiles are deleted.

4.4. Enable the selected Disabled Profiles in Bulk

To enable the selected disabled profiles in bulk

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Wish** menu.
A Submenu appears below the **Wish** menu as shown in the following figure:

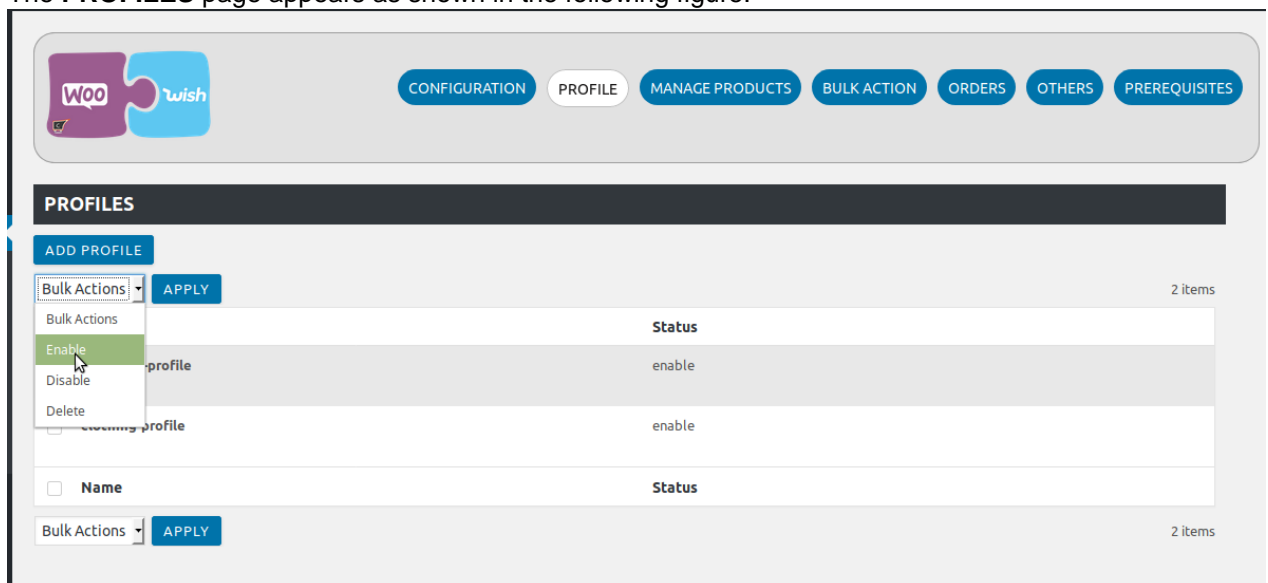

3. Click **Profile**.

OR

In the right panel, click the **PROFILE** tab.

The **PROFILES** page appears as shown in the following figure:

4. Select the check boxes associated with the required profiles to be enabled.
5. In the **Bulk Actions** list, select **Enable**.
6. Click the **Apply** button.
A confirmation dialog box appears.
7. Click the **OK** button.
The selected profiles are enabled.

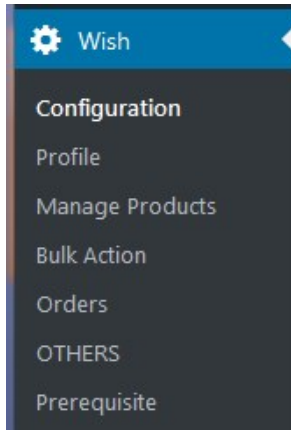

4.5. Disable the selected enabled Profiles in Bulk

To disable the selected enabled profiles in bulk

1. Go to the **WooCommerce Admin** panel.

- On the left navigation bar, click the **Wish** menu.

A Submenu appears below the **Wish** menu as shown in the following figure:

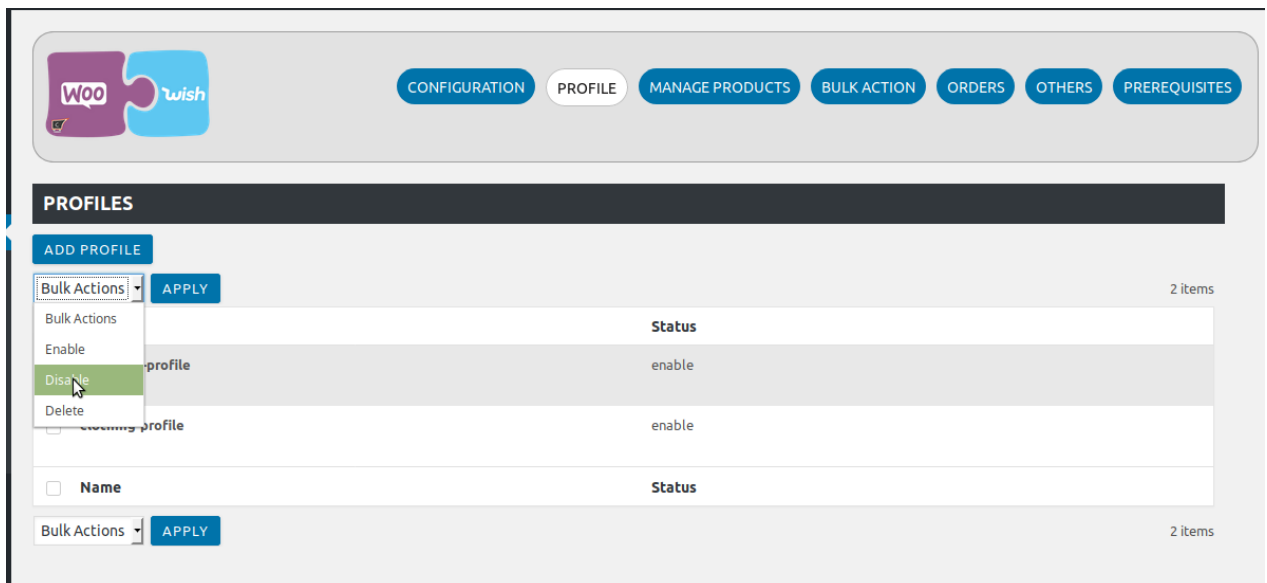

- Click **Profile**.

OR

In the right panel, click the **PROFILE** tab.

The **PROFILES** page appears as shown in the following figure:

- Select the check boxes associated with the required profiles to be disabled.
- In the **Bulk Actions** list, select **Disable**.
- Click the **Apply** button.
A confirmation dialog box appears.
- Click the **OK** button.
The selected profiles are disabled.

5. Manage Products

Admin can view all the products details such as the assigned profile name, product selling price, and the product inventory.

Admin can perform the following tasks:

- Assign the profile to the product(<https://docs.cedcommerce.com/woocommerce/wish-woocommerce-integration-user-guide/?section=assign-the-profile-to-the-product-5>)
- Remove the assignment of the profile(<https://docs.cedcommerce.com/woocommerce/wish-woocommerce-integration-user-guide/?section=remove-the-assignment-of-the-profile-11>)
- Upload the selected products to Wish.com(<https://docs.cedcommerce.com/woocommerce/wish-woocommerce-integration-user-guide/?section=upload-the-selected-products-5>)
- Update Inventory of the Selected Products(<https://docs.cedcommerce.com/woocommerce/wish-woocommerce-integration-user-guide/?section=update-inventory-of-the-selected-products-2>)

SAVE PROFILE

- In the **AVAILABLE PROFILE** list, select the profile to assign it to the individual product.
- Click the **SAVE PROFILE** button.
The profile is assigned to the product.

5.2. Remove the Assignment of the Profile

To remove the assignment of the profile

- Go to the **WooCommerce Admin** panel.
- On the left navigation bar, click the **Wish** menu.
A Submenu appears below the **Wish** menu as shown in the following figure:

3. Click **Manage Products**.

OR

In the right panel, click the **MANAGE PRODUCTS** tab.

The **MANAGE PRODUCTS** page appears as shown in the following figure:

Image	Name	Profile	Selling Price	Inventory	wish Status	Ready To Upload
	Woo Single #2	Demo profile ✕	£255.00	in stock (3)	Not Uploaded	wish: Ready
	Woo Album #2	Not Assigned	£9.00	out of stock	Not Uploaded	Missing Listing Data
	Woo Album #1	Not Assigned	£9.00	out of stock	Not Uploaded	Missing Listing Data
	Woo Logo	Not Assigned	£15.00	out of stock	Not Uploaded	Missing Listing Data

4. Scroll down to the required product.

The product from which the profile assignment needs to be removed.

5. In the **Profile** column of the required product, click the cross icon associated with the profile name as highlighted.

The assigned profile is removed from the product, and the **Not Assigned** link appears.

