## 1. Overview

Cdiscount is the first French e-commerce website with a broad offering: a wide range of products including, among others; cultural goods, high-tech, IT, household appliances, personal appliances, and food. It also operates in Brazil, Belgium, Ivory Coast, Senegal, and Colombia.

**Cdiscount Integration for Magento 2** is an amazing API integration that helps Magento® 2 store owners to synchronize inventory, price, and other product details for product creation and management between Magento 2 store and the Cdiscount marketplace.

The **Cdiscount Integration for Magento 2** extension interacts with the Cdiscount marketplace to integrate the synchronized product listing between Magento 2 and Cdiscount retailers. After the installation, the merchant can create Cdiscount categories and the dependent attributes on the Magento 2 store.

The process enables the merchant (admin) to configure the desired product category into Magento 2 store for automatic submission of selected product on the same category on Cdiscount.com.

### *Key Features of Cdiscount Integration Extension by CedCommerce:*

- **Product Category Mapping:** Follows many-to-one category mapping philosophy. Enables the admin to map many categories of the Magento 2 store to the single category of Cdiscount.
- **Simple and Configurable Product Upload:** Admin can upload the Simple and Configurable types of Magento 2 store product on Cdiscount.com. The configurable product in Magento 2 store is treated as variation product on Cdiscount.com.
- **Profile Based Product Upload:** Admin can create a profile and map the category and attributes to Magento 2 store category and attributes. Then, after assigning the product to the profile can easily upload the product to Cdiscount.
- **Synchronized Inventory:** Auto synchronization of the inventory at regular intervals and product listings along with all the details is established between Magento 2 store and Cdiscount.com.
- **Automate Shipment:** The shipment process can be automated with Shipstation, Shipworks, Stamps.com, Linnworks, Xtento, ShipRush.
- **Low Stock Notifications:** Whenever the stock diminishes lower than the threshold, a notification is sent informing the status of the same.
- **New Order Notifications:** Whenever a new order is fetched from **Cdiscount.com**, the admin receives a notification.
- **Rejected products notification:** If any product containing some invalid details is rejected, then its information is fetched from the auto synchronization request along with the error due to which it is rejected.
- **Archive and Unarchive Products:** Merchants can close and reopen the products on Cdiscount using Archive and Unarchive feature. Archive disables the products on Cdiscount whereas unarchive enables the archived product.
- **Creation of Magento Orders:** Newly placed orders on Cdiscount.com are automatically created in the Magento store as well with all the required details as on Cdiscount.com.
- **Crons:** Cron job automates the process for Inventory, Price, and Order management.
- **Easy Debug:** Easy debug process for hassle free products upload on the Cdiscount website.

## 2. Cdiscount Integration for Magento Extension Installation

### *To install the extension*

1. Log in the **ftp**, and then go to Magento 2 root folder (generally present under the *public\_html* folder).
2. Create a new folder named *code* under the *app* folder; under *code* folder, create a folder named *Ced*.
  - a. Upload or Drag and Drop *app/code/Ced/Cdiscount* directory.

