1. Overview

Founded in 2013, Reverb is the world's largest dedicated online marketplace to buy, sell, and learn about new, used, vintage and handmade music gear. Reverb.com allows anybody from large dealers and manufacturers to small shop owners and individuals, to create free listings for musical instruments and other related equipment.

Reverb also includes an integrated price guide that pulls transaction data to determine fair market values for a wide range of instruments and gear. Reverb charges 3.5% sales fee for items sold through the platform and has also released iPhone and Android apps that include the main features of the Web site.

Reverb WooCommerce Integration at Cedcommerce involves the integration of the WooCommerce e-commerce store with the Reverb marketplace through this extension, which automates the ordering process and facilitates the products handling and management.

This extension interacts with the Reverb Marketplace to integrate the synchronized product listing between the WooCommerce and the Reverb retailers. After installing the extension, the merchant can create the Reverb Categories on the WooCommerce store.

The process enables the merchant to configure the desired product category into WooCommerce for automatic submission of the selected product to the same Category on Reverb.

Key Features are as follows:

- **Synchronized Inventory:** Inventory Synchronization at regular intervals.
- **Synchronized Product Editing:** Besides adding the products, any product information changes made on the WooCommerce store reflects on the *Reverb*.
- **Automated Inventory Updates:** No manual updating is required. Automatic inventory updates are available for better management.
- **Creation of WooCommerce Orders:** The newly placed orders on the *Reverb* Web site are automatically created in the WooCommerce store with all the required details as it is on the *Reverb* Web site.
- **Consolidate Orders:** Easily manipulate orders from the WooCommerce store.
- **Product Category Mapping:** Follows many-to-one category mapping philosophy. Admin can map many categories of the WooCommerce store to the single category of *Reverb*.
- **Updates Information:** Changes made in the WooCommerce store reflects on the *Reverb* Web site.
- **Bulk Upload System:** The merchant has the flexibility to upload any number of products on the *Reverb*

Web site using the bulk product upload feature.

- **Shipment Automation:** Enables the admin to automate the shipment process with Shipstation, Shipwork, Stamps.com, Linnworks, Xtento, ShipRush.
- **Feed status:** Creates a Log of the Feed of all API requests made to *Reverb*. Admin can view all the details of that feed in the log.

2. Process Of Registering On Reverb

To Register On Reverb:

- Open your browser, in the search bar type Reverb.com(<https://reverb.com/>)
- Once you have performed the above step, then you have to just click on the **Sign-Up** tab on the as shown in the image below:

- Once, you had clicked on Sign-up tab, it will redirect you to a page where you have to fill some details as shown in the image below:

Join Millions of Musicians Around the World

First name	Last name
<input type="text"/>	<input type="text"/>

Email

Password (at least 8 characters)

[Sign Up](#)

☒ Get the latest deals, news, and promotions via email

☒ By clicking Sign Up, I expressly agree to accept Reverb's [Terms of Use](#) and [Privacy Policy](#)

[f Sign Up with Facebook](#)

Already have an account? [Sign in](#)

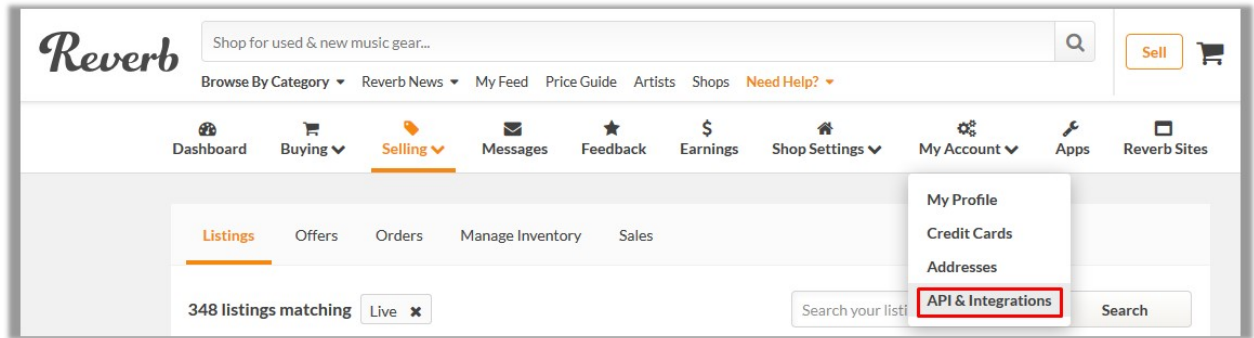

- In this, you just need to enter the-
 - a) **First Name.**
 - b) **Last Name.**
 - c) **E-mail.**
 - d) **Password.**
- Once you have filled, all the details hit the Sign Up tab to create a seller account on Reverb marketplace or you can also apply for it just by signing up it with your Facebook account.

3. Retrieve Personal Access Token

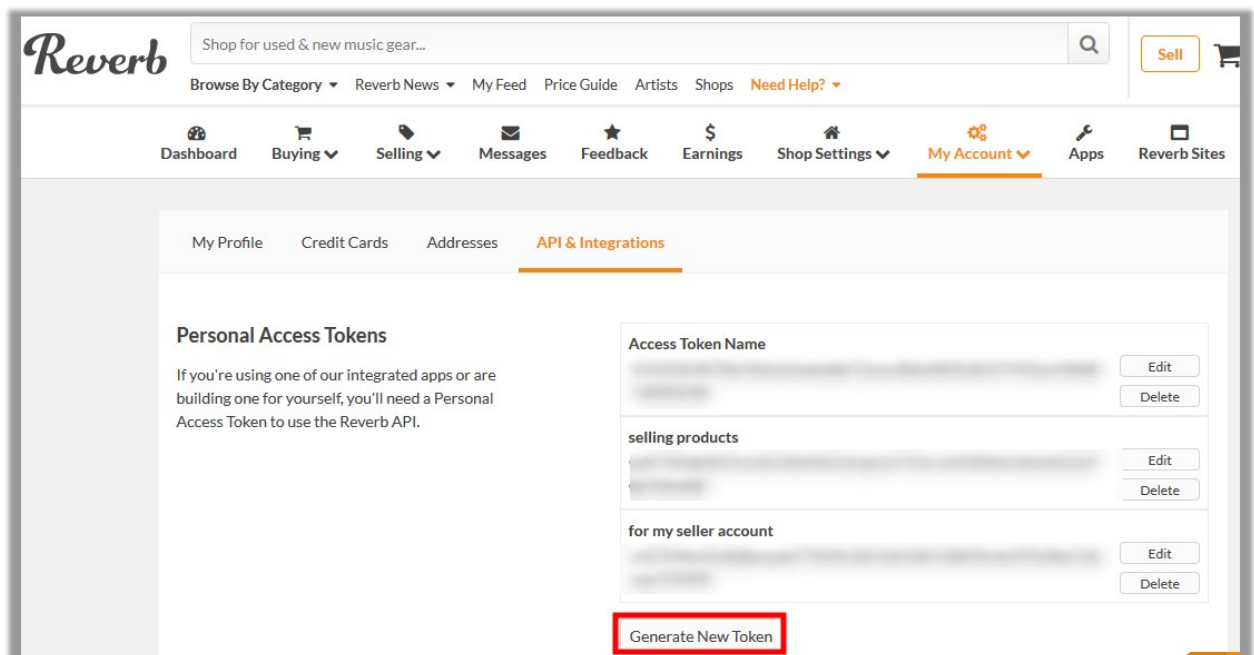

In order to Retrieve Personal Access Token, you must log in to your Reverb Seller panel

To retrieve Personal Access Token from the Reverb account

1. Access the Reverb Seller account.
The page appears as shown in the following figure:

2. Click the **My Account** menu, and then click **API & Integrations**.
The page appears as shown in the following figure:

3. Click the **Generate New Token** button.
The page appears as shown in the following figure:

New Personal Access Token

Tokens can be used instead of a password to make API requests over HTTPS.

Token Name

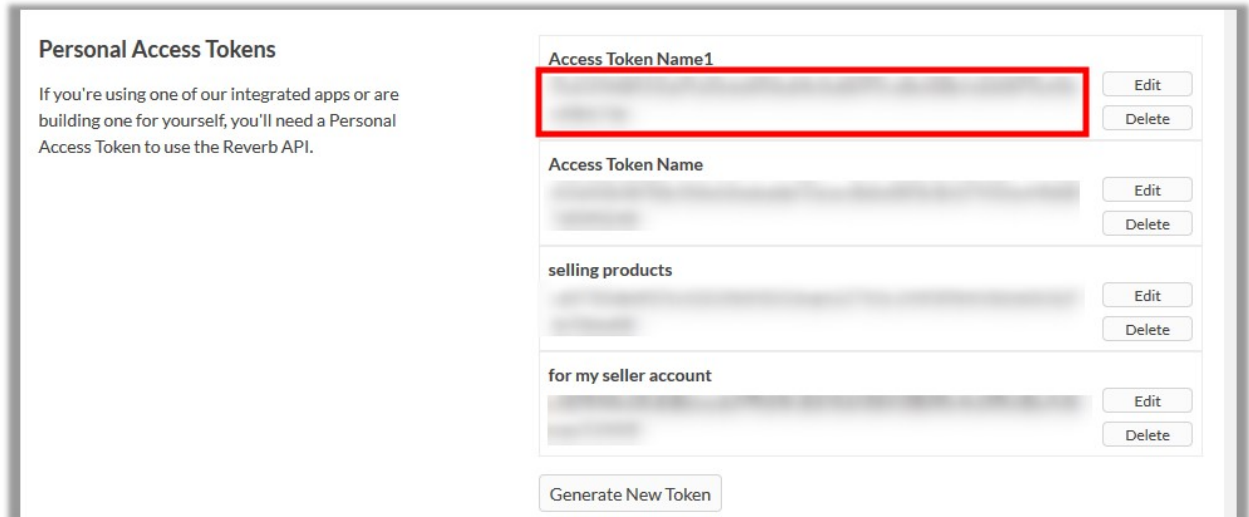

Select OAuth Scopes

Scopes allow you to set the permissions of your token.

<input type="checkbox"/> public	Read publicly available data
<input type="checkbox"/> read_feedback	Read feedback that you have sent or received
<input type="checkbox"/> write_feedback	Write feedback about your transactions on the site
<input type="checkbox"/> read_listings	Read all of your listings with your sales and bump data
<input type="checkbox"/> write_listings	Create/update your listings (inventory, price, etc) and add a listing to sales / bump
<input type="checkbox"/> read_lists	Read your wish list / watch list / feed
<input type="checkbox"/> write_lists	Update your wish list / watch list / feed
<input type="checkbox"/> read_messages	Retrieve your messages
<input type="checkbox"/> write_messages	Post and update messages as you
<input type="checkbox"/> read_offers	Read your offers
<input type="checkbox"/> write_offers	Make offers on listings on your behalf
<input type="checkbox"/> read_orders	Read all your orders
<input type="checkbox"/> write_orders	Update the status of your orders
<input type="checkbox"/> read_profile	Get the details about your account and shop, such as name and email address
<input type="checkbox"/> write_profile	Update settings for your shop (name, address, vacation, etc)
<input type="checkbox"/> read_reviews	Read your reviews of listings
<input type="checkbox"/> write_reviews	Write reviews of listings on your behalf

[Generate Token](#)
[Cancel](#)

4. In the **Token Name** box, enter the name.
5. Select the required options to set the permissions of the token.
The token is generated and appears on the Permissions Access Tokens page as shown in the following figure.

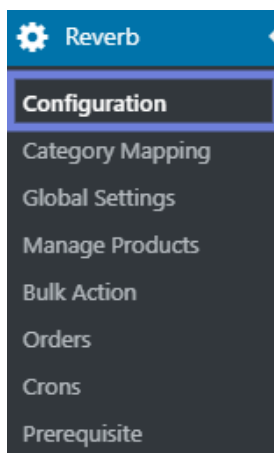

6. Copy the **Personal Token Access** value and then paste it in the **Personal Access Token** box appearing on the **REVERB CONFIGURATION** page of the WooCommerce Admin panel.

4. Reverb Configuration Settings

After obtaining the **Personal Access Token** from the Reverb Seller account, the WooCommerce store owner has to paste them on the Reverb Configuration page of the admin panel of the merchant.

To Set up the Reverb Configuration settings in the WooCommerce admin panel:

1. Go to the WooCommerce Admin panel.
2. On the left navigation bar, click the **Reverb** menu.

3. In the right panel, click the **CONFIGURATION** tab

The **REVERB CONFIGURATION** page appears as shown in the following figure:

4. As you can see, in the Configuration section, you just need to enter the **License Key**. Once you had entered the license key, then click on Validate which will open a page as shown in the image below:

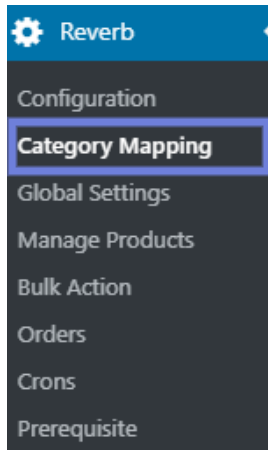

5. In the **Personal Access Token** box, paste the value of the Personal Access Token field copied from the Reverb seller account.
6. In the **Select Account Type**, select the type of account.
7. Click the **Save Credentials** button.
8. Click the **Authorize** button to authorize the account.

5. Category Mapping

The **CATEGORY MAPPING** page lists all the WooCommerce categories. Admin has to select the Reverb categories to which the products need to be assigned.

To select the required categories for mapping

1. Go to the WooCommerce Admin panel.
2. On the left navigation bar, click the **Reverb** menu.

3. In the right panel, click the **CATEGORY MAPPING** tab. The page appears as shown in the following figure:

Configuration	Category Mapping	Global Settings	Manage Products	Bulk Action	Orders	Crons	Prerequisites	
		Store Categories		Mapped to		Shipping profile		
<input type="checkbox"/>		Albums		Amps --> Bass Combos		Sync later test		
<input type="checkbox"/>		Clothing		Accessories		Shipping Not Mapped		
<input type="checkbox"/>		Hoodies		Accessories		Shipping Not Mapped		
<input type="checkbox"/>		Music		Accessories --> Amp Covers		Shipping Not Mapped		
<input type="checkbox"/>		Posters		Electric Guitars		Shipping Not Mapped		
<input type="checkbox"/>		T-shirts		Accessories --> Merchandise		Sync later test		
							<input type="button" value="Cancel"/>	<input type="button" value="Save"/>

4. Select the checkboxes associated and map the category by selecting it from the dropdown menu.

	Store Categories	Mapped to	Shipping profile
<input type="checkbox"/>	Albums	Amps --> Bass Combos	Sync later test
<input checked="" type="checkbox"/>	Clothing	Accessories	Shipping Not Mapped

Reverb Shipping Profiles			
<input type="checkbox"/>		Accessories	Shipping Not Mapped
<input type="checkbox"/>		Accessories --> Amp Covers	Shipping Not Mapped
<input type="checkbox"/>		Electric Guitars	Shipping Not Mapped
<input type="checkbox"/>		Accessories --> Merchandise	Sync later test

Cancel
Save

5. On selecting the checkboxes, now you can also map the shipping profile from the dropdown menu.

	Store Categories	Mapped to	Shipping profile
<input type="checkbox"/>	Albums	Amps --> Bass Combos	Sync later test
<input checked="" type="checkbox"/>	Clothing	Accessories	Shipping Not Mapped
Reverb Categories <input type="text" value="--Select--"/>			
Reverb Shipping Profiles <input type="text" value="--Select--"/>			
<input type="checkbox"/>	Hoodies	Accessories	Shipping Not Mapped
<input type="checkbox"/>	Music	Accessories --> Amp Covers	Shipping Not Mapped
<input type="checkbox"/>	Posters	Electric Guitars	Shipping Not Mapped
<input type="checkbox"/>	T-shirts	Accessories --> Merchandise	Sync later test

6. After selecting the category, click on the **SAVE** button to save your category.

6. Global Settings

In the Global Setting section, there are some mandatory settings which are required to be filled by the merchant/seller.

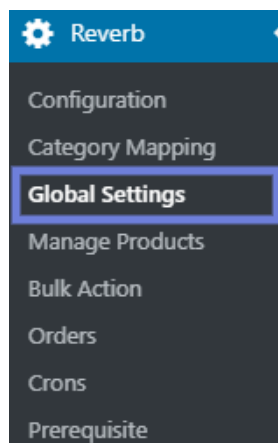

Admin can do the following tasks:

- Selecting Product and Metakeys.(<https://docs.cedcommerce.com/woocommerce/woocommerce-reverb-integration-guide-0-0-1/?section=selecting-product-and-metakeys>)
- Setting Information.(<https://docs.cedcommerce.com/woocommerce/woocommerce-reverb-integration-guide-0-0-1/?section=setting-information>)

6.1. Selecting Product and Metakeys

To select a product and their metakeys:

1. Go to the WooCommerce Admin panel.
2. On the left navigation bar, click the **Reverb** menu

- In the right panel, click the **GLOBAL SETTINGS** tab.
The page appears as shown in the following figure:

The screenshot shows the 'Global Settings' tab selected in the WooCommerce admin panel. The page layout includes a top navigation bar with tabs: Configuration, Category Mapping, Global Settings (active), Manage Products, Bulk Action, Orders, Crons, and Prerequisites. Below the navigation bar, there are three main sections: 'INSTRUCTION TO USE', 'SELECT PRODUCT AND CORRESPONDING METAKEYS', and 'SETTING INFORMATION'. A 'Save Setting' button is located at the bottom right of the 'SETTING INFORMATION' section.

- Here, you will see the **INSTRUCTION TO USE** tab, in which you will be able to read for the instructions.
- Click on the **SELECT PRODUCT AND CORRESPONDING META KEYS**, the page will appear as shown in the image:

The screenshot shows the 'SELECT PRODUCT AND CORRESPONDING METAKEYS' tab. At the top, there is a search bar labeled 'Type Product Name Here' with the text 'Product Name' entered. Below the search bar, there is a 'Show' dropdown set to '10' and a 'Search:' input field. The main content is a table with two columns: 'Meta Field Key' and 'Meta Field Value'. The table lists various meta-fields with checkboxes for selection.

Meta Field Key	Meta Field Value
<input type="checkbox"/> _thumbnail_id	21
<input type="checkbox"/> _visibility	visible
<input type="checkbox"/> _stock_status	instock
<input type="checkbox"/> total_sales	0
<input type="checkbox"/> _downloadable	no
<input type="checkbox"/> _virtual	no
<input type="checkbox"/> _product_image_gallery	17
<input type="checkbox"/> _regular_price	20
<input type="checkbox"/> _sale_price	18
<input type="checkbox"/> _tax_status	

- In the **Type Product Name Here** box, enter the required product name to get the attributes of the entered product name.

Note: Enter the initials of the product and a list appears. Select the required one from the list.

- In the **Meta Field Key** column, select the checkboxes associated with the required meta-keys.

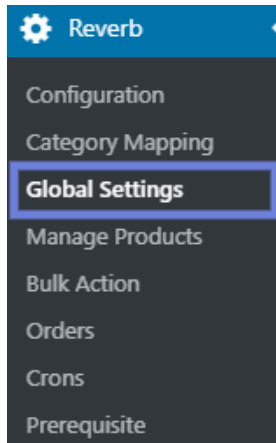

After performing all the steps, click on the **SAVE SETTING** tab your settings will be saved.

6.2. Setting Information

In this section, you have to fill some mandatory fields which are required for setting the information.

To set the setting information:

- Go to the WooCommerce Admin panel.
- On the left navigation bar, click the **Reverb** menu.

- In the right panel, click the **GLOBAL SETTING** tab.
The page appears as shown in the following figure:

- Click on the **SETTING INFORMATION** tab, the page will appear as shown in the image:

Here, you have to fill all these required fields, after filling click on the **SAVE SETTINGS** tab to save the information.

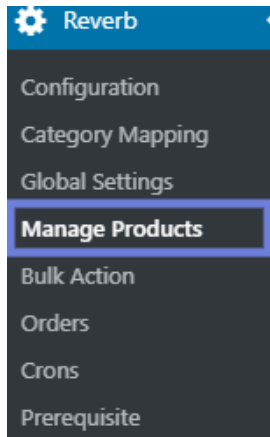

7. Manage Products

Admin can view all the products details such as the assigned profile name, product selling price, and the product inventory.

Admin can edit the product meta-keys and assign the profile to the products. Also, can upload the selected products to the Reverb marketplace.

To upload the selected products

1. Go to the WooCommerce Admin panel.
2. On the left navigation bar, click the **Reverb** menu.

3. In the right panel, click the **MANAGE PRODUCTS** tab.
The **MANAGE PRODUCTS** page appears as shown in the following figure:

4. Select the checkboxes associated with the required products to upload.
5. Click the **Dropdown** next to the **Bulk Actions** field, click **Upload**, and then click the **Apply** button.

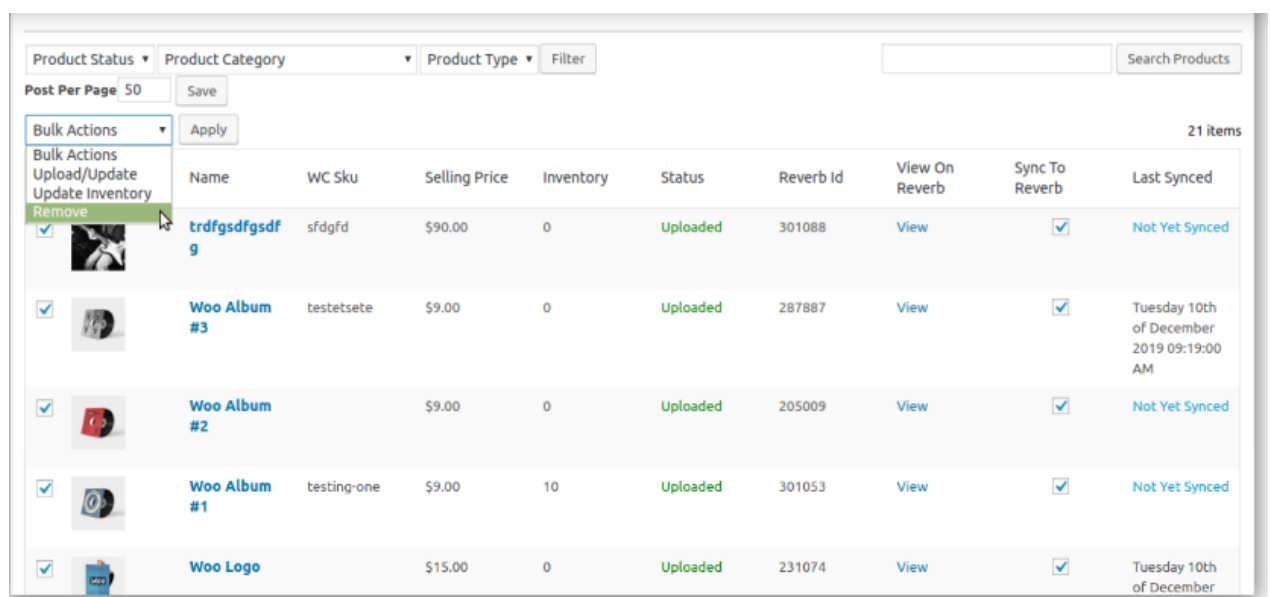

6. There is one more option that is **Post Per Page** in which you will be able to enter the number and then click on the save button the numbers of products will appear on the page as shown in the image:

7. If you want to **Update Inventory**, select the checkboxes associated with the required products to update the inventory and then click on the **Dropdown** next to the **Bulk Actions** field, click **Update Inventory**, and then click the **Apply** button as shown in the image:

8. If you want to **Remove**, select the checkboxes associated with the required products to remove any of your products and then Click the **Dropdown** next to the **Bulk Actions** field, click **Remove**, and then click the **Apply** button as shown in the image:

9. The selected products are uploaded and a success message appears.

8. Bulk Action

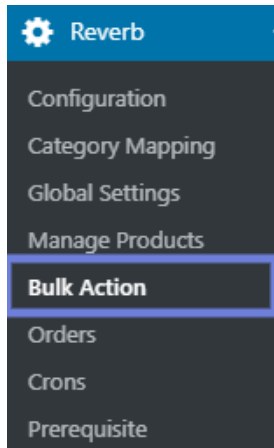

With this feature, the admin has an ability to perform the following Bulk actions:

- Assign the selected profile to the category. Thus, the selected profile is assigned to all the products that come under the category.

- Upload the selected categories to Reverb. Also, can select the required products to upload and exclude the products not to upload on Reverb.

To perform bulk profile assignment

1. Go to the WooCommerce Admin panel.
2. On the left navigation bar, click the **Reverb** menu.

3. In the right panel, click the **BULK ACTION** tab.
The page appears as shown in the following figure:

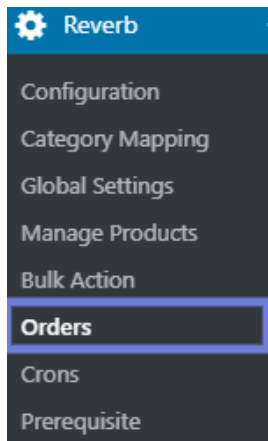

Here, you have to fill some details:

1. In the **SELECT CATEGORIES**, you have to select the category for the product.
After completing, click on **UPLOAD** and then **SAVE CHANGES** to save the changes you have done.

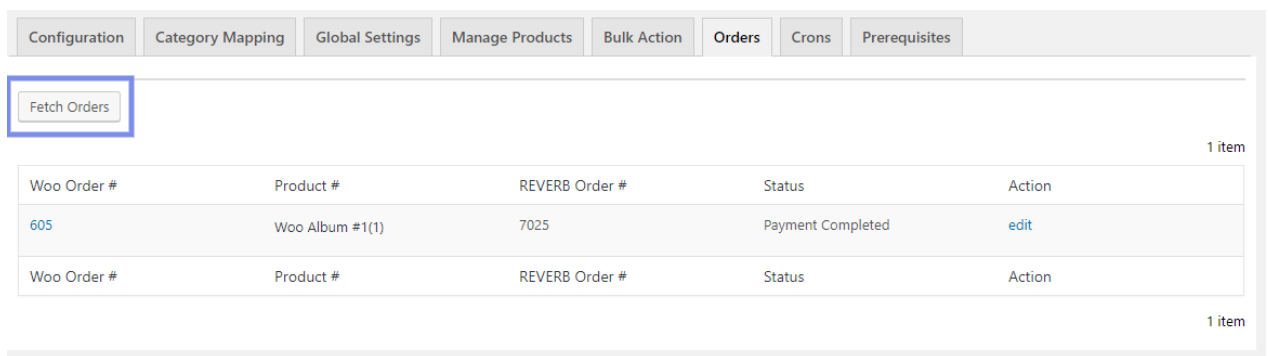

9. Order Management

To fetch orders:

1. Go to the WooCommerce Admin panel.
2. On the left navigation bar, click the **Reverb** menu.

3. In the right panel, click the **ORDERS** tab.
The page appears as shown in the following figure:

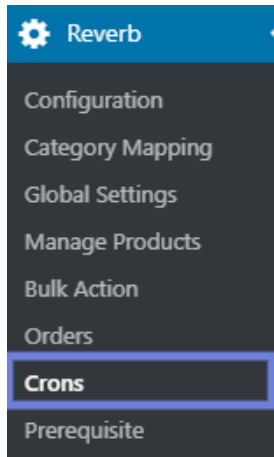

4. Click on the **FETCH ORDERS**, to fetch your orders.

10. Crons

This section is basically for inventory syncing, inventory and price and auto fetching of orders.

To perform crons:

1. Go to the WooCommerce Admin panel.
2. On the left navigation bar, click the **Reverb** menu.

3. In the right panel, click the **CRONS** tab.
The page appears as shown in the following figure:

Configuration	Category Mapping	Global Settings	Manage Products	Bulk Action	Orders	Crons	Prerequisites
<h3>AUTO ORDER FETCHING</h3> <p>This information will be used in case of auto-acknowledgement using cron.</p> <div> <div>Location Of Cron File</div> <div></div> </div> <div> <div>Notification Mail Content That Will Be Send To Admin In Case Cron Fails</div> <div></div> </div>