5.3. Upload the Selected Products

To upload the selected products to Wish.com

1. Go to the **WooCommerce Admin** panel.

2. On the left navigation bar, click the **Wish** menu.

A Submenu appears below the **Wish** menu as shown in the following figure:

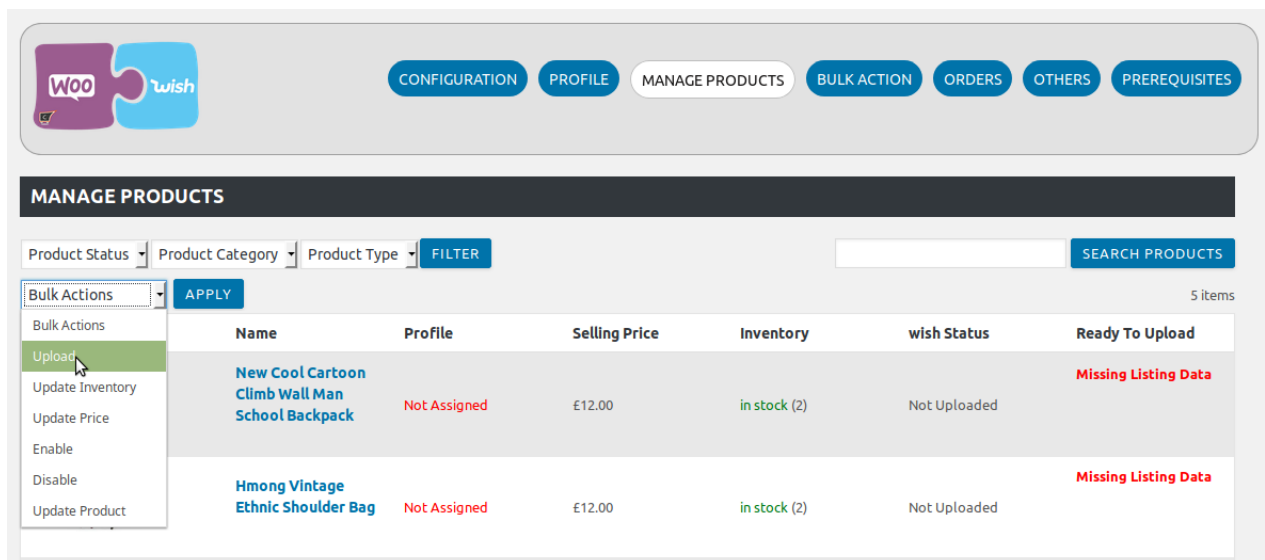

3. Click **Manage Products**.

OR

In the right panel, click the **MANAGE PRODUCTS** tab.

The **MANAGE PRODUCTS** page appears as shown in the following figure:

4. Select the check boxes associated with the required products to upload.

5. Click the **Arrow** button next to the **Bulk Actions** field, click **Upload**, and then click the **Apply** button.

The selected products are uploaded and a success message appears.

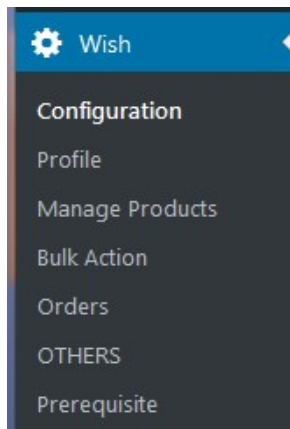

5.4. Update Inventory of the Selected Products

To update inventory of the selected products uploaded on Wish

1. Go to the **WooCommerce Admin** panel.

2. On the left navigation bar, click the **Wish** menu.

A Submenu appears below the Wish menu as shown in the following figure:

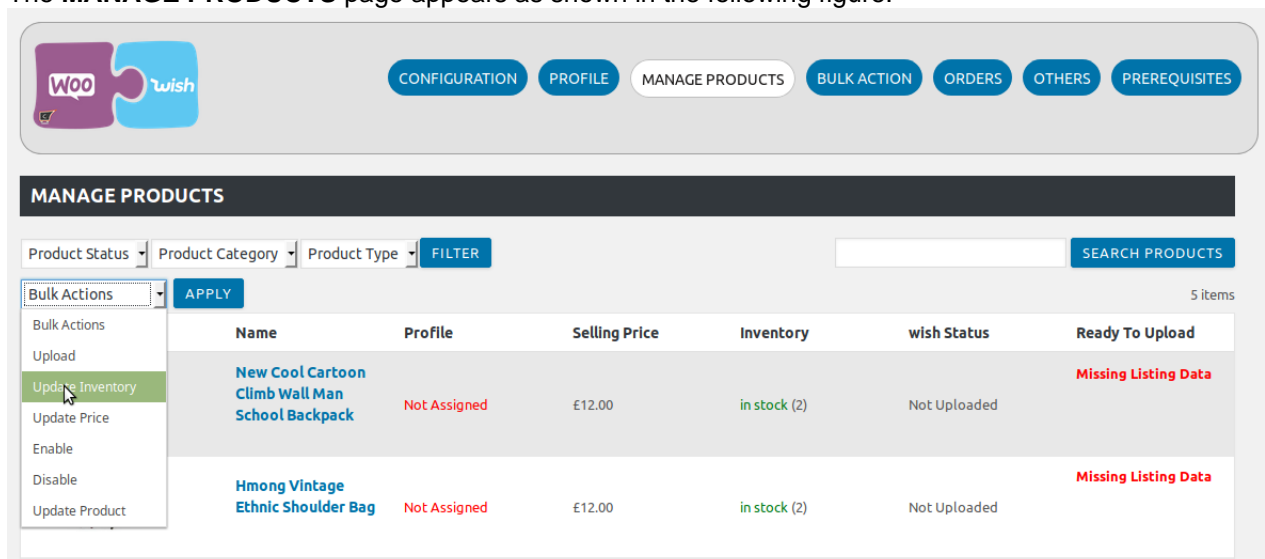

3. Click **Manage Products**.

OR

In the right panel, click the **MANAGE PRODUCTS** tab.

The **MANAGE PRODUCTS** page appears as shown in the following figure:

4. Select the check boxes associated with the required products to update the inventory of the selected products uploaded on Wish.

5. Click the **Arrow** button next to the Bulk Actions field, click **Update Inventory**, and then click the **APPLY** button.

The inventories of the selected products are updated on Wish and a success message appears.

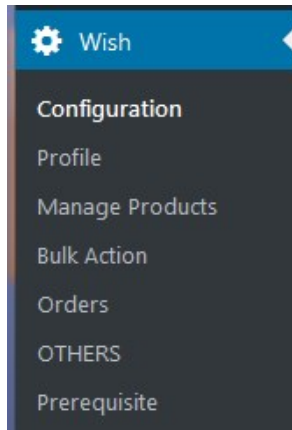

5.5. Update Price of the Selected Products

To update price of the selected products uploaded on Wish

1. Go to the **WooCommerce Admin** panel.

2. On the left navigation bar, click the **Wish** menu.

A Submenu appears below the **Wish** menu as shown in the following figure:

3. Click **Manage Products**.

OR

In the right panel, click the **MANAGE PRODUCTS** tab.

The **MANAGE PRODUCTS** page appears as shown in the following figure:

Name	Profile	Selling Price	Inventory	wish Status	Ready To Upload
New Cool Cartoon Climb Wall Man School Backpack	Not Assigned	£12.00	in stock (2)	Not Uploaded	Missing Listing Data
Hmong Vintage Ethnic Shoulder Bag	Not Assigned	£12.00	in stock (2)	Not Uploaded	Missing Listing Data

4. Select the check boxes associated with the required products to update the price of the selected products uploaded on Wish.

5. Click the **Arrow** button next to the **Bulk Actions** field, click **Update Price**, and then click the **APPLY** button.

The prices of the selected products are updated on Wish .com and a success message appears.

5.6. Enable the Selected Products on Wish

To enable the selected products on Wish

1. Go to the **WooCommerce Admin** panel.

2. On the left navigation bar, click the **Wish** menu.

A Submenu appears below the **Wish** menu as shown in the following figure:

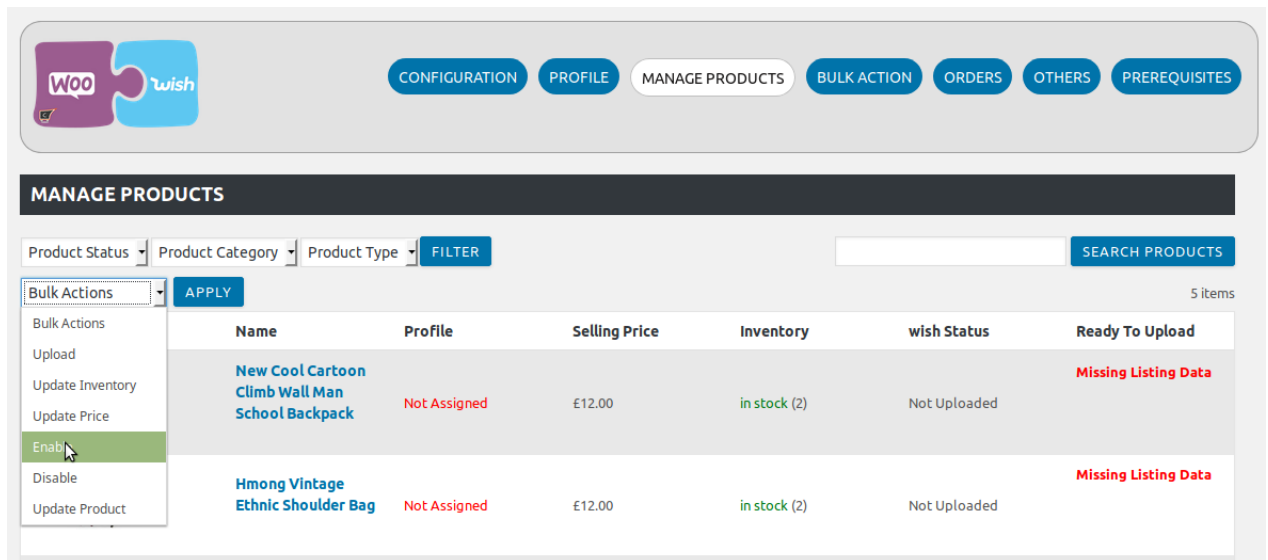

3. Click **Manage Products**.

OR

In the right panel, click the **MANAGE PRODUCTS** tab.

The **MANAGE PRODUCTS** page appears as shown in the following figure:

4. Select the check boxes associated with the required products to enable them on Wish.com.

5. Click the **Arrow** button next to the **Bulk Actions** field, click **Enable**, and then click the **APPLY** button.

The selected products are enabled on Wish.com and a success message appears.

5.7. Disable the Selected Products on Wish

To disable the selected products on Wish

1. Go to the **WooCommerce Admin** panel.

2. On the left navigation bar, click the **Wish** menu.

A Submenu appears below the **Wish** menu as shown in the following figure:

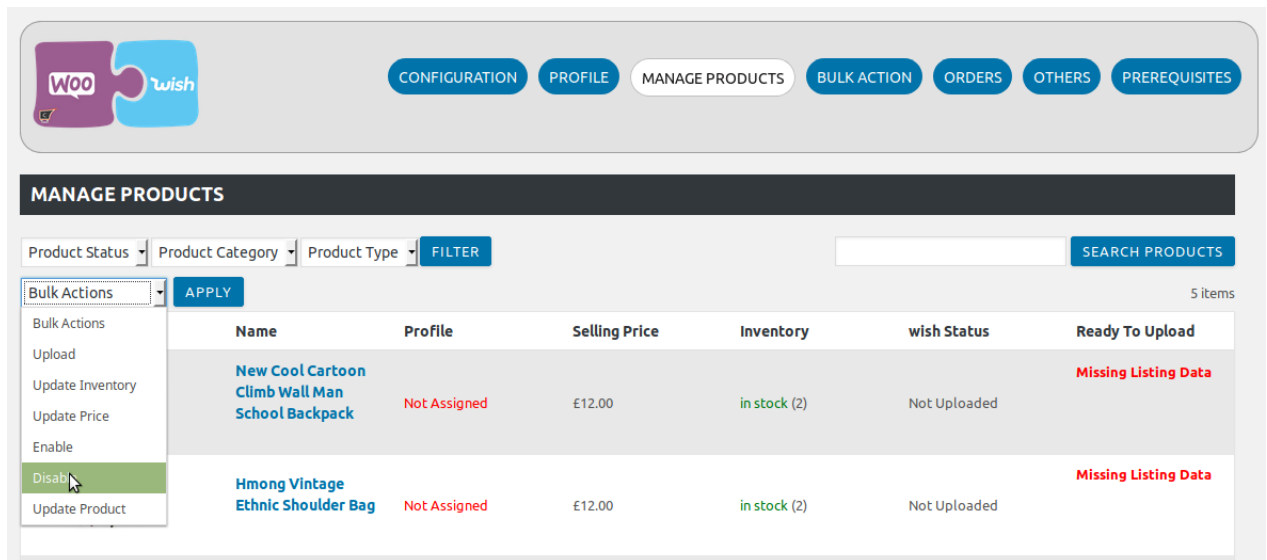

3. Click **Manage Products**.

OR

In the right panel, click the **MANAGE PRODUCTS** tab.

The **MANAGE PRODUCTS** page appears as shown in the following figure:

4. Select the check boxes associated with the required products to disable them on Wish.com.

5. Click the **Arrow** button next to the **Bulk Actions** field, click **Disable**, and then click the **APPLY** button.

The selected products are disabled on Wish.com and a success message appears.

