1. Overview

Tmall Integration for Magento 2 store is an API integration that helps Magento 2 store owners to synchronize inventory, price, and other product details for product creation and management between Magento 2 stores and the Tmall marketplace.

This extension interacts with the Tmall marketplace to integrate the synchronized product listing between Magento 2 stores and Tmall retailers. After the installation, the merchant can create Tmall categories and the dependent attributes on the Magento 2 store.

Key Features-

- **Product Upload Based on Profile:** Enables the sellers to create a profile based on a single category, and then assign the products to the profile to automate the product upload.
- **Synchronized Inventory:** Auto synchronization of the inventory at regular intervals and the listing of the products along with all the details are established between Magento 2 and Tmall.
- **Product Category Mapping:** Follows many-to-one category mapping philosophy. Sellers can map many categories of the Magento store to a single category of Tmall.
- **Bulk Upload System:** The merchant has the flexibility to upload any number of products on Tmall using the bulk product upload feature.
- **Creation of Magento Orders:** The newly placed orders on Tmall are automatically created in the Magento store with all the required details as it is on Tmall.
- **New Order Notification:** A notification is sent to the seller if an order is placed on the Tmall marketplace for the product after it gets fetched from Tmall to Magento 2.

2. Extension Installation

To install the extension,

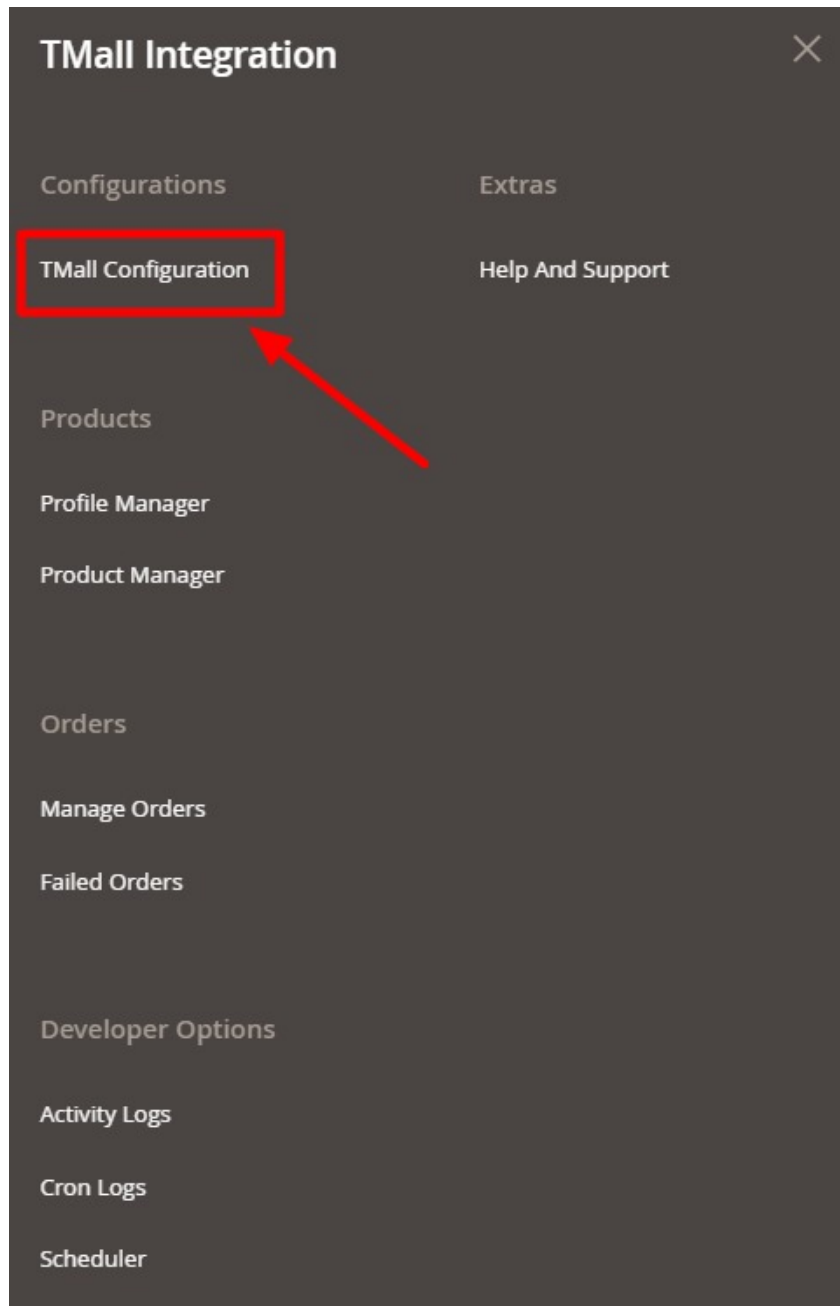

1. Log in to the **FTP**, and then go to Magento 2 root folder (generally present under the [public_html](#) folder).
2. Create a new folder named `code` under the `app` folder; under `code` folder, create a folder named `Ced`.
3. Upload or Drag and Drop `app/code/Ced/TMall` and `app/code/Ced/Integrator`.
4. Now run the below command in cmd:

```
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy -f
php bin/magento indexer:reindex
php bin/magento cache:flush
```

3. TMall Configuration

To configure the extension,

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click on the **Tmall Integration**.
The menu appears as shown below:

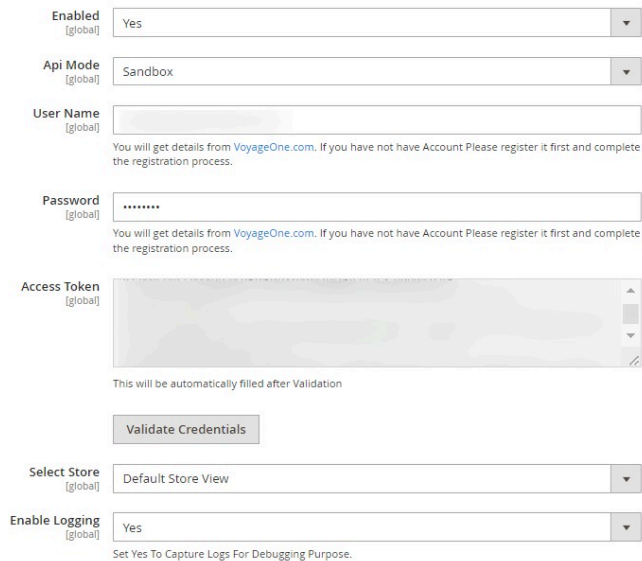

3. Click on **Tmall Configuration**.

The **Configuration Settings** page appears as shown below:

4. Click on **Tmall Merchant Settings**, the section is expanded as shown below:

Tmall Merchant Settings

Enabled [global] Yes

Api Mode [global] Sandbox

User Name [global]

You will get details from VoyageOne.com. If you have not have Account Please register it first and complete the registration process.

Password [global]

You will get details from VoyageOne.com. If you have not have Account Please register it first and complete the registration process.

Access Token [global]

This will be automatically filled after Validation

Validate Credentials

Select Store [global] Default Store View

Enable Logging [global] Yes

Set Yes To Capture Logs For Debugging Purpose.

5. Under **Tmall Merchant Settings**, do the following steps:

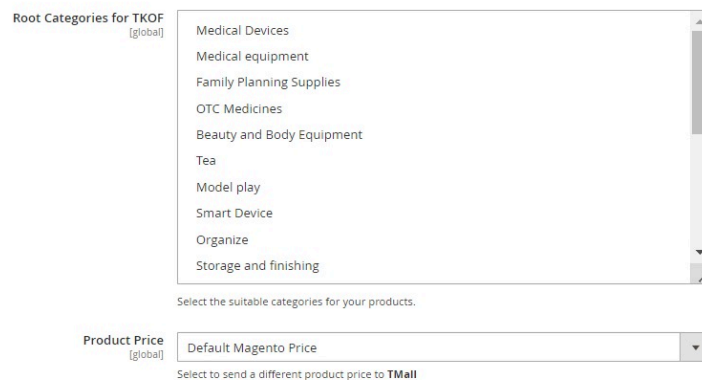

- In **Enabled**, select **Yes** to enable the extension configuration settings.
- In **API Mode**, select the store mode, i.e, **Sandbox** or **Live**.
- In **User Name**, you will get details from VoyageOne.com(<http://VoyageOne.com>) . If you have not had an account please register it first and complete the registration process.
- In **Password**, enter the password for the account.
- The **Access Token** will be automatically filled after validation.

Click on Validate Credentials button, to validate the above details.

- In **Select Store**, select the store view.
- In **Enable Logging**, select **Yes** to capture logs for debugging purposes.

6. Scroll down and click on **Tmall Product Settings**, the section is expanded as shown below:

Tmall Product Settings

Root Categories for TKOF [global]

Medical Devices

Medical equipment

Family Planning Supplies

OTC Medicines

Beauty and Body Equipment

Tea

Model play

Smart Device

Organize

Storage and finishing

Select the suitable categories for your products.

Product Price [global] Default Magento Price

Select to send a different product price to **Tmall**

7. Under **Tmall Product Settings**, do the following steps:

- In **Root Categories for TKOF**, select the suitable categories for your products.
- In the **Product Price** list, select one of the following options:

▪ **Increase by Fixed Price:** If selected, then the **Modify by Fix Price** field appears.

▪ **Increase by Fixed Percentage:** If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to increase the price of the Tmall, product price by the entered value % of Magento price.

For Example,

Magento 2 price + 5% of Magento 2 price.

Magento 2 Price = 100

Select the **Increase By Fixed Percentage** option

Modify by Percentage Price = 5

$100 + 5\% \text{ of } 100 = 100 + 5 = 105$

Thus, Tmall Product Price = 105

▪ **Decrease by Fixed Price:** If selected, then the **Modify by Fix Price** field appears.

▪ **Decrease by Fixed Percentage:** If selected, then the **Modify by Percentage Price** field appears.

Enter the numeric value to decrease the price of the Tmall product price by the entered value % of Magento 2 price.

For Example,

Magento 2 price – 5% of Magento 2 price.

Magento 2 Price = 100

Select the **Decrease By Fixed Percentage** option

Modify by Fix Price = 5

$100 - 5\% \text{ of } 100 = 100 - 5 = 95$

Thus, Tmall Product Price = 95

8. Now scroll down and click on **Tmall Order Settings**, the section is expanded as shown below:

Tmall Order Settings

Tmall Order Id Prefix [global]

Prefix For Order Increment Id.

- Enter 'OI' To Set Tmall Order Id as Magento Increment Order Id.
- Otherwise Set According to Your Choice.
- Leave it Blank if You Want Default Magento Increment Id

Order Notification Email [global]

Ship From Info [global]

This information is required For Shipment of Orders.You have to fill in the format : { "firstName": "VoyageOne", "lastName": "ATTN: Demo Vendor", "nameSuffix": "", "emailAddress": "ym-support@voyageone.cn", "daytimePhone": "1.562.977.6408", "eveningPhone": "1.562.977.6408", "companyName": "VO", "country": "US", "stateOrProvince": "NY", "city": "Cerritos", "addressLine1": "416 Senator St Brooklyn", "addressLine2": "PID:10000888", "postalCode": "11220" }

Create Real Customer [global]

Customer Group [global]

Shipping Method of Tmall Orders [global]

Payment Method of Tmall Orders [global]

9. Under **Tmall Order Settings**, do the following steps:

- In **Tmall Order Id Prefix**, enter the prefix for Tmall order increment id.
- In the **Order Notification Email**, enter the email id for receiving the order notifications.
- In **Ship From Info**, enter the information required for the shipment of orders. The format to fill this will be:

```
{ "firstName": "VoyageOne", "lastName": "ATTN: Demo Vendor", "nameSuffix": "",  

"emailAddress": "vms-support@voyageone.cn", "daytimePhone": "1-562-977-6408",  

"eveningPhone": "1-562-977-6408", "companyName": "VO", "country": "US",  

"stateOrProvince": "NY", "city": "Cerritos", "addressLine1": "416 Senator St Brooklyn",  

"addressLine2": "PID:10000888", "postalCode": "11220" }
```
- In **Create Real Customer**, select **Yes** if you want to create a real customer for the order.
- In **Customer Group**, select the group of the customer.
- In **Shipping Method of Tmall Orders**, select the Tmall shipping method.
- In **Payment Method of Tmall Orders**, select the payment method.

10. Scroll down and click on **Tmall Cron Settings**, the section is expanded as shown below:

Tmall Cron Settings

The screenshot shows the 'Tmall Cron Settings' section. It contains four dropdown menus: 'Order Cron' (set to 'Enable'), 'Order Cron Time' (set to 'Every 15 Minutes'), 'Inventory Cron' (set to 'Enable'), and 'Inventory Cron Time' (set to 'Every 10 Minutes'). Below the 'Order Cron Time' dropdown is the label 'Order Fetch Cron Time'. Below the 'Inventory Cron Time' dropdown is the label 'Inventory Update Cron Time'.

11. Under **Tmall Cron Settings**, do the following steps:

- In **Order Cron**, select **Enable** to fetch the orders automatically through crons.
- In **Order Cron Time**, select the duration at which you want the order cron to run.
- In **Inventory Cron**, select **Enable** to update the inventory through cron.
- In **Inventory Cron Time**, select the duration at which you want the inventory cron to run.

12. Now scroll down and click on **Tmall Chunk(Batch) Settings**, the section is expanded as shown below:

Tmall Chunk(Batch) Settings

The screenshot shows the 'Tmall Chunk(Batch) Settings' section. It contains three dropdown menus, all set to '5': 'Product Validation Chunk Size', 'Product Upload Chunk Size', and 'Product Sync Chunk Size'.

13. Under **Tmall Chunk(Batch) Settings**, do the following steps:

- In **Product Validation Chunk Size**, enter the quantity for product validation.
- In **Product Upload Chunk Size**, enter the chunk size for uploading products.
- In **Product Sync Chunk Size**, enter the chunk size for syncing the products.

4. Profile Manager

Sellers can create a new profile and assign the required products to the profile. While creating and editing the

profile, sellers can map the Magento 2 attributes to the Tmall attributes. These attributes are applicable to all the products that are assigned to the profile.

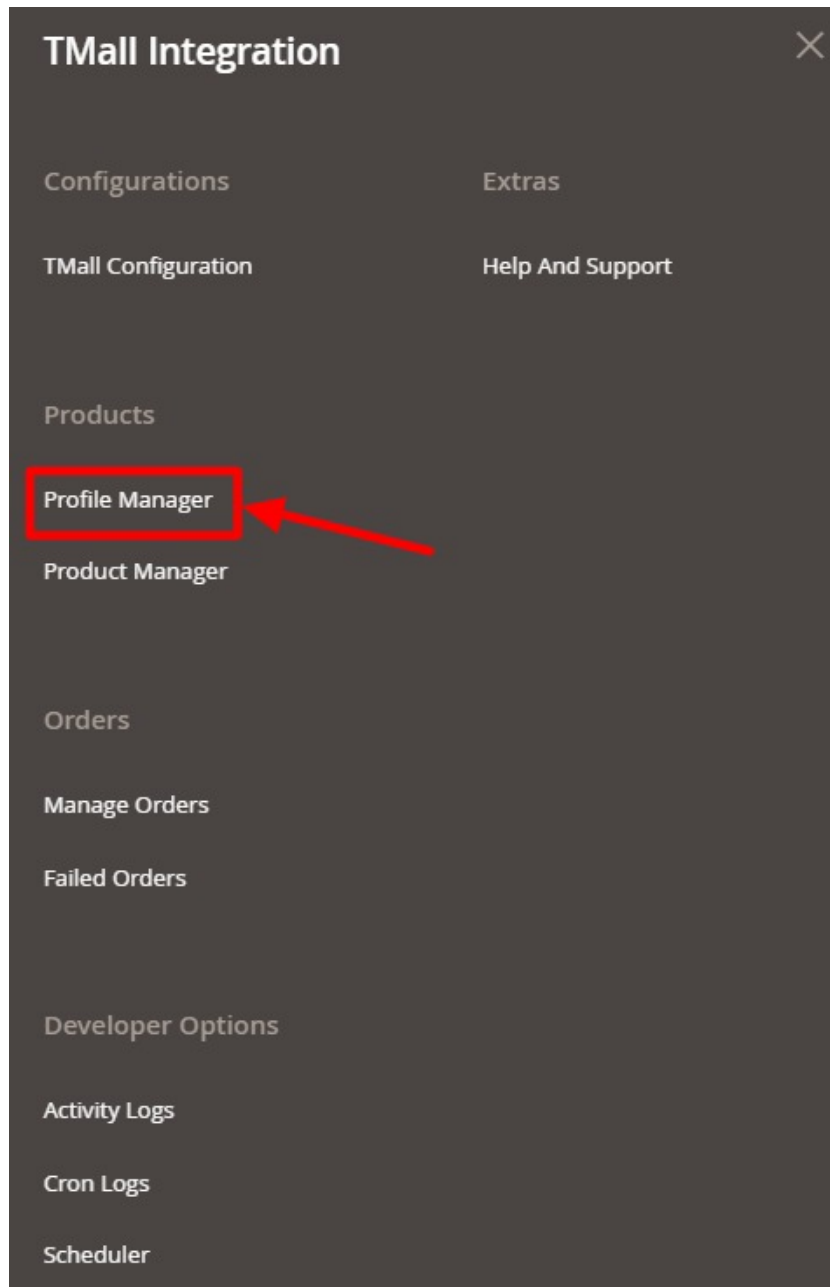

Sellers can do the following tasks:

- Add new profile
- Edit the existing profile
- Bulk Action on the Selected Profiles

4.1. Add a New Profile

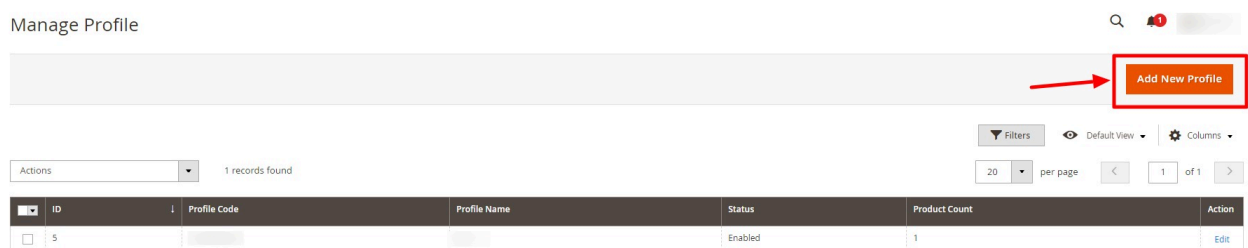

To Add New Profile,

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click on the **Tmall Integration**.
The menu appears as shown below:

3. Click on **Profile Manager**.

The **Profile Manager** page appears as shown below:

4. Click on **Add New Profile** button to create a new profile.

The **Add New Profile** page appears as shown below:

9. All the products are listed in the table.
10. Click on the **Save** button.
The profile is saved and created on the **Manage Profile** page.

4.2. Edit Existing Profile

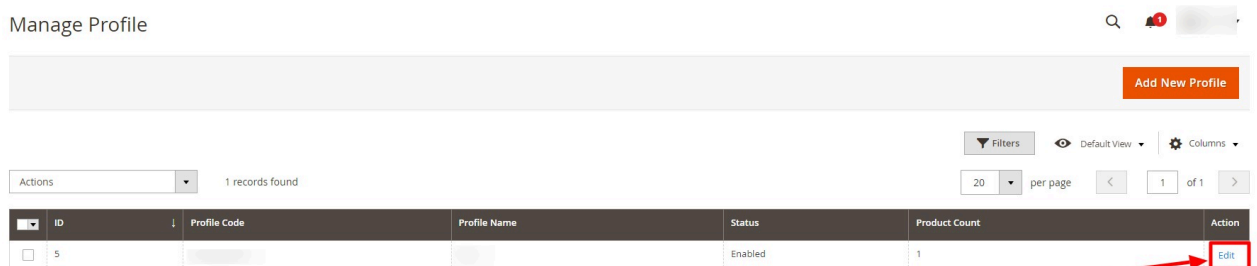

To edit an existing profile,

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click on the **Tmall Integration**.
The menu appears as shown below:

3. Click on **Profile Manager**.

The **Profile Manager** page appears as shown below:

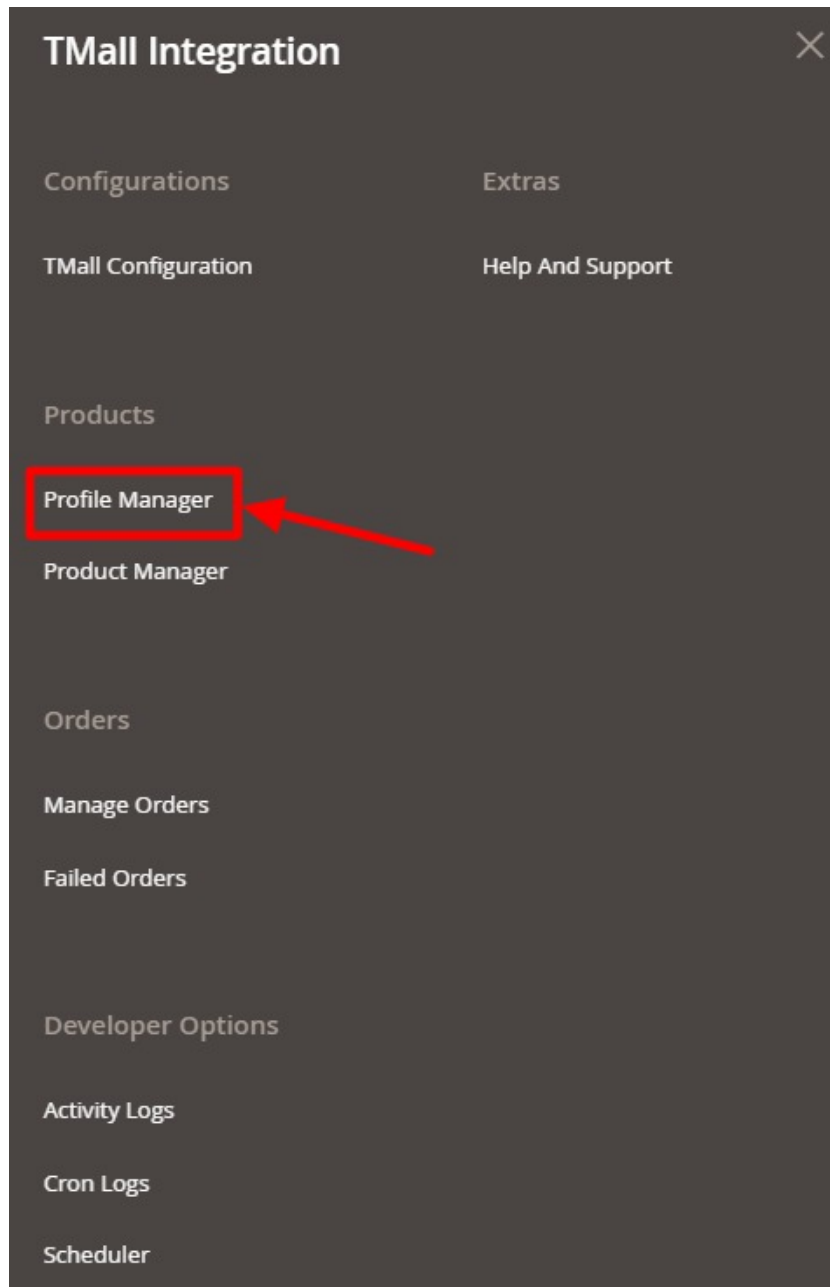

4. Scroll down to the required profile row.
5. In the **Action** column of the respective row, click the **Edit** link.
The profile editing page appears as shown in the following figure:

6. In the left navigation panel, click the required menu, and then make the changes as per requirement in the respective section.
7. Click on the **Save** button.
The edited profile is saved and the success message appears on the **Manage Profile** page.

4.3. Submit Bulk Actions on Profiles

To perform bulk actions on profiles,

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click on the **Tmall Integration**.
The menu appears as shown below:

3. Click on **Profile Manager**.

The **Profile Manager** page appears as shown below:

The reason for the invalid will be displayed as shown below:

To perform bulk actions on Upload,

1. In the **Actions** list, choose the following options as shown in the figure:

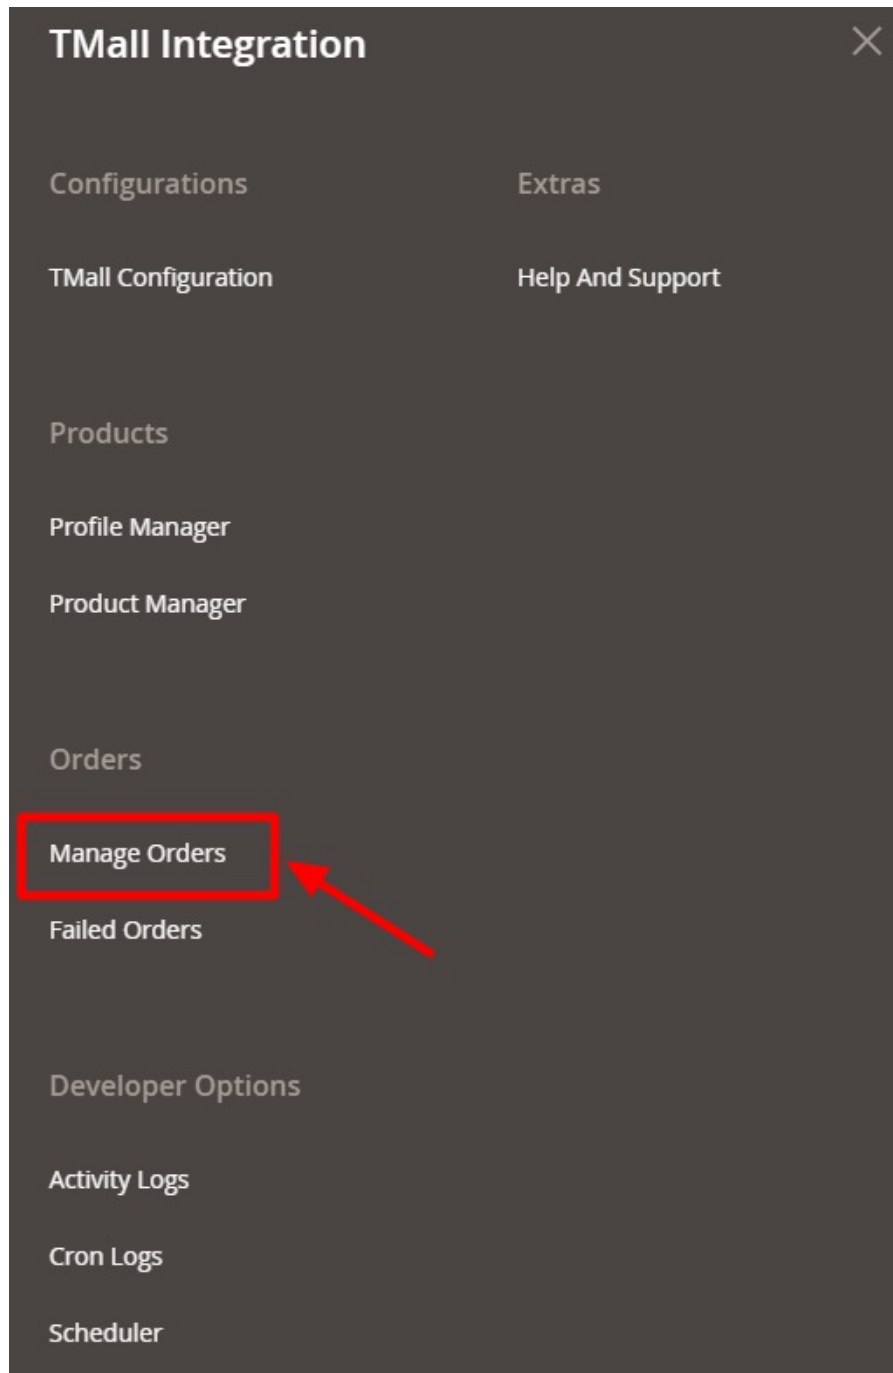

2. To validate the products, click on **Validate Product(s)**. The selected products will be validated.
3. To upload the products, click on **Upload Product(s)**. The selected products will be uploaded.
4. To update the inventory, click on **Update Inventory**. The selected products inventory will be updated.
5. To update the price of the products, click on **Update Price**. The price for the selected products will be updated.
6. To delete the products, click on **Remove Products(s)**. The selected products will be deleted.

6. Manage Orders

To manage the orders,

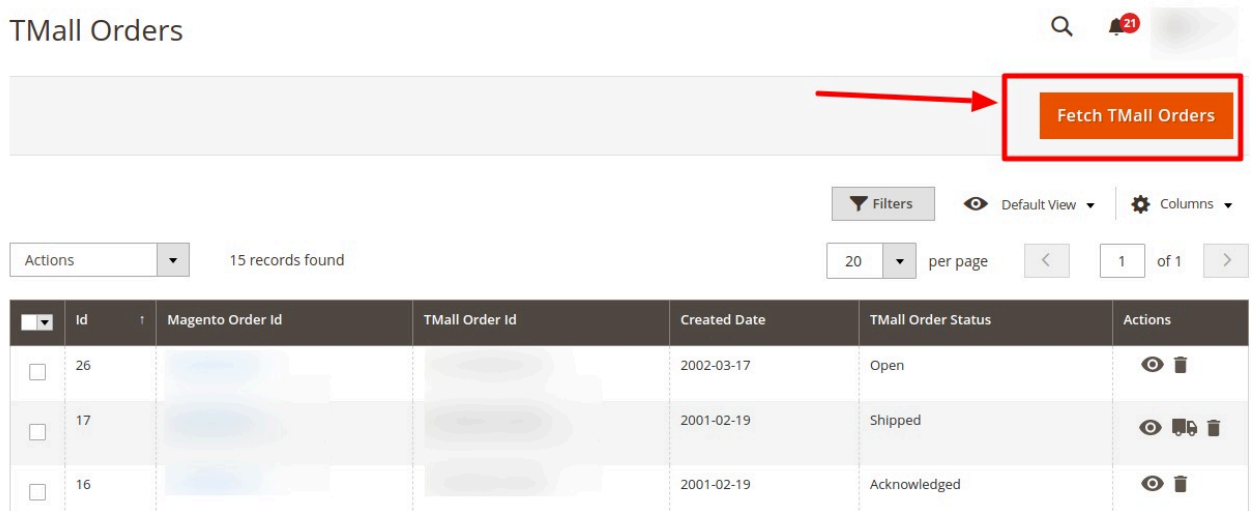

1. Go to the **Magento 2 Admin** panel.
2. On the left navigation bar, click on the **Tmall Integration**.
The menu appears as shown below:

3. Click on **Manage Orders**.

The **Manage Orders** page appears as shown below:

TMall Orders

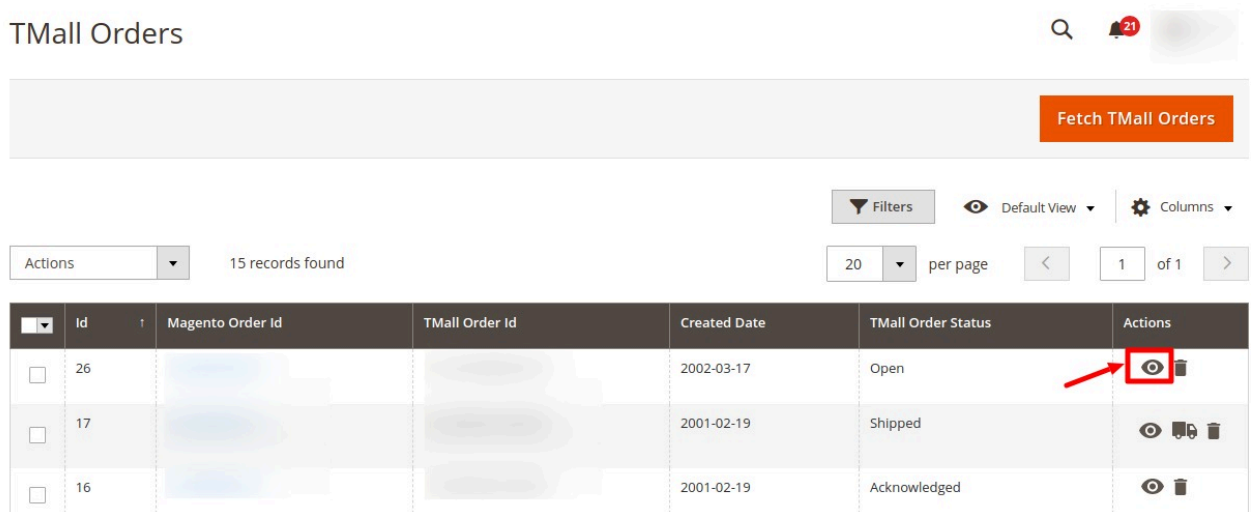

The screenshot shows the TMall Orders interface. At the top right, there is a search icon, a notification bell with '21', and a profile icon. Below this is a large grey bar with a red box around the 'Fetch Tmall Orders' button, which is highlighted with a red arrow. Below the bar are controls for filters, default view, and columns. Further down, there is an 'Actions' dropdown, '15 records found', and pagination controls showing '20 per page' and '1 of 1'. The main table has columns: Id, Magento Order Id, Tmall Order Id, Created Date, Tmall Order Status, and Actions. The table contains three rows of data.

Id	Magento Order Id	Tmall Order Id	Created Date	Tmall Order Status	Actions
26			2002-03-17	Open	
17			2001-02-19	Shipped	
16			2001-02-19	Acknowledged	

4. Click on the **Fetch Tmall Orders** button to fetch new orders.

5. To View the Order details click on **View**.

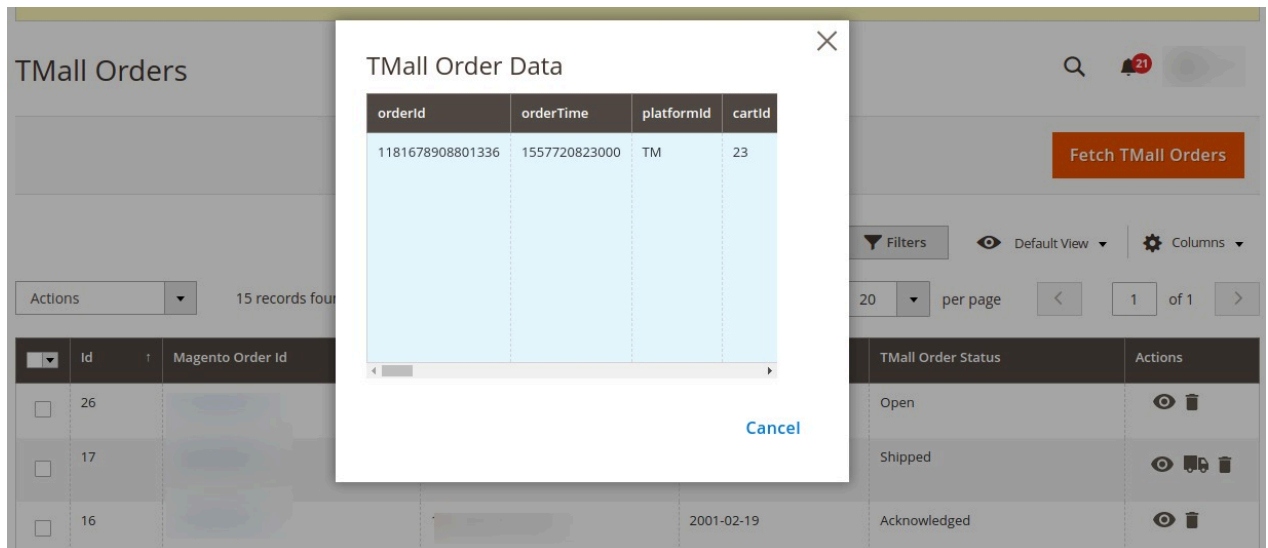

TMall Orders

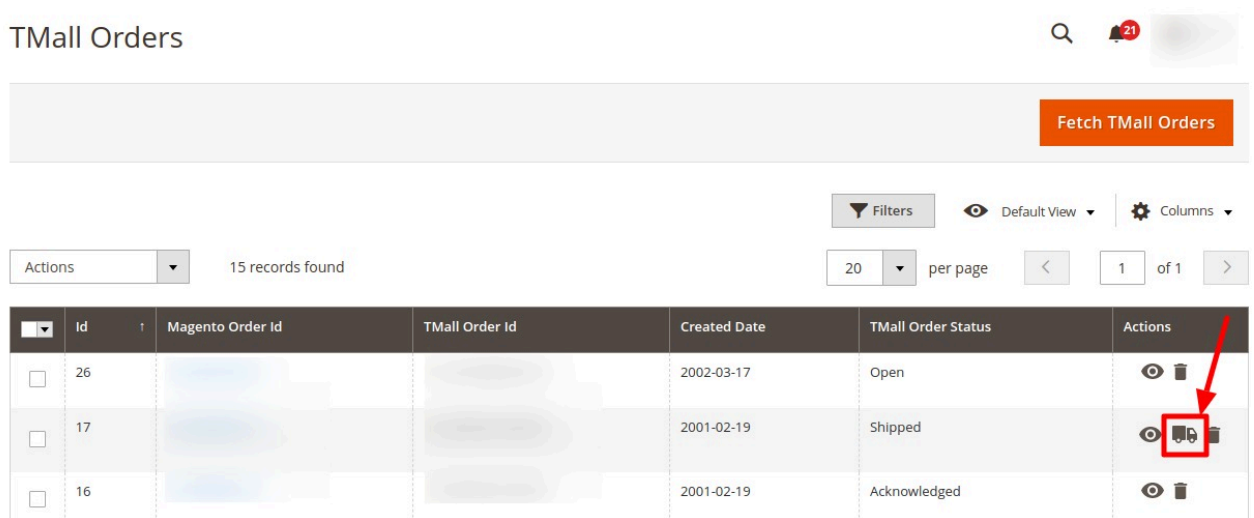

The screenshot shows the TMall Orders interface after clicking 'Fetch Tmall Orders'. The 'Fetch Tmall Orders' button is still visible. The table now shows the same data as before. The 'View' icon (an eye) for the first order (Id 26) is highlighted with a red box and a red arrow.

Id	Magento Order Id	Tmall Order Id	Created Date	Tmall Order Status	Actions
26			2002-03-17	Open	
17			2001-02-19	Shipped	
16			2001-02-19	Acknowledged	

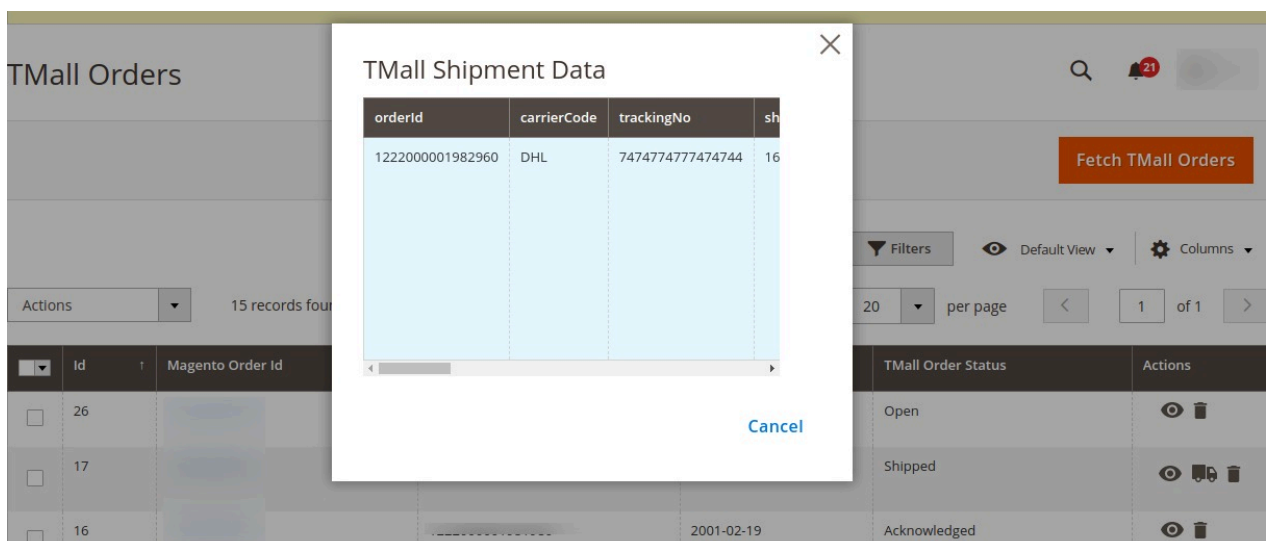

You can view the order details as shown below:

6. To view the Shipment details of the order, click on the **Shipment** icon.

The Shipment details will be displayed as shown below:

7. To delete the order click on the **Delete** icon.
