1. Overview

Allegro is one of the most popular eCommerce marketplaces in Poland with more 125k registered sellers and retailers selling to 21 million registered customers. Allegro is contributing greatly towards eCommerce in Poland and has 1 million products currently live under a wide range of categories and sub-categories.

CedCommerce's Allegro Integration for Magento is a tool to sell on Allegro marketplace directly via your Magento panel with multiple automated features like synchronized inventory, orders, products and much more. This is an API based eCommerce connector that establishes a real-time communication channel between the API of Magento and Allegro store. This Allegro Magento integration comes with various efficient tools for you to achieve simplified selling.

Key Features:

Bulk Product Upload System: This eCommerce tool provides the flexibility to upload the products in bulk on allegro.pl.

Profile-based Product Upload: Enables the admin to create a profile based on the single category, and then assign the products to the profile to automate the product upload.

Synchronized Inventory: At regular intervals, this Allegro Magento Integration automatically synchronizes the product listing, order, inventory, and pricing

Return & Refunds: The return and refund policy is easily executed by the extension as the original payment is refunded and is processed back for purchasing the order.

Product Management: This feature enables you to upload the product from your Magento store to allegro.pl in categories that Allegro allows to list.

Notifications: The notifications on email are received by the admin of the new order creation, low stock, and if any of the order is rejected during the uploading from Allegro.