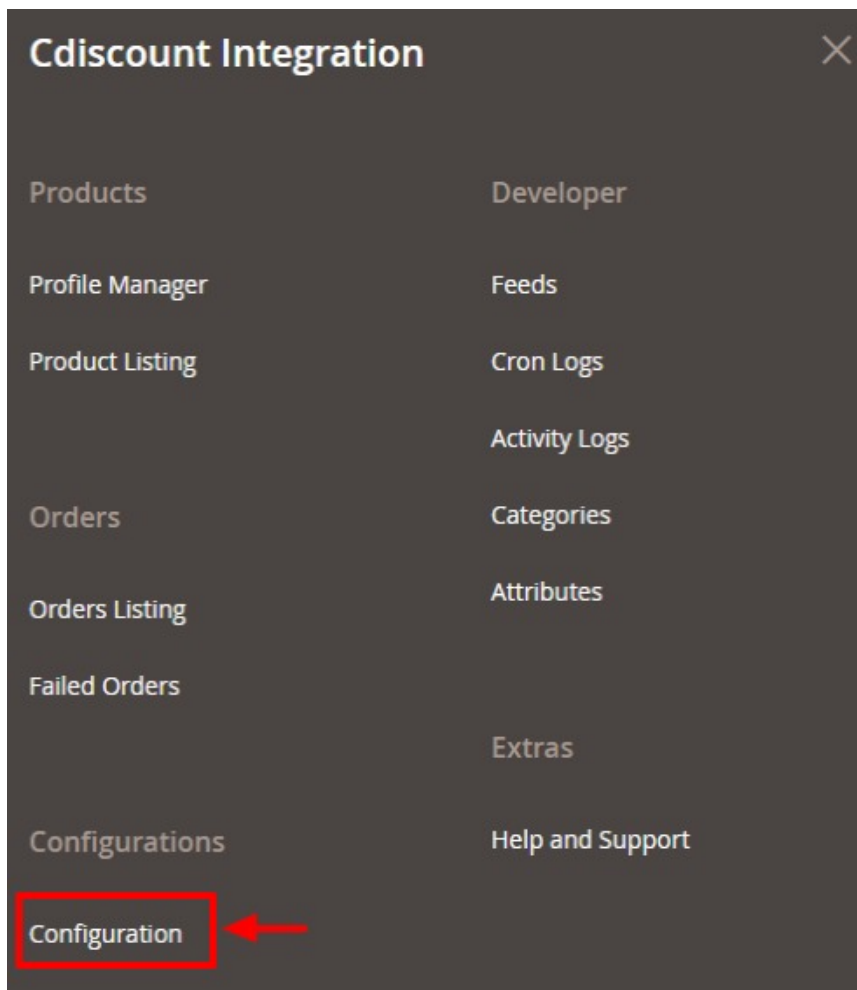

- b. After successfully uploading the directory, the extension will be installed/upgraded.
- c. Now run the following upgrade command in *cmd*
  - `. php bin/magento setup:upgrade
  - `. php bin/magento setup:di:compile
  - `. php bin/magento setup:static-content:deploy
- d. After successfully uploading the directory, the extension will be installed/upgraded.

### 3. Cdiscount Configuration Settings

Once the extension is successfully installed in the Magento 2 store, the **CDISCOUNT INTEGRATION** menu appears on the left navigation bar of the Magento 2 store Admin panel. The merchant has to first create a seller account in the Cdiscount seller panel. Once the seller account is created and is approved by Cdiscount, then the Magento 2 store owner can use the **Cdiscount Username** and **Password** while setting up the Cdiscount Configuration settings in the **Magento 2 Admin** panel.

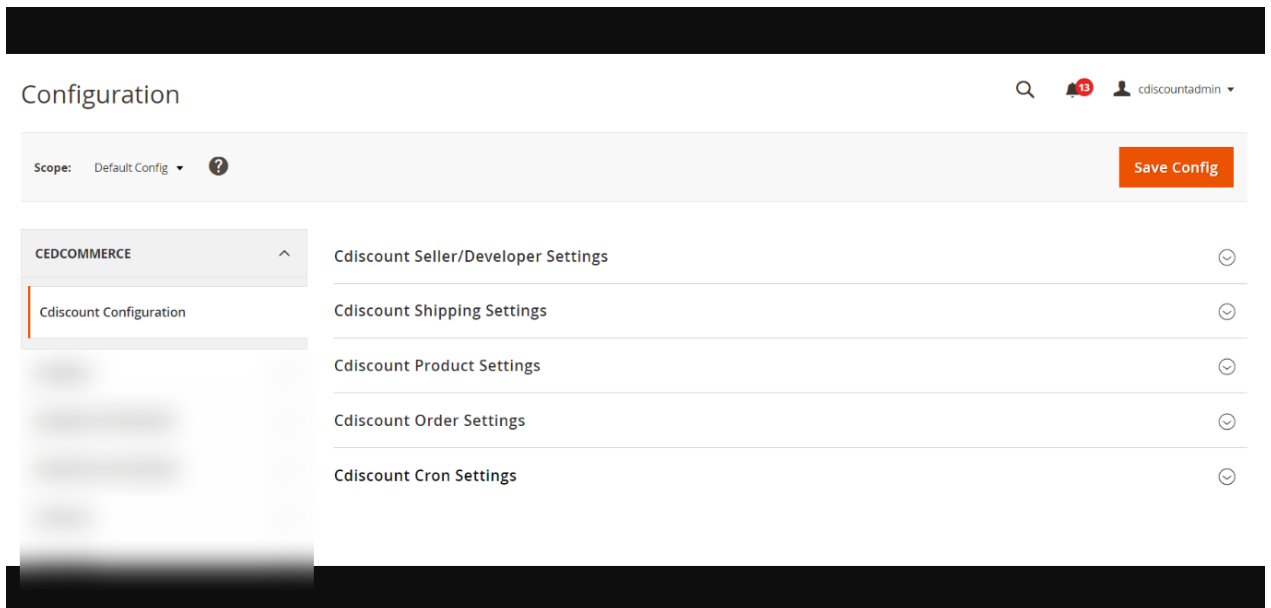

#### *To set up the configuration settings in the Magento 2 Admin panel*

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **CDISCOUNT INTEGRATION** menu. The menu appears as shown in the following figure:

3. Click **Configuration**.

The **Configuration** page appears as shown in the following figure:

4. In the right panel, click the **Cdiscount Seller/Developer Settings** tab.

The **Cdiscount Seller/Developer Settings** tab is expanded and the relevant fields appear as shown in the following figure:

5. Under **Cdiscount Seller/Developer Settings**, do the following steps:

- a. In the **Enabled** list, select the **Yes** option.
- b. In the **Debug**, select **Yes** to enable the debugging mode for the developer.
- c. In the **User Name** box, enter the Cdiscount Seller Account user id.
- d. In the **Api Password** box, enter the Cdiscount Seller Account password.
- e. In the **Select Store** list, select the required store.

6. Click the **Save Config** button to save the entered values.

7. Scroll down to the **Cdiscount Shipping Settings** tab, and then click the tab.

The **Cdiscount Shipping Settings** tab is expanded and section appears as shown in the following figure:

## Cdiscount Shipping Settings

Shipping Methods [website]

Shipping Methods	Shipping Charges	Additional Shipping Charges	Action
Trac! <input type="button" value="v"/>	<input type="text" value="7"/>	<input type="text" value="0"/>	
Regi: <input type="button" value="v"/>	<input type="text" value="8"/>	<input type="text" value="0"/>	
<input type="button" value="Add Method"/>			

Add atleast 2 shipping methods.

- Under **Cdiscount Shipping Settings**, add the Shipping methods, Shipping Charges, Additional Shipping Charges. You need to add at least 2 minimum Shipping Methods.
- Click the **Save Config** button to save the entered values.
- Scroll down to the **Cdiscount Product Settings** tab, and then click the tab.  
The **Cdiscount Product Settings** tab is expanded and the expanded section appears as shown in the following figure:

### Cdiscount Product Settings

<b>Default Product Condition</b> <small>[global]</small>	<input type="text" value="New - New"/>	
	Choose Your Product Conditions.	
<b>Cdiscount Product Prepration Time</b> <small>[website]</small>	<input type="text" value="1"/>

	Choose Your Product's Eco Part.	
<b>isCDAV</b> <small>[website]</small>	<input type="text" value="Yes"/>	
<b>Product   Offers Chunk</b> <small>[website]</small>	<input type="text" value="50"/>	
	<b>Product   Offer Upload Chunk Size</b>	
<b>Pro Subscription of Cdiscount</b> <small>[website]</small>	<input type="text" value="Yes"/>	
<b>Parent Values In Case Of Configurable Product</b> <small>[website]</small>	<div style="border: 1px solid #ccc; padding: 5px;"><ul style="list-style-type: none"><li>Price</li><li>ShortLabel</li><li>LongLabel</li><li style="background-color: #f0f0f0;">Description</li><li>BrandName</li></ul></div>	
	<b>Choose The Attribute Values That Will Be Fetched From Configurable Product</b>	

11. Under **Cdiscount Product Settings** , do the following steps:
  - In **Default Product Condition**, select the condition of the product.
  - In **Cdiscount Product Preparation Time**, enter the preparation time of the product.
  - In **Map Price Attribute**, map the price attributes.
  - In **Cdiscount Product VAT**, enter the VAT for the products.
  - In **Cdiscount Product DEA TAX**, enter the DEA Tax for the products.
  - In **Cdiscount Product ECO PART**, enter the ECO part of the products.
  - In **isDAV**, select Yes if you want to enable the offer to benefit from CDAV program.
  - In **Product| Offers Chunk**, enter the chunk size for uploading the products and offers.
  - In Pro Subscription of **Cdiscount**, select **Yes** if want the Pro subscription.
  - In **Parent Values In Case Of Configurable Product**, select the Attribute Values That Will Be Fetched From configurable product.
12. Scroll down to the **Cdiscount Order Settings** tab, and then click the tab.  
The tab is expanded and the section appears as shown in the following figure:

### Cdiscount Order Settings ⌵

Cdiscount Order Id Prefix <small>[global]</small>	
	Prefix for Cdiscount Increment ID
Shipment Method <small>[global]</small>	▼
	Choose Shipment Method
Order Notification Email <small>[global]</small>	

13. Under **Cdiscount Order Settings**, do the following steps:
  - a. In the **Cdiscount Order Id Prefix** box, enter the required order Id prefix.
  - b. In the **Shipment Method**, choose the shipment method.
  - c. In the **Order Notification Email** box, enter the required email Id.
14. Click the **Save Config** button to save the entered values.
15. Scroll down to the **Cdiscount Cron Settings** tab, and then click the tab.  
The tab is expanded and the section appears as shown in the following figure:

## Cdiscount Cron Settings

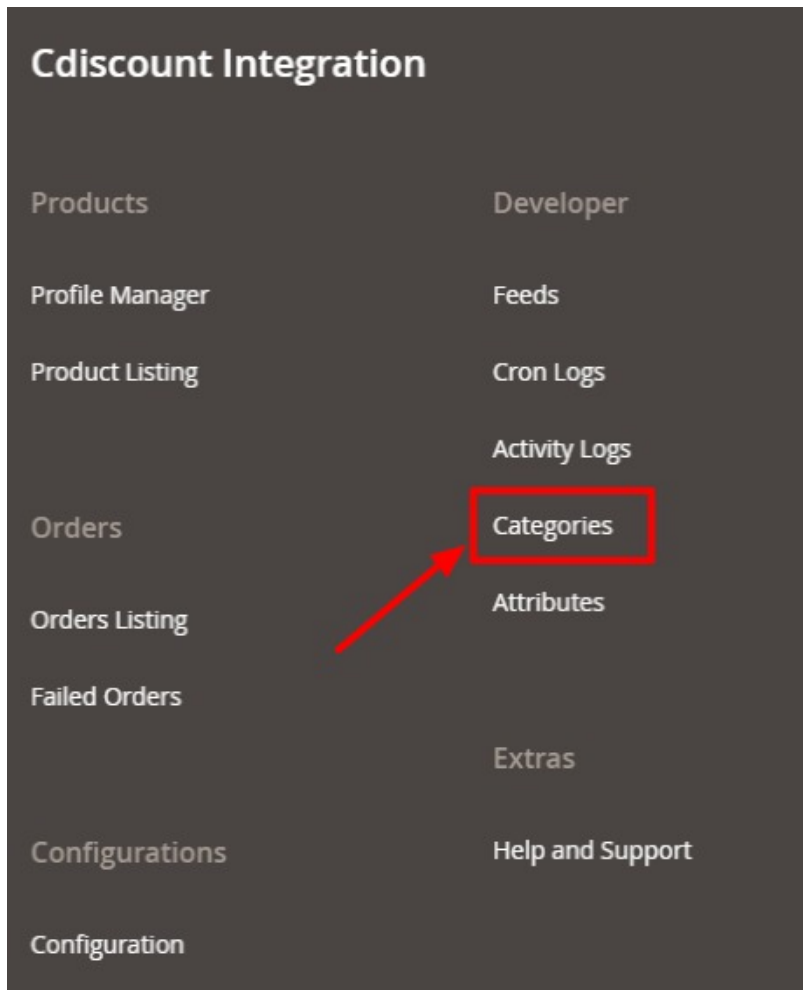

<b>Order Cron</b> [global]	Enable	▼	
	Order Fetch Cron		
<b>Feeds Resync Cron</b> [global]	Enable	▼	
	Resends Failed Feeds		
<b>Order Cron Expression</b> [global]	Every 20 Minutes	▼	
	Order Fetch Expression		
<b>Inventory Price Cron</b> [global]	Enable	▼	
	Inventory Sync Cron		
<b>Inventory Price Cron Expression</b> [global]	Every 2 Hours	▼	?
	Inventory Price Cron Expression		
<b>All Inventory Price Cron</b> [global]	Enable	▼	
	All Inventory Sync Cron		
<b>Orders Shipment Cron</b> [global]	Enable	▼	
	All Orders Status Sync Cron		
<b>All Inventory Price Cron Expression</b> [global]	Once A Day	▼	?
	All Inventory Price Cron Expression		
<b>All Orders Shipment Cron Expression</b> [global]	Every 20 Minutes	▼	?
	All Orders Shipment Cron Expression		

16. Under **Cdiscount Cron Settings**, do the following steps:
  - a. In the **Order Cron** list, select **Enable** to enable the fetch order cron.
  - b. In **Feeds Resync Cron**, select **Enable** to resend the failed feed.
  - c. In **Order Cron Expression**, enter the time to fetch orders.
  - d. In **Inventory| Price Cron**, select **Enable** to synchronise the inventory and price.
  - e. In **Inventory| Price Cron Expression**, enter the time for the inventory and price sync.
  - f. In **All Inventory| Price Cron**, select **Enable** to sync all the inventory and price.
  - g. In **Orders Shipment Cron**, select **Enable** to sync the orders shipment status.
  - h. In the **All Inventory|Price Cron Expression**, select **Enable** to enable the Inventory and Price Sync cron.
  - i. In **All Orders Shipment Cron Expression**, enter the time for the orders shipment cron.
17. Click the **Save Config** button to save the entered values.

## 4. Fetch New Category

*To fetch new category,*

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **CDISCOUNT INTEGRATION** menu.  
The menu appears as shown in the following figure:

3. Click on **Categories**.  
The Categories page appears as shown below:

Cdiscount Category

4. To fetch new category, click on **Fetch All Categories** button.  
The categories will be fetched.

## 5. Manage Cdiscount Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento 2 store attributes to the Cdiscount attributes. These attributes are applicable to all the products that are assigned to the profile.

### Admin can do the following tasks:

- Add a new profile(<https://docs.cedcommerce.com/magento-2/cdiscount-integration-user-guide/?section=add-a-new-profile-24>)
- Edit the existing profile(<https://docs.cedcommerce.com/magento-2/cdiscount-integration-user-guide/?section=edit-the-existing-profile-34>)
- Bulk Action on the Selected Profiles(<https://docs.cedcommerce.com/magento-2/cdiscount-integration-user-guide/?section=submit-bulk-action-on-the-selected-profiles-4>)

### 5.1. Add A New Profile

#### To add a new profile

1. Go to the **Magento 2 Store Admin** panel.
2. On the left navigation bar, click the **CDISCOUNT INTEGRATION** menu, and then click **Profile Manager**. The **Manage Profile** page appears as shown in the following figure:

Manage Profile

Search 🔍 10 📢 admin1 👤

On this page, all the available profiles are listed.

3. To delete the selected profiles, do the following steps:

- a. Select the profiles those are no more required.
- b. Click the **Arrow** button next to the **Actions** field.

The **Actions** list appear as shown in the following figure:

- c. Click the **Delete** option.  
A confirmation dialog box appears.
- d. Click the **OK** button.  
The selected profiles are deleted.

4. To disable the selected profiles, do the following steps:

- a. Select the required profiles.
- b. Click the **Arrow** button next to the **Actions** field.

The **Actions** list appear as shown in the following figure:

- c. Click the **Disable** option.  
The selected profiles are disabled.

5. To enable the selected profiles, do the following steps:

- a. Select the required profiles.
- b. Click the **Arrow** button next to the **Actions** field.  
The **Actions** list appear as shown in the following figure:

- c. Click the **Enable** option.  
The selected profiles are enabled.

## 6. Cdiscount Product Listing

On this page, admin can view, edit, and validate the individual product. Also, the admin can view the error message if any error exists in any product details. After uploading the product on Cdiscount or after updating the product inventory or the product price, the user can check the status of the feed, Also, can view the feed error if any. The admin can also submit certain actions on the selected products available on the **Cdiscount Product Listing** page.

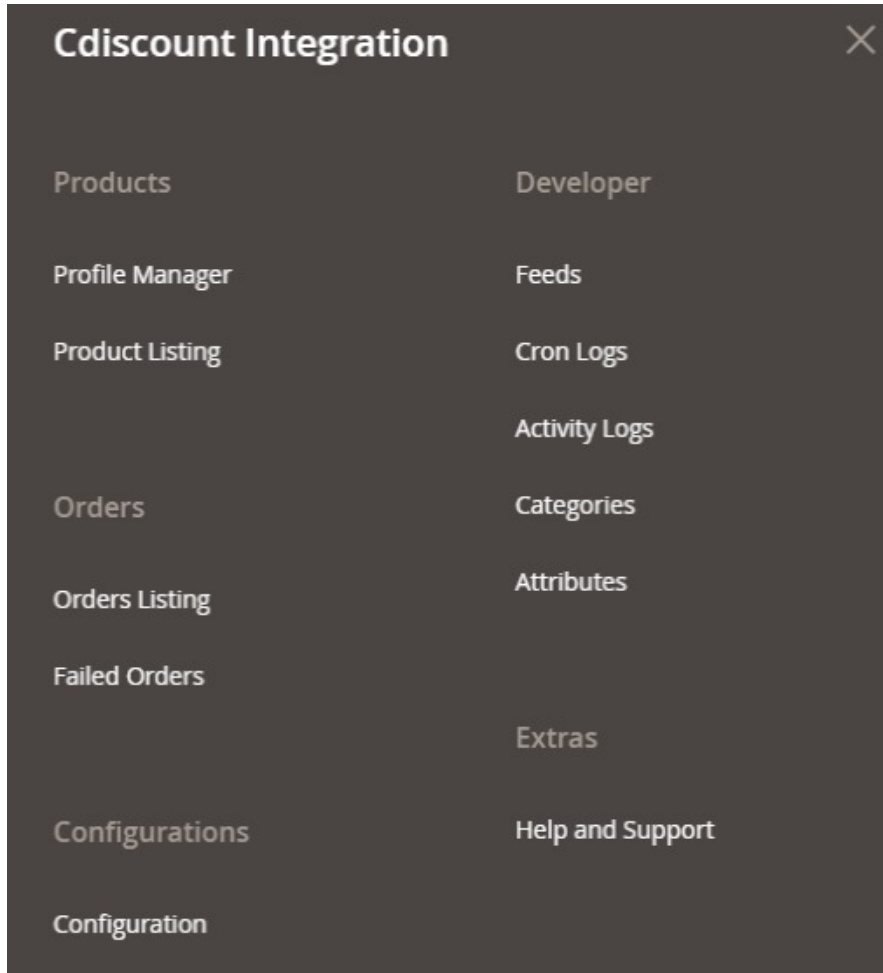

*This section covers the following topics:*

- Edit the Cdiscount Products(<https://docs.cedcommerce.com/cdiscount-integration-user-guide/?section=edit-the-cdiscount-products>)
- Validate the Single Product(<https://docs.cedcommerce.com/cdiscount-integration-user-guide/?section=validate-the-single-product-3>)
- Submit Bulk Action on the Selected Products(<https://docs.cedcommerce.com/cdiscount-integration-user-guide/?section=submit-bulk-action-on-the-selected-products-4>)

### 6.1. Edit the Cdiscount Products

**To edit the Cdiscount product**

1. Go to the **Magento 2 Store Admin** panel.
2. On the left navigation bar, click the **CDISCOUNT INTEGRATION** menu.  
The menu appears as shown in the following figure:

3. Click **Product Listing**.  
The **Cdiscount Product Listing** page appears as shown in the following figure:

7. Correct the issues and then again click the **Validate** icon to validate the product.

### 6.3. Submit Bulk Action on the Selected Products

**Admin can perform the following tasks through the Bulk Action feature:**

- **Validate Product:** To validate the selected products before uploading to the Cdiscount website. It displays the corresponding validation error if any. If there is no error, it confirms that the product is ready to upload.
- **Upload Products:** To validate and upload the selected products to the Cdiscount website. It displays the corresponding validation error if any. If there is no error, then the selected products are validated and uploaded, and a success message appears.
- **Update Inventory & Price:** To update the inventory and price of the selected products on Cdiscount. This action completes the entire job related to the product inventory and also it manages the quantity related issues. *For example*, if the user has changed the product price on the Magento 2 store and also wants to change the price on Cdiscount then this action is applicable. The price is updated when the user submits this action for the selected product.
- **Unpublish Products:** To archive, that is, to disable the selected products on the Cdiscount website. It means, it deletes the selected products from the Cdiscount website.

**To submit the selected bulk action on the selected products**

1. Go to the **Magento 2 Store Admin** panel.
2. On the left navigation bar, click the **CDISCOUNT INTEGRATION** menu.  
The menu appears as shown in the following figure:

3. Click **Product Listing**.

The **Cdiscount Product Listing** page appears as shown in the following figure:

4. To validate the selected products, do the following steps:

- a. Select the checkboxes associated with the required products.

- b. In the **Actions** list, click the arrow button.  
A list appears as shown in the figure:

- c. Click **Validate Product**.  
A confirmation dialog box appears.
- d. Click the **OK** button.  
The selected products validation process is executed and the page appears as shown in the following figure:

The selected products are validated.

- e. Click the **Back** button to go back to the **Cdiscount Product Listing** page.  
If there is an error, then the **INVALID** buttons appear in the Validation column of the respective product rows.

**Note:** Click the **INVALID** buttons to view the error details.

- 5. To upload the selected products, do the following steps:
  - a. Select the check boxes associated with the required products.
  - b. In the **Actions** list, click the arrow button.  
A list appears as shown in the figure:

d. Click **Upload Product(s)**.

A confirmation dialog box appears.

e. Click the **OK** button.

The selected products uploading process is executed.

If the selected products are uploaded successfully, then a success message appears on the page.

If there is an error and the upload is failed, then the message appears shown in the following figure:

6. To update the inventory and price of the selected products, do the following steps:

a. Select the check boxes associated with the required products.

b. In the **Actions** list, click the arrow button.

A list appears as shown in the figure:

d. Click **Update Inventory & Price**.

A confirmation dialog box appears.

e. Click the **OK** button.

The selected products inventories and prices updating process is executed and the page appears as shown in the following figure:

The prices and the inventories of the selected products are updated on the Cdiscount website.

f. Click the **Back** button to go back to the **Cdiscount Product Listing** page.

7. To *unpublish products*, do the following steps:

a. Select the check boxes associated with the required products.

b. In the **Actions** list, click the arrow button.

A list appears as shown in the figure:

d. Click **Unpublish Product(s)**.

A confirmation dialog box appears.

e. Click the **OK** button.

If the selected products are available on the Cdiscount website, then they are removed from the marketplace and a success message appears on the page. If there is an error, then the error message appears.

## 7. Manage Cdiscount Orders

*Admin can do the following tasks while managing the Cdiscount orders:*

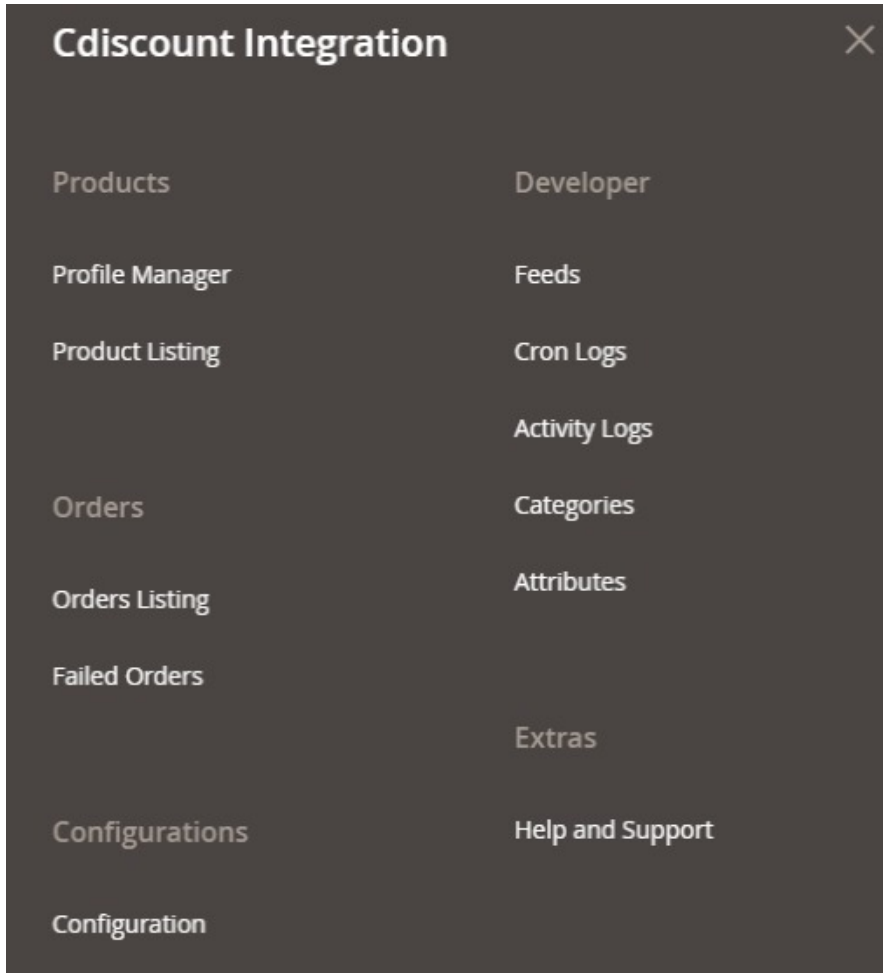

- Ship and delete the Cdiscount Orders
- View and delete the Failed Orders

### 7.1. Ship and Delete the Cdiscount Orders

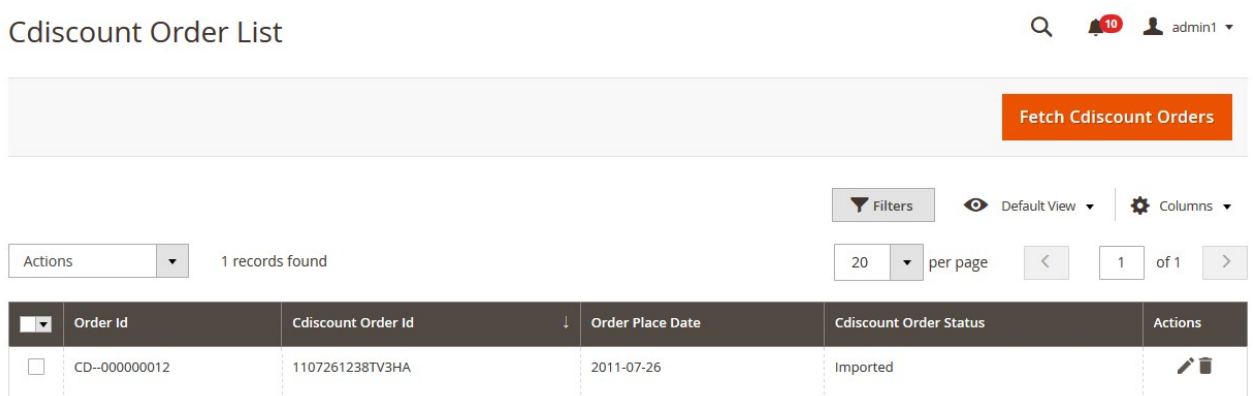

The Magento 2 store owners can fetch the new orders and view all the order details fetched from Cdiscount. They can also ship the required orders and can delete the orders those are no more required.

**To fetch and view new orders**

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **CDISCOUNT INTEGRATION** menu.  
The menu appears as shown in the following figure:

3. Click **Orders Listing**.  
The **Cdiscount Order List** page appears as shown in the following figure:

4. Click the **Fetch Cdiscount Orders** button.

If the order is imported successfully then, a new record is found in the Orders Grid table as shown in the figure.

**Notes:**

- Orders are automatically imported through CRON in every 10 minutes.
- Whenever the latest orders are imported from Cdiscount, a Notification appears in the notification area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported in the Magento 2 store admin panel.
- If no Order is imported, then check the Failed orders listed on the **Cdiscount Failed Order** page.
- Order are auto-rejected on Cdiscount in the following conditions:
  - When Cdiscount Product SKU does not exist in Magento 2 store.
  - When Product is Out of Stock in Magento 2 store.
  - When a product is disabled in Magento 2 store.

**To ship the Cdiscount order**

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **CDISCOUNT INTEGRATION** menu, and then click **Orders Listing**. The **Cdiscount Order List** page appears as shown in the following figure:

Cancel Order
Ship Order

6. Under the **Cdiscount Order Information** section, do the following steps:
  - a. In the **Shipping Provider** list, select the required carrier.
  - b. In the **Tracking Number** box, enter the required value.
  - c. In the **TrackingUrl** box, enter the required tracking URL.
7. Scroll down to the **Shipment Order Items** section, and then do the following steps.
  - In the **Quantity to Ship** box, enter a value.  
The number of a quantity that the user can ship. The value cannot be greater than the **Quantity ordered** value.

**Note:** This field is activated only if the **Quantity ordered** value is more than 1. Otherwise, by default **1** is selected and the field is deactivated.
8. Click the **Ship Order** button.  
The success message appears if the order is shipped successfully.

**To delete the Cdiscount orders**

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **CDISCOUNT INTEGRATION** menu, and then click **Orders Listing**.  
The **Cdiscount Order List** page appears as shown in the following figure:

3. To delete the single order, do the following steps:

- a. Scroll down to the order row no more required.
- b. In the **Action** column of the respective row, click the **Delete**

icon.

A confirmation dialog box appears.

- c. Click the **OK** button.

The order is deleted from the Cdiscount Marketplace.

4. To delete the selected Cdiscount orders in bulk, do the following steps:

- a. Select the check boxes associated with the orders those are no more required.
- b. Click the **Arrow** button next to the **Actions** list.

A menu appears as shown in the following figure:

- c. Click **Delete Order(s)**.

A confirmation dialog box appears.

- d. Click the **OK** button.

The selected orders are deleted from the Cdiscount Marketplace.

## 7.2. View and Delete the Failed Orders

The users can view the list of failed Cdiscount orders on the Cdiscount Failed Orders page.

### *In the following conditions, Orders are not imported from Cdiscount:*

- If any product in the Cdiscount Order is Out of Stock in the Magento 2 store.
- If any product in the Cdiscount Order is disabled in the Magento 2 store.
- If any Product does not exist in Magento 2 or is deleted from the Magneto 2 store after uploading on Cdiscount.
- If the selected Payment Method in Cdiscount System Configuration Setting is not available in the Magento 2 store.

### *To view Cdiscount failed orders*

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **CDISCOUNT INTEGRATION** menu.

The menu appears as shown in the following figure:

3. Click **Failed Orders**.

The **Cdiscount Failed Order** page appears as shown in the following figure:
