1. Overview

Presto Mall is one of the biggest web-based business organizations built up in Malaysia, It was initially a main online business organization in South Malaysia, working under the administration of SK Planet Co., Ltd.

Presto Mall extended its activities to Malaysia to develop and grow the E-Commerce industry in the country. The Presto Mall is at present working from their fundamental office situated at Kuala Lumpur Sentral since January 2015.

According to Presto Mall, it is the first e-commerce site to introduce a section that the company dubs “Shocking Deals”, which guarantees that every item sold in the category is offered at its lowest price, which is an interesting claim to make.

Presto Mall WooCommerce Integration allows sellers/merchants to list their products on Presto Mall from existing e-commerce platform i.e. WooCommerce. The integration enables centralized catalog enabling sellers to easily get their products ready for listing on Presto Mall, and further automates inventory, pricing updates and order-notification channel.

Features of the extension are as follows:

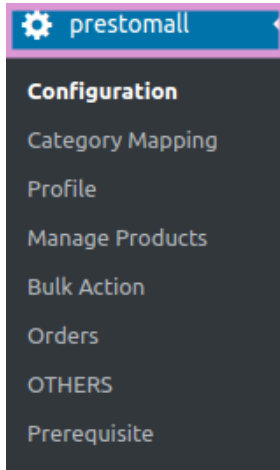

- **Profile-based Product Upload:** Enables the admin to create the Profiles and assign it to the products to automate the product upload.
- **Creation of WooCommerce Orders:** The newly placed orders on the Presto Mall Web site are automatically created in the WooCommerce store with all the required details as it is on the Presto Mall Web site.
- **Synchronized Product Editing:** Besides adding the products, any product information changes made on the WooCommerce store reflects on the Presto Mall.
- **Bulk Upload System:** The merchant has the flexibility to upload any number of products on the Presto Mall Web site using the bulk product upload feature.
- **Product Category Mapping:** Follows many-to-one category mapping philosophy. Admin can map many categories of the WooCommerce store to the single category of Presto Mall.
- **Synchronized Inventory and Profile Based Pricing:** Inventory Synchronization at regular intervals. A product listing is established between WooCommerce and Presto Mall. Profile-based price increase or decrease.

2. Configuration Setting

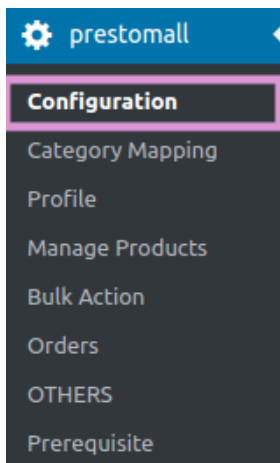

Once the extension is successfully installed in the WooCommerce store, the **Presto Mall** menu appears on the left navigation bar of its Admin Panel. The merchant has to first create a seller account in the presto mall seller panel. Once the seller account is created and is approved by presto mall, the store owners receive **Presto Mall API credentials**. Hence, the store owners can use the **Presto Mall API credentials provided by presto mall** while setting up the presto mall Configuration settings in the **WooCommerce store Admin** panel.

To set up the configuration settings in the WooCommerce admin panel

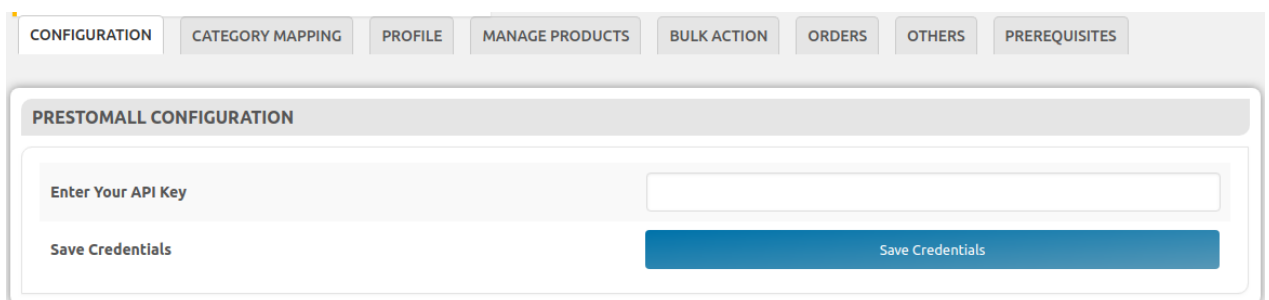

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Presto Mall** menu.
The menu appears as shown in the following figure:

3. Click **Configuration**.

The **Presto Mall CONFIGURATION** page appears as shown in the following figure:

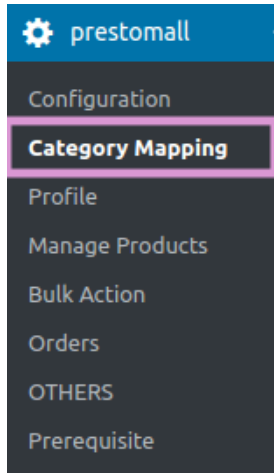

4. Just Enter the **API Key** and Click on **Save Credentials** button.
The credentials are saved.

3. Category Mapping

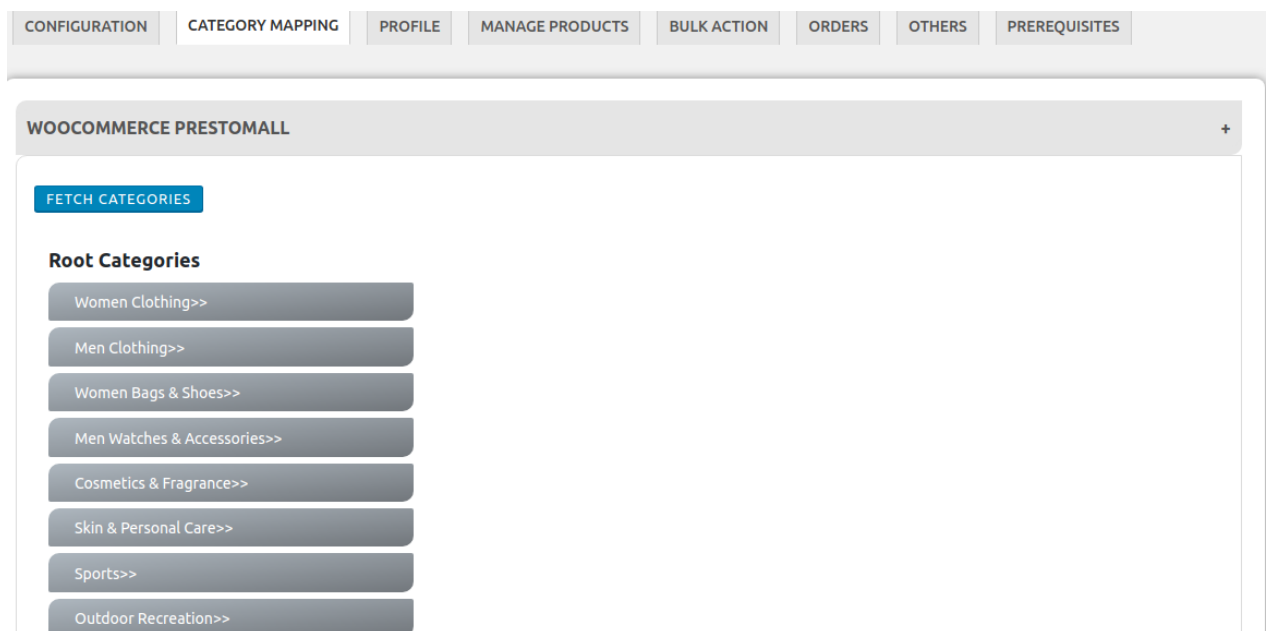

The **CATEGORY MAPPING** page lists all the **Presto Mall** categories. Admin has to select the presto mall categories to which the products need to be assigned.

To select the required categories for mapping

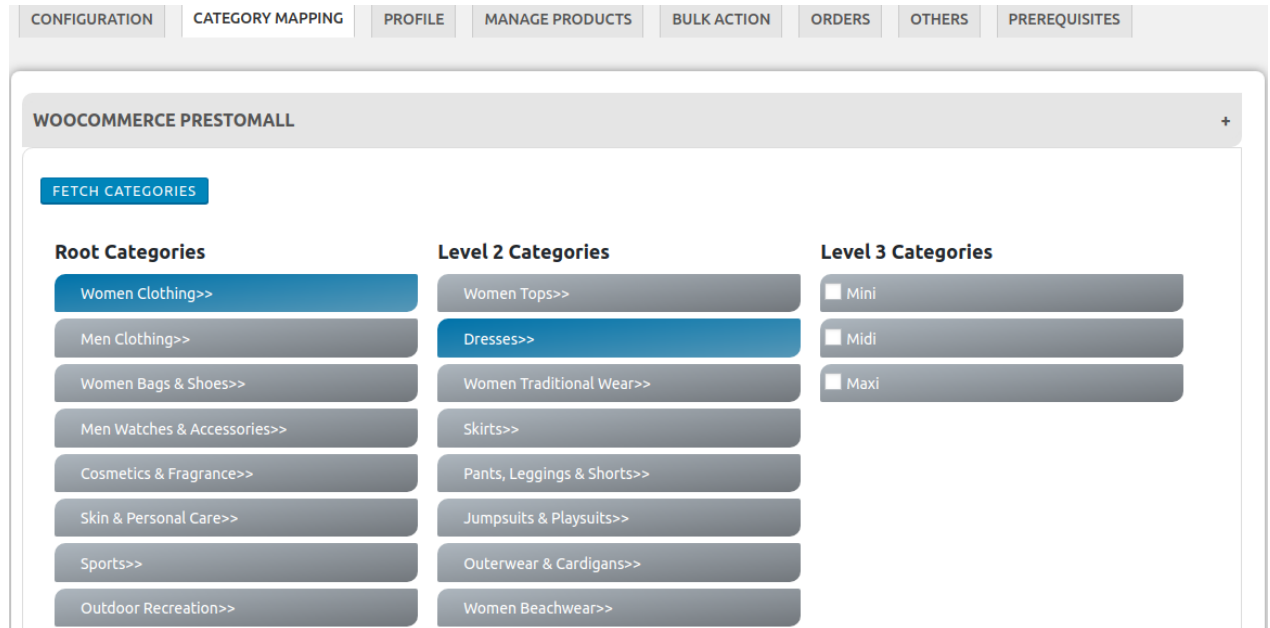

1. Go to the WooCommerce Admin panel.
2. On the left navigation bar, click the **Presto Mall** menu.
3. In the right panel, click the **CATEGORY MAPPING** tab.

4. On clicking Category Mapping, the page appears as shown in the following figure:

5. Click the **FETCH CATEGORIES** button to fetch all the categories from prestomall.com.
6. Under **Root Categories**, click the required category.
Next level categories list appears. Click the required category.
Note: Keep clicking every next level required categories until the last level categories list and the corresponding check boxes appear as shown in the following figure:

- Select the checkboxes associated with the required categories.
The selected categories are saved and a success message appears on the page as highlighted in the figure.

4. Manage Profile

Profile-based product uploading provides the admin with a facility to create a group of the required products that have common meta-keys, and then upload those products at one go through uploading that profile (created group). In other words, admin can create a new profile and assign it to the group of those products, and then upload the profile on Presto Mall. It saves the time of making the same changes in each meta-keys of each and every product.

It means, rather than making the changes in the common meta-keys of each and every product, admin can create a profile and assign it to all the products having common meta-keys, and thus make the changes in the meta-keys available on the profile page.

While creating and editing the profile, admin can select the product and the corresponding meta-keys. These meta-keys are applicable to all the products that are assigned to the profile.

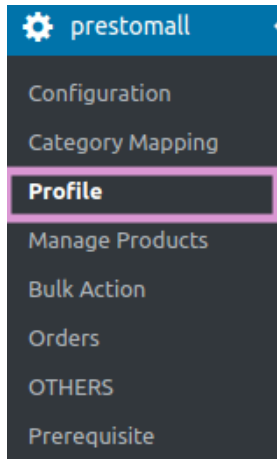

Admin can do the following tasks:

- Add new profile
- Edit the existing profile
- Delete the profiles

4.1. Add new profile

To add a new profile

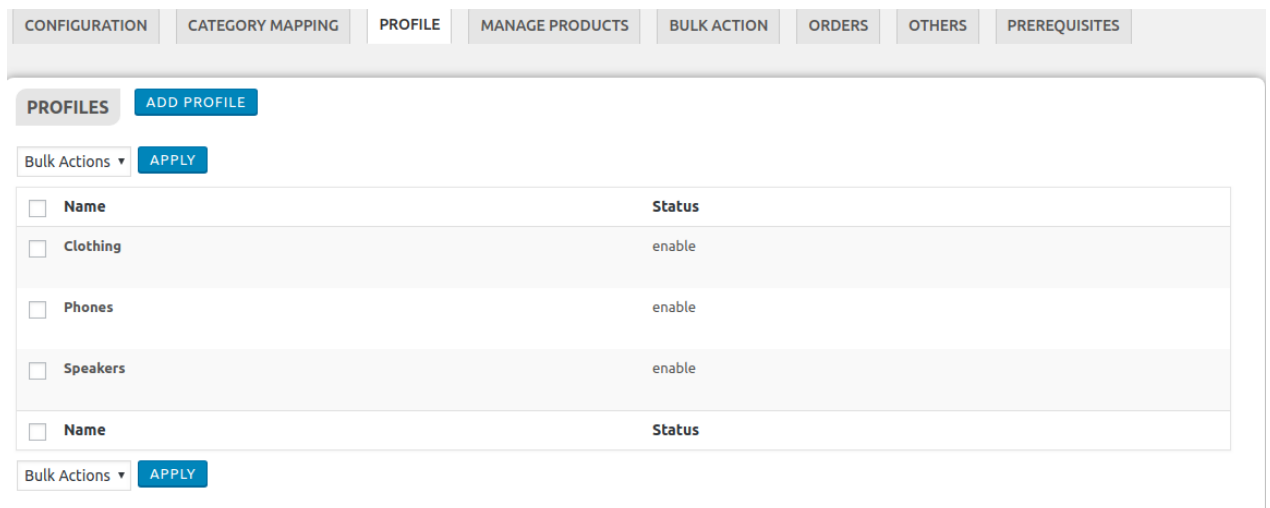

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Presto Mall** menu.
A Submenu appears below the presto mall menu as shown in the following figure:

3. Click **Profile**.
OR

In the right panel, click the **PROFILE** tab.

The **PROFILES** page appears as shown in the following figure:

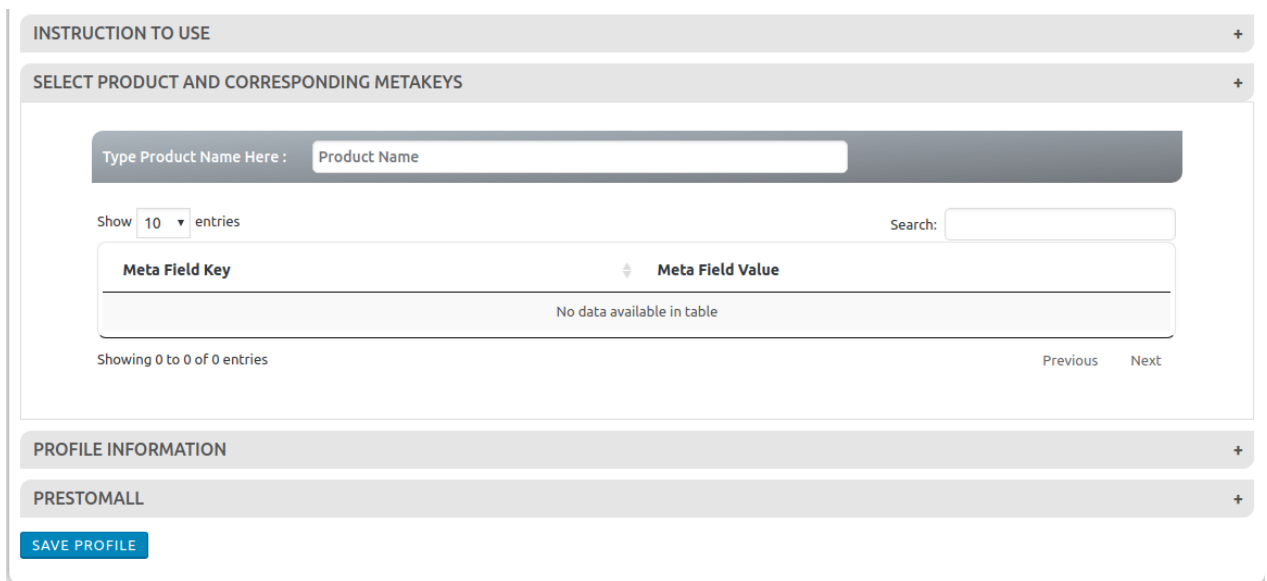

4. Click the **ADD PROFILE** button.
The page appears as shown in the following figure:

Note: Click the **INSTRUCTION TO USE** tab, to view the instruction.

5. Click the **SELECT PRODUCT AND CORRESPONDING METAKEYS** tab.

The section appears as shown in the following figure:

6. In the **Type Product Name Here** box, enter the required product name to get the attributes of the entered product name.

Note: Enter the initials of the product and a list appears. Select the required one from the list.

7. Scroll down to the **PROFILE INFORMATION** tab, and then click the tab.

The section appears as shown in the following figure:

8. Under **BASIC INFO**, do the following steps:

In the **Profile Name** box, enter the name of the profile and enable the checkbox

9. Click the **PRESTO MALL CATEGORY** tab.

The page appears as shown in the following figure:

14. Click **SAVE PROFILE** button.
The created profile is saved.

4.2. Edit the Existing Profile

To edit the existing profile

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Presto Mall** menu.
A Submenu appears below the presto mall menu as shown in the following figure:

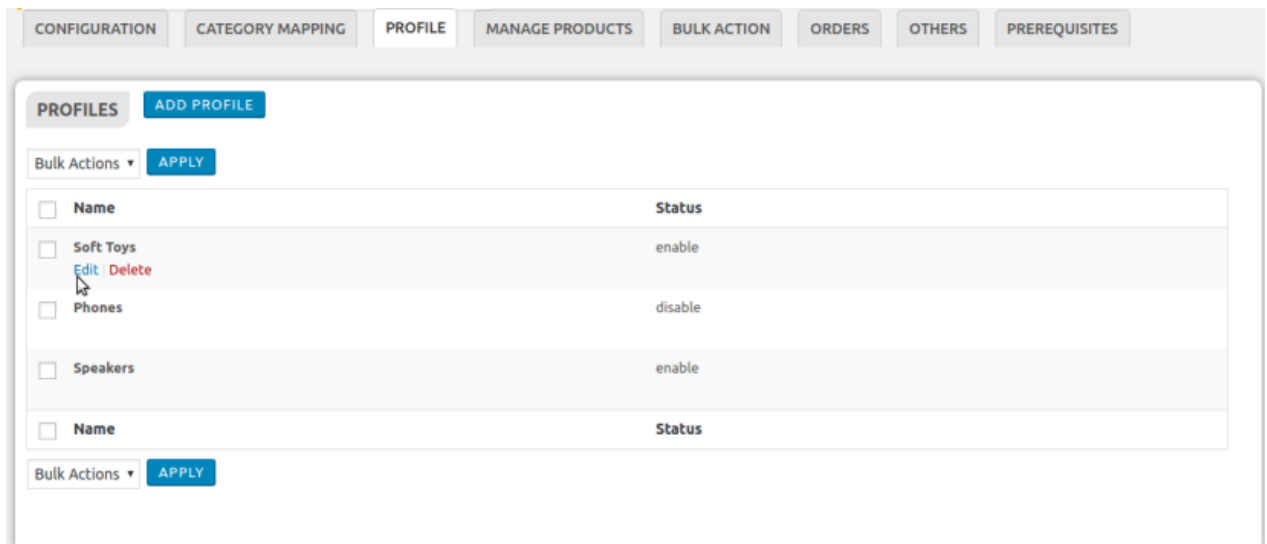

3. Click **Profile**.

OR

In the right panel, click the **PROFILE** tab.

The page appears as shown in the following figure:

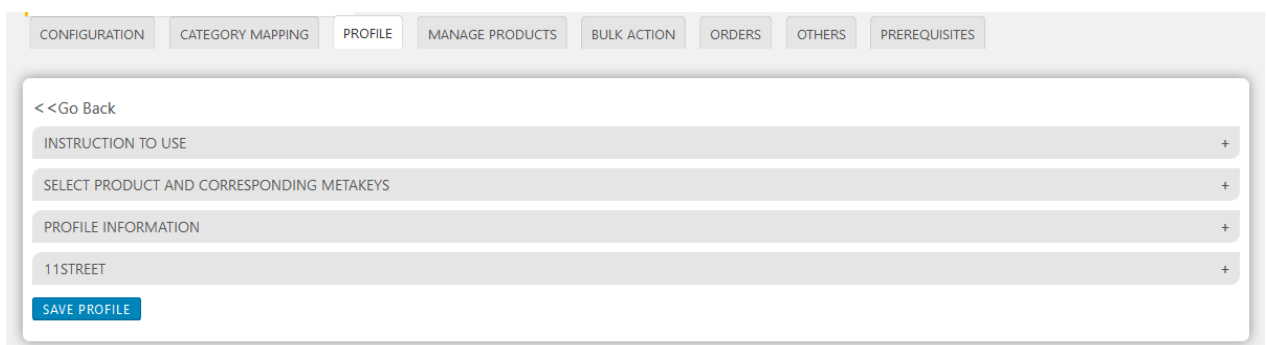

4. Move the cursor over the required profile to edit.

The Edit and the Delete links appear as shown in the figure.

5. Click the **Edit** link.

The page appears as shown in the following figure:

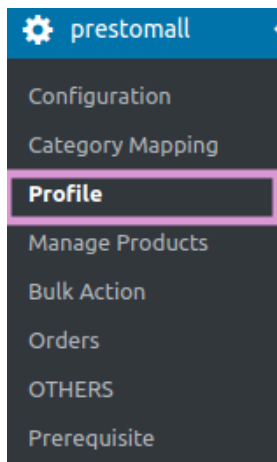

- Click the **SELECT PRODUCT AND CORRESPONDING METAKEYS** tab, the **PROFILE INFORMATION** tab, and/ or the **11 Street** tab as per the requirement.
- Make the changes in the required section, and then click the **SAVE PROFILE** button.

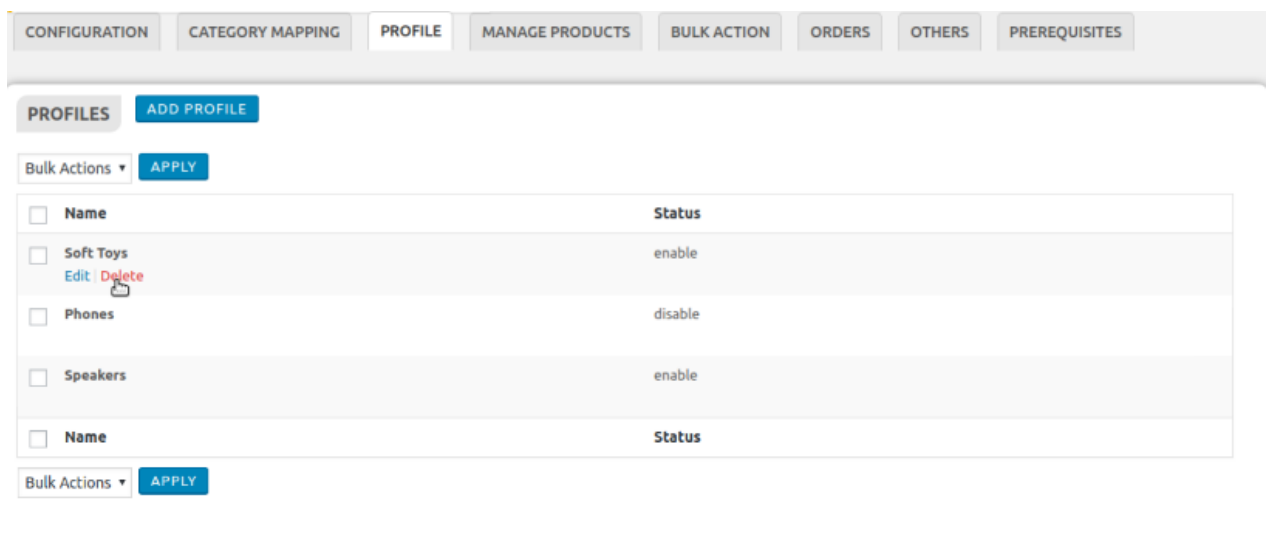

4.3. Delete the Profiles

To delete the single profile

- Go to the **WooCommerce Admin** panel.
- On the left navigation bar, click the **Presto Mall** menu.
A Submenu appears below the Presto Mall menu as shown in the following figure:

- Click **Profile**.
OR
In the right panel, click the **PROFILE** tab.
The page appears as shown in the following figure:

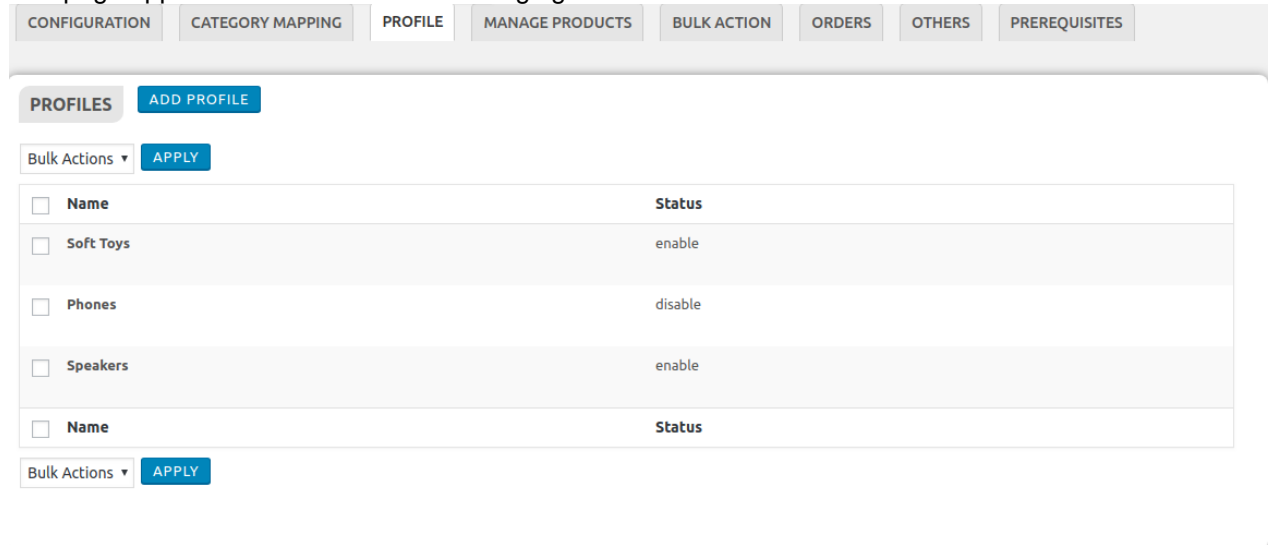

- Move the cursor over the profile that is no more required and needs to be deleted.
The Edit and the Delete links appear as shown in the figure.

- Click the **Delete** link.
The profile is deleted.
Admin can also delete more than one profiles in bulk through the **Bulk Action**.

To delete the selected profiles in bulk

- Go to the WooCommerce Admin panel.
- On the left navigation bar, click the **Presto Mall** menu.
- In the right panel, click the **PROFILE** tab.

The page appears as shown in the following figure:

- Select the checkboxes associated with the required profiles.
- In the **Bulk Actions** list, select **Delete**.

- Click the **Apply** button.
A confirmation dialog box appears.
- Click the **OK** button.
The selected profiles are deleted.

5. Manage Products

Admin can view all the products details such as the assigned profile name, product selling price, and the product inventory.

Admin can edit the product meta-keys and assign the profile to the products. Also, admin can upload the selected products to the PrestoMall marketplace.

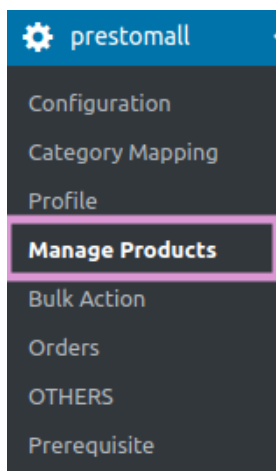

Thus, admin can perform the following tasks:

- Upload the selected products
- Assign the profile to the product
- Remove the assignment of the profile

5.1. Upload the Selected Products

To upload the selected products

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Presto Mall** menu.
A Submenu appears below the presto mall menu as shown in the following figure:

3. Click **Manage Products**.

OR

In the right panel, click the **MANAGE PRODUCTS** tab.

The **MANAGE PRODUCTS** page appears as shown in the following figure:

 A screenshot of the 'MANAGE PRODUCTS' page in the PrestoMall interface. The page has a header with 'MANAGE PRODUCTS' and a search bar. Below the header are filter options for Product Status, Product Category, and Product Type, along with a 'FILTER' button. A 'Bulk Actions' dropdown menu is open, showing options: Bulk Actions, Upload, Update Price, and Update Stock. The main content is a table with the following data:

	Name	Profile	Selling Price	Inventory	Ready To Upload	Product Status
<input type="checkbox"/>	Woo Single #2	Not Assigned	£2.00	0	Missing Listing Data	Not Uploaded
<input type="checkbox"/>	Woo Album #4	Not Assigned	£9.00	0	Missing Listing Data	Not Uploaded
<input type="checkbox"/>	Woo Single #1	Not Assigned	£3.00	0	Missing Listing Data	Not Uploaded
<input type="checkbox"/>	Woo Album #3	Not Assigned	£9.00	0	Missing Listing Data	Not Uploaded
<input type="checkbox"/>	Woo Album #2	Not Assigned	£9.00	0	Missing Listing Data	Not Uploaded

4. Select the checkboxes associated with the required products to upload.
5. Click the **Arrow** button next to the **Bulk Actions** field, click **Upload**, and then click the **Apply** button. The selected products are uploaded and a success message appears on the page.

5.2. Assign the Profile to the Product

To assign the profile to the product

1. Go to the **WooCommerce Admin** panel.
2. On the left navigation bar, click the **Presto Mall** menu. A Submenu appears below the presto mall menu as shown in the following figure:

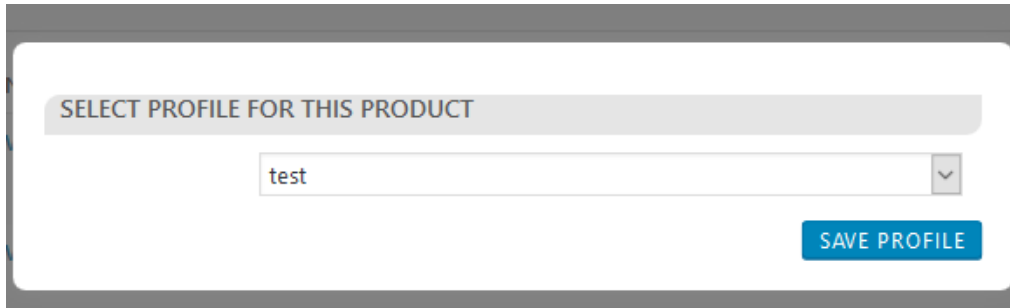

3. Click **Manage Products**.
OR

In the right panel, click the **MANAGE PRODUCTS** tab.

The **MANAGE PRODUCTS** page appears as shown in the following figure:

MANAGE PRODUCTS							
PRESTMALL							
Product Status ▾ Product Category ▾ Product Type ▾			FILTER		SEARCH PRODUCTS