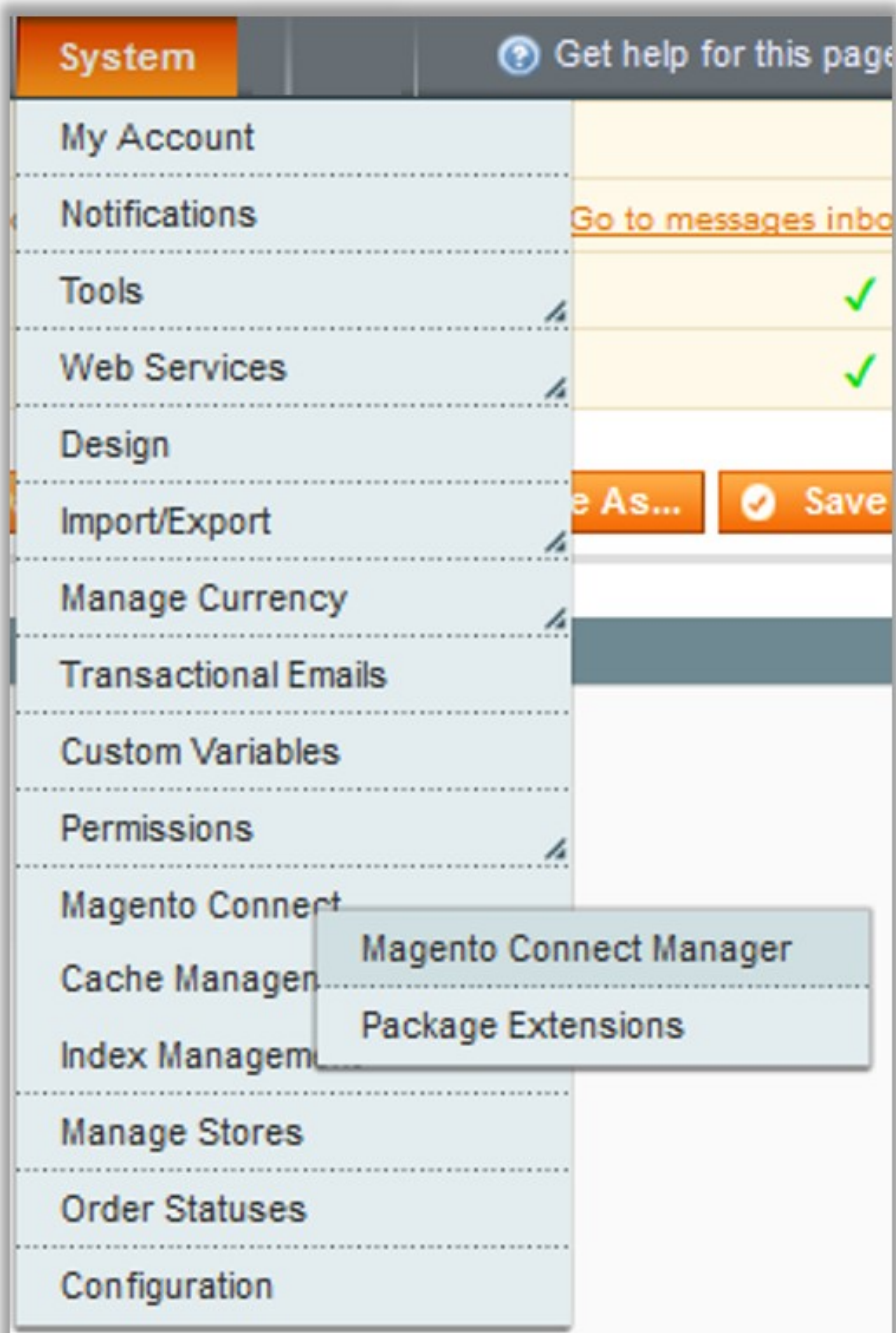

Real-Time Synchronisation: The synchronization of inventory is automated that provides access to real-time reports of order and inventory that results in the reduction of errors.

Streamline Order Processing: With the embedded crons the sales order and purchase are done that makes the selling on Allegro efficient.

2. Installation of Allegro Magento Integration

To begin with, the installation of the extension follow the given steps:

1. Go to the **Magento Admin Panel**.
2. On top, you will find a navigation bar. Point to the **System** menu. You will see a drop-down menu like this,

3. Point to the **Magento Connect** menu, and then click on **Magento Connect Manager**.
The page then appears as shown in the following figure:

Magentoconnect MANAGER

[Extensions](#) [Settings](#) [Return to Admin](#) [Log Out](#)

Settings

☒ Put store on the maintenance mode while installing/upgrading/backup creation

☐ Create Backup

Install New Extensions

1 Search for modules via [Magento Connect](#).

2 Paste extension key to install: [Install](#)

Direct package file upload

1 Download or build package file.

2 Upload package file: [Browse...](#) No file selected. [Upload](#)

Manage Existing Extensions [Check for Upgrades](#)

Channel: Magento Community Edition [Commit Changes](#)

