## 1. Overview

Discogs is a famous marketplace in the US that specializes in selling recording formats, genres, and music styles. For music enthusiasts, this is the best marketplace with 4,58,000 active contributors and with a catalog of 100 million recordings. The Discogs marketplace was launched in the year 2000 by a programmer, DJ, and music fan Kevin Lewandowski.

Discogs Magento 2 Integration by CedCommerce is an eCommerce solution to integrate your Magento 2 store with the Discogs marketplace. This integration helps the sellers in automating their selling process and gives a seamless selling experience. This multichannel integration is packed with the latest and innovative eCommerce features to simplify the selling on the Discogs marketplace.

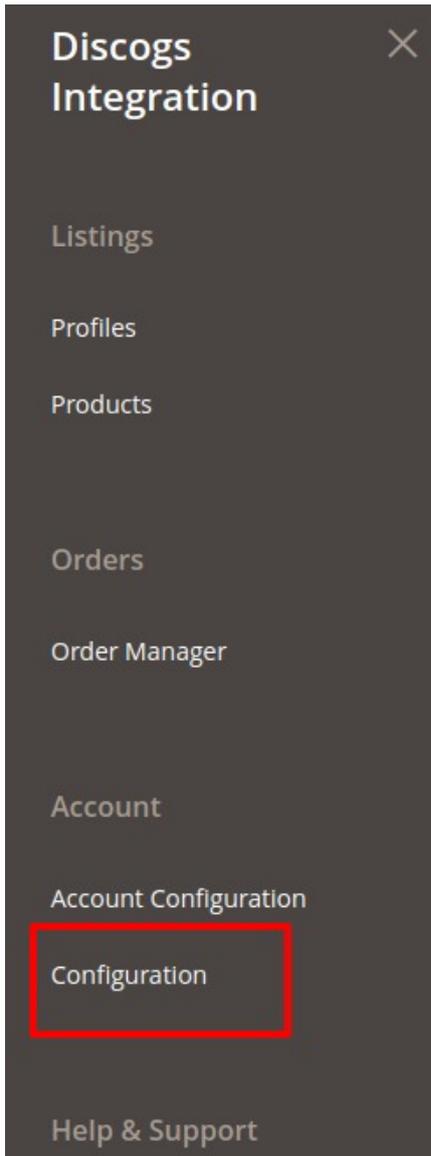

### Key Features:

- **Profile Based Product Upload:** This feature enables admin to create a profile, and after assigning products to the profile can easily upload on Discogs.com.
- **Product Category Mapping:** Follows many to one category mapping philosophy. Admin can map many categories of Magento 2 to a single category of Discogs.
- **Email Notification:** Whenever a new order is created the admin is notified via email.
- **Automated Synchronization:** The orders are automatically imported and synchronized at regular intervals of time
- **Auto Acknowledgement of Order:** Admin receives an acknowledgment of Orders automatically as soon as orders are created
- **Bulk Product Upload System:** Admin has an ability to upload the number of products on Discogs.com using the bulk product upload feature.

## 2. Configuration

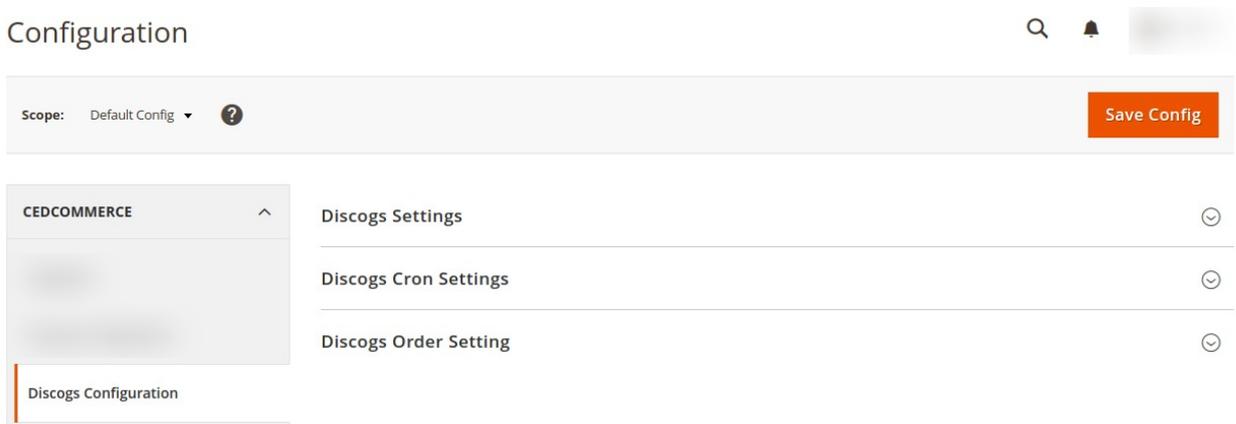

### To Setup Discogs Integration Configuration Settings,

1. Go to the **Magento 2 Admin panel**.
2. On the left navigation bar click the **Discogs Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Configuration**.

The **Configuration** page appears as shown in the following figure:

4. In the right panel click the **Discogs settings** tab.

The **Discogs Settings** tab is expanded and the relevant fields appear as shown below:

#### Discogs Settings

Enabled [global] Yes

5. Under the **Discogs Settings** tab, do the following steps:

- In the **Enabled** list, select the **Yes** option.

6. Scroll down and click on to the **Discogs Cron Settings** tab.

The **Discogs Cron Settings** tab is expanded as shown below:

#### Discogs Cron Settings

Order Cron [global] Enable

Order import cron. By default set to import orders every 15 mins.

7. Under **Discogs Cron Settings**, do the following steps:

- In the **Order Cron**, select the **Enable** option to fetch the orders.

8. Scroll down and click on the **Discogs Order Setting** tab.

The **Discogs order Settings** tab is expanded as shown below:

#### Discogs Order Setting

Status for auto import [global] All

Cron auto import order from Discogs for the selected "Discogs Status".

Discogs Order Id Prefix [global]

Prefix for Discogs Order Increment ID

Order Notification Email [global]

Create Real Customer [global] Yes

Order Fetch For Out Of Stock Product [global] Yes

Create New Product (if Not Exist) [global] Yes

Create New Product if SKU not found in Magento Store

Auto Order Fetch [global] No

Auto fetch order from Discogs

9. Under the **Discogs order settings** tab, do the following steps:
- In **Status for Auto Import**, select the Discogs order status from the dropdown menu.
  - In **Discogs Order Id Prefix**, enter the required order id prefix.
  - In **order Notification Email**, enter the email id on which you wish to receive notifications.
  - In **Create Real Customer**, select **Yes** if you want the customer's details to be the same. If you select **No** then the section is expanded as:

**Create Real Customer** [global]

**Customer First Name** [global]

**Customer Last Name** [global]

**Customer Group** [global]

**Customer Email** [global]

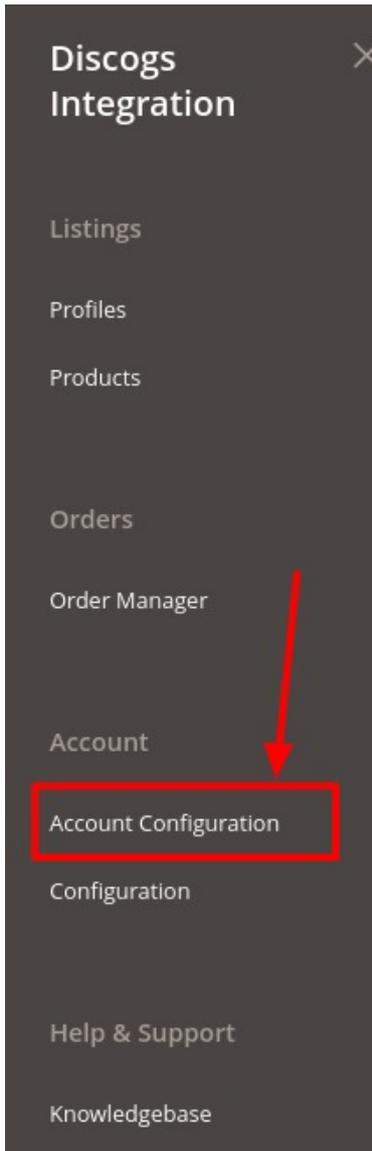

**Customer Password** [global]

- Now in **Customer First Name**, enter the first name of the customer.
  - In **Customer Last Name**, enter the last name of customer,
  - In **Customer Group**, select the group of the customer from the dropdown menu.
  - In **Customer Email**, enter the mail id of the customer.
  - In **Customer Password**, enter the password.
- Now in **Order Fetch for Out of Stock Product**, select **Yes** if you want to fetch the orders for products that are out of stock.
  - In **Create New Product(If not exist)**, select **Yes** if you want to create a new product if it does not exist in the Magento store.
10. Once you are done with these actions click on **Save Config** button.
11. The configuration will be saved.

### 3. Manage Account Configuration

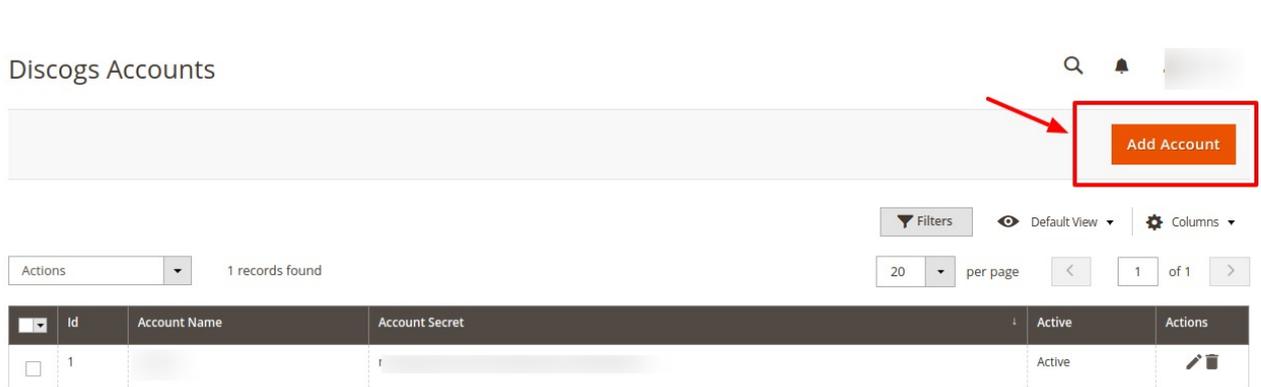

#### To Manage Accounts Configuration,

1. Go to the **Magento 2 Admin panel**.
2. On the left navigation bar click the **Discogs Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Account Configuration**.

The **Account configuration** page appears as shown below:

4. Click on **Add Account**.

The page appears as shown:

← Back Save Save and Continue Edit

---

Account Information

Active \*  Yes

Account Name \*

Default Store \* Default Store View  
Default magento store

Access Token \*

Validate Validate

5. In the **Active** switch the button to **Yes**.
6. In **Account Name**, enter the name.
7. In the **Default Store**, select the view of the store.
8. In Acces Token, follow the steps shown in video and copy the access token and paste it here.  
 (Link to fetch Token: <https://www.discogs.com/developers>(<https://www.discogs.com/developers>)  
 )

<https://docs.cedcommerce.com/wp-content/uploads/2020/04/Tab-Discogs-API-Documentation-1.webm>(<https://docs.cedcommerce.com/wp-content/uploads/2020/04/Tab-Discogs-API-Documentation-1.webm>)

9. Then **Click on Validate**.
10. Now Click on **Save Button**.  
 The new account will be created.

### To Edit an Account,

1. On **Discogs Account Page**, click on **Edit** button for the account that you want to edit as shown in the image below:

Discogs Accounts 🔍 🔔

Add Account

Filters | Default View | Columns

Actions 1 records found 20 per page 1 of 1

Id	Account Name	Account Secret	Active	Actions
1			Active	<span style="border: 2px solid red; padding: 2px;">✎</span>

2. The page will appear as:

## Edit Account

## Account Information

Default magento store

Access Token \*

Validate

3. Make the required changes in the respective fields.
4. Click the **Save** button.  
The edited account will be saved.

**To Delete an Account,**

1. On **Discogs Account** Page, click on **Delete** button for the account that you want to delete as shown in the image below:

## Discogs Accounts

1 records found
 
 per page
  of 1

<input type="checkbox"/>	Id	Account Name	Account Secret	Active	Actions
<input type="checkbox"/>	1	<input type="text"/>	<input type="text"/>	Active	<input type="button" value="Edit"/> <input type="button" value="Delete"/>

2. On clicking it, the selected Discogs account will be deleted and a message will appear on the page.

**4. Manage Profile**

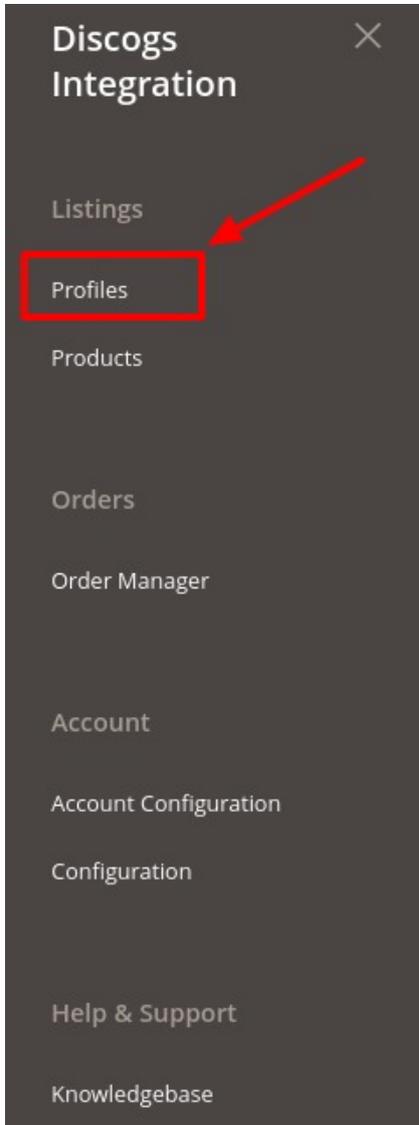

To Manage Profiles, you can do the following tasks:

- **Add a New Profile**
- **Edit Profile**
- **Delete Profile**

**4.1. Add New Profile**

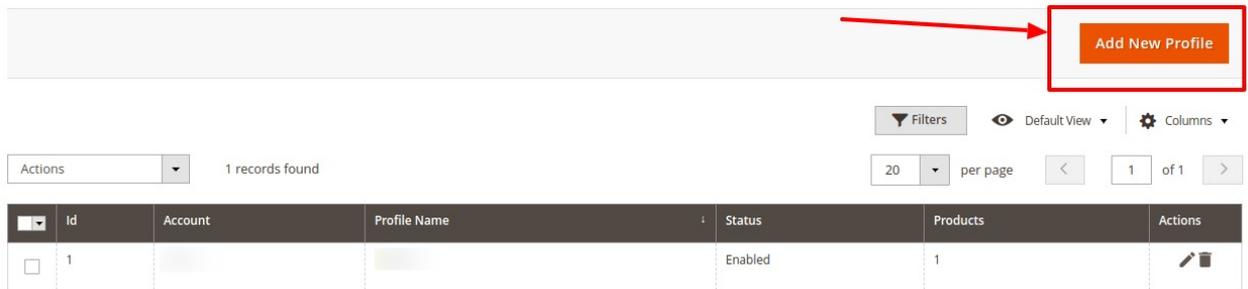

**To Add New Profile,**

1. Go to the **Magento 2 Admin panel**.
2. On the left navigation bar click the **Discogs Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Profile**.  
The **Manage Profile Page** appears as shown below:

## Manage Profile

1 records found

Actions	Id	Account	Profile Name	Status	Products	Actions
<input type="checkbox"/>	1			Enabled	1	

4. Click on **Add New Profile**.

The **New Profile Page** appears as shown below:

## Add Profile

← Back Save Save and Continue Edit

profile Information

Active \*  Yes

Profile Name \*

Default Store \*    
 Default magento store

Mappings ⌵

Products ⌵

5. Under **Profile Information**, do the following steps:

- In **Active**, select **Yes** to enable the profile you are creating.
- In **Profile Name**, enter the name of the profile.
- In **Default Store**, select the store view.

6. Now scroll and click on **Mappings** section.

The section expands as:

Mappings ⌵

Profile Account

Please map all Discogs attributes with Magento attributes.

Discogs Attribute	Magento Catalog Attribute	Default Value	Action
ReleaseId <input type="text"/>	--please select-- <input type="text"/>	<input type="text"/>	
Condition <input type="text"/>	--please select-- <input type="text"/>	<input type="text"/>	

7. Under **Mappings** Section, do the following steps:
  - In **Profile Account**, select the Account.
  - Then map all the **Discogs attributes** with the **Magento Attributes** of the profile.
8. Now Scroll down and click the **Products** section.  
The tab is expanded as:

Products ⌵

Search Reset Filter

Actions ▼ 48 records found 20 ▼ per page < 1 of 3 >

9. Under this section, all the products will be displayed.

## 4.2. Edit a Profile

### To Edit a Profile,

1. Go to the **Magento 2 Admin panel**.
2. On the left navigation bar click the **Discogs Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Profiles**.

4. The **Manage Profile Page** appears as shown below:

The screenshot shows the 'Manage Profile' page. At the top right, there is a search icon, a notification bell, and a user profile icon. Below this is a white bar with an orange 'Add New Profile' button. Underneath are controls for 'Filters', 'Default View', and 'Columns'. A table shows '1 records found' with a '20 per page' selector and pagination for '1 of 1'. The table has columns: Id, Account, Profile Name, Status, Products, and Actions. The first row has Id '1', Status 'Enabled', and Products '1'. The 'Actions' column for this row contains an 'Edit' button, which is highlighted with a red box and a red arrow.

Id	Account	Profile Name	Status	Products	Actions
1			Enabled	1	

5. Select the profile you want to edit and then click on **Edit** button under **Actions** column.  
The Profile editing page appears as shown below:

Edit Profile 🔍 🔔

Mappings ⌵

---

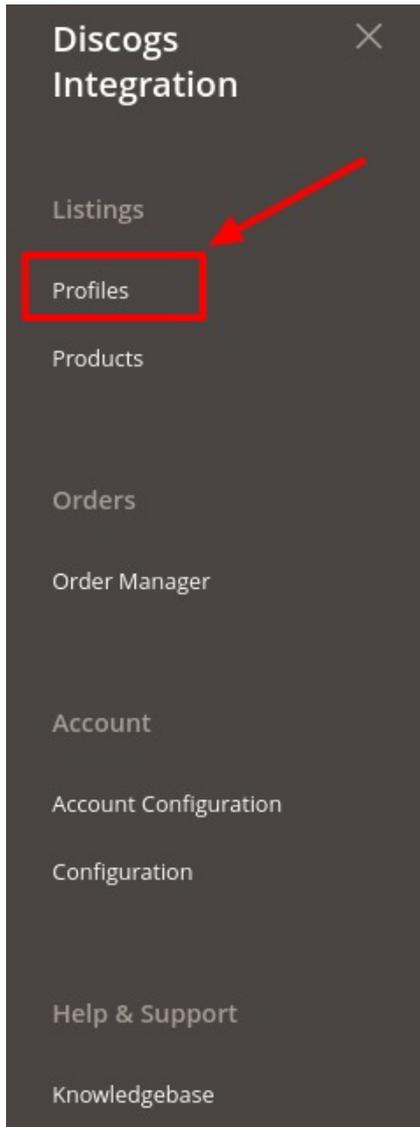

Products ⌵

6. Do the required changes.
7. Click on **Save** button.  
The edited profile is saved.

## 4.3. Delete a Profile

### To Delete a Profile,

1. Go to the **Magento 2 Admin panel**.
2. On the left navigation bar click the **Discogs Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Profiles**.

4. The **Manage Profile Page** appears as shown below:

The image shows the 'Manage Profile' page. It features a search bar, a notification bell, and an 'Add New Profile' button. Below these are filters, a 'Default View' dropdown, and a 'Columns' dropdown. A table displays one record with columns: Id, Account, Profile Name, Status, Products, and Actions. The 'Delete' button in the Actions column is highlighted with a red box and a red arrow.

Id	Account	Profile Name	Status	Products	Actions
1			Enabled	1	

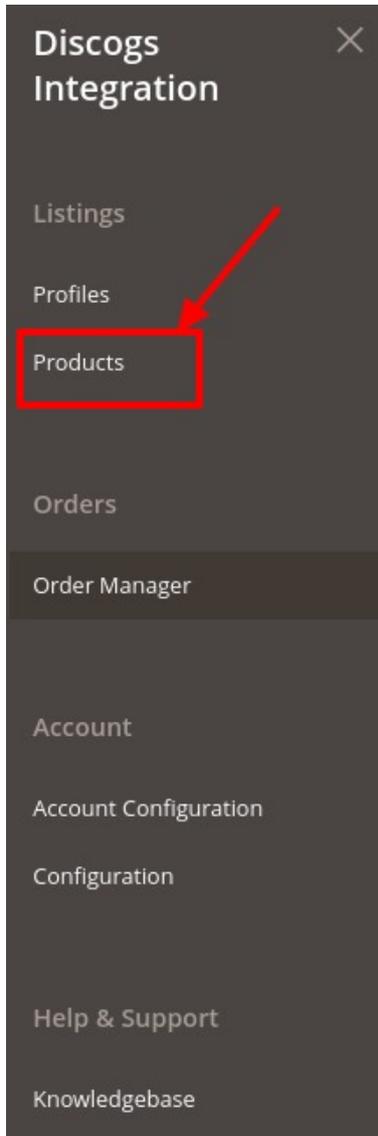

5. Select the profile you want to edit and then click on **Delete** button under **Actions** column.

6. The selected profile will be deleted.

## 5. Manage Products

### To Manage Product Listing,

1. Go to the **Magento 2 Admin panel**.
2. On the left navigation bar click the **Discogs Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Products**.  
The **Products listing** page appears as shown below:

## Discogs Product Listing

3. Edit the required information in the fields.
4. Click on **Save** button.  
The changes are saved.

### To Upload/Update Product(s):

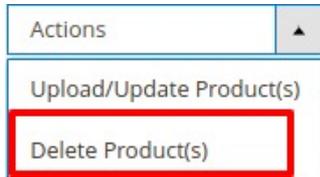

1. In the Product listing page select the product(s) you want to Upload or update.
2. Then click on Arrow button on the Actions. It will expand as:

3. Click on Upload/Update Product(s).  
The selected products will be updated.

**To Delete Product(s):**

1. In the Product listing page select the product(s) you want to delete.
2. Then click on Arrow button on the Actions. It will expand as:

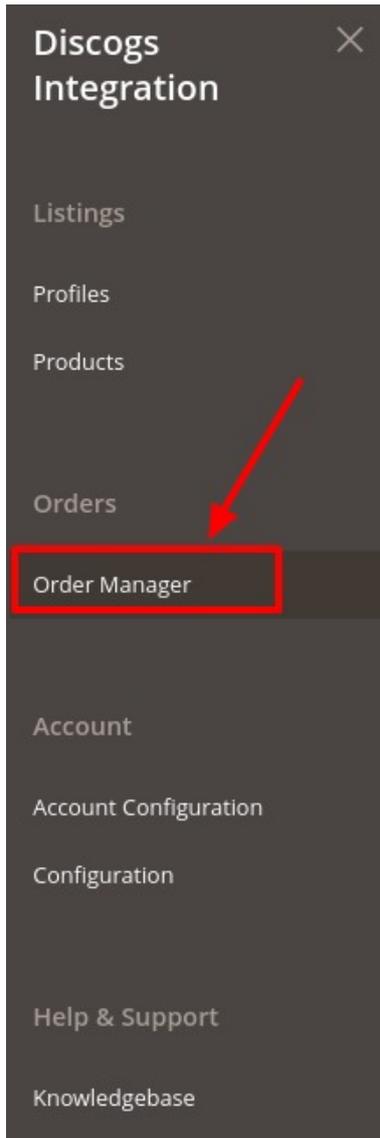

3. Click on Delete Product(s).  
The selected products will be deleted.

## 6. Manage Orders

**To Manage orders,**

1. Go to the **Magento 2 Admin panel**.
2. On the left navigation bar click the **Discogs Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Order Manager**.

The **Order Listing** page appears as shown below:

The image shows the 'Discogs Order List' page. At the top right, there is a search icon, a notification bell, and a user profile icon. Below this is a large light gray button labeled 'Fetch Discogs Orders', which is highlighted with a red box and a red arrow. Below the button are controls for filters, default view, and columns. Below that is a table with 11 columns: Id, Discogs Order Id, Magento Order Id, Order Place Date, Order Status Magento, Shipping Data, Actions, Failure Reson, Discogs Order Status, and Shipping Rate. The table contains two rows of data.

	Id	Discogs Order Id	Magento Order Id	Order Place Date	Order Status Magento	Shipping Data	Actions	Failure Reson	Discogs Order Status	Shipping Rate
<input checked="" type="checkbox"/>	1			2015-01-15	Imported				processing	20
<input type="checkbox"/>	2			2015-01-16	Pre Order				Invoice Sent	11

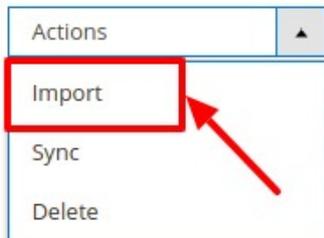

4. To fetch orders, click on **Fetch Discogs orders**.

5. The orders will be fetched and displayed on the order list.

### To Import Orders

1. Select the order from the list you want to import.
2. Click on arrow next to **Actions** button.

A menu appears:

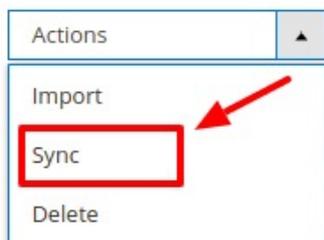

3. Now Click on **Import**.
4. The selected order will be imported.

### To Sync Orders

1. Select the order from the list you want to synchronise.
2. Click on arrow next to **Actions** button.

A menu appears:

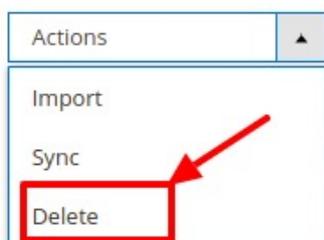

3. Now Click on **Sync**.
4. The selected order will be synchronised.

### To Delete Orders

1. Select the order from the list you want to delete.
2. Click on arrow next to **Actions** button.

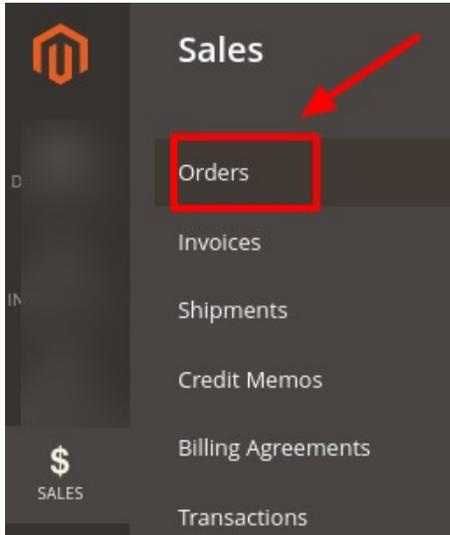

A menu appears:

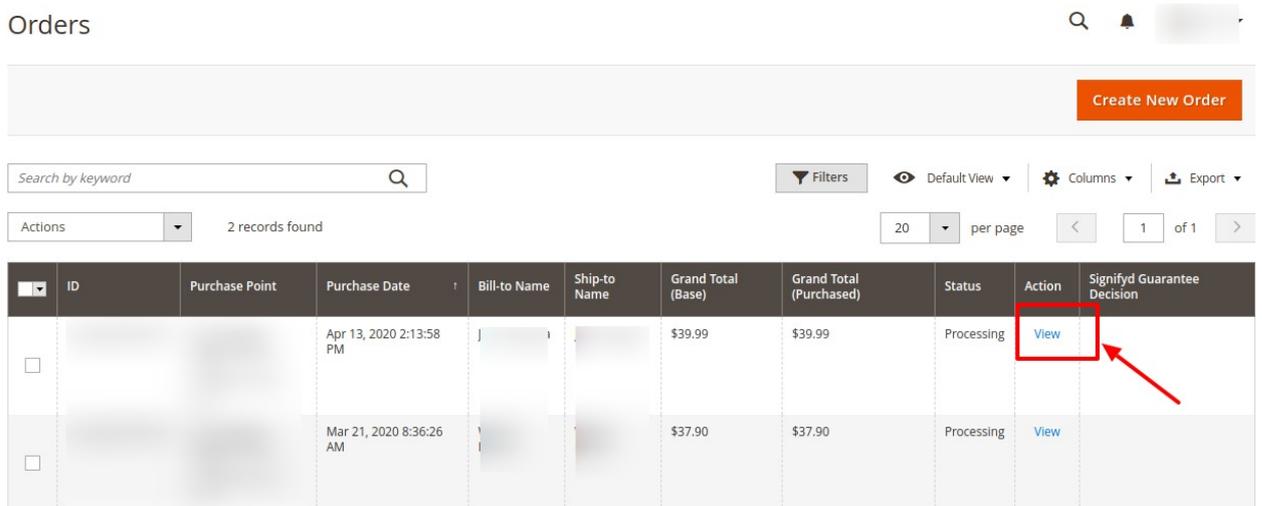

3. Now Click on **Delete**.
4. The selected order will be deleted.

### To view Order Messaging System:

1. Goto the **Sales** option in Magento Admin panel.
2. Click on **Order**.

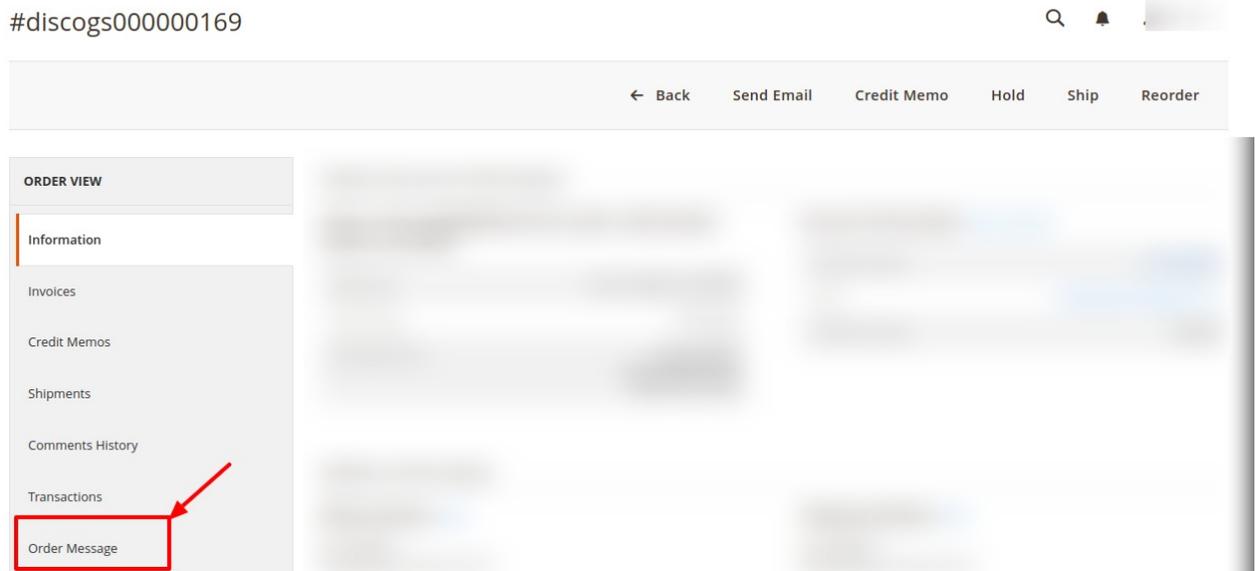

3. The **Orders** page will appear as shown below:

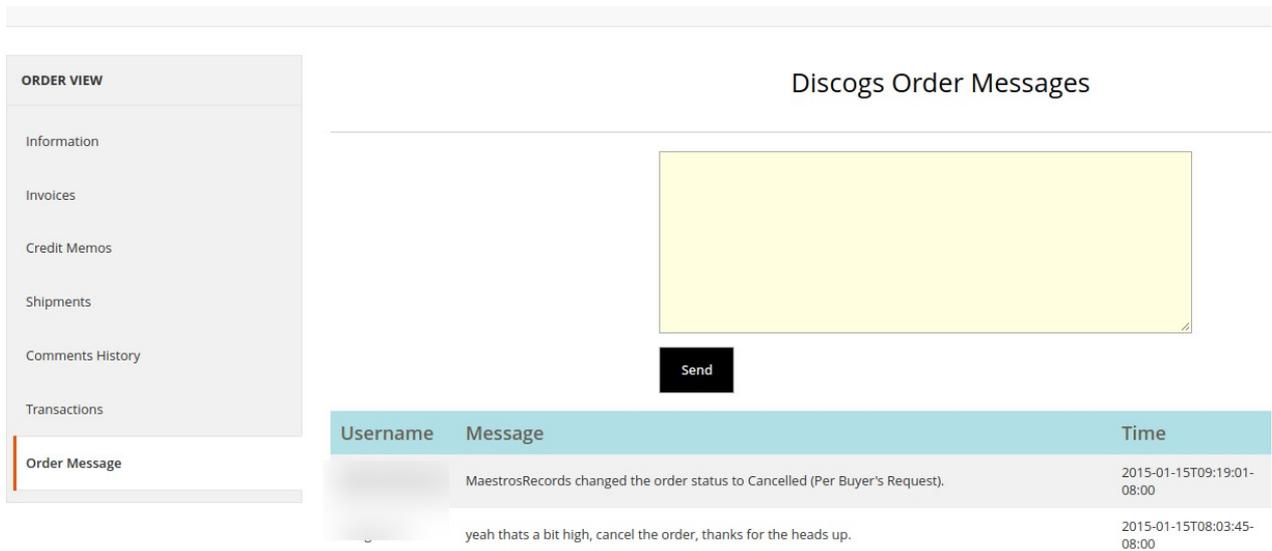

A screenshot of the Magento Admin 'Orders' page. The page title is 'Orders'. There is a search bar, a 'Create New Order' button, and a table of orders. The table has columns for ID, Purchase Point, Purchase Date, Bill-to Name, Ship-to Name, Grand Total (Base), Grand Total (Purchased), Status, Action, and Signifyd Guarantee Decision. Two orders are listed, both with a 'Processing' status. The 'View' link in the 'Action' column of the first order is highlighted with a red box and a red arrow.

ID	Purchase Point	Purchase Date	Bill-to Name	Ship-to Name	Grand Total (Base)	Grand Total (Purchased)	Status	Action	Signifyd Guarantee Decision
		Apr 13, 2020 2:13:58 PM			\$39.99	\$39.99	Processing	<a href="#">View</a>	
		Mar 21, 2020 8:36:26 AM			\$37.90	\$37.90	Processing	<a href="#">View</a>	

4. Click on **View** under the **Actions** column.  
The page appears as:

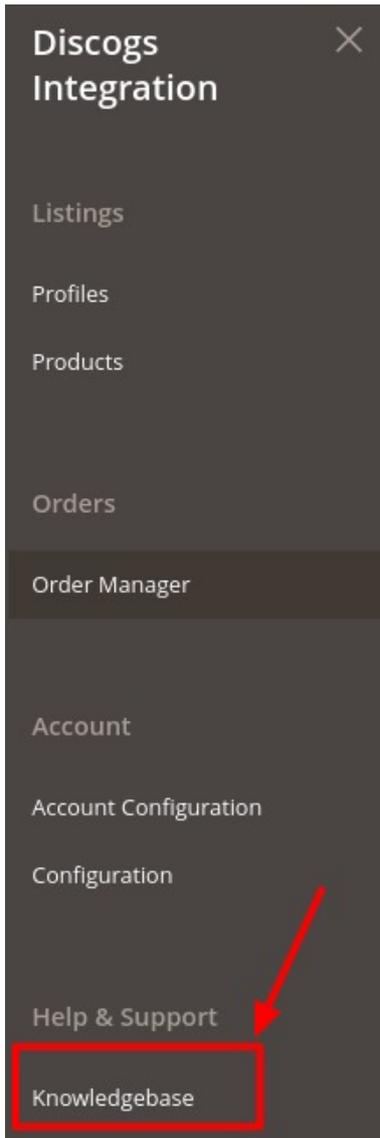

5. On the right side Click on **Order Message**.  
The tab will be opened as shown:

6. Here you can send the messages of the orders and also view the messages of Magento and Discog orders.

## 7. Knowledge Base

1. Go to the **Magento 2 Admin panel**.
2. On the left navigation bar click the **Discogs Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Knowledgebase**.

You will be navigated to the page that appears as:

Magento Admin

Documentation

4. Click on **Documentation** and the section will expand as:

Magento Admin

Documentation

- [Discogs Integration Extension User Guide By CedCommerce](#)
- [Discogs Developer Portal](#)

5. On clicking **Discogs Integration Extension User Guide by CedCommerce** you will be redirected to the user guide of Discogs Magento 2 Integration.
6. On clicking **Discogs Developer portal** you will be redirected to the developer's portal.
