1. Overview

Cdiscount is the first French e-commerce website with a broad offering: a wide range of products including, among others; cultural goods, high-tech, IT, household appliances, personal appliances, and food. It also operates in Brazil, Belgium, Ivory Coast, Senegal, and Colombia.

Cdiscount Integration offers Management of your products on a centralized platform, wherein you can easily list your products on Cdiscount directly from existing marketplace such as on Magento, WooCommerce, PrestaShop etc..Management of inventory and price is synchronous and gets updated followed by any activity. Furthermore, tracking and order fulfillment can be achieved through CedCommerce integration.

Integration also offers management of inventory, with greater flexibility, providing you with several ways to manage it at discrete levels with Cdiscount.com. Order cancellations from the customer end are retrieved simultaneously to cancel the order ensuring that you don't ship items that were canceled.

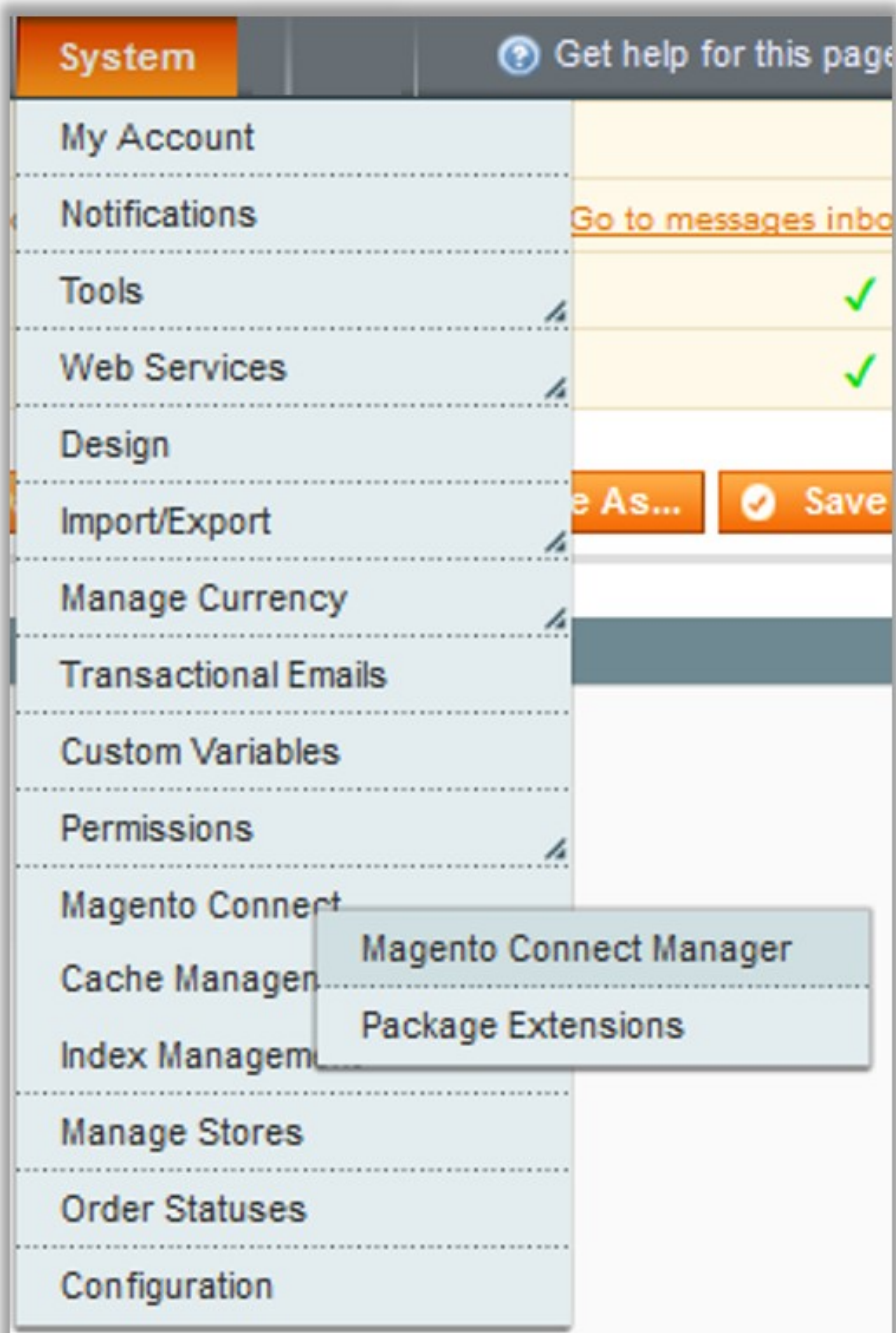

Key Features of Cdiscount Integration Extension by CedCommerce:

- **Product Category Mapping:** Follows many-to-one category mapping philosophy. Enables Admin to map many categories of the Magento store to the single category of Cdiscount.
- **Simple and Configurable Product Upload:** Admin can upload the Simple and Configurable types of Magento product on Cdiscount.com. The configurable product in Magento is treated as variation product on Cdiscount.com.
- **Profile Based Product Upload:** Admin can create a profile and map the category and attributes to Magento category and attributes. Then, upon assigning the products to the profile, they can be easily uploaded.
- **Synchronised Inventory:** Auto synchronization of the inventory at regular intervals and product listings along with all the details is established between Magento and Cdiscount.com.
- **Automate Shipment:** The shipment process can be automated with Shipstation, Shipworks, Stamps.com, Linnworks, Xtento, ShipRush.
- **Low Stock Notifications:** Whenever the stock diminishes lower than the threshold, a notification is sent informing the status of the same.
- **Creation of Magento Orders:** Newly placed orders on Cdiscount.com are automatically created in the Magento store as well with all the required details as on Cdiscount.com.
- **Rejected Products Notifications:** If any product containing some invalid details is rejected by Cdiscount.com, then its information is fetched from the automatic synchronized requests along with the error due to which it is rejected.
- **Archive and Unarchive Products:** Merchants can close and reopen the products on Cdiscount using Archive and Unarchive feature. Archive disables the products on Cdiscount whereas unarchive enables the archived product.