Clear all sessions after successfull install or upgrade: ☐

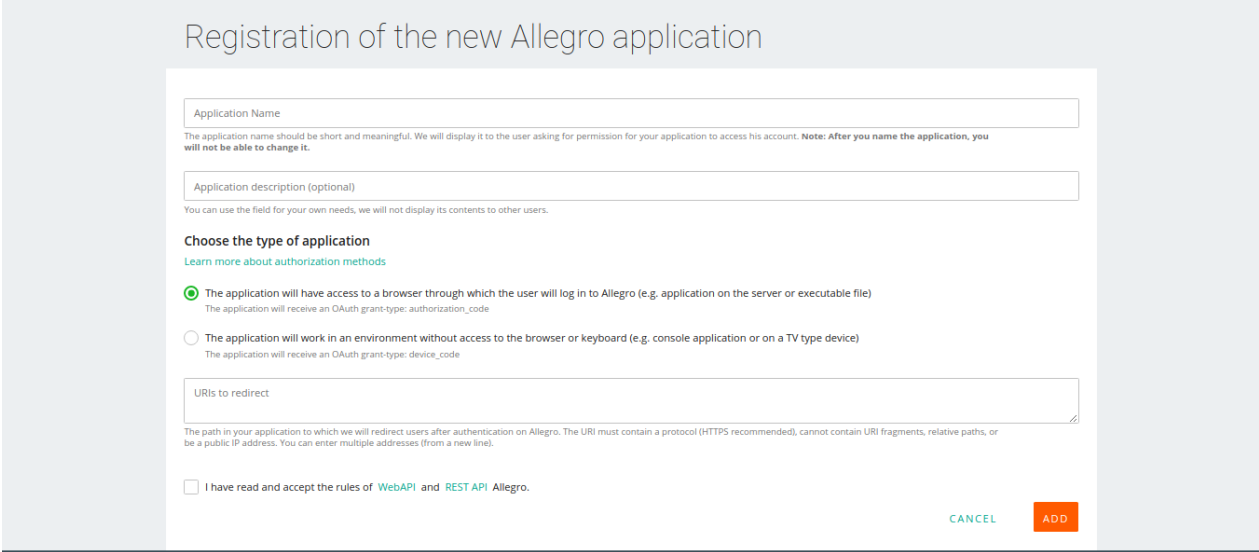

Package Name	Installed	Actions	Summary
Cm_RedisSession	1.9.2.4 (stable)	<input type="text" value="v"/>	Redis session
Interface_Adminhtml_Default	1.9.2.4 (stable)	<input type="text" value="v"/>	Default interface for Adminhtml
Interface_Frontend_Base_Default	1.9.2.4 (stable)	<input type="text" value="v"/>	This is a Magento themes base
Interface_Frontend_Default	1.9.2.4 (stable)	<input type="text" value="v"/>	Default interface for Frontend

4. Scroll down to the **Allegro_Integration** Package.
5. In the **Actions** column, select the **Install** option from the list.
6. Click the **Commit Changes** button.
7. The auto-scroll console contents screen appears and the extension is installed after the process.

3. Retrieve the Client Id and Client Secret Key

To retrieve the Client Id and Client Secret Key:

- Login to your Allegro seller panel.

Registration of the new Allegro application

Application Name

The application name should be short and meaningful. We will display it to the user asking for permission for your application to access his account. **Note: After you name the application, you will not be able to change it.**

Application description (optional)

You can use the field for your own needs, we will not display its contents to other users.

Choose the type of application

[Learn more about authorization methods](#)

☒ The application will have access to a browser through which the user will log in to Allegro (e.g. application on the server or executable file)
The application will receive an OAuth grant-type: authorization_code

☐ The application will work in an environment without access to the browser or keyboard (e.g. console application or on a TV type device)
The application will receive an OAuth grant-type: device_code

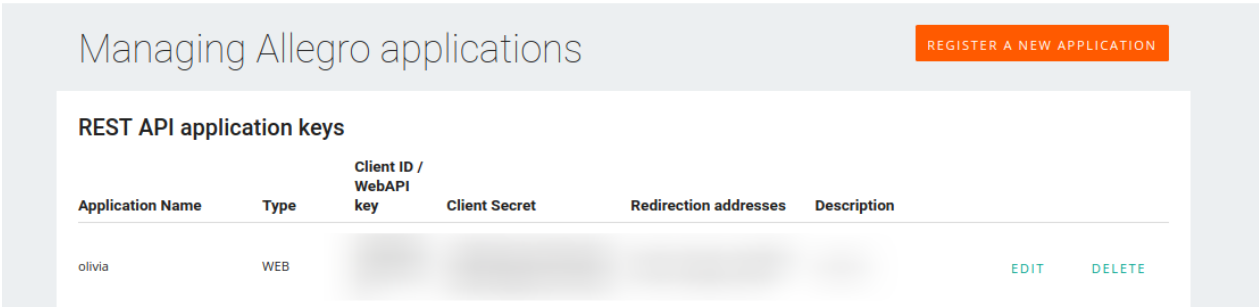

URIs to redirect

The path in your application to which we will redirect users after authentication on Allegro. The URI must contain a protocol (HTTPS recommended), cannot contain URI fragments, relative paths, or be a public IP address. You can enter multiple addresses (from a new line).

☐ I have read and accept the rules of [WebAPI](#) and [REST API](#) Allegro.

