## 1. Overview

Qoo10 is the leading marketplace in the South Asian region. It has its headquarters in Singapore and is expanded to Korea, Indonesia, Hong Kong, and China. It sells products like fashion, electronics, beauty, food& dining, kids, etc.

Qoo10 Magento integration developed by Cedcommerce provides an interface to connect your Magento store to the Qoo10 marketplace. The extension enables you to smoothly upload products on the Qoo10 marketplace. It also enables the merchants to synchronize the price, inventory and other product details in a hassle-free manner.

The Qoo10 Magento integration facilitates the various features that make selling efficient.

### ***Key Features:***

**Validate and Upload in Bulk:** This feature of the extension first validates the products and then after validation, the products are uploaded in in the bulk. The bulk upload feature saves time by uploading the products in a single click.

**Retire Products:** The admin can enable this option to hide the product's availability so that it can be sold when the admin wishes to put it on sale.

**Synchronization of Price and Inventory:** The automatic synchronization of product listing, order, inventory, and the price is done at regular intervals of time between the Magento store and the Qoo10 marketplace.

**Manage Orders:** This feature of the extension fulfills the order and avoids the delay of it. It also automates the failed orders and their details.

**Attributes Mapping:** The profiles are created by the admin and then the mapping of the categories and attributes is done from the Magento store to the categories and attributes of the Qoo10 marketplace.

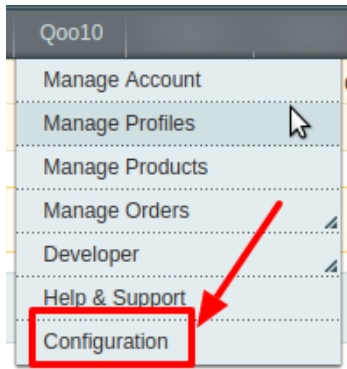

## 2. Configuration

Once the extension is successfully installed in the Magento store, the **Qoo10** menu appears on the top navigation bar of the Admin Panel. The merchant has to first create a seller account in the Qoo10 seller panel.

Once the seller account is created and is approved by Qoo10, they provide the username and password of the seller account to the admin. The Magento store owner can use the **Qoo10 Username** and **Password** while setting up the Qoo10 Configuration settings in the Magento Admin panel.

### ***To set up the configuration settings in the Magento Admin panel:***

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Qoo10** menu.  
The menu appears as shown in the following figure:

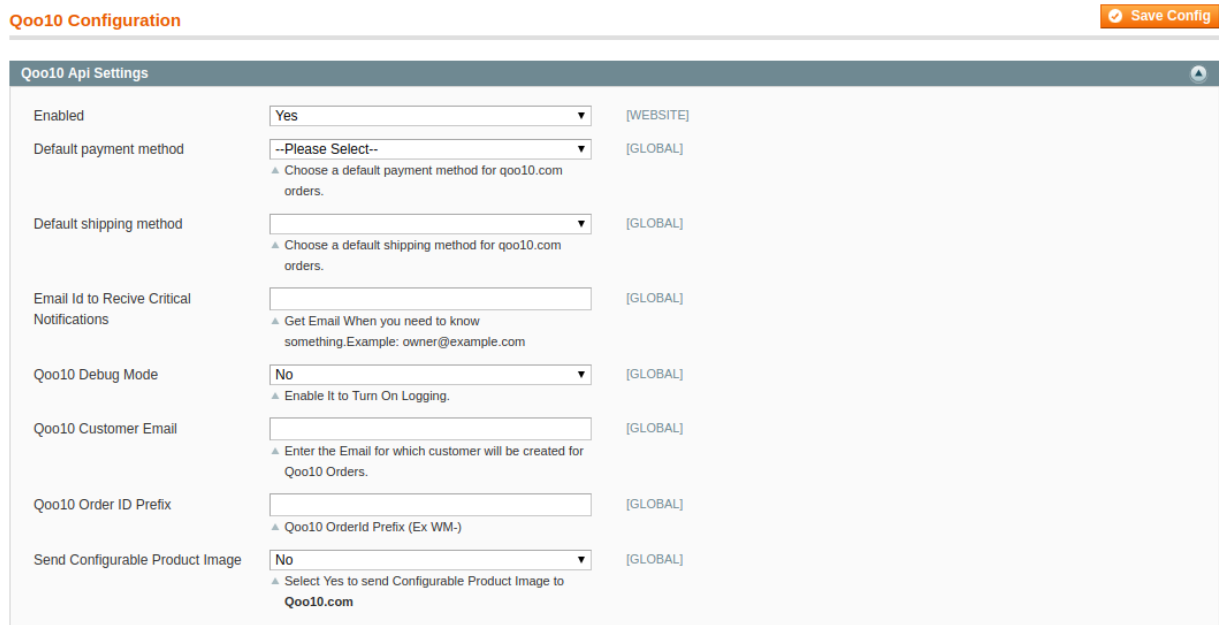

3. Click **Configuration**.

The **Qoo10 Configuration** page appears as shown in the following figure:

4. Click the **Qoo10 API Settings** tab.

The tab is expanded and the corresponding fields appear as shown in the following figure:

5. Under **Qoo10 API Settings**, do the following steps:

6. In the **Enabled** list, select **Yes** to enable the Qoo10 Integration extension.

a. In the **Choose Default Payment Method for the Qoo10 Orders** list, select **Qoo10 Orders**.

b. In the **Choose Default Shipment Method for Qoo10 Orders** list, select your shipping method of **Qoo10 Orders**.

- c. In the **Email Id To receive critical notifications**, enter the required email id.
  - d. In the **Qoo10 Debug Mode** list, select **Yes** to start Qoo10 Integration in the debug mode.  
It captures the log for the debug process.
  - e. In the **Qoo10 Customer Email** box, enter the required email Id used for the orders requested by the Qoo10 customers.
  - f. In the **Qoo10 Order ID Prefix** box, enter the required prefix value.
  - g. In **Send Configurable Product Image**, select **Yes** if you want to send the configured image to Qoo10.com
7. Click the **Save Config** button to save the API settings.
  8. Click the **Qoo10 Product Global Settings** tab.  
The tab is expanded and the relevant fields appear under the **Qoo10 Product Global Settings** section as shown in the following figure:

9. Under **Qoo10 Product Global Settings**, do the following steps:
  - a. In **Select Store**, select the type of store.
  - b. In **Shipping Settings**, set the shipping region and the method of shipping.
  - c. In **Upload Chunk Size**, enter the value of the chunk for the product uploading on Qoo10.com
  - d. In **Inventory/Price Chunk Size**, enter the product inventory price chunk size for uploading.
10. Click the **Save Config** button to save the entered values.
11. Click the **Qoo10 Product Advanced Price Settings** tab.  
The tab is expanded and the relevant fields appear as shown in the following figure:

12. Under **Qoo10 Product Advanced Price Settings**, do the following steps:
  - o In the **Qoo10 Product Price** list, select one of the following options:
    - a. **Increase by Fixed Price**: If selected, then the **Enter Amount** field appears.
    - b. **Increase by Fixed Percentage**: If selected, then the **Enter Percentage** field appears.
    - c. Enter the numeric value to increase the price of the Qoo10 product price by the entered value % of Magento price  
*For Example,*  
Magento price + 5% of Magento price.  
Magento Price = 100  
Select **Increase By Fixed Percentage** option  
**Enter Percentage = 5**  
 $100 + 5\% \text{ of } 100 = 100 + 5 = 105$   
Thus, Qoo10 Product Price = 105
    - d. **Decrease by Fixed Price**: If selected, then the **Enter Amount** field appears.
    - e. **Decrease by Fixed Percentage**: If selected, then the **Enter Percentage** field appears.  
Enter the numeric value to decrease the price of the Qoo10 product price by the entered

value % of Magento price.

*For Example,*

Magento price – 5% of Magento price.

Magento Price = 100

Select **Decrease By Fixed Percentage** option

**Enter Percentage = 5**

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Qoo10 Product Price = 95

13. Click the **Save Config** button to save the entered values.

14. Click the **Order Configuration** tab.

The tab is expanded and the relevant fields appear as shown in the following figure:

Order Configuration		
Create Orders for Out of Stock Products	<input type="text" value="No"/>	[WEBSITE]
Create Orders for Disabled Products	<input type="text" value="No"/>	[WEBSITE]
Use Quote method to create Orders	<input type="text" value="No"/>	[WEBSITE]
▲ Select this yes, if you face any issues with 3rd party modules in error creation.		

15. Under **Order Configuration**, do the following steps:

- Choose Yes/No in **Create Orders for Out of Stock Products**. By choosing Yes, the out of stock products will be included in the orders.
- Choose Yes/No in **Create Orders for Disabled Products** as you wish to create include disabled products in the orders.
- Choose Yes/No in **Use Quote method to create Orders**, if there are any issues by the third-party modules.

16. Click the **Save Config** button to save the entered values.

17. Click the **Cron Settings** tab.

The tab is expanded and the relevant field appears under the **Cron Settings** section as shown in the following figure:

Cron Settings		
Cron Settings Override	<input type="text" value="No"/>	[WEBSITE]
Enable Order Cron	<input type="text" value="Yes"/>	[WEBSITE]
▲ Order Cron Enable/Disable		
Enable Order Status Sync Cron	<input type="text" value="No"/>	[WEBSITE]
▲ Order Cron Status Sync Enable/Disable		
Enable Inventory Cron	<input type="text" value="No"/>	[WEBSITE]
▲ Inventory Cron Enable/Disable		
Enable Price Cron	<input type="text" value="No"/>	[WEBSITE]
▲ Price Cron Enable/Disable		

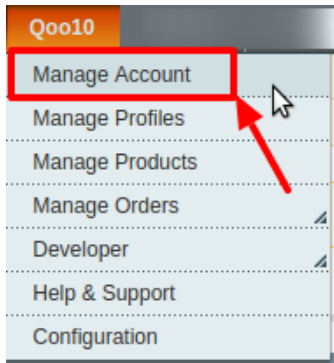

18. Under **Cron Settings**, do the following steps:

- In **Cron Settings Override**, enable to maintain the synchronization.
- In the **Enable Order Cron Settings** list, select **Yes** to enable the cron settings.
- In **Enable Order Status Sync Cron**, the status of the synchronization is enabled.
- In the **Enable Inventory Cron** list, select **Yes** to enable the order cron.
- In the **Enable Price Cron** list, select **Yes** to enable the order price cron.
- Click the **Save Config** button.

### 3. Manage Qoo10 Accounts

#### To Manage Account on Qoo10.

- Go to the Magento admin panel.
- On the top navigation bar, click **Qoo10**.

- When the menu appears, click **Manage Account**.
- On clicking it, you will be navigated to the **Qoo10 Accounts** page as shown below:

- To add a new account, click on **Add new account** button on the top right corner.
- You'll be redirected on a new page:

**Account Information**

Account Code \*   
▲ For internal use. Please use only letters (a-z), numbers (0-9) or underscore(\_) in this field, first character should be a letter

Account Name \*   
▲ Give some name to account to identify them

Status \*   
▲ Make active to enable the account

- In the **Account Code**, you can enter the code for your account.
- Enter the **Account Name** by which you wish to sell on Qoo10, in the second section.
- Select the **Status** of the account from the drop-down menu, either Active or Inactive.
- Once all the actions have been taken so far, click on the **Save** button on the top right of the page.
- Now Go back to the Accounts page.
- The product created will be displayed.

## 4. Manage Qoo10 Profile

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, the admin can map the Magento attributes to the Qoo10 attributes. These attributes are applicable to all the products that are assigned to the profile.

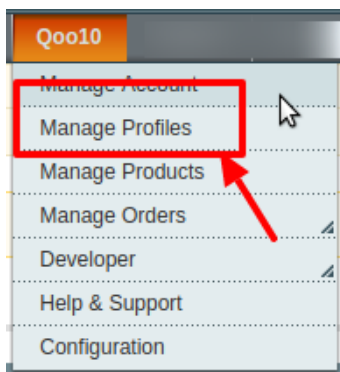

### *Admin can do the following tasks:*

- Add new profile(<https://docs.cedcommerce.com/magento/qoo10-integration-user-guide-magento/?section=add-new-profile-39>)
- Edit the existing profile(<https://docs.cedcommerce.com/magento/qoo10-integration-user-guide-magento/?section=edit-the-existing-profile-88>)
- Delete the profile(<https://docs.cedcommerce.com/magento/qoo10-integration-user-guide-magento/?section=delete-a-profile-11>)
- Change the Status of Selected Profile(<https://docs.cedcommerce.com/magento/qoo10-integration-user-guide-magento/?section=change-the-status-of-profile-5>)

### 4.1. Add New Profile

#### To add a new Profile.

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Qoo10** menu.  
The menu appears as shown in the following figure:

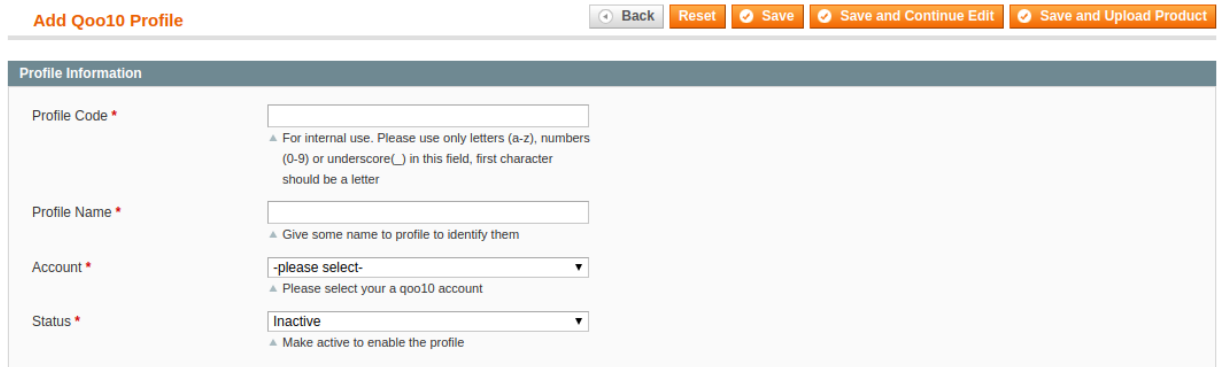

3. Click the **Manage Profiles** menu.  
The **Qoo10 Profile Listing** page appears as shown in the following figure:

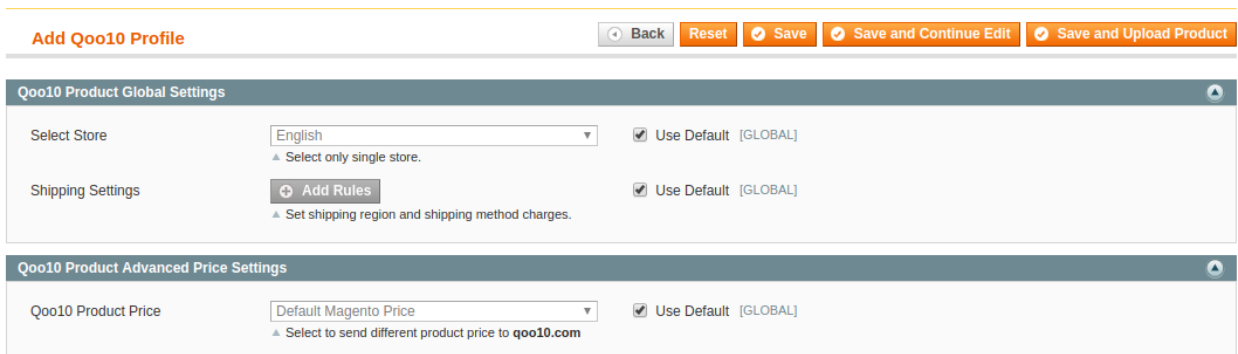

4. Click the **Add New Profile** button.  
The page appears as shown in the following figure:

5. In the right panel, under **Profile Information**, do the following steps:
  - a. In the **Profile Code** box, enter a profile code.  
**Note:** It is only for internal use. Use the unique profile code with no spaces. Start with small letters.
  - b. In the **Profile Name** box, enter the name of the profile.  
**Note:** Use the unique name to identify the profile.
  - c. In the **Account**, select your Qoo10 account from the menu.
  - d. In the **Status** list, select **Active** to enable the profile.  
**Note:** The Inactive option disables the profile.
6. Click the **Save and Continue** button.
7. In the left navigation panel, click the **Profile Configurations** menu.  
The page appears as shown in the following figure:

8. In the **Qoo10 Product Global Settings** do the following steps:
  - a. In **Select Store**, select the type of store or you can do **use default**.

- b. In **Shipping Settings**, set the shipping region and the method of shipping or select the default option in the side.
- 9. Under **Qoo10 Product Advanced Price Settings**, select the Qoo10 Product price from the menu or you can choose the default price option which you had chosen in the configuration settings earlier.
- 10. Click the **Save and Continue** button.
- 11. In the left navigation panel, click the **Qoo10 Category Mapping** menu.  
The page appears as shown in the following figure:

Add Attribute

- 12. In the right panel goto Qoo10 Category Mapping and then select the required parent and child category from the menu.
- 13. Now under **Qoo10/Magento Attribute Mapping (Required/Optional mapping)** section and do the following steps:
  - a. In the **Magento Catalog Attribute** column, select the required Magento attribute from the corresponding list to map it with the corresponding **Qoo10** attribute.  
**Note:** In case the required attribute does not exist in the corresponding list, then select **-Set Default value-** from the corresponding list. A text box appears in the **Default Value** column next to the corresponding **Magento Catalog Attribute** column.
  - b. Repeat the mapping of all the required or optional Magento attributes listed with the corresponding Qoo10 attributes.
  - c. Click the **Add Attribute** button to add more attributes.

14. Now scroll down to **Qoo10/Magento Attribute Mapping(Required/Optional Mapping)** and map the attribute of Qoo10 to the attribute of Magento. You may also add more attributes.
  15. Scroll down to the **Qoo10 / Magento Attribute Mapping (Variant Attribute Mapping)** section and do the following steps:
    - a. Click the **Attribute** button.
    - b. In the **Magento Catalog Attribute** column, select the required Magento attribute.
    - c. In the **Qoo10 Attribute** column, select the required Qoo10 attribute to map it with the corresponding Magento attribute.
    - d. Click the **Add Attribute** button to add more attributes.
  16. Click the **Save and Continue** button.
  17. In the left navigation panel, click the **Profile Products** menu.
- The page appears as shown in the following figure:

Since no products are assigned to the profile, there are no products listed in the table.

18. Click the **Reset Filter** button.
- All the products are listed in the table as shown in the following figure:

19. Do one of the following steps:
  - a. Select the checkboxes associated with the required products those the admin wants to assign to the new profile.
 

**Note:** Admin can assign one product to one profile only. It means, admin can assign multiple products to the same profile but can associate a product only with one profile at one time. To assign a product to another profile, the admin has to remove that product from the currently assigned profile.
  - b. Click the **Select All** link to select all the products available in the store.
 

**Note:** To clear the selection, click the **Unselect All** link.
  - c. Click the **Select Visible** link to select the products displayed on the current page.

**Note:** To clear the selection, click the **Unselect Visible** link.

20. Click the **Save** button.
21. The created profile is saved and listed on the Qoo10 Profile Listing page.  
Or  
Click the **Save and Continue Edit** button to save the created profile and continue editing, if required.  
Or  
Click the **Save and Upload Product** button to save the profile and make ready to upload the product on Qoo10.

## 4.2. Edit the existing Profile

### To edit the existing Profile.

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, point to the **Qoo10** menu.  
The menu appears as shown in the following figure:

3. Click the **Manage Profiles** menu.  
The **Qoo10 Profile Listing** page appears as shown in the following figure:

4. Select the checkboxes associated with the required profiles.
5. In the **Actions** list, select the **Change Status** option.

6. The **Status** field appears next to the **Actions** list.

7. In the **Status** list, select the required option and then click the **Submit** button. The status is changed and a success message appears.

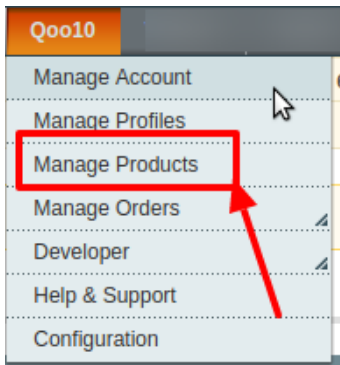

## 5. Manage Products

*The admin can perform the following tasks on the Product Manager page:*

- Validate
- Synchronize
- Upload
- Edit

### To take these actions,

Go to your Magento admin panel.  
 On the top navigation bar, place cursor on **Qoo10**.  
 When the menu appears, click on **Manage Products**.

On clicking the **Manage Products**, you will be navigated to the page as shown below:

**Manage Products**

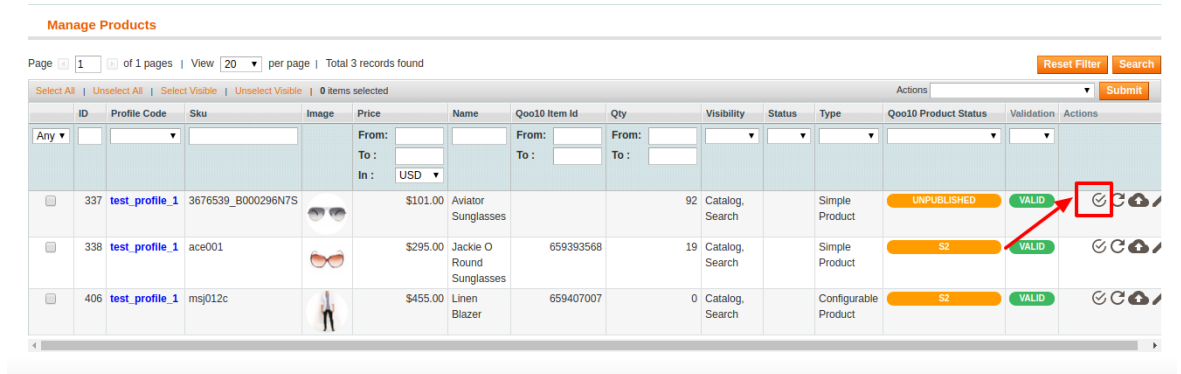

Page 1 of 1 pages | View 20 per page | Total 3 records found

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected

ID	Profile Code	SKU	Image	Price	Name	Qoo10 Item Id	Qty	Visibility	Status	Type	Qoo10 Product Status	Validation	Actions
337	test_profile_1	3676539_B000296N7S		\$101.00	Aviator Sunglasses		92	Catalog, Search		Simple Product	UNPUBLISHED	VALID

- On this page, you may make the changes as required section-by-section.
- Once the changes have been made, click on the **Save** button on the top right side of the page.
- Changes will be made.

**To perform these actions in bulk,**

- To manage multiple or all products, select multiple products by checking the corresponding checkboxes or you may click **Select All option** on the upper left side of the page.
- Now click on **Actions** drop-down on the upper right side of the page. When the menu appears, click on the required option and click the **Submit** button.

- Once the changes have been made, click on the **Save** button on the top right side of the page.
- Changes will be made.

## 6. Manage Orders

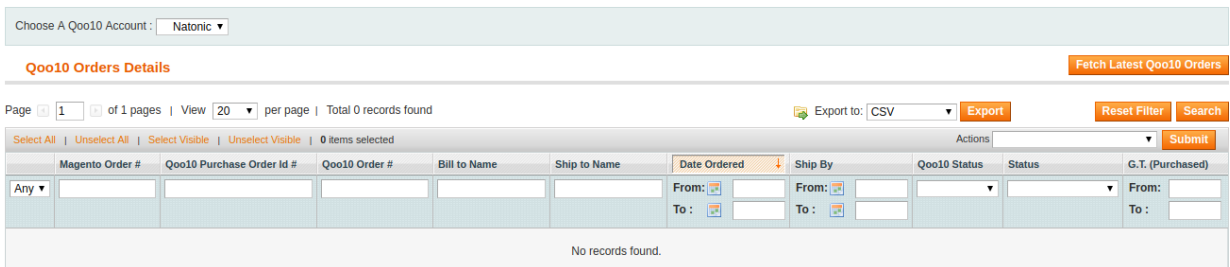

The admin can view all the order details fetched from Qoo10 and then ship the orders if required.

### To view the Qoo10 Orders,

- Go to your Magento admin panel.
- On the top navigation bar, place cursor on **Qoo10**.
- When the menu appears, place the cursor on **Manage Orders**.
- The menu further expands and you need to click on **View Qoo10 Orders**.

- On clicking it, you will be navigated to the page as shown below:

- Click on the **Fetch Latest Qoo10 Orders** button on the top right side of the page.
- The orders will be listed.
- You may see here the Magento Order #, Qoo10 Purchase Order #, Qoo10 order #, Bill to Name, Ship to Name, Date Ordered, Ship By, Order Status, Shipment Status, G.T. (Purchased).

### To Sync Qoo10 order Status,

- On the **Qoo10 Orders Details** page, select the orders by checking the corresponding boxes.
- Click on the **Actions** drop-down on the top right side of the page.
- When the menu appears, select the **Sync Qoo10 Order Status** option.
- Click the **Submit** button next to it.

- Order(s) status will be synced.

### To Resubmit Tracking to Qoo10.

- On the **Qoo10 Orders Details** page, select the orders by checking the corresponding boxes.
- Click on the **Actions** drop-down on the top right side of the page.
- When the menu appears, select the **Resubmit Tracking to Qoo10** option.
- Click the **Submit** button next to it.

- The resubmitted tracking will be done to Qoo10.

### To Delete Order.

- On the **Qoo10 Orders Details** page, select the orders by checking the corresponding boxes.
- Click on the **Actions** drop-down on the top right side of the page.
- When the menu appears, select the **Delete Order** option.
- Click the **Submit** button next to it.

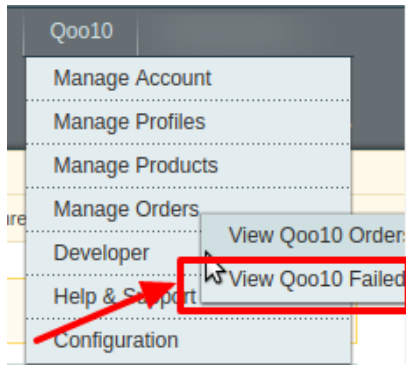

- Orders will be deleted.

## 6.1. View Failed Orders

If an order gets failed, it can be seen on the Magento admin panel itself.

### To see the failed orders.

- Go to your Magento admin panel.
- On the top navigation bar, place cursor on **Qoo10**.
- When the menu appears, place the cursor on **Manage Orders**.
- The menu further expands and you need to click on **View Failed Orders**.

- On clicking it, you will be navigated to the page as shown below:

[Truncate Failed Orders](#)