2. Cdiscount Integration Extension Installation

To begin with, the installation of the extension follow the given steps:

1. Go to the **Magento Admin Panel**.
2. On the top, you will find a navigation bar. Point to the **System** menu. You will see a drop-down menu like this,

3. Point to the **Magento Connect** menu, and then click on **Magento Connect Manager**.
The page then appears as shown in the following figure:

Magentoconnect MANAGER

Commit Changes

5. In the **Actions** column, select the **Install** option from the list.

6. Click the **Commit Changes** button.

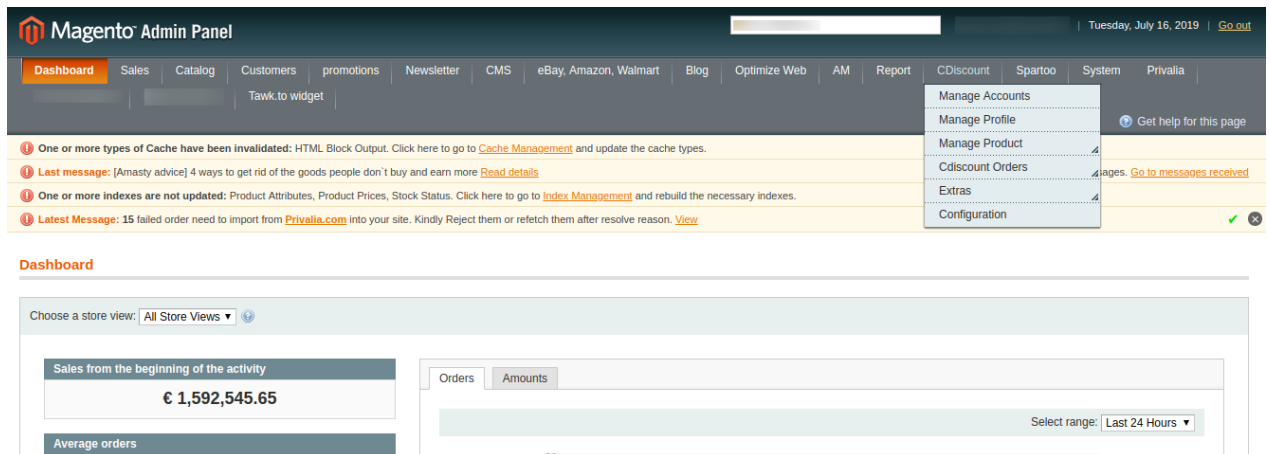

7. Auto-scroll console contents screen appears and the extension is installed after the process.

3. Cdiscount Configuration Settings

Once the extension is successfully installed in the Magento store, the **Cdiscount** menu appears on the top navigation bar of the Admin Panel. The merchant has to first create a seller account in the Cdiscount seller panel. Once the seller account is created and is approved by Cdiscount, then the Magento store owner can use the **Cdiscount Username** and **Password** while setting up the Cdiscount Configuration settings in the Magento Admin panel.

Procedure to set up the configuration settings in the Magento Admin Panel:

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Cdiscount** menu.
The menu appears as shown:

3. Click **Configuration**.
The **Cdiscount Configuration** page appears as shown in the following figure:

4. In the right panel, under the **General Setting** section, do the following steps:

1. In the **Customer Email** list, enter Customer's name, which user account will be created.
2. In the **Choose Default Payment Method for Cdiscount Orders** box, select the payment method for Cdiscount orders.
3. In the **Cdiscount Pro Subscription** box, select **Yes** option, if you have Cdiscount Pro Subscription and you want your products on Cdiscount.
4. In the **Required Attribute Mapping**, you can map the Cdiscount attributes to Magento attributes.
5. In the **Simple Attribute Mapping** map the attributes to list data in Cdiscount.
6. In the **Shipping Settings** list, set shipping method and their charges.

5. In the **Cdiscount Product Global Settings** section, do the following steps:

1. In the **Use Default Product Quantity** box, Select **Yes** to use a quantity of Magento, no for the mapped attribute.
2. In the **Upload Cdiscount Catalog File** box, upload Cdiscount catalog file.
3. In the **Upload Config As Simple** box, upload configurable products as a simple product.

6. In the **Cdiscount Product Advanced Price Settings** section, do the following steps:

1. Click on **Cdiscount Product Price Tab**.

The **Cdiscount Product Price Settings** tab is expanded and the section appears as shown in the following figure:

2. In the **Product Price** list, select one of the following options:

i. **Increase by Fixed Price:** If selected, then the **Modify by Fix Price** field appears.

ii. **Increase by Fixed Percentage:** If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to increase the price of the **Cdiscount**, product price by the entered value % of Magento price.

For Example,

Magento 2 price + 5% of Magento 2 price.

Magento 2 Price = 100

Select **Increase By Fixed Percentage** option

Modify by Percentage Price = 5

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Cdiscount Product Price = 105

iii. **Decrease by Fixed Price:** If selected, then the **Modify by Fix Price** field appears. iv. **Decrease by Fixed Percentage:** If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to decrease the price of the **Cdiscount** product price by the entered value % of Magento price. *For Example,*

Magento price – 5% of Magento price.

Magento Price = 100

Select **Decrease By Fixed Percentage** option

Modify by Fix Price = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Cdiscount Product Price = 95

7. In the **Order Settings** section, do the following steps:

1. In the **Enable Order Auto Accept / Reject** box, select **Yes** option, to auto accept or reject cdiscount orders.
2. In the **Create Order if a product is a disabled** box, select **Yes** option, to auto-reject or disabled products.
3. In the **Create Order if a product is OutOfStock** box, select the **Yes** option, to auto-reject for OutofStock Product.
4. In the **Cdiscount Order ID Prefix** box, enter the prefix id for Cdiscount orders.

8. In the **Cdiscount Cron Settings** section, do the following steps:

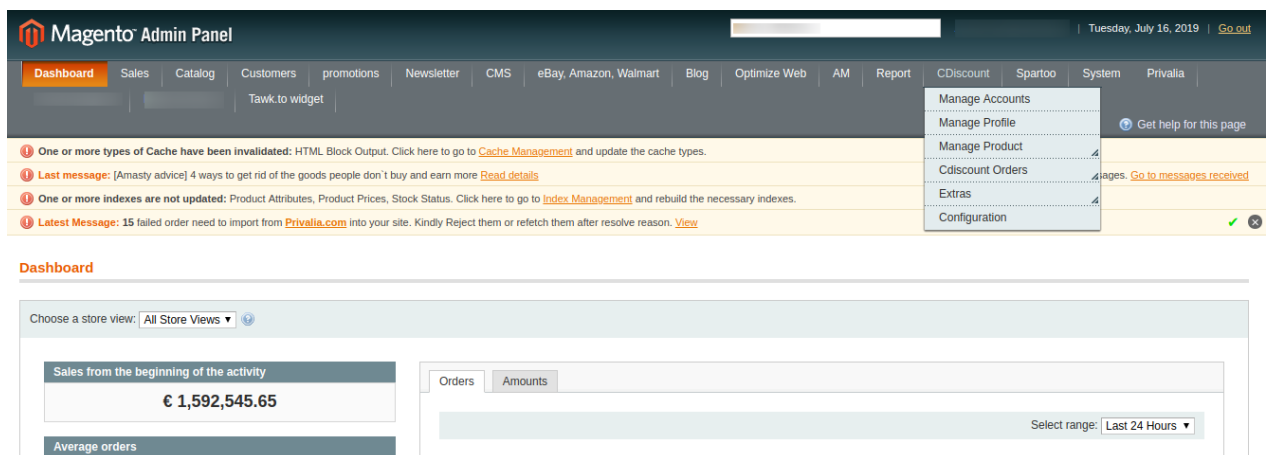

1. In the **Enable Order Cron** box, select the **Yes** option to enable the order cron.
2. In the **Enable Inventory Sync Cron** box, select the **Yes** option to enable the inventory cron.
3. In the **Inventory Cron Timming** box, enter the expression for executing cron.
4. In the **Enable / Disable Shipment Cron** box, select the **Yes** option to Ship Order with Tracking.

9. Click the **Save Config** button to save the entered values.

4. Manage Accounts

To manage multiple Cdiscount accounts:

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Cdiscount** menu.
The menu appears as shown:

3. Click on **Manage Accounts**.
The **Manage Accounts** page appears as shown in the following figure:

Cdiscount Accounts

[Make active to enable this account](#)

Account Username *

Account Password *

Store Account *

5. In the **New Account** section, do the following steps:

- In the **Account Name** box, enter the account name.
- In the **State** box, select the **Active** state, to enable this account.
- In the **Account Username** box, enter the account username.
- In the **Password** box, enter the account password.
- In the **Store Account** box, select the store language.

6. Click on **Save** button, to save the account settings.

5. Manage Cdiscount Profiles

Admin can create a new profile and assign the required products to it. While creating and editing the profile, the admin can map the Magento attributes to the Cdiscount attributes. These attributes are applicable to all the products that are assigned to the profile.

Admin can do the following tasks:

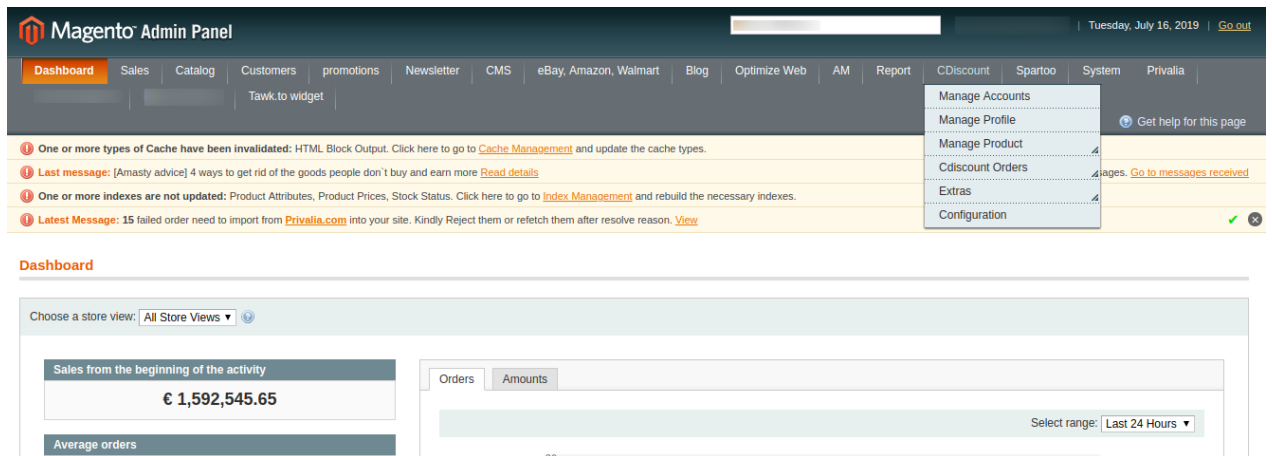

- Add A new profile
- Edit the existing profile
- Delete the profiles
- Change the Status of the Selected Profiles
- Manage the Product Assigned to the Profile

