1. Overview

The **MercadoLibre Integration for Magento 2 Integration** extension interacts with the MercadoLibre marketplace to integrate the synchronized product listing between Magento® 2 store and MercadoLibre retailers. After the installation, the merchant can create MercadoLibre categories and the dependent attributes on the Magento® 2 store.

It enables admin to perform product related task such as product upload and product view using bulk management system.

With the help of this extension, the store owners can create a profile in which they can assign the products and then can upload to MercadoLibre.com. It enables the Magento store owner to manage the MercadoLibre orders on the Magento stores without making any significant changes in the operational functionalities.

You can boost up your business at MercadoLibre by integrating your store as it interacts with the MercadoLibre APIs to connect your Magento store to the MercadoLibre marketplace and thus, you have the opportunity to cover a wide range of customers.

Key features are as follows:

- **Cron:** Cron jobs automate the process to fetch the MercadoLibre orders from the MercadoLibre marketplace to the Magento® of customers.
- **Debug Mode:** Provides easy debug process for hassle-free product upload to the MercadoLibre marketplace.
- **Product Category Mapping:** Follow many to one category mapping methodology. Admin can map many categories of Magento® 2 store to a single category of MercadoLibre.
- **Profile Based Products Upload:** Admin can create a profile and after assigning the products to the profile can easily upload on MercadoLibre.
- **Simple Product Upload:** It enables admin to upload simple type of product on MercadoLibre.com.
- **Automated Synchronization:** Auto synchronization of the product listing, order, inventory, and pricing at regular intervals is established between Magento® 2 store and MercadoLibre.com.
- **Product Data Validation:** The extension enables the admin to validate the product information in accordance with MercadoLibre standard and values.
- **Low Stock Notifications:** Whenever the stock diminishes lower than the threshold, a notification is sent informing the status of the same.
- **New Order Notifications:** Whenever a new order is fetched from MercadoLibre.com, the admin receives a notification.
- **Rejected products notification:** If any product containing some invalid details is rejected, then its information is fetched from the auto synchronization request along with the error due to which it is rejected.

2. MercadoLibre Magento 2 Store Integration Extension Installation

To install the extension

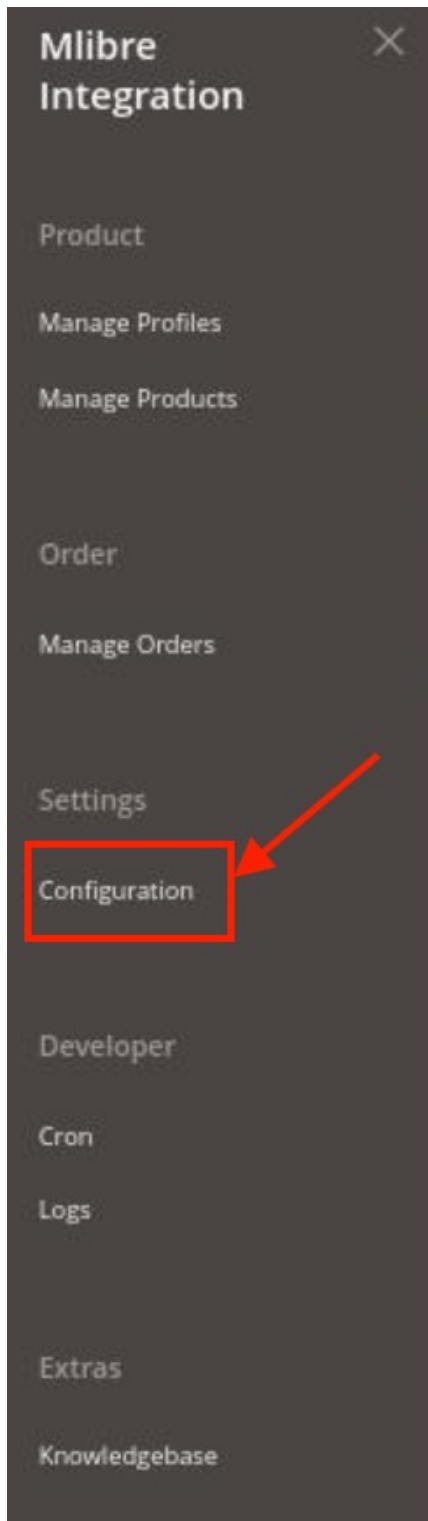

1. Log in the **ftp**, and then go to Magento 2 root folder (generally present under the *public_html* folder).
2. Create a new folder named *code* under the *app* folder; under *code* folder, create a folder named *Ced*.
 - Upload or Drag and Drop *app/code/Ced/Mlibre* directory.
 - After successfully uploading the directory, the extension will be installed/upgraded.
 - Now run the following upgrade command in *cmd*
php bin/magento setup:upgrade.

3. MercadoLibre Integration Configuration Settings

Once the extension is successfully installed in the Magento 2 store, the **MLIBRE INTEGRATION** menu appears on the left navigation bar of the Magento 2 store Admin panel. The merchant has to first create a seller account in the Mlibre seller panel. Once the seller account is created and is approved by Mercado Libre, the Magento 2 store owners have to obtain the AWS API Key values from the Mercado Libre Seller account, and then the Magento® 2 store owners have to paste it in the respective fields displayed on the **Mlibre Configuration** page of the admin panel.

To set up the configuration settings in the Magento 2 Admin panel

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **MLIBRE INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Configuration**.

The **Configuration** page appears as shown in the following figure:

Configuration

Store View: Default Config ? Save Config

CEDCOMMERCE ^	Mlibre Settings	⌵
General Setting	Mlibre Product Settings	⌵
Mlibre Configuration	Mlibre Order Settings	⌵
	Mlibre Cron Settings	⌵
	Mlibre Developer Settings	⌵

4. In the right panel, click the **Mlibre Settings** tab.

The **Mlibre Settings** tab is expanded and the relevant fields appear as shown in the following figure:

Mlibre Settings

Enabled [global] ▼

Install

5. Under **Mlibre Settings**, do the following:

- In the **Enabled** list, select the **Yes** option.
- Additional options opens up:

Mlibre Settings

Enabled [global] ▼

Site [global] ▼

Currency [global] ▼

Redirect Uri [global]

App Id [global]

Secret Key [global]

Select Store [global] ▼

Install

- c. In the side, column choose your desired country.
- d. Choose the default currency of your store.
- e. Copy the redirect Uri and paste it into your MercadoLibre Seller Panel.(<https://developers.mercadolibre.com/>)
- f. Now **choose the country** from the Mlibre Seller Panel.

- g. **Login** to your account.

- h. Goto **Test** and click on **Create New Application**.

- i. Paste the Uri generated above in the respective fields as shown in the image below.

Create new application

- j. After clicking on Create **App ID** and **Secret Key** will be generated. Copy them and paste them into the Magento Panel.
6. Scroll down to the **Mlibre Product Settings** tab, and then click the tab.
The **Mlibre Product Settings** tab is expanded and the expanded section appears as shown in the following figure:

Mlibre Product Settings

⌵ Mlibre Chunk Settings

⌵ Mlibre Price Settings

⌵ Mlibre Inventory Settings

7. Click **Mlibre Chunk Settings**, the section will expand as

Mlibre Product Settings

⌵ Mlibre Chunk Settings

Product Chunk Size [global]
Enter the size of a chunk for a product upload task.

Product Description Chunk Size [global]
Enter the size of a chunk for product description update task.

Product Delete Chunk Size [global]
Enter the size of a chunk for a product delete|reactivate|deactivate task.

- i. In the **Product Chunk Size** box, enter the size number of a chunk for a product upload queued task.
- ii. In the **Product Description Chunk Size** box, enter the size number of a chunk for a product upload feed.
- iii. In the **Price Delete Chunk Size** box, enter the size number of a chunk for a price to be deleted.
8. Click **Mlibre Price Settings**, the tab gets expanded as

⌵ Mlibre Price Settings

Product Price [global]
Select to send a different product price to Mlibre

- i. In the **Product Price** list, select one of the following options:

Increase by Fixed Price: If selected, then the **Modify by Fix Price** field appears.

Increase by Fixed Percentage: If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to increase the price of the **Mlibre**, product price by the entered value % of the Magento 2 store price.

For Example,

Magento 2 price + 5% of Magento 2 price.

Magento 2 Price = 100

Select **Increase By Fixed Percentage** option

Modify by Percentage Price = 5

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Mlibre Product Price = 105

Decrease by Fixed Price: If selected, then the **Modify by Fix Price** field appears.

Decrease by Fixed Percentage: If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to decrease the price of the Mlibre product price by the entered value % of Magento 2 price

For Example,

Magento 2 price – 5% of Magento 2 price.

Magento 2 Price = 100

Select **Decrease By Fixed Percentage** option

Modify by Fix Price = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Mlibre Product Price = 95

9. Click on **Mlibre Inventory Settings**, the tab gets expanded as:

 **Mlibre Inventory Settings**

Zero Inventory Product Upload
[global]

Skip Product

Select the action to be performed in-case the product have zero inventory on upload/update on **Mlibre**

Set Inventory on Basis of Threshold
[global]

Disable

Choose yes to send inventory on mlibre by condition

10. In the **Zero Inventory Product Upload** box, enter the action to be performed in case the product count in inventory on Mlibre drops down to zero.
11. In the **Set Inventory on Basis of Threshold** list, select the **Enable** option if required to set the inventory based on the threshold.

i. **Note:** Only when the admin selects **Enable**, the other fields appear. Threshold Inventory is the minimum count of an item that the store owner wants to keep in stock.

12. The section will expand as:

⌵ Mlibre Inventory Settings

Zero Inventory Product Upload [global]	<input type="text" value="Skip Product"/>
	Select the action to be performed in-case the product have zero inventory on upload/update on Mlibre
Set Inventory on Basis of Threshold [global]	<input type="text" value="Enable"/>
	Choose yes to send inventory on mlibre by condition
Inventory Threshold Value [global]	<input type="text"/>
	Set inventory quantity on which lesser and greater condition can control.
Send Inventory for Lesser Than Threshold Case [global]	<input type="text"/>
	Send Quantity to Mlibre for those products, whose inventory is LESSER than the inventory threshold.
Send Inventory for Greater Than Threshold Case [global]	<input type="text"/>
	Send Quantity to Mlibre for those products, whose inventory is GREATER than the inventory threshold.

- 13.
14. In the **Inventory Threshold Value** box, enter the required value.
15. In the **Send Inventory for Lesser Than Threshold Case** box, enter the required value.
16. In the **Send Inventory for Greater Than Threshold Case** box, enter the required value.
17. Scroll down to the **Mlibre Order Settings** tab, and then click the tab.

The tab is expanded and the section appears as shown in the following figure:

Mlibre Order Settings

⌵

Use seller information for 'To be Agreed' Order [global]	<input type="text" value="Enable"/>
	Use seller information in case of 'To be Agreed' orders. Seller address will set to order shipping address.
Fetch Order From [global]	<input type="text" value="Select"/>
Fetch Using Order status [global]	<input type="text" value="Not Imported"/>
Fetch Fetch Using Shipping status [global]	<input type="text" value="All"/>
Auto invoice imported order [global]	<input type="text" value="Disable"/>
	Auto Invoice Order imported from Mlibre in any case of successful import.
Auto cancel failed order [global]	<input type="text" value="Disable"/>
	Auto Cancel Order on Mlibre in any case of failure such as 'No Inventory'.
Mlibre order id prefix [global]	<input type="text"/>
	Prefix for Mlibre increment ID
Enable Notification [global]	<input type="text" value="Disable"/>
	Order Import notification via email to store admin
Enable Default Customer [global]	<input type="text" value="No"/>

18. Under **Mlibre Order Settings**, do the following steps:
 - a. In **Use Seller information "To Be Agreed" orders**, select **Enable** if you want the orders to be acknowledged automatically in case of successful import.

- b. In **Fetch Order From**, select the duration from which you want to fetch the created orders.
- c. In **Fetch Using Order Status**, select the status from the drop-down menu according to which you want to fetch the created orders.
- d. In **Fetch Using Shipping Status**, select the shipping status from the drop-down list according to which you want to fetch the order.
- e. In **Auto Invoice Imported Order**, select **Enable** if you want to use seller information & seller address will set to order shipping address.
- f. In the **Auto Cancel Failed Order** box, select the **Enable** option to auto cancel the orders on Mlibre in any case of failure such as **No Inventory**.
- g. In the **Mlibre Order Id Prefix** box, enter the required order Id prefix.
- h. In the **Enable Notification** list, select the **Enable** option to get order import notification via email.
The field appears as shown in the following figure:

Enable Notification [global]

Order import notification via email to store admin

Notification Email [global]

- i. In the **Notification Email** field, enter the email id on which you may get the notifications.
- j. In the **Enable Default Customer** field, select the **Yes** option to enable the default customer.
- i. The field appears as shown in the following figure:

Enable Default Customer [global]

Default Customer [global]

k.

- l. In the **Default Customer** list, select the required customer name.

19. Click **Mlibre Cron Settings** and the section will expand as:

Mlibre Cron Settings

Order Cron [global]

Order Fetch Cron

Price Cron [global]

Price Sync Cron

Inventory Cron [global]

Inventory Sync Cron

Shipment Cron [global]

This will automatically generate shipments

20.

21. In the **Order Cron** list, select the **Enable** option to enable the fetch order cron.

22. In the **Price Cron** list, select the **Enable** option to enable the price sync cron.
23. In the **Inventory Cron** list, select the **Enable** option to enable the inventory sync cron.
24. In the **Shipment Cron** list, select the **Enable** option to enable the shipment cron and to generate shipments automatically.
25. Scroll down to the **Mlibre Developer Settings** tab, and then click the tab.
The tab is expanded and the section appears as shown in the following figure:

Mlibre Developer Settings

Debug [global] Enable ▼

Logging Level [global] Debug ▼

26. In **Debug**, select **Enable** for the logs to be created.
27. In case you want the errors to get Logged Choose the desired option from the **Logging Level**.
28. Click the **Save Config** button to save the entered values and information. The configuration will be saved.

4. Manage Mlibre Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento 2 attributes to the Mercado Libre attributes. These attributes are applicable to all the products that are assigned to the profile.

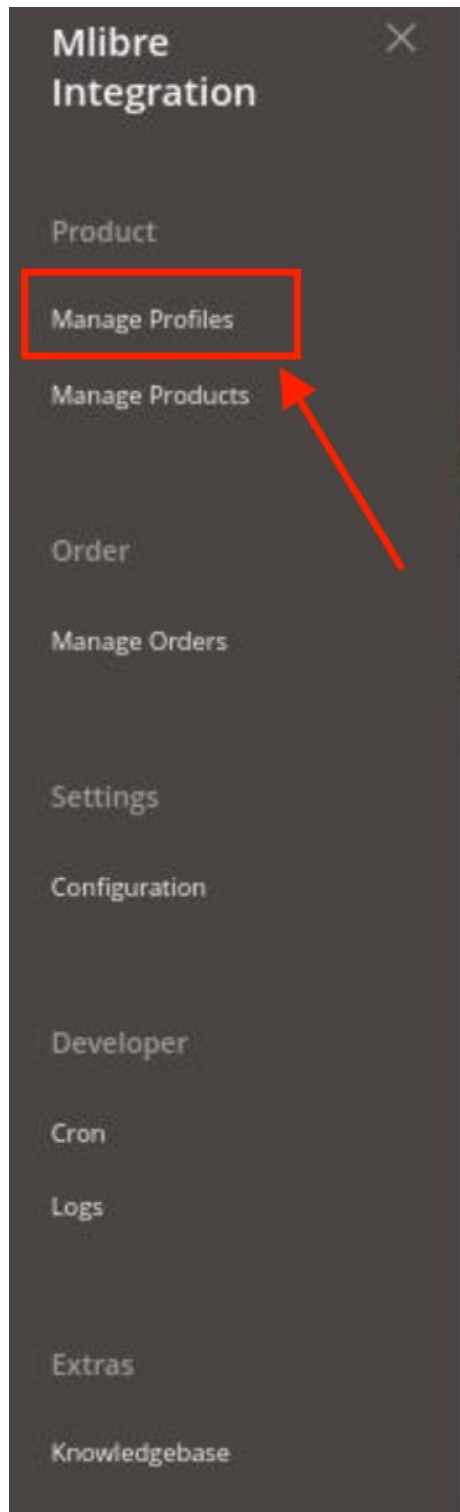

Admin can do the following tasks:

- Add a new profile
- Edit the existing profile
- Upload profile products to Mlibre
- Deleting profiles
- Bulk Action on the Selected Profiles

4.1. Add a New Profile

To add a new profile

1. Go to the **Magento 2 Store Admin**
2. On the left navigation bar, click the **MERCADO LIBRE INTEGRATION**
A menu appears as shown in the following figure:

3. Click **Manage Profiles**.

The **Manage Profile** page appears as shown in the following figure:

5. MercadoLibre Product listing

On this page, the admin can view, edit, and validate the individual product. Also, the admin can view the error message if any error exists in any product details. After uploading the product on MercadoLibre or after updating the product inventory or the product price, the user can check the status of the feed. Also, the admin can view the feed error if any. The admin can submit certain actions on the selected products available on the **Mlibre Product Listing** page.

This section covers the following topics:

- View the Product Details(<https://docs.cedcommerce.com/magento-2/mercadolibre-integration->

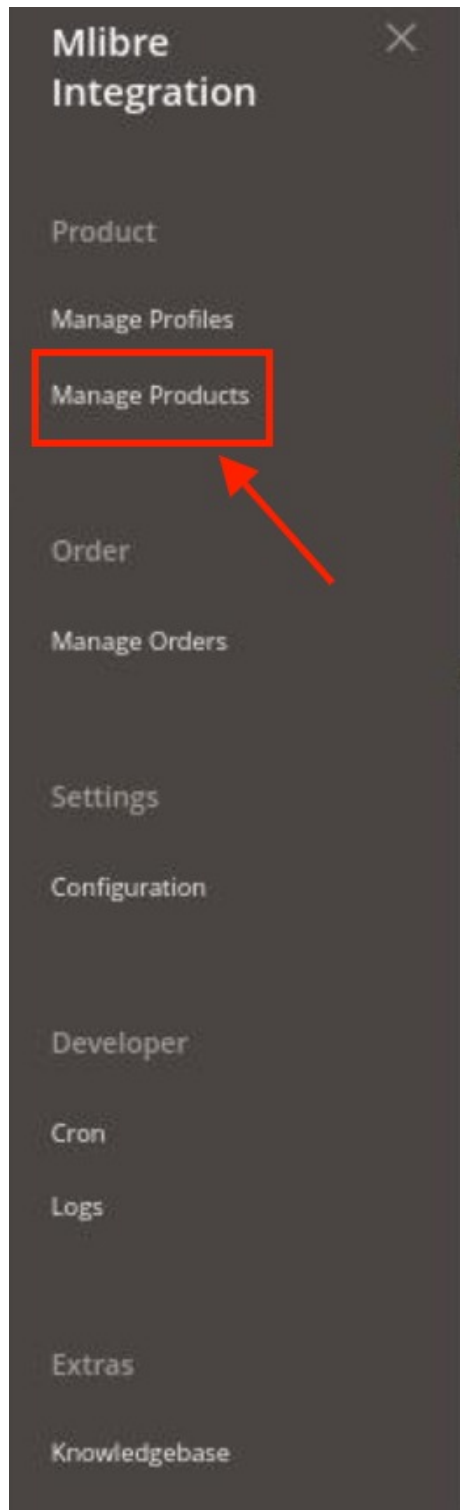

[magento-2-guide/?section=view-the-product-details-9](#))

- Edit the Mlibre Products(<https://docs.cedcommerce.com/magento-2/mercadolibre-integration-magento-2-guide/?section=edit-a-product-2>)
- Submit Bulk Action on the Selected Products(<https://docs.cedcommerce.com/magento-2/mercadolibre-integration-magento-2-guide/?section=submit-bulk-action-on-the-selected-products-9>)

5.1. View the Product Details

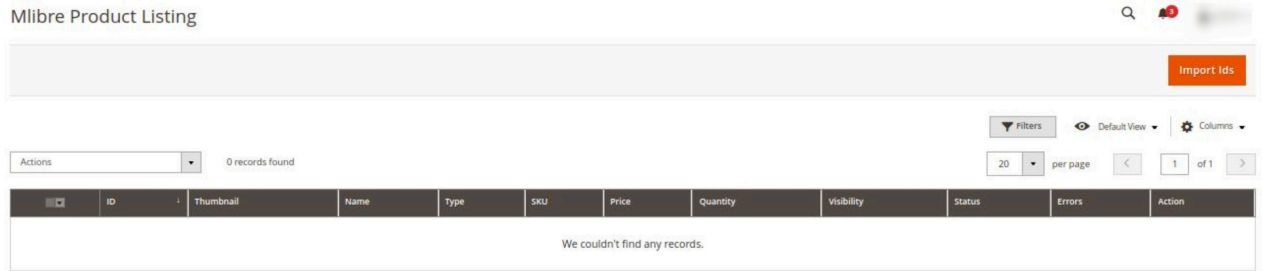

To view the product details

1. Go to the **Magento 2 Store Admin** panel.
2. On the left navigation bar, click the **MLIBRE INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Manage Products**.

The **Mlibre Products Listing** page appears as shown in the following figure:

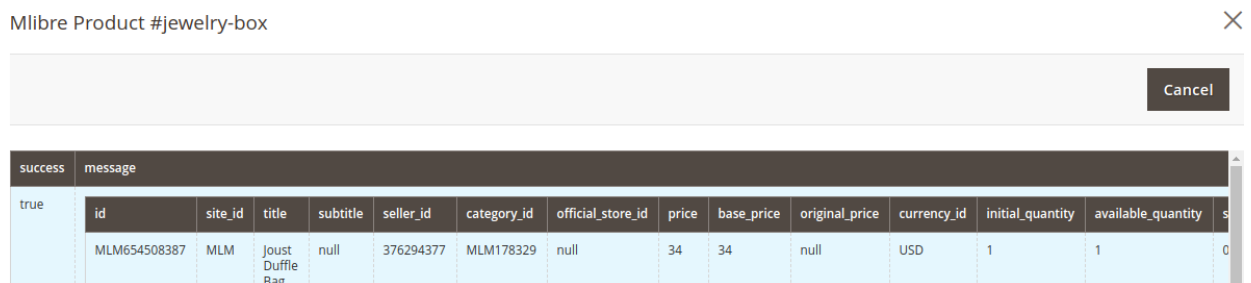

4. Scroll down to the required product row.
5. In the **Action** column of the respective row, click the **View**

icon.

A page appears where the user can view all the product related details.

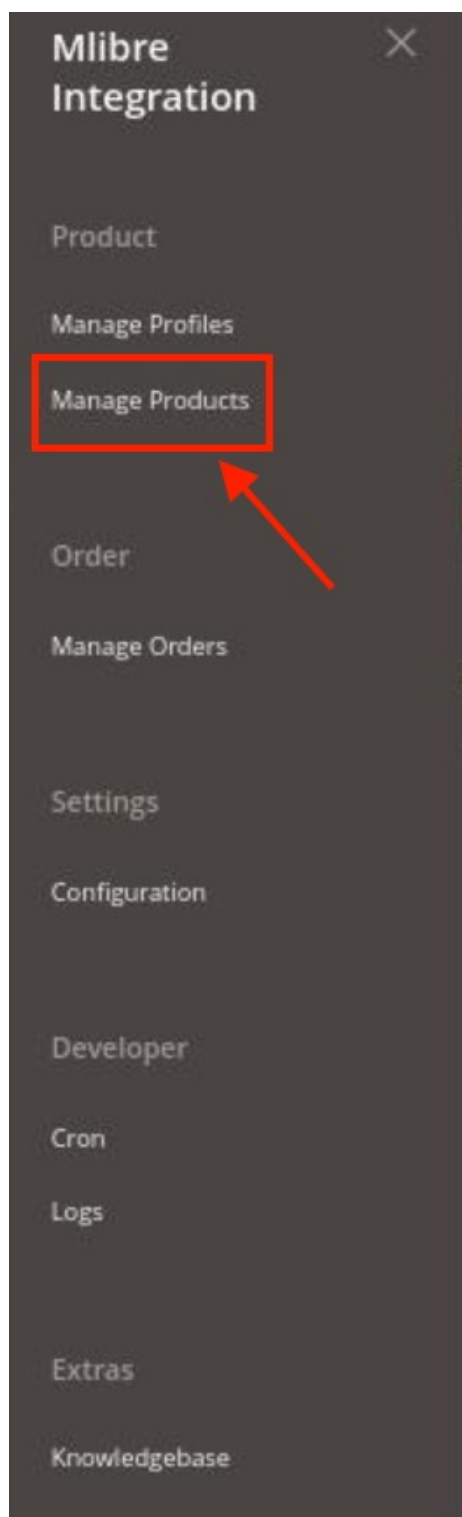

6. Click the **Cancel** button to close the page.

5.2. Edit a Product

To edit the Mlibre product details

1. Go to the **Magento 2 Store Admin** panel.
2. On the left navigation bar, click the **MLIBRE INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Manage Products**.

The **Mlibre Products Listing** page appears as shown in the following figure:

7. Enter the required information or edit the values in the required fields, and then click the **Save** button. The changes are saved and the success message appears on the **Mlibre Product Listing** page.

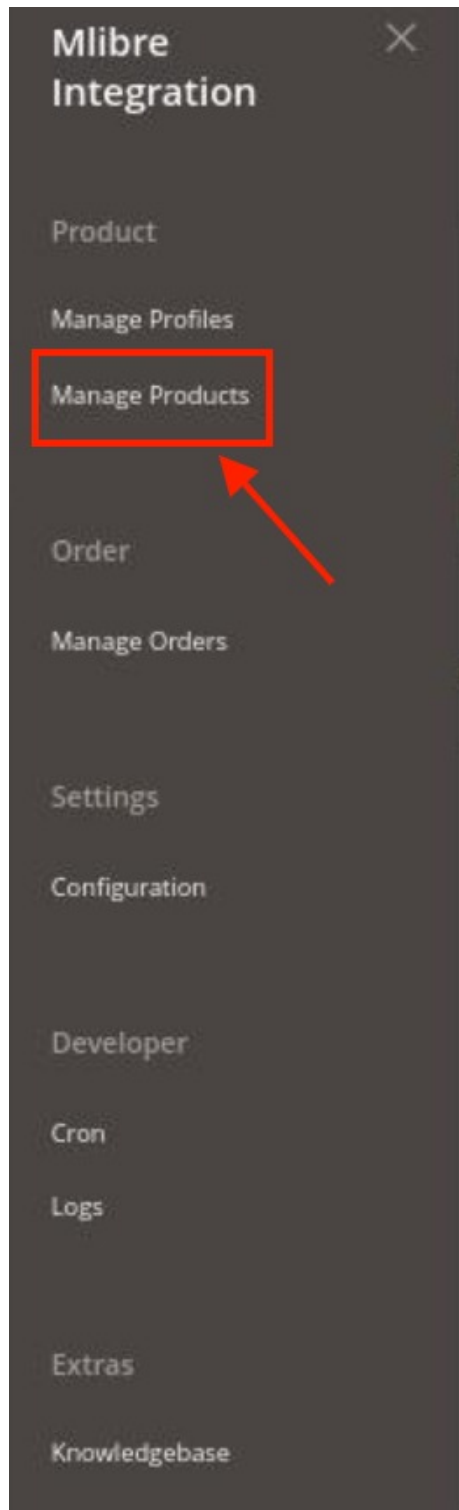

5.3. Submit Bulk Action on the Selected Products

Admin can perform the following tasks through the Bulk Action feature:

- **Upload Products:** To upload the selected products to the **Mercado Libre** website. If there is no error, then the selected products are uploaded, and a success message appears.
- **Upload Inventory:** To upload the inventories of the selected products to the **Mercado Libre** website. If there is no error, then the inventories of the selected products are uploaded, and a success message appears.
- **Upload Price:** To upload the prices of the selected products to the **Mercado Libre** website. If there is no error, then the prices of the selected products are uploaded, and a success message appears.
- **Delete Products:** Removes the selected products from the **Mercado Libre** website.

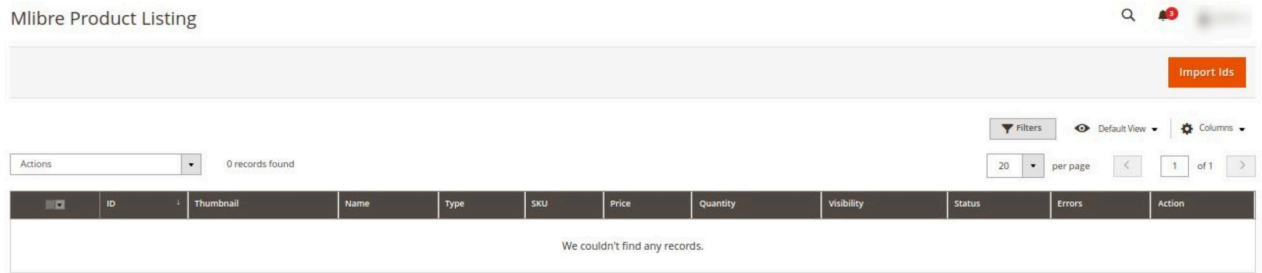

To submit the selected bulk action on the selected products

1. Go to the **Magento 2 Store Admin**
2. On the left navigation bar, click the **MLIBRE INTEGRATION** menu.
A menu appears as shown in the following figure:

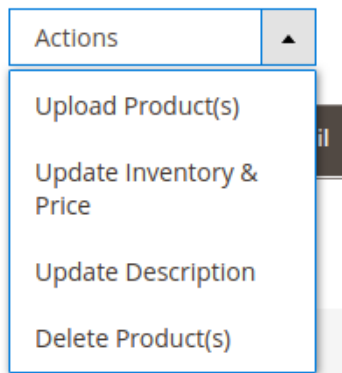

3. Click **Manage Products**.

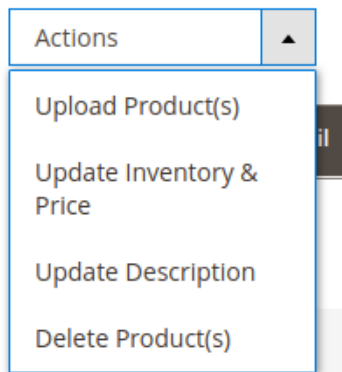

The **Mlibre Product Listing** page appears as shown in the following figure:

4. To upload the selected products, do the following steps:
 - a. Select the checkboxes associated with the required products.
 - b. In the **Actions** list, click the arrow button.
A list appears as shown in the figure:

- c. Select the **Upload Product(s)** option.
A confirmation dialog box appears.
 - d. Click the **OK** button.
The selected products are uploaded and a success message appears on the page.
5. To upload the inventories of the selected products, do the following steps:
 - a. Select the checkboxes associated with the required products.
 - b. In the **Actions** list, click the arrow button.
A list appears as shown in the figure:

- c. Select the **Upload Inventory** option.
A confirmation dialog box appears.

- d. Click the **OK** button.

The inventories of the selected products are uploaded and a success message appears on the page.

- 6. To *update the description of the selected products*, do the following steps:

- a. Select the checkboxes associated with the required products.

- b. In the **Actions** list, click the arrow button.

A list appears as shown in the figure:

- c. Select the **Upload Description** option.

A confirmation dialog box appears.

- d. Click the **OK** button.

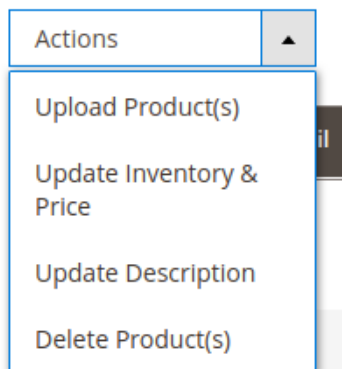

The description of the selected products is uploaded and a success message appears on the page.

- 7. To *delete the selected products*, do the following steps:

- a. Select the checkboxes associated with the required products.

- b. In the **Actions** list, click the arrow button.

A list appears as shown in the figure:

- c. Select the **Delete Product(s)** option.

A confirmation dialog box appears.

- d. Click the **OK** button.

The selected products are deleted and a success message appears on the page.

6. Manage MercadoLibre Orders

Admin can do the following tasks while managing the MercadoLibre orders:

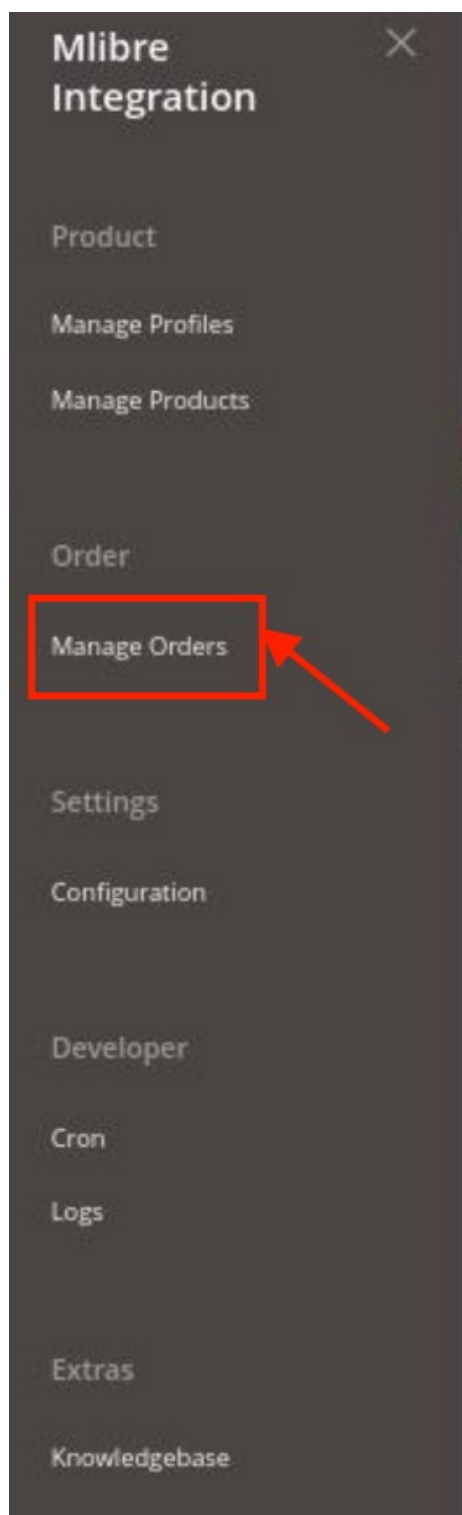

- Fetch, View, and delete the MercadoLibre Orders
- View and delete the Failed Orders

6.1. View, Edit, and Delete the MercadoLibre Orders

The Magento 2 store owners can fetch the new orders and view all the order details fetched from Mlibre.

To fetch and view new orders

1. Go to the **Magento 2 Store Admin** panel.
2. On the left navigation bar, click the **MLIBRE INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Manage Orders**.

The **Manage Mlibre Orders** page appears as shown in the following figure:

4. Click the **Import Orders** button.

If the order is imported successfully then, a new record is found in the Orders Grid table as shown in the figure.

Notes:

- Orders are automatically imported through CRON.
- Whenever the latest orders are imported from Mlibre, a Notification appears in the notification area of the Admin panel for those orders and they are Auto-Acknowledged as soon as they are imported in the Magento 2 store admin panel.
- If no order is imported, then check the Failed orders listed on the **Mlibre Failed Order** page.
- Order are auto-rejected on Mlibre in the following conditions:
 - When Mlibre Product SKU does not exist in Magento 2 store.
 - When Product is Out of Stock in Magento 2 store.
 - When a product is disabled in Magento 2 store.

5. To View the Mlibre order, do the following steps:

- Scroll down to the required order row.
- In Actions column of the respective row, click the **View** icon.

The specific order is synchronized and a success message appears.

To delete the Mlibre Orders in bulk

1. To delete the selected Mlibre orders in bulk, do the following steps:
 - a. Select the check boxes associated with the orders those are no more required.
 - b. Click the **Arrow** button next to the **Actions** list.
A menu appears as shown in the following figure:

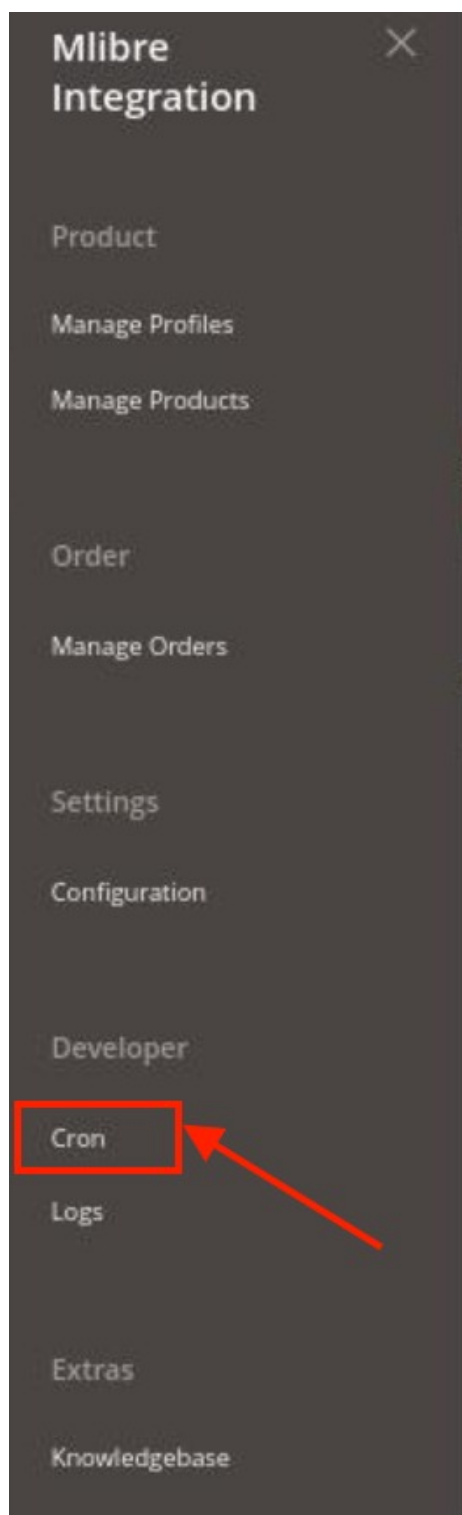

- c. Click **Delete Order(s)**.
A confirmation dialog box appears.
 - d. Click the **OK** button.
The selected orders are deleted from the Mlibre Marketplace.

7. Cron Details

To view Cron Details

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **MLIBRE INTEGRATION** menu.
A menu appears as shown in the following figure:

3. Click **Cron Logs**.

The **Mlibre Cron** page appears as shown in the following figure:
