1. Overview

As ecommerce is increasing and growing day by day in Singapore, so the Qoo10 is one of the best marketplaces or you can say it is the home in Singapore for your every need, every want, every day. It operates the online marketplaces across Singapore, Indonesia, Malaysia, Hong Kong, China and also on international marketplaces.

With more than 7.13 million daily visits, it has built a much stronger and diversified by a variety of countries and geographical regions.

WooCommerce Qoo10 Integration offers API integration extension solution that allows the WooCommerce owners or sellers to make a connection between their online shops and Qoo10.sg

Essentially, it is an establishment of a real-time channel to feed product critical data directly to Qoo10.sg through API Communication.

CedCommerce helps in Uploading Products and providing expert training to make you familiar with navigation and operation. Also, it offers expert advice and support for the hassle-free operation, better product discover-ability, and higher sales.

This plug-in provides the facility to integrate the WooCommerce store with the Qoo10 marketplace and automates the ordering process and establishes synchronization of products, orders, and refunds with the help of Qoo10 API.

With the help of this plug-in, the merchant can configure the desired product category into WooCommerce for automatic submission of the selected product to the same Category on Qoo10. The process enables the merchant to configure the desired product category into WooCommerce for automatic submission of the selected product to the same Category on Qoo10.

Features of the extension are as follows:

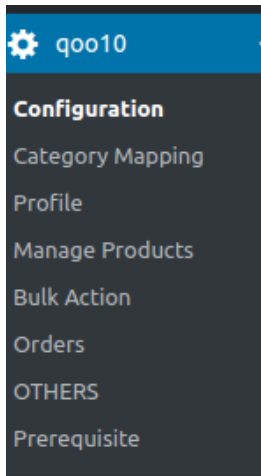

- **Profile-based Product Upload:** Enables the admin to create the Profiles and assign it to the products to automate the product upload.
- **Creation of WooCommerce Orders:** The newly placed orders on the Qoo10 Web site are automatically created in the WooCommerce store with all the required details as it is on the Qoo10 Web site.
- **Synchronized Product Editing:** Besides adding the products, any product information changes made on the WooCommerce store reflects on the Qoo10.
- **Bulk Upload System:** The merchant has the flexibility to upload any number of products on the Qoo10 Web site using bulk product upload feature.
- **Product Category Mapping:** Follows many-to-one category mapping philosophy. Admin can map many categories of the WooCommerce store to the single category of Qoo10.
- **Synchronized Inventory and Profile Based Pricing:** Inventory Synchronization at regular intervals. A product listing is established between WooCommerce and Qoo10. Profile-based price increase or decrease.

2. Qoo10 Configuration Settings

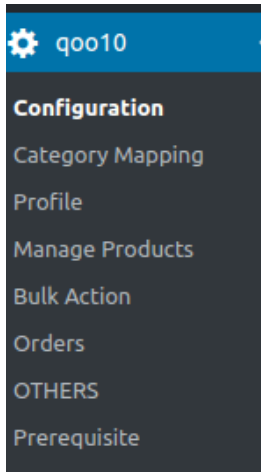

Once you have successfully installed this extension in the WooCommerce store, the **Qoo10** menu appears on the left navigation bar of its Admin Panel. The merchant has to first create a seller account in the Qoo10 seller dashboard. Once the seller account is built and is approved by Qoo10, the store owners will receive Qoo10 **API credentials from Qoo10. Now, the store owners** can use the Qoo10 **API credentials provided by Qoo10** while setting up the Qoo10 Configuration settings in the **WooCommerce store Admin** panel.

For setting up the configuration settings in the WooCommerce Admin panel

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Qoo10** menu.
The menu appears as shown in the following figure:

3. Click **Configuration**.
The menu moves to the left navigation bar, below Qoo10 as shown in the following figure:

The **Qoo10 CONFIGURATION** page appears as shown in the following figure:

QOO10 CONFIGURATION

It is a step wise procedure.

Step-1 First you need to choose country from given dropdown and click on save and Authorize credential button and you will be redirect to a page where you have to login with correct credentials and after that you will be redirect back to here.

choose country	Singapore ▾
User ID	<input type="text"/>
Shop Name	<input type="text"/>
Password	<input type="text"/>
Certification Key	<input type="text"/>
Save & Authorize your Details	SAVE & AUTHORIZE CREDENTIALS

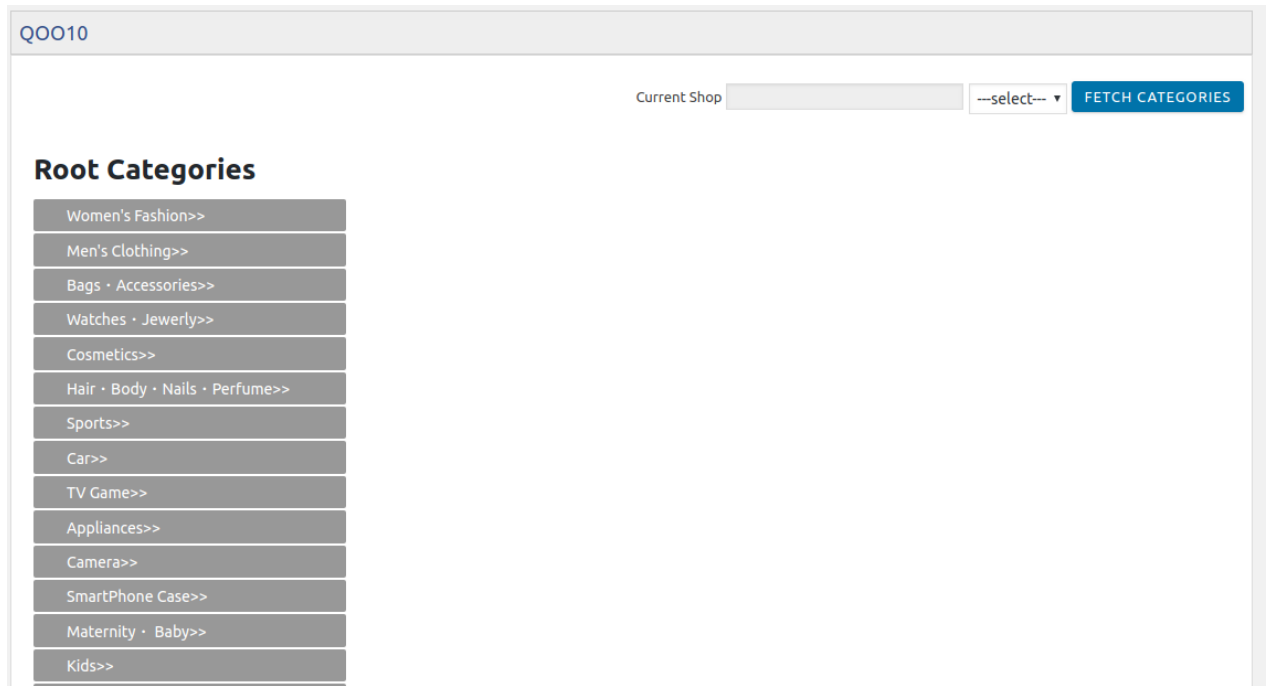

4. In the Choose your Country list, select the required country.
 5. In the **Qoo10 User Id** box, enter the Qoo10 Seller Account user id.
 6. In the **Qoo10 shop name box**, enter the shop name of Qoo10.
 7. In the **Password box**, enter the password.
 8. In the **Certification Key** box, enter the key value provided by the Qoo10 Support.
 9. Click the **SAVE and Authorize CREDENTIALS** button.
- The credentials are saved.

3. Category Mapping

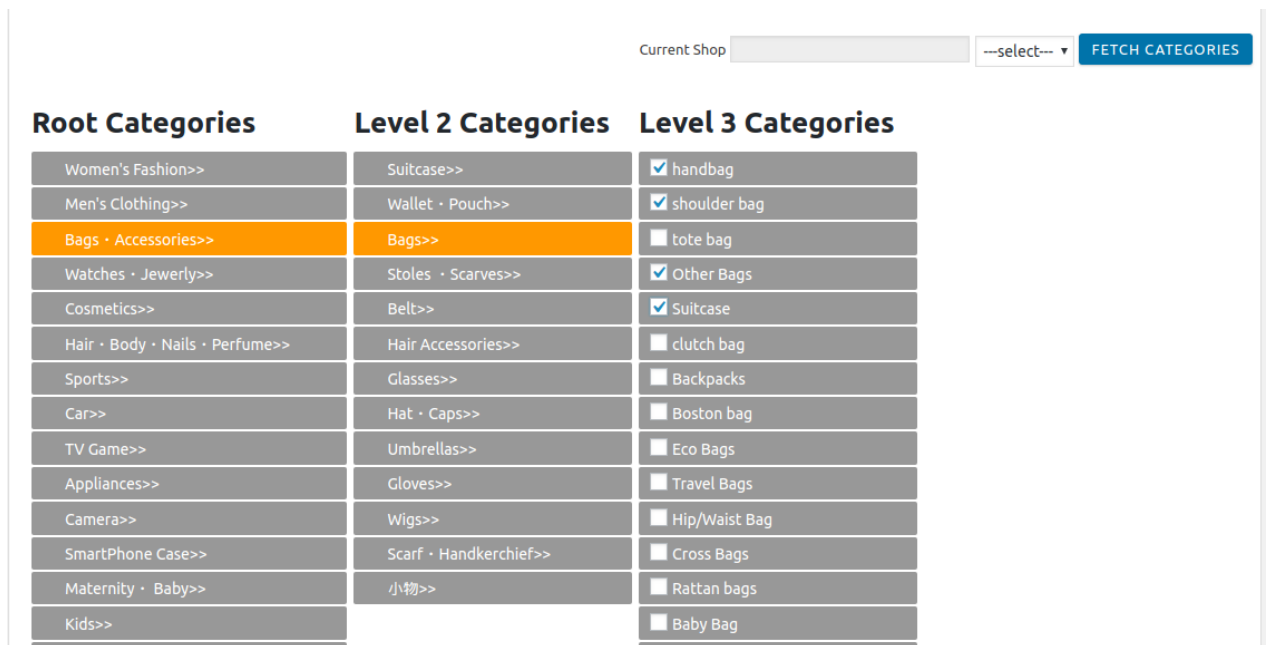

The **CATEGORY MAPPING** page lists all the Qoo10 categories. Admin has to select the Qoo10 categories to which the products need to be assigned.

For selecting the required categories for mapping

1. Go to the WooCommerce Admin panel.
 2. On the left navigation bar, click the **Qoo10** menu.
 3. In the right panel, click the **CATEGORY MAPPING** tab.
- The page appears as shown in the following figure:

4. Click the **FETCH CATEGORIES** button to fetch all the categories from **Qoo10.sg**.
5. Under **Root Categories**, click the required category.
Next level categories list appears. Click the required category.
Note: Keep clicking every next level required categories until the last level categories list and the corresponding checkboxes appear as shown in the following figure:

6. Select the check boxes associated with the required categories.
The selected categories are saved and a success message appears on the page.

4. Manage Profiles

Profile-based product uploading provides the admin with a facility to create a group of the required products that have common meta-keys, and then upload those products at one go through uploading that profile (created group). In other words, admin can create a new profile and assign it to the group of those products, and then upload the profile on Qoo10. It saves the time of making the same changes in each meta-keys of each and every product.

It means, rather than making the changes in the common meta-keys of each and every product, admin can create a profile and assign it to all the products having common meta-keys, and thus make the changes in the meta-keys available on the profile page.

While creating and editing the profile, admin can select the product and the corresponding meta-keys. These meta-keys are applicable to all the products that are assigned to the profile.

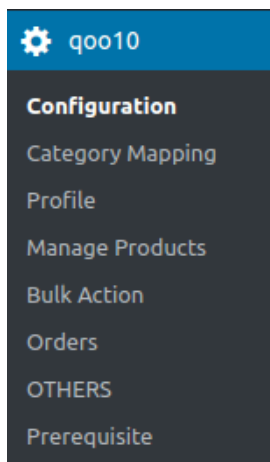

Admin can do the following tasks:

- Add new profile(<https://docs.cedcommerce.com/woocommerce/woocommerce-lazada-integration-guide/woocommerce-lazada-integration-user-guide/?section=add-a-new-profile-26>)
- Edit the existing profile(<https://docs.cedcommerce.com/woocommerce/woocommerce-lazada-integration-guide/woocommerce-lazada-integration-user-guide/?section=edit-the-existing-profile-36>)
- Delete the profiles(<https://docs.cedcommerce.com/woocommerce/woocommerce-lazada-integration-guide/woocommerce-lazada-integration-user-guide/?section=delete-the-profiles-17>)

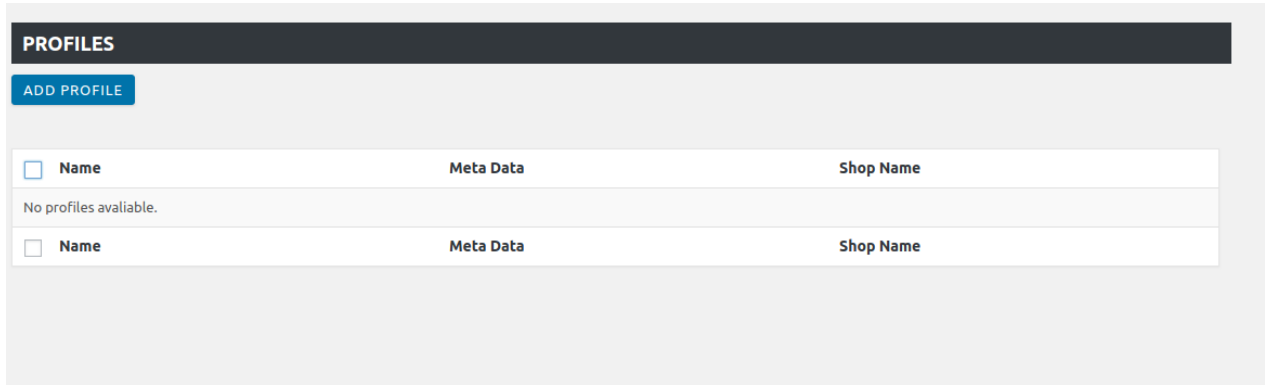

5. Add a new profile

For adding a new profile

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Qoo10** menu.
A Submenu appears below the Qoo10 menu as shown in the following figure:

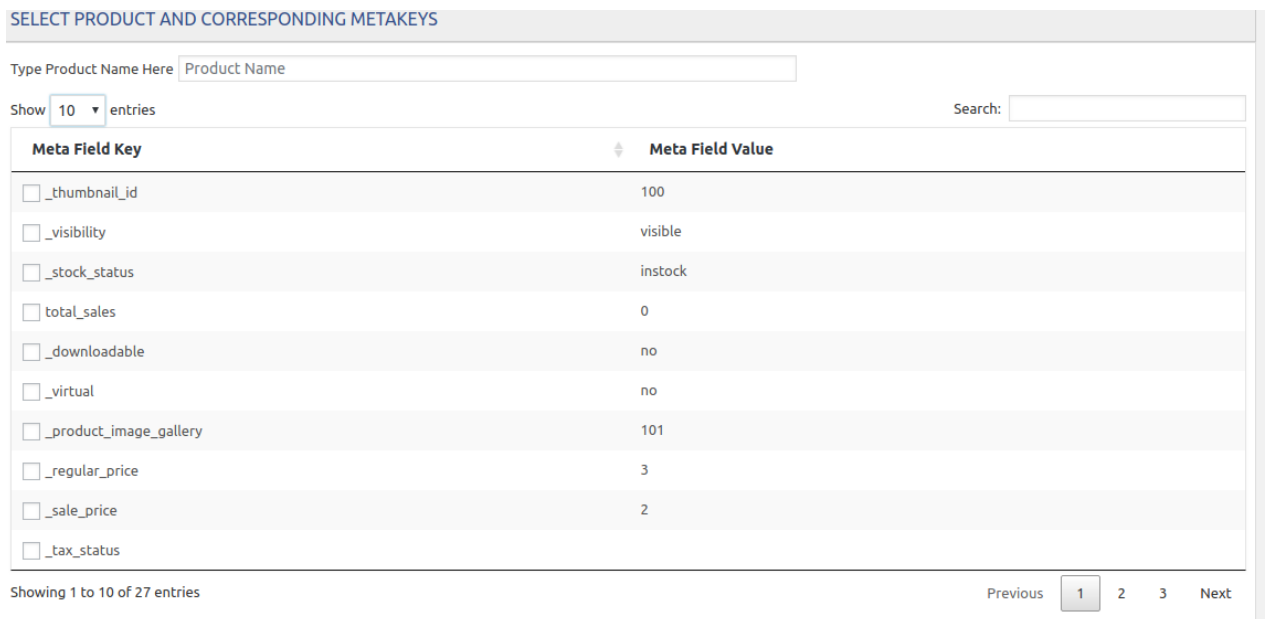

3. Click **Profile**.
OR
In the right panel, click the **PROFILE** tab.
The **PROFILES** page appears as shown in the following figure:

- Click the **ADD PROFILE** button.
The page appears as shown in the following figure:

- Note:** Click the **INSTRUCTION TO USE** tab, to view the instruction.
- Click the **SELECT PRODUCT AND CORRESPONDING METAKEYS** tab.
The section appears as shown in the following figure:

- In the **Type Product Name Here** box, enter the required product name to get the attributes of the entered product **name**.

Note: Enter the initial of the product and a list appears. Select the required one from the list.

7. In the **Meta Field Key** column, select the check boxes associated with the required meta-keys.
8. Scroll down to the **PROFILE INFORMATION** tab, and then click the tab.

The section appears as shown in the following figure:

9. **Following two tabs appear:**

- BASIC
- ADVANCE

10. Under **BASIC**, do the following steps:

- In the **Profile Name** box, enter the name of the profile.

11. Click the **ADVANCE** tab.

The page appears as shown in the following figure:

12. In the **Manufacture Number**, select the required value.

13. In the **Brand**, select the required value.

14. In the **Adult YN**, select the required value.

15. In the **Shipping Number**, select the required value.

16. In **Seller Code**, select the required value.

17. In the **Industrial Code**, select the required value.

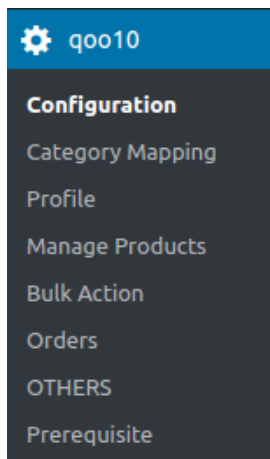

18. In **Production Place type**, select the required value.

19. In **Product Place**, select the required product place.
20. In the **Contact Number**, select the required contact number.
21. In **Retail Price**, select the required price.
22. In the **Store**, select the required store.
23. In the **Qoo10 category**, select the required category.

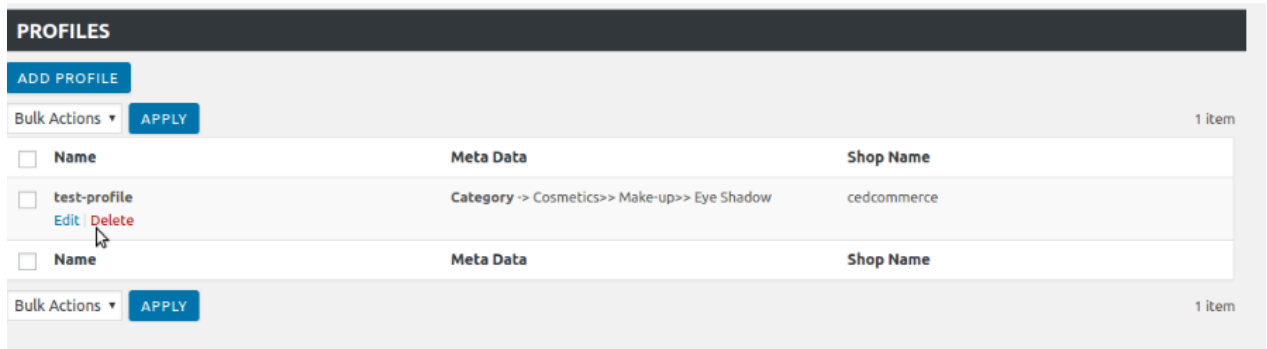

6. Edit Existing Profile

For editing the existing profile

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Qoo10** menu.
A Submenu appears below the qoo10 menu as shown in the following figure:

3. Click **Profile**.
OR
In the right panel, click the **PROFILE** tab.
The page appears as shown in the following figure:

4. Move the cursor over the required profile to edit. The **Edit** and the **Delete** links appear as shown in the figure.
5. Click the **Edit** link. The page appears as shown in the following figure:

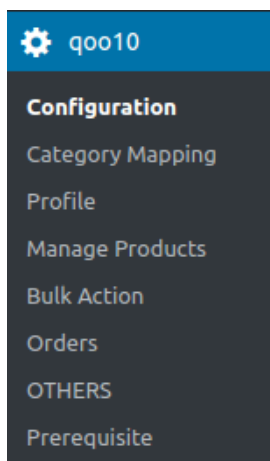

6. Click the **SELECT PRODUCT AND CORRESPONDING METAKEYS** tab, the **PROFILE INFORMATION** tab, and/ or the **Qoo10** tab as per the requirement.
7. Make the changes in the required section, and then click the **SAVE PROFILE** button.

7. Delete the Profiles

For deleting the single profile

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Qoo10** menu. A Submenu appears below the qoo10 menu as shown in the following figure:

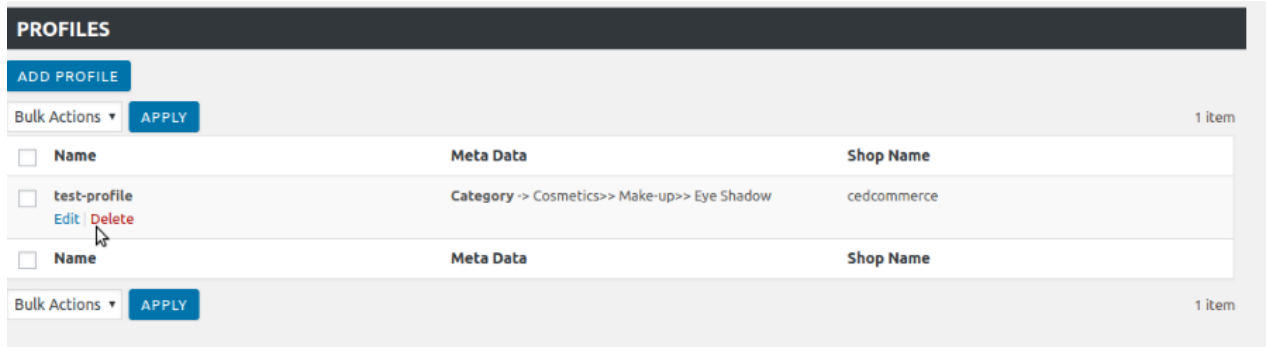

3. Click **Profile**.

OR

In the right panel, click the **PROFILE** tab.

The page appears as shown in the following figure:

4. Move the cursor over the profile that is no more required and needs to be deleted.

The **Edit** and the **Delete** links appear as shown in the figure.

5. Click the **Delete** link.

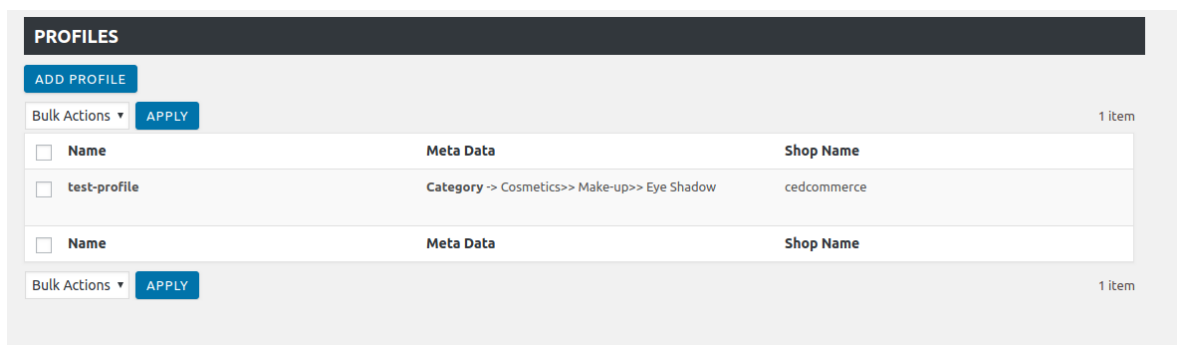

The profile is deleted.

Admin can also delete more than one profiles in bulk through the **Bulk Action**.

For deleting the selected profiles in bulk

- a. Go to the WooCommerce Admin panel.
- b. On the left navigation bar, click the **Qoo10** menu.
- c. In the right panel, click the **PROFILE** tab.

The page appears as shown in the following figure:

d. Select the check boxes associated with the required profiles.

e. In the **Bulk Actions** list, select **Delete**.

- f. Click the **Apply** button.
A confirmation dialog box appears.
- g. Click the **OK** button.
The selected profiles are deleted.

8. Manage Products

Admin can view all the products details such as the assigned profile name, product selling price, and the product inventory.

Admin can edit the product meta-keys and assign the profile to the products. Also, admin can upload the selected products to the Qoo10 marketplace.

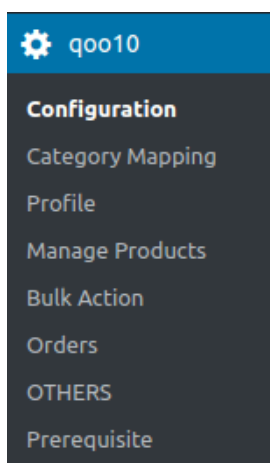

Thus, admin can perform the following tasks:

- Upload the selected products(<https://docs.cedcommerce.com/woocommerce/woocommerce-lazada-integration-guide/woocommerce-lazada-integration-user-guide/?section=upload-the-selected-products-4>)
- Assign the profile to the product(<https://docs.cedcommerce.com/woocommerce/woocommerce-lazada-integration-guide/woocommerce-lazada-integration-user-guide/?section=assign-the-profile-to-the-product-4>)
- Remove the assignment of the profile(<https://docs.cedcommerce.com/woocommerce/woocommerce-lazada-integration-guide/woocommerce-lazada-integration-user-guide/?section=remove-the-assignment-of-the-profile-10>)

9. Upload the Selected Products

For uploading the selected products

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Qoo10** menu.
A Submenu appears below the qoo10 menu as shown in the following figure

3. Click **Manage Products**.
OR

In the right panel, click the **MANAGE PRODUCTS** tab.
The **MANAGE PRODUCTS** page appears as shown in the following figure:

Image	Name	Profile	Selling Price	Inventory	qoo10 Status
<input checked="" type="checkbox"/>	Woo Single #2	Not Assigned	£2.00	0	Not Uploaded
<input checked="" type="checkbox"/>	Woo Album #4	Not Assigned	£9.00	0	Not Uploaded
<input type="checkbox"/>	Woo Single #1	Not Assigned	£3.00	0	Not Uploaded
<input type="checkbox"/>	Woo Album #3	Not Assigned	£9.00	0	Not Uploaded

4. Select the check boxes associated with the required products to upload.
5. Click the **Arrow** button next to the **Bulk Actions** field, click **Upload**, and then click the **Apply** button.
The selected products are uploaded and a success message appears on the page.
Note: In the **Add to Upload Queue** column, select the check boxes associated with the required products to queue up the product to upload them again if required.

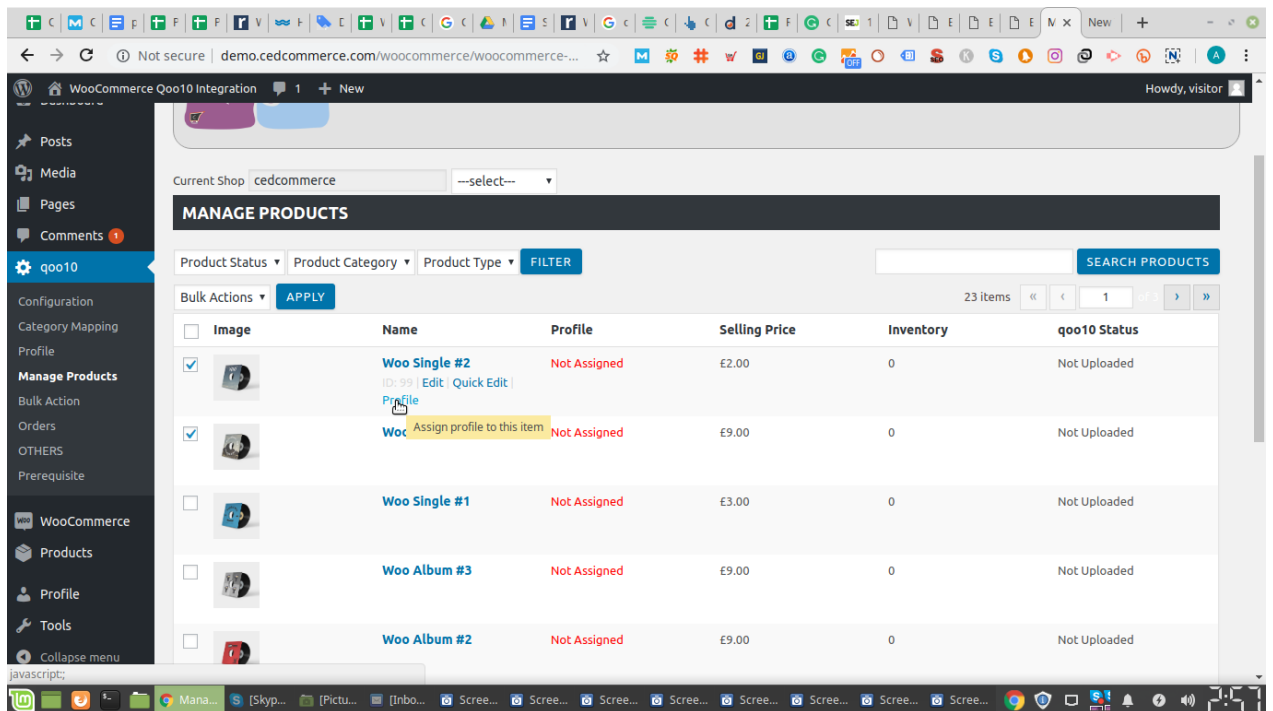

10. Assign the Profile to the Product

For assigning the profile to the product

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Qoo10** menu.
A Submenu appears below the qoo10 menu as shown in the following figure:

3. Click **Manage Products**.
OR
