1. Overview

Etsy Integration for Magento 2 at CedCommerce involves the integration of the Magento® 2 store with the Etsy marketplace.

The **Etsy Integration for Magento 2** extension helps the store owner to synchronize the product listing between the **Magento 2** store and the Etsy retailers. The **Magento 2** store owner can also manage the Etsy orders on the **Magento 2** stores without making any significant changes in the operational functionalities.

The **Magento 2** store owner has an ability to synchronize the orders, products, pricing, and inventory through establishing the interaction between the Etsy API and the **Magento 2** store. One of the most important features is that it enables the merchant to create the Etsy Categories and its dependent attributes on the **Magento 2** store. Thus, it helps to configure the desired product category to the **Magento 2** store for automatic submission of the selected product to the same category on Etsy marketplace.

Key Features are as follows:

- **Product Upload Based on Profile:** Enables the admin to create a profile based on a single category, and then assign the products to the profile to automate the product upload.
- **Synchronized Inventory:** Auto synchronization of the inventory at regular intervals and the listing of the products along with all the details are established between Magento 2 and Etsy.com.
- **Product Category Mapping:** Follows many-to-one category mapping philosophy. Admin can map many categories of the Magento store to the single category of Etsy.
- **Bulk Upload System:** The merchant has the flexibility to upload any number of products on Etsy.com using the bulk product upload feature.
- **Creation of Magento Orders:** The newly placed orders on Etsy.com are automatically created in the Magento store with all the required details as it is on Etsy.com.
- **New Order Notification:** A notification is sent to the admin if an order is placed on Etsy marketplace for the product after it gets fetched from Etsy to Magento 2.
- **Shipment Automation:** Admin can automate the shipment process with Shipstation, Shipwork, Stamps.com, Linnworks, Xtento, ShipRush.

2. Extension Installation

To install the extension

1. Log in the **FTP**, and then go to Magento 2 root folder (generally present under the [public_html](#) folder).
2. Create a new folder named [code](#) under the [app](#) folder; under [code](#) folder, create a folder named [Ced](#).
 - Upload or Drag and Drop [app/code/Ced/Etsy](#) and [app/code/Ced/Integrator](#)
 - Add The SDK Lib in vendor Directory : [<magento-root>/vendor/cedcommerce/etsy-php](#)
 - Update composer.json File By Adding The code Written Below Under Autoload PSR-4 Section-
[Etsy\](#): ["vendor/cedcommerce/etsy-php/src/Etsy/](#)

https://docs.cedcommerce.com/wp-content/uploads/2019/06/Etsy_sdk.mp4(https://docs.cedcommerce.com/wp-content/uploads/2019/06/Etsy_sdk.mp4)

3. After successfully uploading the contents into the directory and performing the above steps, run the following upgrade command in cmd

```
composer dump
php bin/magento setup:upgrade
```

```
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy -f
php bin/magento indexer:reindex
php bin/magento cache:flush
chmod -R 777 generated/
chmod -R 777 pub/
chmod -R 777 var/
```

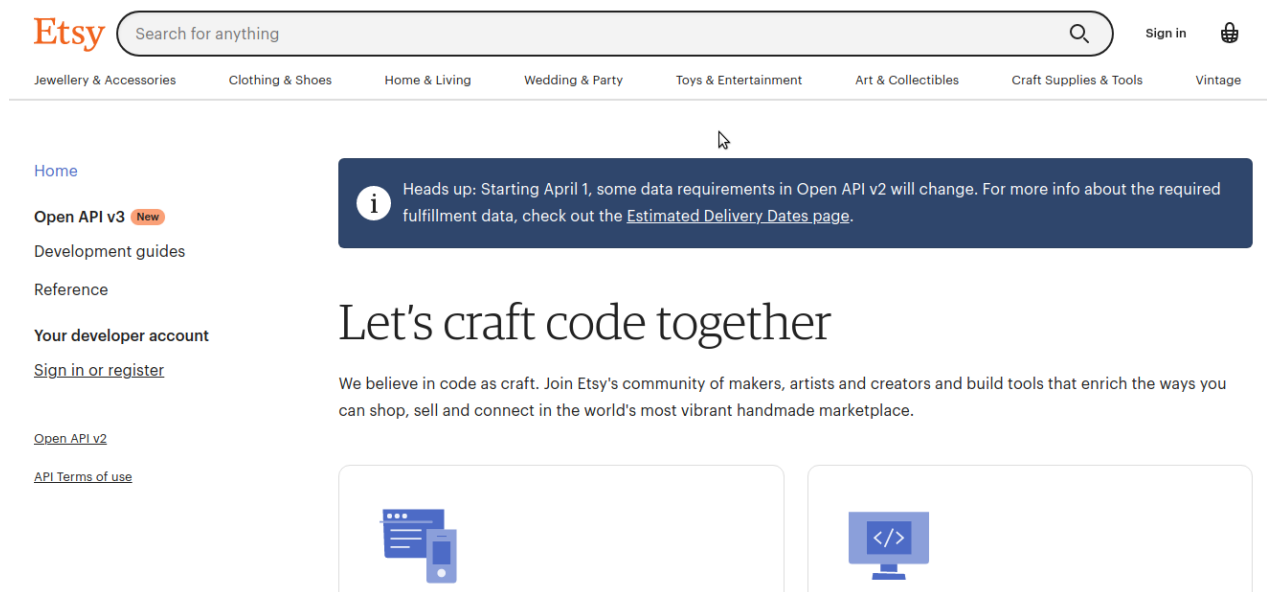

3. Get Etsy Credentials

The merchant has to first create a seller account in the Etsy seller panel. Once the seller account is created and is approved by Etsy, the store owner has to retrieve the API Credentials. The merchant has to enter these **API Key details** on the **Etsy Developers** page.

To retrieve API Key Details from the Etsy

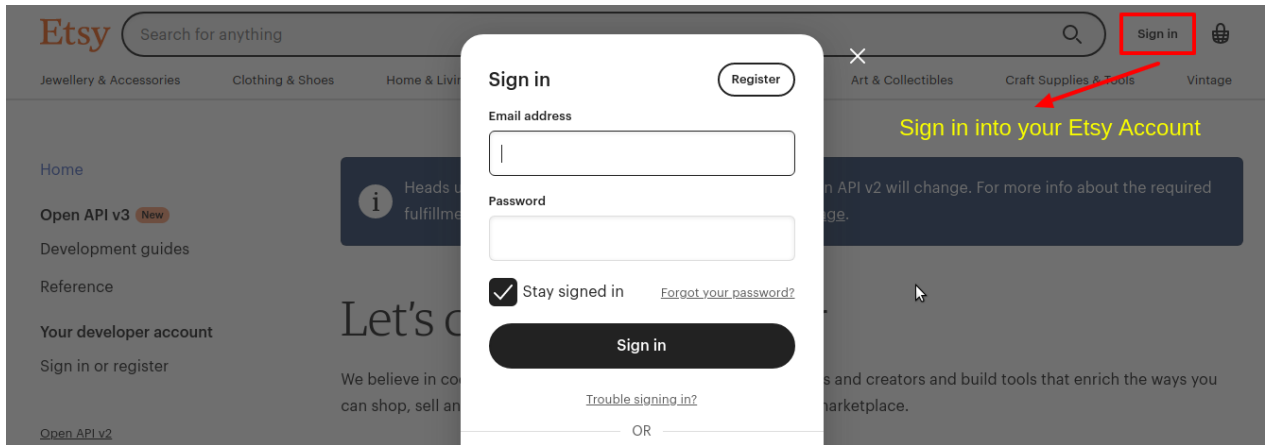

1. Go to the <https://www.etsy.com/developers>(<https://www.etsy.com/developers>) link.

The page appears as shown in the following figure:

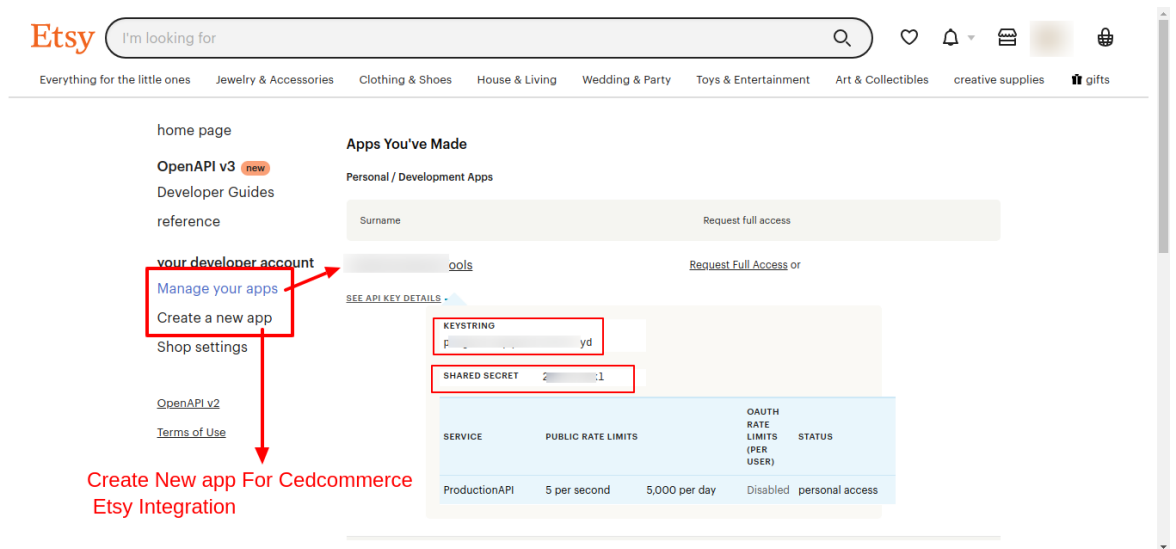

2. Enter your Username and password to sign up for your Etsy account.
3. Once get logged in, then Register as a developer

The page appears as shown in the following figure:

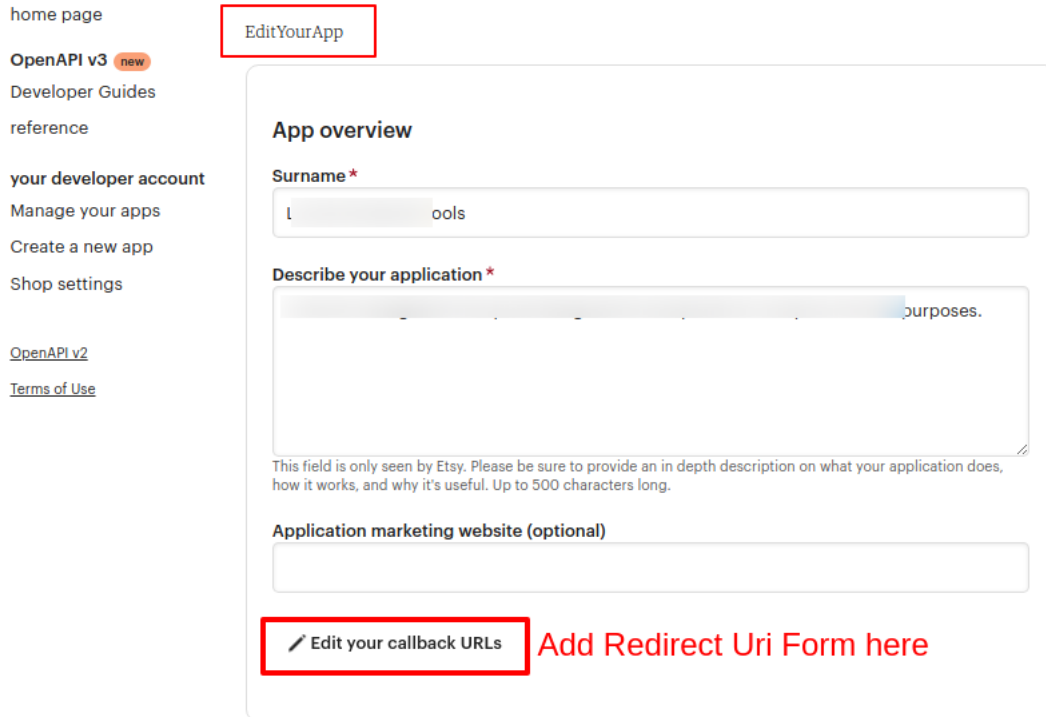

4. Once registration is done, your App has been made.
5. To view the created apps or register for a new app click on the link below:
? <https://www.awesomescreenshot.com/video/5161341?key=f4d15b5f13c5f97125c9da2272c0e200>(<https://www.awesomescreenshot.com/video/5161341?key=f4d15b5f13c5f97125c9da2272c0e200>)
6. Then, get the API key credentials,
 - o Key string
 - o Shared Secret
 The page appears as shown in the following figure:

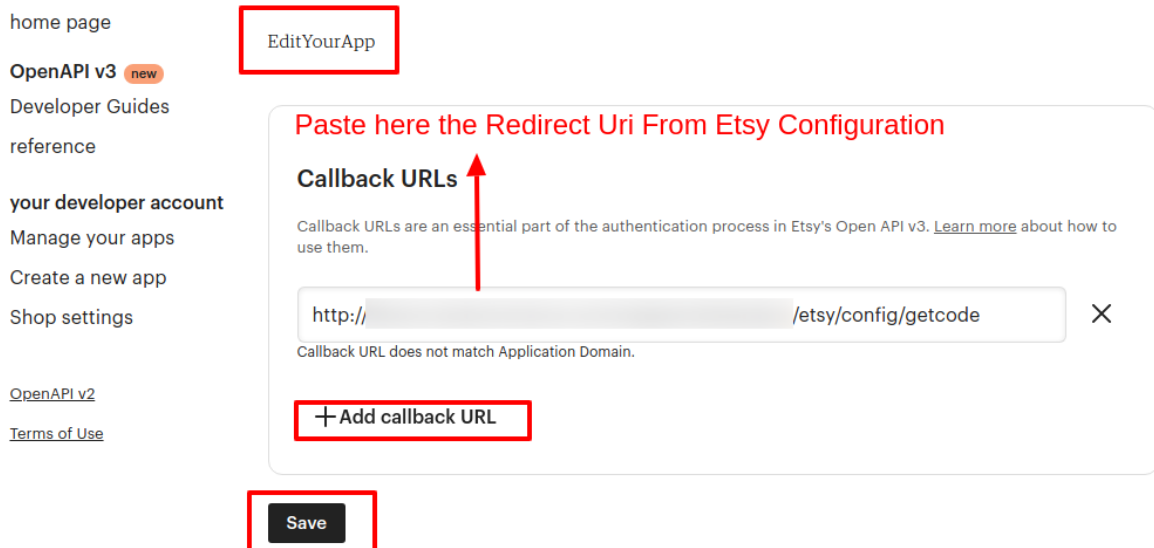

To update the Call Back URL on the Etsy app,

1. Click on Edit your App as shown in the image below, then the Callback Url section will get opened.

2. After this paste the Redirect Uri from the Etsy Configuration Settings in the Callback Url box as shown below:

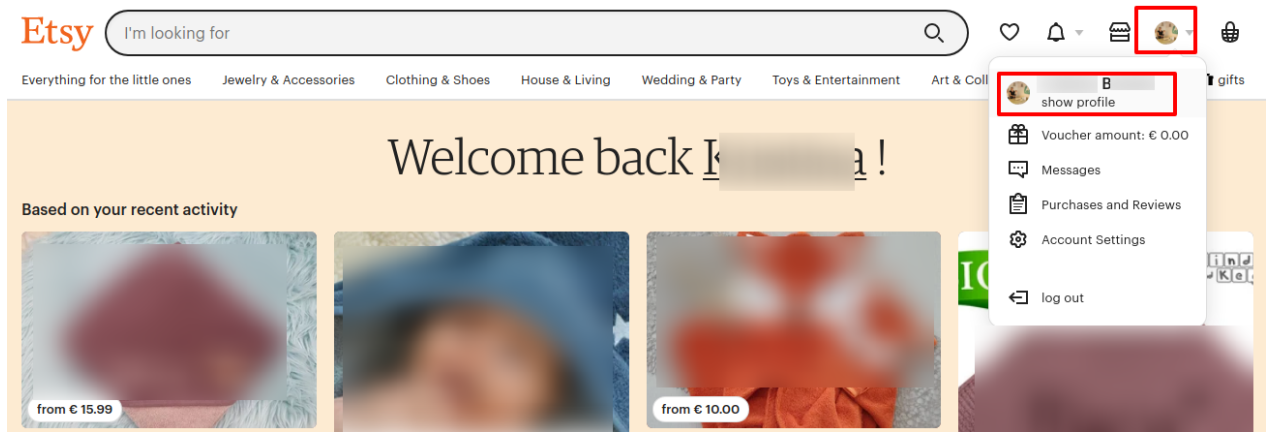

3. You can copy the Redirect Uri from config settings:

Etsy Merchant/Developer Settings

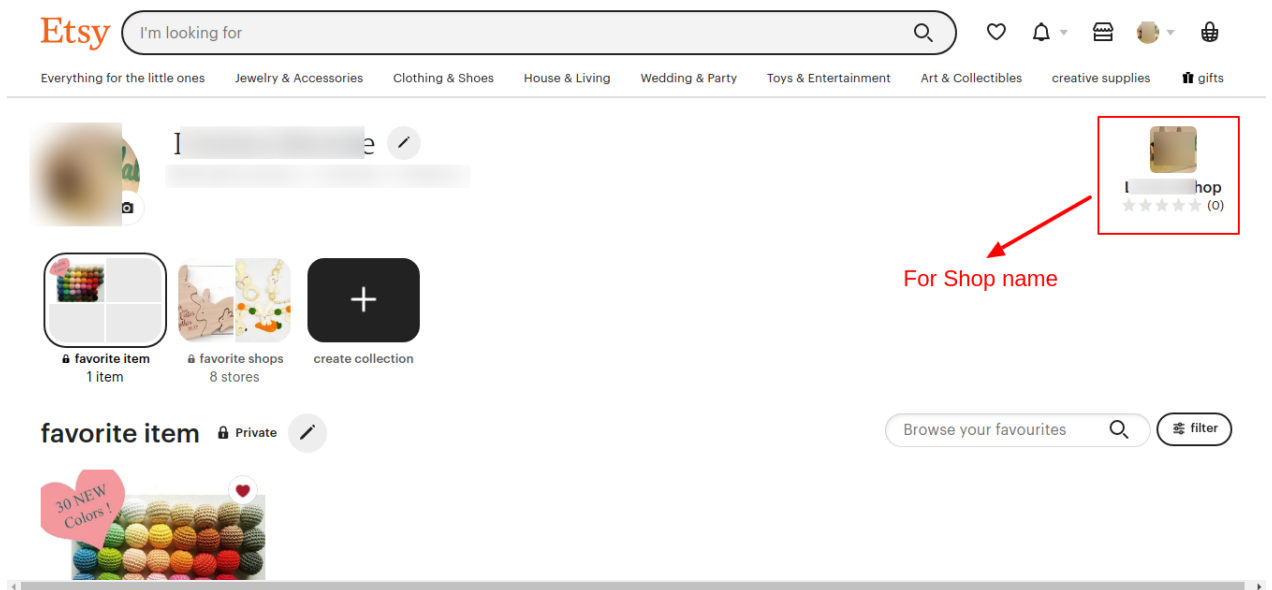

To get Shop Name from Etsy,

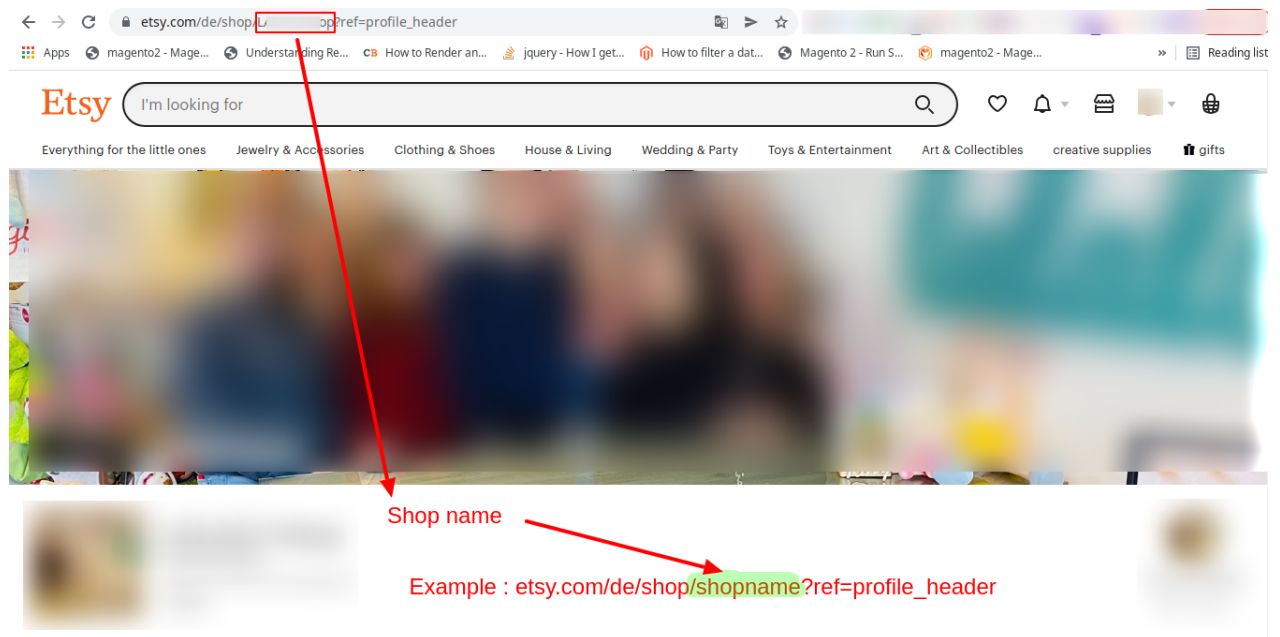

1. Go to your Etsy profile section as shown below:

2. Then click on your existing shop:

3. Then Copy the shop name from the URL as shown below and paste it in the config settings of Etsy:

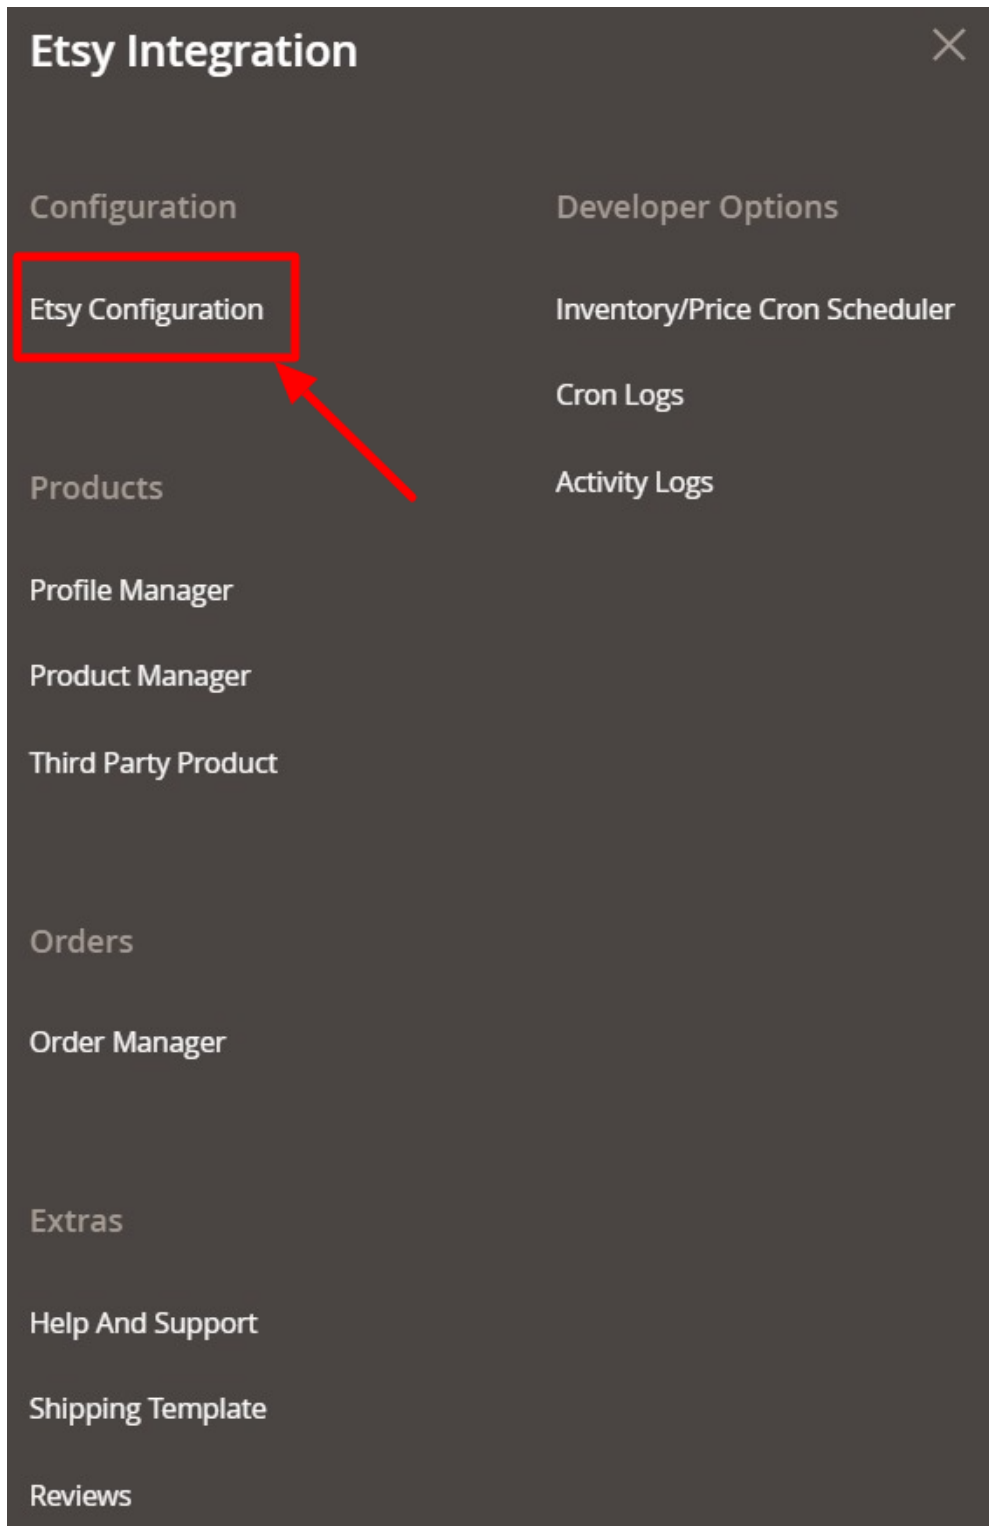

4. Configuration Settings

After obtaining the **API credentials** from the Etsy Developer account, the Magento 2 store owner has to paste them into the respective fields displayed on the **Etsy Configuration** page of the admin panel.