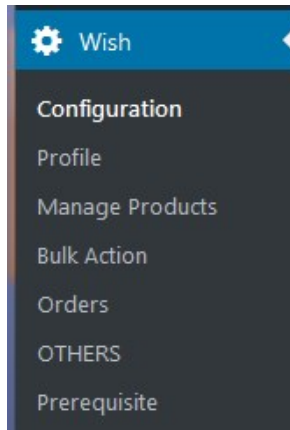

5.8. Update the Selected Products on Wish

To update the selected products on Wish

1. Go to the **WooCommerce Admin** panel.

2. On the left navigation bar, click the **Wish** menu.

A Submenu appears below the **Wish** menu as shown in the following figure:

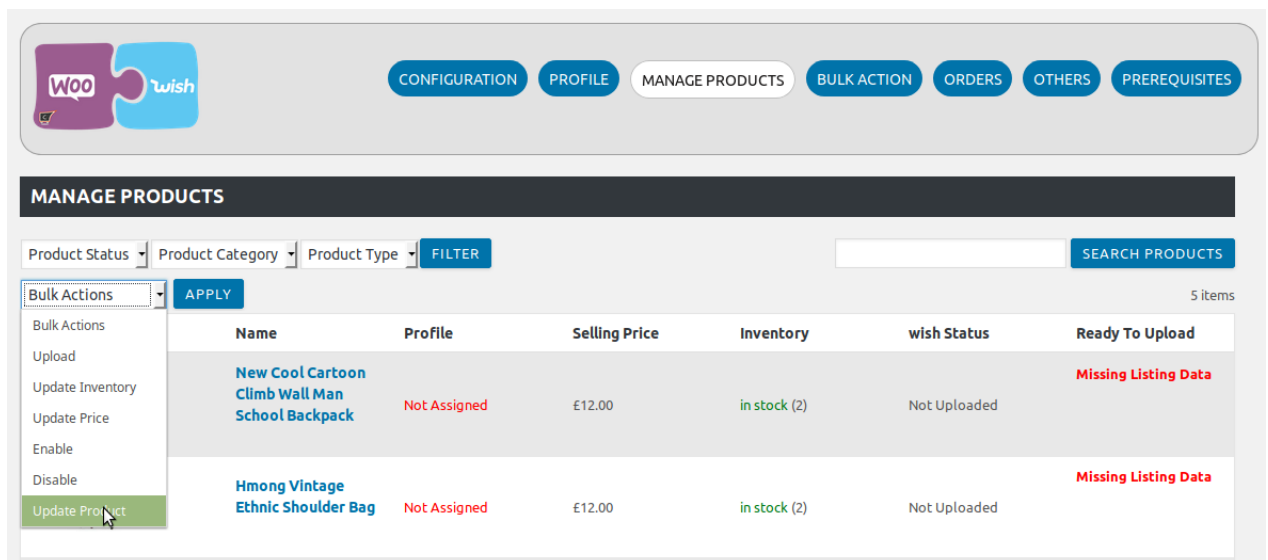

3. Click **Manage Products**.

OR

In the right panel, click the **MANAGE PRODUCTS** tab.

The **MANAGE PRODUCTS** page appears as shown in the following figure:

4. Select the check boxes associated with the required products to update the product details on Wish.com.

5. Click the **Arrow** button next to the **Bulk Actions** field, click **Update Product**, and then click the **APPLY** button.

The details of the selected products are updated on Wish.com and a success message appears.

6. Bulk Action

With the Bulk Action feature, the admin has an ability to perform the following Bulk actions:

- **Bulk Profile Assignment:** Assigns the selected profile to the category. Thus, the selected profile is

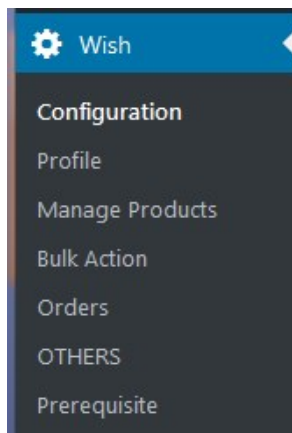

assigned to all the products that fall under the category.

- **Bulk Product Upload:** Uploads the selected products to Wish. Admin can select the required categories and products to upload and exclude the products not to upload on Wish.

