### 1. Overview

AliExpress is a popular online store where items are purchased at far cheaper prices than other marketplaces. Founded in 2010 and owned by Alibaba, a major Chinese multinational corporation concentrating on e-commerce and computing, the store is one of the largest internet companies in the world.

AliExpress Magento Integration by CedCommerce is an eCommerce solution that integrates your Magento store with the AliExpress marketplace. This multichannel selling extension establishes a real-time synchronization between the store and hence make the selling hassle-free. To give sellers a simplified and automated selling experience AliExpress Magento integration is comprised of the various exclusive features.

#### **Key Features:**

- **Profile Based Category Mapping:** Admin can create the profile and then based on those profiles the categories can be mapped.
- Bulk Upload: The admin can upload any number of products in just a single click making it effortless.
- **Realtime Synchronisation:** This integration automatically synchronizes product listing, orders, inventory and pricing at regular intervals.
- Email Notification: For any new order created, the admin is informed via an email about the orders.

### 2. API Creation Process

#### To Create AliExpress App

- 1. Register on AliExpress Account.
- 2. Then Goto the link: https://developers.aliexpress.com/en/doc.htm?docId=108970&docType=1(https://developers.aliexpress.com/en/doc.htm?docId=108970&docType=1)

The window will open as:

Developing documentation FAQ	API Change Log Contact Us Affiliate Developing documentation

Overall flow	Overall flow Updated: 2019-12-04 Visite: 63064
Register as a Seller Register as a Developer & Apply > SDK Tutorials Obtain access token How to Invoke API > Business API guide(Important)	To begin the integration with AliExpress, some previous steps must be completed before regardless of the integration method (Directly from AP I, Prestashop, Magento): Step 1: Register into the AliExpress Platform Step 1.1 Register as a Seller. Use that it might be possible to access with a Buyer account, but the system will not allow creating an application in without a Seller account. Step 1.2 Register as a Developer. In order to create an application, it is first needed to register as a Developer. Once completed you'll be able to o complete the App creation.
> API list	From this point onwards, the process is just meant for those who want to directly integrate with the API. Step 2: Begin technical integration Step 2.2: Obtain access token (session key). Remember the expiration date depends on the type of developer account: Self-Developer lasts a year, while Comercial-Developer only lasts a month. Step 2.1: SDK Download & Use Example. Note that there is more infromation and examples under the list "API List". Step 2.3: How to invoke API (HTTP). Eventhough it is technically possible to call the API directly. We encourage the use of our SDK. Step 2.4: Begin business API integration

3. Now your first need to register as a seller. So Click on **Register as Seller.** Fill out all the required details and you will be registered as an AliExpress seller.

- 4. After the seller account creation, you need to create a Developer Account. For this **Click on Developer Account**.
- 5. Once the developer account is created you need to login to your developer's account and create the app. For creating App, go to the link: https://console.aliexpress.com/?spm=a219a.7386653.0.0.6ee89b718jwe7 0#/app/manager?spm=a219a.7386653.0.0.6ee89b718jwe70&\_k=zjhnns(https://console.aliexpress.com/?s pm=a219a.7386653.0.0.6ee89b718jwe70#/app/manager?spm=a219a.7386653.0.0.6ee89b718jwe70&\_k= zjhnns)
- 6. Once the app is created you can see your **App Key** and **Secret Key**.

### 3. Configuration

#### To Set up Configuration Settings

- 1. Go to the Magento Admin Panel.
- 2. On the top navigation bar, go to the **AliExpress** menu. The menu appears as shown in the following figure:

Aliexpress	)
Manage Profiles	r
Manage Products	1
Manage Orders	4
Developer	1 4
Knowledge Base	4
Help & Support	
Configuration	

#### 3. Click on **Configuration**.

The **Configuration** page appears as shown below:

Aliexpress Integration	Save Config
Aliexpress Api Settings	•
Aliexpress Product Global Settings	•
Aliexpress Product Advanced Price Settings	•
Order Configuration	•
Cron Settings	0

4. Click the Aliexpress Api Settings tab.

The tab is expanded as shown below:

Aliexpress Api Settings		٥

	Aliexpress Orderld Prefix (Ex WM-)	

5. Under AliExpress Api Settings, do the following steps:

- In **Enabled**, select **Yes** to enable the extension.
- In the App Key, copy and paste the app key here that was generated during App creation.
- In the Secret Key, copy and paste the secret key here that was generated during App creation.
- In the Redirect Url, copy this Url in your Aliexpress account.
- Click on **Get Code** button to get the code.
- Click on the Get Token button, and a new page will be opened where access and refresh tokens will be generated.
- Then in the Access Token and Refresh Token fields paste the tokens generated in the previous step.
- In **Default Payment Method** select the payment method from the dropdown menu you want as default.
- In **Default Shipping Method**, select the Shipping method from the menu.
- In **Email Id to Receive Critical Notifications**, enter the mail id on which you wish to receive notifications.
- In Aliexpress Debug mode, select Yes if want to enable logging
- In Aliexpress Customer Email, enter the mail for which the customer will be created.
- In Aliexpress Order Id Prefix, enter the prefix id for the order.
- 6. Now scroll and click on Aliexpress Product Global Settings.

The tab is expanded as:

Aliexpress Product Global Set	tings				٥

	aliexpress.com	m.			
Price Chunk Size	1000				[GLOBAL]
	Provide the cl	hunk size for product price u	pdate to		
	aliexpress.com	m.			

- 7. Under Aliexpress Product Global Settings, do the following steps:
  - In the Select store, select the default store view from the dropdown menu.
  - In Aliexpress Swaches, select Yes to enable Swatch images.
  - In Shipping Settings, set the Shipping region and shipping method.
  - In Auto Image Resizing, select Yes if you want to automatically resize the images.
  - In Feed Size, enter the number of items to be sent to Aliexpress.
  - In Upload Chunk Size, enter the number of chunk size for product upload.
  - In Inventory Chunk Size, enter the chunk size for uploading the product inventory.
  - In Price chunk Size, enter the Chunk Size for Product Price.
- 8. Scroll down and click on Aliexpress Product Advanced Price Settings.

The tab	expands	as shown	below:
---------	---------	----------	--------

Aliexpress Product Advanced F	Price Settings		٥
Aliexpress Product Price	Default Magento Price 🔹	[GLOBAL]	
	Select to send different product price to		
	aliexpress.com		
Fullfillment Lag Time		[GLOBAL]	
	Enter Fullfillment Lag Time for products on Aliexpress		
	A Enter Pulliment Lag Time for products on Alexpress		

- 9. Under Aliexpress Product Advanced Price Settings, do the following steps:
  - In the **Aliexpress Product price**, select the required option. This is to set a different price for all the products as shown in the following figure:
    - Increase by Fixed Price: If selected, then the Modify by Fix Price field appears.
    - Increase by Fixed Percentage: If selected, then the Modify by Percentage Price field appears.

Enter the numeric value to increase the price of the Aliexpress product price by the entered value % of Magento price

For Example: Magento price + 5% of Magento price. Magento Price = 100 Select Increase By Fixed Percentage option Modify by Percentage Price = 5 100 + 5% of 100 = 100 + 5 = 105 Thus, Aliexpress Product Price = 105

- Decrease by Fixed Price: If selected, then the Modify by Fix Price field appears.
- Decrease by Fixed Percentage: If selected, then the Modify by Percentage Price field appears.

Enter the numeric value to decrease the price of the Aliexpress product price by the entered value % of Magento price

For Example: Magento price – 5% of Magento price.

Magento Price = 100

Select Decrease By Fixed Percentage option

Modify by Percentage Price = 5

100 - 5% of 100 = 100 - 5 = 95

Thus, Aliexpress Product Price = 95

- $\circ~$  In Fulfilment Lag Time, enter the lag time.
- 10. Now scroll down to Order Configuration.
  - The tab is expanded as:

- 13. Under Cron Settings, do the following steps:
  - In Cron Settings override, select Yes if you wish to override the cron settings.
  - In Enable Order Cron, select Yes to enable the orders cron.
  - In Enable Status Sync Cron, select Yes if you want to enable the status syncing cron.
  - In Enable Inventory Cron, select Yes to enable the inventory cron.
  - In Enable Price Cron, select Yes if you want to enable the Price Cron.
- 14. Click on **Save Config** button on the top right side. The configuration will be saved.

## 4. Manage Profiles

#### To Manage Profiles, admin can do the following tasks:

- 1. Add a New Profile
- 2. Edit Existing Profile
- 3. Delete the Profile
- 4. Change Status of Profile

### 4.1. Add New Profile

#### To Add a New Profile

- 1. Go to the Magento Admin Panel.
- 2. On the top navigation bar, go to the **AliExpress** menu.
- The menu appears as shown in the following figure:

Aliexpress	
Manage Profiles	
Manage Products	X
Manage Orders	4
Developer	4
Knowledge Base	4
Help & Support	
Configuration	

3. Click on Manage Profiles.

The Manage Profile page appears as shown below:

Aliexp	press Profile Listing	er page   Total 8 records found				_	_	Reset Fil	t New Profile ter Search
Select All	Unselect All   Select Visible   Unselect V	/isible   0 items selected					Action	IS	Submit
	ID † Profile Name	Status		Profile Category	Profile Sub Category	Total Item	Uploaded	Not Uploaded	Actions
Any 🔻			T

	28	Active			1	0	0 [0%]	0	•
	29	Active			4	0	0 [0%]	0	
	30	Active			1	0	0 [0%]	0	•

#### 4. Click on Add New Profile.

The **Add New Profile** Page as shown below:

Profile Information					
Profile Info					-
Aliexpress Category Mapping	Add Aliexpress Profile			Back Reset Save	Save and Continue Edit
Profile Products	Profile Information				
	Profile Code *	For internal use. Please use only letters (a-z), (0-9) or underscore() in this field, first charac should be a letter	, numbers cter		
	Profile Name *	A Give some name to profile to identify them			
	Status *	Inactive	•		
		Make active to enable the profile			

5. .In the right panel, under **Profile Information**, do the following steps:

- In the Profile Code box, enter a profile code.
   Note: It is only for internal use. Use the unique profile code with no spaces. Start with small letters.
- In the **Profile Name** box, enter the name of the profile. **Note:** Use the unique name to identify the profile.
- In the **Status** list, select Active to enable the profile. **Note**: The Inactive option disables the profile.
- 6. Click the Save and Continue Edit button.
- 7. In left navigation panel, click the **Aliexpress Category Mapping**. The page appears as shown:

Profile Information			
Profile Info			
Aliexpress Category Mapping	Add Aliexpress Profile		Back Reset Save Save and Continue Edit
Profile Products	Allexpress Category Mapping Select Preferred Allexpress Category to be Mapped Please Choose Category    Allexpress / Magento Attribute Mapping (Required/Optional mapping) Map Attribute for Allexpress and Magento attribute Required Attribute Allexpress Attribute Magento Catalog Attribute Default Value	Action 3 Add Attribute	

8. In the right panel, go to the Aliexpress Category Mapping and do the following steps:

- In the **Category** list, select the required Aliexpress category that the admin wants to map.
- Depending upon the selected category, the Aliexpress and the Magento attributes appear under the Aliexpress/ Magento Attribute Mapping (Required/ Optional mapping) section. Now you can map the Aliexpress Attributes to Magento attributes.
- 9. Click the Save and Continue Edit button.

10. In left navigation panel, click the **Profile Products.** The page appears as shown:

Profile Information													
Profile Info													_
Aliexpress Category Mapping	Add	Aliex	press Pro	ofile				Back	Reset	Save	🕑 Sa	ive and Continue	Edit