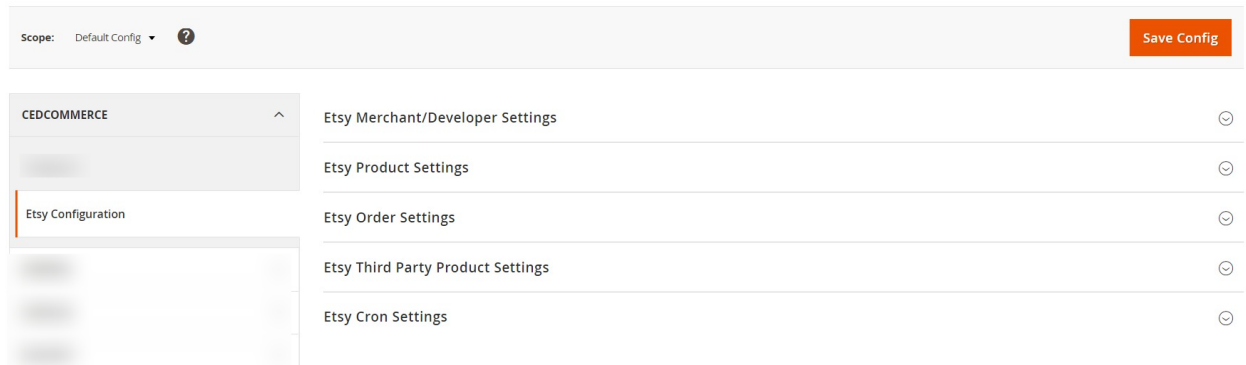

To set up the configuration settings in the Magento 2 Admin panel

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **ETSY INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click on the **Etsy Configuration**.
The **Configuration** page appears as shown in the following figure:

Configuration

- In the right panel, click on the **Etsy Merchant/Developer Settings**. The tab is expanded and the expanded section appears as shown in the following figure:

Etsy Merchant/Developer Settings

Keystring [global] ?

Shared Secret [global] ?

Redirect URI [global]
 Copy The Above Url And Paste Into Callback Url Field On Etsy Panel.

Access Token [global]
 Access Token Will Be Automatically Filled Up When You Click On **Fetch Token Button** below.

RefreshToken [global]
 Refresh Token Will Be Automatically Filled Up When You Click On **Fetch Token Button** below.

Verifier Code [global]
 Verifier Code Will Be Automatically Filled Up When You Click On **Fetch Token Button** below.

User Name [global]
 It Will Be Automatically Filled Up When You Click On **Fetch Token Button** below.

Shop Name [global] ?

Etsy Store Language [global] ▼

Select Store [global] ▼

 Click On It To Fetch **Etsy Categories**.

5. Under **Etsy Merchant/Developer Settings**, do the following steps:
 - In the **Etsy Key String** box, paste the corresponding value copied from the Etsy Developer panel.
 - In the **Shared Secret Key** box, paste the corresponding value copied from the Etsy Developer panel.
 - In Redirect Url, copy the Url from the box And paste it into Callback Url Field On Etsy Panel.
 - Click the **Fetch Token** button. The page appears as shown in the below figure:

An application would like to connect to your account.

You are currently signed in as i [redacted] e. Not you? [Sign in as someone else.](#)

The application [redacted] is trying to connect to your account.

You should be seeing this message because you're using an Etsy App. If you didn't come to this page through an Etsy App, or if you followed a link in an email or chat, close this window now.

If you grant access, you will be subject to L [redacted] 's privacy policy, and L [redacted] s will have permission to do the following on your behalf:

- Connect to your account
- see billing and shipping addresses
- update billing and shipping addresses
- see all billing statement data
- read shopping carts
- add/remove from shopping carts
- Read your email address
- see private favorites
- add/remove favorites

- create/edit listings
- see all profile data
- update user profile, avatar, etc
- see recommended listings
- accept/reject recommended listings
- see private shop info
- update shop
- see all checkout/payment data
- update receipts

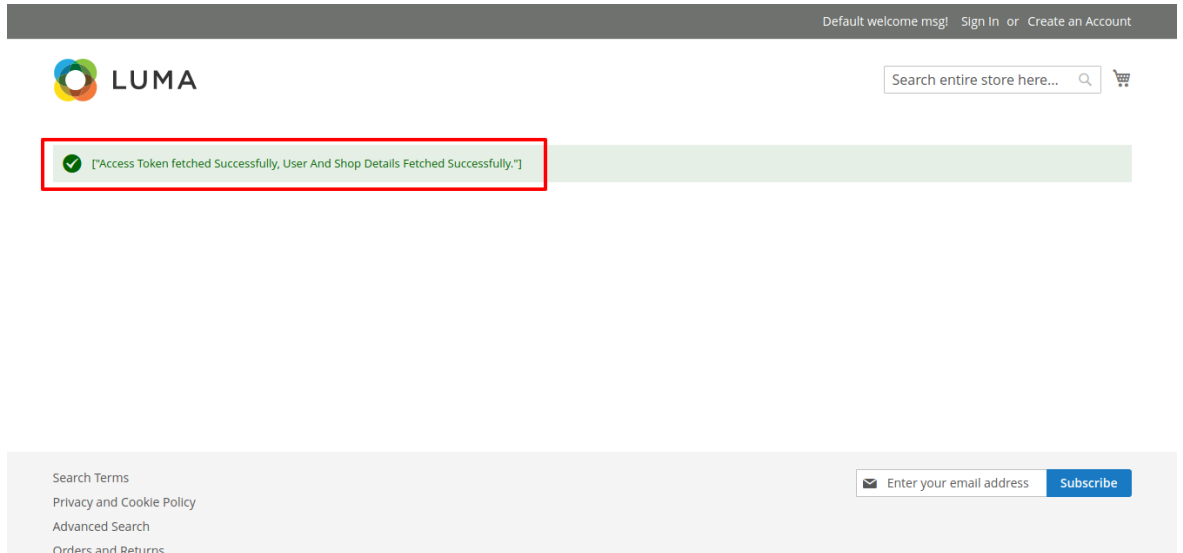

You can revoke this access at any time by visiting [Your Account](#).

Note: when using Etsy Apps, all the normal fees for creating and changing listings on Etsy apply.

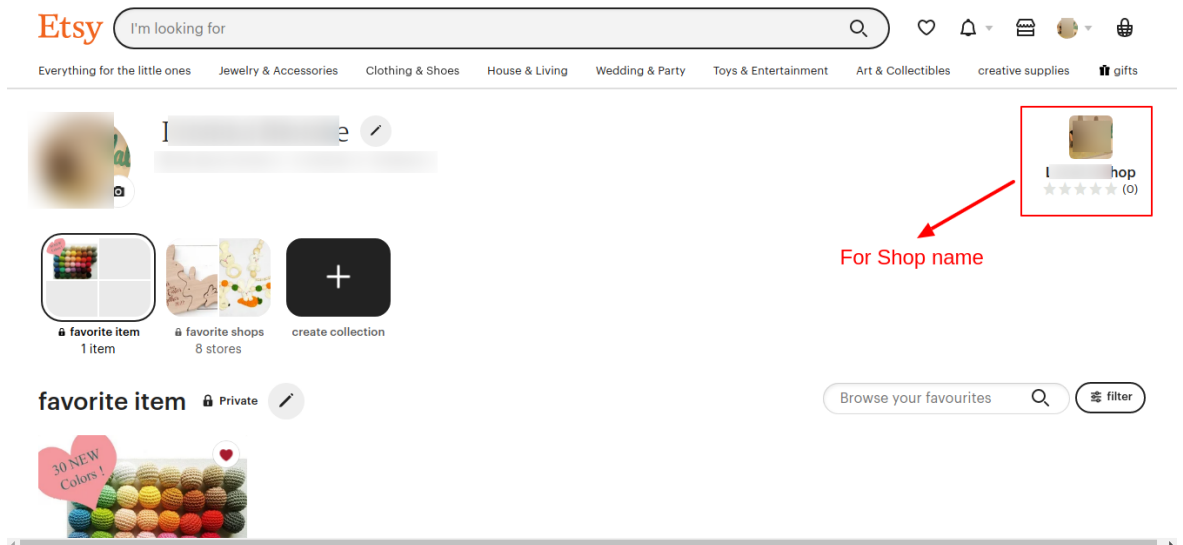

Grant access

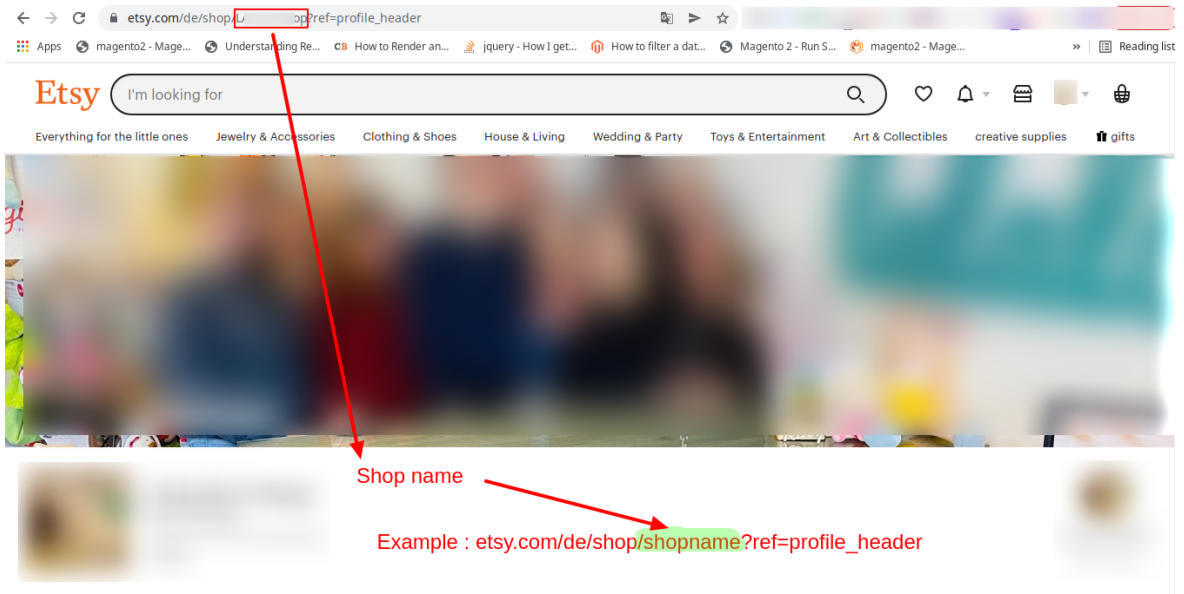

Refuse access

- Click on the **Grant Access** button, after a click **Access Token, Access Token Secret, Verifier Code, User Name** will get filled automatically.

- For Shop name, you first need to login in Etsy developer account, Click on Profile Button: The page appears as shown in the following figure:

- In the **Etsy Store Language** box, select the language of your Etsy store.
- In the **Select Store** list, select the single store.
- Click on the **Fetch Category** button, then the category is fetched from Etsy and a success message appears on the page.

Verifier Code [global] 19kM
 Verifier Code Will Be Automatically Filled Up When You Click On **Fetch Token Button** below.

User Name [global]
 It Will Be Automatically Filled Up When You Click On **Fetch Token Button** below.

Shop Name [global] ?

Etsy Store Language [global] ▼

Select Store [global] ▼

Categories Fetched Successfully !!

← **Fetch Etsy Categories**

Click On It To Fetch **Etsy Categories**.

6. Scroll down to the **Etsy Product Settings** tab, and then click the tab.
 The tab is expanded and the expanded section appears as shown in the following figure:

Etsy Product Settings

Who Made [global]

When Made [global]

State [global]

Product Price [global]
Select to send different product price to **etsy.com**

Select Shipping Template [global]

Select Shop Section [global]

Product Inventory [global]
Select to send different product inventory to **etsy.com**

Use MSI Feature For Inventory [global]
Use MSI feature to send the inventory to **etsy.com**

7. Under **Product Upload Settings**, do the following steps:

- a. In the **Who Made** a list, select the appropriate option.
- b. In the **When Made** list, select the appropriate option.
- c. In the **State** list, select the appropriate option.
- d. Click the **Product Price** tab,

i. The **Product Price** tab is expanded and the section appears as shown in the following figure:

Default Magento Price ▲

Default Magento Price

Increase By Fixed Price

Increase By Fixed Percentage

Decrease By Fixed Price

Decrease By Fixed Percentage

set individually for each product

ii.

In the **Product Price** list, select one of the following options:

- i) **Increase by Fixed Price**: If selected, then the **Modify by Fix Price** field appears.
- ii) **Increase by Fixed Percentage**: If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to increase the price of the Etsy, product price by the entered value % of Magento price.

Product Price [global]
Select to send different product price to **etsy.com**

Modify by Percentage Price [global]

Numeric value Required for **Add/subtract % on Magento price** 5 for Example: Magento price +/- 5% of Magento price.

For Example,

Magento 2 price + 5% of Magento 2 price.

Magento 2 Price = 100

Select **Increase By Fixed Percentage** option

Modify by Percentage Price = 5

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Etsy Product Price = 105

iii) **Decrease by Fixed Price:** If selected, then the **Modify by Fix Price** field appears.

iv) **Decrease by Fixed Percentage:** If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to decrease the price of the Etsy product price by the entered value % of Magento 2 price.

For Example,

Magento 2 price – 5% of Magento 2 price.

Magento 2 Price = 100

Select **Decrease By Fixed Percentage** option

Modify by Fix Price = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Etsy Product Price = 95

iii. Under **Shipping Template**, do the following step:

In the **Select Shipping Template** list, select the required Shipping template.

iv. In the **Select Shop Section** box, select your shop section.

v. Click on the **Product Inventory** tab,

1. The **Etsy Product Inventory Settings** tab is expanded and the section appears as shown in the following figure:

2. Under **Etsy Product Inventory Settings**, do the following step:

Increase by Fixed Quantity: If selected, then the **Modify by Fix Quantity** field appears.

Decrease by Fixed Quantity: If selected, then the **Modify by Fix Quantity** field appears.

f. In **Use MSI Feature for Inventory**, select **Yes**, if you want to use MSI for the inventory.

- Scroll down to the **Etsy Order Setting** tab, and then click the tab.

The tab is expanded and the expanded section appears as shown in the following figure:

Etsy Order Settings

Order Notification Email [global]

Etsy Order Id Prefix [global]

Prefix For Order Increment Id.

- Enter 'RI' To Set Etsy Receipt Id as Magento Increment Order Id.
- Otherwise Set According to Your Choice.
- Leave it Blank If You Want Default Magento Increment Id

Auto Order Fetch [global] ▼

Cron Will Fetch The Orders From Etsy

Shipping Method of Etsy Orders [global] ▼

Payment Method of Etsy Orders [global] ▼

Create Real Customer [global] ▼

Customer Group [global] ▼

Carrier Mapping [global]

Magento Carrier Name	Etsy Carriers	Action
<input type="button" value="Add"/>		

- Under **Etsy Order Setting**, do the following steps:
 - a. In the **Order Notification Email** box, enter the required email id.
 - b. In the **Etsy Order Id Prefix** box, enter Prefix for Etsy Order Increment id.
 - c. In the **Auto Order Fetch** box, select the **Yes** option, to auto-fetch order from Etsy.
 - d. In the **Shipment Method for Etsy Orders** box, select the shipment method for Etsy order.
 - e. In the **Payment Method of Etsy Order** box, select the payment method for Etsy order.
 - f. In the **Create Real Customer** box, select the **Yes** option, to create a real customer of Etsy.
 - g. In **Carrier Mapping**, map the Magento carrier with the Etsy carrier.
- Now scroll down to Etsy Third Party Product Setting, the tab is expanded as:

Etsy Third Party Product Setting

Sync Product On The Basis Of Attribute [global] ▼ ?

Select the field

Auto Sync Third Party Products On Etsy [global] ▼ ?

- Under **Etsy Third-Party Product Setting**, do the following steps:
 - a. In the **Sync Product On the Bases of Attribute** box, select the option on which basis you need to sync the Etsy Products.
 - b. In the **Auto Sync Third-Party Product** box, select the **Yes** option, to auto-sync third-party products.
- Click on Etsy Cron Setting, the tab is expanded as shown below:

Etsy Cron Settings

Auto Inventory Sync <small>[global]</small>	Yes	▼
	Auto Update Inventory/Price on Etsy	
Auto Shipment Sync <small>[global]</small>	No	▼
	Send Shipment on Etsy	
Auto Import Etsy Reviews <small>[global]</small>	No	▼
	Fetch Your Etsy Shop Reviews In To Your Magento Products	

- Under **Etsy Cron Settings**, do the following steps:
 - a. In the **Auto Inventory Sync** box, select the **Yes** option, to auto-update inventory on Etsy while product edit.
 - b. In **Auto Shipment Sync**, select **Yes** to automatically update the Shipment.
 - c. In **Auto Import Etsy Reviews**, select **Yes** to import the reviews automatically.
- Click the **Save Config** button.
The configuration settings are saved.

5. Manage Etsy Profiles

Admin can create a new profile and assign the required products to the profile. While creating and editing the profile, admin can map the Magento 2 attributes to the Etsy attributes. These attributes are applicable to all the products that are assigned to the profile.

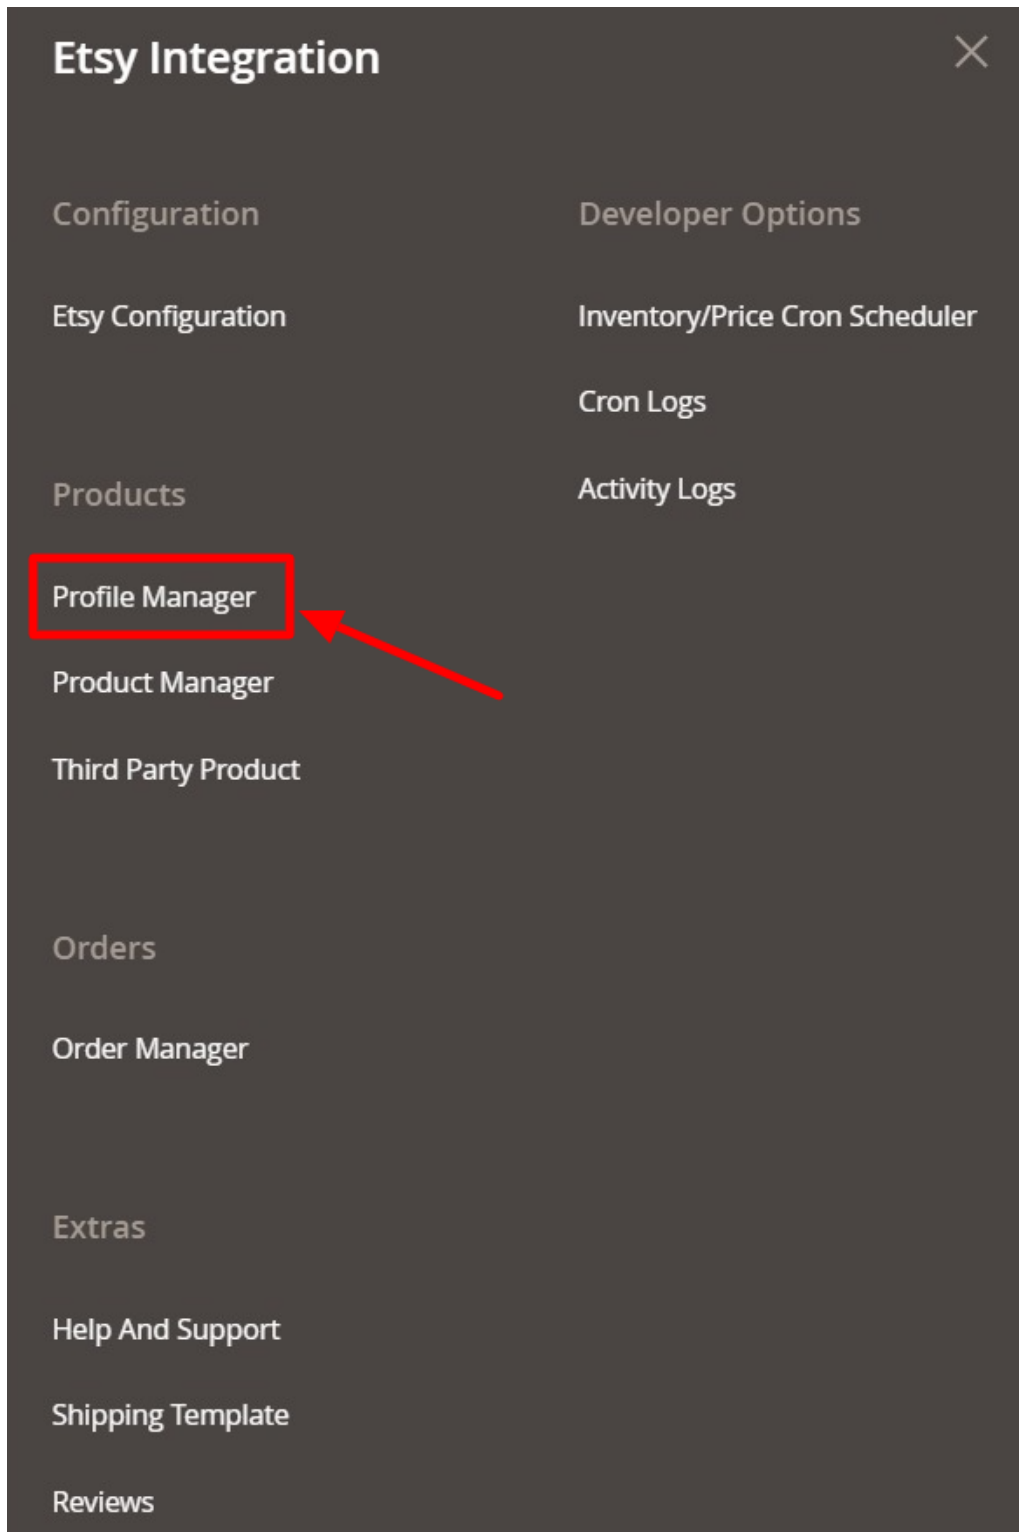

Admin can do the following tasks:

- Add new profile(<https://docs.cedcommerce.com/magento-2/etsy-magento-2-integration-guide?section=add-a-new-profile-23>)
- Edit the existing profile(<https://docs.cedcommerce.com/magento-2/etsy-magento-2-integration-guide?section=edit-the-existing-profile-33>)
- Bulk Action on the Selected Profiles(<https://docs.cedcommerce.com/magento-2/etsy-magento-2-integration-guide?section=submit-bulk-action-on-the-selected-profiles-3>)

5.1. Add A New Profile

To add a new profile

1. Go to the **Magento 2 Admin**
2. On the left navigation bar, click the **ETSY INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Profile Manager**.

The **Manage Profile** page appears as shown in the following figure:

4. Click the **Add New Profile**

The **New Profile** page appears as shown in the following figure:

5. In the right panel, under **Profile Information**, do the following steps:

- a. In the **Profile Code** box, enter a profile code.

Note: It is only for internal use. Use the unique profile code with no spaces. Start with small letters.

- b. In the **Profile Name** box, enter the name of the profile.

Note: Use the unique name to identify the profile.

- c. In the **Profile Status** list, select **Enabled** to enable the profile.

Note: The Inactive option disables the profile.

6. Click the **Save and Continue**.

7. In the left navigation panel, click the **Category & Attribute**

In the right panel, the page appears as shown in the following figure:

New Profile

Level 1 Category *

Level 2 Category *

Level 3 Category *

Level 4 Category *

Level 5 Category *

Level 6 Category *

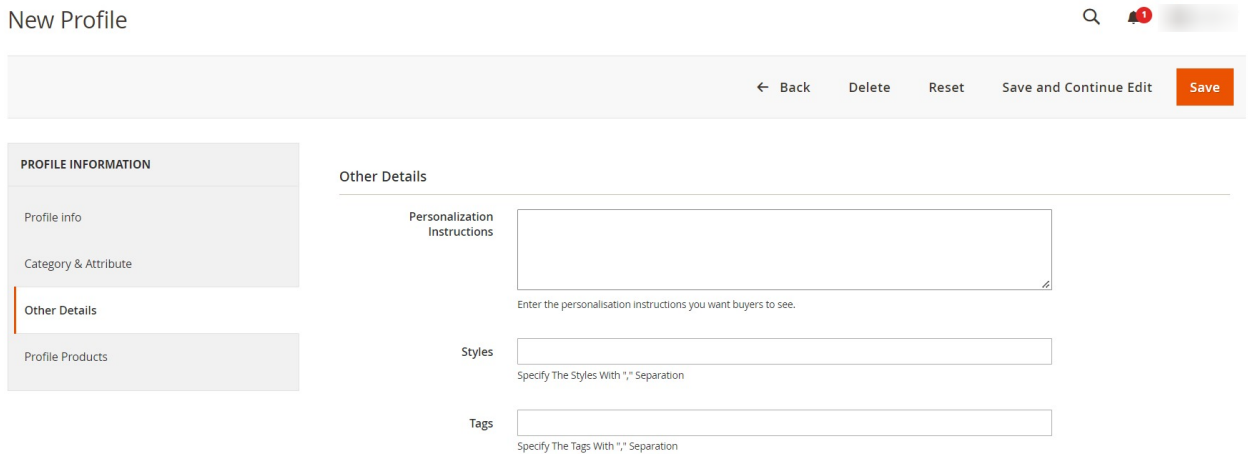

8. Under **Category Mapping**, do the following steps:
 - a. In the **Root Level Category list**, select the required category.
If the selected category has subcategories, then the next category level field is activated.
 - b. In the **Level 1 Category list**, select the required subcategory.
Similarly, if this sub-category consists of next level of subcategory, then the next category level is activated.
 - c. Select the categories until the last level of the selected category.
9. Scroll down to the **Etsy-Magento Required Attributes Mapping** section.

Etsy / Magento Attribute Mapping (Required Attribute Mapping)

Etsy Attribute	Magento Catalog Attribute	Default Value	Action
<input type="text" value="Product Name"/>	<input type="text" value="Product Name"/>		
<input type="text" value="SKU"/>	<input type="text" value="SKU"/>		
<input type="text" value="Description"/>	<input type="text" value="Description"/>		
<input type="button" value="Add Attribute"/>			

10. Under **Etsy-Magento Required Attributes Mapping**, do the following steps:
 - a. In the **Magento Catalog Attribute column**, select the required Magento attribute from the corresponding list to map it with the corresponding Etsy attribute.
 - b. Repeat the mapping of all the required Magento attributes listed with the corresponding Etsy attributes.
11. Click the **Save and Continue** button.

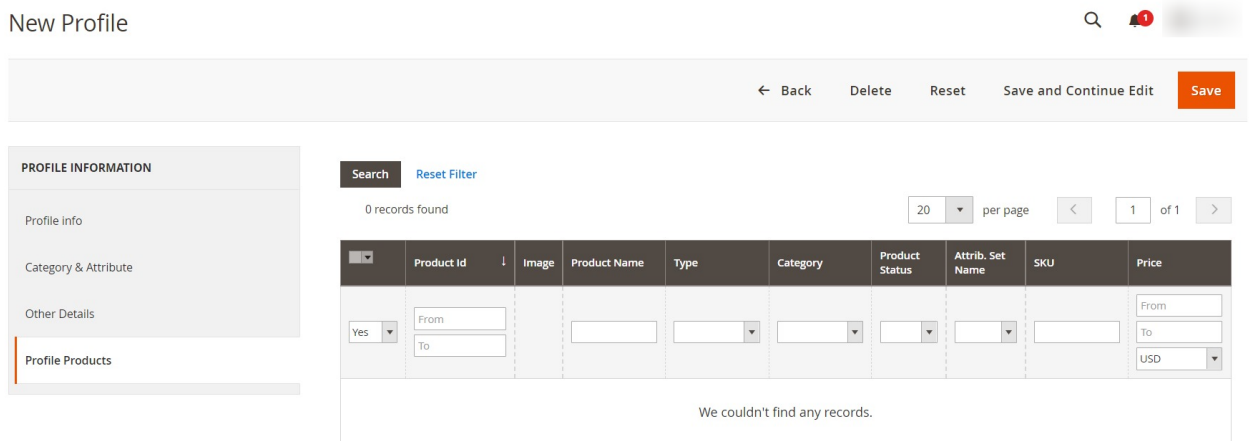

12. In the left navigation panel, click the **Other Details** menu.
In the right panel, the page appears as shown in the following figure:

13. Under **Other Details**, do the following steps:
 - a. In the **Personalised Instructions** list, enter the personalisation instructions you want buyers to see.
 - b. In the **Styles** list, enter the styles separated by a comma.
 - c. In the Tags box, enter the required tag names separated by the comma.

14. Click the **Save and Continue** button.

15. In the left navigation panel, click the **Profile Products**
In the right panel, the page appears as shown in the following figure:

Since no products are assigned to the profile, there are no products listed in the table.

16. Click the **Reset Filter** link.
All the products are listed in the table.
17. In the right panel, do the following step:
 - o Select the checkboxes associated with the required products that the admin wants to assign to the new profile.

Note: Admin can assign one product to one profile only. It means, admin can assign multiple products to the same profile but can associate a product only with one profile at one time. To assign a product to another profile, the admin has to remove that product from the currently assigned profile.

18. Click the **Save**

The created profile is saved and listed on the **Manage Profile** page.

5.2. Edit the Existing Profile

To edit the profile

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **ETSY INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Profile Manager**.

The **Manage Profile** page appears as shown in the following figure:

6. In the left navigation panel, click the required menu, and then make the changes as per requirement in the respective section.
7. Click the **Save** button.
The edited profile is saved and the success message appears on the **Manage Profile** page.

5.3. Submit Bulk Action on the Selected Profiles

Admin can delete the selected profiles and also can change the status of the profiles in bulk.

To submit the selected action on the selected profiles in Bulk

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **ETSY INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click **Profile Manager**

The **Manage Profile** page appears as shown in the following figure:

Manage Profile

0 records found

ID	Profile Code	Profile Name	Status	Product Count	Action
We couldn't find any records.					

On this page, all the available profiles are listed.

4. To delete the selected profiles, do the following steps:

- a. Select the profiles that are no more required.
- b. Click the **Arrow** button next to the **Actions** field.

The **Actions** list appear as shown in the following figure:

- c. Click the **Delete** option.
A confirmation dialog box appears.
- d. Click the **OK** button.
The selected profiles are deleted.

5. To disable the selected profiles, do the following steps:

- a. Select the required profiles.
- b. Click the **Arrow** button next to the **Actions** field.

The **Actions** list appear as shown in the following figure:

- c. Click the **Disable** option.
The selected profiles are disabled.

6. To enable the selected profiles, do the following steps:

- a. Select the required profiles.
- b. Click the **Arrow** button next to the **Actions** field.

The **Actions** list appear as shown in the following figure:

- c. Click the **Enable** option.
The selected profiles are enabled.

6. Manage Etsy Products

On this page, all the products listing available in the Magento 2 store are listed. If the store owners have their products listed in the Etsy store and want to get those item listing ids in the Magento 2 store, then they can use a feature provided by this extension to map them with the corresponding products listed on the Etsy Product Listing page. They can also upload the selected products on the Etsy website.

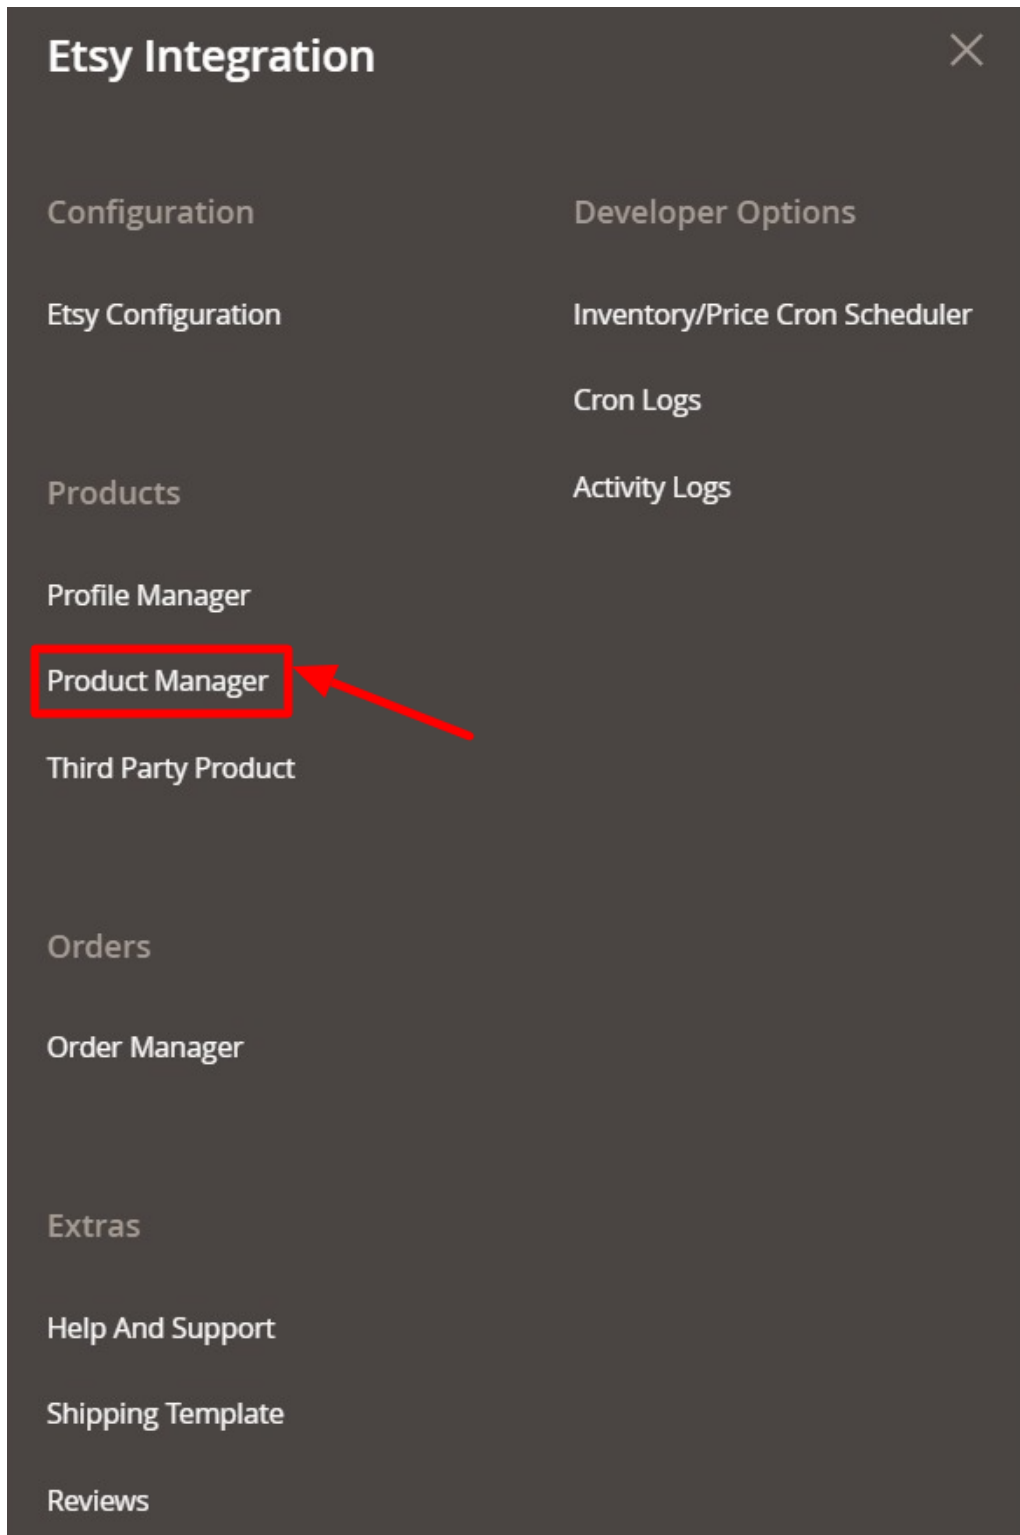

The admin can do the following tasks:

- Upload/Update New Products(<https://docs.cedcommerce.com/magento-2/etsy-magento-2-integration-guide/?section=upload-the-selected-products-on-etsy-2>)
- Existing Products(<https://docs.cedcommerce.com/magento-2/etsy-magento-2-integration-guide/?section=third-party-product-2>)

6.1. Upload/Update New Products

To upload the selected products on Etsy

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click the **ETSY INTEGRATION** menu.
The menu appears as shown in the following figure:

3. Click Etsy Product Listing.

The **Etsy Product Listing** page appears as shown in the following figure:

To Manage Shipping Template

1. Go to the **Magento 2 Admin** panel.

2. On the left navigation bar, click the **ETSY INTEGRATION** menu.

A menu appears as shown in the following figure:

3. Click **Shipping Template**

The **Shipping Template** page appears as shown in the following figure:

Manage Shipping Template

The screenshot shows the 'Manage Shipping Template' interface. At the top right, there are search and notification icons. Below the header, there are three orange buttons: 'Truncate', 'Fetch', and 'Create'. A 'Filters' button is also visible. Below the buttons, there is a table with the following columns: 'Id', 'Title', 'Origin Country Id', 'Processing Days Display Label', 'Min Processing Days', 'Max Processing Days', 'shipping Template Id', and 'Action'. The table is currently empty, displaying the message 'We couldn't find any records.' The pagination shows '20 per page' and '1 of 1' records.

4. To delete all the Shipping Template, click the **Truncate Shipping Template** button.
 5. To Fetch all the Shipping Template, click the **Fetch Etsy Shipping Template** button.
 6. To Create a new Etsy Shipping Template, click the **Create Etsy Shipping Template** button
- The page appears as shown in the following figure:

Manage Shipping Template

This screenshot shows the 'Manage Shipping Template' page with a search icon and a notification icon at the top right. A single orange 'Create' button is visible on the right side of the page.

Shipping Template Details

The 'Shipping Template Details' form contains the following fields:

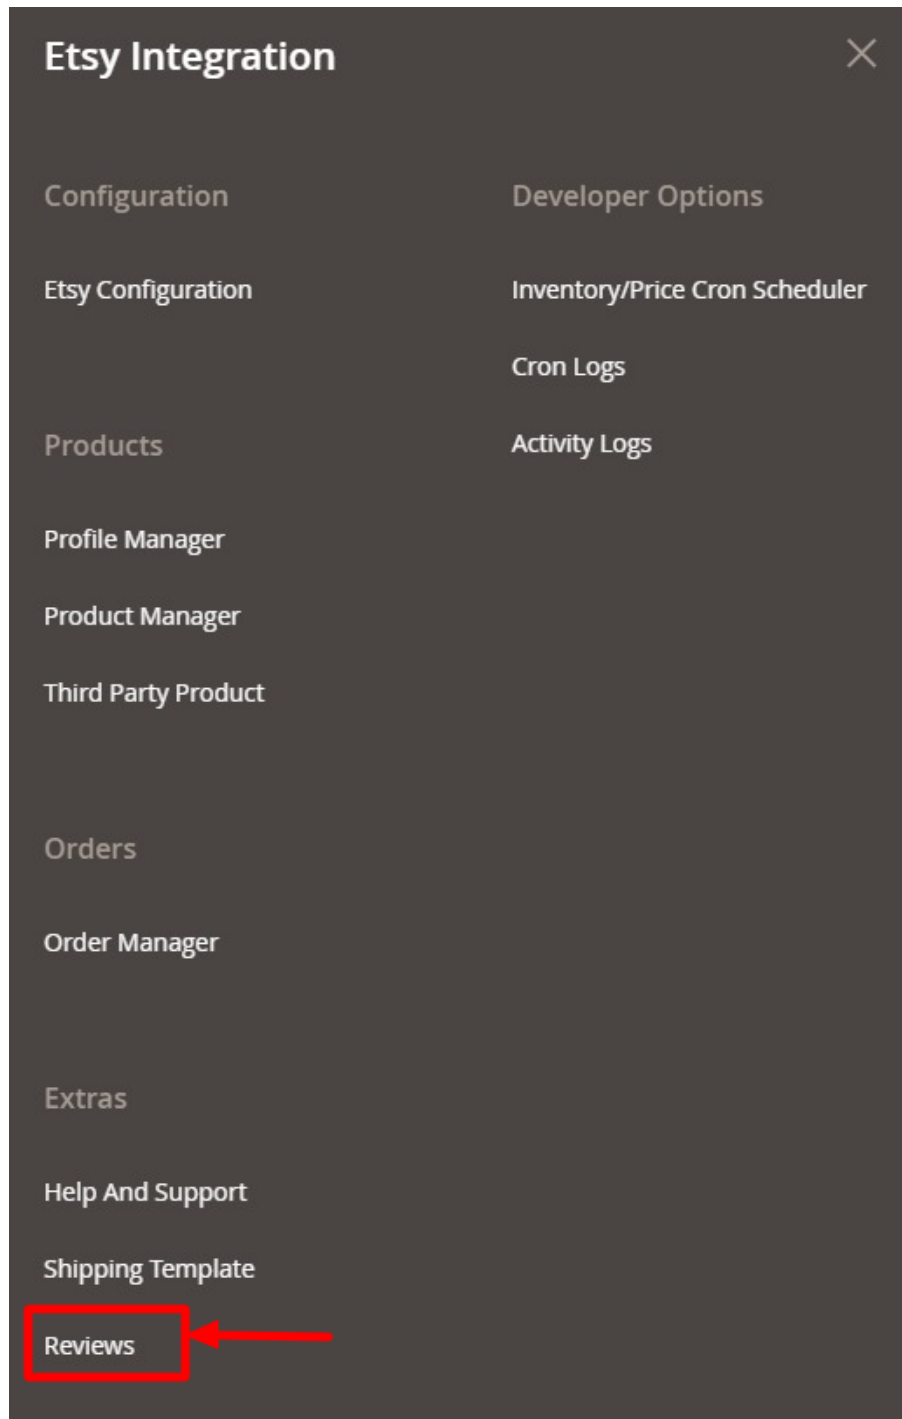

- Title *
- Origin Country * (dropdown menu with "--Please select the country--")
- Destination Country * (dropdown menu with "--Please select the country--")
- Min Processing Days *
- Max Processing Days *
- Primary Cost *
- Secondary Cost *
- Min Delivery Days *
- Max Delivery Days *

7. Under **Create Shipping Template Settings**, do the following steps:
 - a. In the **Title** box, enter the title of your template which should always be unique.
 - b. In the **Origin Country** box, select the country you're shipping from.
 - c. In the **Destination Country** box, select the country you're shipping to.
 - d. In the **Min Processing days** box, once purchased enter the min amount of time to process the order.
 - e. In the **Max Processing days** box, once purchased enter the max amount of time to process the order.
 - f. In the **Primary Cost** box, enter the one-time amount.
 - g. In the **Secondary Cost** box, this amount will be added on top of the one-time amount, for each additional amount.
 - h. In **Min Delivery Days**, enter the minimum days for the delivery.
 - i. In **Max Delivery Days**, enter the maximum delivery days.
8. Click on the **Save Data** button.
