## 1. Overview

Rakuten was founded in 1997 and is referred to as “Amazon of Japan”. Across 30,000 countries and regions across the globe, it is helping 44,000 sellers to sell on the Rakuten marketplace. Rakuten accounts for 27% of the eCommerce market share in Japan.

Rakuten US integration for Magento 2 by CedCommerce connects your Magento 2 store with the Rakuten marketplace to give you a seamless selling experience in the US. The integration also enables real-time synchronization of inventory, price, and other product details that provide ease for you to manage your Magento 2 store and your products at Rakuten US simultaneously.

### Key Features-

- **Bulk Upload Feature:** Sellers can upload any number of products on the Rakuten US marketplace using bulk upload feature.
- **Auto Synchronisation:** Automatically synchronize the product listing, orders, inventory and other product-related details between Magento 2 store and Rakuten US marketplace.
- **Auto Acknowledgement of Orders:** Whenever a new order is placed on the Rakuten US marketplace, you will receive a notification on mail.
- **Automated Shipment:** With the Rakuten US Integration for Magento 2, manage Orders and their shipment from your Magento 2 panel using various shipment services.
- **Rejected product Notification:** If any error occurs while uploading the product on Rakuten US, you will receive a notification along with the error log.
- **Product category mapping:** Follows the many-to-one category mapping technique. You can map many categories of the Magento 2 store with the single category of Rakuten US.

## 2. Configuration

### To Configure the Rakuten US Extension,

1. Goto Magento 2 admin panel.
2. On the left navigation bar, click the **Rakuten Integration** menu.  
The menu appears as shown below:

3. Click on **Configuration**.  
The **Rakuten Configuration** page appears as shown:

4. In the right panel click **Rakuten API Settings**.  
The tab is expanded as shown below:

## Rakuten Api Settings

**Enabled** [global]

**BaseUrl** [global]

**Secret Key** [global]

**ShopURL** [global]

**Orders Fetch Start Date** [global]

**Debug Log** [global]

- In the **Enabled**, select the option Yes to enable the extension.
- In the **BaseUrl**, enter the URL shown in the above image.
- In the **Secret Key**, enter the secret key you have received from the Rakuten marketplace.
- In the **ShopURL**, paste the URL from the seller account.

- In **Orders Fetch Start Date**, select the date to start fetching orders.
  - In **Debug Log**, select the option **Yes** to fetch issues.
5. Now in the right panel, click on **Rakuten Order Settings**.  
The tab expands as shown below:

## Rakuten Order Settings

Please set the order settings for Rakuten.com

<b>Increment Id Prefix</b> <small>[global]</small>	<input type="text"/>
	Prefix for Rakuten Increment ID
<b>Order Email</b> <small>[global]</small>	<input type="text"/>
<b>Force Product Create on Order</b> <small>[global]</small>	Enable <input type="button" value="▼"/>
<b>Mock Order</b> <small>[global]</small>	Enable <input type="button" value="▼"/>

- In the **Increment Id Prefix**, enter the prefix for Rakuten increment ID.
- In **Order Email**, enter the email on which you wish to receive orders.
- In **Force Product Create an Order**, **Enable** it to create forced product orders.
- In the **Mock Order**, select **Enable** to create test order.

6. Now in the right panel click on Rakuten Cron Settings.

The tab expands as shown below:

## Rakuten Cron Settings

<b>Rakuten Order Cron</b> <small>[global]</small>	Disable <input type="button" value="▼"/>
	Order Fetch Cron
<b>Rakuten Price/ Full Item Cron</b> <small>[global]</small>	Disable <input type="button" value="▼"/>
	Price Sync Cron
<b>Rakuten Inventory Cron</b> <small>[global]</small>	Disable <input type="button" value="▼"/>
	Inventory Sync Cron

- In **Rakuten Order Cron**, select **Enable** to fetch orders through cron.
- In **Rakuten Price/Full Item Cron**, select **Enable** to price syncing through cron.
- In **Rakuten Inventory Cron**, select **Enable** to synchronize the inventory of the Cron.

## 3. Manage Profile

The **Manage Profile** section while selling on Rakuten US with our extension includes the following actions that you may take:

- Add a New Profile
- Edit a Profile
- Perform Actions in Bulk on Profiles

### 3.1. Add New Profile

#### To Add a New Profile,

1. Goto Magento 2 admin panel.
2. On the left navigation bar, click the **Rakuten Integration** menu.
3. The menu appears as shown below:

4. Click on **Manage Profiles**.  
The **Manage Profile** page appears as shown below:

## Manage Profile

5. To add a new profile, click on the **Add New Profile** button.  
The **New Profile Page** appears as shown:

## New Profile

6. In the left panel, under **Profile Info**, do the following steps:
- In the **Profile Code** box, enter the unique profile code.
  - In the **Profile Name** box, enter the name of the profile.
  - In the **Profile Status** box, select the **Enable** option to enable the profile status. If the profile status is **Disabled** then the products won't be displayed and no action will be performed on them.
7. In the left panel, click the **Mapping** menu.

## Rakuten / Magento Attribute Mapping (Required/Optional mapping)

Rakuten Attribute	Magento Catalog Attribute	Default Value
<input type="text" value="sku"/> ▼	<input type="text" value="sku"/> ▼	
<input type="text" value="rakuten_mpn"/> ▼	<input type="text" value="rakuten_mpn"/> ▼	
<input type="text" value="rakuten_upc"/> ▼	<input type="text" value="rakuten_upc"/> ▼	
<input type="text" value="name"/> ▼	<input type="text" value="name"/> ▼	
<input type="text" value="price"/> ▼	<input type="text" value="price"/> ▼	
<input type="text" value="description"/> ▼	<input type="text" value="description"/> ▼	
<input type="text" value="rakuten_manufacturer"/> ▼	<input type="text" value="rakuten_manufacturer"/> ▼	
<input type="text" value="rakuten_conditiontype"/> ▼	<input type="text" value="rakuten_conditiontype"/> ▼	
<input type="text" value="rakuten_productModifier"/> ▼	<input type="text" value="rakuten_productModifier"/> ▼	

- In the right panel, under **Category Mapping**, do the following steps:
  - In the **Root Level Category** list, select the required Rakuten category that you want to map.
  - Search the category in the **Search Category** option.
- Now in the right panel, under **Rakuten/Magento Attribute Mapping(Required/Optional Mapping)** do the following steps:
  - In the **Rakuten Attribute** column, select the required Rakuten attribute to map it with the corresponding Magento store attribute.
  - In the **Magento Catalog Attribute** column, select the required Magento store attribute to map it with the corresponding Rakuten attribute.
  - Repeat the steps to map all the required Rakuten attributes to the corresponding Magento store attributes.

8. In the left panel click the **Profile Products** menu.

## New Profile

<input checked="" type="checkbox"/>	Product Id	Product Name	Type	Vendor Status	Attrib. Set Name	SKU	Price
Yes	From To						From To USD

We couldn't find any records.

Since no products are assigned to the profile, there are no products listed in the table.

- Click the **Reset Filter** link.  
All the products listed in the table will be shown.
  - Select the checkboxes associated with the required products that you want to assign to the new profile.  
**Note:** Admin can assign a product only to one profile.
  - If the selected product is already assigned to some other profile, then a warning dialog box appears.
  - Click the **OK** button to remove the selected product from the profile to which it is already assigned.
9. Click the **Save Profile** button.  
The profile is saved and listed on the **Manage Profile** page.

## 3.2. Edit a Profile

### To Edit a Profile.

1. Goto Magento 2 admin panel.
2. On the left navigation bar, click the **Rakuten Integration** menu.
3. The menu appears as shown below:

- 4. Click on **Manage Profiles**.  
The **Manage Profile** page appears as shown below:

- 5. Scroll down to the required profile.
- 6. In the **Action** column, click **Edit**.  
The required profile page appears as shown in the following figure:

The screenshot displays the 'Profile Information' form in the Magento 2 admin panel. At the top, there is a navigation bar with buttons: 'Back', 'Delete', 'Reset', 'Save and Continue Edit', 'Save and Manage Product', and 'Save Profile'. The 'Save Profile' button is highlighted in orange. On the left, a sidebar menu shows 'PROFILE INFORMATION' with sub-items: 'Profile info' (selected), 'Mapping', and 'Profile Products'. The main content area is titled 'Profile Information' and contains three fields: 'Profile Code' (with a red asterisk and a note 'For internal use. Must be unique with no spaces'), 'Profile Name' (with a red asterisk), and 'Profile Status' (with a red asterisk and a dropdown menu set to 'Enabled', with a note 'Specific store view information of products will send to rakuten').

7. Make the changes as per the requirement.

8. Click the **Save Profile** button.

The profile is saved and listed on the **Manage Profile** page.

OR

To save and manage the products, click the **Save and Manage Product** button.

OR

To save and continue the editing, click the **Save and Continue Edit** button.

### 3.3. Submit Actions in Bulk

#### To Submit Actions in Bulk,

1. Goto Magento 2 admin panel.

2. On the left navigation bar, click the **Rakuten Integration** menu.

3. The menu appears as shown below:

4. Click on **Manage Profiles**.  
The **Manage Profile** page appears as shown below:

5. Select the checkboxes associated with the required profiles.
6. Click the **Arrow** button next to the **Actions** field.
  - In the **Actions** list, click **Delete** to delete the selected profiles.  
A confirmation dialog box appears. Click the **OK** button.  
The selected profiles are deleted.
  - In the **Actions** list, click **Disable** to disable the selected profiles.

- A confirmation dialog box appears. Click the **OK** button.  
The selected profiles are disabled.
- In the **Actions** list, click **Enable** to enable the selected profiles.
- A confirmation dialog box appears. Click the **OK** button.  
The selected profiles are enabled.

## 4. Manage Products

### To Manage the Products.

1. Goto Magento 2 admin panel.
2. On the left navigation bar, click the **Rakuten Integration** menu.
3. The menu appears as shown below:

4. Click on **Manage Products**.  
The **Manage Products** page appears as shown:
