1. Overview

Vidaxl Dropshipping Module

Dropshipping Vidaxl Module helps you to import Vidaxl products from your selected category into your store in bulk and create it as well as provide an order management system.

Key features:

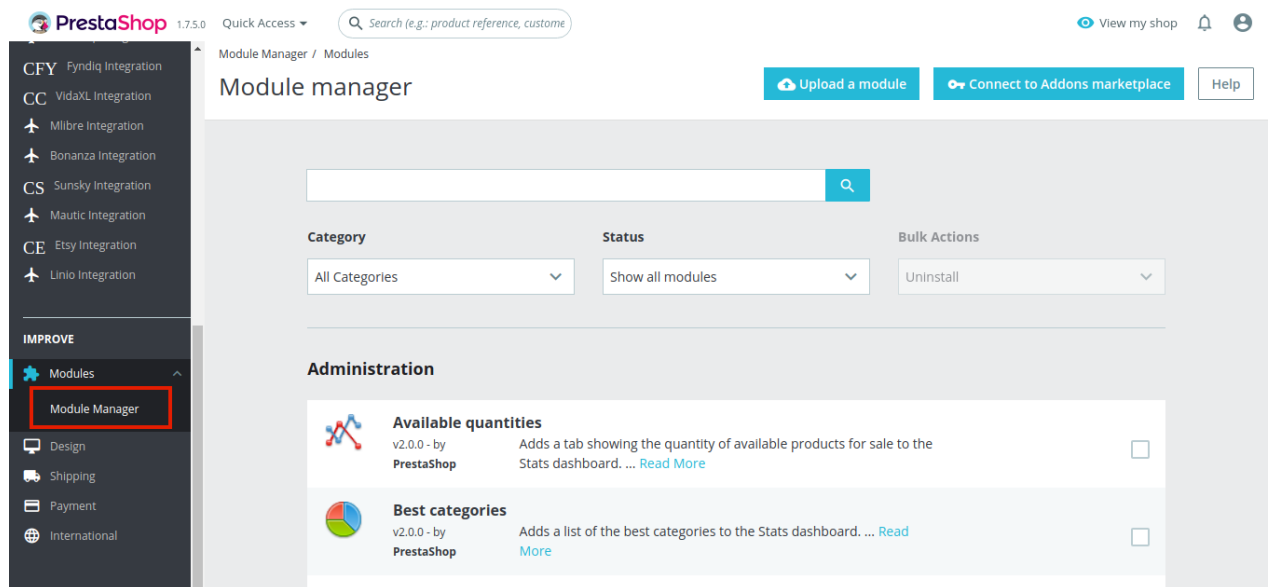

- **Bulk Import Product:** With the help of Vidaxl API merchants can import any number of products from Vidaxl into our system and earn a higher commission.
- **Category Mapping:** From this module, merchants can choose the Vidaxl category and map with the Prestashop category if they don't need to create a new category and import products in bulk one at a time.
- **Centralized Order Management:** Easy management of Vidaxl orders into your store.
- **Crons:** Automate jobs for product creation, product image, and order sync and runs at every specific time.

2. Extension Installation

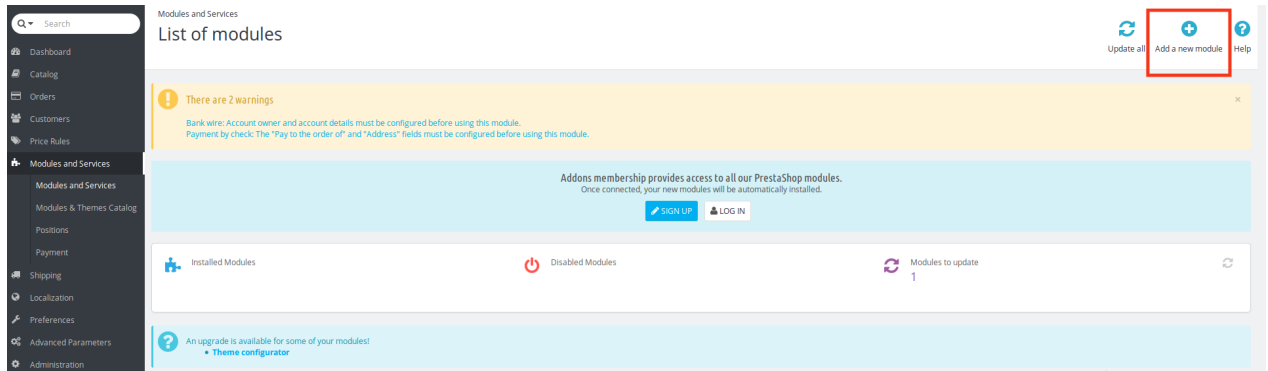

To install the extension:

1. Go to the **Prestashop admin panel**.
2. On the left navigation bar, point cursor to the **Modules and Services**.

The menu appears as shown in the following figure:

3. Now click the **Modules and Services** menu, and you will come across a page like shown below.