[CANCEL](#) [ADD](#)

- **Register** for the new Allegro Application by entering the **Application Name**, **Application Description**, **choosing the type of application**.
- Paste the **Redirect Url** here which you had copied earlier into the Url to redirect section.
- Then by accepting the rules click on **ADD**.
- After adding the navigation window appears as shown below where you get your **Application Name**, **Type**, **Client Id**, and **Secret Key**:

Managing Allegro applications [REGISTER A NEW APPLICATION](#)

REST API application keys

Application Name	Type	Client ID / WebAPI key	Client Secret	Redirection addresses	Description	
olivia	WEB					EDIT DELETE

- Now you can copy the **client Id** and **Secret key** from here and paste it in the API settings.

4. Allegro Configuration Settings

After obtaining the **API credentials** from the Allegro Seller account, the Magento store owner has to paste them in the respective fields displayed on the **Allegro Configuration** page of the admin panel.

To set up the configuration settings in the Magento Admin panel

- Go to the **Magento Admin** panel.
- On the top navigation bar, point to the **Allegro** menu.
- The menu appears as shown in the following figure:

- Click **Configuration**.
- The **Allegro Configuration** page appears as shown in the following figure:

- Click the **Allegro Settings** tab.
- The tab is expanded and the relevant field appears under the **Allegro Settings** section.

Allegro Settings		
Enabled	Yes ▼	[WEBSITE]
Client Id	<input type="text"/>	[GLOBAL]
Client Secret	<input type="text"/>	[GLOBAL]
Redirect URI	<input type="text"/> ▲ Redirect URI Of Your App should be http://yourdomain/allegro/authorize/code	[GLOBAL]
<div>Get Token</div> <p>▲ After Adding a new Client ID and Client Secret, press the Get Token button to create token in order to make synchronization process complete.</p>		
<div>Refresh Token</div> <p>▲ Refresh If getting error message like token expire etc.</p>		
Code	<input type="text"/>	[GLOBAL]
Access Token	<input type="text"/>	[GLOBAL]
Refresh Token	<input type="text"/>	[GLOBAL]
Select Store	Default Store View ▼	[GLOBAL]
▲ Select store.		

- Under **Allegro Settings**, do the following steps:
 - In the **Enabled** list, select **Yes** to enable the extension features.
 - Enter the **Client Id** and **Client Secret** Key which can be retrieved from your Allegro Seller panel dashboard.
 - In **Redirect URL**, enter the Url of your store.
 - Now Click on **Get Token** to create token in order to make the synchronization process complete.
 - The field below are automatically filled.
 - The token gets expired within the span of 2 hours, so click on **Refresh Token** in that case.
 - In **Select store**, select the default view of your store.
- Click the **Allegro Pickup Location Settings** tab.
- The tab is expanded and the relevant fields appear under the **Allegro Pickup Location Settings** section as shown in the following figure:

Allegro Pickup Location Settings		
Country Code	PL ▲ Enter a pickup country Code. If Poland then PL	[GLOBAL]
Province	DOLNOSLASKIE ▼ ▲ If country Code Is PL then Select Provinces	[GLOBAL]
City	Poznań	[GLOBAL]
Post Code	60-166	[GLOBAL]

- In the section of Allegro Pickup Location Settings,
 - Enter your **Country Code** in the section.
 - In **Province**, select the province on the basis of your selected country.
 - Then enter the **City**.
 - In **Post Code**, enter the postal code of the city.
- Now, Click the **Allegro Shipment Settings** tab.
- On clicking, the tab is expanded and the relevant fields appear under the **Allegro Shipment Settings** section:

Allegro Shipment Settings		
Shipment Time	<input type="text" value="1"/>	[GLOBAL]
▲ Enter days to ship a product in number like 1 for 1 Day delivery		
First Time Shipment Price	<input type="text" value="10"/>	[GLOBAL]
Next Time Shipment Price	<input type="text" value="20"/>	[GLOBAL]
MaxQuantityPerPackage To Delivery	<input type="text" value="10"/>	[GLOBAL]
▲ Enter Maximum Qunatity to per package for delivery		

- Enter the **Shipment Time** in how many days you want the delivery to be done.
 - In the **First Time Shipment Price**, enter the price of shipping for the first time.
 - Now in **Next Time Shipment Price**, enter the amount of price for the next time.
 - In MaxQuantityPerPackage To Delivery, enter the maximum quantity for the package delivery.
- Now click on **Order Settings**, and the section expands as shown:

Order Settings		
Retrieve a List of events to retrieve order details	<input type="text" value="100"/>	[GLOBAL]
▲ If Retrieve 100 historical events after a particular event Enter 100		
Retrieve a List of events to retrieve order details Using Status	<input type="text" value=""/>	[WEBSITE]
▲ Retrieve 100 historical events of a particular type		
Default Zip Code For Allegro Orders	<input type="text" value=""/>	[GLOBAL]
▲ Default Zip Code To Create Allegro Orders in Magento.		
Cancel Order on Allegro On Order Cancel In Magento	<input type="text" value="No"/>	[WEBSITE]
▲ If you set this setting to yes, then request for cancel will go to Allegro when you cancel magento orders. If you set to NO, then cancel request will not be sent to Allegro.		

- In the **Retrieve a List of events** to retrieve order details, select the frequency of previous orders you want to keep in history.
- In **Retrieve a List of events** to retrieve order details **Using Status**, choose the status between the bought, filled in and ready for processing.
- In the **Default Zip Code For Allegro Orders**, enter the default ZIP code for received orders.
- Choose yes or no if you want to **Cancel Order on Allegro On Order Cancel In Magento**.

- Click on the Allegro Product Price Settings and the section expands as:

Allegro Product Price Settings		
Allegro Product Price	<div>Default Magento Price ▼</div> <div>▲ Select to send different product price to Allegro.com</div>	[GLOBAL]
Round Off Final Product Price	<div>No ▼</div> <div>▲ Enable To Round off the Final Product Price to be uploaded in case of decimal values.</div>	[GLOBAL]

- In the **Allegro Product Price** select the required option. This is to set a different price for all the products as shown in the following figure:
 - **Increase by Fixed Price:** If selected, then the **Modify by Fix Price** field appears.
 - **Increase by Fixed Percentage:** If selected, then the **Modify by Percentage Price** field appears. Enter the numeric value to increase the price of the Allegro product price by the entered value % of Magento price
For Example: Magento price + 5% of Magento price.
 Magento Price = 100
 Select **Increase By Fixed Percentage** option
Modify by Percentage Price = 5
 $100 + 5\% \text{ of } 100 = 100 + 5 = 105$
 Thus, Allegro Product Price = 105
 - **Decrease by Fixed Price:** If selected, then the **Modify by Fix Price** field appears.
 - **Decrease by Fixed Percentage:** If selected, then the **Modify by Percentage Price** field appears. Enter the numeric value to decrease the price of the Allegro product price by the entered value % of Magento price
For Example: Magento price – 5% of Magento price.
 Magento Price = 100
 Select **Decrease By Fixed Percentage** option
Modify by Percentage Price = 5
 $100 - 5\% \text{ of } 100 = 100 - 5 = 95$
 Thus, Allegro Product Price = 95
- You can **Round Off Final Product Price** by selecting Yes.

- Click on Developer Settings.
- The section expands as shown below:

Developer Settings		
Debug Mode	Yes ▼ <small>▲ Enable Milbre debug mode for logging.</small>	[GLOBAL]
Product Chunk Size	25	[WEBSITE]

- In the **Debug** option enable or disable to get create a log of all the activites performed. This is a nice way of rectifying the errors.
 - Choose the **Product Chunk Size** by entering the value in the next column.
- Now move to the **Cron Settings**.
 - Click and the section expands as shown below:

Cron Settings		
Enable Order Cron	Yes ▼ <small>▲ Order Cron Enable/Disable</small>	[WEBSITE]
Order Cron	<input type="text"/> <small>▲ Please Enter cron expression to execute cron</small>	[GLOBAL]
Enable Inventory Cron	Yes ▼ <small>▲ Inventory Cron Enable/Disable</small>	[WEBSITE]
Inventory Sync Cron	<input type="text"/> <small>▲ Please Enter cron expression to execute cron</small>	[GLOBAL]

- Select if you want to enable/disable the cron for **orders/ inventory sync** and **enter the desired values for the respective cron's execution**.
- Click on **Save Config** to save the entered details.

5. Manage Allegro Profiles

Note: Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento attributes to the Allegro attributes. These attributes are applicable to all the products that are assigned to the profile.

In Manage Profiles, Admin can do the following tasks:

- Add new profile
- Edit the existing profile

- Delete the profile
- Submit Actions from the Allegro Profile Listing Page

5.1. Add New Profile

To Add A New Profile:

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the Allegro tab, and then point to the **Manage Profiles** menu.

The menu appears as shown in the following figure:

3. Click **Manage Profiles**. The **Allegro Profile Listing** page appears as shown in the following figure:

4. Click the **Add New Profile** button. The **Add Allegro Profile** page appears as shown in the following figure:

5. In the right panel, under **Profile Information**, do the following steps:

1. In the **Profile Code** box, enter a profile code.
Note: It is only for internal use. Use the unique profile code with no spaces. Start with small letters.
2. In the **Profile Name** box, enter the name of the profile.
Note: Use the unique name to identify the profile.
3. In the **Status** list, select **Active** to enable the profile.
Note: The Inactive option disables the profile.

6. Click the **Save and Continue** button.

7. To add products with Category Id, Click on Search Allegro Products and the section opens up as:

- Enter the Allegro **Category Id** of the desired Products.
- Enter the **Phrase** associated with the Id.

8. You can map the **Allegro attribute** with the desired Magento attributes by clicking on Allegro settings:

- Under **Allegro Attribute** select the desired attribute you want to associate with the profile.
- Choose the **Magento Catalog Attribute** you wish to map from the drop down menu.
- Enter the **default values** in the next column.

9. Now move to the Allegro Default Mapping section.

Add Allegro Profile Back Reset Save Save and Continue Edit

Allegro / Magento Default Mapping

Map configurable attributes to magento attribute

Allegro Attribute	Magento Catalog Attribute	Default Values

Tytuł	[Set default value]		
Autor	[Set default value]		
Wydawnictwo [select]	SKU		
Okładka [select]	Special Price		
Rok wydania	Name		Delete

Add Attribute

- Under **Allegro Category mapping**, choose the desired category and sub-category.
- Under **Allegro / Magento Attribute Mapping (Required / Optional mapping)** perform the desired mapping.
- You can also add new attributes by clicking on **Add Attribute Button**.

11. Click on **Save Button** to successfully create a profile with all these mappings.

5.2. Edit An Existing Profile

To edit the existing profile

1. Go to the **Magento Admin** panel.
2. On the top navigation bar, move the cursor over the **Allegro** tab, and then point to the **Manage Profiles** option and click on it. The menu appears as shown in the following figure:

3. The **Allegro Profile Listing** page appears as shown in the following figure:

Allegro Profile Listing Add New Profile

- On this page, you may make the changes as required section-by-section.
- Once the changes have been made, click on the **Save** button on the top right side of the page.
- Changes will be made.

Mass Action On Products:

From mass action you can perform the following actions on the selected products:

- Upload Products
- Create Offer on Products
- Update Offer and Stock
- Delete Offer

To do so:

- Select all the products you wish to perform mass action on by checking the checkboxes associated with the products.
- Or you may click **Select All** option on the upper left side of the page.
- Now click on **Actions** drop down on the upper right side of the page.

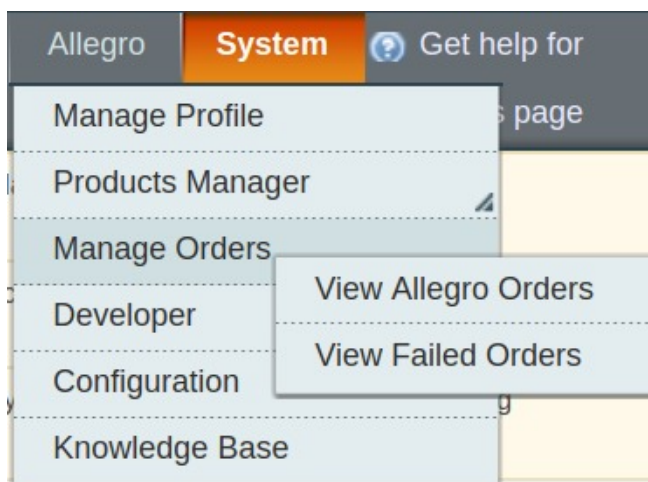

- When the menu appears, click on the desired action.
- Click **Submit** button.

7. Allegro Orders

Using the Allegro Integration for Magento Extension by us, you may fetch and view the Allegro orders.

To view the Allegro Orders,

- Go to your Magento admin panel.
- On the top navigation bar, place cursor on **Allegro**.
- When the menu appears, place cursor on **Manage Orders**.
- The menu further expands and you need to click on **View Allegro Orders**.

- On clicking it, you will be navigated to the page as shown below:

- On this page, you may see the activity logs and its details such as Id #, Channel, Message, Date & Time, Level, Level Name, and Context.

To delete the Allegro Activity Logs,

- Select the logs to be deleted by checking the corresponding boxes.
- If you want to delete all the logs, click **Select All** on the upper left side of the page above log list.

- Now click on the Actions drop down on the upper right side of the page.
- When the menu appears, click **Delete Logs**.

- Now click **Submit** button.
- The selected activity logs will be deleted.

To delete all the logs at once,

- Click on **Truncate** button on the top right side of the page.

- All the activity logs will be cleared.

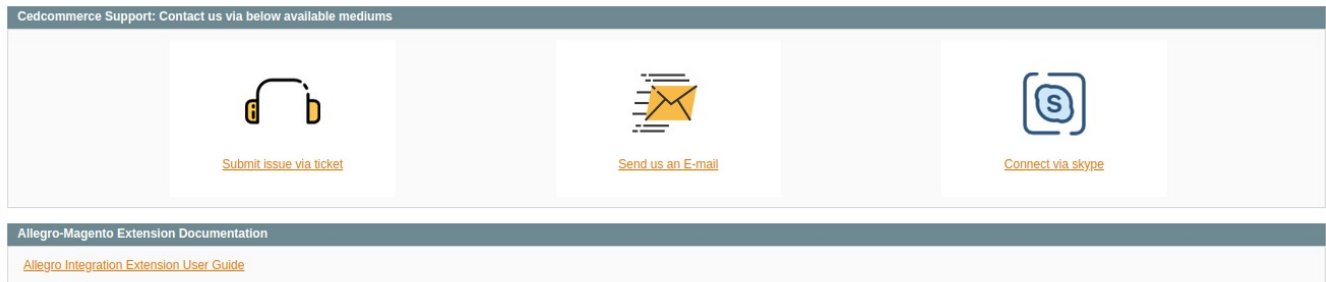

9. Allegro Knowledgebase

For knowledge base which includes help and support from CedCommerce,

- Go to your Magento admin panel.
- On the top navigation bar, place cursor on **Allegro**.
- When the menu appears, click on **Knowledge Base**.

- On clicking, you will be navigated to the page as shown below:

- Under the **CedCommerce Support: Contact us via below available mediums**, you may see the different ways to get in touch with us.
- Click **Submit issue via ticket** and you will be navigated to our website where you just need to raise a ticket and we will be there to help you in no time.
- Click **Send us an E-mail** and your mailbox will get opened and you may mail us your question or query.
- Click **Connect via Skype** and you will be able to join us on Skype instantly where we are available 24x7.
- Under **Allegro-Magento Extension Documentation**, click **Allegro Integration Extension User Guide** and you will be able to see our user guide using which you may know how to integrate your Magento store with Allegro easily.
