1. Overview

As an e-commerce continues to grow in Thailand, the Lazada marketplace offers the opportunities to both the new and the experienced sellers to reach new markets, benefit from Lazada support in advertising their goods and monitor critical data on how their store is performing.

With more than 4.5 million daily visits to its sites and close to 100 per cent geographical distribution coverage, Lazada has become the clear choice for sellers throughout Southeast Asia.

The Lazada Integration for Magento 2 helps the Magento® 2 store owners to boost their business and generate the revenue as it interacts with Lazada API's to connect the Magento® 2 stores to Lazada. It provides an opportunity to cover a wide range of customers.

Admin gets an authority to create Lazada Categories and the dependent attributes on the Magento 2 store. It also enables you to establish a mapping of the desired product category on the Magento 2 store for automatic submission of the selected product to the same category on Lazada.com.

This extension interacts with the Lazada Marketplace to integrate the synchronized product listing between Magento® 2 and the Lazada.com retailers.

It enables the admin to manage the Lazada orders on the seller's Magento® 2 stores without making any significant changes to operational functionalities.

Synchronizing orders, products, pricing, and inventory is possible through establishing the communication between Lazada APIs and the Magento® 2 store.

Key Features are as follows:

- **Product Upload Based on Profile:** Enables the admin to create a profile based on single category, and then assign the products to the profile to automate the product upload.
- **Magento Order creation:** The newly placed orders on Lazada.com are automatically created in the Magento® 2 store with all the required details as it is on Lazada.com.
- **Product Data Validation:** The extension enables validating the product information in accordance with Lazada standard and values.
- **Bulk upload Methodology:** Admin gets the authority to upload bulk products on Lazada but just selecting the products and upload in one go.
- **Auto synchronization:** Auto synchronization of the product listing, order, inventory, return and refund, and pricing at regular intervals is established between Magento® 2 and Lazada.com.
- **Bulk upload Methodology:** Admin gets the authority to upload bulk products on Lazada but just selecting the products and upload in one go.
- **Email Notification:** Admin receives the notification through the mail on new order creation, low stock and if the product is rejected from Lazada.
- **Auto-shipment procedure:*** Provides admin an ability to automatize process of shipment with Shipstation, Shipwork, Stamps.com, Linnworks, Xtento, Shiprush.
- **Product category mapping:** Follows many-to-one category mapping philosophy. Admin can map many categories of the Magento® 2 stores to the single category of Lazada.

2. Lazada Integration for Magento 2 Extension Installation

To install the Lazada Integration and LazadaAuth Extension-

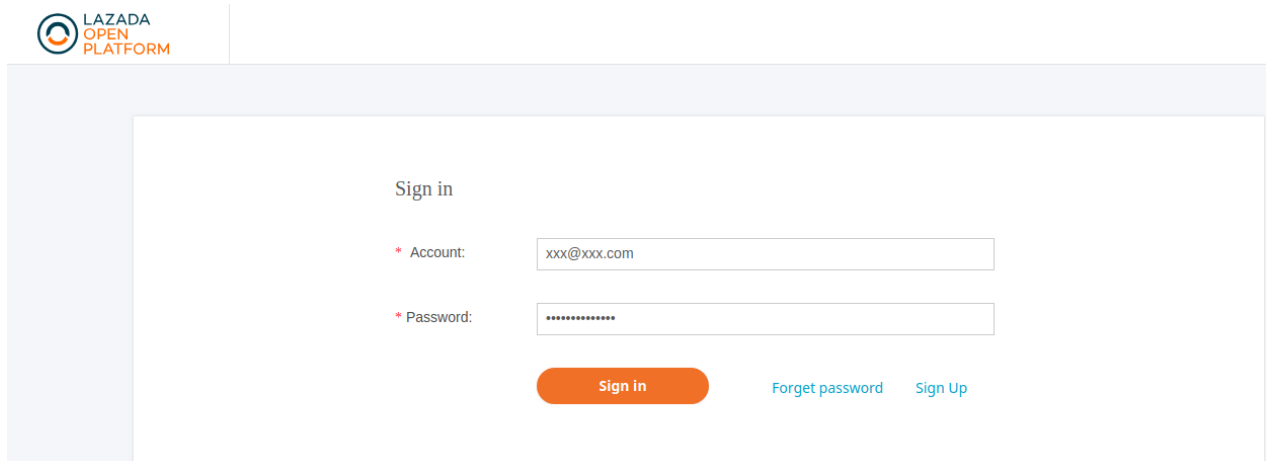

1. Log in the **ftp**, and then go to Magento 2 root folder (generally present under the [public_html](#) folder).
2. Create a new folder named [code](#) under the [app](#) folder; under the [code](#) folder, create a folder named [Ced](#).

- Upload or Drag and Drop `app/code/Ced/Lazada` directory and Upload or Drag and Drop `app/code/Ced/LazadaAuth` directory. For installing the integrator, upload or drag and drop `app/code/Ced/Integrator`
- After successfully uploading the directory, the extension will be installed/upgraded.
- Now run the following upgrade command in cmd
`php bin/magento setup:upgrade`
`php bin/magento setup:di:compile`
- After upgrade deploy static content:
`php bin/magento setup:static-content:deploy-f`

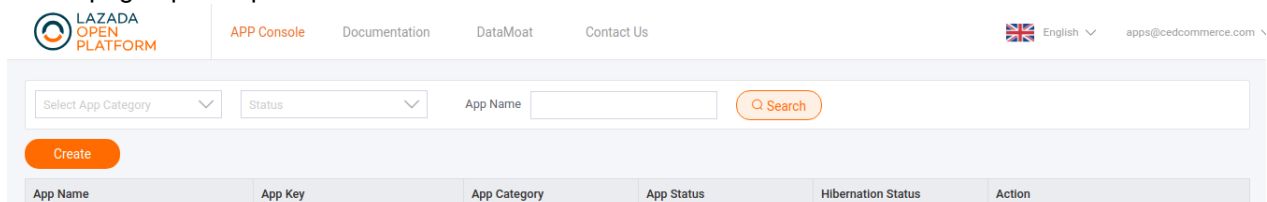

3. Manage Apps

To begin with, this setting a Lazada seller needs to create an app on the Lazada seller panel.

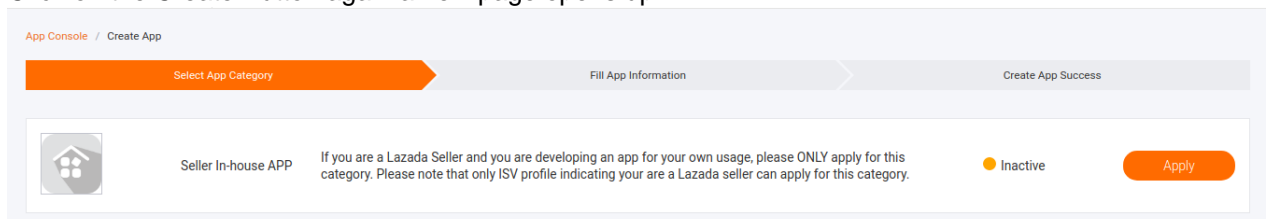

- Go to the Lazada Seller Panel by clicking on this link(https://sellercenter.lazada.com.ph/apps/seller/login?redirect_url=https%3A%2F%2Fsellercenter.lazada.com.ph%2F)
- Enter the authentication details here:

- A new page opens up as shown below:

- Click on the Create Button again a new page opens up:

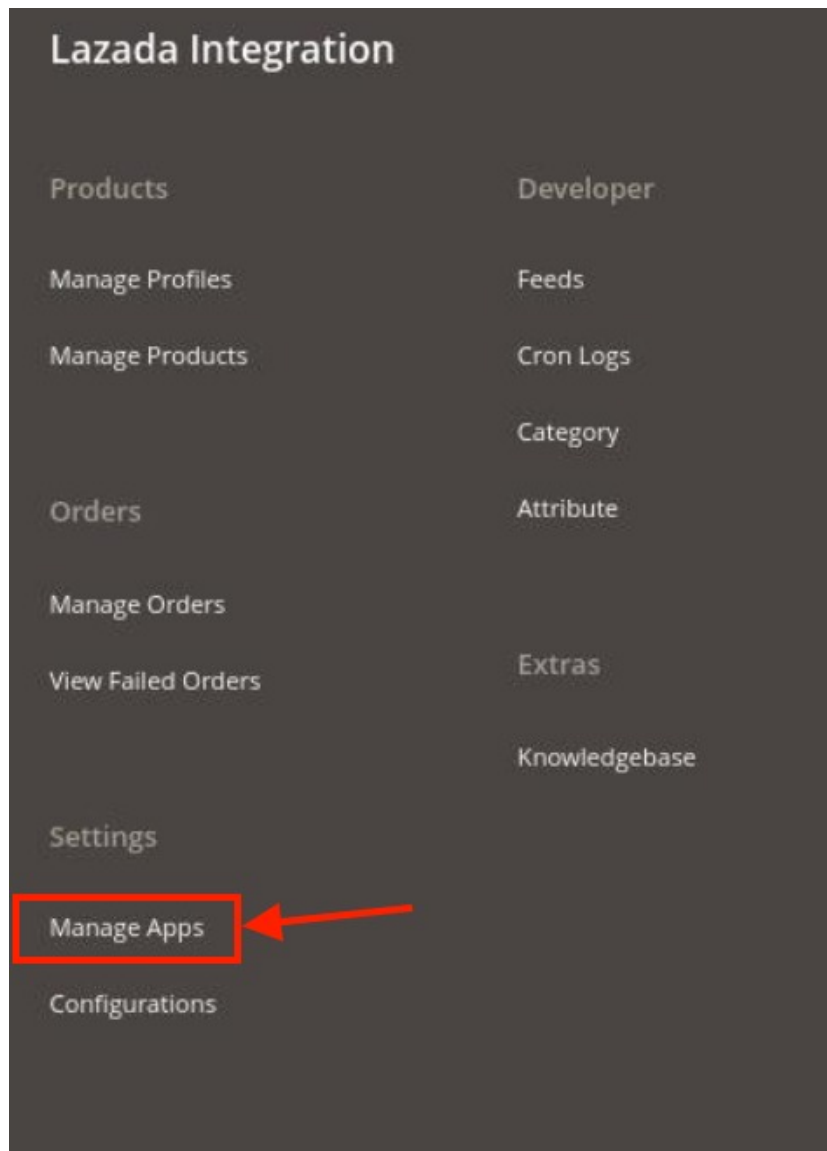

- In the Seller In-house APP, click on **Apply**.

