1. Overview

ClaroShop is an online retail, general marketplace of Latin America, their headquarters are in Ave Insurgentes Sr #3500, 1er Piso, Col. Peña Pobre, Tlalpan, Mexico City, 14060, Mexico. ClaroShop marketplace having more than 1 million products including telemarketing receipts and accepts all forms of payments. ClaroShop has top categories products and mostly around 97% traffic and sellers from Mexico.

ClaroShop extensions provide integration features like, product listings, inventory management, price markup, order management and many more features.

Key Features:

- **Profile Based Product Upload:** You can create one simple profile, map the category, and attributes of your store and upload the profile one at a time.
- **Price Markup:** The seller can set different prices in-store like by percentage or fixed amount can change the price and different price to ClaroShop.
- **Inventory Management:** These important features will update your inventory once orders get imported into your store. Your inventory gets updated automatically through cron jobs.
- **Carrier Mapping:** The vendor can ship their products by their own carrier or by ClaroShop carrier to which they need to map with the carrier.
- **Order Management:** When a new order is placed on ClaroShop your order gets imported into your store by automating cron jobs and the seller can ship on time to customers.
- **Cron Management:** With this feature, the products, inventory, order, and pricing gets regularly updated after a fixed interval of time because of ClaroShop Prestashop sync established.

2. ClaroShop Extension Installation

To install the extension:

1. Go to the **Prestashop Admin panel**.
2. On the left navigation bar, point cursor to the **Modules and Services**.
