1. Overview

Fnac Integration for Magento 2 store is an amazing API integration that helps Magento® 2 store owners to synchronize inventory, price, and other product details for product creation and management between Magento® 2 stores and the Fnac marketplace.

This extension interacts with the Fnac marketplace to integrate the synchronized product listing between Magento® 2 stores and Fnac retailers. After the installation, the merchant can create Fnac categories and the dependent attributes on the Magento® 2 store.

It enables admin to perform product related task such as product upload and product view using bulk management system.

With the help of this extension, the store owners can create a profile in which they can assign the products and then can upload to Fnac. It enables the Magento store owner to manage the Fnac orders on the Magento stores without making any significant changes in the operational functionalities.

You can boost up your business at Fnac by integrating your store as it interacts with the Fnac APIs to connect your Magento store to the Fnac marketplace and thus, you have the opportunity to cover a wide range of customers.

The Magento® 2 store owners can boost their business at Fnac by integrating their store as it interacts with the Fnac APIs to connect their Magento store to the Fnac marketplace and thus, they have the opportunity to cover a wide range of customers.

Key features are as follows:

- **Cron:** Cron jobs automate the process to fetch the Fnac orders from the Fnac marketplace to the Magento® of customers.
- **Debug Mode:** Provides easy debug process for a hassle-free product upload to the Fnac marketplace.
- **Product Category Mapping:** Follow many to one category mapping methodology. Admin can map many categories of Magento® 2 stores to a single category of Fnac.
- **Profile Based Products Upload:** Admin can create a profile and after assigning the products to the profile can easily upload on Fnac.
- **Simple & Configurable Product Upload:** It enables admin to upload both simple & configurable type of product on Fnac.
- **Auto Acknowledgement of Order:** Admin receives an acknowledgment of Orders automatically as soon as orders are created.
- **Automated Synchronization:** Auto synchronization of the product listing, order, inventory, and pricing at regular intervals is established between Magento® 2 store and Fnac.com.
- **Product Data Validation:** The extension enables the admin to validate the product information in accordance with the Fnac standard and values.
- **Low Stock Notifications:** Whenever the stock diminishes lower than the threshold, a notification is sent informing the status of the same.
- **New Order Notifications:** Whenever a new order is fetched from Fnac, the admin receives a notification.

2. Fnac Magento 2 Store Integration Extension Installation

To install the extension

1. Log in the **ftp**, and then go to Magento 2 root folder (generally present under the *public_html* folder).
2. Create a new folder named *code* under the *app* folder; under *code* folder, create a folder named *Ced*.
 - Upload or Drag and Drop *app/code/Ced/Fnac* directory.
 - After successfully uploading the directory, the extension will be installed/upgraded.
 - Now run the following upgrade command in *cmd*

```
php bin/magento setup:upgrade.
```

```
php bin/magento di:compile
```

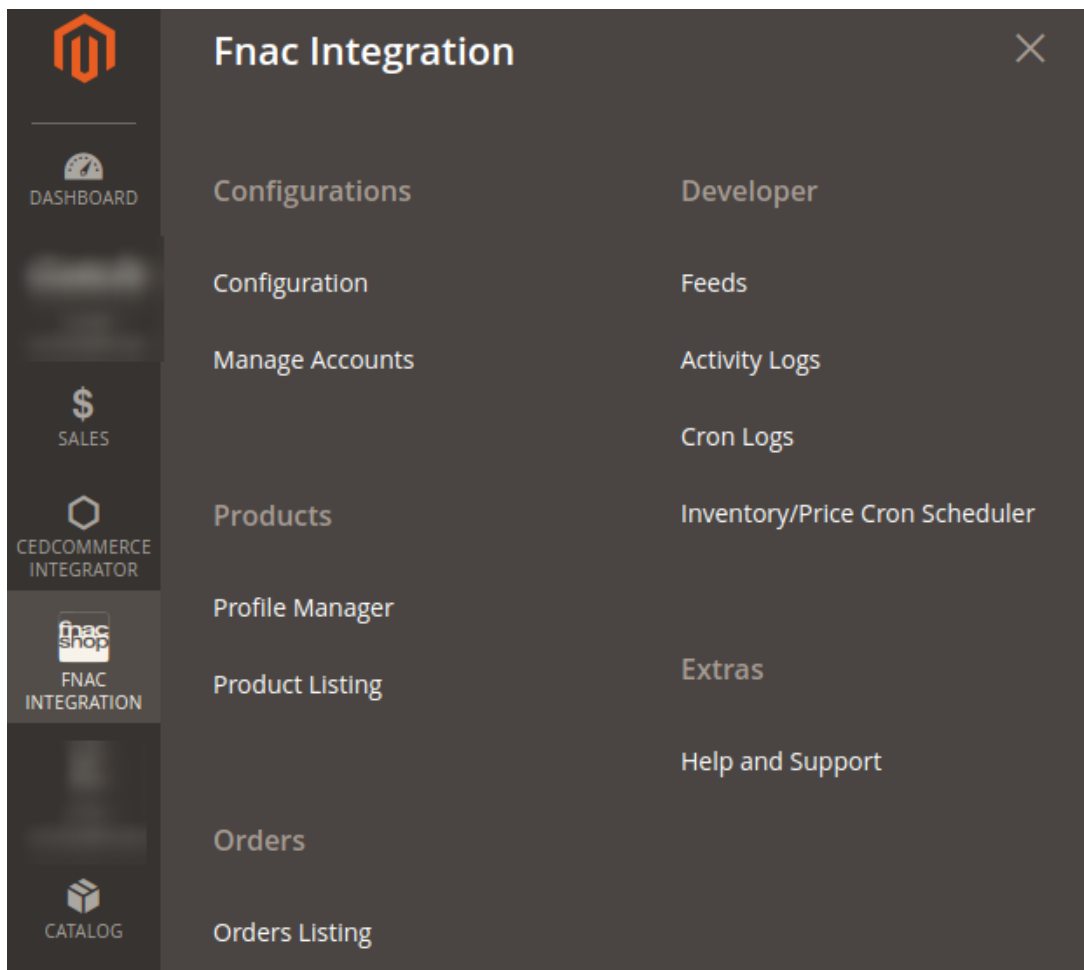

```
php bin/magento setup:static-content:deploy
```

3. Fnac Integration Configuration Settings

Once the extension is successfully installed in the Magento 2 store, the **FNAC INTEGRATION** menu appears on the left navigation bar of the Magento 2 store Admin panel. The merchant has to first create a seller account in the Fnac seller panel. Once the seller account is created and is approved by Fnac, the Magento 2 store owners have to obtain the Partner Id, Shop Id Key values from the Fnac Seller account, and then the Magento® 2 store owners have to paste it in the respective fields displayed on the **Fnac Configuration** page of the admin panel.

To set up the configuration settings in the Magento 2 Admin panel

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **FNAC INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Configuration**.
The **Configuration** page appears as shown in the following figure:

Configuration

 admin

Store View: Default Config 

Save Config

CEDCOMMERCE 

- General Setting
- Fnac Configuration**
- Installed Extensions

Fnac Seller/Developer Settings 

Fnac Product Settings 

-  **Fnac Price Settings**
-  **Fnac Inventory Settings**
-  **Other Product Settings**

Fnac Order Settings 

Order Notification Email

4. In the right panel, click the **Fnac Seller/Developer Settings** tab.
The **Fnac Settings** tab is expanded and the relevant fields appear as shown in the following figure:

Fnac Seller/Developer Settings 

Enabled [global] 

Debug Mode [global] 

5. Under **Fnac Seller/Developer Settings**, do the following:
- In the **Enabled** list, select the **Yes** option.
 - To enable the **Debug Mode**, select the **Yes** option from the dropdown.
6. Scroll down to the **Fnac Product Settings** tab, and then click the tab.
The **Fnac Product Settings** tab is expanded and the expanded section appears as shown in the following figure:

Fnac Product Settings 

 **Fnac Price Settings**

 **Fnac Inventory Settings**

 **Other Product Settings**

7. Click **Fnac Price Settings**, the section will expand as:

Fnac Product Settings

Fnac Price Settings

Product Price [global]

Select to send a different product price to Fnac

- i. In the **Product Price** list, select one of the following options:

Increase by Fixed Price: If selected, then the **Modify by Fix Price** field appears.

Increase by Fixed Percentage: If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to increase the price of the **Fnac**, product price by the entered value % of the Magento 2 store price.

For Example,

Magento 2 price + 5% of Magento 2 price.

Magento 2 Price = 100

Select **Increase By Fixed Percentage** option

Modify by Percentage Price = 5

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Fnac Product Price = 105

Decrease by Fixed Price: If selected, then the **Modify by Fix Price** field appears.

Decrease by Fixed Percentage: If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to decrease the price of the Fnac product price by the entered value % of Magento 2 price

For Example,

Magento 2 price – 5% of Magento 2 price.

Magento 2 Price = 100

Select **Decrease By Fixed Percentage** option

Modify by Fix Price = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Fnac Product Price = 95

8. Click on **Fnac Inventory Settings**, the tab gets expanded as:

Fnac Inventory Settings

Set Inventory on Basis of Threshold [global]

Choose yes to send inventory on fnac by condition

- In the **Set Inventory on Basis of Threshold** list, select the **Enable** option if required to set the inventory based on the threshold.
 - a. **Note:** Only when the admin selects **Enable**, the other fields appear. Threshold Inventory is the minimum count of an item that the store owner wants to keep in stock.

9. Now the next section is **Other Product settings**. This section will expand as:

⌵ Other Product Settings

Attributes to skip validation
[global]

These attributes will skip from configurable product validation and upload.

Merge Parent Product Images
[global]

Upload Config As Simple
[global]

- a. In **Attributes to skip validation**, select the attributes of configurable products which you want to skip during the validation.
 - b. Select **Yes**, If you want to **Merge Parent Product Images**.
 - c. Select Yes, If you want to **Upload configurable products as a simple product**.
10. Click **Fnac Order Settings** and the section will expand as:

Fnac Order Settings

Order Notification Email
[global]

Auto Accept Order
[global]

Enable Default Customer
[global]

- a. Under **Fnac Order Settings**, do the following steps:
 - `. In the **Order Notification Email** field, enter the email id on which you may get the notifications.
 - `. In the **Auto Accept Order** box, select the **Enable** option to auto accept the orders on Fnac in any case of failure such as **No Inventory**.
 - `. In the **Enable Default Customer** field, select the **Yes** option to enable the default customer.
 - i. The field appears as shown in the following figure:

Default Customer Email
[global]

ii. In the **Default Customer Email** list, select the required customer name.

b.

11. Click **Fnac Cron Settings** and the section will expand as:

5. Manage Fnac Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento 2 attributes to the Fnac attributes. These attributes are applicable to all the products that are assigned to the profile.

Admin can do the following tasks:

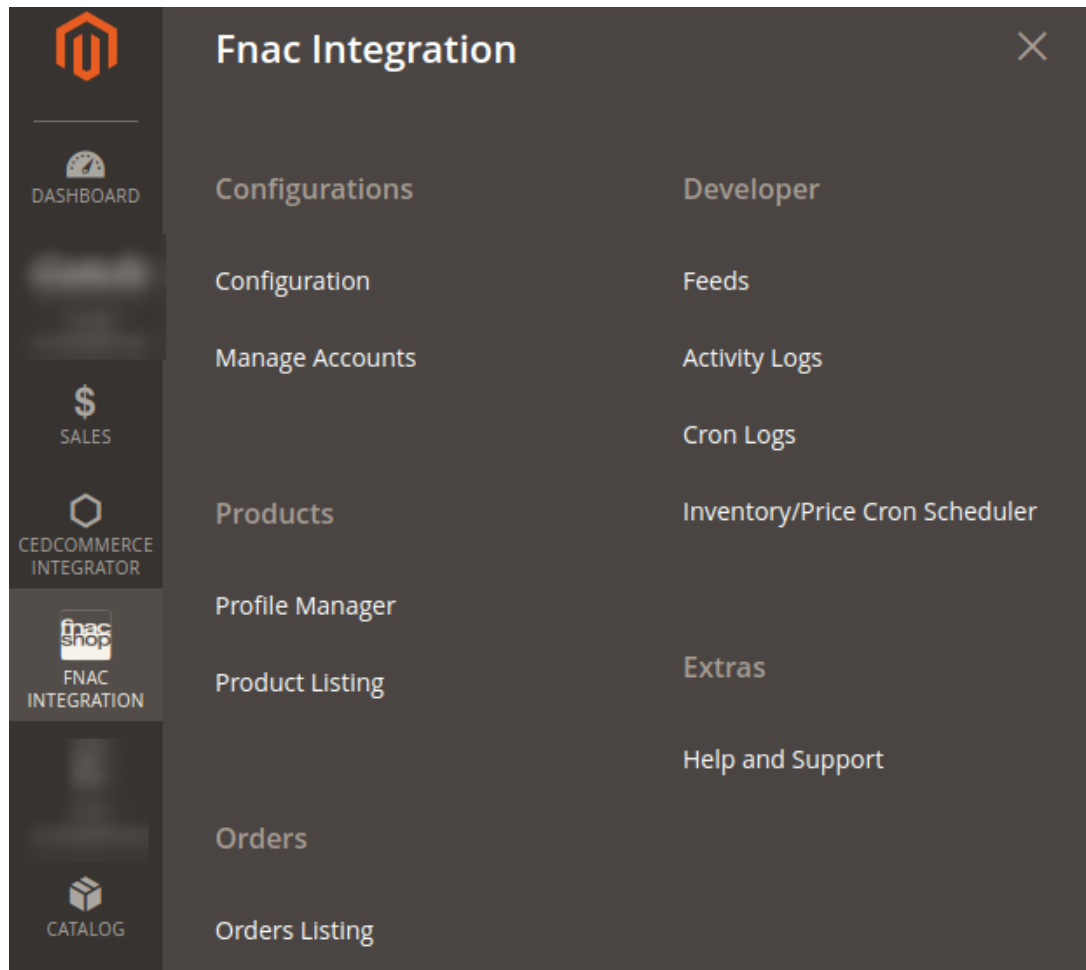

- Add(<https://docs.cedcommerce.com/magento-2/fnac-integration-for-magento-2-user-manual/fnac-integration-magento-2-user-guide-2/?section=add-a-new-profile-60>)
new profile(<https://docs.cedcommerce.com/magento-2/fnac-integration-for-magento-2-user-manual/fnac-integration-magento-2-user-guide-2/?section=add-a-new-profile-60>)
- Edit the existing profile(<https://docs.cedcommerce.com/magento-2/fnac-integration-for-magento-2-user-manual/fnac-integration-magento-2-user-guide-2/?section=edit-the-existing-profile-81>)
- Deleting profiles(<https://docs.cedcommerce.com/magento-2/fnac-integration-for-magento-2-user-manual/fnac-integration-magento-2-user-guide-2/?section=delete-the-profiles-32>)
- Bulk Action on the Selected Profiles(<https://docs.cedcommerce.com/magento-2/fnac-integration-for-magento-2-user-manual/fnac-integration-magento-2-user-guide-2/?section=submit-bulk-action-on-the-selected-profiles-12>)

5.1. Add a New Profile

To add a new profile

1. Go to the **Magento 2 Store Admin**

2. On the left navigation bar, click the **FNAC INTEGRATION**
A menu appears as shown in the following figure:

3. Click **Profile Manager**.
The **Manage Profile** page appears as shown in the following figure:

5. Select **Enable** or **Disable**.
6. Selected profiles get enabled or disabled and a message appears as on top of the page as shown below.
Also, under the **Status** column, the status gets changed.

6. Fnac Product Listing

On this page, admin can view, edit, and validate the individual product. Also, the admin can view the error message if any error exists in any product details. After uploading the product on Fnac or after updating the product inventory or the product price, the user can check the status of the feed. Also, the admin can view the feed error if any. The admin can submit certain actions on the selected products available on the **Fnac Product Listing** page.

This section covers the following topics:

- Edit the Fnac Products(<https://docs.cedcommerce.com/magento-2/fnac-integration-for-magento-2-user-manual/fnac-integration-magento-2-user-guide-2/?section=edit-the-amazon-products-4>)
- Submit Bulk Action on the Selected Products(<https://docs.cedcommerce.com/magento-2/fnac-integration-f-or-magento-2-user-manual/fnac-integration-magento-2-user-guide-2/?section=submit-bulk-action-on-the-selected-products-10>)

6.1. Edit the Fnac Products

To edit the Fnac product details

1. Go to the **Magento 2 Store Admin** panel.
2. On the left navigation bar, click the **FNAC INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Products Listings**.

The **Fnac Products Listing** page appears as shown in the following figure:

4. Click the **Import Orders** button.

If the order is imported successfully then, a new record is found in the Orders Grid table as shown in the figure.

Notes:

- Orders are automatically imported through CRON in every 10 minutes.
- Whenever the latest orders are imported from Fnac, a Notification appears in the notification area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported in the Magento 2 store admin panel.
- Order is auto-rejected on Fnac in the following conditions:
 - When Fnac Product SKU does not exist in Magento 2 store.
 - When Product is Out of Stock in Magento 2 store.
 - When a product is disabled in Magento 2 store.

5. To View the **Fnac order**, do the following steps:

- Scroll down to the required order row.
- In Actions column of the respective row, click the **View** icon.
