## 1. Overview

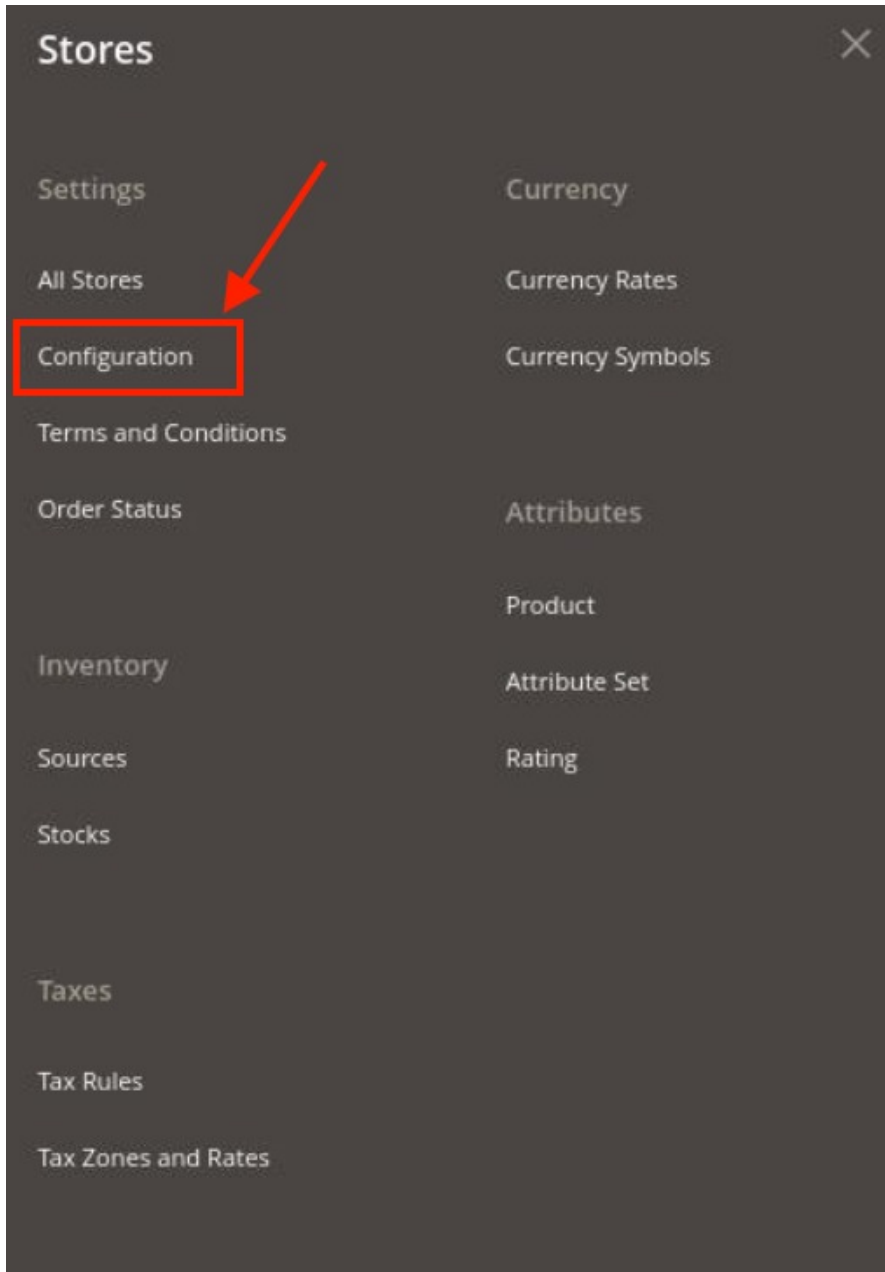

Multiple Product Carousel Extension for Magento 2 is an add-on that helps sellers to display products on their website through a carousel, making the product navigation easier for the customers. This can be used by the sellers for advertising and promoting the products.

This Magento extension will help sellers easily create product carousels and arrange the products in them according to their feasibility and order.

## 2. Configuration Settings

To Configure Extension,

1. Go to **Magento Admin Panel**.
2. On the left side in the navigation bar menu click on **Store**.

3. Click on **Configuration**.  
The configuration page appears as shown below:

4. Under **Product Carousel** settings, in the **General Settings** in **Module Enable** select **Yes** to enable the extension settings.

### 3. Manage Carousel

To manage the carousel,

1. Go to **Magento Admin Panel**.
2. On the left side in the navigation bar menu click on **Product Carousel**

3. Click on **Manage Carousel**.  
The **Manage Product Carousel** appears as shown below:

Manage Product Carousel

<input type="checkbox"/>	19			Enabled	<a href="#">Edit</a>
<input type="checkbox"/>	20			Enabled	<a href="#">Edit</a>
<input type="checkbox"/>	21			Enabled	<a href="#">Edit</a>
<input type="checkbox"/>	22			Enabled	<a href="#">Edit</a>
<input type="checkbox"/>	23			Enabled	<a href="#">Edit</a>
<input type="checkbox"/>	24			Enabled	<a href="#">Edit</a>

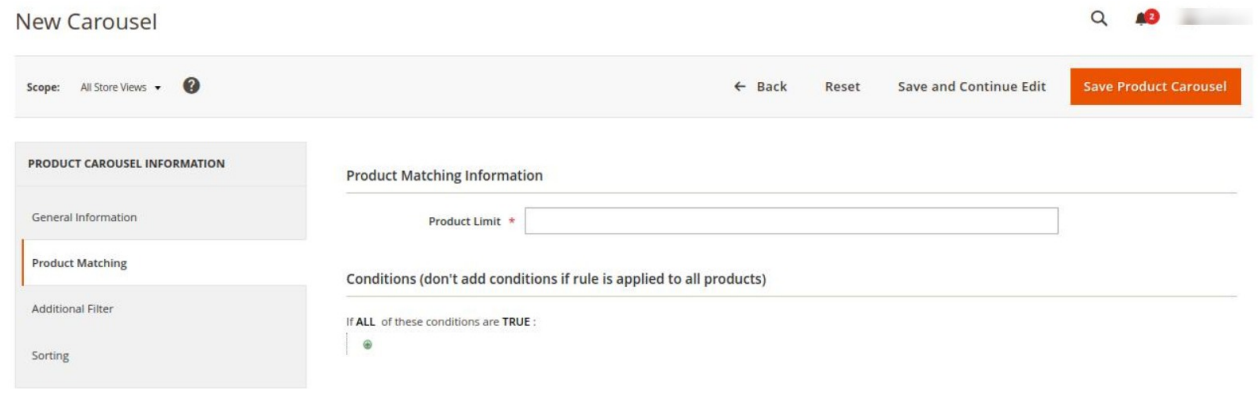

4. To add a product carousel click on **Add Product Carousel** button.  
The **New Product Carousel Page** appears as shown below:

5. Under **General Information**, do the following steps:

- In the **Status**, select **Enable**.
- In the **Title**, enter the title of the carousel.
- In the **Identifier**, enter the identifier name.
- In the **Number of Items**, enter the number of items for the carousel.
- In the **Number of items in Desktop**, enter the items to be displayed on the desktop.
- In **Number of Items in Tablet Landscape**, enter the items to be displayed in the landscape mode in Tablet.
- In the **Number of Items in Tablet Portrait**, enter the items to be displayed in the portrait mode in Tablet.
- In the **Number of items in Smartphone**, enter the items to be displayed on the smartphone.
- In **Show Navigation Dots**, select **Yes** if you want navigation dots.
- In **Show Navigation Arrows**, select **Yes** if you want the navigation arrows.
- In **Show Add To Cart**, select **Yes** if you want the add cart button in the carousel.
- In **Show Out of Stock**, select **Yes** if you want to display the out-of-stock products.

6. Now click on **Product matching**, the tab expands as shown below:

7. Under **Product Matching**, do the following steps:

- In **Product Limit**, enter the limit for the products.
- In the **Conditions**, add the condition of the products.

8. Now click on **Additional Filter**, the section is expanded as shown below:

The screenshot shows the 'New Carousel' configuration page. On the left, a sidebar titled 'PRODUCT CAROUSEL INFORMATION' has 'Additional Filter' selected. The main content area is titled 'Additional Filter Information' and contains the following fields:

- 'Show New Product Only' with a dropdown menu set to 'Yes'.
- 'From Date' with a text input field and a calendar icon.
- 'To Date' with a text input field and a calendar icon.

At the top of the page, there is a navigation bar with 'Scope: All Store Views', 'Back', 'Reset', 'Save and Continue Edit', and a prominent 'Save Product Carousel' button.

9. Under **Additional Filter**, do the following steps:

- In **Show New Product Only**, select **Yes** if ant to show only new products in the carousel.
- In **From Date**, select the Date from which the product will be displayed.
- In **To Date**, select the end date for the products display in the carousel.

10. Now click on the **Sorting** menu, it is expanded as shown below:

The screenshot shows the 'New Carousel' configuration page with the 'Sorting' section active. The sidebar on the left now has 'Sorting' selected. The main content area is titled 'Sorting Information' and contains the following fields:

- 'Attribute' with a dropdown menu set to 'Categories'.
- 'Sort By' with a dropdown menu set to 'Ascending'.

The navigation bar at the top remains the same, with the 'Save Product Carousel' button highlighted in orange.

11. Under **Sorting**, do the following steps:

- In **Attributes**, select the categories created.
- In **Sort By**, select the order as Ascending or Descending for the products to appear in the carousel.

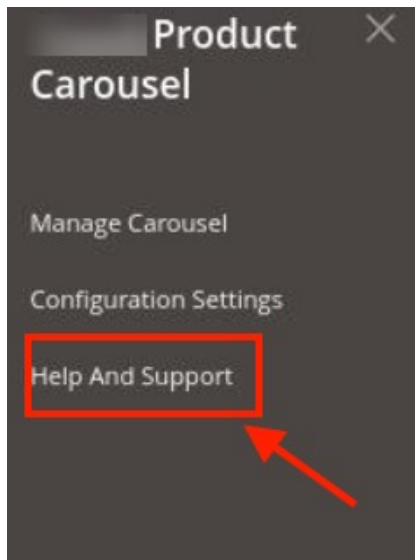

12. Click on **Save Product Carousel** Button.

The carousel will be saved and displayed in Manage Carousel Grid.

## 4. Help and Support

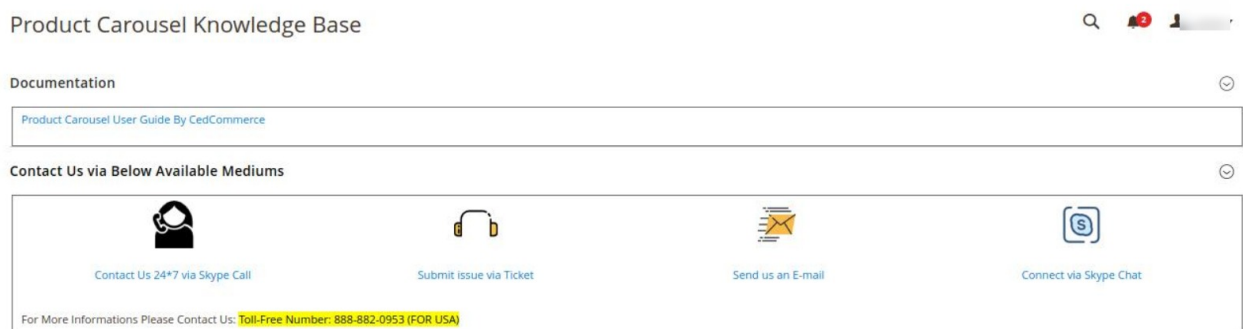

To View Help and Support,

1. Go to **Magento Admin Panel**.
2. On the left side in the navigation bar menu click on **Product Carousel**

3. Click on **Help and Support**.

The page appears as shown below:

4. You can refer to the Extension document from the link given under the **Documentation** section.

5. Also, you can Connect with CedCommerce via **Skype, Ticket, or Email**.
