## 1. Overview

### *Banggood Prestashop Product Importer*

**CedCommerce Banggood Importer** helps sellers to import Banggood marketplace products in bulk into your Prestashop admin panel. This extension easily manages your product inventory as well as price syncing which plays an important role while selling on the e-commerce marketplace.

#### *Key Features are as follows:*

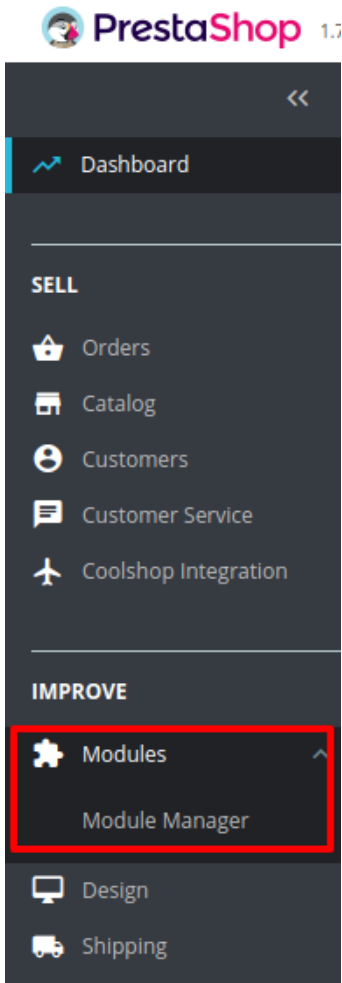

- This extension enables you to import your products from Banggood store into your Prestashop store.
- Import products on the basis of Product ID and category.
- Import Single as well as configurable products from your Banggood store to the Prestashop store.
- Bother-free dynamic attribute creation.
- Price markup.

A seller needs to make smart decisions in order to make the business a huge success, with unprecedented results. Read on to discover more about the uncomplicated procedure of importing Banggood products to Prestashop.

## 2. Install Banggood Prestashop extension

### *To install the module:*

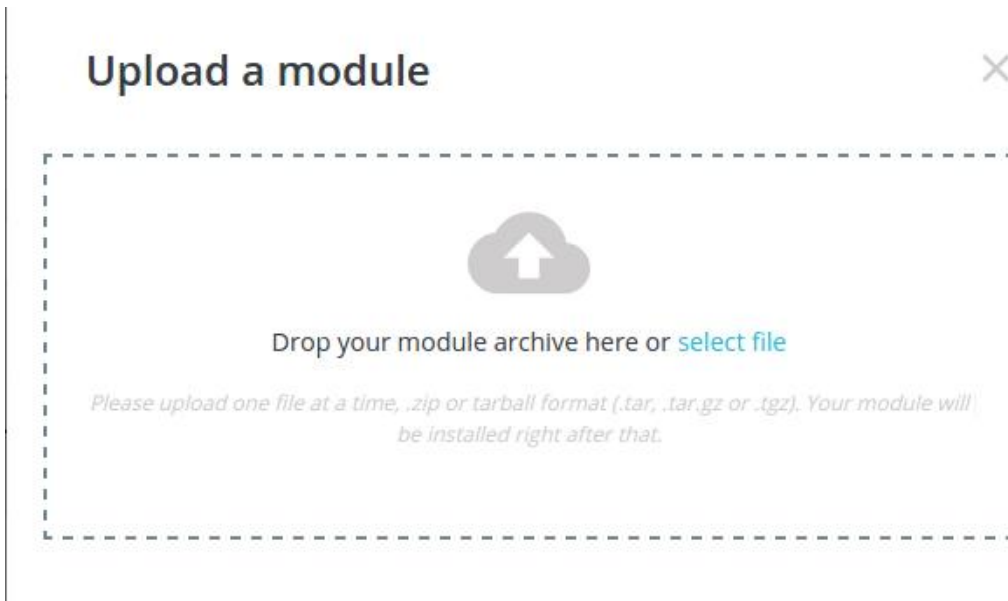

- Go to the **Prestashop Admin panel**.
- On the left navigation bar, point cursor to the **Modules**.  
The menu appears as shown in the following figure:

- Now click the **Modules Manager** menu, and you will come across a page like shown below.

- Now you need to click on **Upload a Module** on the top of the page.
- In doing so, the page opens a section like shown in the image below:

- **Drag and Drop** the module or click the **select file** link to upload the **Banggood PrestaShop Importer** module from your system.
- The module will be installed and you will be navigated to the **Configuration** page for further steps to be taken.

### 3. Banggood Configuration Settings

Once the module has been installed, the first necessary step that needs to be taken by the admin is to complete the Configuration.

#### To do the Configuration Settings

1. Go to the **Prestashop Admin** panel.
2. In the left navigation panel, place cursor on **Banggood Importer** and the section expands as:

3. Now click on **Banggood Configuration**.
