## 1. Overview

**Lelong**, Malaysia's homegrown online Marketplace gives total and moderate e-commerce business stage for purchasers, uncovering them with an collection of products and service from in excess of 10,000 sellers

With more than 9 million monthly visits to its sites and close to 100 percent geographical distribution coverage, Lelong has become the clear choice for sellers throughout Malaysian region.

**Lelong Woocommerce Integration** provides you the complete Integration solution to sell your Woocommerce store products to the ideal customers of Lelong marketplace and thus increase your product sale. It enables you to synchronize the inventory, price, and other product details between your Woocommerce store and Lelong website.

Essentially, it is an establishment of a real-time channel to feed product critical data directly to Lelong.my through API Communication.

It feeds all the product assortment and data in one-go directly at Lelong.my. It has centralized Status Update machinery that sends dynamic alerts and compliance reports for the entire product fulfillment cycle.

CedCommerce helps in Uploading Products and providing expert training to make you familiar with navigation and operation. Also, it offers expert advice and support for the hassle-free operation, better product discover-ability, and higher sales.

With the help of this plug-in, the merchant can configure the desired product category into WooCommerce for automatic submission of the selected product to the same Category on Lelong. The process enables the merchant to configure the desired product category into WooCommerce for automatic submission of the selected product to the same Category on Lelong.

**Features of the extension are as follows:**

- **Profile-based Product Upload:** Enables the admin to create the Profiles and assign it to the products to automate the product upload.
- **Creation of WooCommerce Orders:** The newly placed orders on the Lelong Web site are automatically created in the WooCommerce store with all the required details.
- **Error Notification:** If an error occurs while products uploading, then it gets listed on the page.
- **Synchronized Product Editing:** Besides adding the products, any product information changes made on the WooCommerce store reflects on the Lelong.
- **Bulk Upload System:** The merchant has the flexibility to upload any number of products on the Lelong Web site using bulk product upload feature.
- **Product Category Mapping:** Follows many-to-one category mapping philosophy. Admin can map many categories of the WooCommerce store to the single category of Lelong.
- **Synchronized Inventory and Profile Based Pricing:** Inventory Synchronization at regular intervals. A product listing is established between WooCommerce and Lelong. Profile-based price increase or decrease.

## 2. Lelong Configuration Settings

Once the extension is successfully installed in the WooCommerce store, the **Lelong** menu appears on the left navigation bar of its Admin Panel. The merchant has to first create a seller account in the **Lelong** seller panel. Once the seller account is created and is approved by **Lelong**, the store owners receive **Lelong API credentials from Lelong**. Hence, the store owners can use the **Lelong API credentials** while setting up the extension Configuration settings in the **WooCommerce store Admin** panel.

**To set up the configuration settings in the WooCommerce Admin panel**

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Lelong** menu.  
The menu appears as shown in the following figure:

The **Lelong CONFIGURATION** page appears as shown in the following figure:

 A screenshot of the 'LELONG CONFIGURATION' page. The page has a dark blue header with the title 'LELONG CONFIGURATION'. Below the header, there are two input fields. The first is labeled 'Enter Your lelong User ID' and the second is labeled 'Enter Your lelong App Key'. Below these fields, there is a 'Save Credentials' button. The entire form area is set against a light grey background.

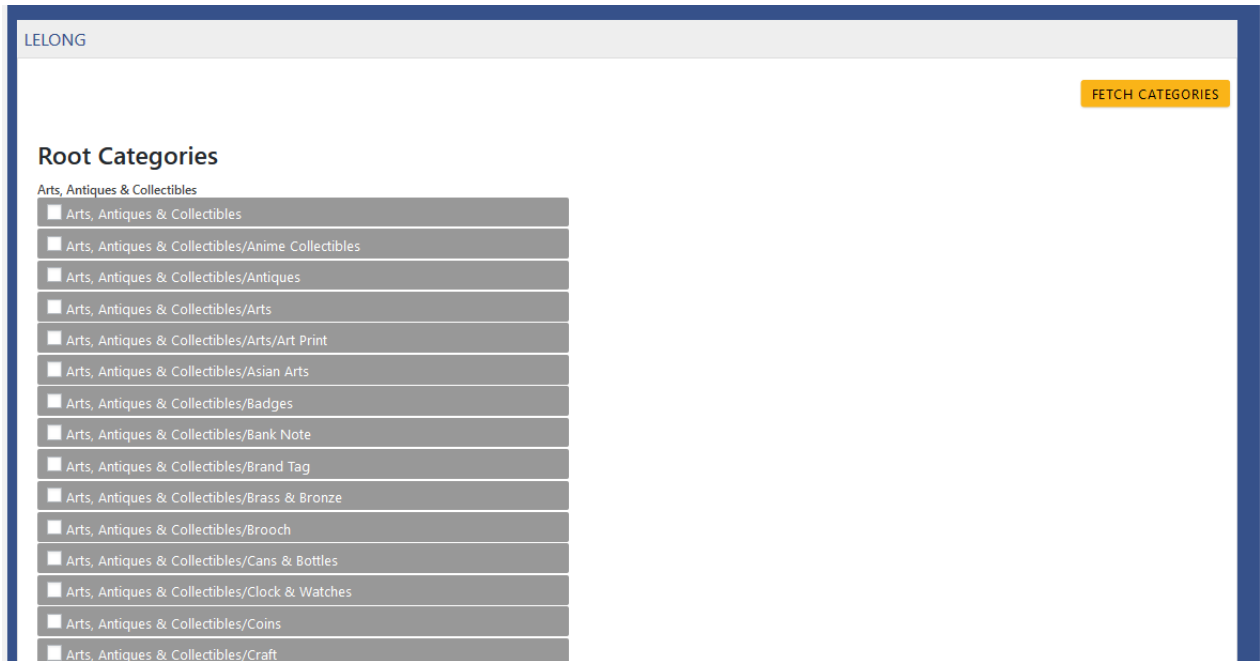

3. In the **Lelong User Id** box, enter the Lelong Seller Account user id.
4. In the **Lelong Api Key** box, enter the key value provided by the Lelong Support.
5. Click the **SAVE CREDENTIALS** button.  
The credentials are saved.

### 3. Category Mapping

The **CATEGORY MAPPING** page lists all the Lelong categories. Admin has to select the Lelong categories to which the products need to be assigned.

**To select the required categories for mapping**

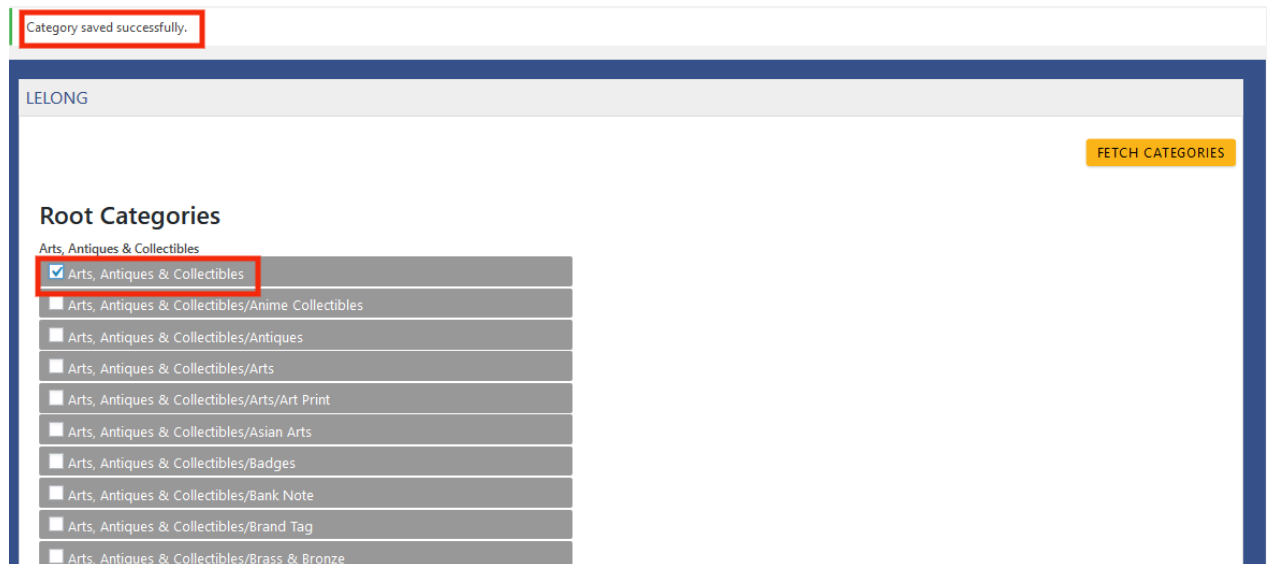

1. Go to the WooCommerce Admin panel.
2. On the left navigation bar, click the Lelong menu.
3. In the right panel, click the **CATEGORY MAPPING** tab.  
The page appears as shown in the following figure:

4. Click the **FETCH CATEGORIES** button to fetch all the categories from lelong.my
5. Under **Root Categories**, click the required category.

Next level categories list appears. Click the required category.

**Note:** Keep clicking every next level required categories until the last level categories list and the corresponding checkboxes appear as shown in the following figure:

6. Select the check boxes associated with the required categories.  
The selected categories are saved and a success message appears on the page as highlighted in the figure.

## 4. Manage Profile

Profile-based product uploading provides the admin a facility to create a group of the required products those have common meta-keys, and then upload those products at one go through uploading that profile (created group). In other words, admin can create a new profile and assign it to the group of those products, and then upload the profile on Lelong. It saves the time of making the same changes in each meta-keys of each and every product.

It means, rather than making the changes in the common meta-keys of each and every product, admin can create a profile and assign it to all the products having common meta-keys, and thus make the changes in the meta-keys available on the profile page.

While creating and editing the profile, admin can select the product and the corresponding meta-keys. These meta-keys are applicable to all the products that are assigned to the profile.

***Admin can do the following tasks:***

- Add new profile
- Edit the existing profile
- Delete the profiles

## 4.1. Add new profile

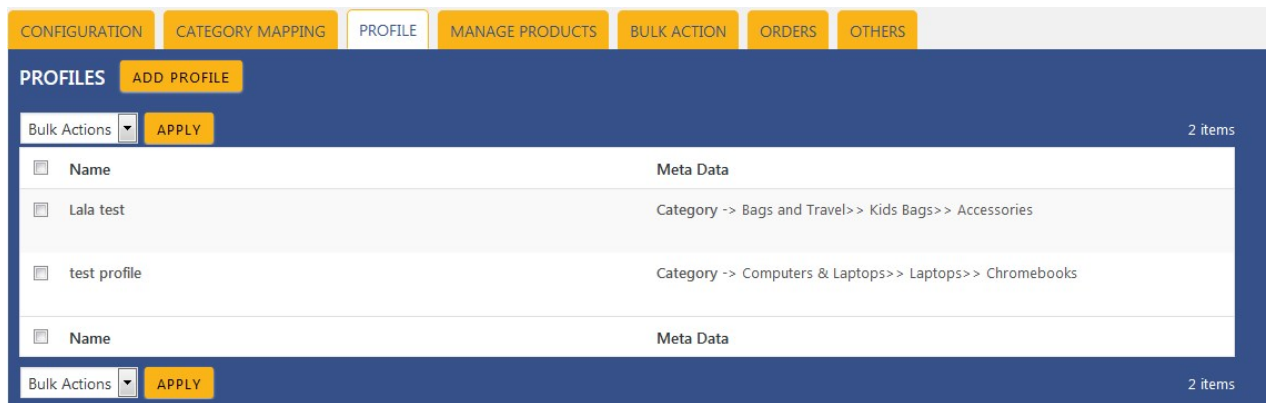

***To add a new profile***

1. Go to the **WooCommerce Admin** panel.