6.1. Bulk Profile Assignment

To perform bulk profile assignment

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Wish** menu.
A Submenu appears below the **Wish** menu as shown in the following figure:

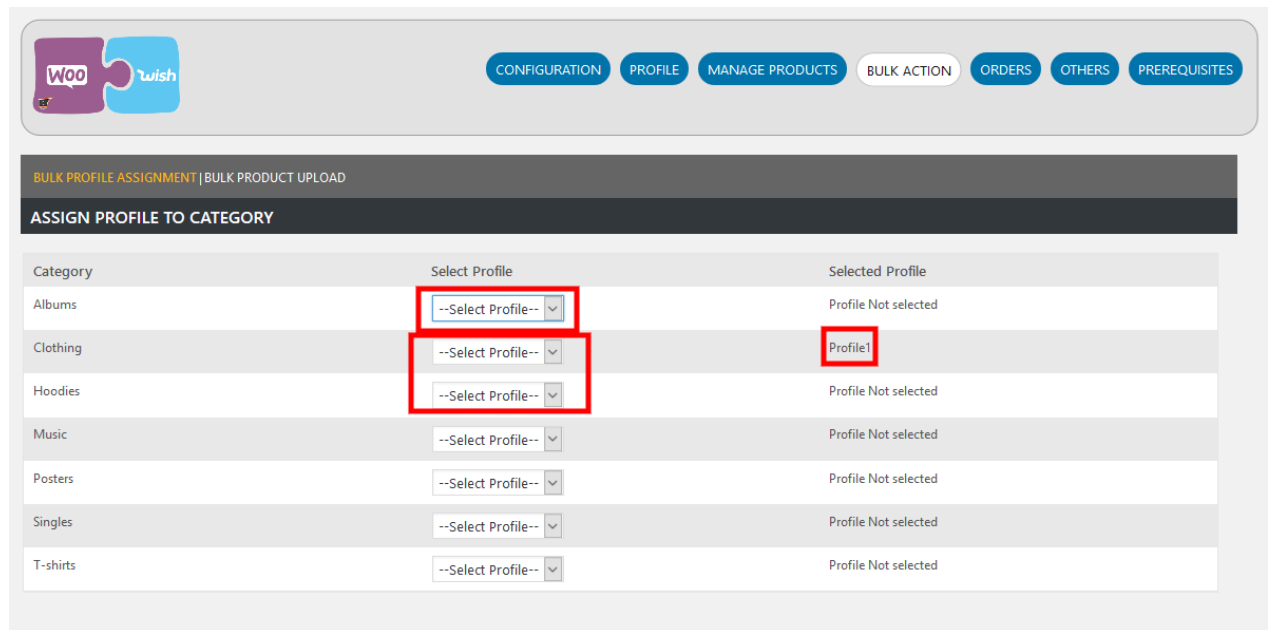

3. Click **Bulk Action**.

OR

In the right panel, click the **BULK ACTION** tab.

The **ASSIGN PROFILE TO CATEGORY** page appears as shown in the following figure:

4. Scroll down to the category to assign the profile.
5. In the row of the required category, move to the **Select Profile** list.
6. In the **Select Profile** list, select the required profile.
The selected profile is assigned to the category and a success message appears.

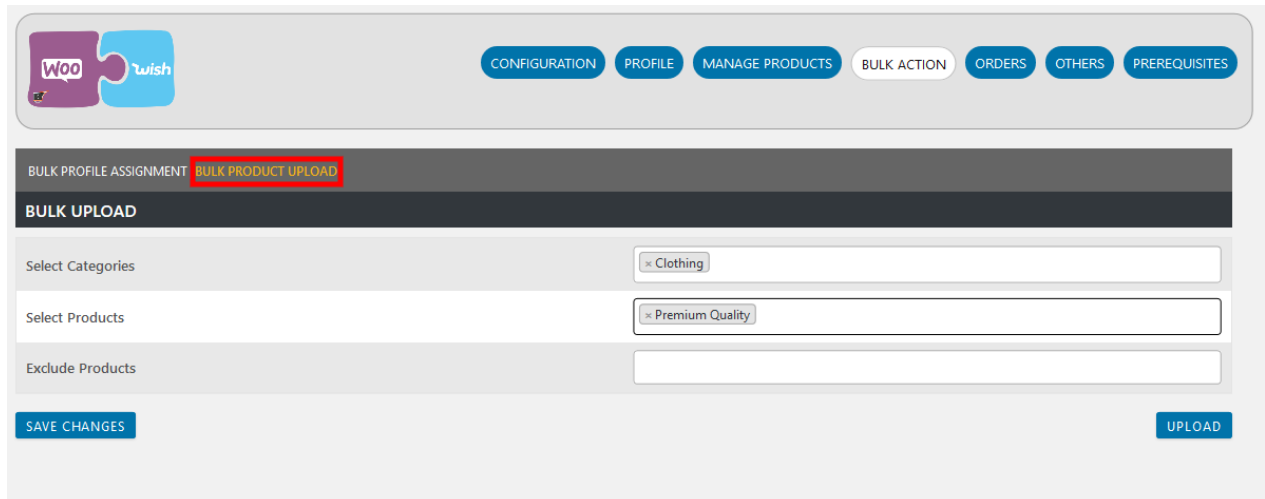

6.2. Bulk Product Upload

To upload the products in bulk

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Wish** menu.
A Submenu appears below the **Wish** menu as shown in the following figure:

3. Click **Bulk Action**.
OR
In the right panel, click the **BULK ACTION** tab, and then click the **BULK PRODUCT UPLOAD** link.
The **BULK UPLOAD** page appears as shown in the following figure:

The screenshot shows the 'Wish' admin interface. At the top, there's a navigation bar with tabs: CONFIGURATION, PROFILE, MANAGE PRODUCTS, BULK ACTION (highlighted), ORDERS, OTHERS, and PREREQUISITES. Below this, the 'BULK PRODUCT UPLOAD' section is active. It contains three input fields: 'Select Categories' with a tag 'Clothing', 'Select Products' with a tag 'Premium Quality', and 'Exclude Products'. At the bottom, there are two buttons: 'SAVE CHANGES' and 'UPLOAD'.

4. In the **Select Categories** box, click to select the required categories from the list.
 5. In the **Select Products** box, click to select the required products from the list of products upload.
 6. In the **Exclude Products** box, click to select the products from the list to hold back from product upload.
 7. Click the **SAVE CHANGES** button to save the changes.
 8. Click the **UPLOAD** button to upload the selected categories and products on Wish.
- The selected categories and the products are uploaded and a success message appears on the page.

7. Others

Admin can view and use the following information:

- **Auto Acknowledge:** Admin can use this information in case of auto-acknowledgment through cron.
- **Price And Inventory Syncing:** Admin can use this information while using WordPress-schedule to sync price and inventory on Wish.
- **Send Error Reporting To Developer:** This feature enables the admin to send error reports to a developer in case of any API failure or CRON failure.

To use the information

1. Go to the WooCommerce Admin panel.
 2. On the left navigation bar, click the **Wish** menu.
- A Submenu appears below the **Wish** menu as shown in the following figure:

3. Click **OTHERS**.

OR

In the right panel, click the **OTHERS** tab.

The page appears as shown in the following figure:

The screenshot shows the 'OTHERS' tab selected in the plugin settings. The top navigation bar includes tabs for CONFIGURATION, PROFILE, MANAGE PRODUCTS, BULK ACTION, ORDERS, OTHERS (active), and PREREQUISITES. The main section is titled 'AUTO ACKNOWLEDGE'. Below the title, a note states: 'This information will be used in case of auto-acknowledgement using cron.' There are two input fields: 'Location Of Cron File Order Sync' with the value '/opt/lampp/htdocs/woocommerce-integration/wp-content/plugins/woocommerce-' and 'Notification Mail Content That Will Be Send To Admin In Case Cron Fails' with a text area containing a sample email message. A 'SAVE' button is located at the bottom right.

4. Under **AUTO ACKNOWLEDGE**, do the following steps based on requirements:

- Use the provided path displayed in the **Location Of Cron File Order Sync** box to locate the Cron File for Order Synchronization.
- In the **Notification Mail Content That Will Be Send To Admin In Case Cron Fails** box, enter the email content such as shown in the figure.
- Click the **SAVE** button.

5. Scroll down to the **PRICE AND INVENTORY SYNCING** section.

The section appears as shown in the following figure:

The screenshot shows the 'PRICE AND INVENTORY SYNCING' section. A note states: 'This information will be used to use wordpress-schedule to sync price and inventory on wish.' There are two input fields: 'Auto Sync Frequency' with a dropdown menu set to 'Every 15 Minutes' and 'Start Sync Now' with a button icon. A checkbox labeled 'Check this to immediately start inventory and price syncing process on wish.' is present. A 'SAVE' button is located at the bottom right.

6. Under **PRICE AND INVENTORY SYNCING**, do the following steps based on requirements:

- In the **Auto Sync Frequency** list, select the required period to schedule the auto synchronization of the Price and Inventory.

- b. In the **Start Sync Now** field, select the associated check box to immediately start inventory and price syncing process on Sears.
 - c. Click the **SAVE** button.
7. Scroll down to the **SEND ERROR REPORTING TO DEVELOPER** tab.
The section appears as shown in the following figure:

- a. In the **Allow Information To Send To Developer** field, select the check box associated with the **Allow Access To Developer** text to send error reports to a developer in case of any API failure or CRON failure.
 - b. Click the **SAVE** button.