5.1. Add Profile

Procedure to add a new profile:

1. Go to the **Magento Admin** panel.

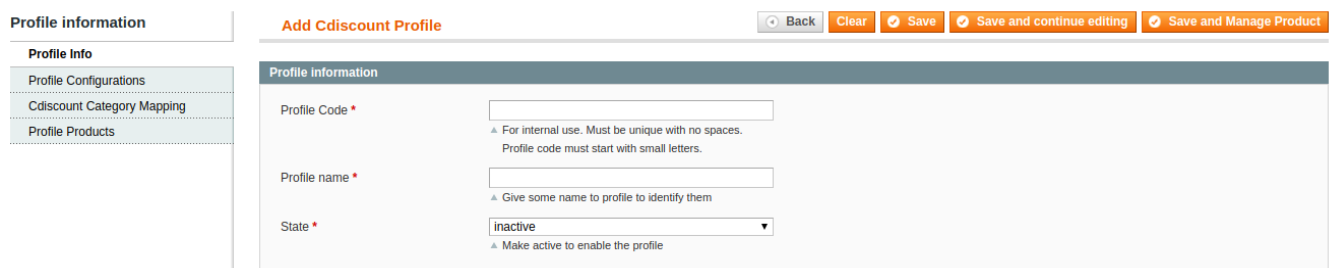

- On the top navigation bar, point to the **Cdiscount** menu.
The menu appears as shown:

- Click the **Manage Profile** menu.
The **Profile Listing** page appears as shown:

- Then click on the **Add New Profile** button. Select your account and create a profile.
The page appears as shown:

- In the right panel, under **Profile Information**, do the following:
 - In the **Profile Code** box, enter a profile code.
Note: It is only for internal use. Use the unique profile code with no spaces. Start with small letters.
 - In the **Profile Name** box, enter the name of the profile.
Note: Use the unique name to identify the profile.
 - In the **Status** list, select **Active** to enable the profile.
Note: The Inactive option disables the profile.
 - Click the **Save and Continue** button.

- In the left navigation panel, click on **Profile Configurations**.

The page appears as shown in the following figure:

Add Cdiscount Profile Back Clear Save Save and continue editing Save and Manage Product

Cdiscount Product Advanced Price Settings

Cdiscount Product Price ☐ Use default [GLOBAL]
▲ Select to send different product price to cdiscount.com

Enter Percentage ☐ Use default [GLOBAL]

1. In the **Profile Configurations**, do the following steps:

a. In the **Cdiscount Product Price** list, select one of the following options:

i. **Increase by Fixed Price**: If selected, then the **Modify by Fix Price** field appears.

ii. **Increase by Fixed Percentage**: If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to increase the price of the **Cdiscount**, product price by the entered value % of Magento price. *For Example,*

Magento price + 5% of Magento price.

Magento Price = 100

Select **Increase By Fixed Percentage** option

Modify by Percentage Price = 5

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Cdiscount Product Price = 105

iii. **Decrease by Fixed Price**: If selected, then the **Modify by Fix Price** field appears.

iv. **Decrease by Fixed Percentage**: If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to decrease the price of the **Cdiscount** product price by the entered value % of Magento price.

For Example,

Magento price – 5% of Magento price.

Magento Price = 100

Select **Decrease By Fixed Percentage** option

Modify by Fix Price = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Cdiscount Product Price = 95

6. In the left navigation panel, click the **Cdiscount Category Mapping** menu.

The page appears as shown:

Add Cdiscount Profile Back Clear Save Save and continue editing Save and Manage Product

Profile Information

Profile Code *

4. On this page, all the available profiles are listed.
5. Select the checkboxes associated with the profiles those are no more required.
 - a. In the **Actions** list, select the **Delete** option, and then click the **Submit** button.

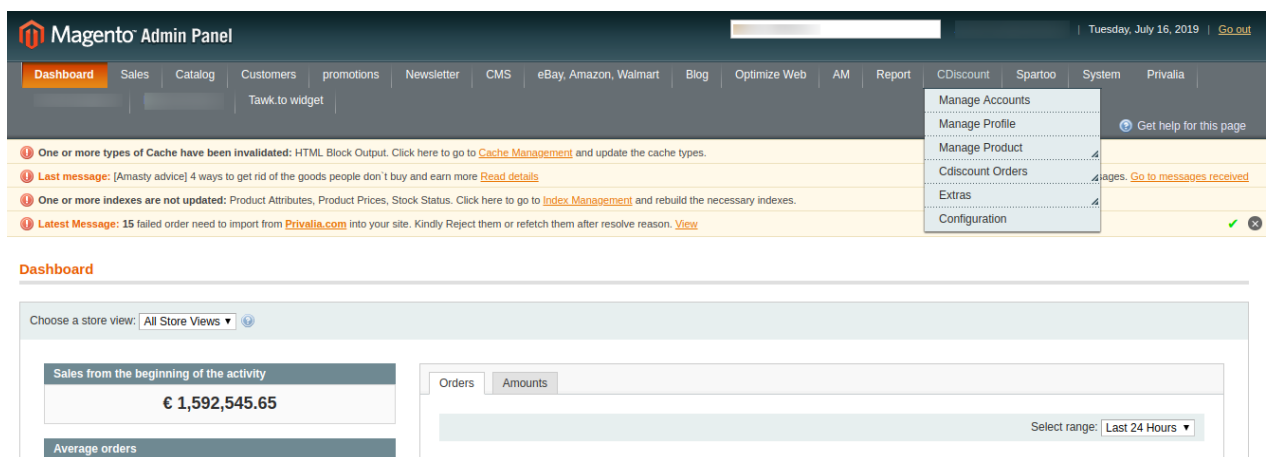

- b. A confirmation dialog box appears as shown in the following figure:
 - c. Click the **OK** button.
6. The selected profiles are deleted.

5.4. Change status for selected profiles

Procedure to change the status of the selected profiles

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Cdiscount** menu.
The menu appears as shown:

3. Click the **Manage Profile** menu.
The **Cdiscount Profile Listing** page appears as shown:

4. On this page, all the available profiles are listed.
5. Select the checkboxes associated with the required profiles.
6. In the **Actions** list, select the **Change Status** option.

8. In the **Status** list, select the required option, and then click the **Submit** button.
The status is changed and a success message appears.

6. Manage products assigned to the profile

On this page, admin can view and edit the product, validate and upload the individual product. Also, the admin can view the error message if any error exists in any product details. The admin can also submit certain actions on the selected products available on the **Product Manager** page.

Thus, on the Product Manager page, the user can perform the following tasks:

- **Submit Actions on the Selected Products of the same Profile:** The user can validate and upload the products of the same profile those are listed on the **Product Manager** page to the Cdiscount Website. The user can also submit the other respective actions on the selected products before uploading them to Cdiscount.com.
- **View the Error Log and Validation Error:** If the product is invalid, then an **Invalid** button appears, and the admin can view the error log using the **Invalid** button. Also, the admin can view the error log through using the **Log** link.
- **Edit Product Information:** Edit the information of the product that the user wants to upload on the Cdiscount Website.

6.1. Submit actions on the selected products of the same profile

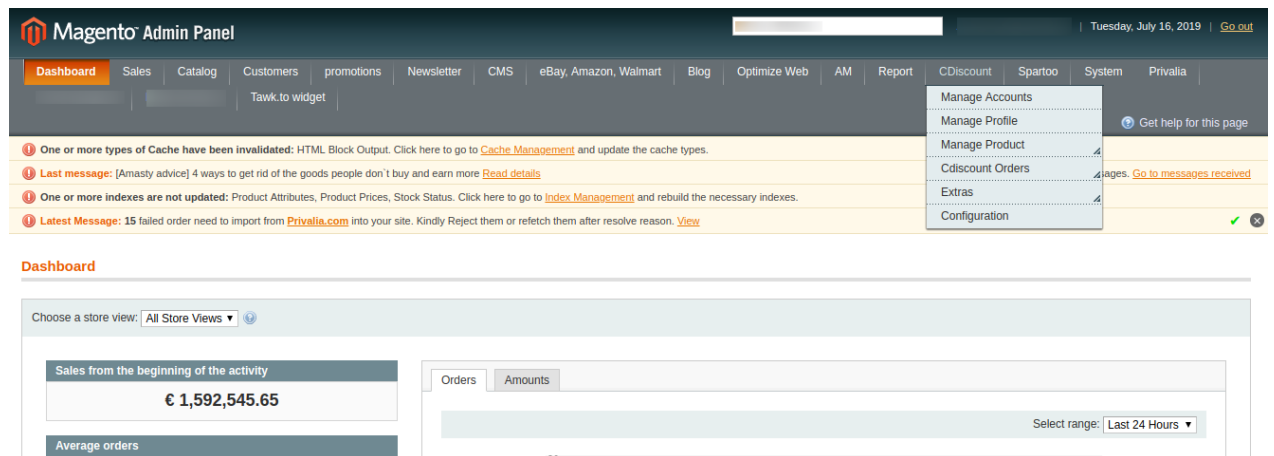

Admin can submit the following actions for the selected products:

- **Validate Products:** To validate the product before uploading it to the Cdiscount.com. It displays the corresponding validation error if any. If there is no error, it confirms that the product is ready to upload.
- **Validate & Upload Products to Cdiscount:** To validate the product before uploading it on the Cdiscount.com. It displays the corresponding validation error for all the products if any. If there is no error, then it validates the selected products and then uploads them to the Cdiscount.com.

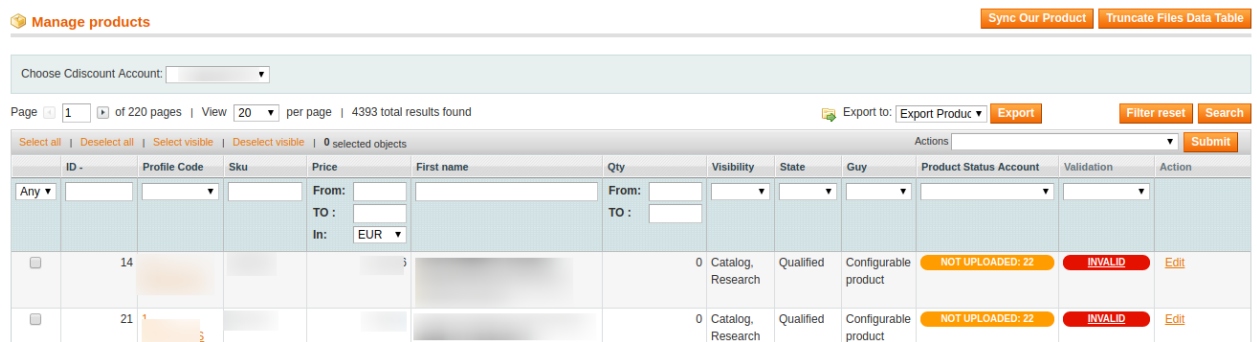

Procedure to validate products of the same profile

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Cdiscount** menu.

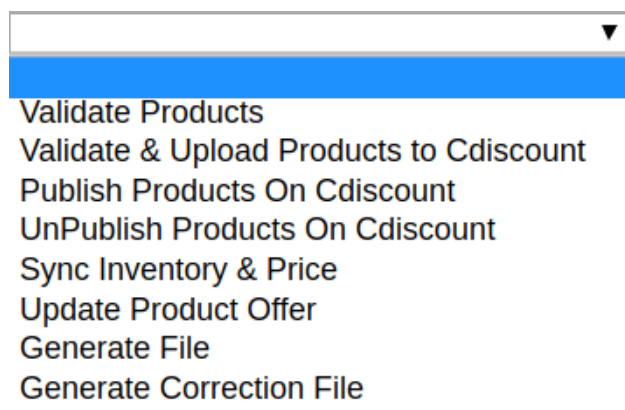

The menu appears as shown:

- Click the **Manage Product** menu. You will see an option **Upload Products** click on that. After which you will see a window similar to as shown:

- Select the checkboxes associated with the required products.
- In the **Actions** list, click the arrow button.
- In the **Actions** list, select the **Validate Products** option, and then click the **Submit** button.

The validation process appears as shown:

Validating Products for Cdiscount

100% 1 Of 1 Processed.
0 Batch(s) Successfully Upload Requested.
Finished product upload execution.

Note: If there is an error in the product validation and upload, then it appears on the page and the **Invalid** button appears under the corresponding **Validation** column displayed on the **Product Manager** page. Otherwise, a success message appears.

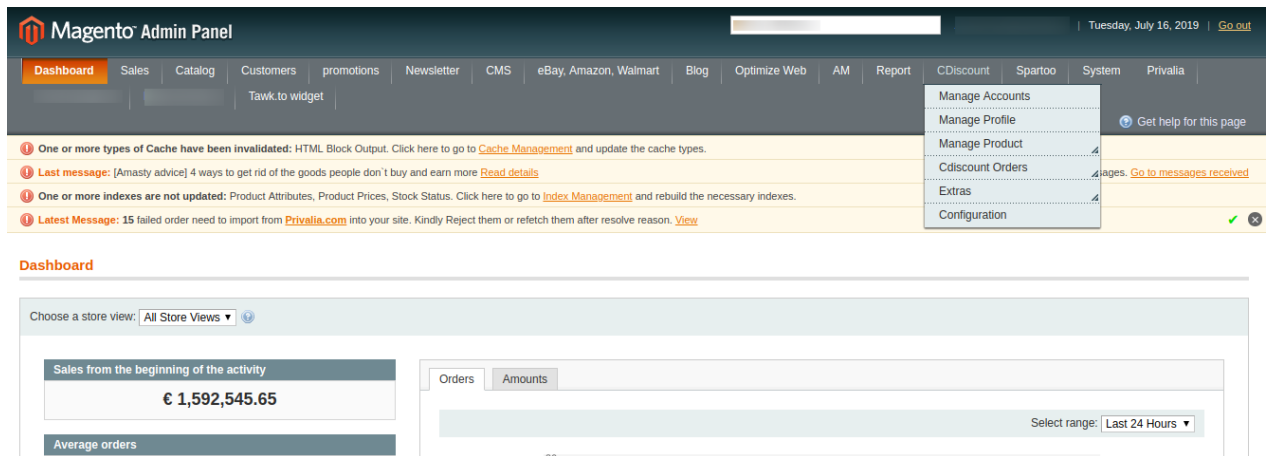

1. Click the **Back** button to go back to the **Product Manager** page.
2. Correct the issues and then again repeat the process of validating and uploading the selected products.

6.2. View the Error Log and Validation Error

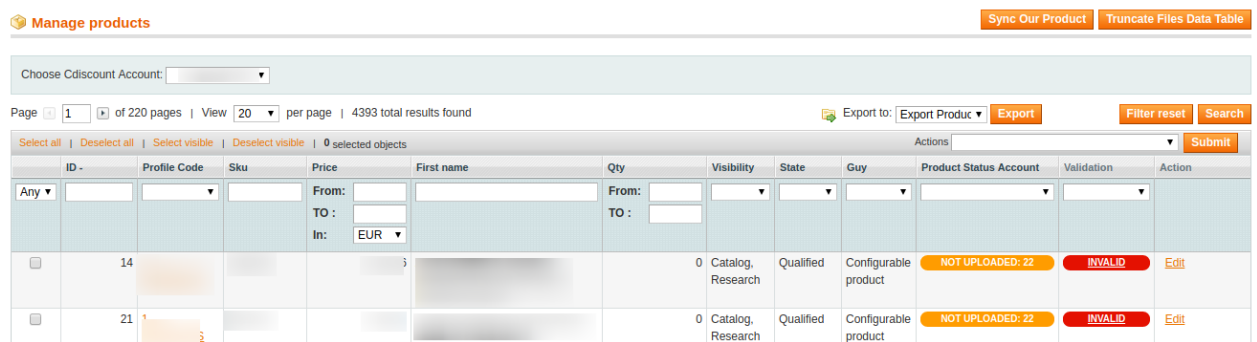

Procedure to view the error log and validation error

1. Go to the **Magento Admin** panel.

- On the top navigation bar, point to the **Cdiscount** menu.
The menu appears as shown:

- Click the **Manage Products** option and then the **Upload Products** option.

- Scroll down to the required product.
Click the **INVALID** button to view the validation error.
The relevant error message appears as shown in the figure.

- Correct the errors and update.

6.3. Edit the Product Information

Procedure to edit the product information

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Cdiscount** menu. The menu appears as shown:

3. Click the **Manage Products** option and then the **Upload Products** option.

4. Scroll down to the required product.
5. In the **Actions** column, click the **Edit** link.

The page appears as shown in the following figure:

7. Make the changes in the General section, if required.

8. In the left navigation panel, click the other required menu to make the changes if required.

1. In the left navigation panel, click the **Cdiscount** menu.

The page appears as shown:

Attribute	Value
ean	0012345678905
brand	cedcommerce
isbn	
gtin	
mpn	
length	
width	
height	

Note: These are the attributes that the admin has mapped during setting up the configuration settings.

1. Enter the required values of the mapped attributes in the respective fields boxes.

If the required attributes do not appear on the page, then the admin can create the new attributes.

2. To create a new attribute, click the **Create New Attribute** button.

The page appears as shown in the following figure:

Attribute Properties	
Attribute Code *	<input type="text"/>
Scope	Store View
Catalog Input Type for Store Owner	Text Field
Default Value	<input type="text"/>
Unique Value	No
Values Required	No
Input Validation for Store Owner	None
Apply To *	All Product Types

Frontend Properties	
Use in Quick Search	No
Use in Advanced Search	No
Comparable on Front-end	No
Use in Layered Navigation	No
Use in Search Results Layered Navigation	No
Use for Promo Rule Conditions	No
Position	<input type="text"/>
Allow HTML Tags on Frontend	Yes

a. In the **Attribute Code** box, enter the value.

b. In the **Apply To** list, select the required value.

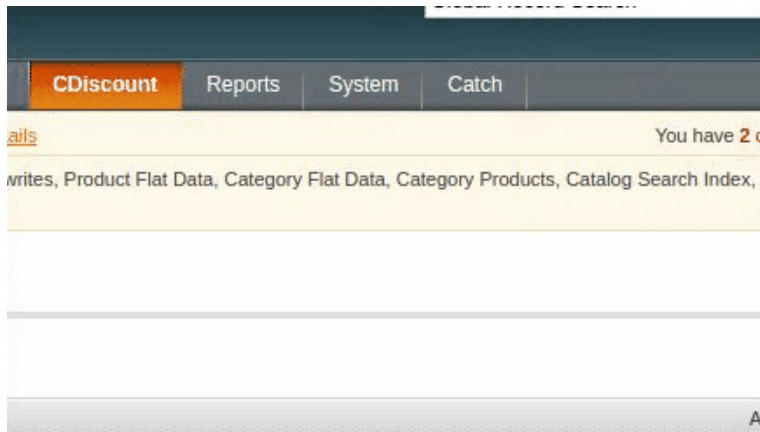

c. Click the **Save Attribute** button.

The page appears as shown in the following figure:

- d. In the **Admin** box, enter the required attribute name, and then click the **Save Attribute** button. The attribute is created and appears on the **Edit Product Information** page.
- e. Click the **Save** button.
- f. To validate and upload the current product, click the **Validate and Upload to Cdiscount** button.

7. Manage Cdiscount Orders

The admin can manage the Cdiscount.com orders and can perform the following tasks through using the options available on the Cdiscount menu as shown:

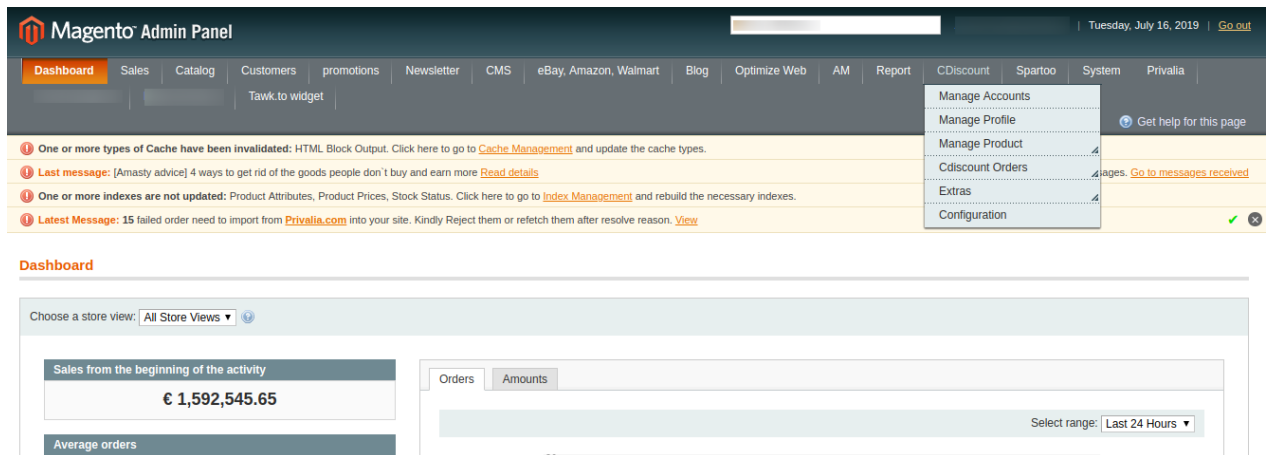

- View Cdiscount Orders Details, Ship Orders, and Delete Orders
- View Cdiscount Failed Orders Import Log

7.1. Cdiscount Order Details

The admin can view all the order details fetched from discount.com and then ship the required orders. Admin can also delete the existing orders and export the order details in the CSV format.

Procedure to ship the order

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Cdiscount** menu, and then point to the **Cdiscount Orders** menu.
The menu appears as shown:

3. Click **Manage Orders**.
The **Cdiscount Orders Details** page appears as shown in the following figure:

Cdiscount Orders Details Fetch Latest Cdiscount Orders

Page 1 of 1 pages | View 20 per page | Total 1 records found

Submit Shipment

NOTE:

*Carrier Name: (required) The name of the carrier being used for shipping.
 *Tracking Number: (required) The tracking number of the package.
 *Tracking Url: (required) The tracking number is required in case you select Other carriers.

7. Under **Shipment Info**, do the following steps:
- In the Tracking Url box, enter the valid Tracking URL if any.
 - In the Tracking Number box, enter the required value.
8. Under **Shipment Items**, do the following steps:
- Quantity Confirmed
 - In the **Quantity to Ship** box, enter a value.
 The number of quantity that the user can ship. The value cannot be greater than the **Qty Available for Ship** value.
 - In the **Quantity to Refund** box, enter a value.
 The number of quantity that the user wants to reject. The value cannot be greater than the **Qty Available for Ship** value.
9. Click the **Submit Shipment** button.
 The success message appears if the order is shipped successfully.

Procedure to Delete Orders

- Go to the **Magento Admin** panel.
- On the top navigation bar, click the **Cdiscount** menu.
- On the **Cdiscount** menu, point to **Cdiscount Orders**, and then click **View Cdiscount Failed Orders**.
 The **Cdiscount Order Details** page appears as shown:

Failed Cdiscount Orders Import Log				Clear Failed Import Order Logs
Page 1 of 1 pages View 20 per page Total 1 records found				Reset Filter Search
Select Visible Unselect Visible 1 items selected				Actions Submit
ID	Purchase order ID	Reason to failed	Order Data	
Any				
<input checked="" type="checkbox"/>	1 1107261238TV3HA	02-02-18 04:53:30 - Product 3275054001106 Stock Quantity is less than 0		

1. Select the checkboxes associated with the Orders that the admin wants to delete.
2. In the **Action** list, click the arrow button, and then click **Delete Order**.
3. Click the **Submit** button.
A confirmation dialog box appears.
4. Click the **OK** button.
The selected orders are deleted.

To export the Cdiscount Order Details through CSV file

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, click the **Cdiscount** menu.
3. On the **Cdiscount** menu, point to **Cdiscount Orders**, and then click **Manage Orders**.
The **Cdiscount Order Details** page appears as shown in the following figure:

Cdiscount Orders Details							Fetch Latest Cdiscount Orders
Page 1 of 1 pages View 20 per page Total 1 records found							Export to: CSV Export Reset Filter Search
Magento Order #	Cdiscount Purchase Order Id #	Bill to Name	Ship to Name	Date Ordered	Status	G.T. (Purchased)	
100000080	1107261238TV3HA	Prénom Nom	Prénom Nom	Jul 26, 2011 5:38:31 AM	Created	4.9000	

4. Click the **Export** button.
A dialog box appears to open or save the exported file.
5. Click to select the **Open With** or **Save File** as per the requirement.
6. Click the **OK** button.

7.2. Failed Cdiscount Orders Import Log

The users can view the list of failed **Cdiscount** orders on the **Failed Cdiscount Orders Import Log** page.

Orders cannot be imported from Cdiscount due to the following conditions:

- If any product in the Cdiscount Order is Out of Stock in Magento.
- If any product in the Cdiscount Order is disabled in Magento.
- If any Product does not exist in Magento or is deleted from Magento after uploading on Cdiscount.
- If the selected Payment Method in Cdiscount System Configuration Setting is not available in Magento.

To manage failed Cdiscount Orders

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Cdiscount** menu, and then point to the **Cdiscount Orders** menu.
The menu appears as shown in the following figure:

The screenshot shows the Magento Admin Panel interface. At the top, there's a navigation bar with tabs like Dashboard, Sales, Catalog, Customers, promotions, Newsletter, CMS, eBay, Amazon, Walmart, Blog, Optimize Web, AM, Report, CDiscount, Spartoo, System, and Privalia. Below this, a sidebar menu is open, showing options like Manage Accounts, Manage Profile, Manage Product, Cdiscount Orders, Extras, and Configuration. The main content area displays a dashboard with a 'Choose a store view' dropdown set to 'All Store Views'. It shows 'Sales from the beginning of the activity' as € 1,592,545.65 and 'Average orders' as 30. There are also several notification banners at the top regarding cache invalidation, last messages, and failed orders.

3. Click **View Cdiscount Failed Orders**.

The **Failed Discount Orders Import Log** page appears as shown in the following figure:

The screenshot shows the 'Failed Cdiscount Orders Import Log' page. It features a table with columns: ID, Purchase order ID, Reason to failed, and Order Data. The table contains one row with a checked checkbox in the first column, ID '1', Purchase order ID '1107261238TV3HA', and Reason to failed '02-02-18 04:53:30 - Product 3275054001106 Stock Quantity is less than 0'. Above the table, there are controls for page navigation (Page 1 of 1 pages, View 20 per page, Total 1 records found), a 'Clear Failed Import Order Logs' button, and a 'Reset Filter' button. Below the table, there are 'Select Visible' and 'Unselect Visible' buttons, and an 'Actions' dropdown menu with a 'Submit' button.

This page displays the failed orders with the order id and the reason for the failure.

4. To clear failed import order logs, click the **Clear Failed Import Order Logs** button.

All the logs are deleted.

5. To delete the selected failed import order log, do the following steps:

- Select the checkboxes of the required logs.
- In the **Actions** list, click **Delete**.
- Click the **Submit** button.
A confirmation dialog box appears.
- Click the **OK** button.
All the selected failed orders are deleted.
