1. Overview

For the sellers of Magento 2, CedCommerce is providing a new and inventive extension- **Facebook Native Integration for Magento 2**. This extension facilitates the Magento 2 Sellers to advertise their product on the Facebook page.

With this easy to manage solution, the seller can easily handle their products on the Facebook page through its Magento 2 store and they can also advertise their products as a sponsored product.

This solution allows users to experience:

- Changes made in the details of the product are reflected on Facebook Page.
- It's an easy process of advertising products on Facebook Page.
- At the time of checkout, the user gets redirected to its site.

Functionalities of Extension:-

- Bulk Product Upload
- Easy to manage the product
- Products can be easily promoted on the Facebook page
- Automated redirection to the store page during the checkout

2. Installation of Extension

To install the extension,

- Log in the **ftp**, and then go to Magento 2 root folder (generally present under the public_html folder).
- Create a new folder named **code** under the **app** folder; under **code** folder, create a folder named **Ced**.
 - Upload or Drag and Drop **app/code/Ced/Fbnative directory**.
 - After successfully uploading the directory, the extension will be installed/upgraded.
 - Now run the following upgrade command in cmd
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy

3. Configuration Settings

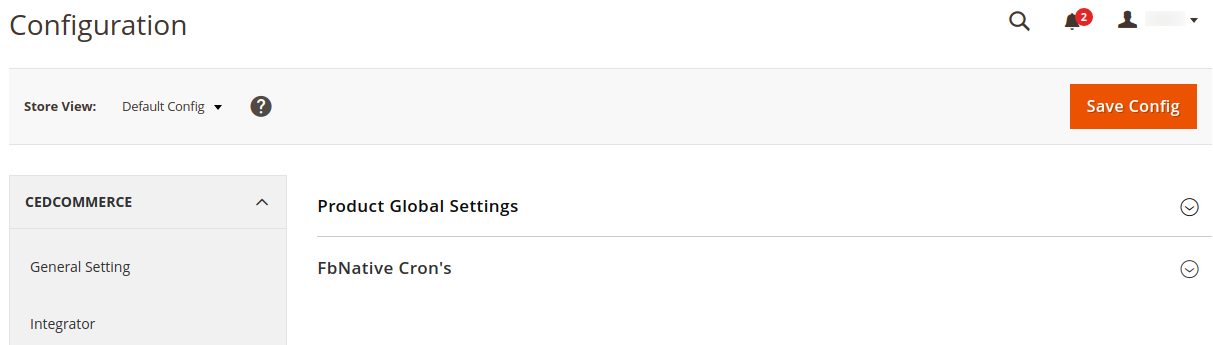

Once you have installed the Facebook Native integration for Magento in your Admin Panel, you need to complete the Configuration process as shown in this section of the guide.

To Complete the Configuration:

1. Go to the **Magento Admin Panel**.
2. On the top navigation bar, you can see the **FBNative**.
3. Take the cursor to it and the menu will appear to you as shown in the image below:

4. Click on **Configuration** and the new page opens up as shown below:

5. Click on the **Product Global Settings**, the section is expanded as shown below:

Product Global Settings

Please set the global settings for Facebook

Out Of Stock Product [global] ▼
Include Out Of Stock Product in Datafeed

FbNative Product Price [global] ▼
Select to send a different product price to Facebook.com

Product Mapping [global]

Facebook Attribute Code	Magento Attribute Code	Action
<input type="text" value="Brand"/> ▼	<input type="text" value="product_brand"/> ▼	

6. Under **Product Global Settings**, do the following steps:

- In the Out of Stock Product, select Yes if you want to add the out of stock products in the datafeed.
- Go to **FbNative Product Price**. In the Product Price list select the following options:
 - Select the **Default Magento Price**, if you want to keep the price the same on Facebook as Magento.
 - **Increase by Fixed Price:** If selected, then the Modify by Fix Price field appears.
 - **Increase by Fixed Percentage:** If selected, then the Modify by Percentage Price field appears.
 Enter the numeric value to increase the price of the FbNative product by the entered value % of Magento 2 price.
For Example,
 Magento 2 price + 5% of Magento 2 price.
 Magento 2 Price = 100
 Select Increase By Fixed Percentage option
 Modify by Percentage Price = 5
 $100 + 5\% \text{ of } 100 = 100 + 5 = 105$
 Thus, FbNative Product Price = 105
 - **Decrease by Fixed Price:** If selected, then the Modify by Fix Price field appears.
 - **Decrease by Fixed Percentage:** If selected, then the Modify by Percentage Price field appears.
 Enter the numeric value to decrease the price of the FbNative product price by the entered value % of Magento 2 price
For Example,
 Magento 2 price – 5% of Magento 2 price.
 Magento 2 Price = 100
 Select Decrease By Fixed Percentage option
 Modify by Fix Price = 5
 $100 - 5\% \text{ of } 100 = 100 - 5 = 95$
 Thus, FbNative Product Price = 95
- You can **map your Magento attributes with Facebook attributes**, as given in the below picture.

Product Mapping <small>[global]</small>		
Facebook Attribute Code	Magento Attribute Code	Action
Name	name	
Title	meta_title	
Conditio	condition	
Google F	category_ids	
GTIN	sku	
<input type="button" value="Add Rule"/>		

7. In the **FbNative Cron's Section**,

- Cron's would help you to auto-synchronize your Product data to Facebook in certain periods of time.
- Click **Enable** to activate the Product Cron.
- Click **Disable** to deactivate the Product Cron.

FbNative Cron's ⌵

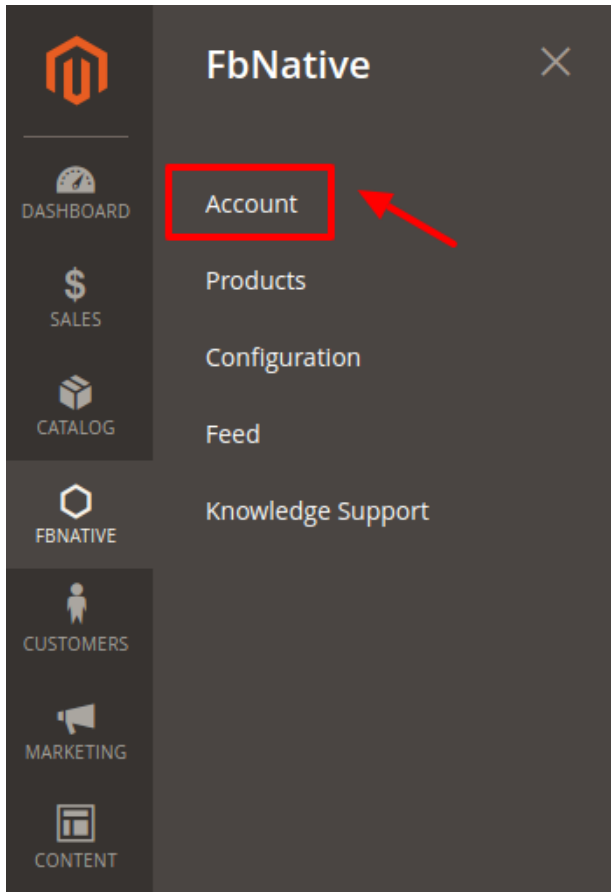

Product Cron [global]

Product Fetch Cron

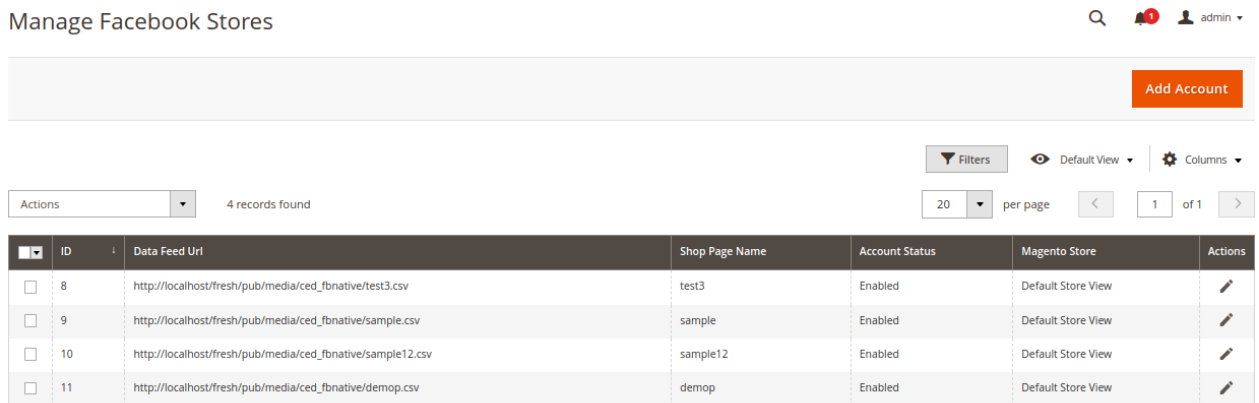

4. Manage Account

To add a new account,

1. Go to the **Magento 2 Admin** Panel.
2. On the top navigation bar, you can see the **FbNative** A menu appears as shown in the following figure:

3. Click on the **Account** section
The page appears as shown in the following figure:

4. Click the **Add New Account**.
The **Add New Account** page appears as shown in the following figure:

New Account

 cedcommerce ▾

[← Back](#) [Reset](#) [Save](#)

ACCOUNT INFORMATION

Account Information

Account Information

Shop Page Name *

To identify the Account

Account Status * Disabled ▾

Account Store * Default Store View ▾

5. In the right panel, under **Account Information**, do the following steps:

- In the **Shop Page Name** box, enter a shop page name.
 - Note:** Please use only letters (a-z), numbers (0-9) or underscore(_) in this field, the first character should be a letter.
- In the **Account Status** box, select Active to enable the status of the shop.
- In the **Account Store** tab, select **Default Store View** to enable the store view.

6. Once you successfully create an account it gets listed in the accounts menu as shown below:

Manage Facebook Stores    admin ▾

[Add Account](#)

Filters Default View ▾ Columns ▾

Actions ▾ 4 records found 20 ▾ per page < 1 of 1 >

<input type="checkbox"/>	ID	Data Feed Uri	Shop Page Name	Account Status	Magento Store	Actions
<input type="checkbox"/>	8	http://localhost/fresh/pub/media/ced_fbnative/test3.csv	test3	Enabled	Default Store View	
<input type="checkbox"/>	9	http://localhost/fresh/pub/media/ced_fbnative/sample.csv	sample	Enabled	Default Store View	
<input type="checkbox"/>	10	http://localhost/fresh/pub/media/ced_fbnative/sample12.csv	sample12	Enabled	Default Store View	
<input type="checkbox"/>	11	http://localhost/fresh/pub/media/ced_fbnative/demop.csv	demop	Enabled	Default Store View	

Note: For the account whose CSV is not created, you would be getting down feed status in the column grid as -feed not generated and for those data are created you would be getting feed status as – feed generated.

7. The URL mentioned in the **data feed URL** section is to be filled on your Facebook seller panel.

26. Or you can schedule the upload at a later time:

Schedule Your Automatic Uploads
Select when you want to automatically upload products from this data feed URL.

Hourly **Daily** Weekly

At

Enter Data Feed Name
Choose a name that will help you find this data feed file later.

← **Enter feed here**

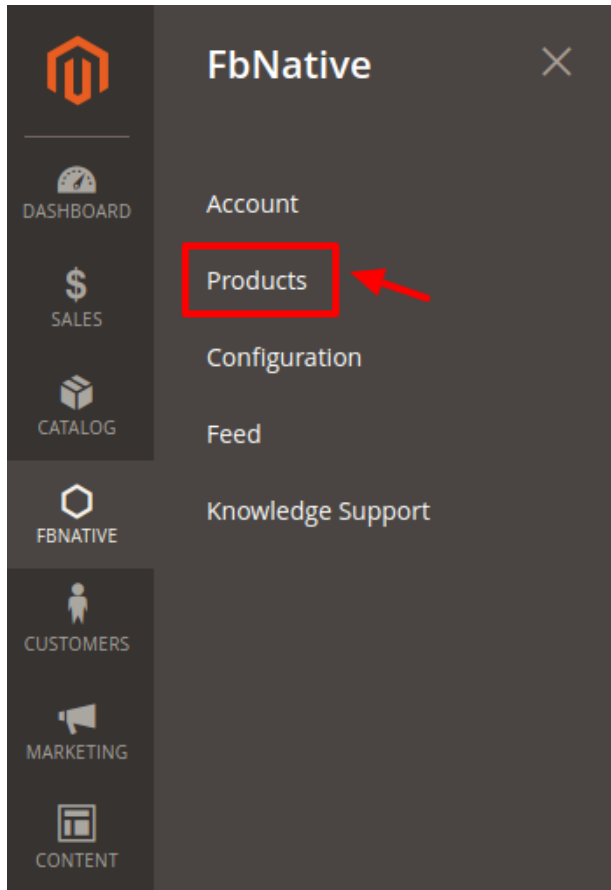

Select Default Currency
Select the default currency for products in this data feed. This default currency will be used if the prices in your data feed file do not include an ISO currency code (for example: 10 USD instead of \$10 for American dollars). You can update the default currency at any time in feed settings.

8. Click on **Start Upload**.

5. Manage Product Listings

After the configuration is done, the seller needs to go to the Products to see the listing products on Facebook.

1. Go to the **Magento 2 Admin** Panel.
2. On the top navigation bar, you can see the **FBNative**.
A menu appears as shown in the following figure:

3. Click on the **Product** section

The page appears as shown in the following figure:

Manage Products Export CSV

Actions ▾ 18 records found 🔍 👁 ⚙ 20 ▾ < >

<input type="checkbox"/>	ID	Thumbnail	Name	Is Facebook	Type	Attribute Set	SKU	Price	Visibility	Status	Websites	Action

Note: As soon as you create an account, an attribute is generated in the product listings section. The attribute(s) needs to be assigned for products mentioned in the single accounts.

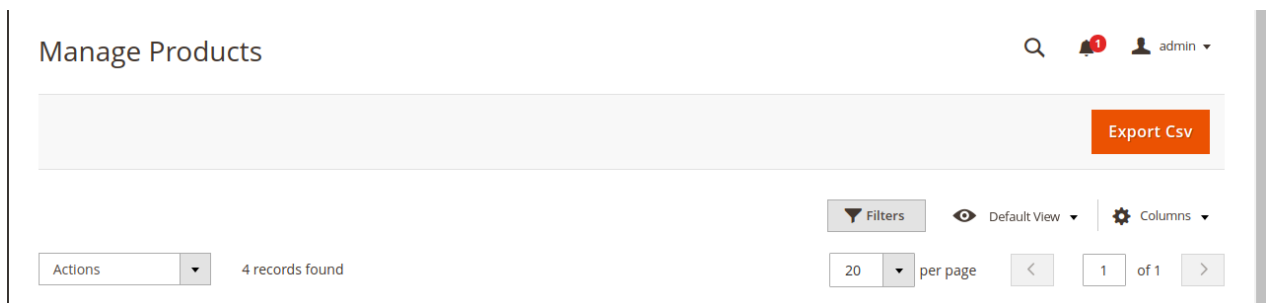

4. Click on **Edit** under the **Actions** column of the products as shown in the image above. A new window opens up containing all the details about the product.

isFacebook

Condition [global] --Select Condition--
 Brand [global]
 Facebook Redirect Url [global] --Select Redirect--
 FbNative test store [global] No

- You can choose the **condition** of the product you are selling from the drop-down menu in the condition.
 - Enter the **brand** of your product in the next menu.
 - **Choose the Facebook Redirect URL** as either cart page and shopping page from the drop-down menus. Based on your selection the user is redirected from the FB to either the cart page or the shopping page of your Magento Panel.
 - In case you did not select any of the options, the user will be redirected to the Product page.
 - Now below you must see all the Fb stores linked to your Magento panel. Select Yes on those stores from which you wish to include products.
 - **Save** the product after the changes have been made.
Move back to the product listings.
5. On clicking on **Export CSV** you can generate the CSV of products with their status as given in the below image.

6. Manage Feed

In this section, users can check the feed which is generated and sent to FB. Users can also have access to all the information including the number of products in the feed, when it was last updated related, product ids, mode, sku, account, etc.

To Check Product Feed,

1. Go to the **Magento 2 Admin Panel**.
2. On the top navigation bar, you can see the **FBNative**
A menu appears as shown in the following figure:

3. Click **Feed** section

The page appears as shown in the following figure:

Manage Feeds

Search, Notifications (2), Profile

Filters | Default View | Columns

Actions | 1 records found | 20 per page | 1 of 1

<input type="checkbox"/>	ID	Data Feed Url	Shop Page Name	Last Updated	Product Ids	Mode	Magento Store
<input type="checkbox"/>	1		desfs	2019-09-12 00:00:00	grant	Mannual	Default Store View

4. All the generated feeds are mentioned here with the relevant details.

5. To delete the feed, mark all the desired feed and click on **actions**.

- Now click on the **delete** button.
The feeds will be deleted.

7. How to Upload CSV on Catalog(FB)

To start selling on FB shop you first need to upload CSV on the catalog.

To Upload CSV,

- Go to Facebook.com(<https://www.facebook.com/>(<https://www.facebook.com/>)
)

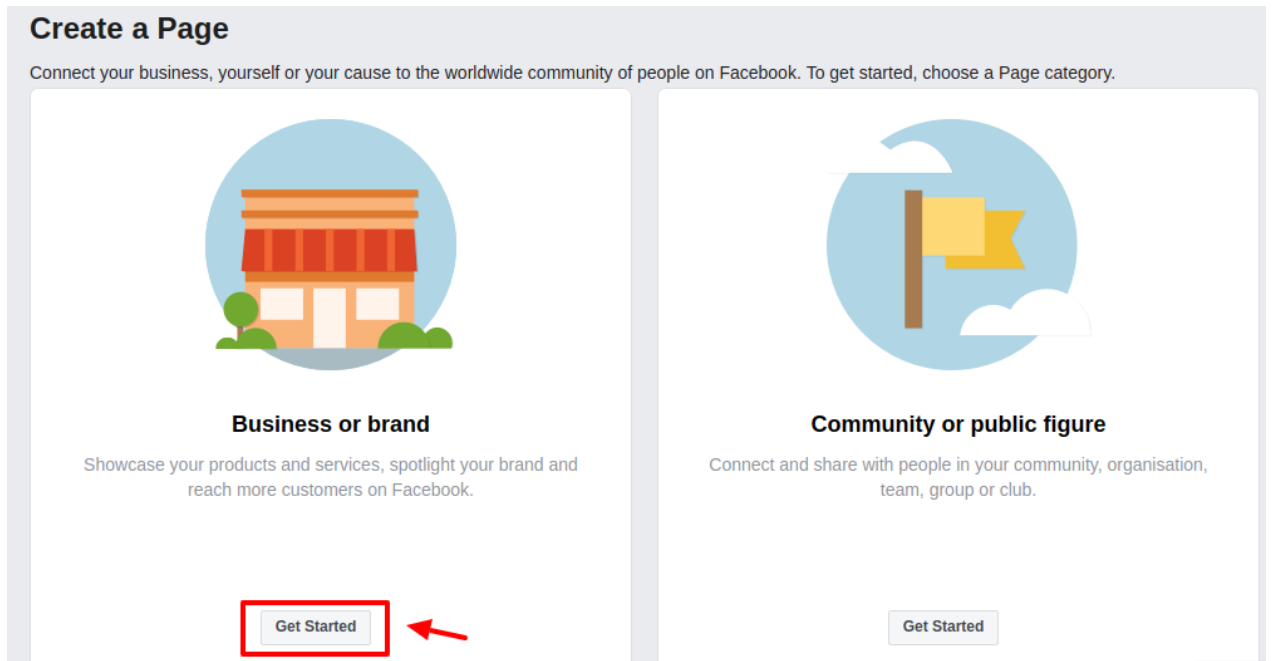

- Login** the Facebook Account you wish to associate with the shop.
- Now **Create a Shop Page** according to your requirements.

Pages

4. You will be redirected to this page:

5. Enter the **name** and **category** and get started.

6. Now go to the **Product Page** by visiting
[facebook.com/product\(https://www.facebook.com/products\(https://www.facebook.com/products\)](https://www.facebook.com/products(https://www.facebook.com/products))
)

7. The **catalog** is by default created in this section.

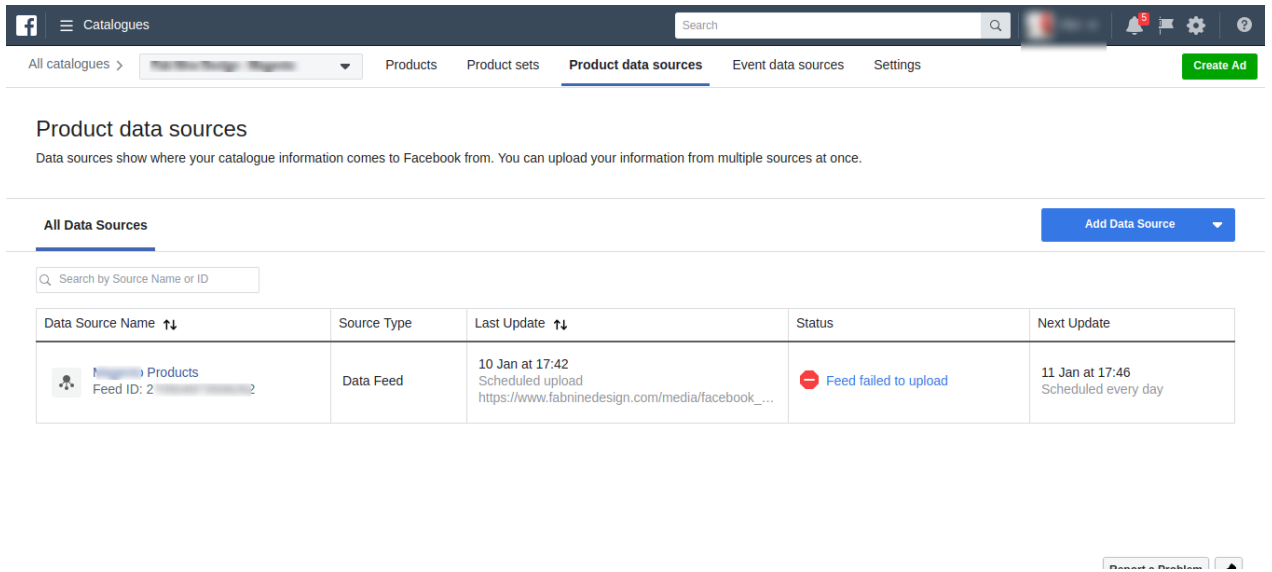

Catalogue Manager

Build and manage your inventory to unlock the power of ads on Facebook and Instagram.

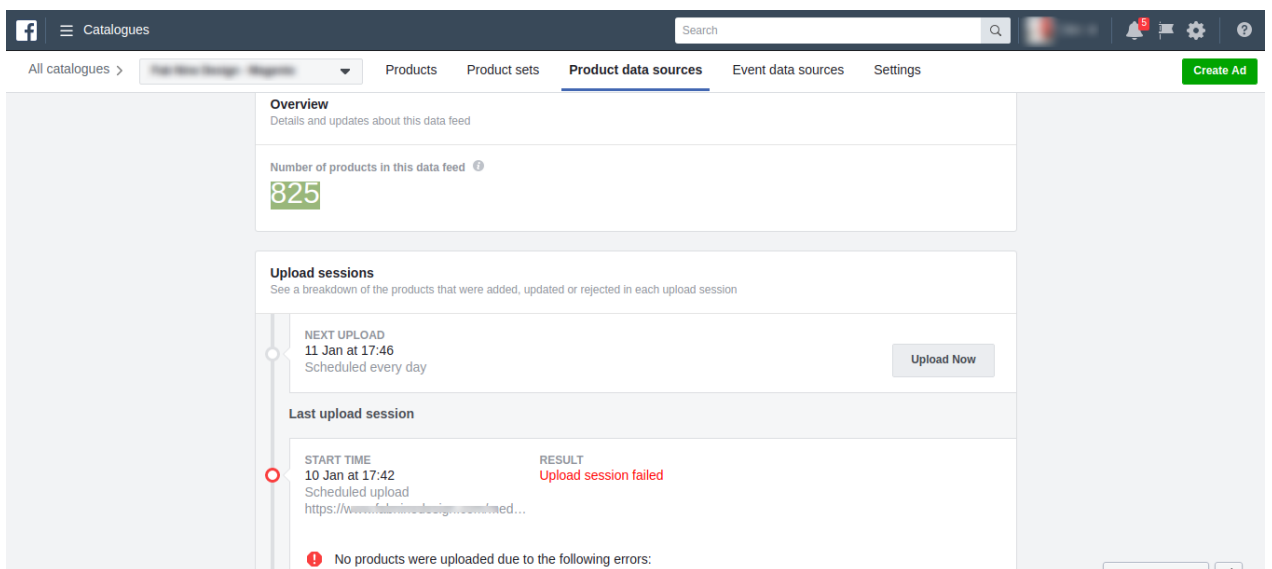

All catalogues							Create Catalogue
Q Search catalogues							Delete catalogues
Catalogue name ↑↓	Catalogue type ↑↓	Role given ⓘ	Shared with	Owned by ↑↓	Items ↑↓	Diagnostics	
<input type="checkbox"/>  [red box] [red arrow] [truncated name] - Mag... Catalogue no.: 4 [truncated]	Product	No role assigned	Not shared Share	[truncated]	825 products	<input checked="" type="checkbox"/> All good	
<input type="checkbox"/>  [truncated name] - WooC... Catalogue no.: 30000005...	Product	No role assigned	Personal catalogue cannot be shared	[truncated]	48 products	<input checked="" type="checkbox"/> All good	

8. Choose the **catalog** you wish to edit by clicking on its name on the list.

9. You will be redirected to **product data Source Page**.

- Click on the **data source** name of the product you wish to see.
- Here you have all the information pertaining to the product.

- If you don't have a catalog then go to [facebook.com/product](https://www.facebook.com/product) (<https://www.facebook.com/products>). This page will show up and click on **create catalogs**:

13. Now **choose the preferred category** for your business and click on **Next**.

Which category best describes your business?

E-commerce
Products sold online

Products

Travel
Hotels and holiday properties, flights or destinations

Property
Rental properties and property listings

Auto
Different tiers of the auto market

CancelNext

14. Now you will be redirected to a page – **Configure** your catalog category.

15. Select **Upload Product Info**.

Configure your catalogue settings

How do you want to add products to your catalogue?

If you use a supported e-commerce platform, connect your account to automatically import your products.

The image shows two options for adding products to a catalogue. The first option, 'Upload Product Info', is highlighted with a red box and a red arrow pointing to it. It features a blue grid icon and the text: 'Add products using a form, data feed or Facebook pixel.' The second option, 'Connect E-commerce Platform', features a grey link icon and the text: 'Automatically import products from your e-commerce platform.'

Who owns this catalogue?

Select the business that your catalogue belongs to. If it doesn't belong to a business, select 'Personal'.

Nguyen Alex's Business

Name your catalogue

Give your catalogue a unique name to help identify it later.

Catalog_Products

- 16. Choose the **Category** and **Name** for your catalog and proceed.
- 17. A confirmation message will be shown stating a successful catalog creation.

The image shows a confirmation message 'Catalogue created' with a blue checkmark icon. Below the message are two buttons: 'View All Catalogues' and 'View Catalogue'. The 'View Catalogue' button is highlighted with a red box and a red arrow pointing to it.

- 18. Click on **view catalog**.
- 19. Now you will be redirected to this page.

Diagnostics

Check here for recommendations, issues, errors and suggested fixes to help you get the most out of your catalogue.

Ways to Use Your Catalog

You need to finish setting up your catalog to use these features.

Dynamic Ads
Reach people with personalized ads that are automatically created to include the products they've shown an interest in or are most likely to buy.
[Learn More](#)

Ads to Drive Traffic
Get more people to view products on your website or mobile app by creating an ad campaign with a traffic objective.

20. Click on **Product data sources**.

21. A new page will open. Now click on **Add Data Sources**.

Product data sources

Data sources show where your catalogue information comes to Facebook from. You can upload your information from multiple sources at once.

All Data Sources

Search by Source Name or ID

Data Source Name ↑↓	Source Type	Last Update ↑↓	Status	Next Update
No Data Sources found.				

Add Data Source

22. A page naming **Add Product** to your catalog opens up:

Add Products to Your Catalog

**Add Manually**
Fill in a simple form for each product you want to add to your catalog. [Learn more](#)
Recommended for less than 50 products or getting started with catalogs.

**Use Data Feeds**
Upload a data feed file containing product info to control which products are added to your catalog and when. [Learn more](#)
Recommended for more than 50 products or running dynamic ads.

**Connect Facebook Pixels** ⓘ
Use pixels (code installed on your website) to automatically update the products in your catalog each time someone visits them. [Learn more](#)
Recommended for more than 50 products that get updated hourly or daily.

23. You have 3 options. Choose **“Use data feeds”**.

24. Here you can select how you want to upload.

Add Products With Data Feeds

Upload a file or add a URL.

Need to set up a data feed?