- Follow the other instructions and create an app successfully.

To view and manage apps:

1. Go to **Magento Admin Panel**.
2. On the left navigation bar, click the **LAZADA INTEGRATION** menu.
A menu appears as shown in the following figure:

3. Click on **Manage Apps**.
The **Lazada Apps** page appears as shown in the following figure:

App Status **Test** Apply Online

- Under the advanced information, both the App Key and the App Secret Key are mentioned.
13. Now move back to your Magento panel.
 14. Under the store option, choose the **Default Store** for your **Lazada Integration Extension**.
 15. You can cut all the chase if you have the **App Code** which is to be entered in the App Installation.

App Installation

By Code

Install

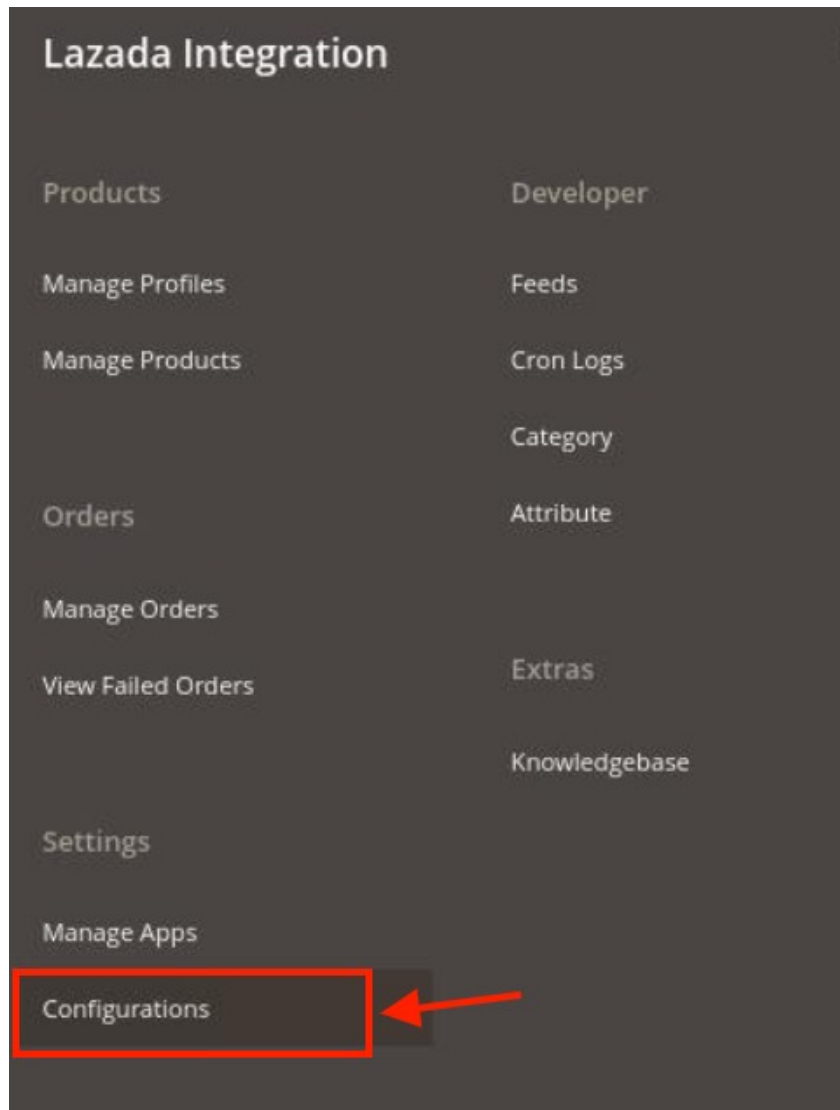

16. Now click on **Save and Continue** and the **Apps** settings are saved.

4. Lazada Configuration Settings

Once the extension is successfully installed in the Magento 2 store, the **LAZADA INTEGRATION** menu appears on the left navigation bar of the Magento 2 Admin panel. The merchant has to first create a seller account in the Lazada seller panel. Once the seller account is created and is approved by Lazada, then the Magento 2 store owners can use the Lazada **API credentials provided by Lazada** while setting up the Lazada Configuration settings in the **Magento 2 Admin** panel.

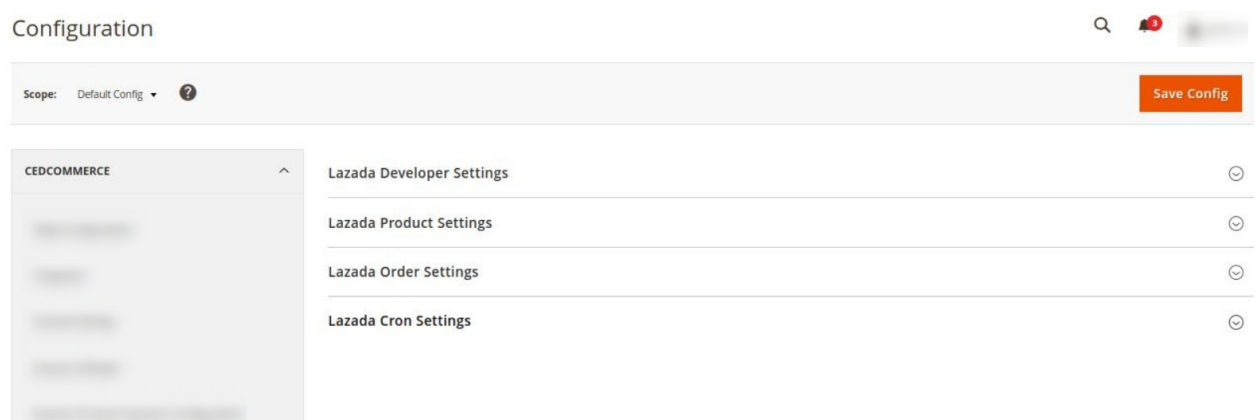

To set up the configuration settings in the Magento 2 Admin panel

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **LAZADA INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Configuration**.

The **Configuration** page appears as shown in the following figure:

4. In the right panel, click the **Lazada Developer Settings** tab.

The **Lazada Seller/Developer Settings** tab is expanded and the relevant fields appear as shown in the

following figure:

Lazada Developer Settings

Debug [global] Yes

5. Under **Lazada Developer Settings**, do the following steps:
 - a. In the **Debug**, select **Yes** for enabling the debugging.
6. Click the **Save Config** button to save the entered values.
7. Scroll down to the **Lazada Product Settings** tab, and then click the tab.
The **Lazada Product Settings** tab is expanded and the expanded section appears as shown in the following figure:

Lazada Product Settings

⌵ **Lazada Price Settings**

⌵ **Lazada Inventory Settings**

8. Under **Lazada Product Settings**, do the following steps:
 - a. Click the **Lazada Price Settings** tab.
The **Lazada Price Settings** tab is expanded and the section appears as shown in the following figure:

Lazada Product Settings

⌵ **Lazada Price Settings**

Product Price [global] Default Magento Price
Select to send a different product price to **Lazada**

Include Taxes [global] Yes
Add taxes to product price to be sent to **Lazada**

- b. Under **Lazada Price Settings**, do the following step:
 - i. In the **Product Price** list, select one of the following options:
 - Increase by Fixed Price:** If selected, then the **Modify by Fix Price** field appears.
 - Increase by Fixed Percentage:** If selected, then the **Modify by Percentage Price** field appears.
 Enter the numeric value to increase the price of the Lazada, product price by the entered value % of Magento 2 price.

⌵ Lazada Price Settings

Product Price [global] Increase By Fixed Percentage ▼
 Select to send a different product price to **Lazada**

Modify by Percentage Price [global]
 Numeric value Required for **Add/subtract % on Magento price** 5 for Example: Magento price +/- 5% of Magento price.

For Example,

Magento 2 price + 5% of Magento 2 price.

Magento 2 Price = 100

Select **Increase By Fixed Percentage** option

Modify by Percentage Price = 5

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Lazada Product Price = 105

Decrease by Fixed Price: If selected, then the **Modify by Fix Price** field appears.

Decrease by Fixed Percentage: If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to decrease the price of the Lazada product price by the entered value % of Magento 2 price

For Example,

Magento 2 price – 5% of Magento 2 price.

Magento 2 Price = 100

Select **Decrease By Fixed Percentage** option

Modify by Fix Price = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Lazada Product Price = 95

ii. In **Include Taxes**, select Yes if you want to add the tax to the product.

c. Click the **Lazada Inventory Settings** tab.

The **Lazada Inventory Settings** tab is expanded and the section appears as shown in the following figure:

⌵ Lazada Inventory Settings

Set Inventory on Basis of Threshold [global] Disable ▲
 Choose yes to send inventory on lazada by condition

d. Under the **Lazada Inventory Settings** tab, do the following steps:

i. In the **Set Inventory on Basis of Threshold** list, select the **Enable** option if required to set the inventory based on a threshold.

Note: Only when the admin selects **Enable**, the other fields appear. Threshold Inventory is the minimum count of an item that the store owner wants to keep in stock.

The section appears as shown in the following figure:

⌵ Lazada Inventory Settings

Set Inventory on Basis of Threshold <small>[global]</small>	<input type="text" value="Enable"/>
	Choose yes to send inventory on lazada by condition
Inventory Threshold Value <small>[global]</small>	<input type="text" value="10"/>
	Set inventory quantity on which lesser and greater condition can control.
Send Inventory for Lesser Than Threshold Case <small>[global]</small>	<input type="text"/>
	Send Quantity to Lazada for those products, whose inventory is LESSER than the inventory threshold.
Send Inventory for Greater Than Threshold Case <small>[global]</small>	<input type="text"/>
	Send Quantity to Lazada for those products, whose inventory is GREATER than the inventory threshold.

ii. In the **Inventory Threshold Value** box, enter the required value.

iii. In the **Send Inventory for Lesser Than Threshold Case** box, enter the required value.

iv. In the **Send Inventory for Greater Than Threshold Case** box, enter the required value.

9. Click the **Save Config** button to save the entered values.

10. Scroll down to the **Lazada Order Settings** tab, and then click the tab.

The tab is expanded and the section appears as shown in the following figure:

Lazada Order Settings

Lazada Order Id Prefix <small>[global]</small>	<input type="text"/>
	Prefix for Lazada Increment ID
Auto invoice imported order <small>[global]</small>	<input type="text" value="Disable"/>
	Auto Invoice Order Imported from Lazada in any case of successfull import.
Auto cancel failed order <small>[global]</small>	<input type="text" value="Enable"/>
	Auto Cancel Order on Lazada in any case of failure such as 'No Inventory'.
Enable Default Customer <small>[global]</small>	<input type="text" value="Yes"/>
Default Customer <small>[global]</small>	<input type="text"/>
Delivery Type <small>[global]</small>	<input type="text" value="Drop Shipping"/>
Enable Notification <small>[global]</small>	<input type="text" value="Disable"/>
	Order import notification via email to store admin

11. Under **Lazada Order Settings**, do the following steps:

- In the **Lazada Order Id Prefix** box, enter the required order Id prefix.
- In **Auto Invoice Imported Order**, select **Enable** if want the automatic invoice for orders imported from Lazada.
- In **Auto Cancel Failed Order**, select **Enable** if you want to cancel the failed orders automatically.
- In the **Enable Default Customer** list, select the **Yes** option to enable the default customer.

The field appears as shown in the following figure:

Default Customer [global] 

- In the **Default Customer** list, select the required customer name.
 - In **Delivery Type**, select the type of delivery of the product.
 - In the **Enable Notification** box, select Enable to receive order import notifications.
12. Click the **Save Config** button to save the entered values.
 13. Scroll down to the **Lazada Cron Settings** tab, and then click the tab.
- The tab is expanded and the section appears as shown in the following figure:

Lazada Cron Settings

Order Cron [global] 
Order Fetch Cron

Inventory | Price Cron [global] 
Inventory Sync Cron

14. Under **Lazada Cron Settings**, do the following steps:
 - a. In the **Order Cron** list, select **Enable** to enable the fetch order cron.
 - b. In **Order Status Sync Cron**, select **Enable** to synchronize the lazada order status.
 - c. In the **Inventory | Price Cron** list, select **Enable** to enable the Inventory & Price Sync cron.
15. Click the **Save Config** button to save the entered values.

5. Manage Lazada Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento 2 attributes to the Lazada attributes. These attributes are applicable to all the products that are assigned to the profile.

Admin can do the following tasks:

- Add new profile(<https://docs.cedcommerce.com/magento-2/lazada-magento-2-integration-guide-0-0-1?section=add-a-new-profile-20>)
- Edit the existing profile(<https://docs.cedcommerce.com/magento-2/lazada-magento-2-integration-guide-0-0-1?section=edit-the-existing-profile-30>)
- Bulk Action on the Selected Profiles(<https://docs.cedcommerce.com/magento-2/lazada-magento-2-integration-guide-0-0-1?section=submit-bulk-action-on-the-selected-profiles>)

5.1. Add A New Profile

To add a new profile

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **LAZADA INTEGRATION** menu.

3. Click on **Profile Manager**.
The **Manage Profile** page appears as shown in the following figure:

Manage Profile Add New Profile

Filters Default View Columns

Actions 1 records found 20 per page 1 of 1

	ID	Profile Code	Profile Name	Status	Action
<input type="checkbox"/>	2	lazada	Lazada	Enabled	Edit

4. Click the **Add New Profile** button.

Note: Please create an app first then the admin will be able to create the profile.

The **New Profile** page appears as shown in the following figure:

Add A New Profile

← Back Save Save and Continue Edit

General Information

Enable Profile ☒ Yes

Profile Code *

Profile Name *

5. Under the **General Information**, do the following steps:

a. In the **Enable Profile**, select **Yes** to enable the profile.

Note: Selecting No option disables the profile.

b. In the **Profile Code** box, enter a profile code.

Note: It is only for internal use. Use the unique profile code with no spaces. Start with small letters.

c. In the **Profile Name** box, enter the name of the profile.

Note: Use the unique name to identify the profile.

6. Now, click the **Profile Mapping** menu.

The page appears as shown in the following figure:

Profile Mappings

Profile App *

Lazada Profile Type * Manual

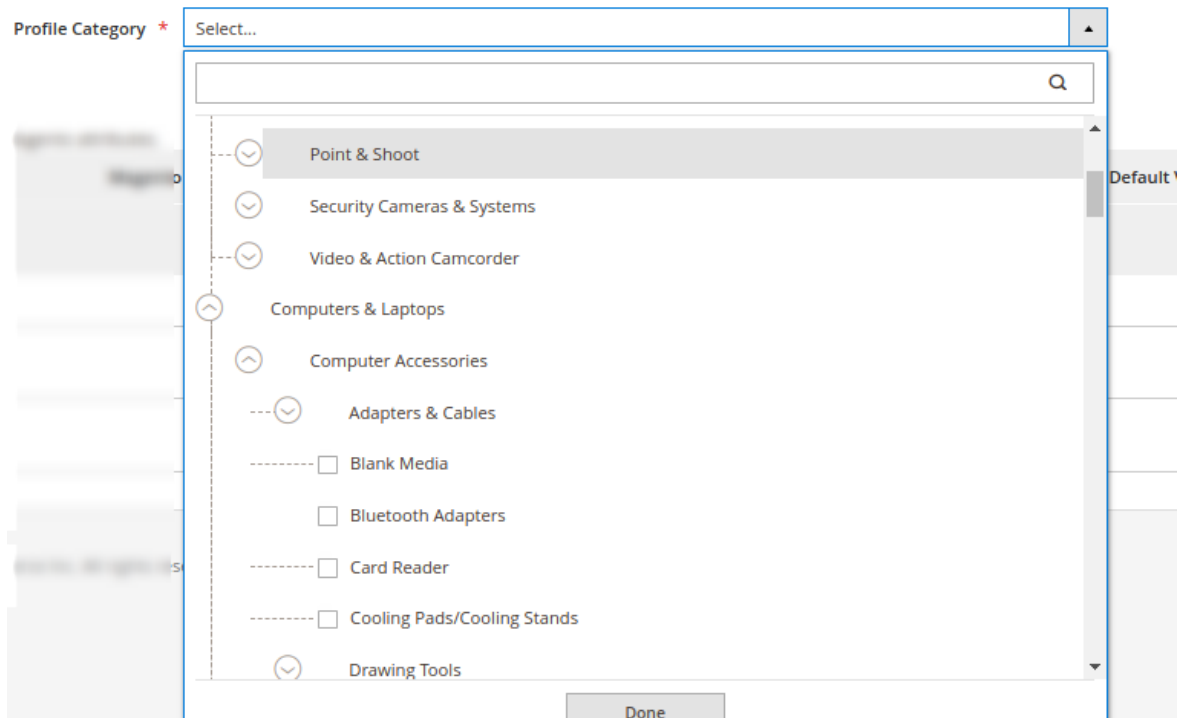

Profile Regions * Philippines

Profile Category * Select...

Please map all Lazada attributes with Magento attributes.

Lazada Attribute	Magento Catalog Attribute	Is Secondary Store	Default Value	Action
Add Attribute				

- The user first needs to choose the default application for the profile from the **Profile App** drop-down menu.
- In **Lazada Profile Type**, select the profile type from the menu.
- Now choose the region you choose to sell with this profile from the **Profile Regions**.
- In the **Parent Category** list, select the required category and subcategory from the drop-down menu as shown.

- Then map all the Lazada attributes with the Magento attributes.

7. Scroll down to the **Product Price Rules** and the section expands as:

Product Price Rules

Pricing Type * Not Change

Pricing Value

8. In the **Pricing Type** choose one of the following options:

- **Increase by Fixed Price:** If selected, then the **Modify by Fix Price** field appears.
- **Increase by Fixed Percentage:** If selected, then the **Modify by Percentage Price** field appears.
Enter the numeric value to increase the price of Lazada, product price by the entered value % of Magento 2 store price.
For Example,
Magento 2 price + 5% of Magento 2 price.
Magento 2 Price = 100
Select **Increase By Fixed Percentage** option
Modify by Percentage Price = 5
 $100 + 5\% \text{ of } 100 = 100 + 5 = 105$
Thus, Lazada Product Price = 105
- **Decrease by Fixed Price:** If selected, then the **Modify by Fix Price** field appears.
- **Decrease by Fixed Percentage:** If selected, then the **Modify by Percentage Price** field appears.
Enter the numeric value to decrease the price of the Lazada product price by the entered value % of Magento 2 store price
For Example,
Magento 2 price – 5% of Magento 2 price.
Magento 2 Price = 100

Select **Decrease By Fixed Percentage** option

Modify by Fix Price = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Lazada Product Price = 95

9. Enter the Price Value in the next column of **Pricing Value**.

10. Now move to the last section of the profile settings which is the **Profile products**.

Profile Products 

Default Store * 

Secondary Store * 

Product Selection *

Product Addition *

Search and Add [Reset Filter and Remove](#) 2050 records found per page of 103

ID	Profile	Store Category	Name	SKU	Price	Actions

8. To view product details, click on the **View** button.

The product will be displayed.

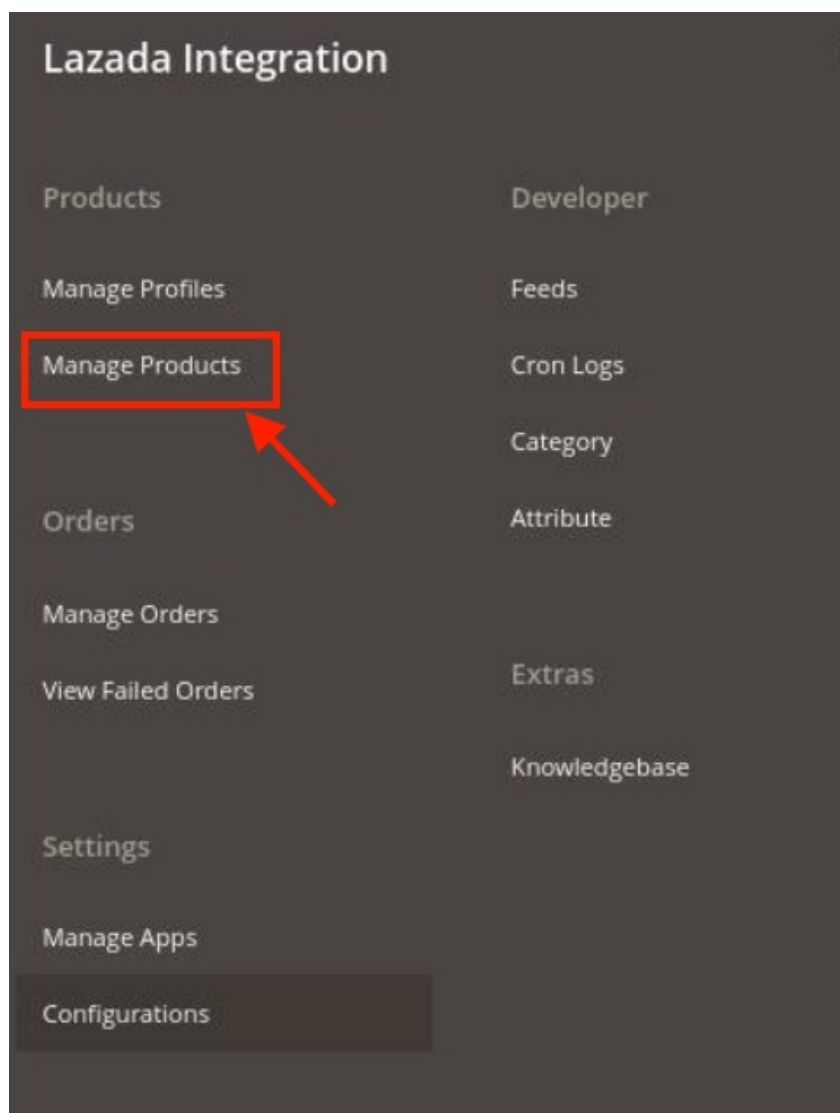

6.2. Submit Bulk Action on the Selected Products

Admin can perform the following tasks through the Bulk Action feature:

- **Validate Product:** To validate the selected products before uploading to the Lazada website. It displays the corresponding validation error, if any. If there is no error, it confirms that the product is ready to upload.
- **Upload Products:** To validate and upload the selected products to the Lazada website. It displays the corresponding validation error, if any. If there is no error, then the selected products are validated and uploaded, and a success message appears.
- **Update Products:** To update the products edits on Lazada.
- **Update Inventory & Price:** To update the inventory and price of the selected products on Lazada. This action completes the entire job related to the product inventory and also it manages the quantity related issues. *For example*, if the user has changed the product price on the Magento 2 store and also wants to change the price on Lazada then this action is applicable. The price is updated when the user submits this action for the selected product.
- **Delete Products:** Removes the selected products from the Lazada website.

To submit the selected bulk action on the selected products

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **LAZADA INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click on **Product Listing**.

The **Lazada Product Listing** page appears as shown in the following figure:

- c. Click on **Update Inventory & Price**.

A confirmation dialog box appears.

- d. Click the **OK** button.

The inventories and the prices of the selected products are updated and a success message appears on the page.

7. Manage Lazada Orders

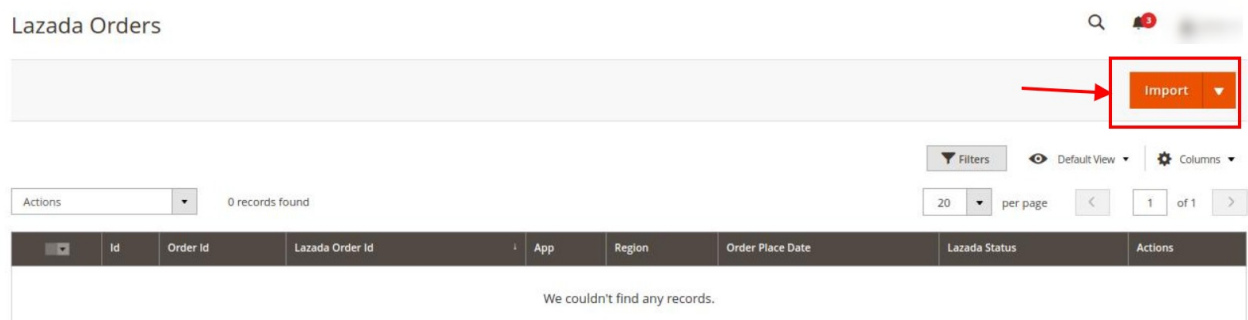

The Magento 2 store owners can fetch the new orders and view all the order details fetched from Lazada. They can also ship the required orders and can delete the orders those are no more required.

To fetch new orders

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **LAZADA INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click on **Manage Orders**.
The **Lazada Order List** page appears as shown in the following figure:

4. Click on the **Import** button.

If the order is imported successfully then, a new record is found in the **Orders Grid** table as shown in the figure.

Notes:

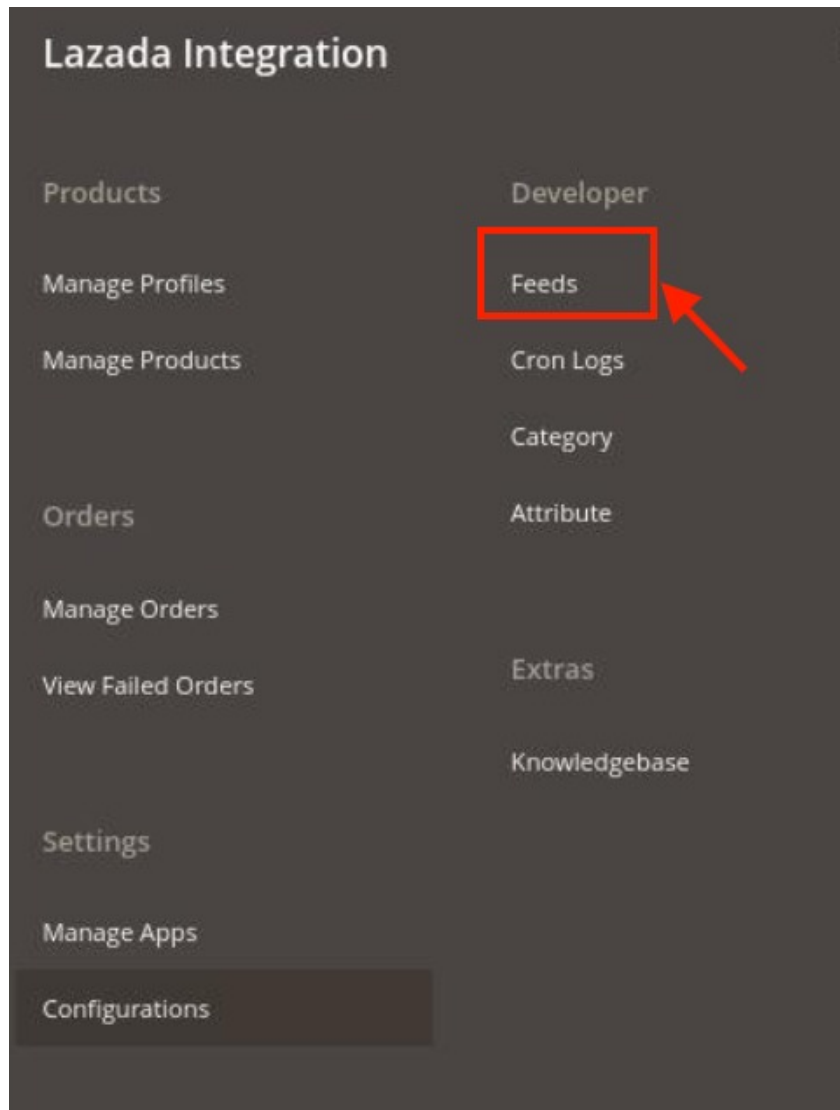

- Orders are automatically imported through CRON in every 10 minutes.
- Whenever the latest orders are imported from Lazada, a Notification appears in the notification area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported in the Magento admin panel.
- If no Order is imported, then check the Failed orders listed on the **Lazada Failed Order** page.
- Order are auto rejected on Lazada in the following conditions:
 - When Lazada Product SKU does not exist in Magento.
 - When Product is Out of Stock in Magento.
 - When a product is disabled in Magento.

8. Lazada Feeds

After uploading the product on Lazada or after updating the product inventory or the product price, the user can check the status of the feed and sync the selected feeds from the Lazada Feeds page.

To view and manage the product feeds

1. Go to **Magento Admin Panel**.
2. On the left navigation bar, click the **LAZADA INTEGRATION** menu.
A menu appears as shown in the following figure:

3. Click **Feeds**.

The **Lazada Feeds** page appears as shown in the following figure:
