## 1. Overview

Discogs is a famous marketplace in the US that specializes in selling recording formats, genres, and music styles. For music enthusiasts, this is the best marketplace with 4,58,000 active contributors and with a catalog of 100 million recordings. The Discogs marketplace was launched in the year 2000 by a programmer, DJ, and music fan Kevin Lewandowski.

Discogs Magento 2 Integration by CedCommerce is an eCommerce solution to integrate your Magento 2 store with the Discogs marketplace. This integration helps the sellers in automating their selling process and gives a seamless selling experience. This multichannel integration is packed with the latest and innovative eCommerce features to simplify the selling on the Discogs marketplace.

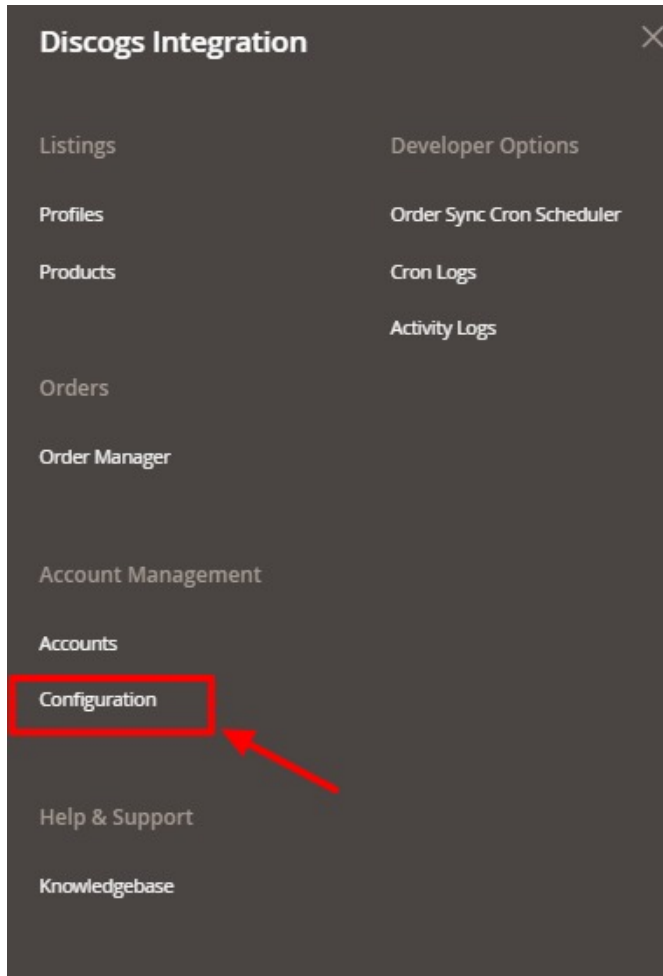

### Key Features:

- **Profile Based Product Upload:** This feature enables admin to create a profile, and after assigning products to the profile can easily upload on Discogs.com.
- **Email Notification:** Whenever a new order is created the admin is notified via email.
- **Automated Synchronization:** The orders are automatically imported and synchronized at regular intervals of time
- **Auto Acknowledgement of Order:** Admin receives an acknowledgement of Orders automatically as soon as orders are created
- **Bulk Product Upload System:** Admin has an ability to upload the number of products on Discogs.com using the bulk product upload feature.

## 2. Configuration

### To Setup Discogs Integration Configuration Settings,

1. Go to the **Magento 2 Admin panel**.
2. On the left navigation bar click the **Discogs Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Configuration**.

The **Configuration** page appears as shown in the following figure:

4. In the right panel click the **Discogs settings** tab.

The **Discogs Settings** tab is expanded and the relevant fields appear as shown below:

## Discogs Settings

Enabled [global] Yes

5. Under the **Discogs Settings** tab, do the following steps:
  - In the **Enabled** list, select the **Yes** option.
6. Scroll down and click on to the **Discogs Cron Settings** tab.  
The **Discogs Cron Settings** tab is expanded as shown below:

## Discogs Cron Settings

Order Cron [global] Disable  
Order import cron. By default set to import orders every 15 mins.

Order Sync Cron [global] Disable  
Order Sync Cron. By default set to Sync orders every 15 mins.

7. Under **Discogs Cron Settings**, do the following steps:
  - In the **Order Cron**, select the **Enable** option to fetch the orders.
  - In the **Order Sync Cron**, select **Enable** to synchronise orders automatically through crons.
8. Now scroll down and click on **Discogs Product Settings**. The section is expanded as shown below:

## Discogs Product Settings

Auto Upload Feature [global] Enable  
If Enabled, Then On Save Product With 'For Sale' Status, The Product Will Be Go For Direct Upload. **Note :** The Product Will Assign In The First Profile Created

Use MSI Feature for Inventory [global] Yes  
Use Default Salable Qty

9. Under **Discogs Product Settings**, do the following steps:
  - In **Auto Upload Feature**, if **Enabled**, then On Save Product With 'For Sale' Status, The Product Will Go For Direct Upload. **(Note: The Product Will Assign In The First Profile Created)**
  - In **Use MSI Feature for Inventory**, select **Yes** if you want to use the MSI for the salable quantity.
10. Scroll down and click on the **Discogs Order Setting** tab.  
The **Discogs order Settings** tab is expanded as shown below:

## ⌵ Discogs Order Message Setting

**Status for auto import** [global]

- New Order
- Buyer Contacted
- Invoice Sent
- Payment Pending
- Payment Received
- Shipped
- Merged
- Order Changed
- Refund Sent
- Cancelled

Cron auto import order from Discogs for the selected "Discogs Status".

**Discogs Order Id Prefix** [global]

Prefix for Discogs Order Increment ID

**Magento Order Id Same as MarketPlace Order ID** [global]

**Create Magento Invoice** [global]

When a new Magento order is created, also create the invoice.

**Order Notification Email** [global]

For multiple emails use comma (,) as separator eg : email1@mail.com,email2@mail.com.

**Create Real Customer** [global]

**Customer First Name** [global]

**Customer Last Name** [global]

**Customer Group** [global]

**Customer Email** [global]

**Customer Password** [global]

**Auto Re-List Product When Order Import in Magento** [global]

List the Product Again With New Discogs Listing Id (If Quantity is greater than zero for that product) When Order Created in Magento

**Auto Status Sync Of Product When Order Import in Magento For Store Front Orders** [global]

Send the Status "Draft" For Product (If Quantity is zero for that product) When Store Front Orders Created in Magento

11. Under **Discogs Order Settings**, do the following steps:

- In **Status for Auto Import**, select the Discogs order status from the dropdown menu.
- In **Discogs Order Id Prefix**, enter the required order id prefix.
- In **Magento Order Id Same as Marketplace Order Id**, if you want the same Id on Magento store and marketplace.
- In **Create Magento Invoice**, select **Yes** if you want to create an invoice when a new Magento Order is created.
- In the **Order Notification Email**, enter the email id on which you wish to receive notifications.
- In **Create Real Customer**, select **Yes** if you want the customer's details to be the same. If you select **No** then the section is expanded as:

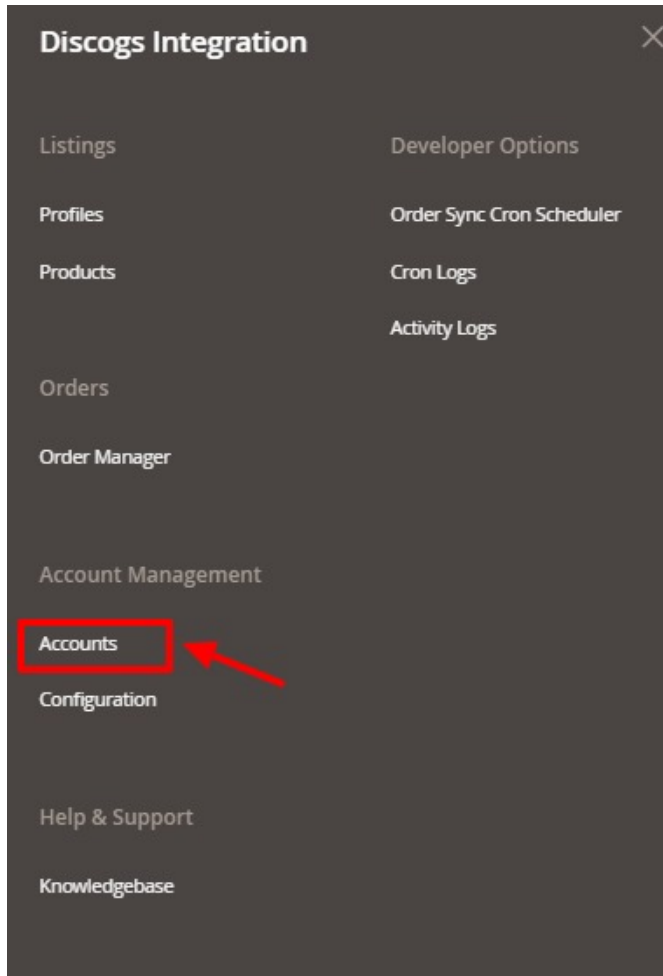

<b>Create Real Customer</b> [global]	<input type="text" value="No"/>
<b>Customer First Name</b> [global]	<input type="text"/>
<b>Customer Last Name</b> [global]	<input type="text"/>
<b>Customer Group</b> [global]	<input type="text" value="General"/>
<b>Customer Email</b> [global]	<input type="text"/>
<b>Customer Password</b> [global]	<input type="password"/>

- In **Customer Last Name**, enter the last name of customer,
  - In **Customer Group**, select the group of the customer from the dropdown menu.
  - In **Customer Email**, enter the mail id of the customer.
  - In **Customer Password**, enter the password.
  - Now in **Customer First Name**, enter the first name of the customer.
  - In **Auto Relist Product When Order Import in Magento**, if you select **Yes** it lists the Product Again With New Discogs Listing Id (If Quantity is greater than zero for that product) When Order is Created In Magento.
  - In **Auto Status Sync Of Product When Order Import in Magento For Store Front Orders**, if you select **Yes** it Send the Status 'Draft' For Product (If Quantity is zero for that product) When Store Front Orders Created In Magento
12. Once you are done with these actions click on the **Save Config** button.
  13. The configuration will be saved.

### 3. Manage Account

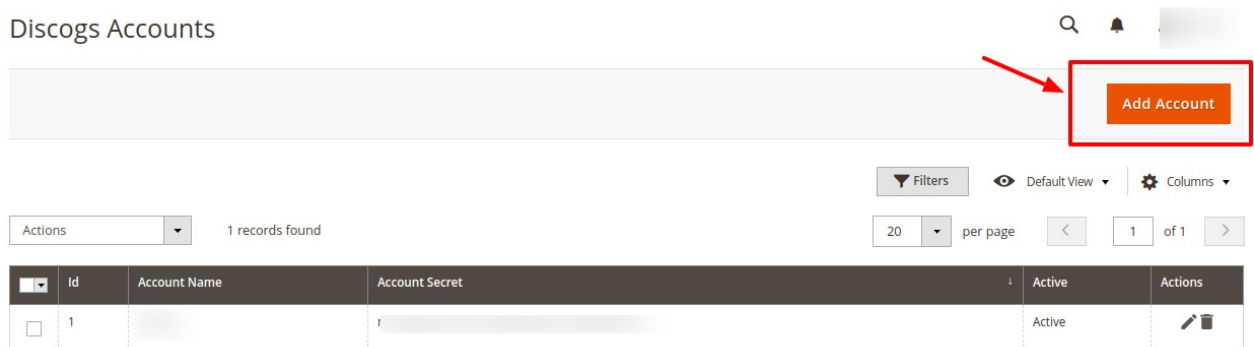

#### To Manage Accounts Configuration,

1. Go to the **Magento 2 Admin panel**.
2. On the left navigation bar click the **Discogs Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Account**.

The **Account configuration** page appears as shown below:

4. Click on **Add Account**.

The page appears as shown:

## Add Account

← Back Save Save and Continue Edit

## Account Information

Active \*  Yes

Account Name \*

Default Store \* Default Store View ▼  
Default magento store

Access Token \*

Validate Validate

Order Messages ⌵

5. Under **Account Information** do the following steps:

- In the **Active** switch the button to **Yes**.
- In **Account Name**, enter the name.
- In the **Default Store**, select the view of the store.
- In Acces Token, follow the steps shown in video and copy the access token and paste it here.  
(Link to fetch Token: <https://www.discogs.com/developers>(<https://www.discogs.com/developers>)  
)

<https://docs.cedcommerce.com/wp-content/uploads/2020/04/Tab-Discogs-API-Documentation-1.webm>(<https://docs.cedcommerce.com/wp-content/uploads/2020/04/Tab-Discogs-API-Documentation-1.webm>)

- Then **Click on Validate**.

6. Now scroll down to **Order Messages** Section, and it is expanded as:

Order Messages ⌵

Message For Payment Received

Message For Shipped

7. Under **Order Messages**, do the following steps:

- In **Message For Payment Received**, enter the message that consumer will receive once you receive the payment.
- In **Message For Shipped**, enter the message that consumer will receive when the order has been shipped.

- Now Click on **Save** Button.  
The new account will be created.

### To Edit an Account,

- On **Discogs Account** Page, click on **Edit** button for the account that you want to edit as shown in the image below:

- The page will appear as:

- Make the required changes in the respective fields.
- Click the **Save** button.  
The edited account will be saved.

### To Delete an Account,

- On **Discogs Account** Page, click on **Delete** button for the account that you want to delete as shown in the image below:

Discogs Accounts 🔍 🔔

[Add Account](#)

Filters | Default View | Columns

Actions | 1 records found | 20 per page | 1 of 1

<input type="checkbox"/>	Id	Account Name	Account Secret	Active	Actions
<input type="checkbox"/>	1			Active	

2. On clicking it, the selected Discogs account will be deleted and a message will appear on the page.

## 4. Manage Profile

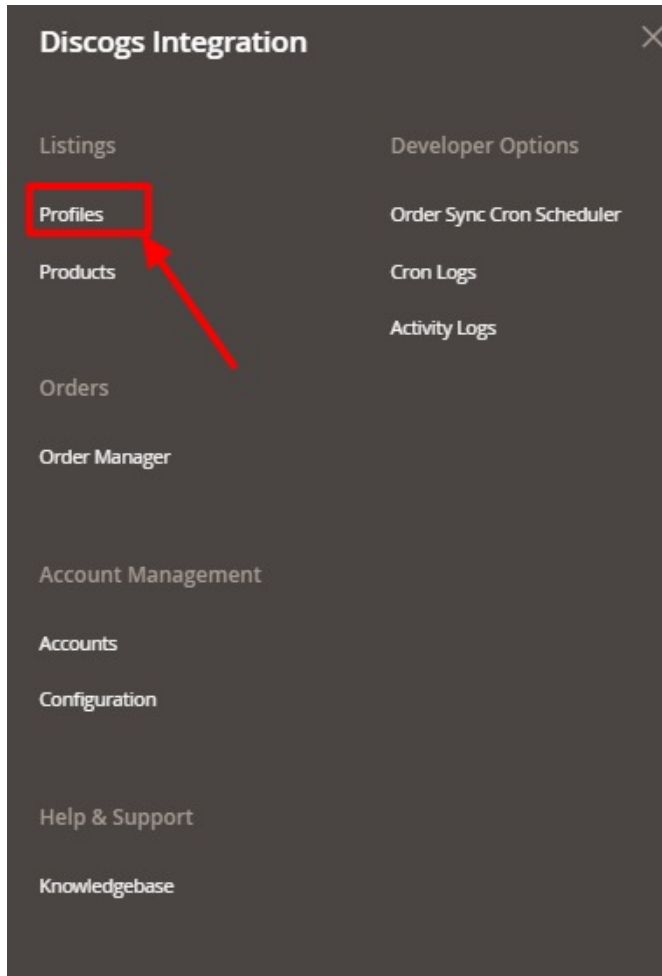

To Manage Profiles, you can do the following tasks:

- Add a New Profile
- Edit Profile
- Delete Profile

### 4.1. Add New Profile

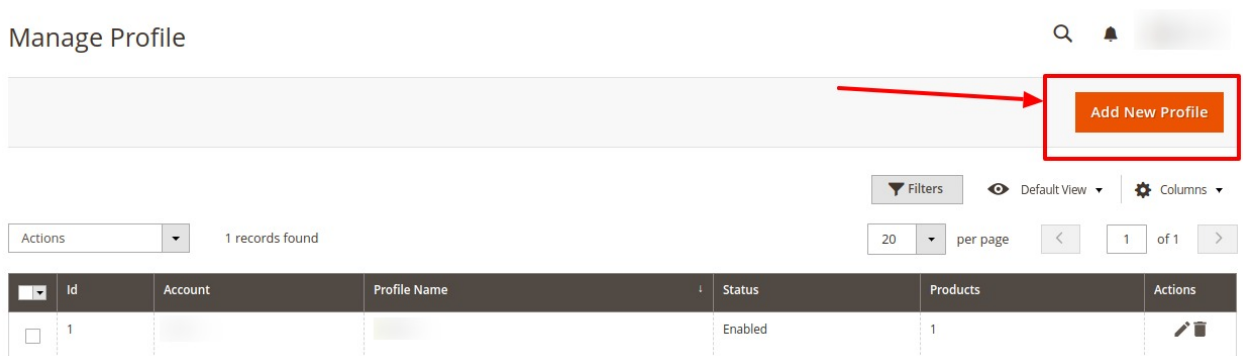

**To Add New Profile,**

1. Go to the **Magento 2 Admin panel**.
2. On the left navigation bar click the **Discogs Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Profile**.

The **Manage Profile Page** appears as shown below:

4. Click on **Add New Profile**.

The **New Profile Page** appears as shown below:

Add Profile 🔍 🔔

← Back Save Save and Continue Edit

## Profile Information

Active  Yes

Profile Name

5. Under **Profile Information**, do the following steps:
  - In **Active**, select **Yes** to enable the profile you are creating.
  - In **Profile Name**, enter the name of the profile.
6. Now scroll and click on the **Attribute Mapping** section.  
The section expands as:

## Attribute Mapping

Profile Account

Please map all Discogs attributes with Magento attributes.

Discogs Attribute	Magento Catalog Attribute	Default Value	Action
Released	--please select--	<input type="text"/>	
Condition	--please select--	<input type="text"/>	
Price	--please select--	<input type="text"/>	
Status	--please select--	<input type="text"/>	
Sleeve Condition	--please select--	<input type="text"/>	Delete
Comments	--please select--	<input type="text"/>	Delete
Allow Offers	--please select--	<input type="text"/>	Delete
ExternallID	--please select--	<input type="text"/>	Delete

7. Under **Attribute Mapping** Section, do the following steps:
  - In **Profile Account**, select the Account.
  - Then map all the **Discogs attributes** with the **Magento Attributes** of the profile.
8. Now Scroll down and click the **Products** section.  
The tab is expanded as:

Profile Products

Search Reset Filter

Actions  0 records found 20 per page 1 of 1

	Product Id	Image	Product Name	Type	Status	Attrib. Set Name	SKU	Price	QTY

3. Click on Delete Product(s).  
The selected products will be deleted.

## 6. Manage Orders

### To Manage orders,

1. Go to the **Magento 2 Admin panel**.
2. On the left navigation bar click the **Discogs Integration** menu.  
The menu appears as shown in the following figure:

3. Click on **Order Manager**.  
The **Order Listing** page appears as shown below:

Discogs Order List Fetch Discogs Orders

Actions ▾ 126 records found (1 selected) 🔍 👁 ⚙ 20 ▾ < >

5	Magento Status	Failure Reason	Change Order Status On Discogs	Shipping Rate	Additional Instructions	Shipping Address	Bill-to Name	Payment Method	Grand Total (Base)	Actions	Items	Shipping Info
	Pending	✓		3				paybydiscogs	15.0000	👁 📄 🗑		

4. To fetch orders, click on **Fetch Discogs orders**.
5. The orders will be fetched and displayed on the order list.

### To Import Orders

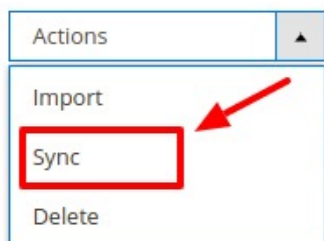

1. Select the order from the list you want to import.
2. Click on the arrow next to **Actions** button.  
A menu appears:

3. Now Click on **Import**.
4. The selected order will be imported.

### To Sync Orders

1. Select the order from the list you want to synchronise.
2. Click on arrow next to **Actions** button.  
A menu appears:

3. Now Click on **Sync**.

4. The selected order will be synchronised.

**To Delete Orders**

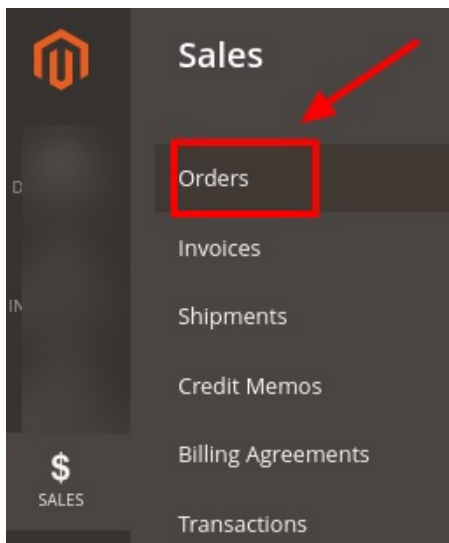

1. Select the order from the list you want to delete.
2. Click on arrow next to **Actions** button.  
A menu appears:

3. Now Click on **Delete**.
4. The selected order will be deleted.

**To view Order Messaging System:**

1. Goto the **Sales** option in Magento Admin panel.
2. Click on **Order**.

3. The **Orders** page will appear as shown below:
