1. Overview

Newegg B2B Integration for Magento store is an extension, developed by CedCommerce(<https://www.newegg.com/sellers/index.php/integration-providers/#Ced>) helps to integrate the Magento store with Newegg B2B by establishing a synchronization of products and orders with Newegg B2B API.

The CRONs implemented in this extension help to automate the process thereby keeping it up to date.

This extension interacts with Newegg B2B Marketplace to integrate the synchronized product listing between the Magento store and the Newegg B2B retailers. After installing the extension, the merchant can map with multiple Newegg B2B Categories and the dependent attributes on the Newegg B2B store.

The process enables the merchant to configure the desired product category into a Magento store for automatic submission of the selected product to the same Category on Newegg B2B.

The features of the Newegg B2B Integration with Magento store extension are as follows:

- Profile Based Product Upload
It allows you to Create a particular profile and Upload Products on the basis of the profile
- Easy Newegg B2B Category and Attribute mapping
Choose among multiple categories and map attributes on the basis of categories Selected
- Manage Newegg B2B Product and Upload Product (directly from the grid and bulk upload all products)
- Debug Mode Enables you to Check the feeds corresponding to every SKU Updated
- Automated Order Import.
This works on the basis of Crons(Automated Programs)
- Shipment and Cancellation of Orders
Ship/Cancel Your orders In one Click
- Automated Shipment with Shipworks/Shipstation
Our Extension is completely compatible with Shipworks/Shipstation
- Multiple Shipment of an Order
Ship Multiple orders from Magento store itself
- Upload Simple and Configurable Product(s)
You can upload simple and configurable both type of products along with proper attributes
- Bulk Product Upload/Publish
This Feature allows you to upload products in a bulk
- Activate/Deactivate Selected Product(s)
With, this You can Select and Deactivate products as you need
- CRON Facility
Crons are working for Order, Inventory, Price Auto-sync
- Knowledge Base

Caution

: Extension is heavily dependent on Crons for running various automated processes. So, make sure that Cron Job is properly configured and working on the server.

2. Installation of Newegg B2B extension

To install the extension.

1. To install the extension, Go to the system and select the drop down as shown in the below figure.

- Select the Magento Connect
 - Go to the Magento Connect Manager.

You will get the screen as shown in the following image.

The screenshot shows the Magento Connect Manager interface. At the top, there is a dark blue header with the text "Magentoconnect MANAGER". Below the header, there are two tabs: "Extensions" and "Settings". To the right of the tabs, there are two links: "Return to Admin" and "Log Out".

The "Settings" section is active and contains the following options:

- Put store on the maintenance mode while installing/upgrading/backup creation
- Create Backup Database

The "Install New Extensions" section contains the following steps:

- 1 Search for modules via [Magento Connect](#).
- 2 Paste extension key to install:

The "Direct package file upload" section contains the following steps:

- 1 Download or build package file.
- 2 Upload package file: No file chosen

The "Manage Existing Extensions" section is visible at the bottom, with a button.

- Click on the button **Choose File** to select the file from your local drive.
- After selecting the file, Click on the upload.
- After the installation, a successful message will be displayed on the upper side of the screen.

To **disable** or **enable** the product, scroll down the screen and you will get the screen as given in the below figure.

[Commit Changes](#)

- Select that particular extension
 - Go to the actions, and select the options **uninstall**, to uninstall the extension.
 - Click on the button **Commit Changes**. To save the changes.

3. Newegg B2B Configuration Settings

Once the extension is successfully installed on the Merchant's store, Newegg B2B tab appears in the Magento Admin Panel. The merchant has to fill in the API credentials in the Newegg B2B Configuration page of the admin panel.

The user has to log in the Newegg B2B Seller account to obtain the following API credentials:

- **Seller id**
- **Secret Key**
- **Authorization Id**

The seller can get the **Seller Id** from the Merchant Panel. For **Secret key** and **Authorization Id** can be obtained through the mail from Newegg B2B Marketplace. Seller needs to consult with them through the mail.

*How to get the **Seller Id** from Newegg B2B seller panel.*

- Go to Merchant Panel of Newegg B2B as given in the below figure.

- Login to the seller panel
- After login, a screen will be displayed as given in the below screen.

- In the above image, you can see the **Seller Id** highlighted in the rectangular box.

To Set up the Configuration settings in the Magento store Admin panel

- Go to the Magento Admin panel.
- Click the Newegg B2B tab, as given into the following figure.

- Then click on the Configuration a page will be displayed as given in the below figure.

Fetch Other Details		

In Choose Default Payment Method for Newegg2b Orders

- You can select the default payment method according to your need.

In Store Admin Email Id,

- Enter your email Id to get the notification when an order fetched from Newegg B2B

In Enable Automated Shipment,

- Select **Yes**, to enable the automated shipment
- Select **No**, to disable the automatic shipment.

In Newegg2b Debug mode

- Select **Yes**, to debug and recognize the issues.
- Select **No**, to disable the debug mode.

In Customer Email,

- Enter the default email Id to create an order if the customer details are not available.

In Order Prefix,

- Enter the prefix in order to recognize the of NeweggB2B
 - For Eg: – NB2B (This keyword will add in your Id as Prefix)

In Enabled Order Cron,

- Select **Yes**, to enable the Order Cron.
- Select **No**, to disable the Order Cron.

In Enabled Inventory and Price Update Cron.

- Select **Yes**, to enable the Inventory and Price Cron.
- Select **No**, to disable the Inventory and Price Cron.

Click on the **Fetch Other Details**, to import the other details like Manufacturer from your seller panel.

4. Manage Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento Store attributes to the Newegg B2B attributes. These attributes are applicable to all the products that are assigned to the profile.

Admin can complete the following tasks:

- Add a new profile
- Edit the existing profile
- Delete the profile
- Submit Actions on the Manage Profile page

4.1. Add New Profile

Procedure to Add A New Profile:

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **NeweggB2B** menu. The menu appears as shown:

1. Click **Manage Profiles**. The **NeweggB2B Profile Listing** page appears as shown:

2. Click the **Add New Profile** button. The page appears as shown:

3. In the left panel, under **Profile Information**, do the following steps:
 - In the **Profile Code** box, enter the profile code. (**Note:** It is only for the internal use. Use the unique profile code with no spaces. Start with small letters.)
 - In the **Profile Name** box, enter the name of the profile. (**Note:** Use the unique name to identify the profile.)
 - In the **Status** list, select **Active** to enable the profile. (**Note:** The **Inactive** option disables the profile.)
4. Click **Profile Category Mappings** in the left side menu of the page. The section will appear in the right as:

Profile Information

- Profile Info
- NeweggB2b Category Mapping**
- Profile Products

Add NeweggB2b Profile [Back] [Reset] [Save] [Save and Continue Edit] [Save and Upload Product]

- Select the check boxes associated with the required products that you want to assign to the profile. (**Note:** Admin can assign one product to one profile only. It means, admin can assign multiple products to the same profile but can associate a product only to one profile at one time. To assign a product to another profile, the admin has to remove that product from the currently assigned profile.)
6. Click **Select All** to select all the products available in the store. (**Note:** To clear the selection, click the **Unselect All** link.)
 7. Click the **Select Visible** link to select the products displayed on the current page. (**Note:** To clear the selection, click the **Unselect Visible** link.)
 8. Click the **Save** button. The profile will be created and you will be navigated to the **NeweggB2B Profile Listing** page. A success message will appear on the page as highlighted in the image below and the newly created profile will be listed in the column.

4.2. Edit the Existing Profile

Procedure to Edit the Existing Profile:

1. Go to the **Magento Admin** panel.
 - On the top navigation bar, point to the NeweggB2B menu. The menu appears as shown.

2. Click **Manage Profiles**.
3. The **NeweggB2B Profile Listing** page appears as in the given below figure.

4.4. To manage the profile products

With the help of this feature, the admin can manage the products assigned to the specific profile. The admin can view and edit the product, validate and upload the individual product. Also, the admin can view the error message if any error exists in any product details. The admin can also submit certain actions on the selected products available on the Product Manager page.

Note: After getting redirected to the Product Manager page from the NeweggB2B Profile Listing page, the admin can view the list of only those products that are assigned to the selected profile.

To go to the Product Manager page:

1. Go to the **Magento Admin** panel.
 2. On the top navigation bar, click the NeweggB2B menu.
- The menu appears as shown:

3. Click **Manage Profiles**.
- The **NeweggB2B Profile Listing** page appears as shown:

▲ For internal use. Please use only letters (a-z), numbers (0-9) or underscore(_) in this field, first character should be a letter

Profile Name *
▲ Give some name to profile to identify them

Status *
▲ Make active to enable the profile

- Go the **Profile Products**, appears on the left side of the screen.
- All the products assigned to the selected profile are listed on this page.

5. Manage NeweggB2B Products

- The user can upload and also can edit the product information from the **Manage Products** page.

Note: If the mapped Magento category has products, only then those products are listed on the Product Manager page.

On the NeweggB2B menu, Manage Product has following two sub-menus:

- Upload Product
- Product Feeds

It appears as shown in the following figure:

5.1. Upload Product

On the Product Manager page, the user can perform the following three tasks:

- **Upload Product:** The user can upload the products that are listed on the Product Manager page, to the NeweggB2B website.
- **Edit Product Information:** Edit the information of the product that the user wants to upload on the NeweggB2B website.
- **Submit Actions:** The user can submit the respective action on the selected product before uploading it to the NeweggB2B website.

To upload product

1. Go to **Magento Admin Panel**.
2. On the **NeweggB2B** menu, point to **Manage Product**, and then click **Upload Product**.
The **Product Manager** page appears as shown in the following figure:

ID	Profile Id	Sku	Price	Cost	Margin in %	Name	Qty	Visibility	Status	Type	Newegg product Status	validate	Actions
<input checked="" type="checkbox"/>	1 6	a1	\$55.00		100	mobile i	575	Catalog, Search	Enabled	Simple Product	NOT UPLOADED	INVALID	Upload Edit

1	mobile i	Simple Product	Default	a1	\$55.00	575	Catalog, Search	Enabled	Edit

Actions on the Product Manager page

The user can submit the following actions on the selected product:

- **Validate Selected Product:** To validate the product before uploading it to the NeweggB2B website. It displays the corresponding validation error if any. If there is no error, it confirms that the product is ready to upload.
 - **Selected Product Upload:** To upload the selected products on NeweggB2B at one time in a bulk.
 - **Product Inventory & Price Update:** To update the inventory of the selected product on NeweggB2B.
 - **Product status Update:** To update the status of the product.
 - **Activate Selected Product(s):** To activate the selected products on NeweggB2B
 - **Deactivate Selected Product(s):** To deactivate the selected products on NeweggB2B
 - **Enable Default Shipment of Selected Product(s):** To assign the default shipment to the selected product.
 - **Enable free Shipment of Selected Product(s):** To assign the free shipment to the selected product.
- Just Select the product and select the product inventory and click on the **Submit** button.

5.2. Create Manufacturers

To create manufacturers:

- Go to NeweggB2B menu
- Go to Manage Products

- In the **Manage products**, Select Create Manufacturers
- The Create Manufacturers pages will be displayed as in given below image.

- Fill Manufacturer Name in the first attribute
- Fill Manufacturer Url in the second attribute
- Click on **Save** button to save it.

6. Newegg B2B Orders

On the NeweggB2B menu, NeweggB2B Orders has the following three sub-menus as shown in the following figure:

- View NeweggB2B Orders
- View NeweggB2B Failed Orders

6.1. View Newegg B2B Orders

The user can fetch and view all the order details fetched from NeweggB2B.

To view NeweggB2B Orders

1. Go to **Magento Admin Panel**.
2. On the **NeweggB2B** menu, point to **NeweggB2B Orders**, and then click **View NeweggB2B Orders**.
The **NeweggB2B Orders Details** page appears as shown in the following figure:

Order Shipped Successfully

NOTE:

***Newegg Shipping Policy**
Newegg supports you to fully or partially ship a single order, as long as the item is shipped for its entire quantity on the order. If you select a quantity to cancel, a remove item(s) from order request will be sent before shipment.

***Shipping Service Type**
Shipping service type, such as air, ground, etc. Please reference your shipping carrier directly.

- Under **Shipment Info**, enter the corresponding values in the following fields:
 - In the **Tracking Number** box, enter the tracking number.
 - Click the **Submit Shipment** button.

Notes :

- Order **Shipment** is sent to NeweggB2B.
- Order **Invoice** and **Shipment** is created automatically in Magento.
- Order **Status** changes to **Complete** on NeweggB2B.
- The **status** of order changes to **Completed** on Magento.

6.2. View Failed Imported Orders

The users can view the list of failed NeweggB2B orders on the Failed NeweggB2B Orders Import Log page.

Orders cannot be imported from NeweggB2B due to the following conditions:

- If any product in the NeweggB2B Order is Out of Stock in Magento.
- If any product in the NeweggB2B Order is disabled in Magento.
- If any Product does not exist in Magento or is deleted from Magneto after uploading on NeweggB2B.
- If the selected Payment Method in NeweggB2B System Configuration Setting is not available in Magento.

To view, NeweggB2B failed orders

- Go to **Magento Admin Panel**.
- On the **NeweggB2B** menu, point to **NeweggB2B Orders**, and then click **View NeweggB2B Failed Orders**.

The **Failed NeweggB2B Orders Import Log** page appears as shown in the following figure:
